	Scrum	An agile team collaboration framework is commonly used in software development.
	SPESSE Project	Sustainable Procurement, Environmental & Social Standards Enhancement (SPESSE) Project
	SRS	Software Requirements Specification

1. INTRODUCTION

USER'S MANUAL is one of the main project documents that helps users understand how to use the product effectively and efficiently. It serves as a reference guide for users to consult when they have questions or encounter issues with the product. It provides detailed information about the System's features, specifications, and functionalities.

This document fully embraces information about the System, ensuring users can use it effectively, safely, and confidently.

2. OBJECTIVE OF THE DOCUMENT

This document provides step-by-step instructions on regular procedures for Student Registration, Examination Management, and Course Content System users.
The objectives of the User's Guide are:

1. To provide Users with the initial practical skills to work efficiently with the System's functional modules.
2. to familiarize Users with the System administration procedures;
3. to provide future users and training with methodological support to assist them with user training and system testing;

The User's Guide is dedicated to the next specific user's roles for SIS, LMS, and WordPress teams:

1. Site-admin LCMS
2. Student
3. Certification officer
4. Certification manager
5. Admin of WordPress

3. GOAL OF THE PROJECT

The main goal of developing and implementing the National Procurement Certification Portal (NPCP) is to increase the level of training of procurement specialists and provide a unified information space for the training and certification of purchasing personnel.

NPCP is a comprehensive web application that will provide users with a full cycle of specialist training in Nigeria including:

- Informing - providing the necessary information about obtaining a professional certificate, information about advanced training, etc.
- Preparation - provision of training materials to prepare for certification
- Certification - providing the opportunity to pass an exam to obtain the required certificate.

NPCP will ensure that users pass both local and international certifications.

4. HOW THE GUIDE STRUCTURE IS ORGANIZED

This User Guide describes how SIS, LMS, and WordPress support daily activities and operations. These step-by-step instructions on how to conduct operations are illustrated with pictures and accompanied by detailed descriptions. The following processes are reflected in the User's Guide.

- Student Information System management
- Learning content management system
- WordPress management

5. INFORMATION CONTENT WEBSITE

An information public website is developed to provide information on the Professionalization and Certification of Procurement Practices in the country. Beyond informational content, the web portal will handle membership registrations, build tools for skills assessment and placements into certification levels, and provide opportunities for students to purchase Exam Bundles and lesson plans for certification exams.
SPESSE Website is developed using the WordPress CMS.

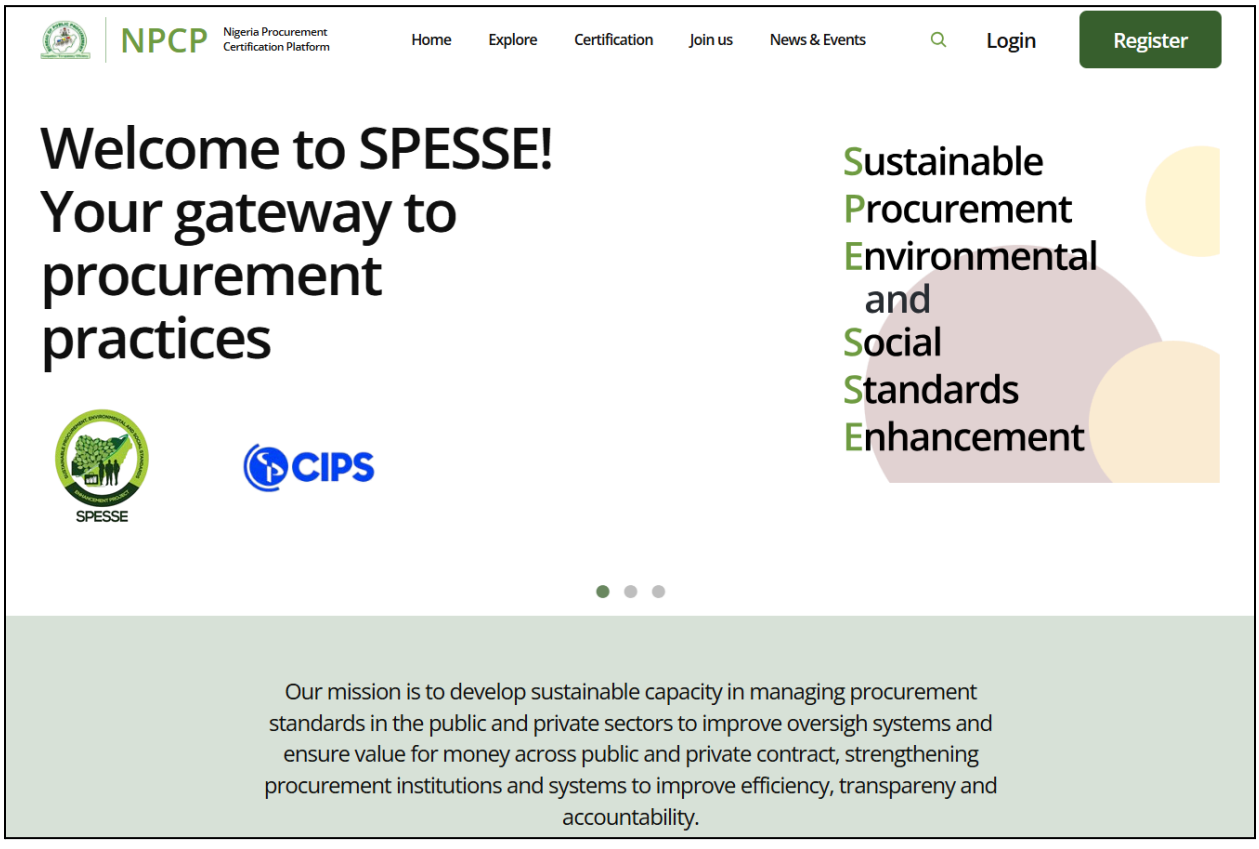
5.1 ADMINISTRATION

The information content website is developed using WordPress CMS. Administration of the portal, content creation, and site management must be handled by the Client. It is expected and was agreed that the Client's users already have experience with WordPress and Consultant. More details about WordPress will be described in the chapter "Manage WordPress"

5.2 NAVIGATING ON SITE

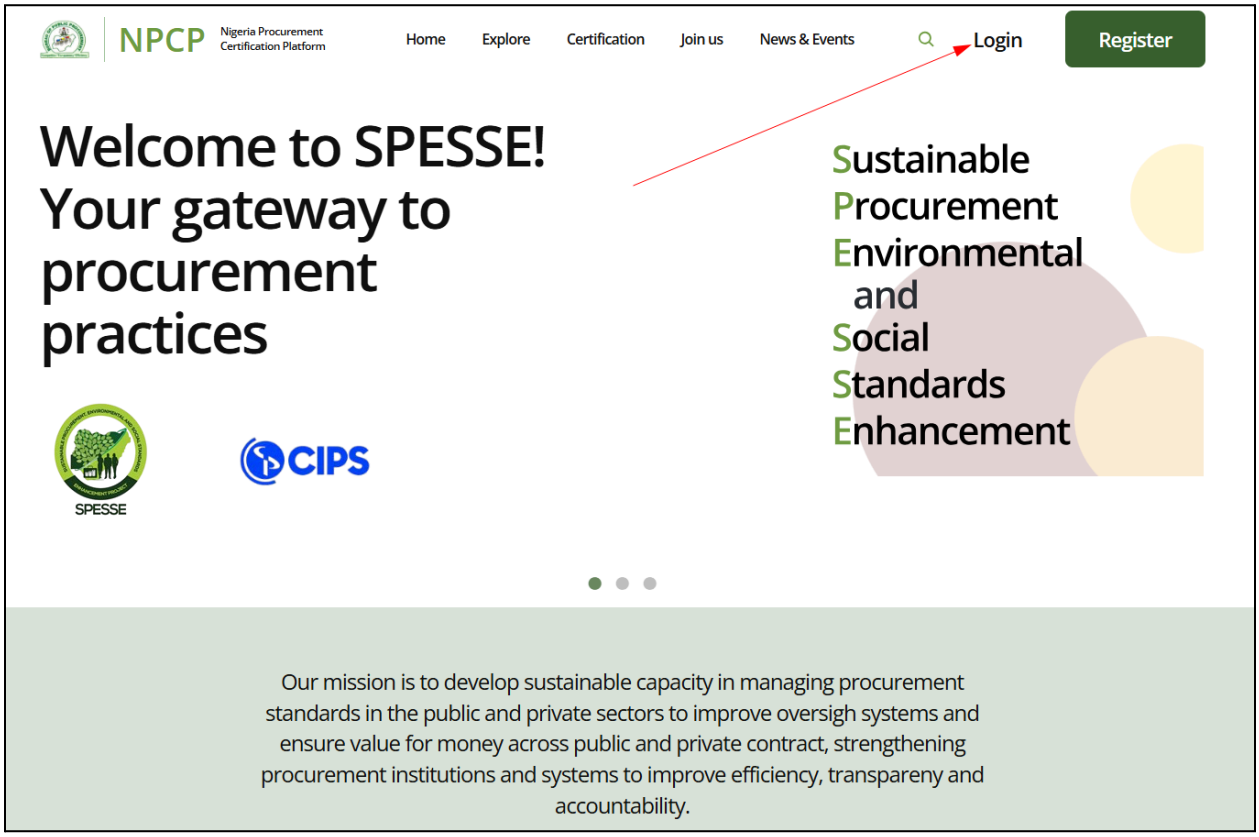
The website includes such parts with the possibility to navigate for users:

- Home
- Explore
- Certification
- Join us
- News and Event
- Login
- Register

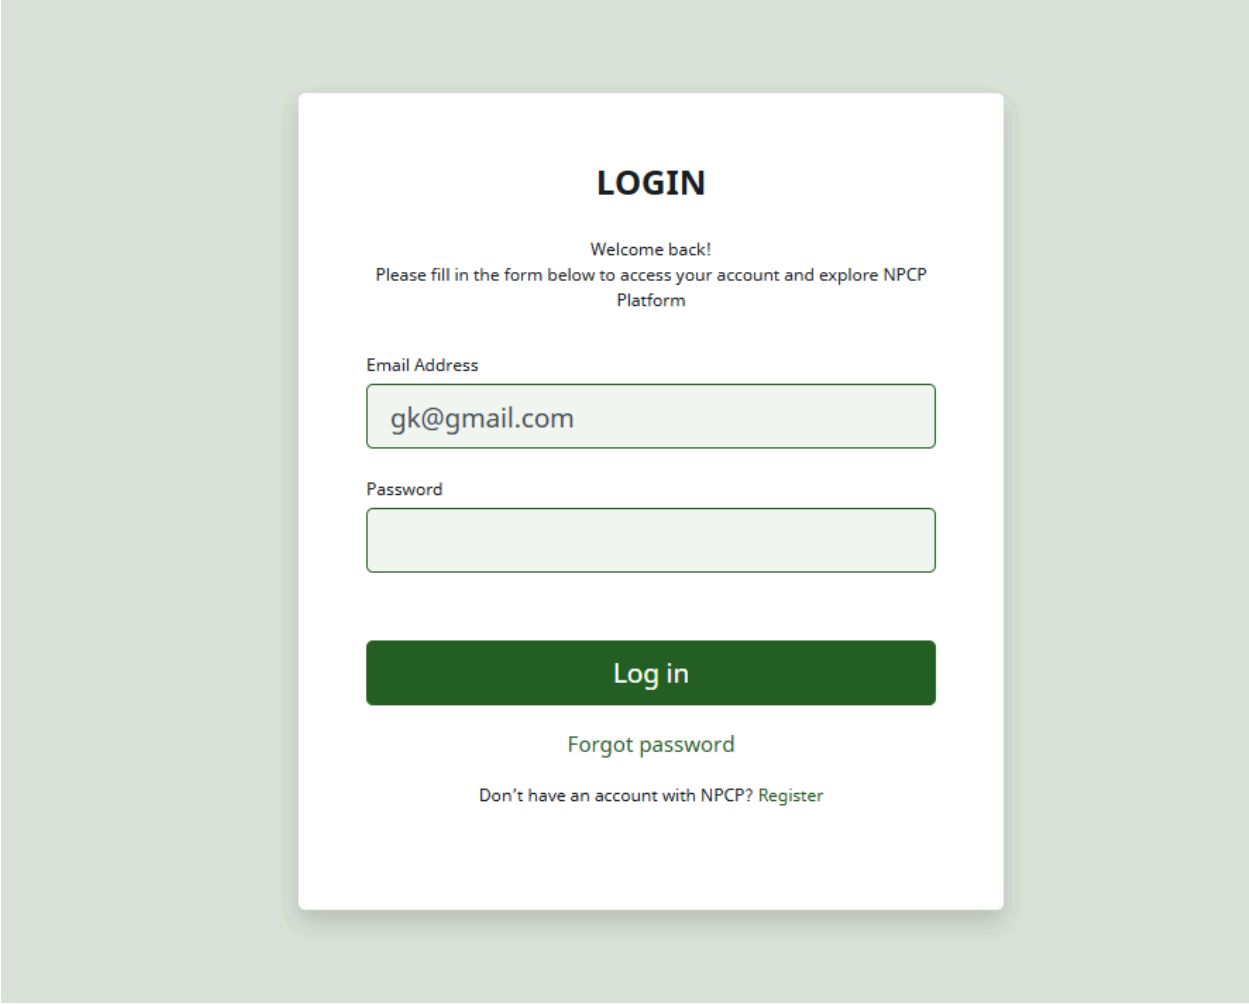


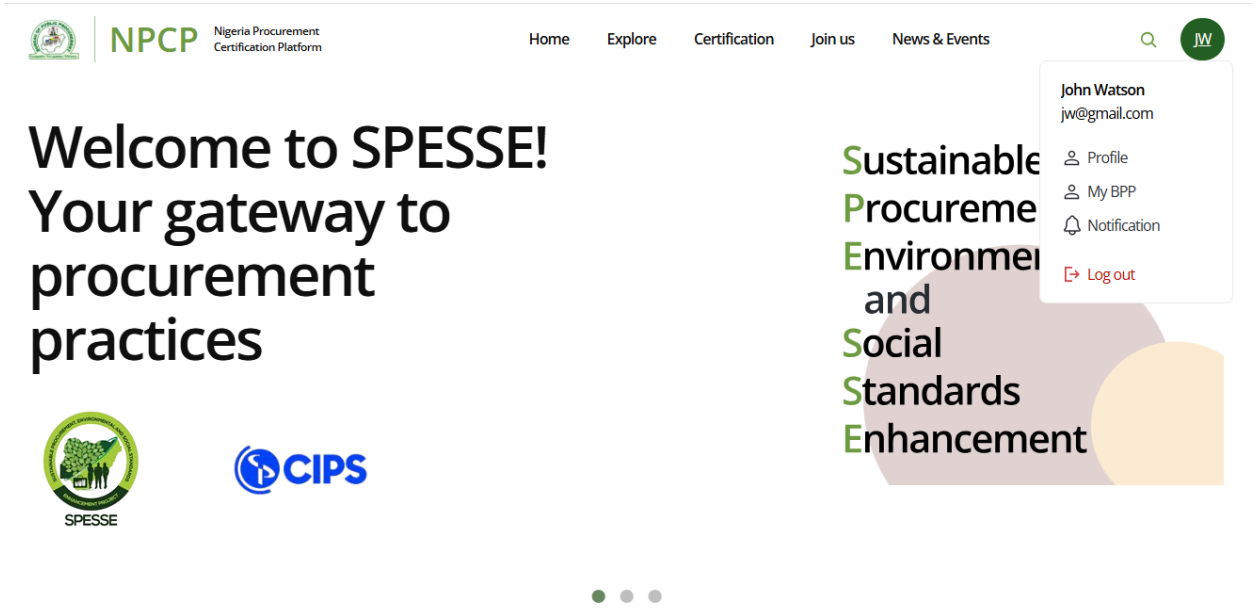
5.3 LOGIN IN AS AUTHORIZED USER

The system allows users to log in for already authorized users.



Enter the login details:
Use the email address as the user's login and provide the password. Click "Login".

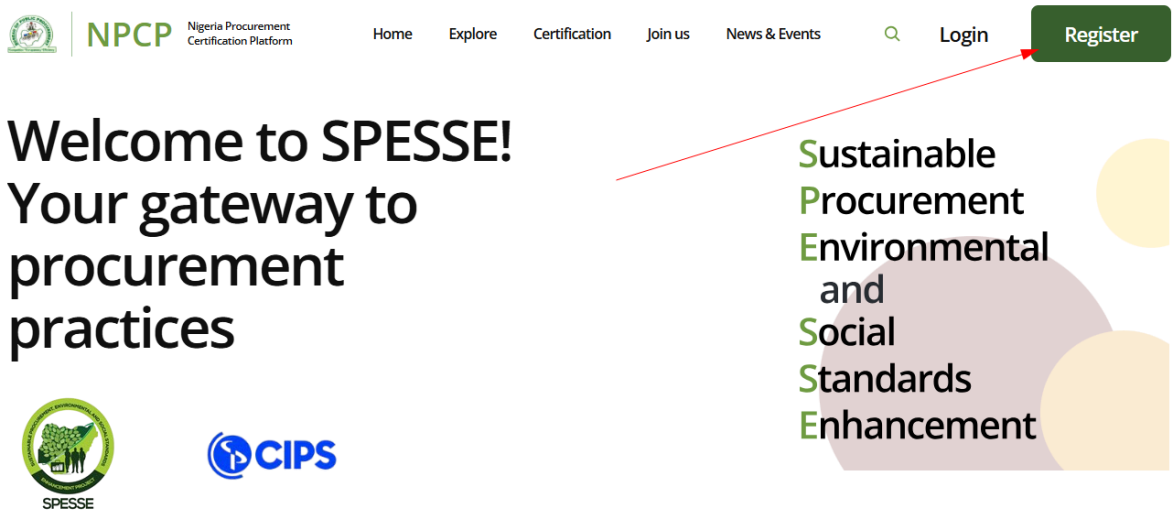




5.4 REGISTRATION

The LMS is customized to facilitate the registration process and enable SPESSE program participants to register. The process begins when a student accesses the Public Portal's home page and clicks the "Register" button to start the registration. The system then displays the registration form, which the student completes and submits.

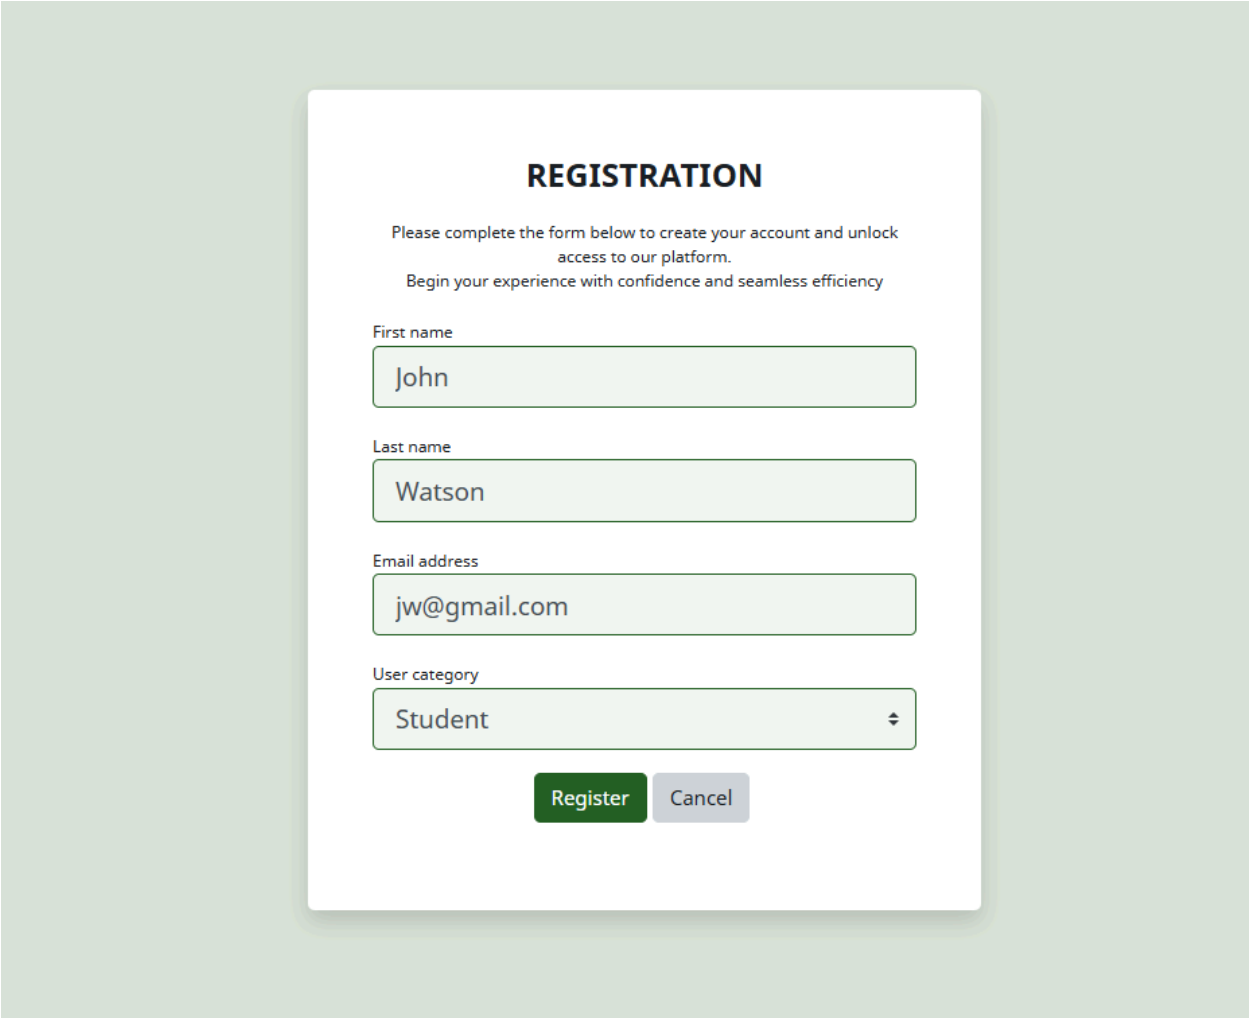
Click the button "Register"



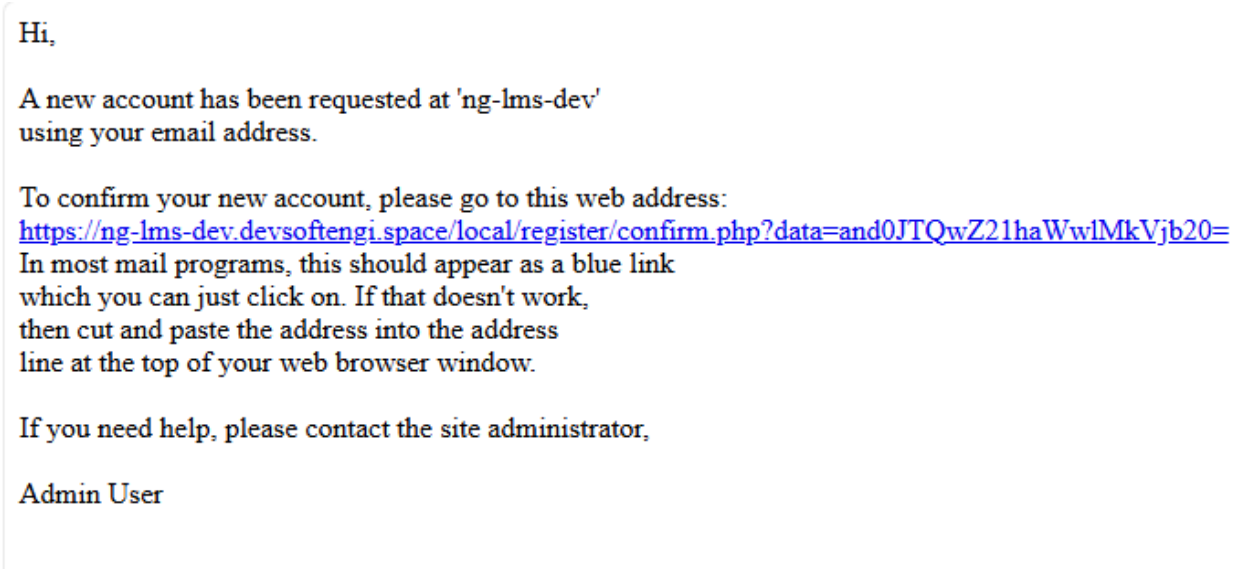
Our mission is to develop sustainable capacity in managing procurement standards in the public and private sectors to improve oversigh systems and ensure value for money across public and private contract, strengthening procurement institutions and systems to improve efficiency, transpareny and accountability.

Fill out the registration form:

1 First name
2 Last name
3 E-mail -is login
4 User category: Student, Public Sector Professional, Private Sector Professional



The system sends a notification to the user's email, which must be confirmed by the user. Click on the link.



Hi,

A new account has been requested at 'ng-lms-dev'
using your email address.

To confirm your new account, please go to this web address:
https://ng-lms-dev.devsoftengi.space/local/register/confirm.php?data=and0JTQwZ21haWwlMkVjb20=
In most mail programs, this should appear as a blue link
which you can just click on. If that doesn't work,
then cut and paste the address into the address
line at the top of your web browser window.

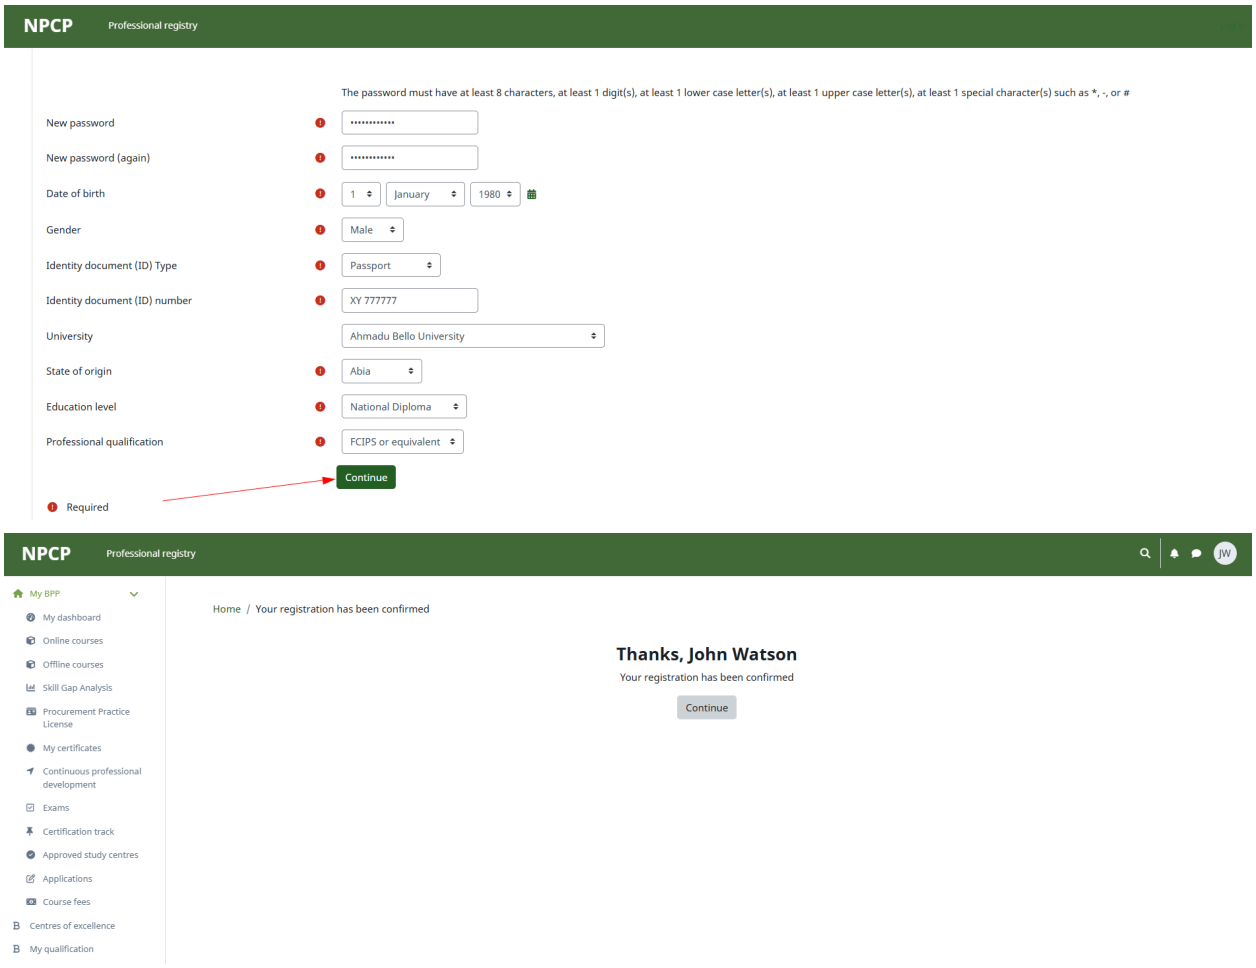
If you need help, please contact the site administrator,

Admin User

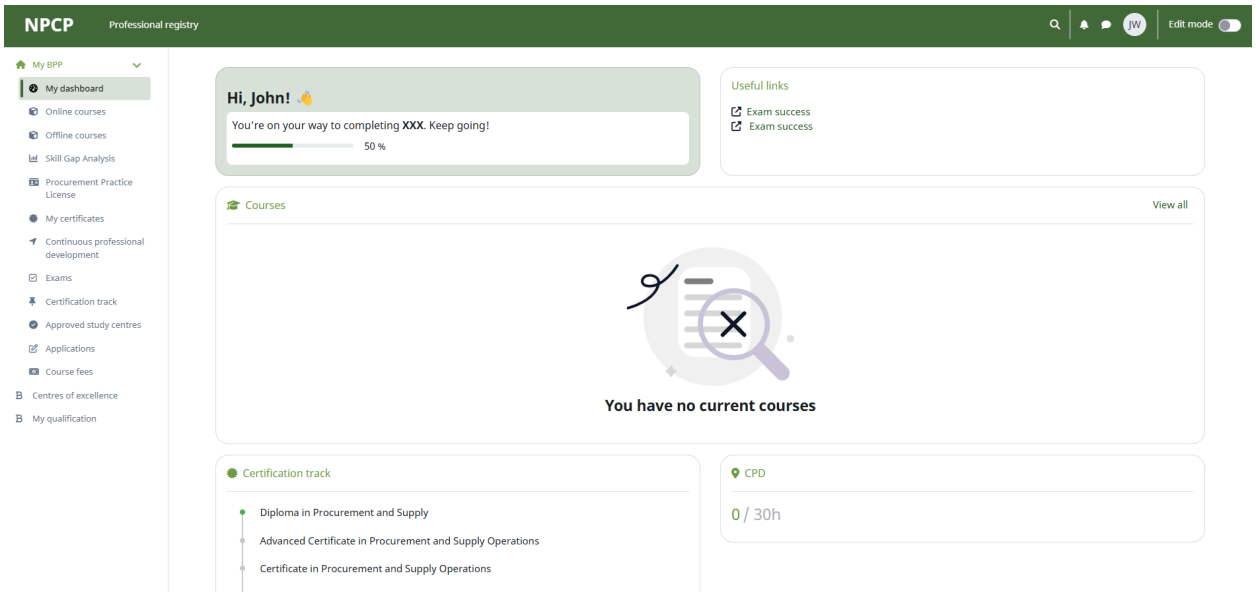
Fill in the fields:

1. Create a password
1. Date of birth
3. Gender
4. Identity document (ID) Type
5. Identity document (ID) number
6. University
7. State of origin
8. Education level
9. Professional qualification

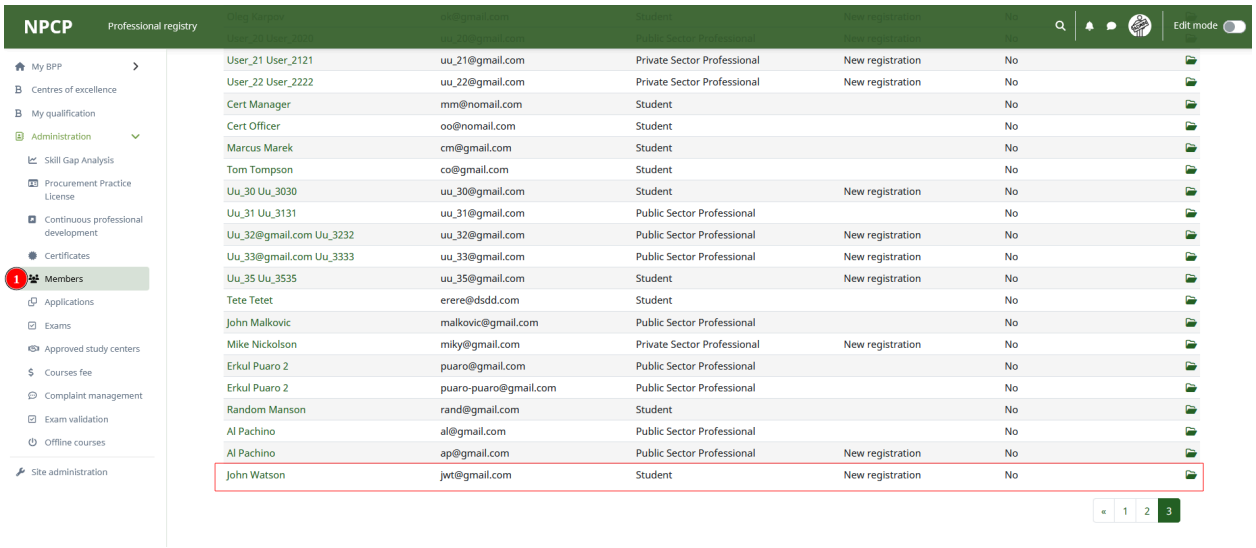
And click the button “Continue”



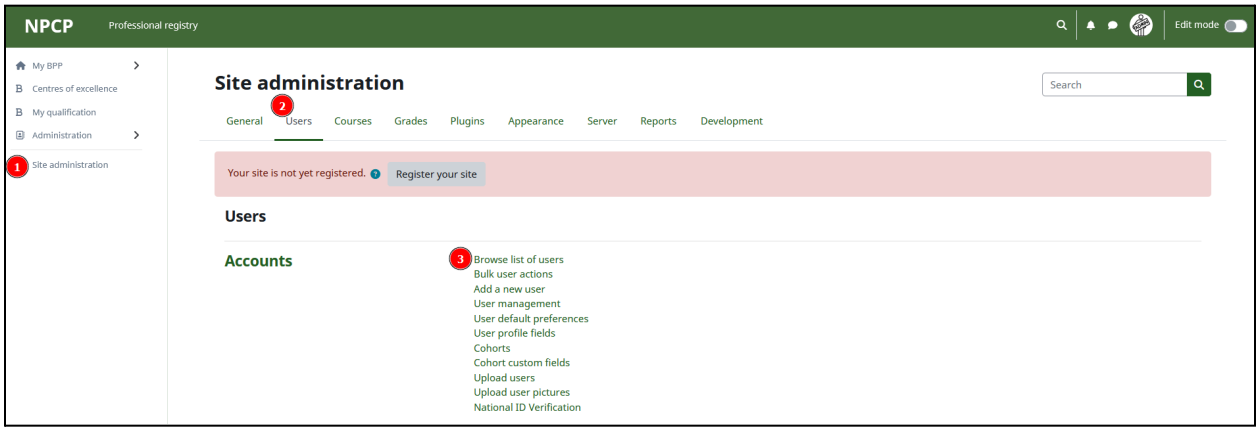
The user is logged into SIS.

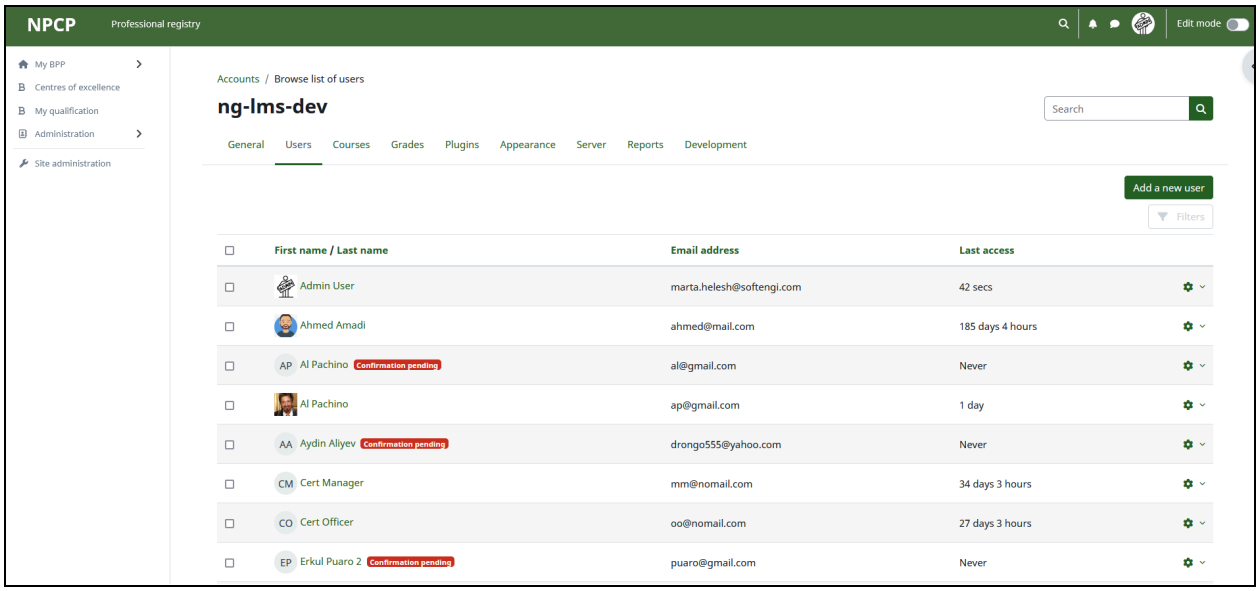


Important!!! If the user is registered in the category “Student,” “Public Sector Professional,” or “Private Sector Professional,” the record is added to the "Members" menu which is available for the site admin.



Important: The full list of LCMS users can be accessed by navigating to the menu: "Site Administration" -> "Users" -> "Browse the List of Users", which is available to the site admin.

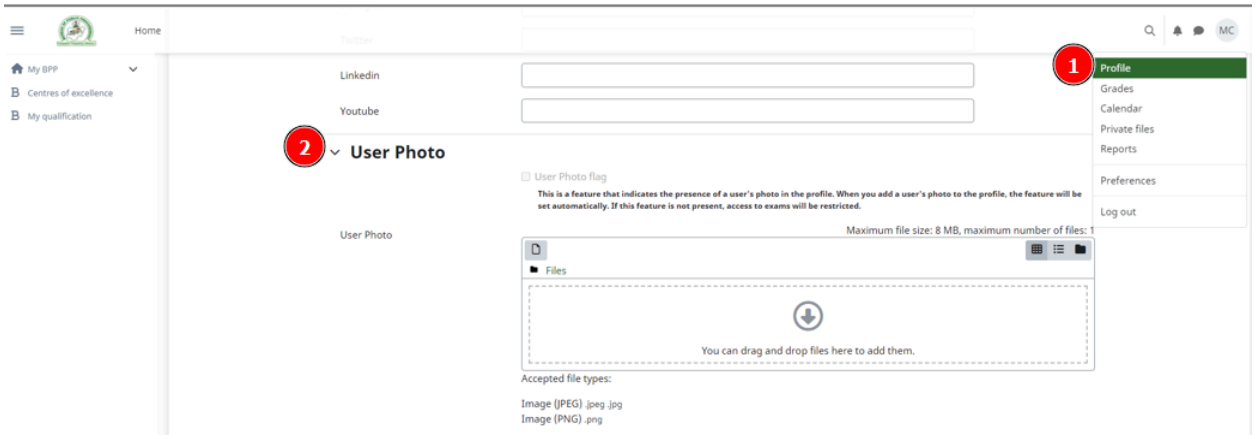




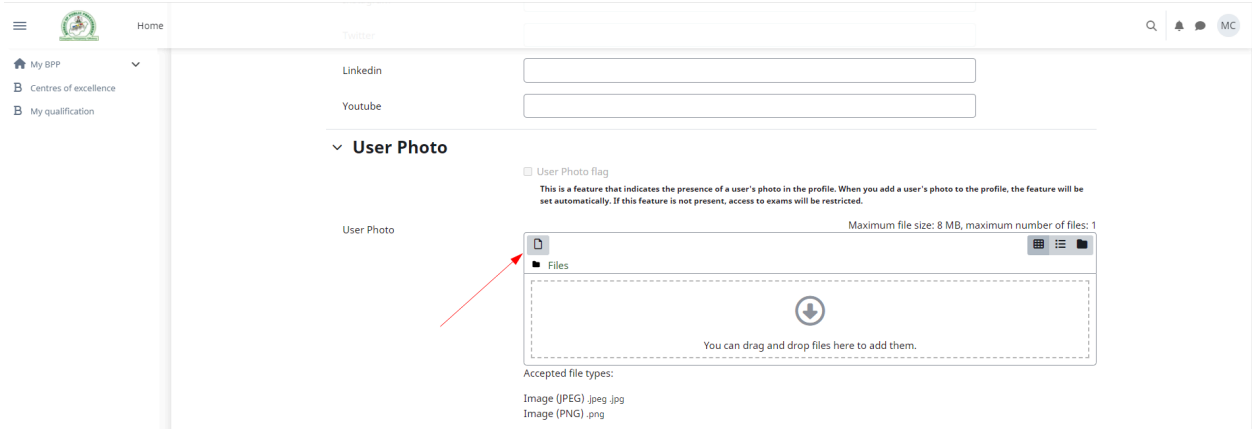
For information about National ID verification, refer to the topic "Verification National ID of user"

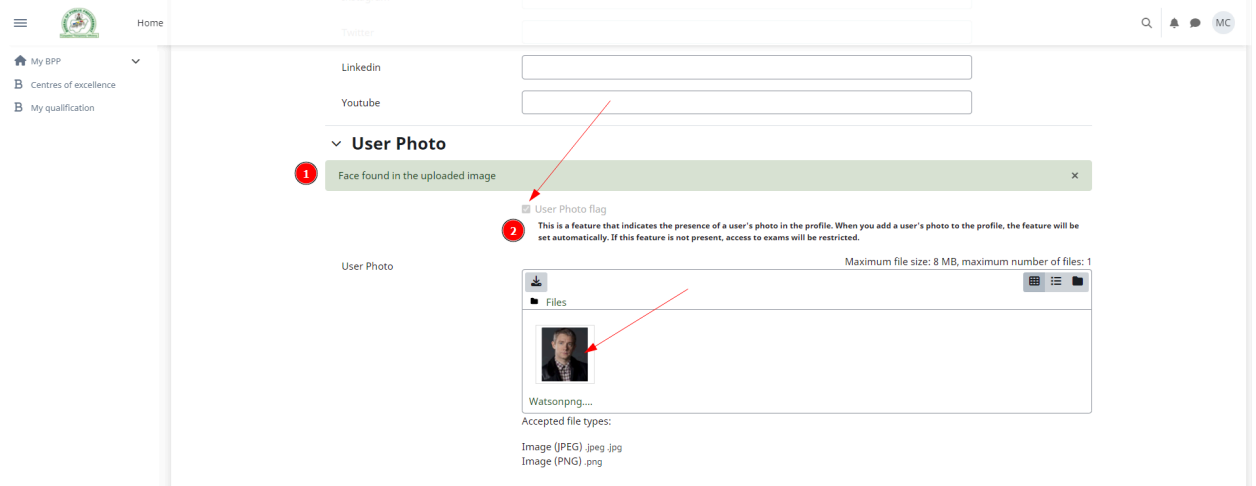
5.4.1 USER CAN ADD USER PHOTO AND NATIONAL ID

Users can add photos for exam validation. Click on the profile and scroll down to block "User Photo"



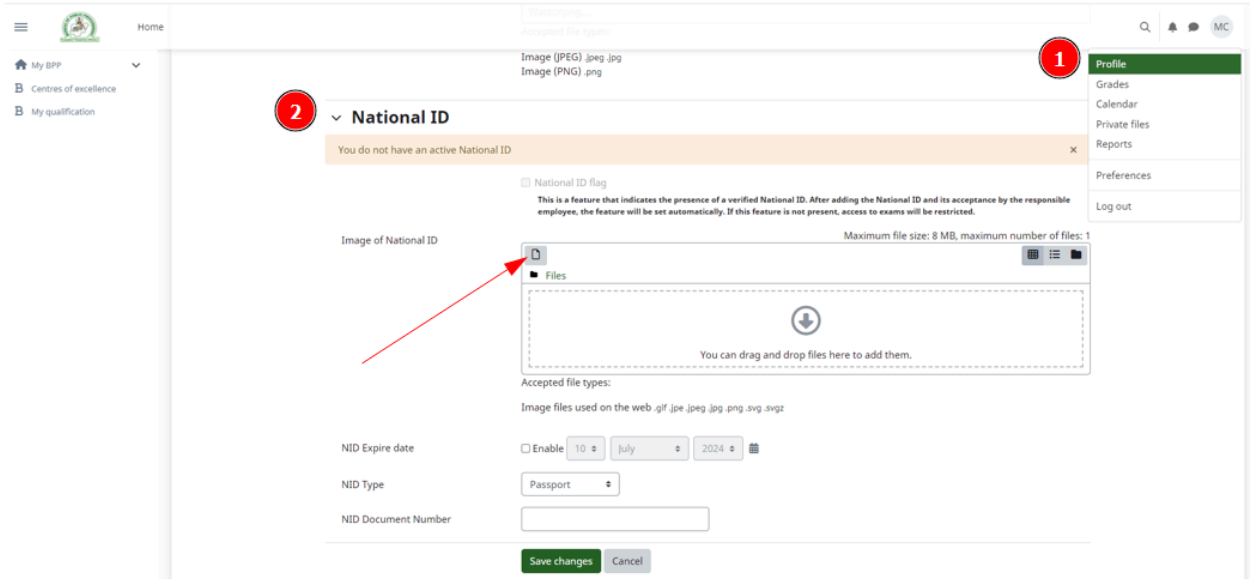
Add a file from the local PC



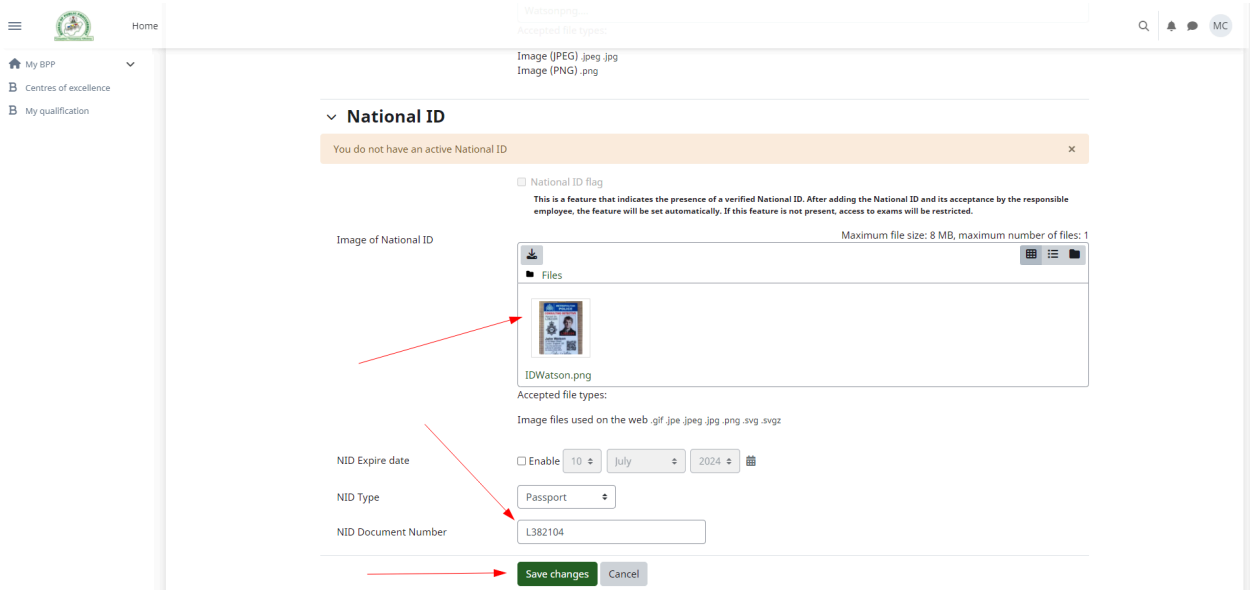


Important: The picture must clearly show the face, as the "Face Recognition" module requires a visible face to function properly. This will only be activated once the "User photo flag" checkbox is set to "YES."

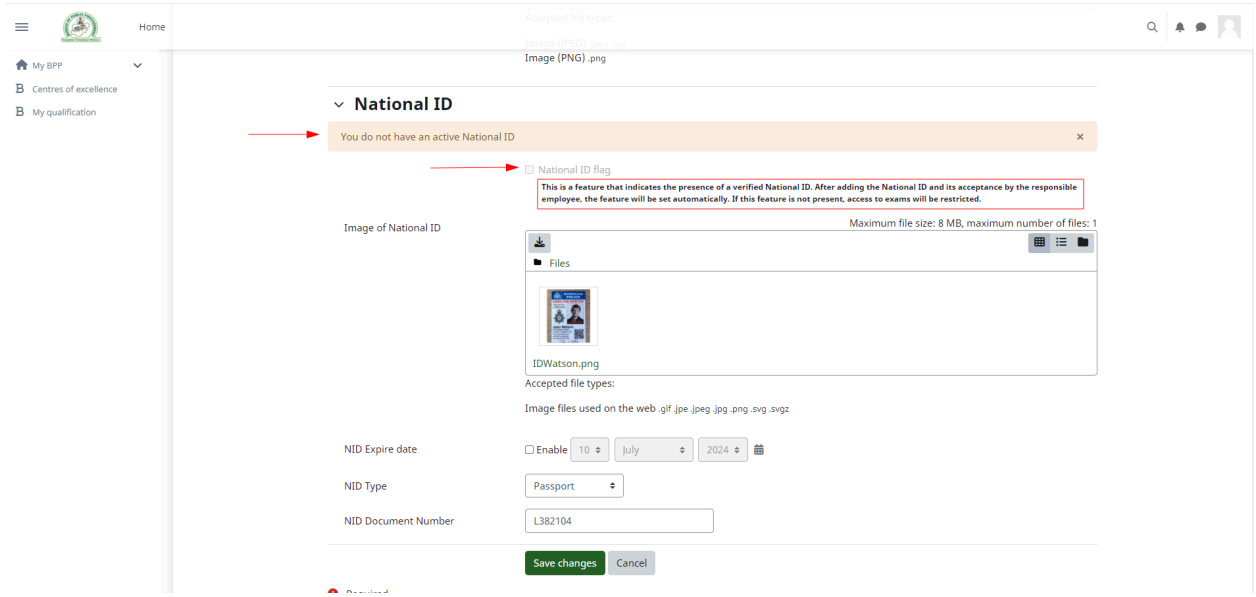
Additionally, the user can add a National ID for exam validation. To do so, click on the profile and scroll down to the "National ID" section.



Select “NID Type”, and “NID Document Number”. Click “Save”.

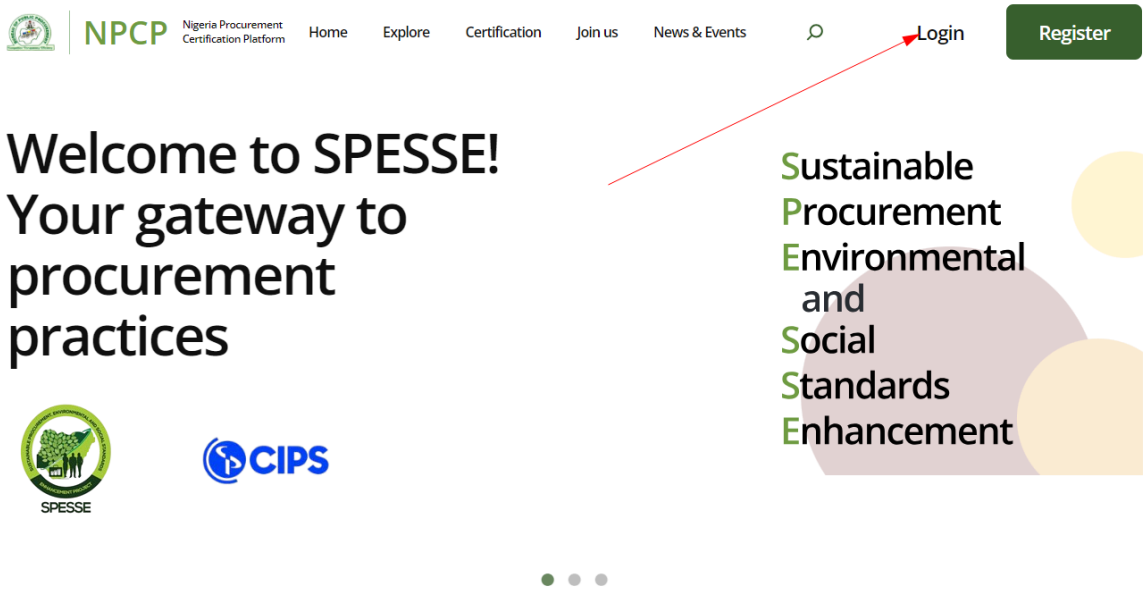


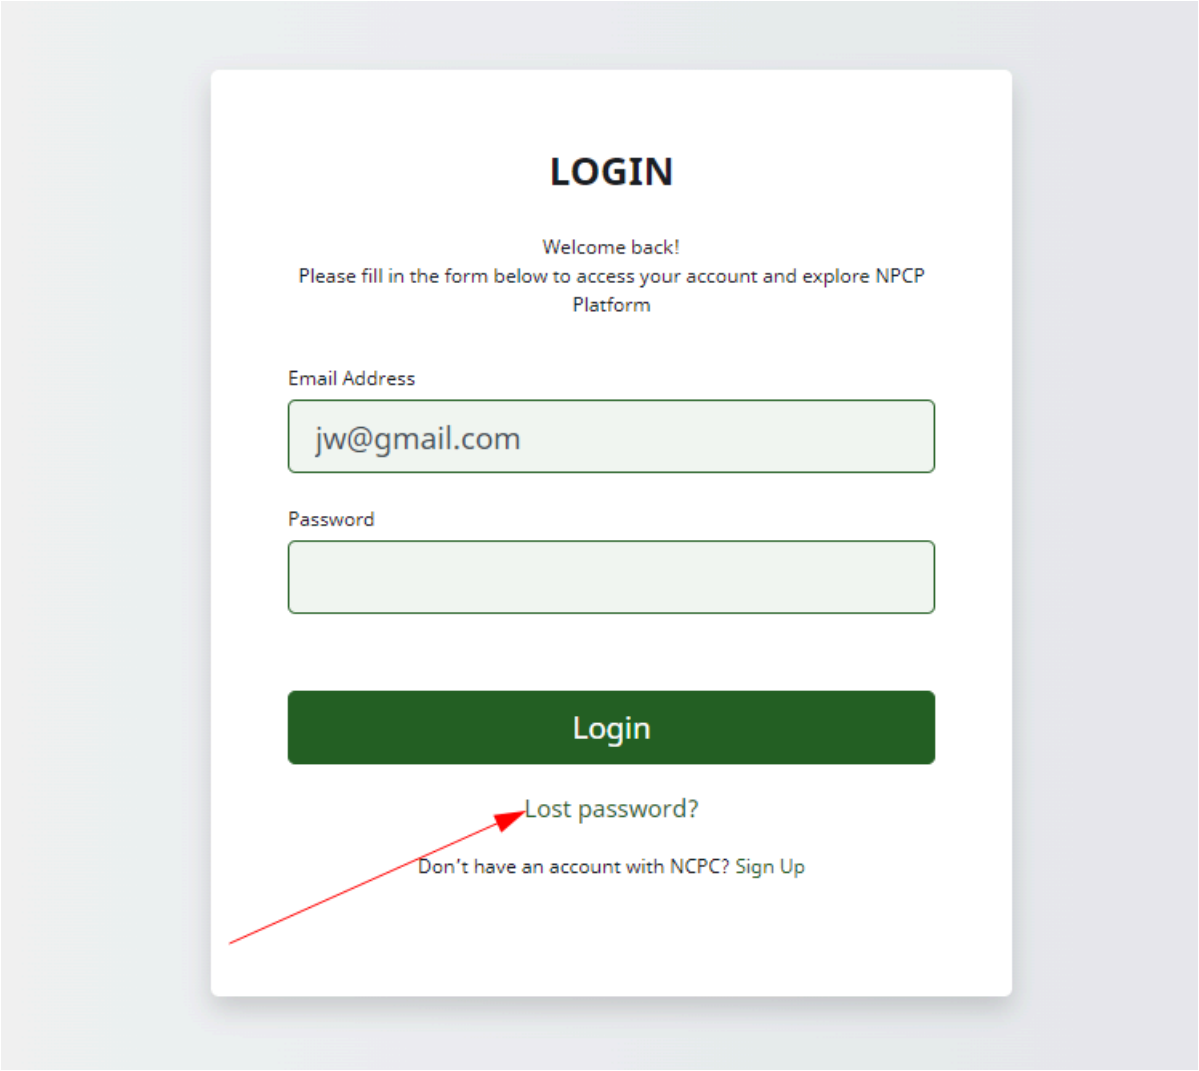
Important!!! This is a feature that indicates the presence of a verified National ID. After adding the National ID and its acceptance by the responsible employee, the feature will be set automatically. If this feature is not present, access to exams will be restricted.



5.4.2 HOW TO WORK WITH “FORGOT PASSWORD”

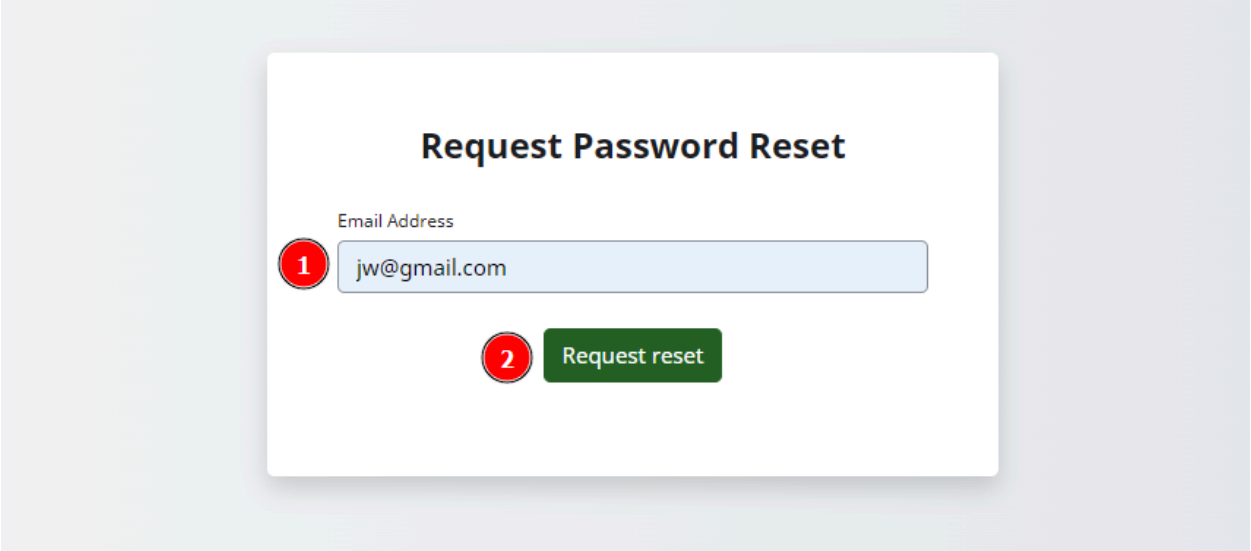
If a user forgets their password, the system provides an option to reset it. Simply click the "Login" button, then select the "Lost Password" button.

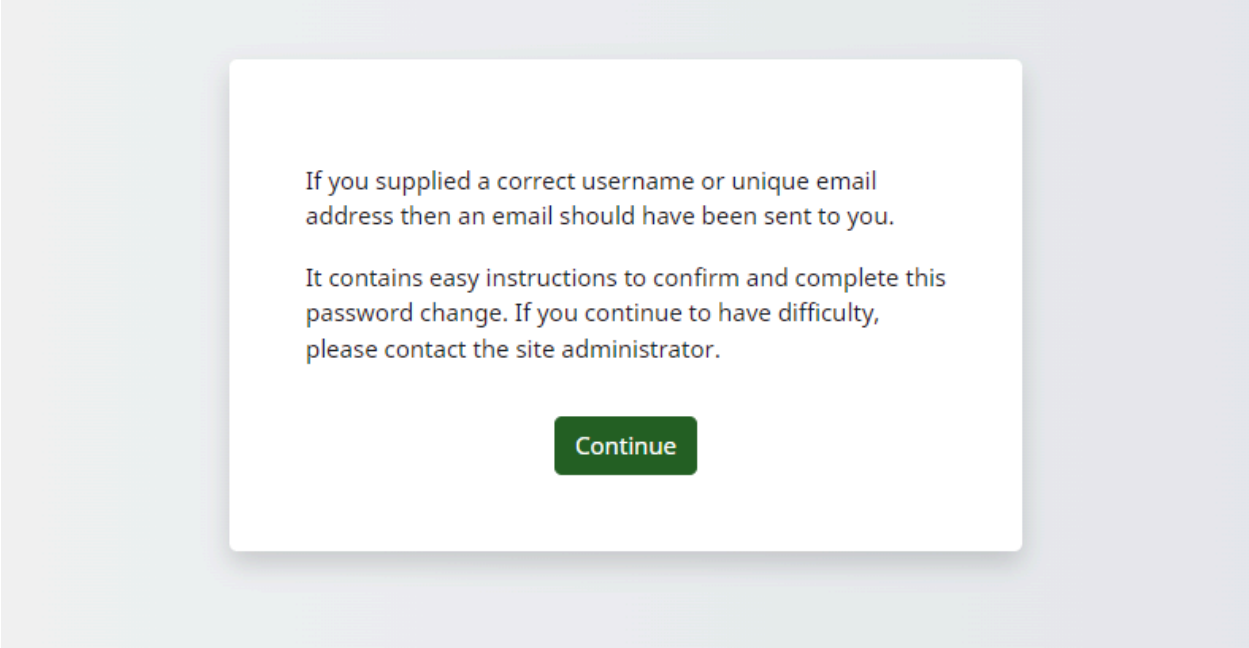




LOGIN
Welcome back!
Please fill in the form below to access your account and explore NPCP Platform
Email Address
jw@gmail.com
Password
Login
Lost password?
Don't have an account with NCPC? Sign Up

Enter the user's email and click “Request reset”

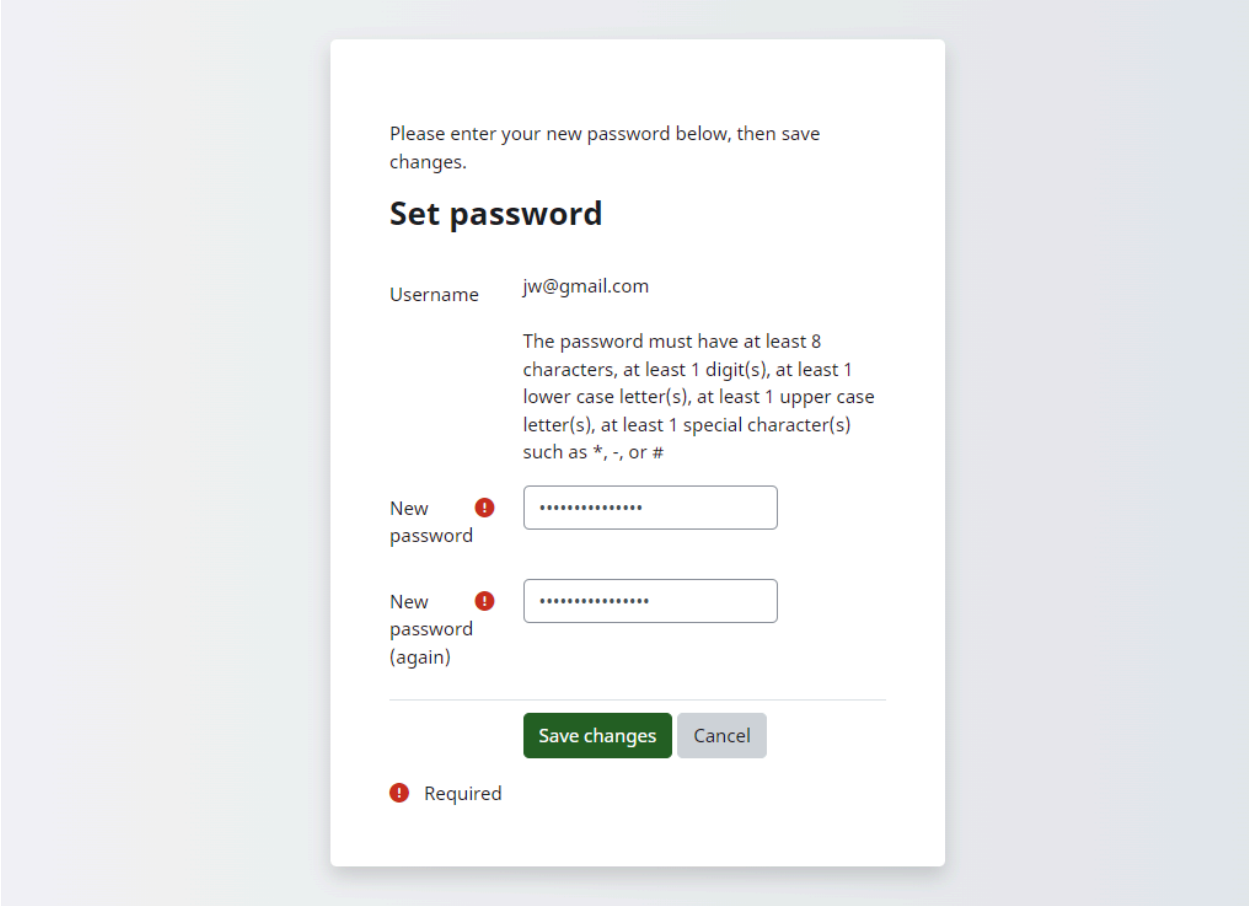




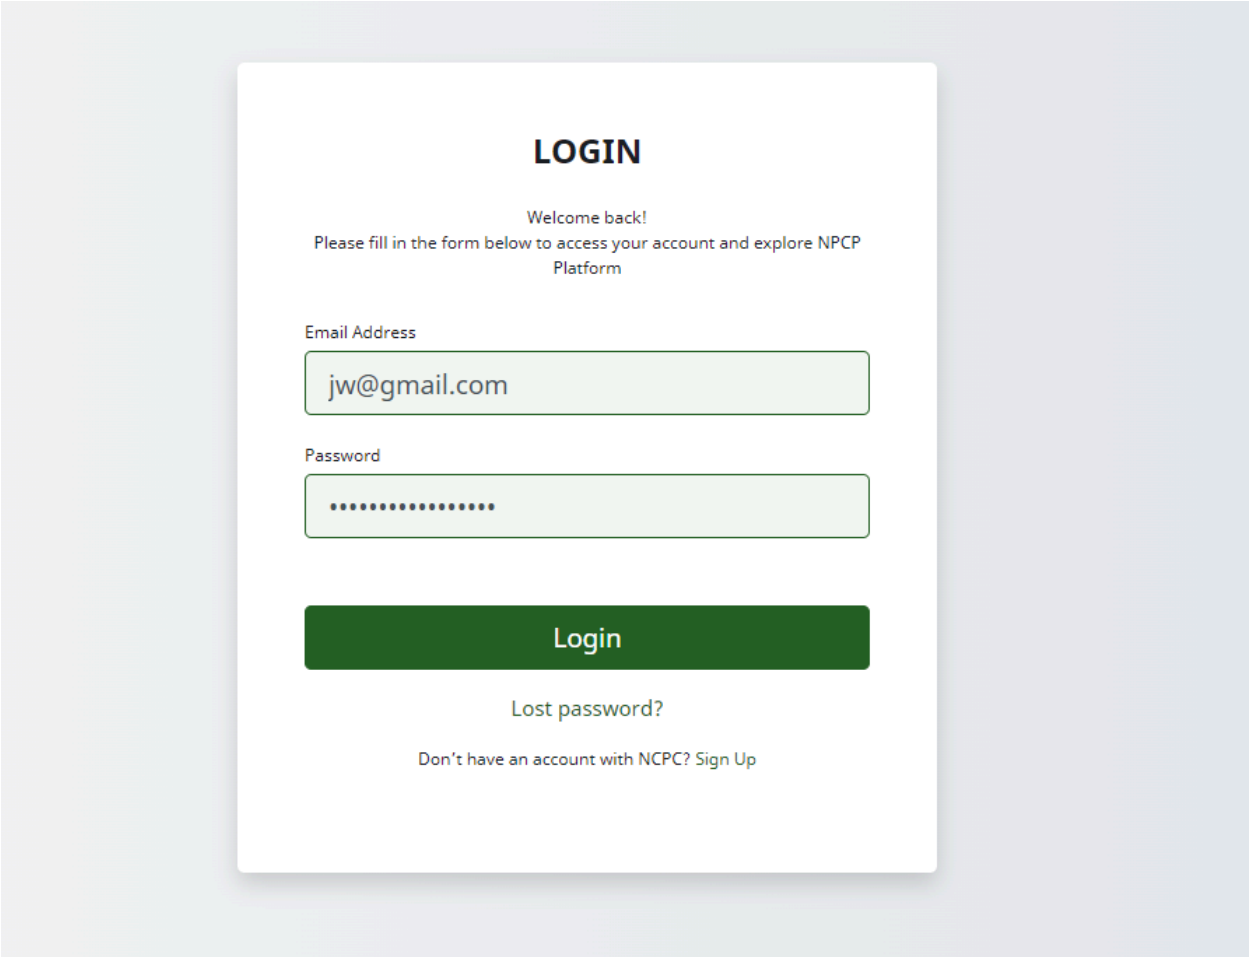
Check your email and follow the instructions provided.

Hi John,
A password reset was requested for your account 'jwt@gmail.com' at ng-lms-dev.
To confirm this request, and set a new password for your account, please go to the following web address: https://ng-lms-dev.devsoftengi.space/login/forgot_password.php?token=VNCCGSuqdDafGetAPNCfp3d1oY9WrPfF (This link is valid for 30 minutes from the time this reset was first requested.)
If this password reset was not requested by you, no action is needed.
If you need help, please contact the site administrator,
Admin User

Enter new password



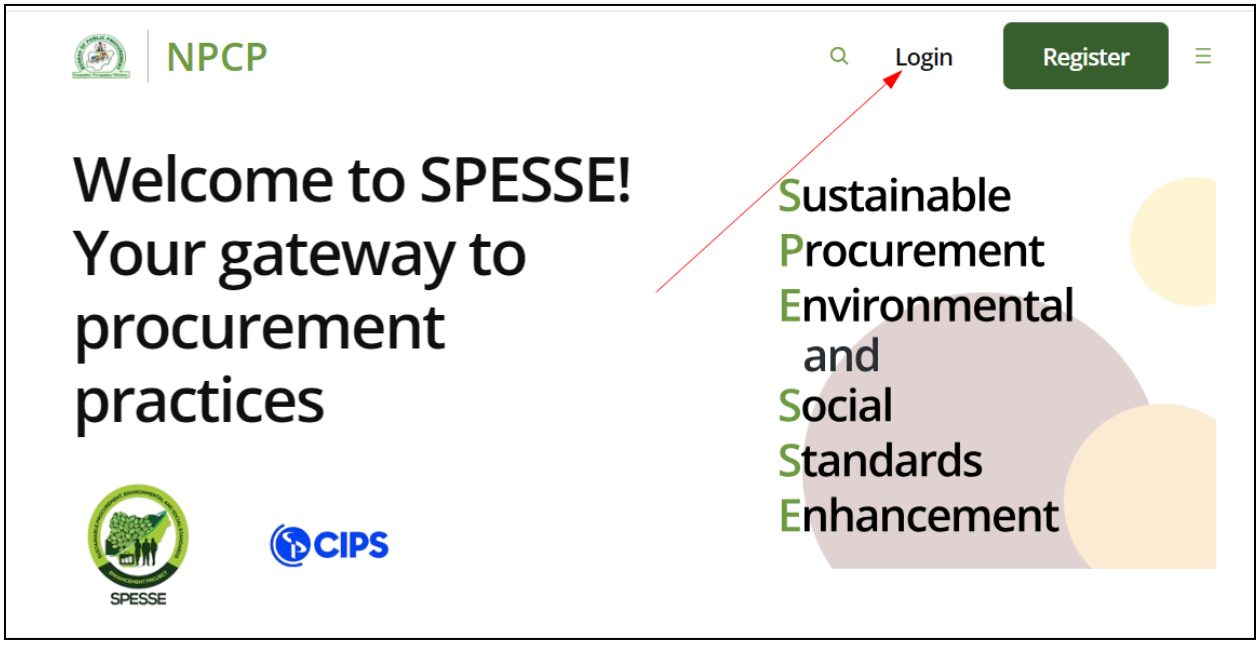
Try to log in using the new password.



5.5 HOW TO VERIFY CERTIFICATE ON THE WEBSITE

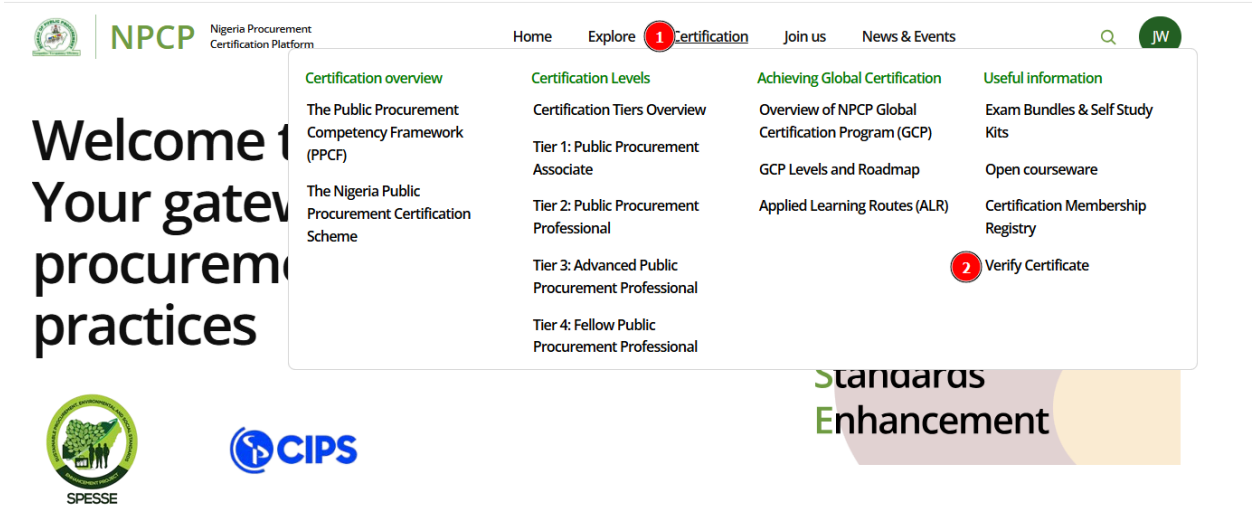
The certification process begins after a student has completed their course and involves taking an exam. The website is integrated with the SPESSE Certification Membership Register, enabling parties to verify the qualifications of certified individuals.

To proceed, log in to the website.

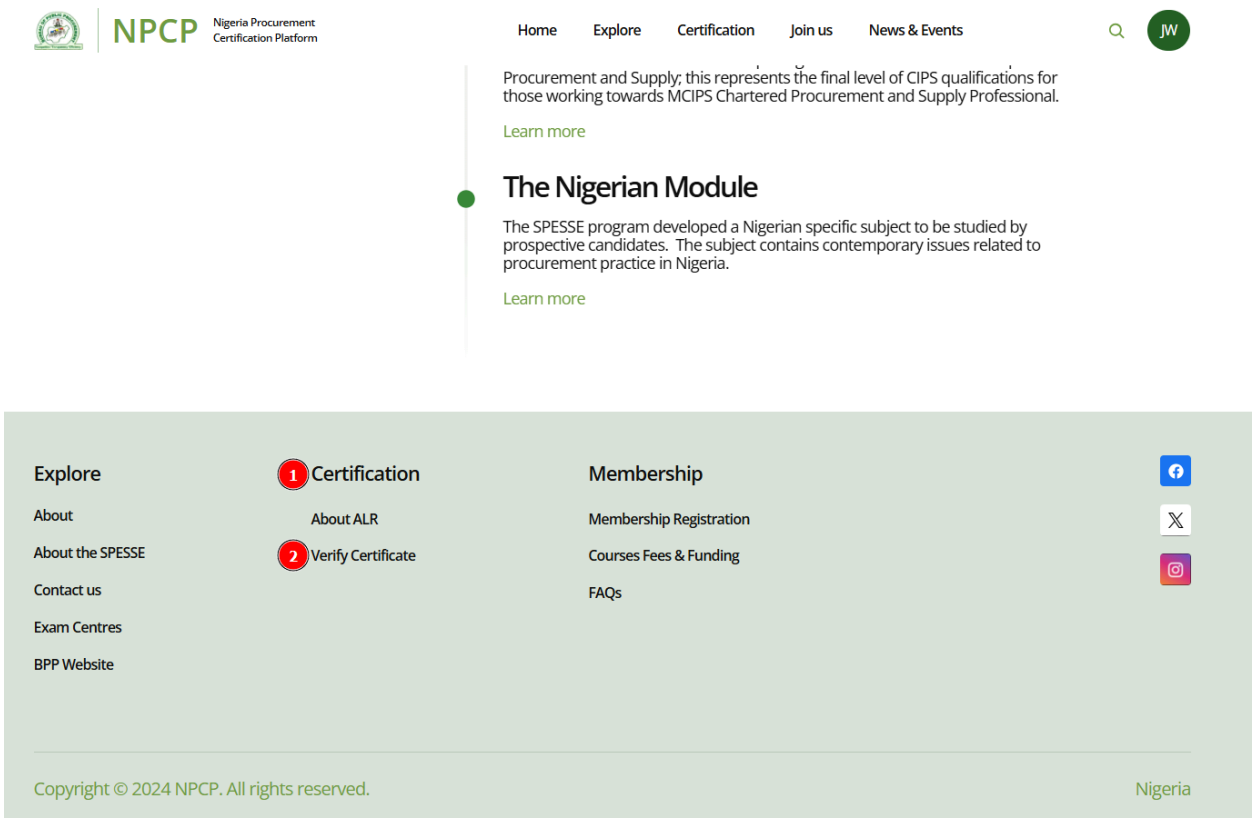


The system allows certificate verification in two ways. Both methods are available only for authorized users.

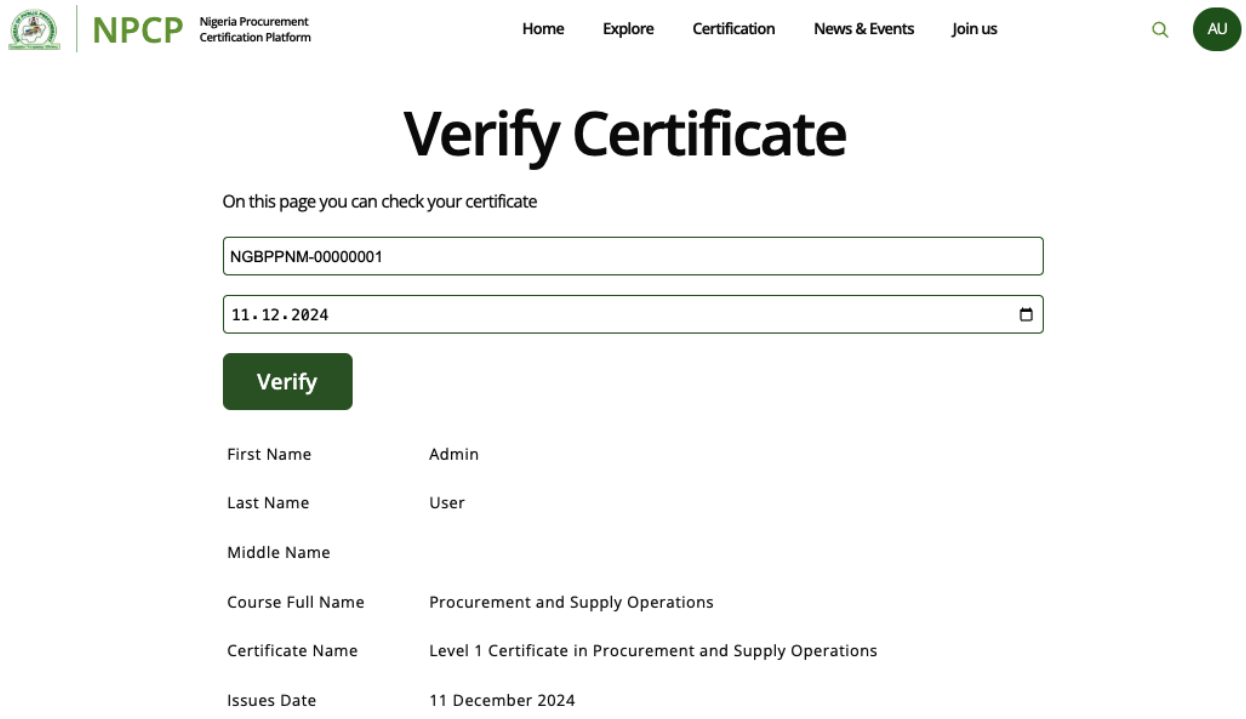
First, navigate to the menu **“Certification”** -> **“Verify Certificate”**.



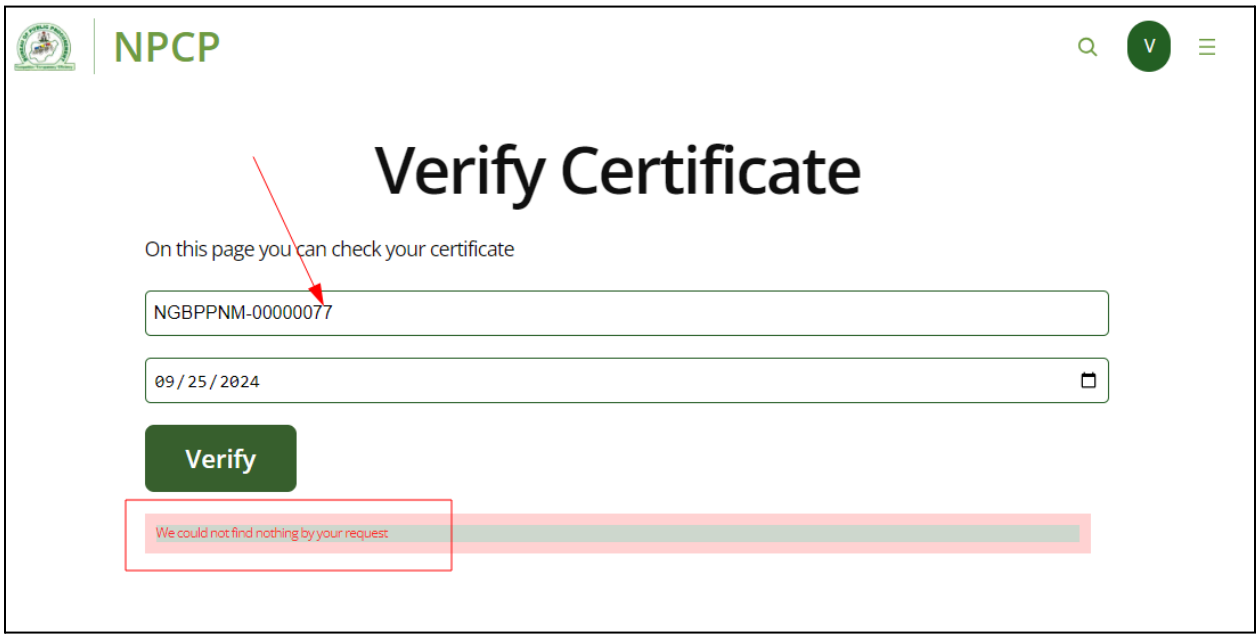
Second, navigate to the menu in the footer of the website: **“Certification”** -> **“Verify Certificate”**.



Enter the certificate number and issue date, then click **“Verify”**. The site will display information about the certificate holder.



If some information is not correct about certificate, the website displays the notification: ***"We could not find anything by your request"***



6. LEARNING CONTENT MANAGEMENT SYSTEM (LCMS)

The Learning Management System is designed to manage learning content lesson plans to support onboarding, certification requirements, compliance mandates, job-related training, and continued career development courses over different formats: text materials, and video tutorials. LCMS will include Computer Based Tests for proper evaluation of knowledge.
Access to the System is based on the Role Based Access Control configuration of Moodle that makes assigning roles easier and more dynamic rather than making the roles static based. Our role configuration is based on CRUD functionality and menu visibility for backend operations and public functions.
The system should provide automation for the following types of roles:

- Site-Administrator
- Student
- Certification Manager
- Certification Officer

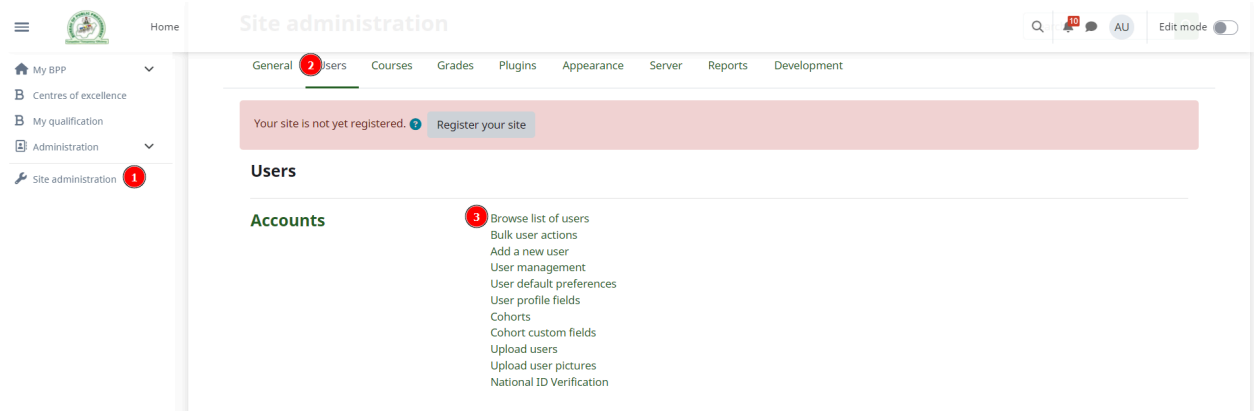
6.1 SITE-ADMINISTRATOR ROLE

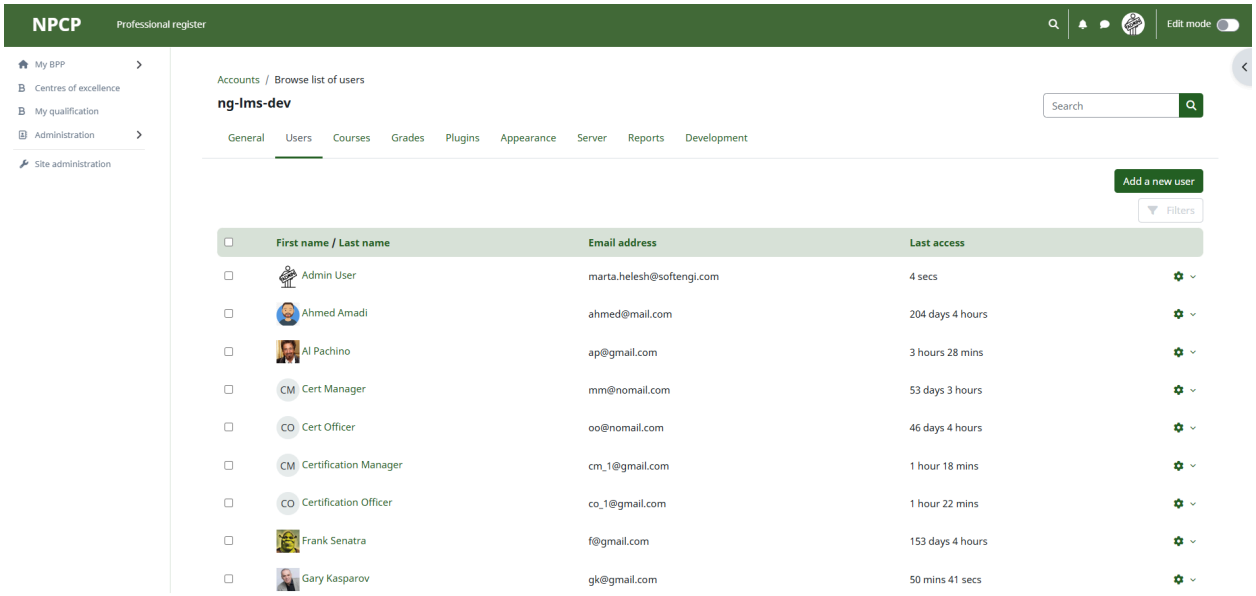
A user with the Site Administrator role has the broadest rights to manage LSMS, such as:

1. General management
2. User management
3. Courses management
4. Grades management
5. Plugins management
6. Appearance management
7. Server management
8. Reports management
9. Development management

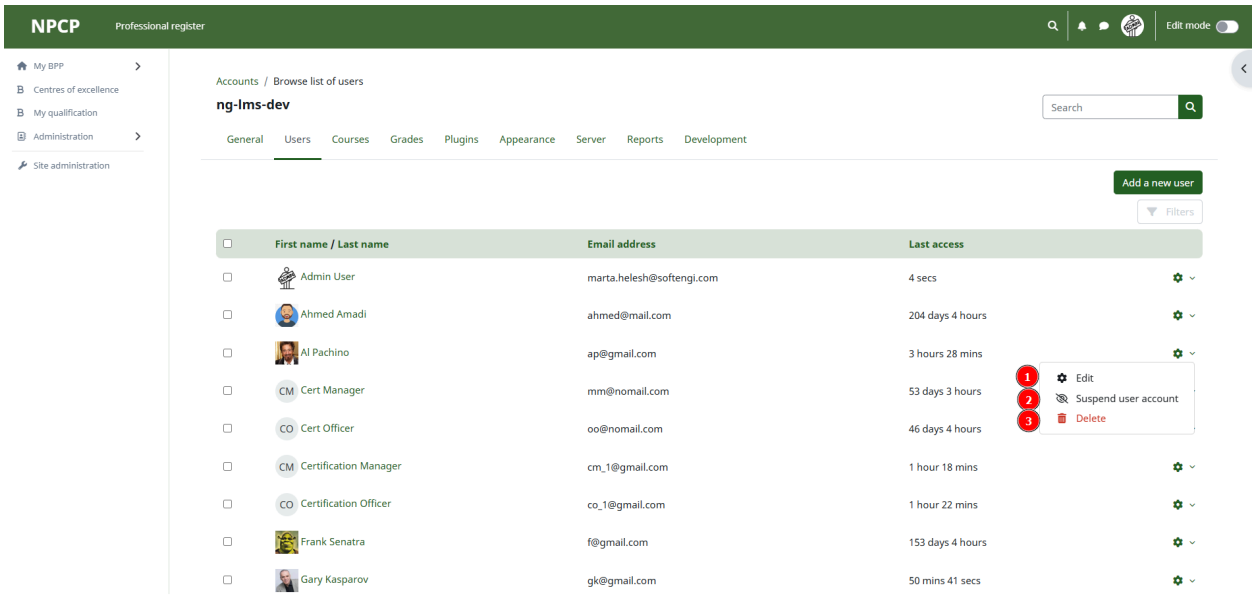
6.1.1 MANAGE THE LIST OF USERS

The Site Administrator can view the list of SIS`s users. Click on the Site administration -> Users -> Browse list of users.



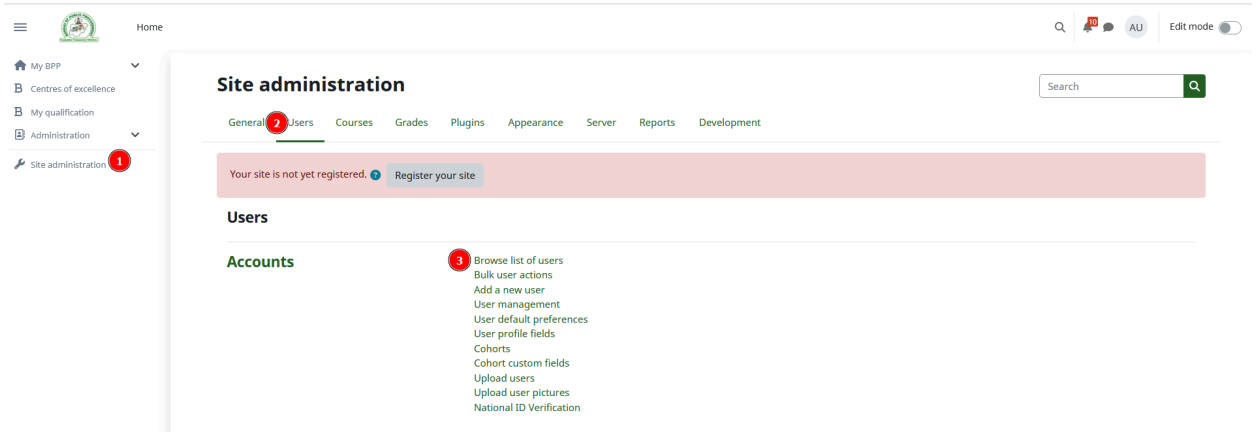


Site-Admin can delete, suspend user accounts, and edit user accounts.

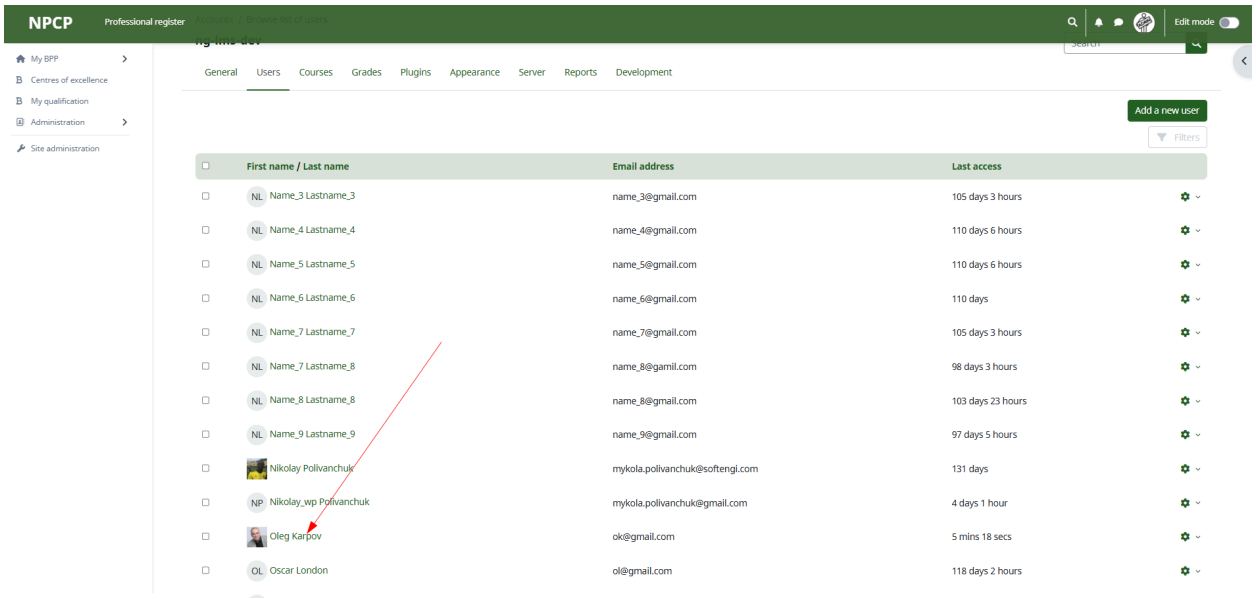


6.1.1.1 HOW TO VIEW AND EDIT THE PROFILE OF THE USER

The system allows site-admin to view the profile of the user. Click Site Admin -> Users -> Browse the list of users.

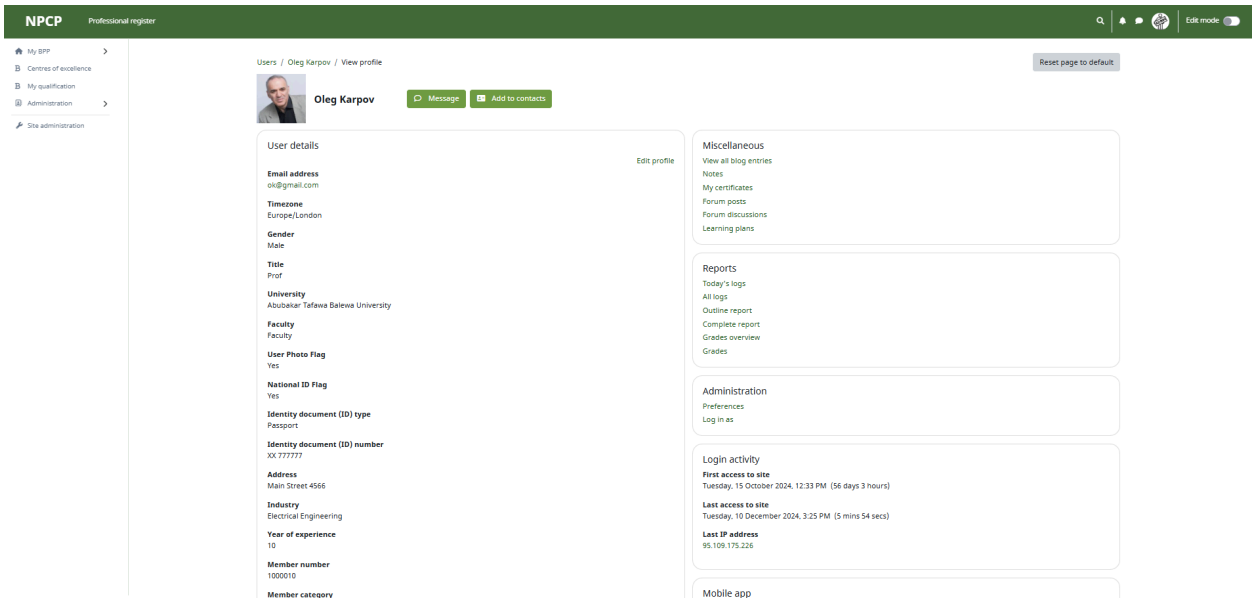


Select required users

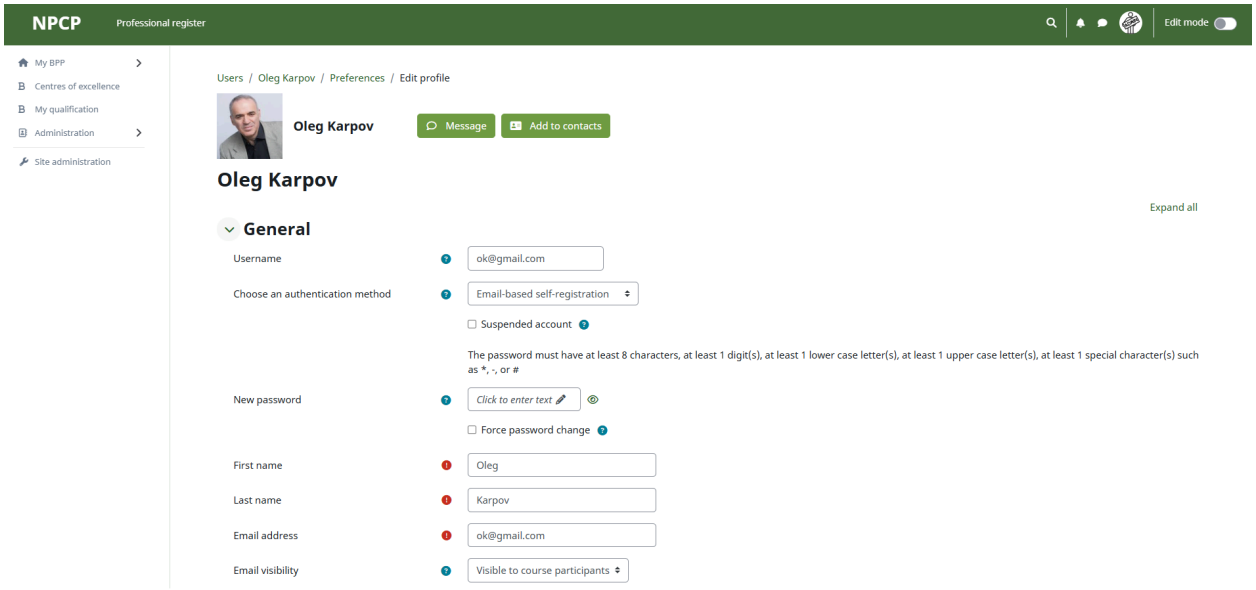


Click on the user`s record. There is an info block:

- Users details
- Courses details
- Edit profile
- Miscellaneous
- Reports
- Administration
- Login Activity
- Mobile app

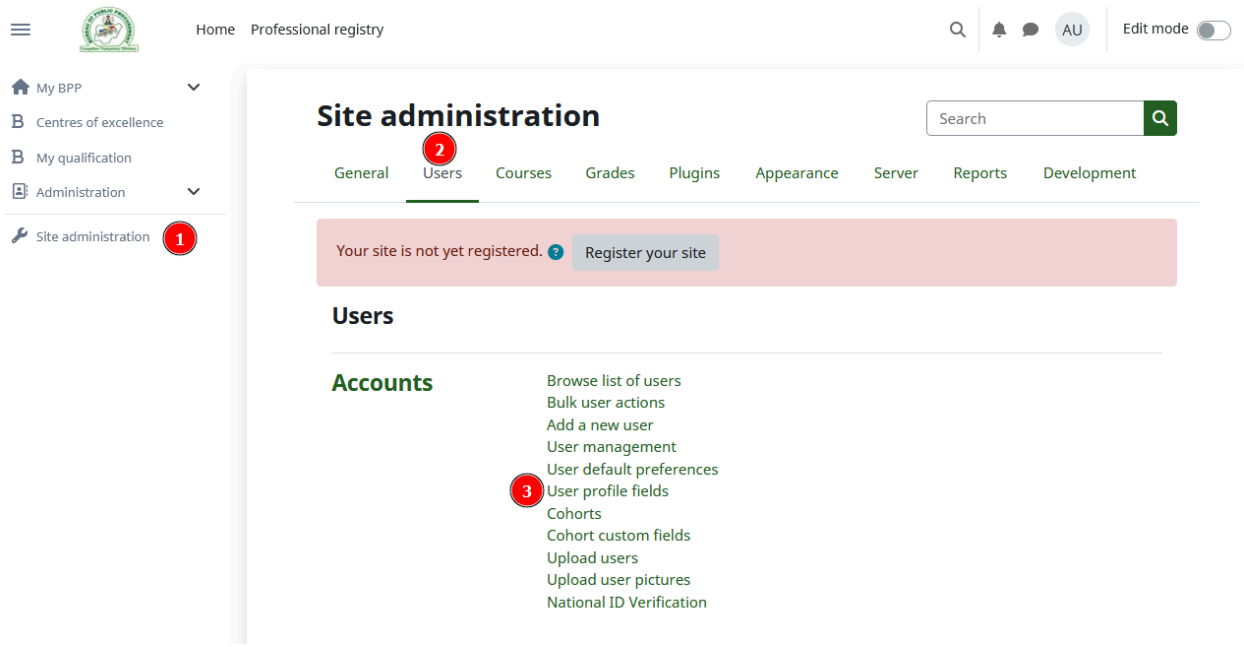


Click on the button “Edit profile” and edit the options and fields that are required.

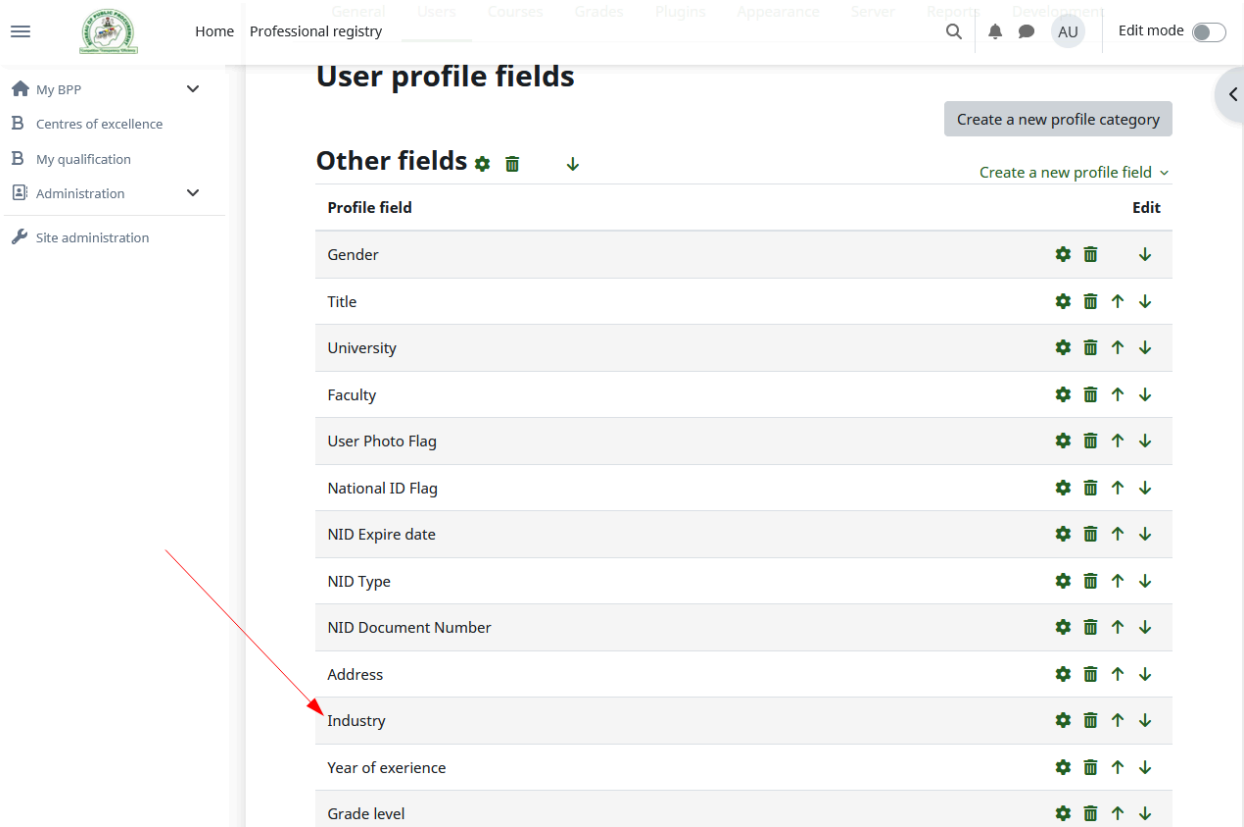


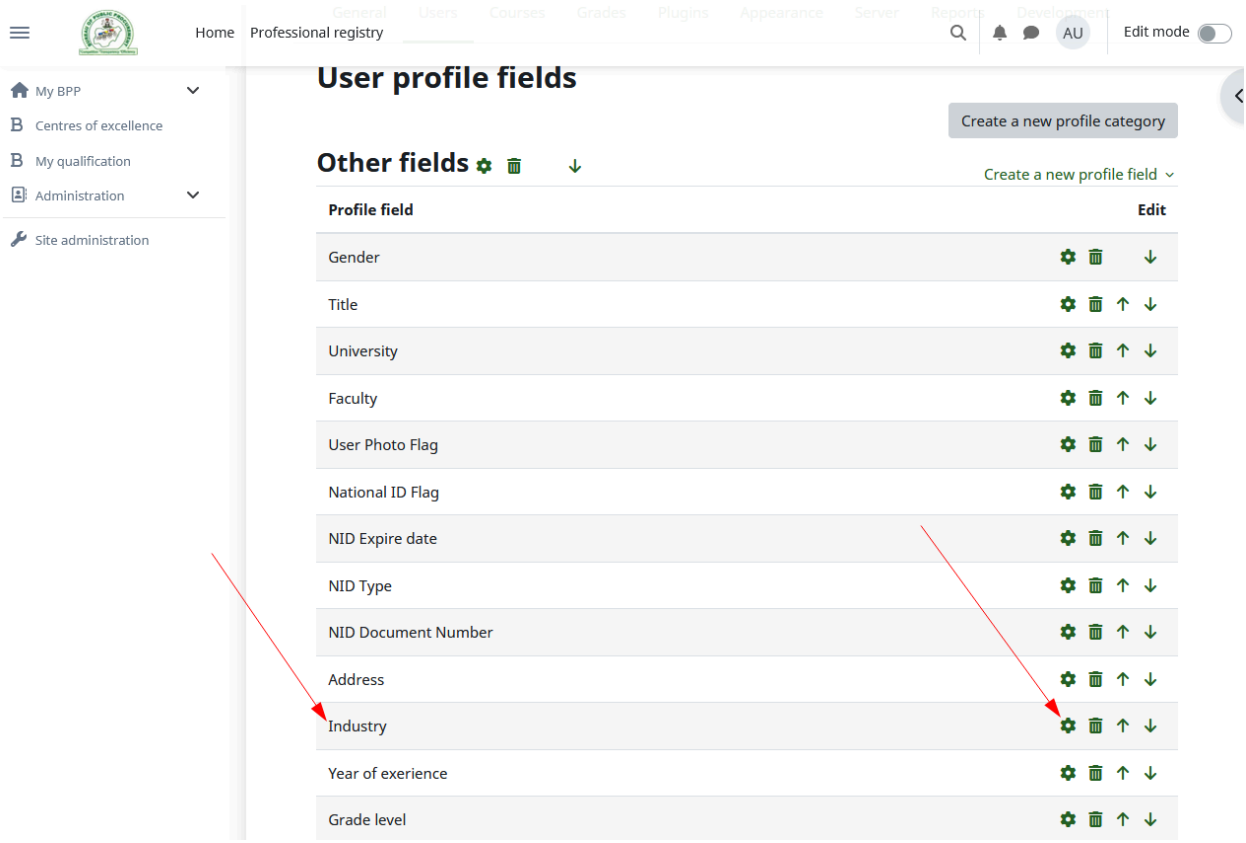
6.1.1.2 HOW TO MANAGE THE FIELDS ON THE USER`S PROFILE

The system allows users to manage the field on the user's profile (add new, edit value, etc.). Click on the menu “Site administration” -> “Users” -> “User profile field”



Select the required field and click edit (f.x. “Industry”)





Edit required information

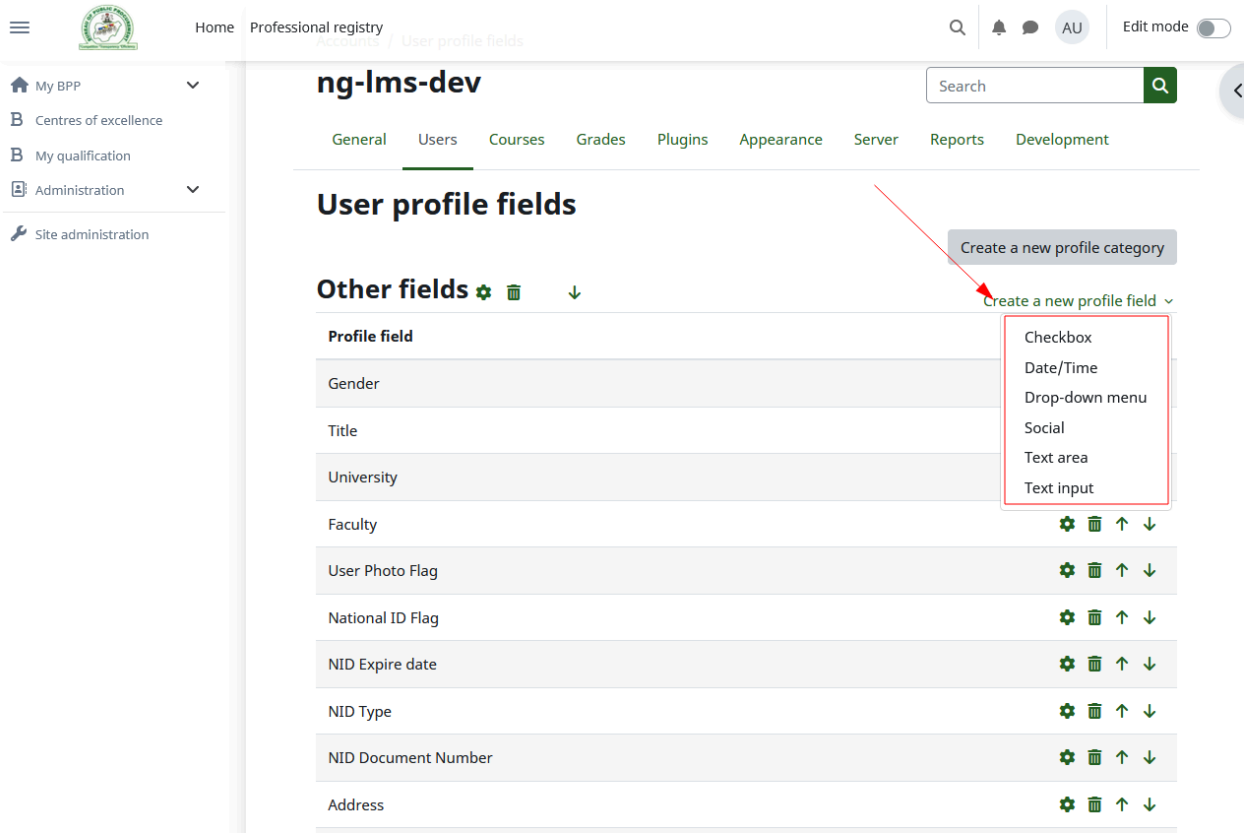
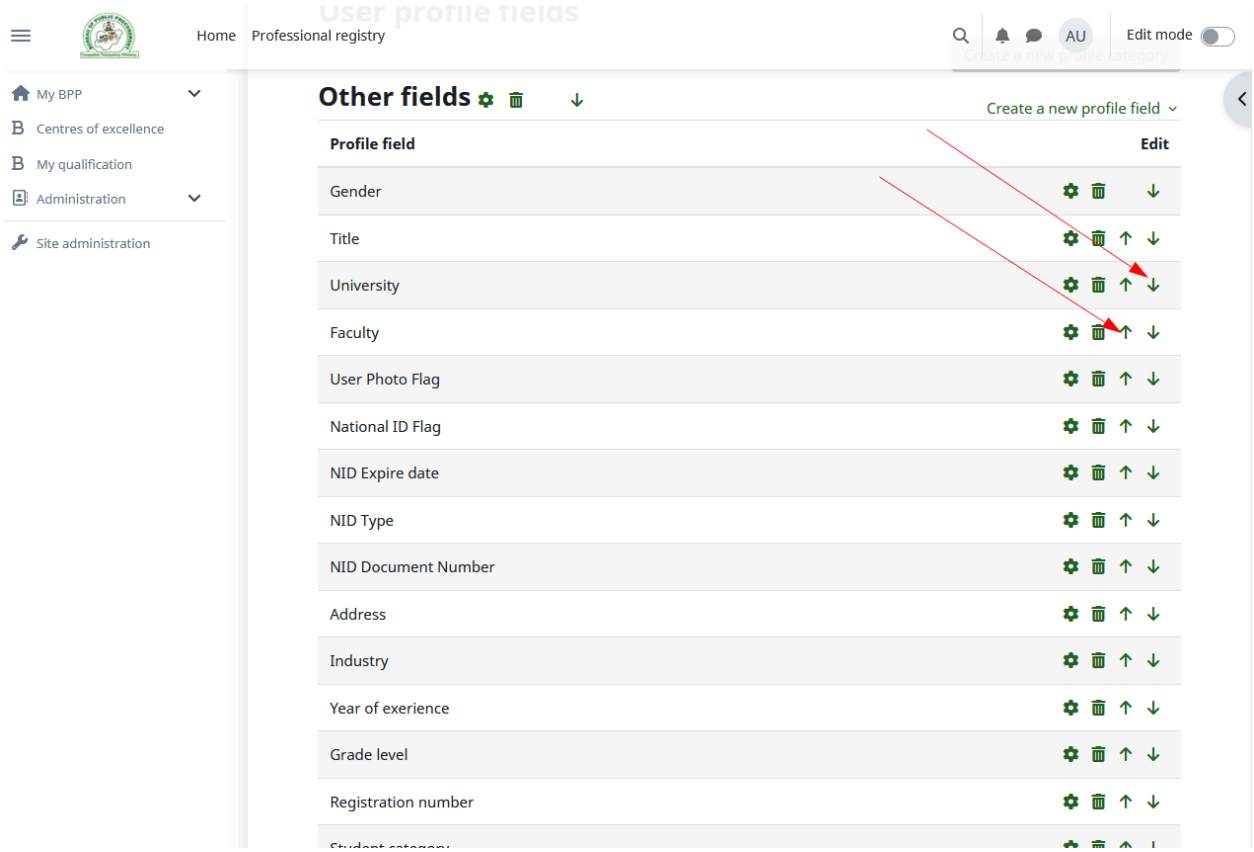
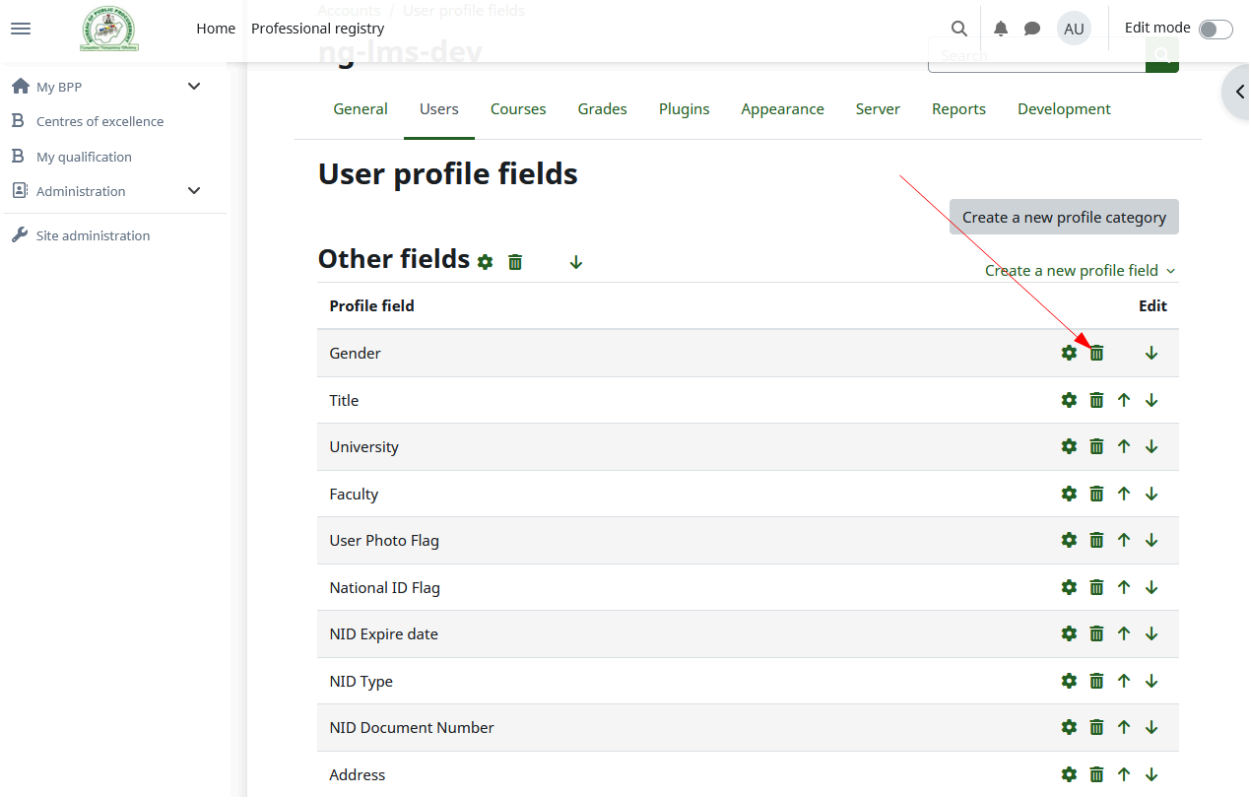
Create a new field, click on the button “Create new profile field” select the type of field, fill the form, and save.



To set the fields in order, use the arrow upside down.

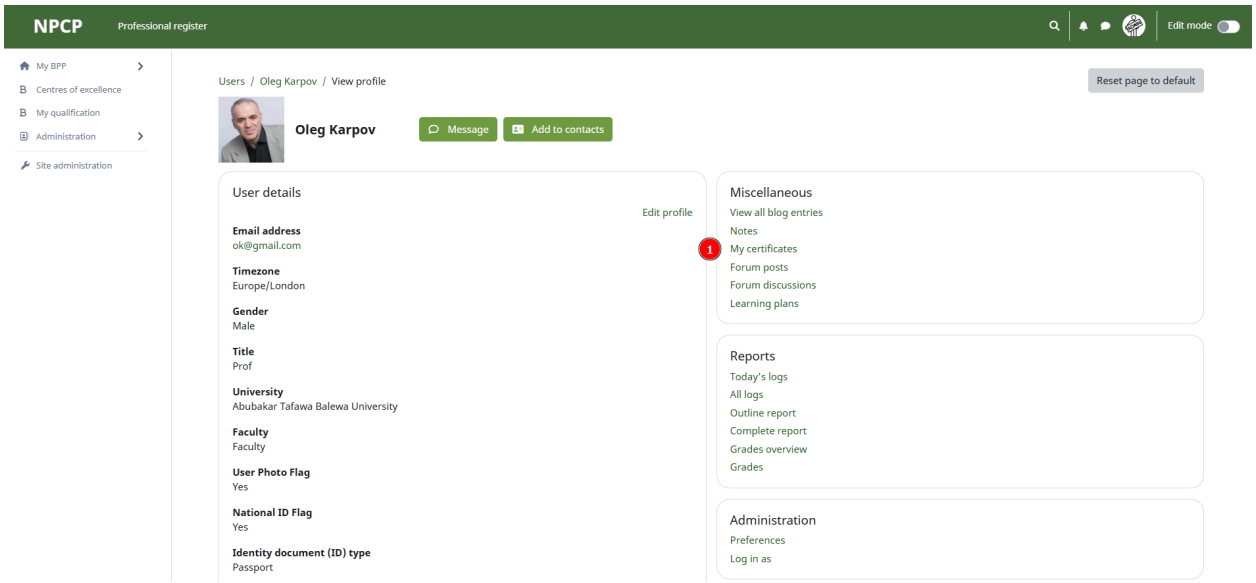


To delete the field from the user`s profile, click the button “Delete”



6.1.1.3 HOW TO VIEW AND DOWNLOAD USER`S CERTIFICATES

The system allows the site admin to view and download certificates. On the user`s profile, on the block “Miscellaneous” click “My certificate”



There is a list of certificates that the user has been issued, and the possibility to import a list of certificates to a file with type: .csv, .xlsx, .html, .lson, .ods, .pdf.

Users / Oleg Karpov / Profile / My certificates

Oleg Karpov Message Add to contacts

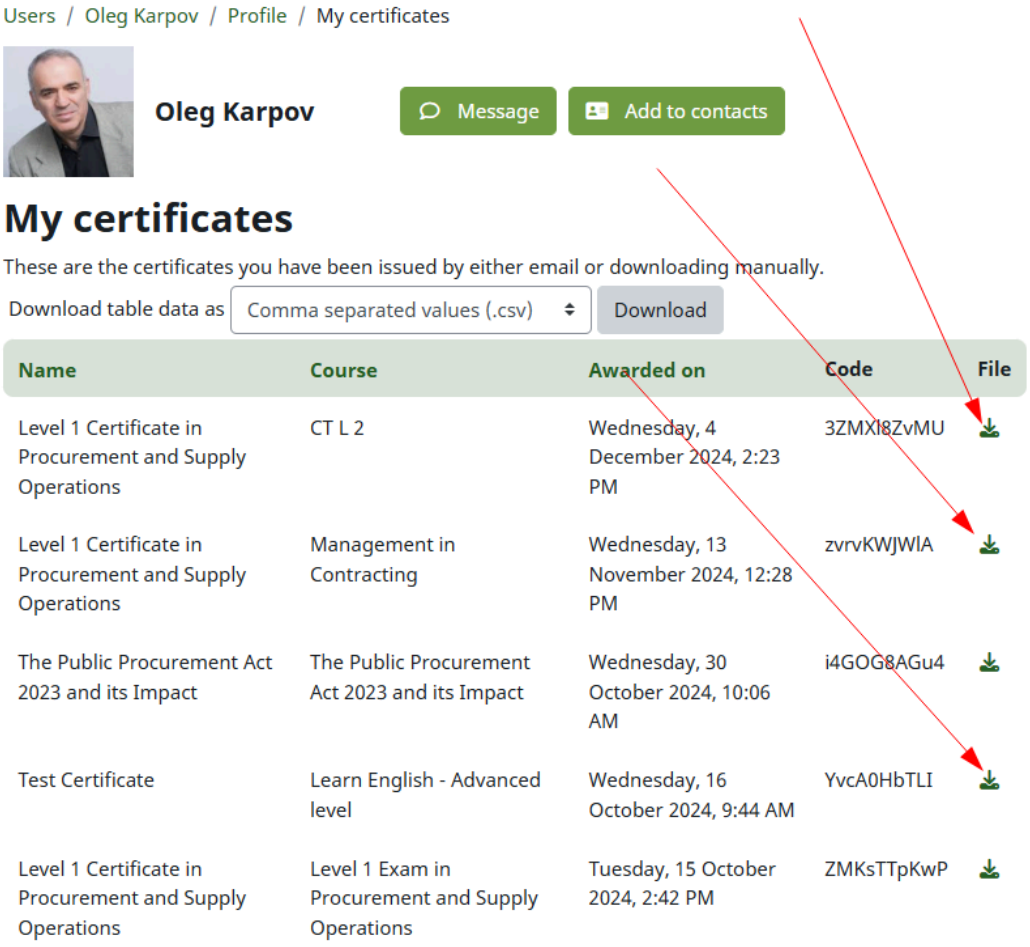
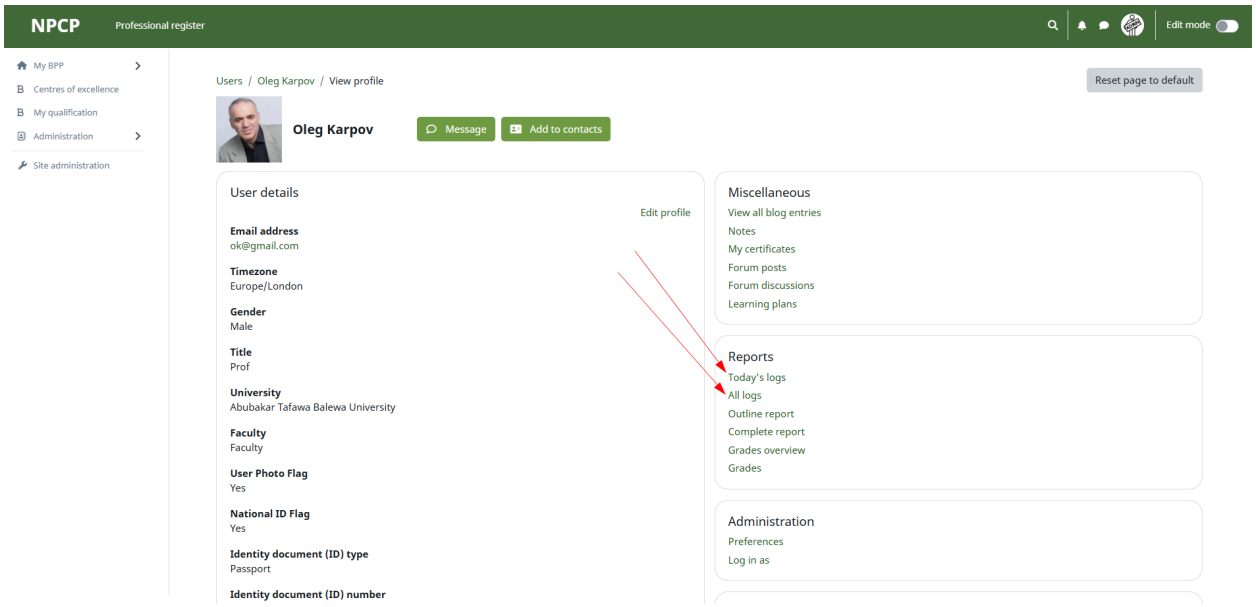
The Public Procurement Act 2023 and its Impact	The Public Procurement Act 2023 and its Impact	Wednesday, 30 October 2024, 10:06 AM	i4GOG8AGu4	
Test Certificate	Learn English - Advanced level	Wednesday, 16 October 2024, 9:44 AM	YvcA0HbTLI	
Level 1 Certificate in Procurement and Supply Operations	Level 1 Exam in Procurement and Supply Operations	Tuesday, 15 October 2024, 2:42 PM	ZMKsTTpKwP	

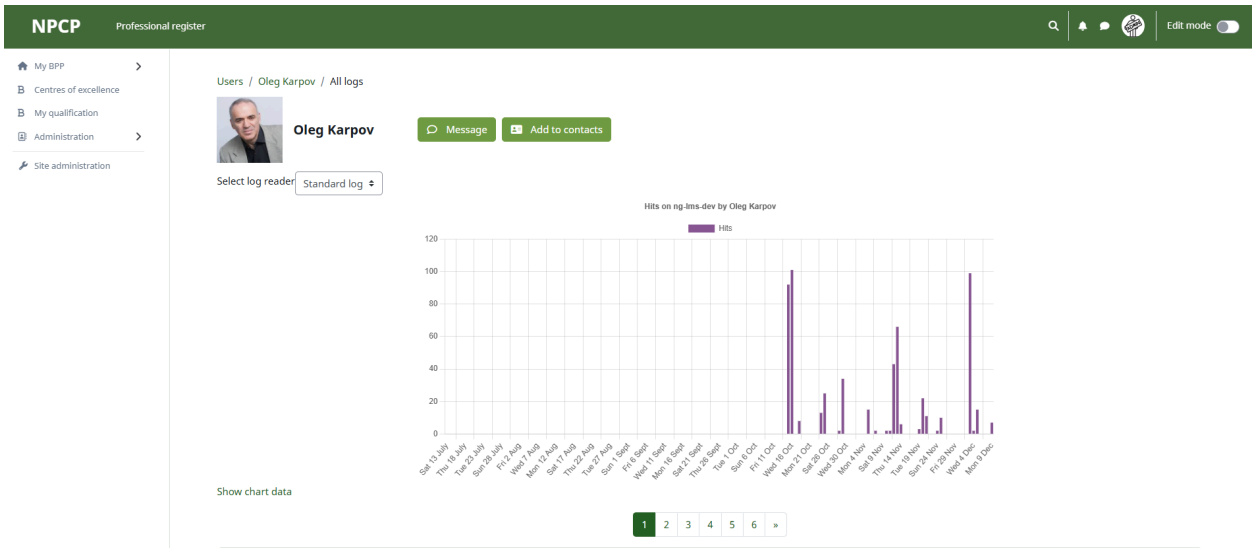
To generate a certificate with a QR code, click the button “Download”.



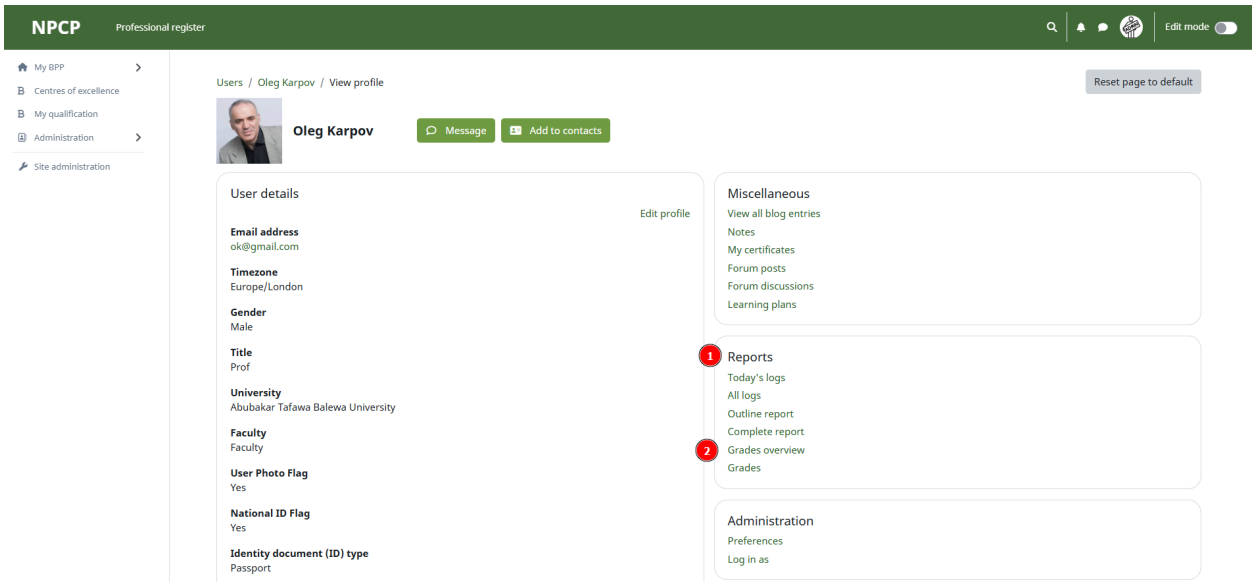
6.1.1.4. HOW TO VIEW THE REPORTS ABOUT USER`S ACTIVITIES

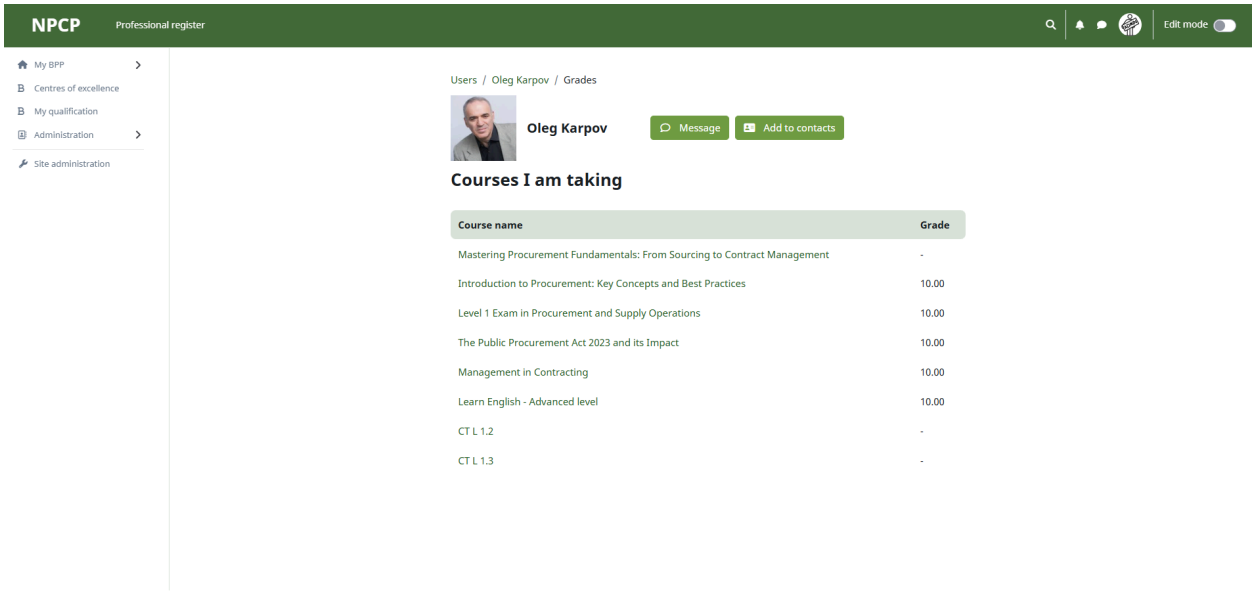
The system allows site-admin to build and view reports about user`s activities. On the block “Reports” click “Today`s Logs” or “All logs” to observe the user`s logs.



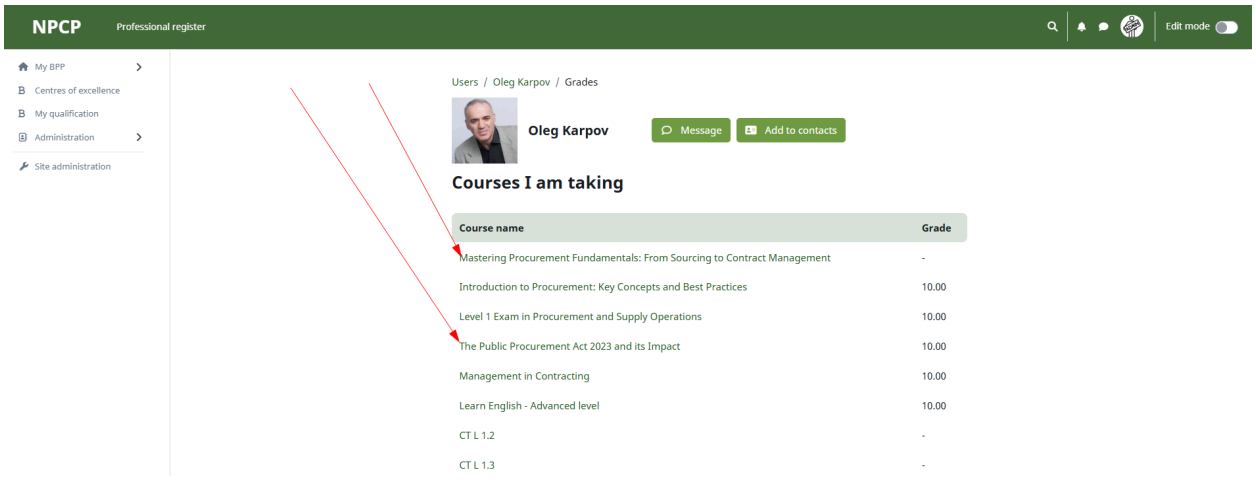


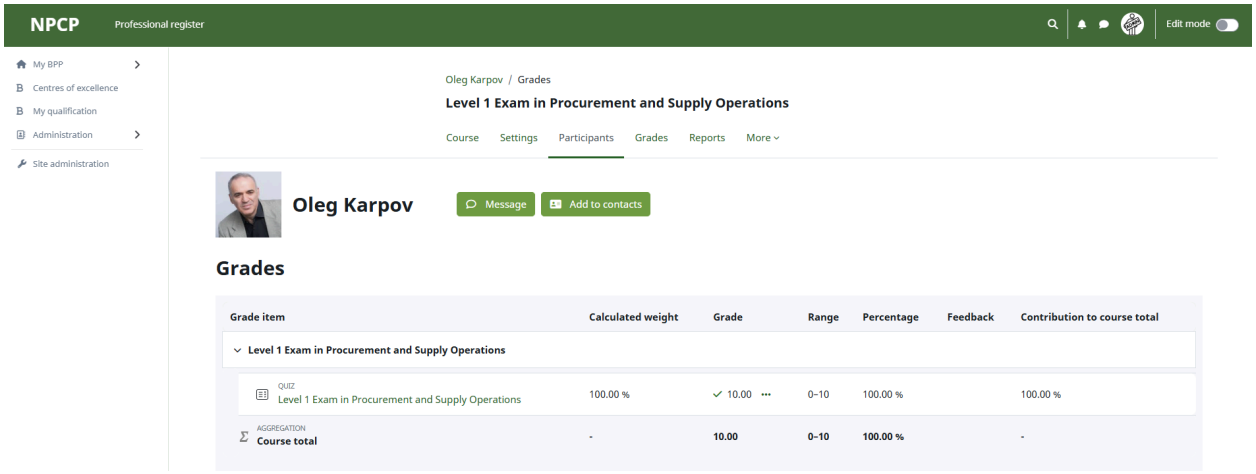
The system allows the site admin to view the list of courses with grades. Click on the “Reports” -> “Grades overview”.





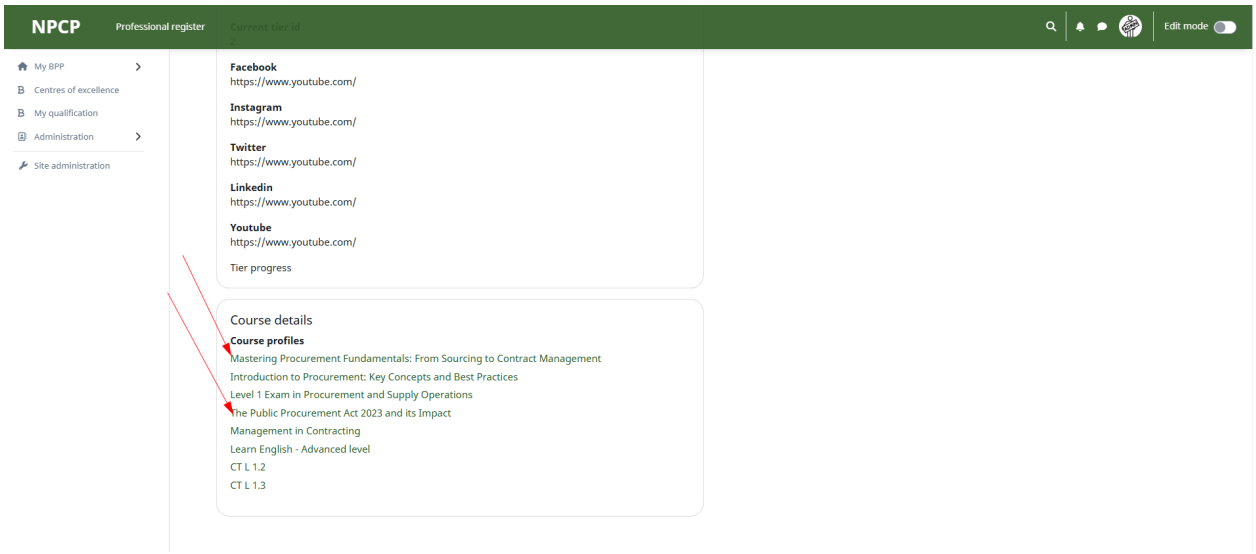
Click on the course to view grades inside that course.





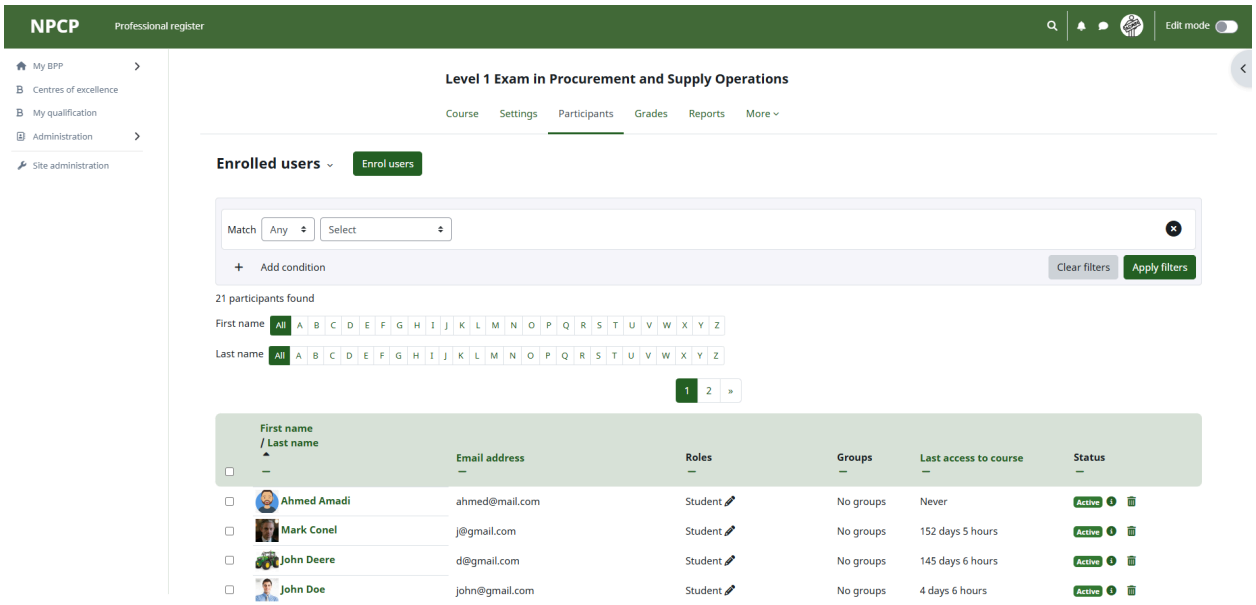
6.1.1.5. HOW TO VIEW COURSE DETAILS

The system allows the site admin to view course details. On the block “Course detail” click on some courses and observe details.

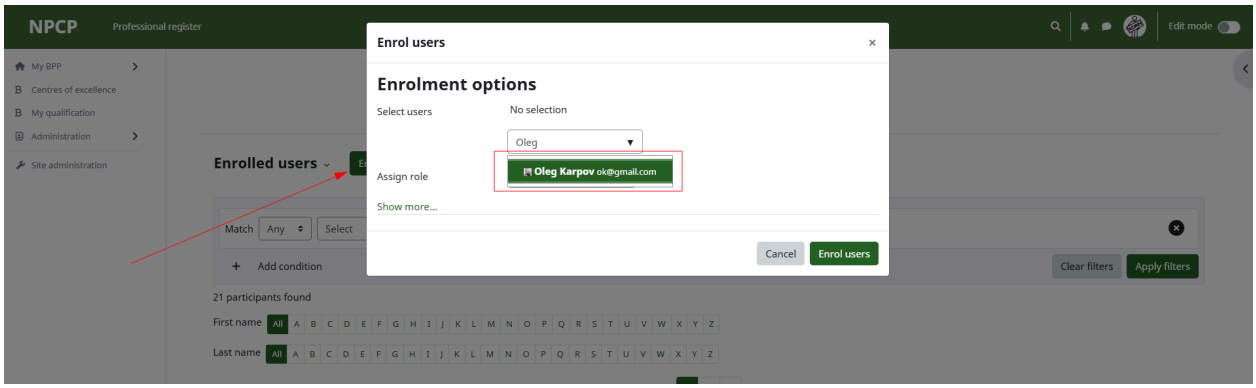


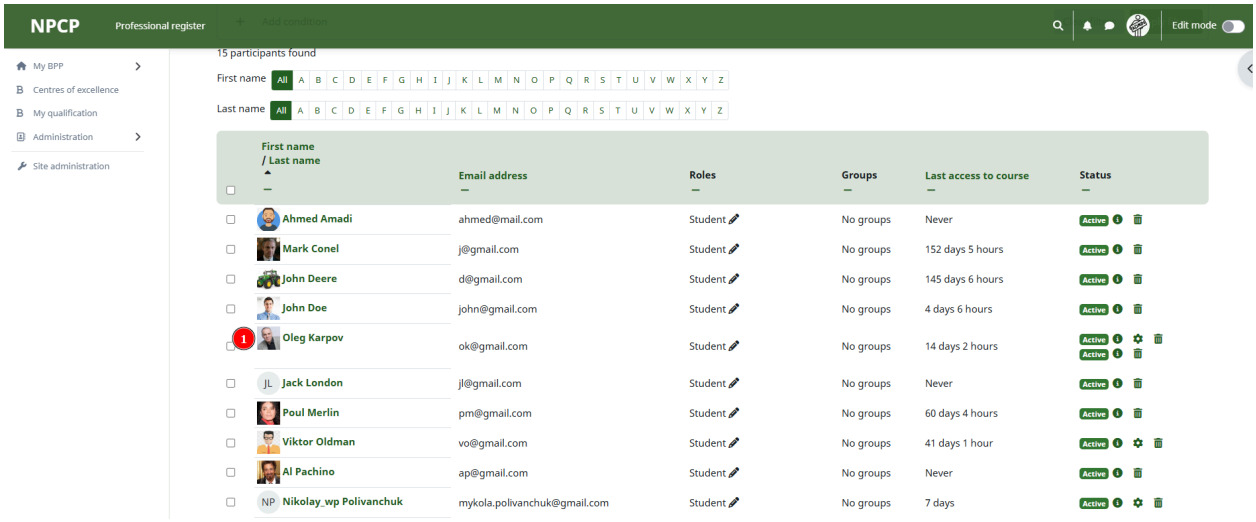
6.1.1.6. HOW TO ENROL AND UNENROLL USER TO\FROM COURSE

LCMS allows site-admin to enroll the user in the course. Click on the course -> tab “Participant” -> “Enroll”.

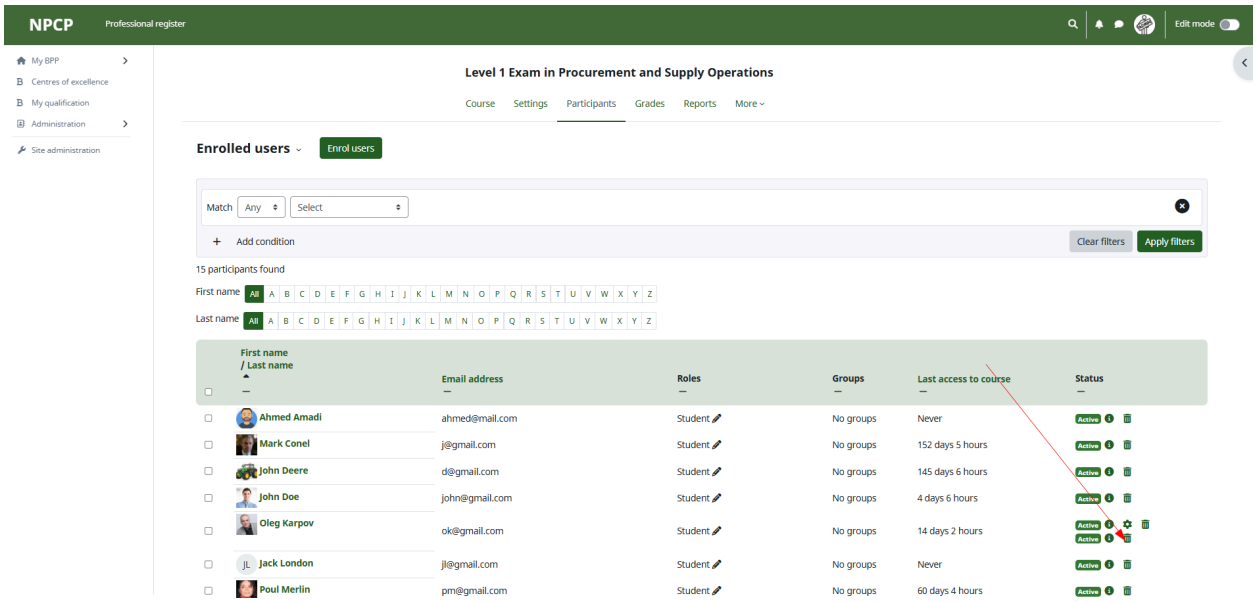


Select the user, click on the button “Enroll users”



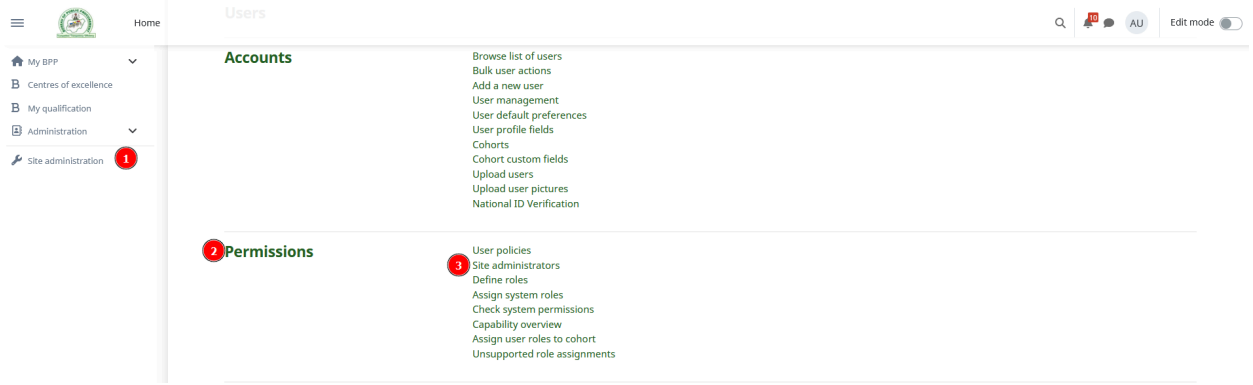


Click on the button “Unenroll” to unenroll the user from the course.

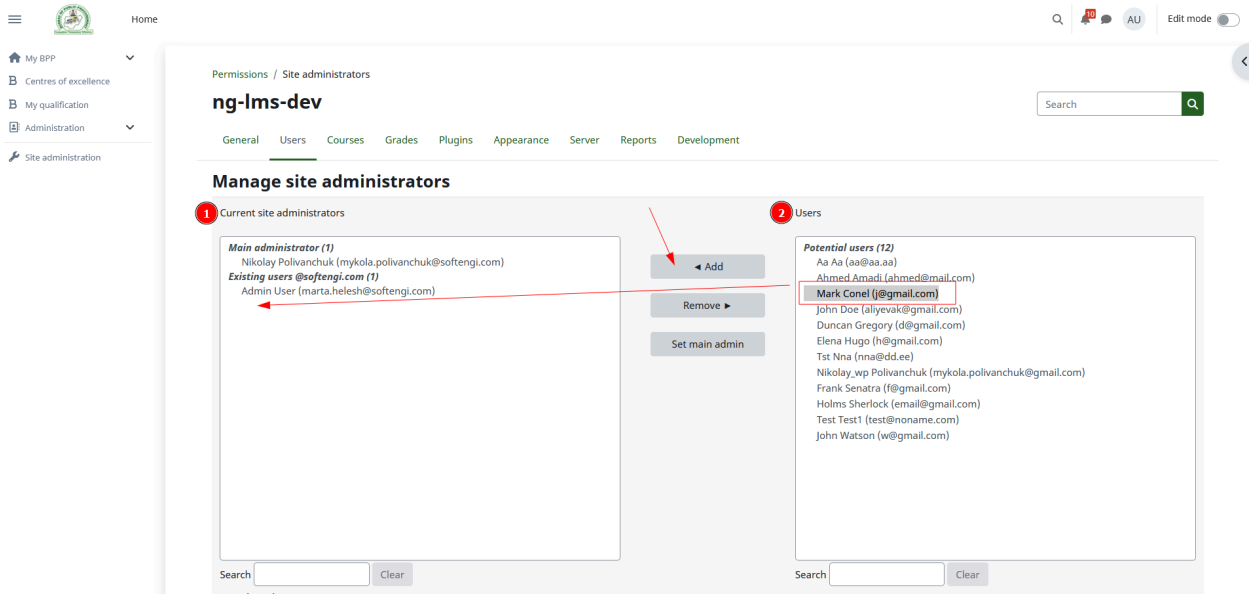


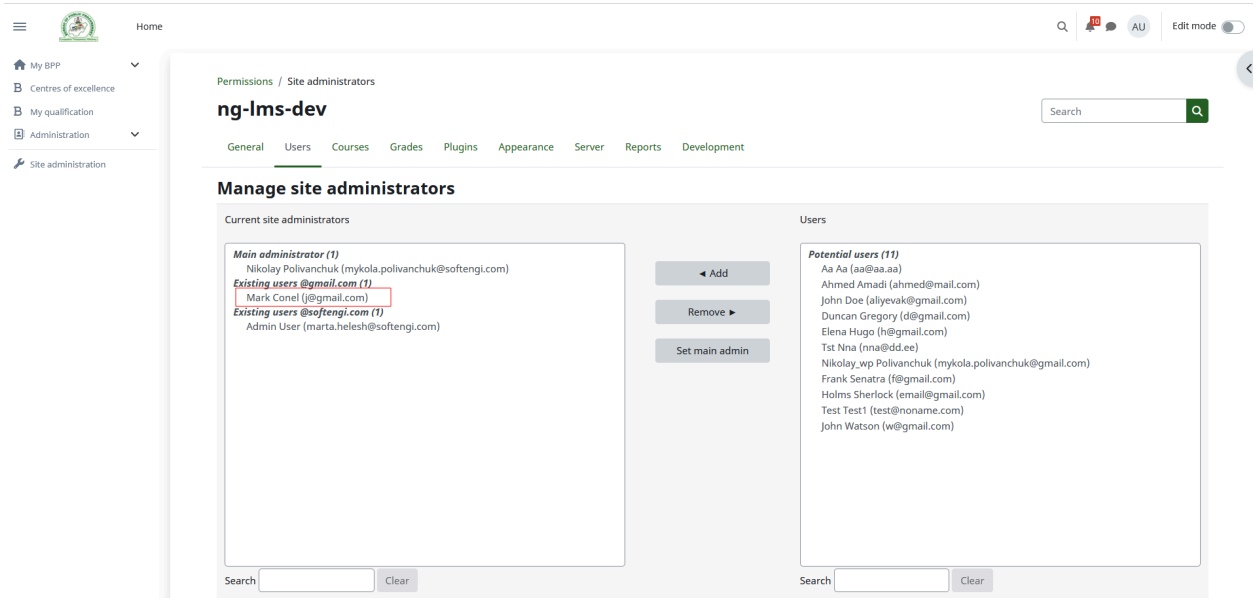
6.1.1.7. HOW TO ADD OR REMOVE USER TO THE ROLE “SITE ADMINISTRATOR”

Site admin can add a user to the role of “Site administrator”. Click on Site Admin -> Permission -> Site Administrator



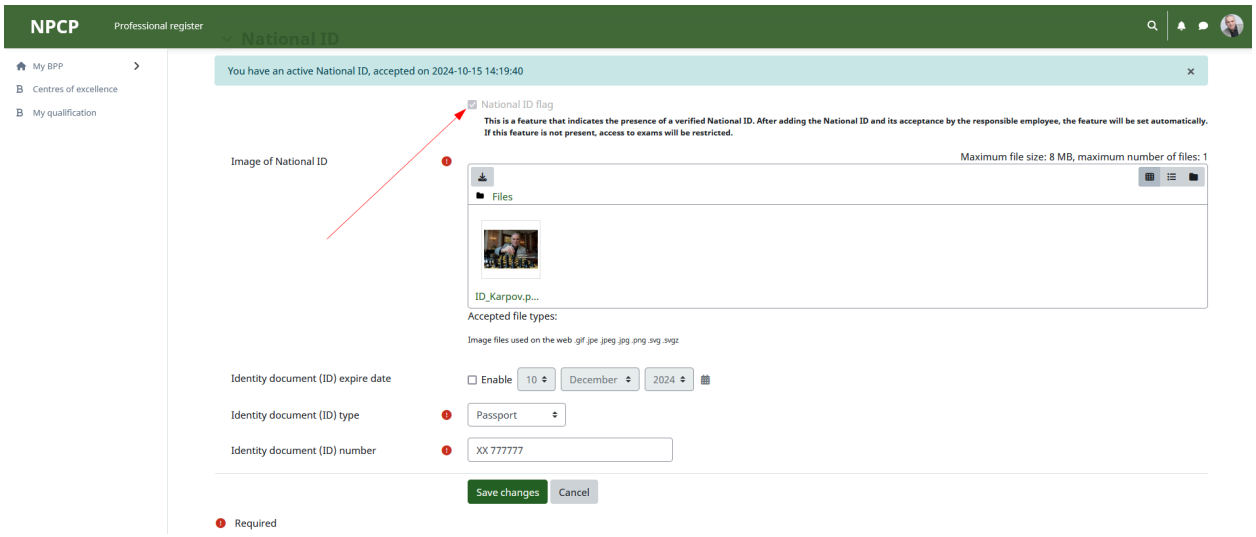
In the column “Current site administrators” and “Users” add or remove the site administrator.



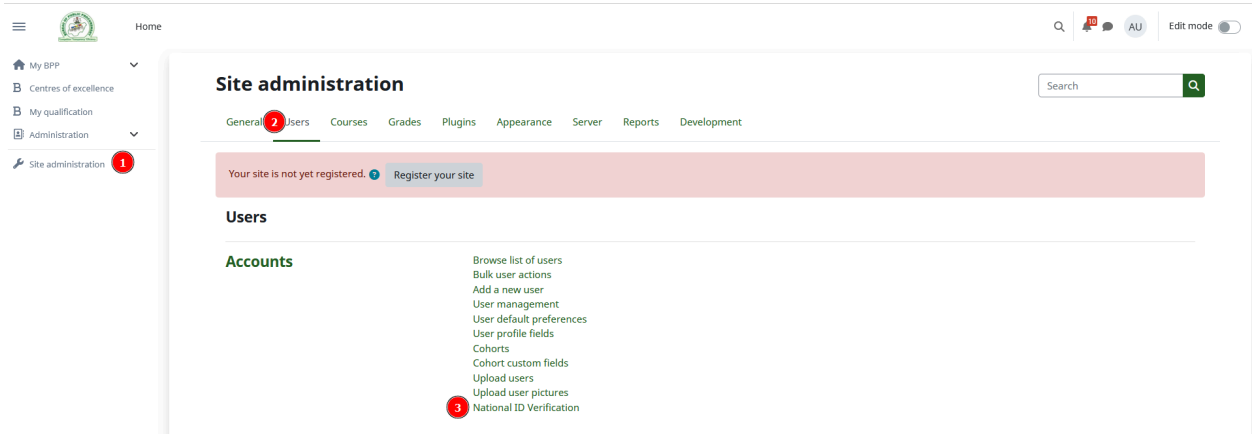


6.1.1.8. VERIFICATION NATIONAL ID OF USER

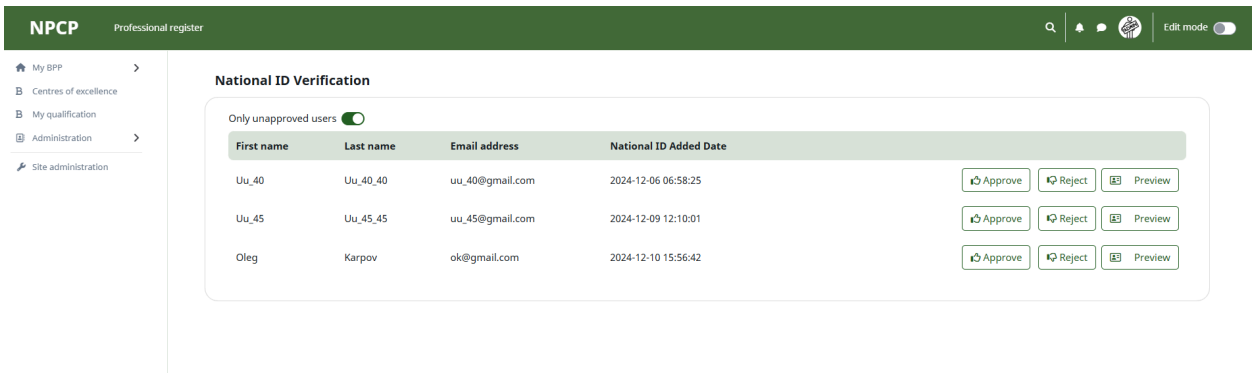
To allow the user to pass the examination, the user`s National ID has to be validated by a responsible employee. If this is not done, access to exams will be restricted (read more “User can add user photo and National ID”)
After registering the user, the “National ID flag” was not set on the user's profile – “YES”. The user has to add a photo and National ID (read more in the chapter “User can add user photo and National ID”)



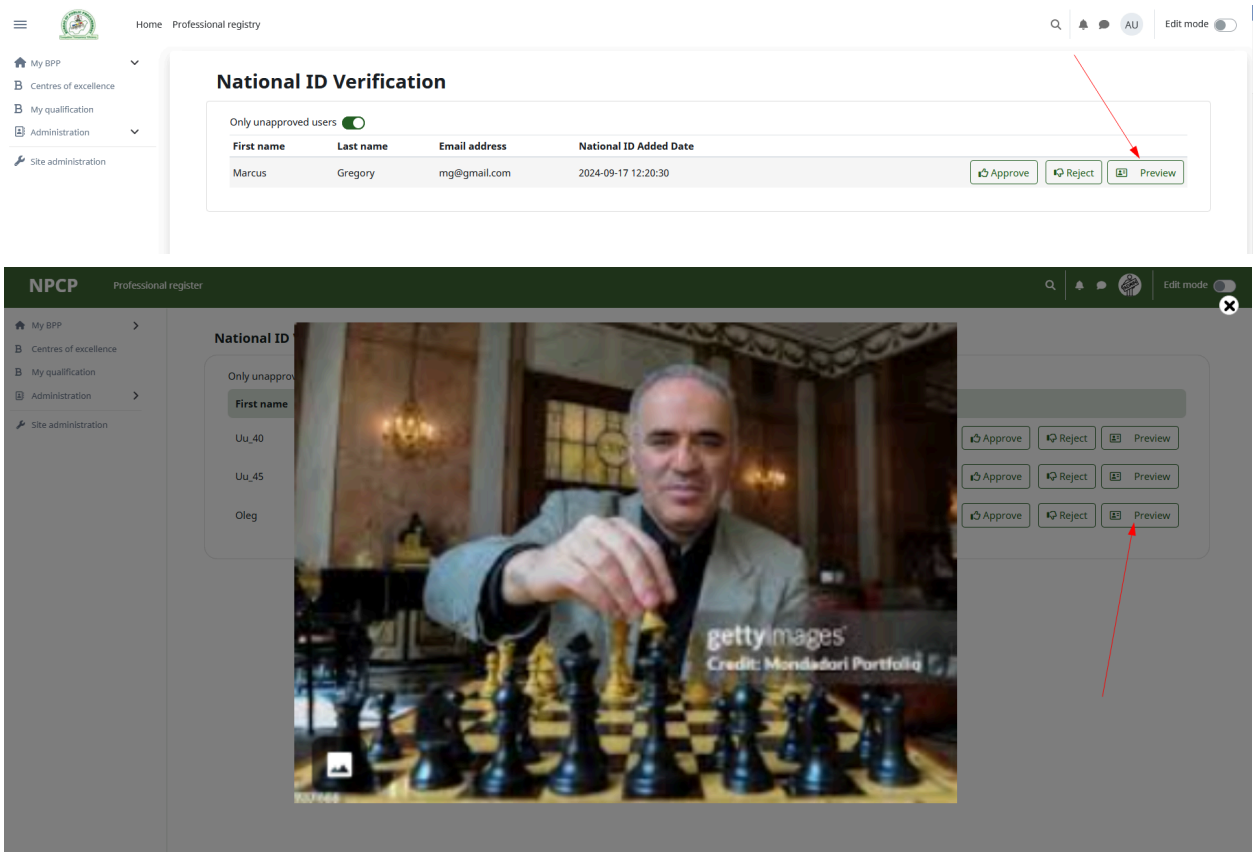
Click on the Site Administration -> Users -> National ID Verification.



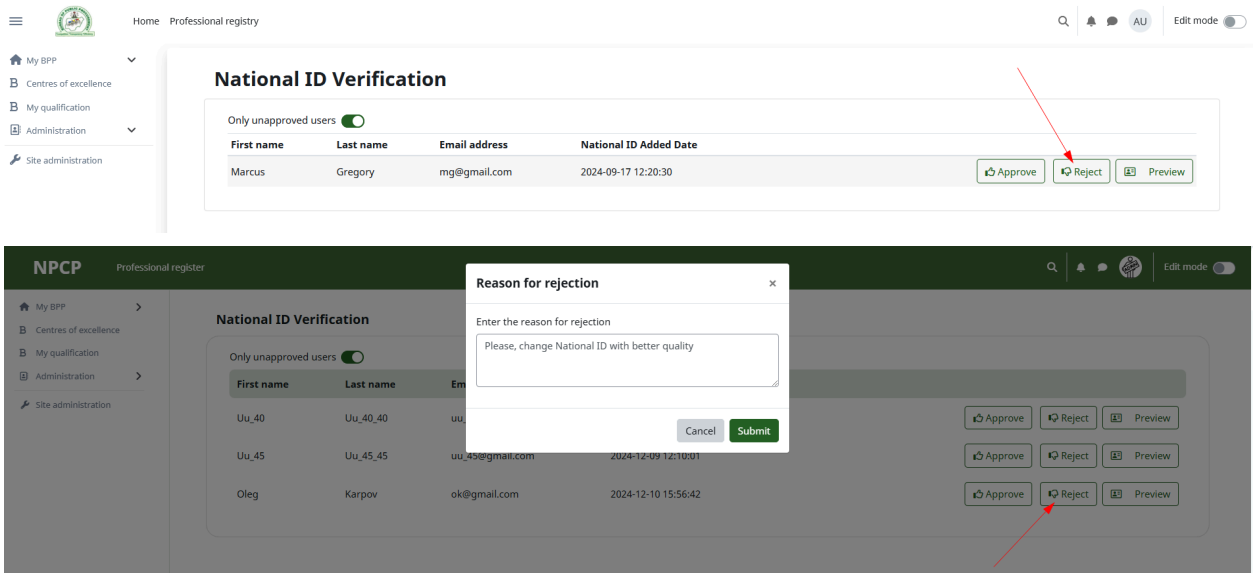
Click toggle “Only unapproved users” – YES, click “Approve”



Click the button “Preview” to observe the National ID.

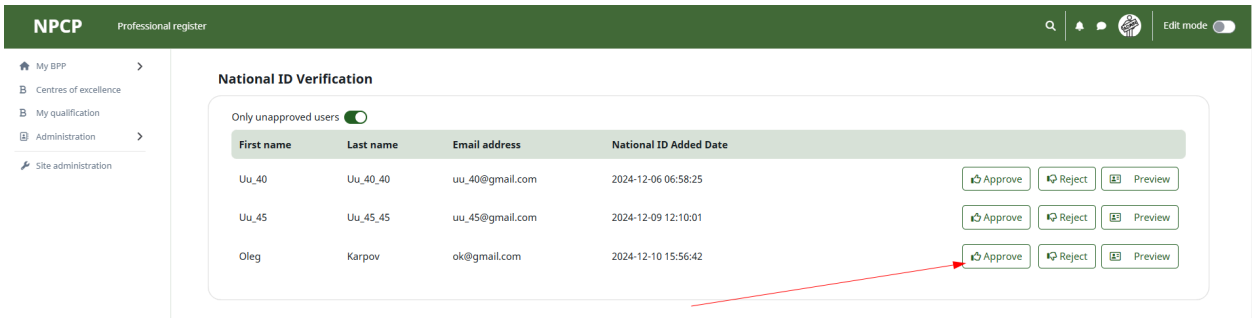


Click the button “Reject” to reject the verification and specify the reason for rejection.

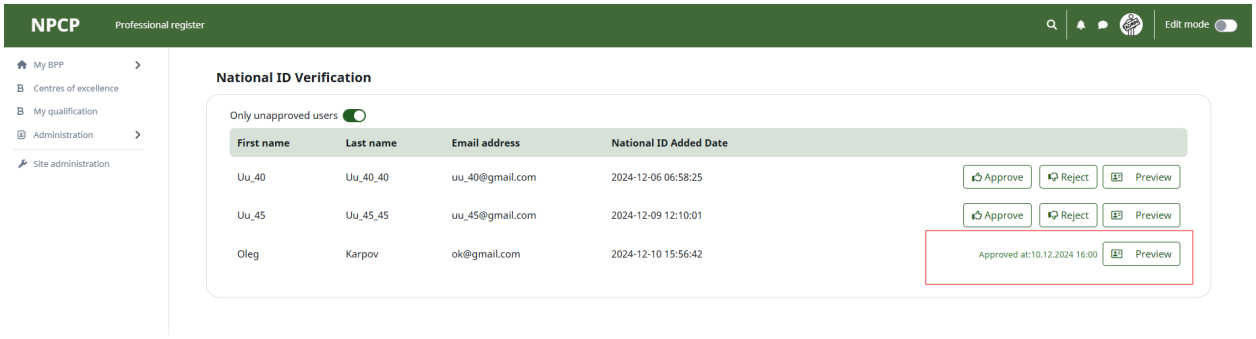


After rejection, the User will get the notification by email with the reason.

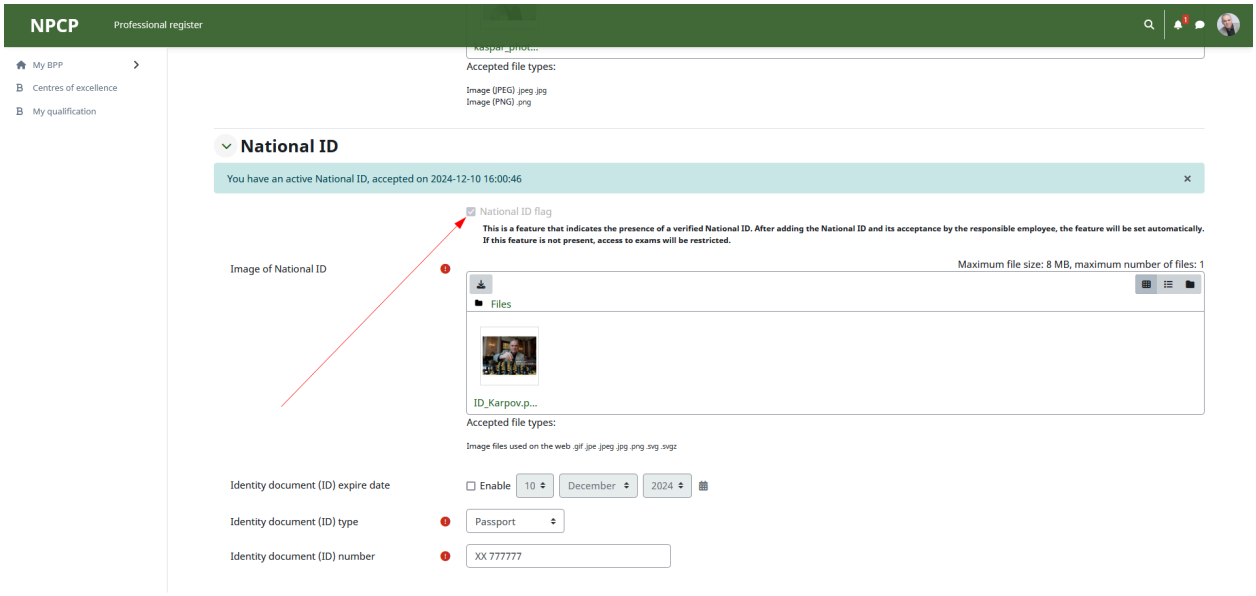
Click on the button “Approve” to approve the verification National ID.



On the list “National ID Verification” is the date and time of approval.

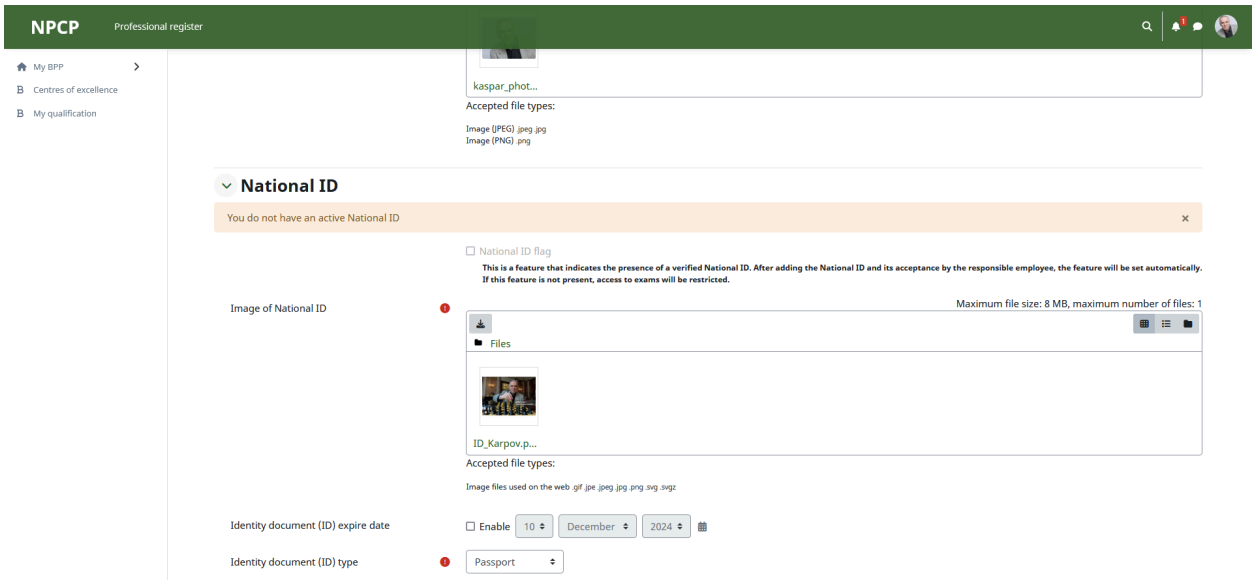


National ID is approved on the user`s profile.

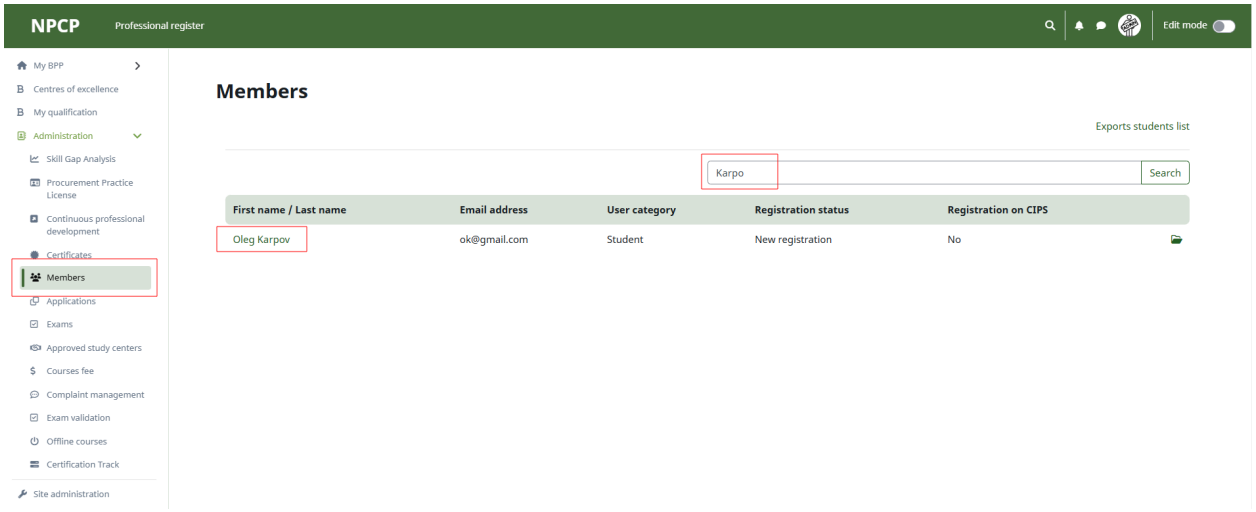


VERIFICATION NATIONAL ID OF USER MENU “MEMBERS”

After registering the user, the “National ID flag” was not set on the user's profile – “YES”.

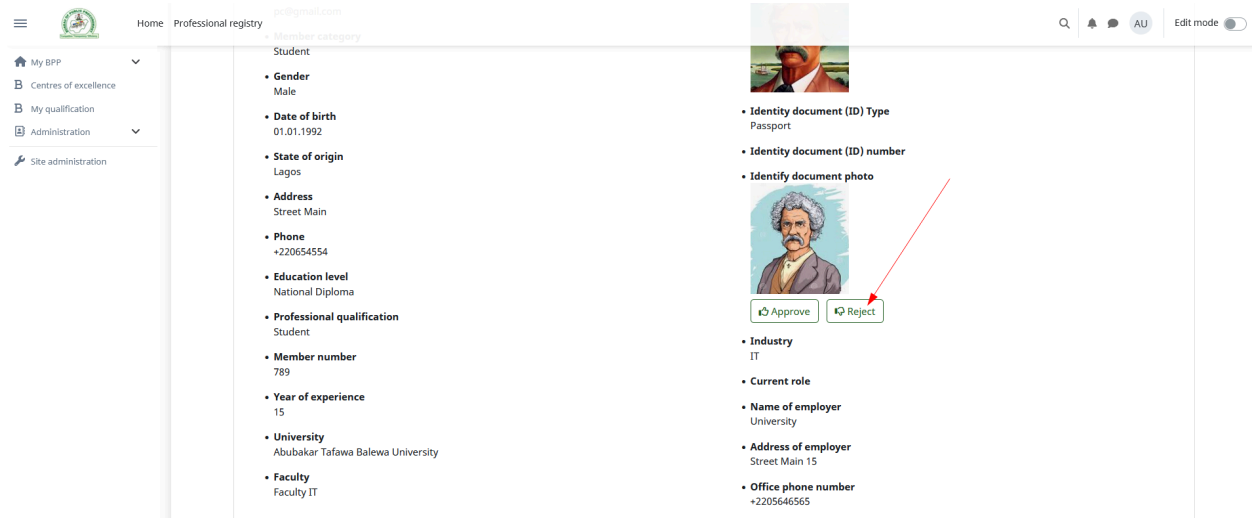


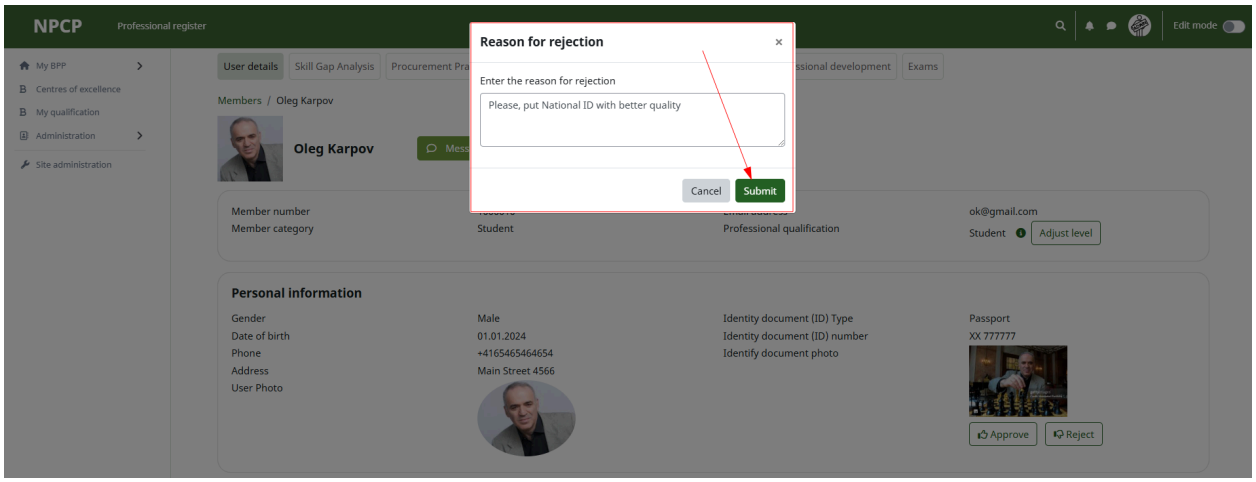
Click on the menu “Administration” -> “Members” -> view the profile of the student.



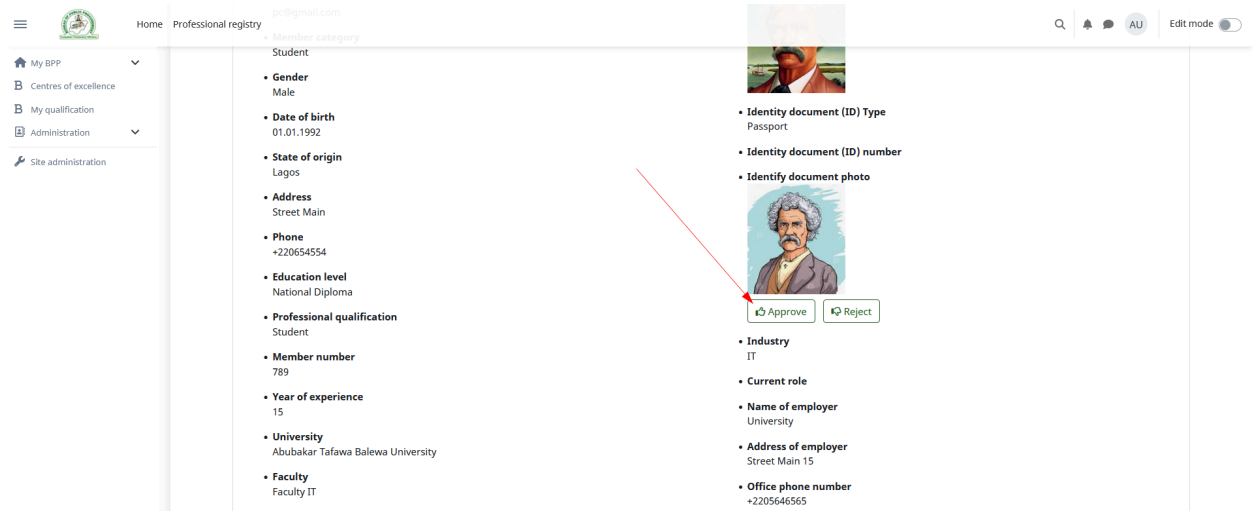
Click on the National ID picture to view the image.

Click on the button “Reject” to reject the National ID and enter the reason. The user will be notified by the email.

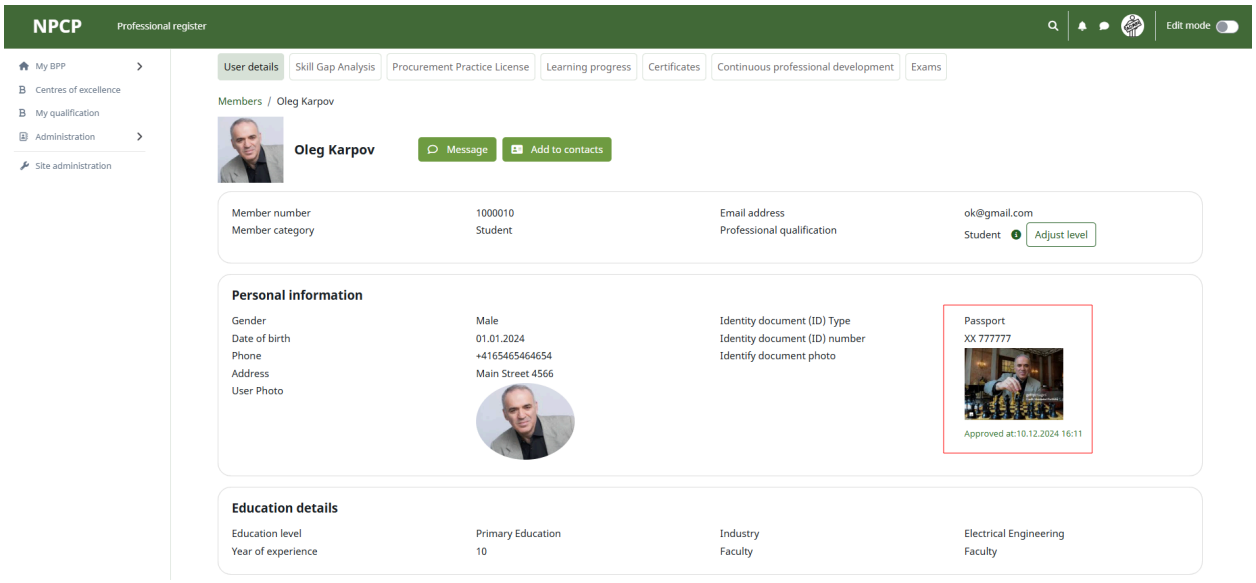


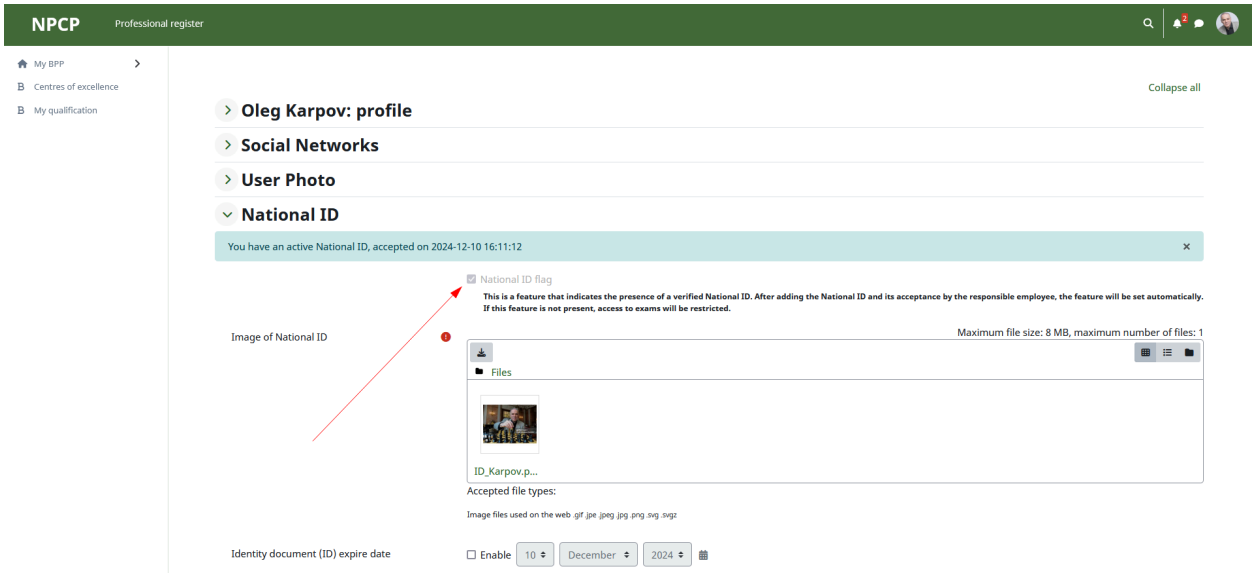


Click the button “Approve” to approve verification.



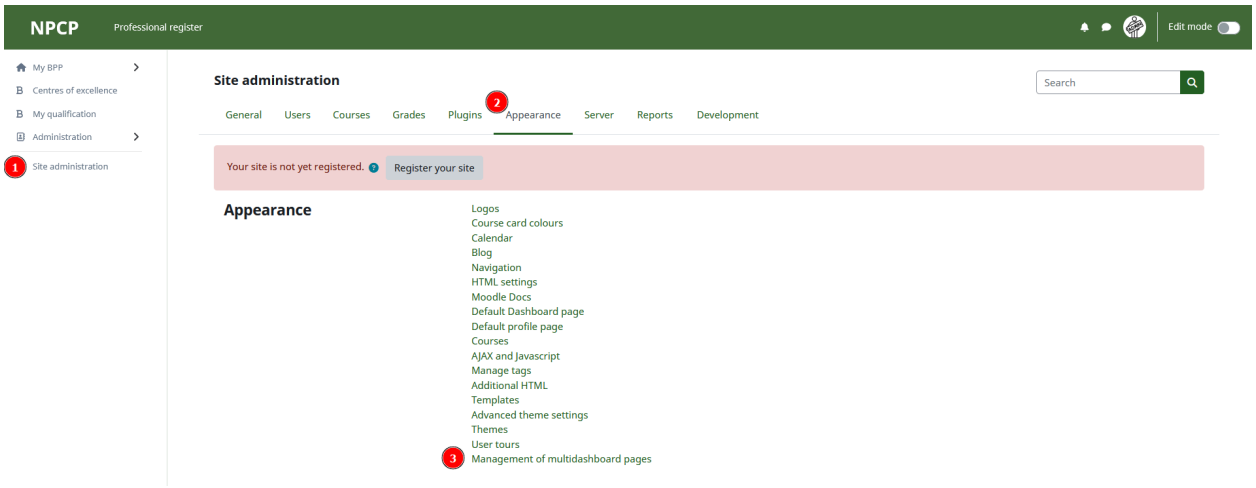
On the user's profile are the date and time of approval and the “National ID flag” is set – “YES”



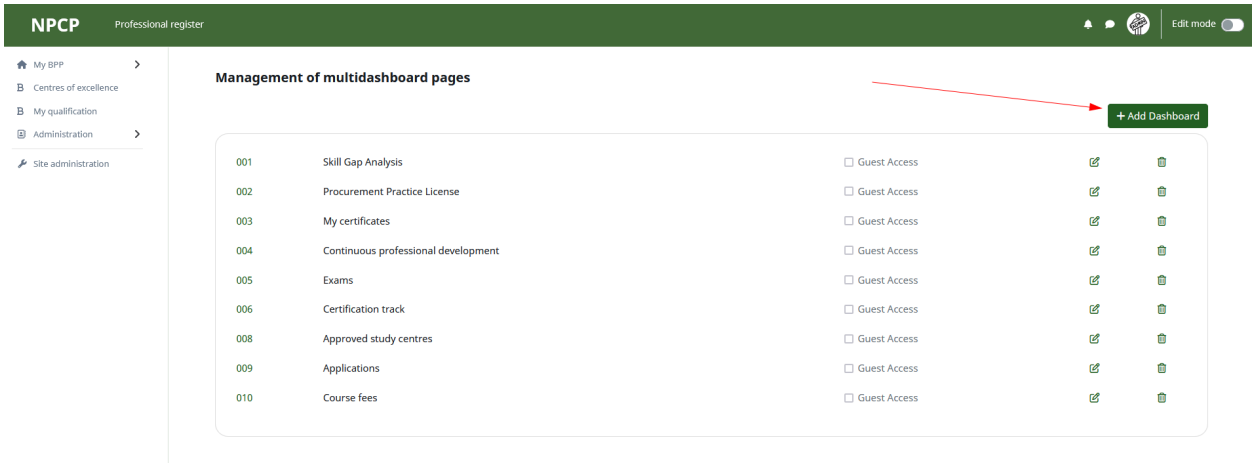


6.1.2 MANAGEMENT OF MULTI DASHBOARD PAGES

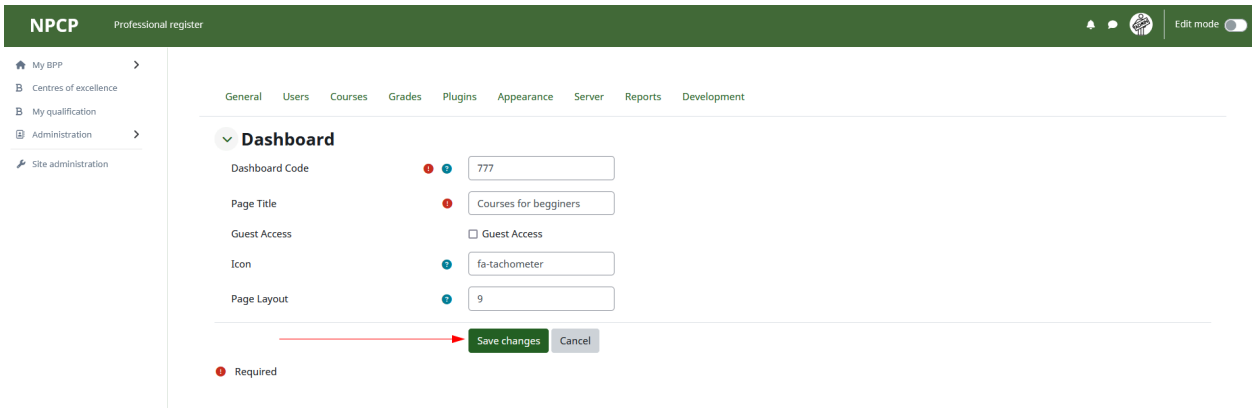
The system allows site-admin to manage a multi dashboard. Click Site admin -> Appearance -> Management of multi-dashboard pages.

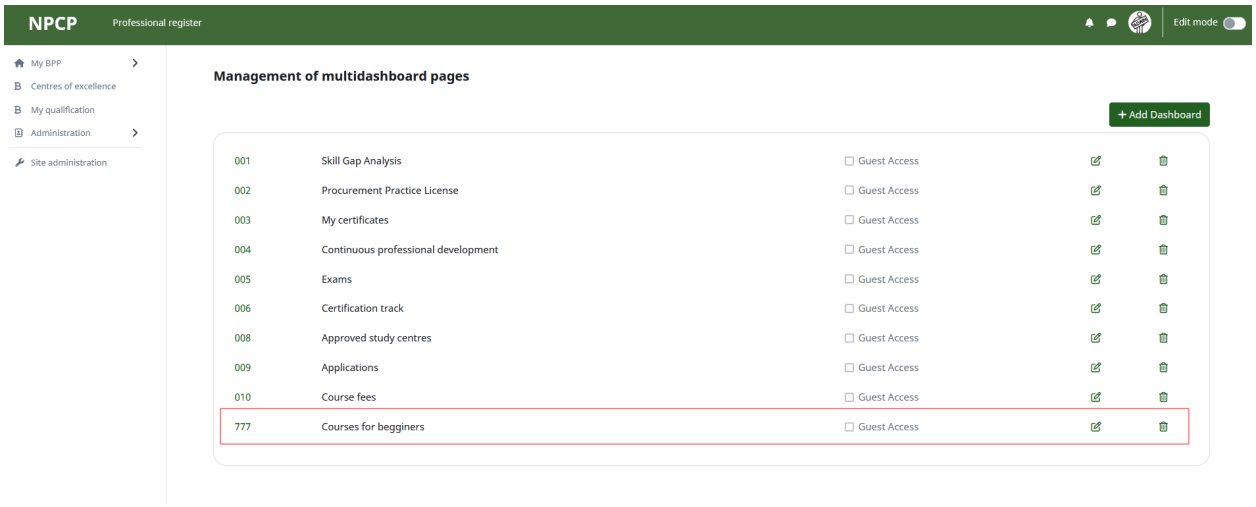


Click “Add Dashboard”

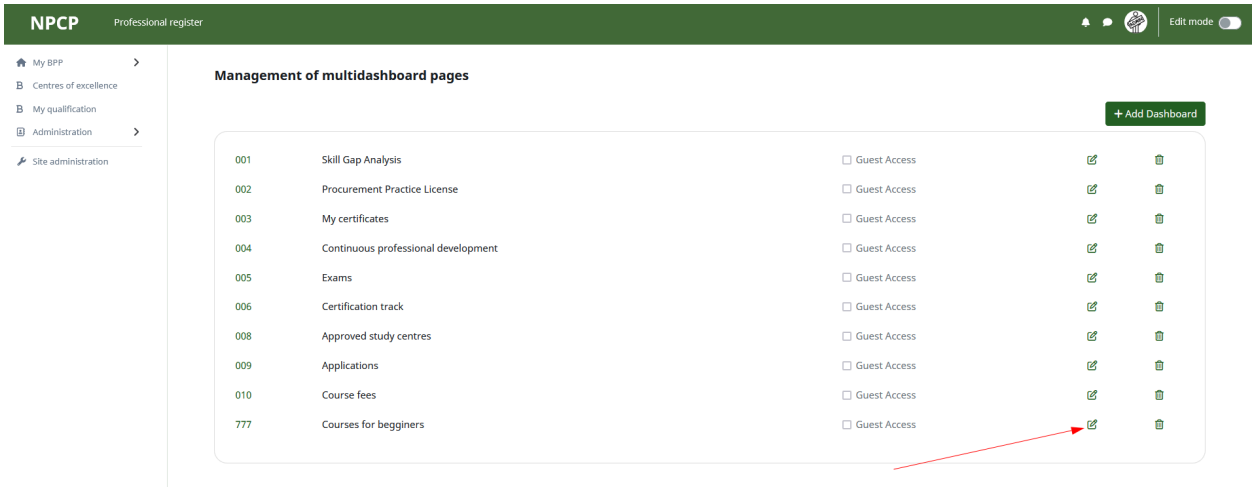


Fill in all fields. Click “Save changes”

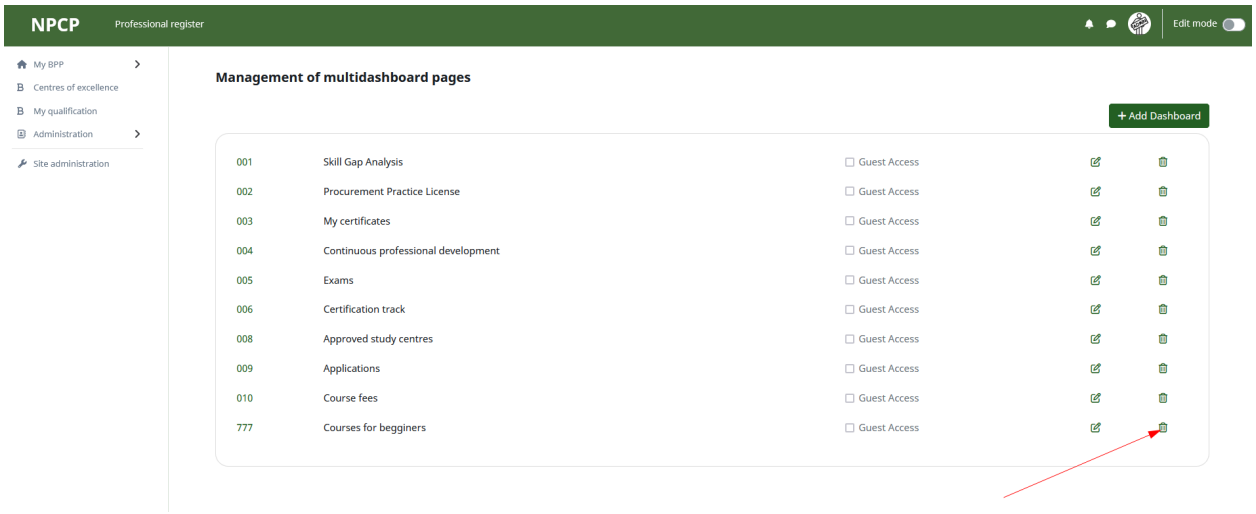




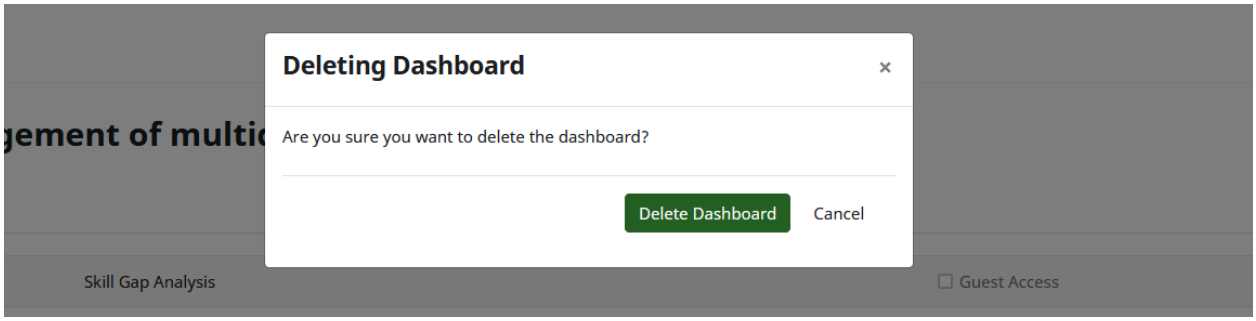
To edit the dashboard click the button “Edit”



To delete the dashboard click the button “Delete”

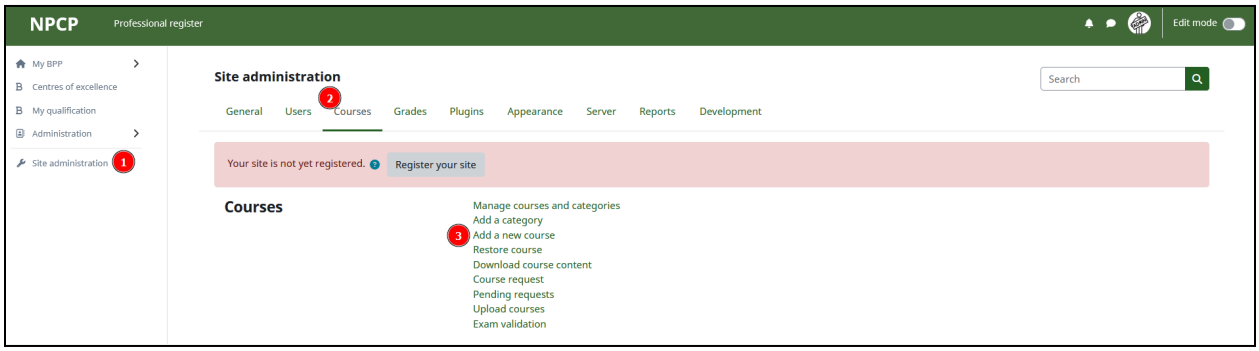


And confirm

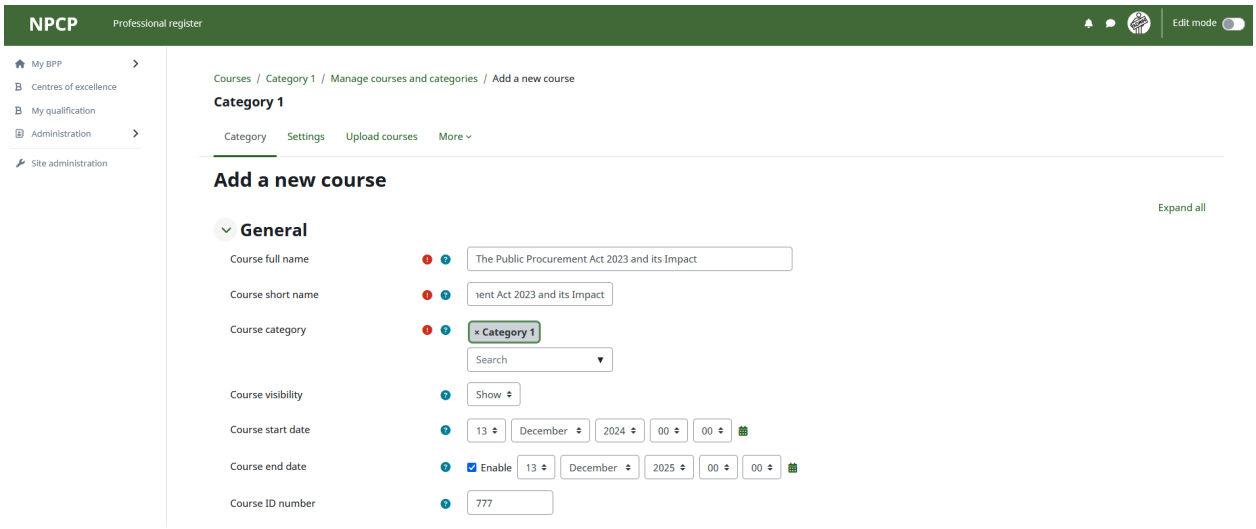


6.1.3 ADD NEW COURSE

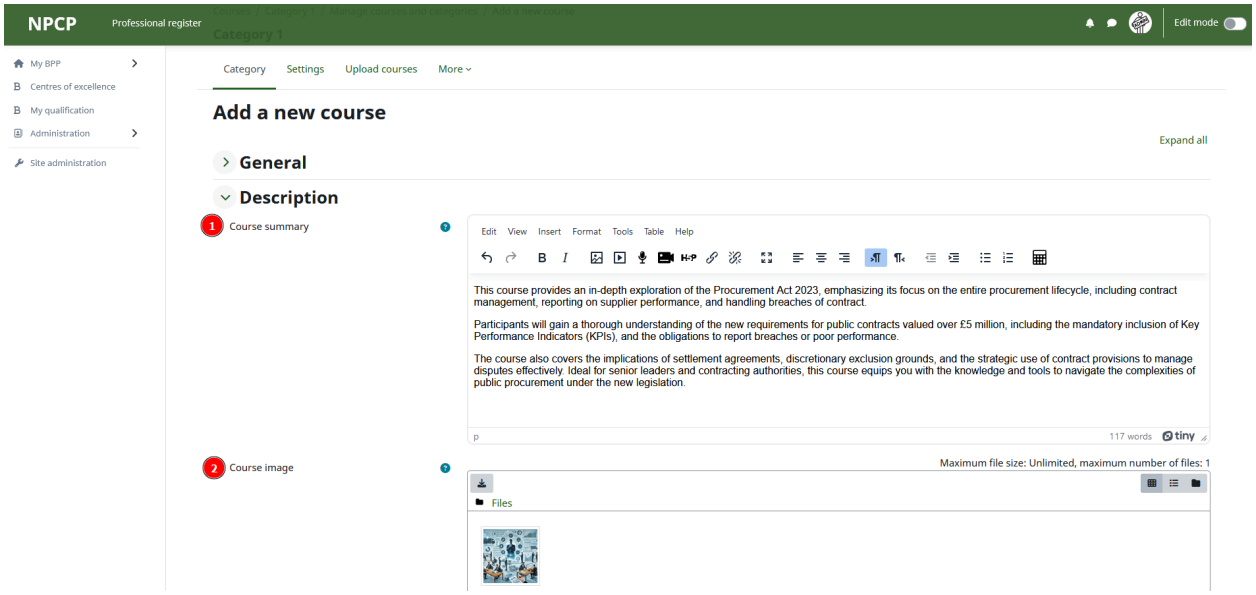
The primary purpose of the SIS is to enable the creation and management of courses. To add a new course, go to Site Administration → Courses → Add a new course.



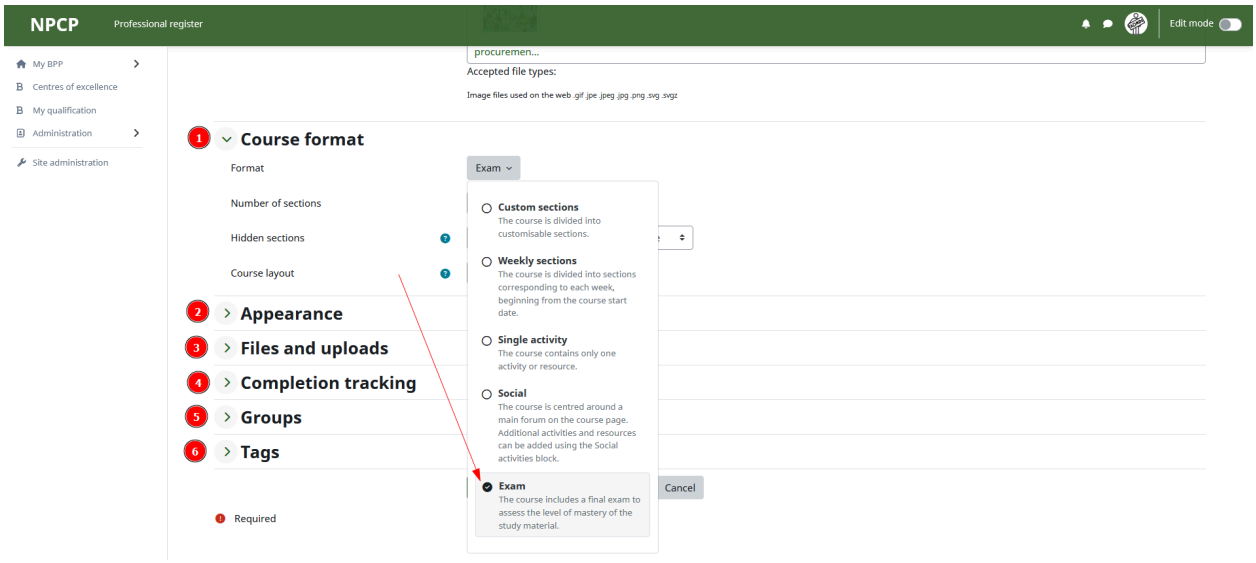
Fill in all fields.



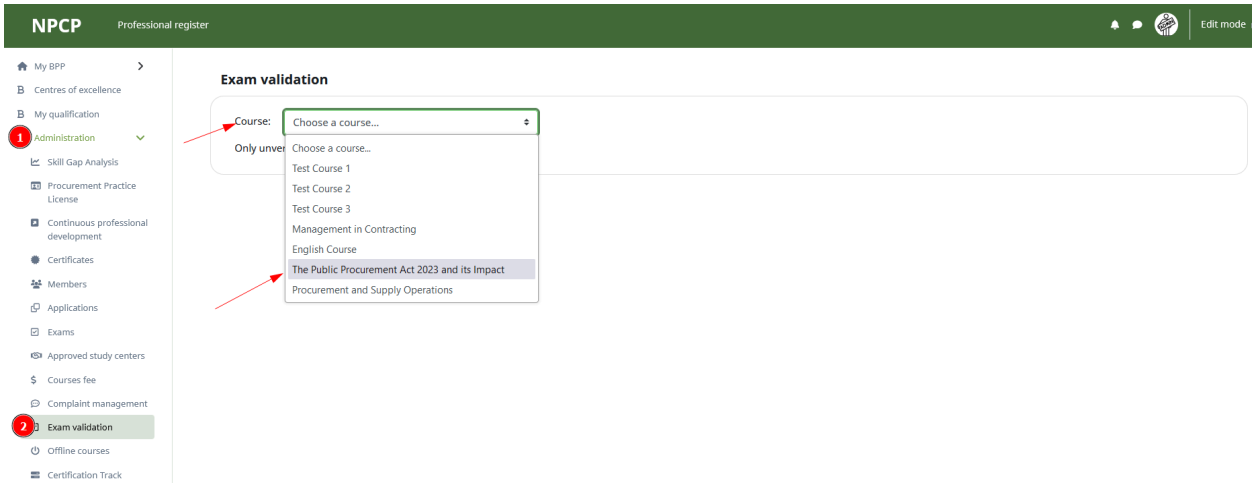
Add description and image.



Select Course format and other options. Click “Save and display”.

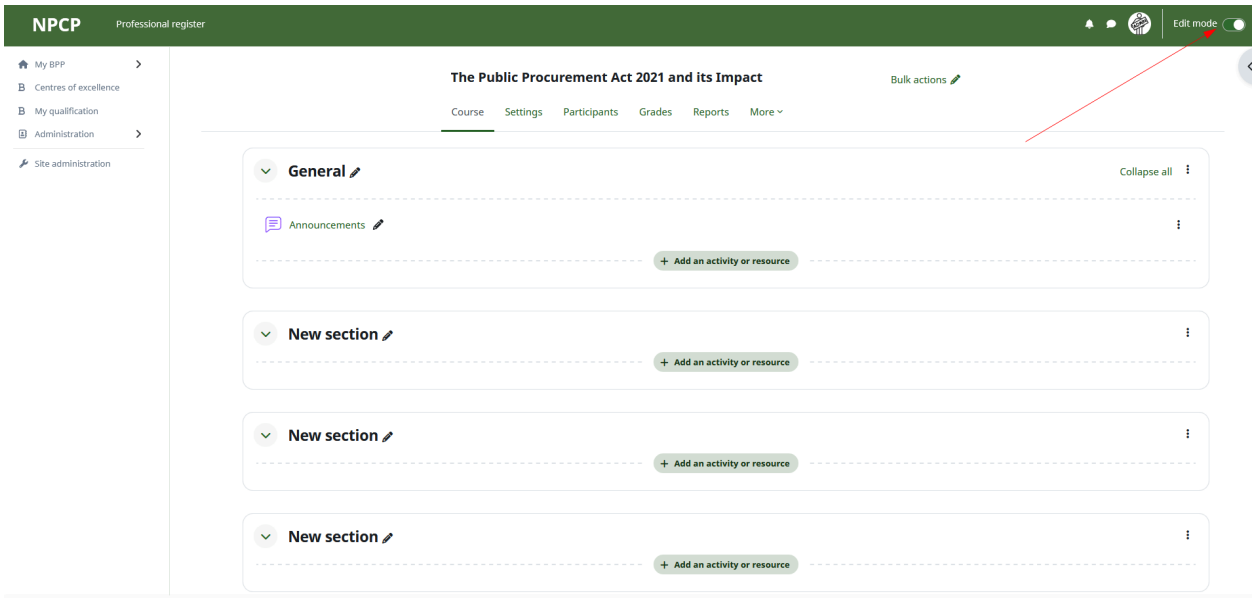


Important!!! For a course to be validated by a Certification Officer, it must be set to the "Exam" format.



6.1.4 EDIT COURSE

The SIS allows you to edit courses and add various activities and resources. Click the Edit mode button and rename the topics to match the course's theme.



6.1.4.1. HOW TO ADD NEW QUIZ TO THE COURSE

The SIS enables adding a quiz to a course for students to take exams.

Important: If a course includes both intermediate quizes and a final exam quiz with proctoring functionality, it is mandatory to first add the exam quiz when creating the course. Only after that can intermediate quizes be added. Otherwise, the exam validation functionality will not work correctly.

Open the desired course, click Edit mode, and then select Add an activity or resource.

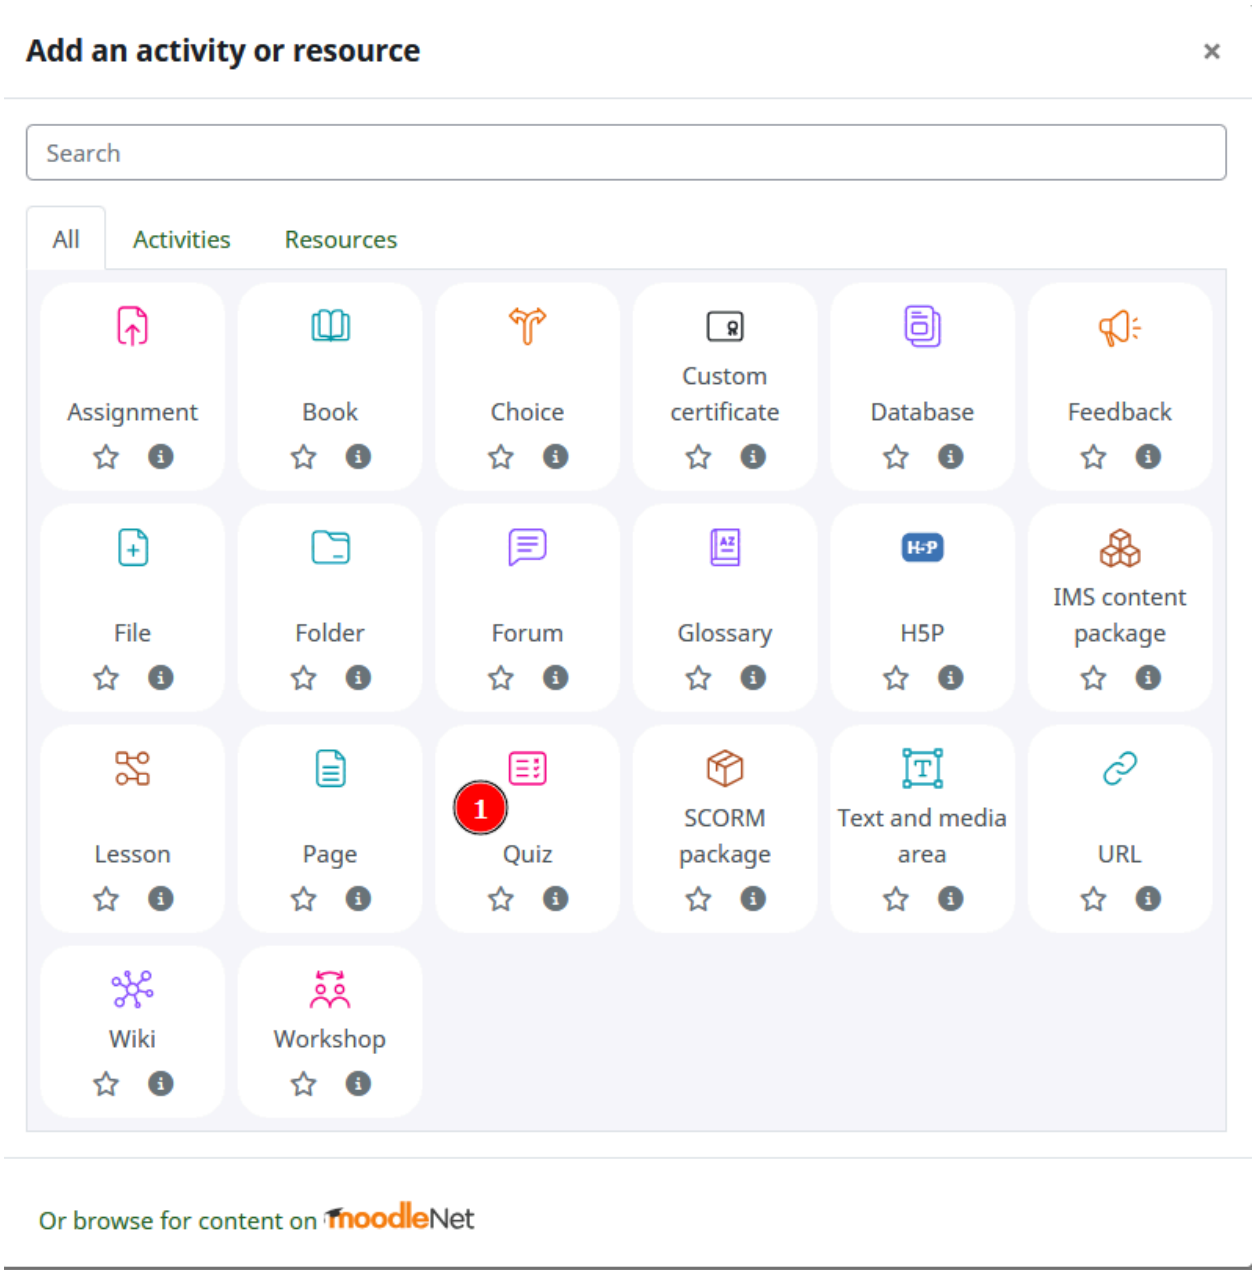
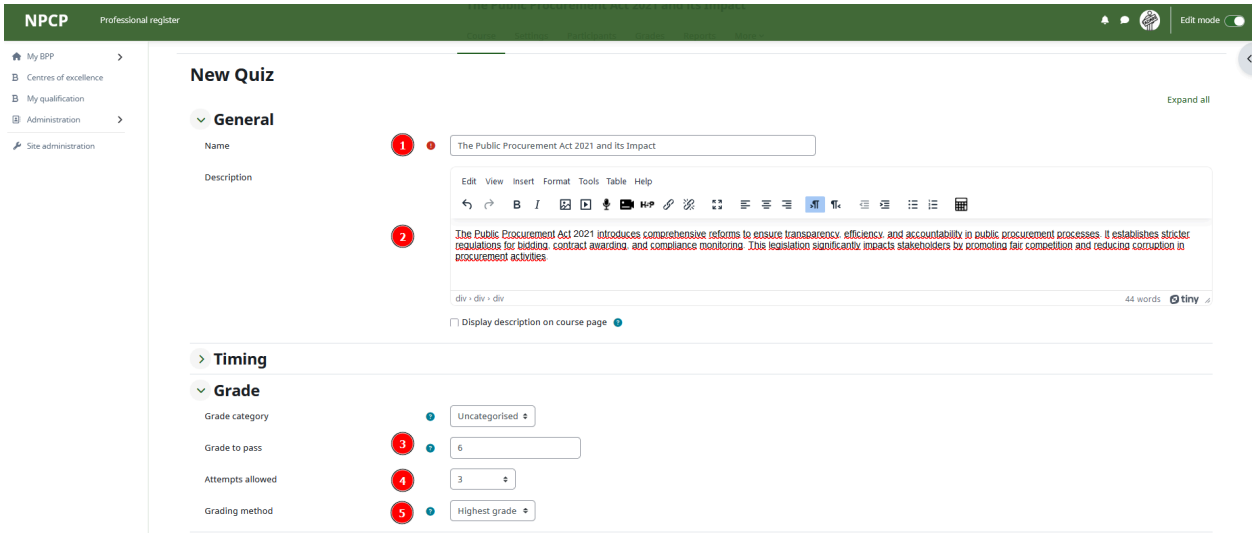
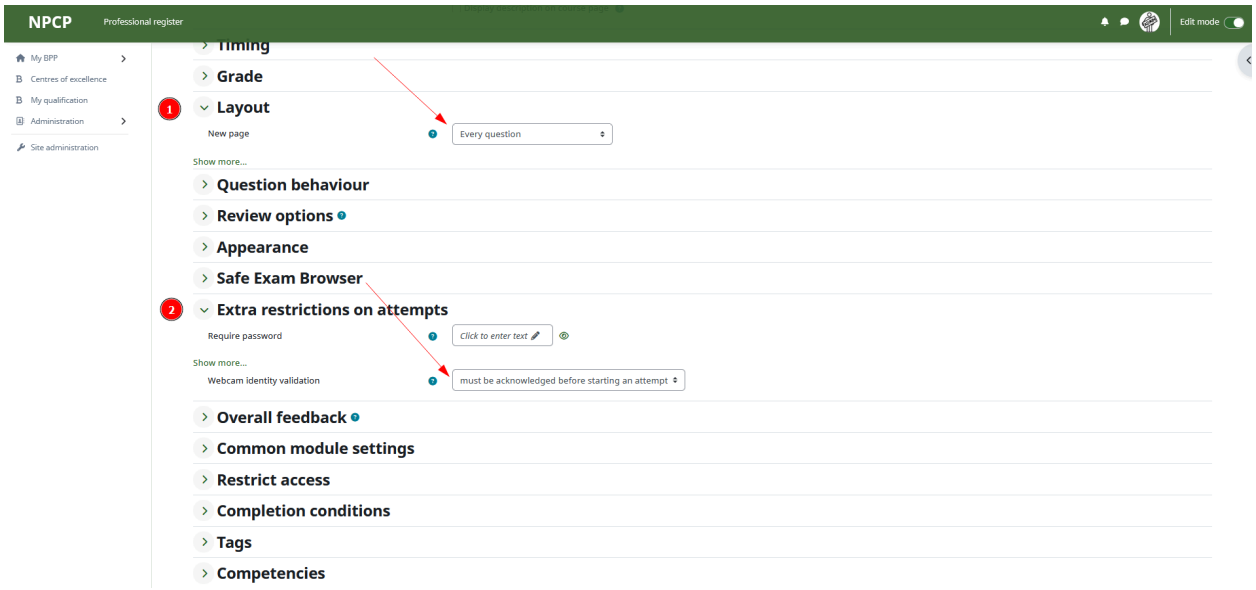
On board “Add an activity or resource”, select “Quiz”



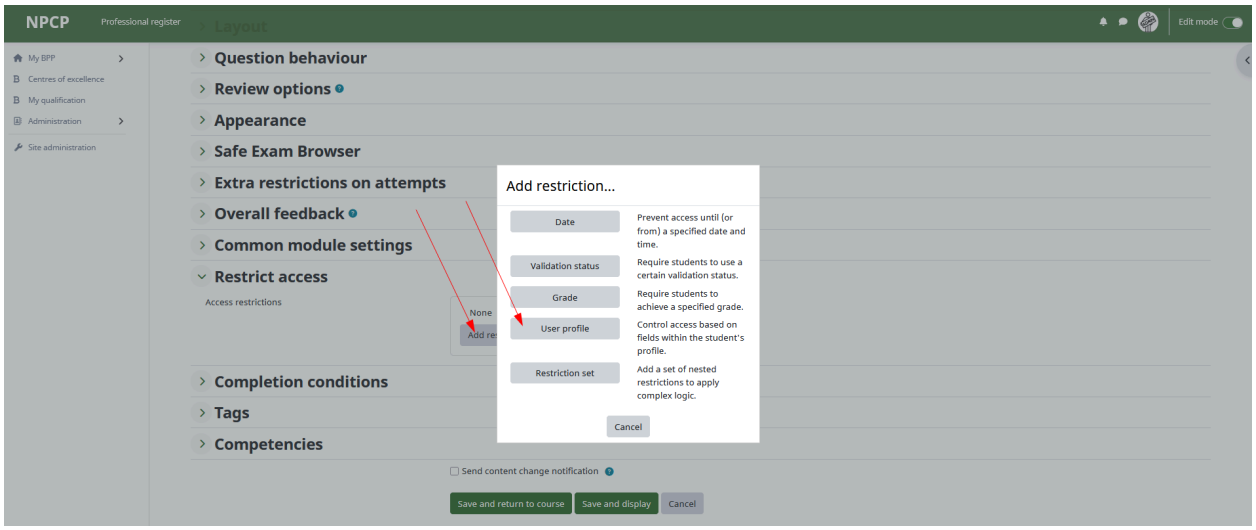
Fill in all fields in the 'General' section: Name and Description, as well as the 'Grade' section.



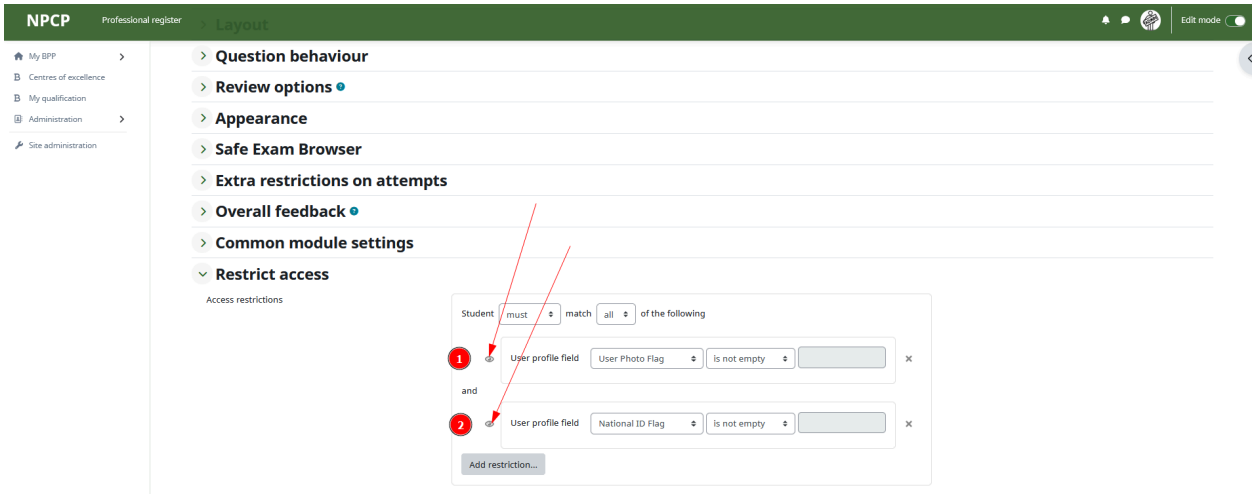
Configure the 'Layout' block and enable the webcam in the 'Extra restrictions on attempts' block. Click 'Save and display' to apply the changes.
In the block “Extra restrictions on attempts” set “Webcam identity validation” as “must be acknowledged before starting an attempt”



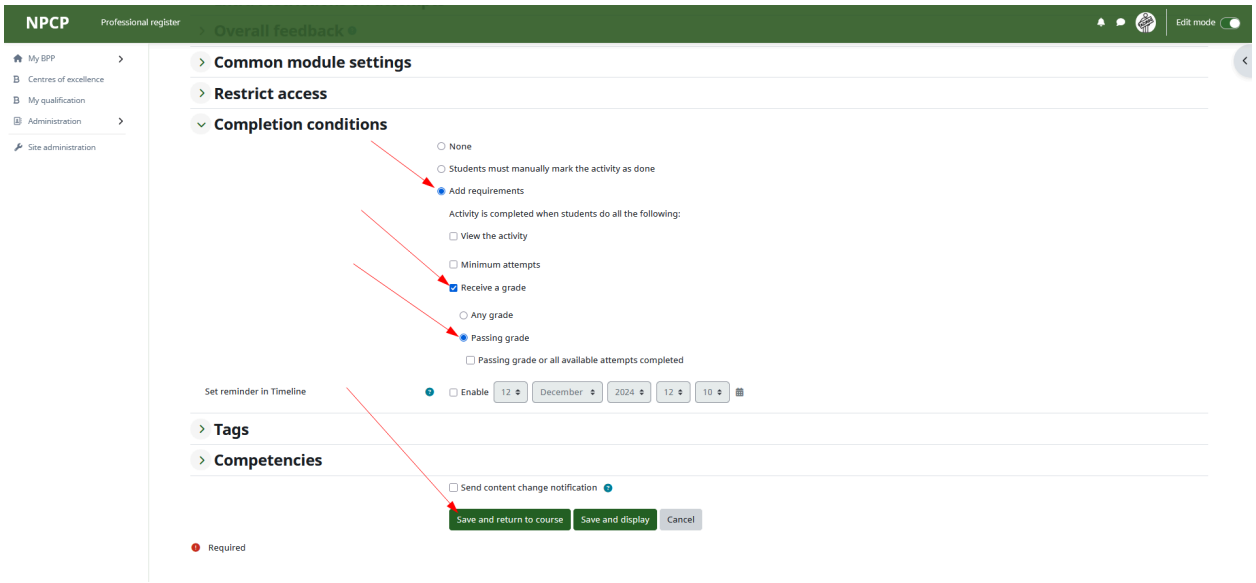
In the block “Restrict access”, click the button “Add restriction” -> “User profile”



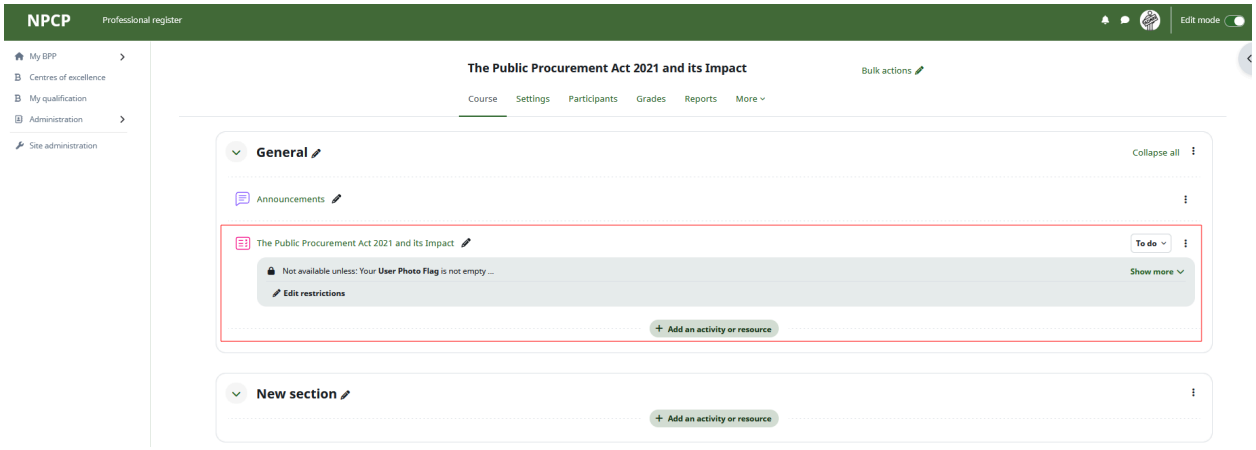
And set “User profile” -> “User Photo Flag” -> “is not empty”;
And set “User profile” -> “National ID Flag” -> “is not empty”.
The button “Eye” has to be “open”.



In the block “Completion conditions” set the radio button “Add requirements” – to YES, the checkbox “Receive a grade” – to YES, radio button “Passing grade” – to YES.

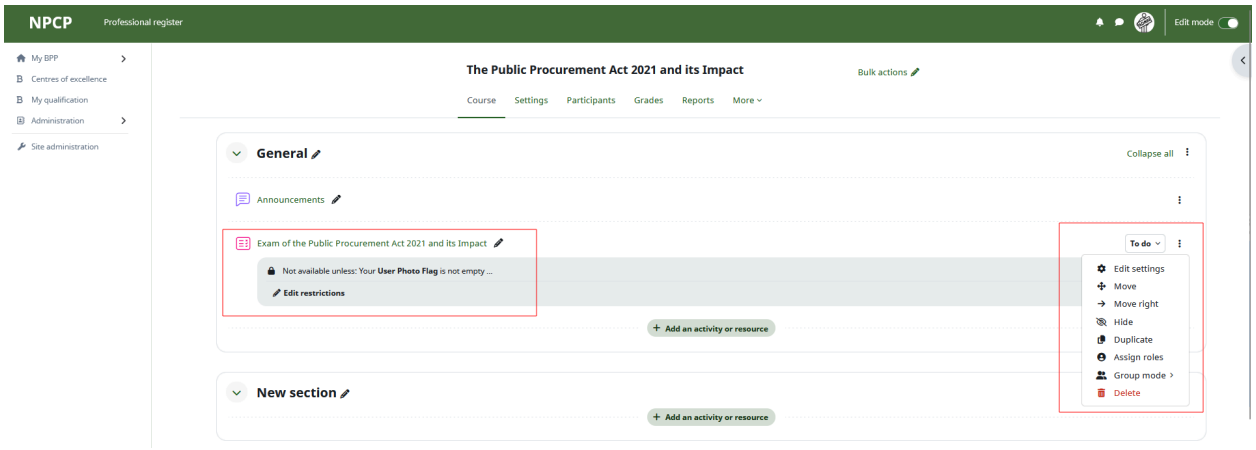


The quiz is created in the course.



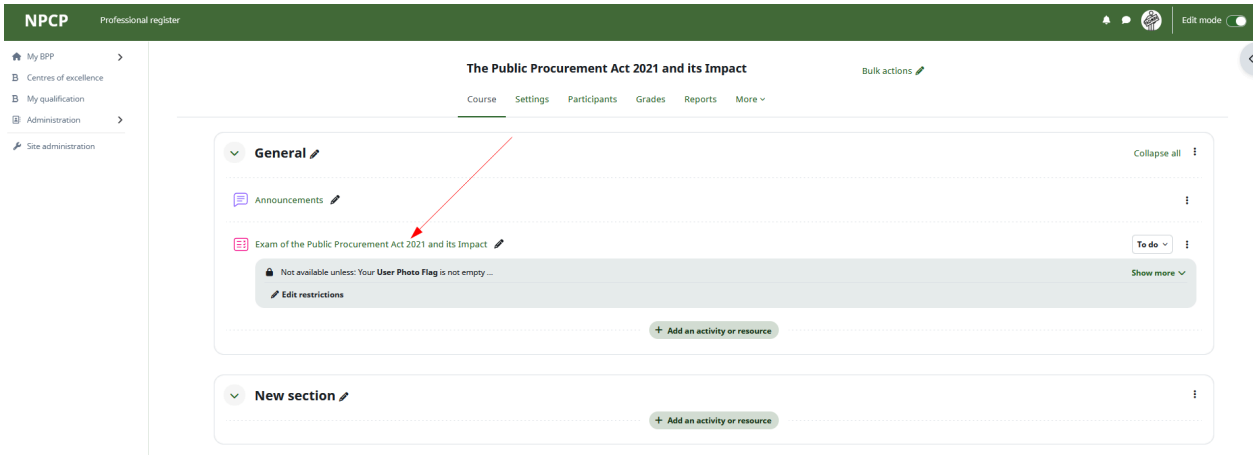
6.1.4.2. MANAGE QUIZ

SIS allows you to edit settings, change availability, move, duplicate, assign roles, and delete items. Open the course, click the 'Three dots' button, and select the desired option.

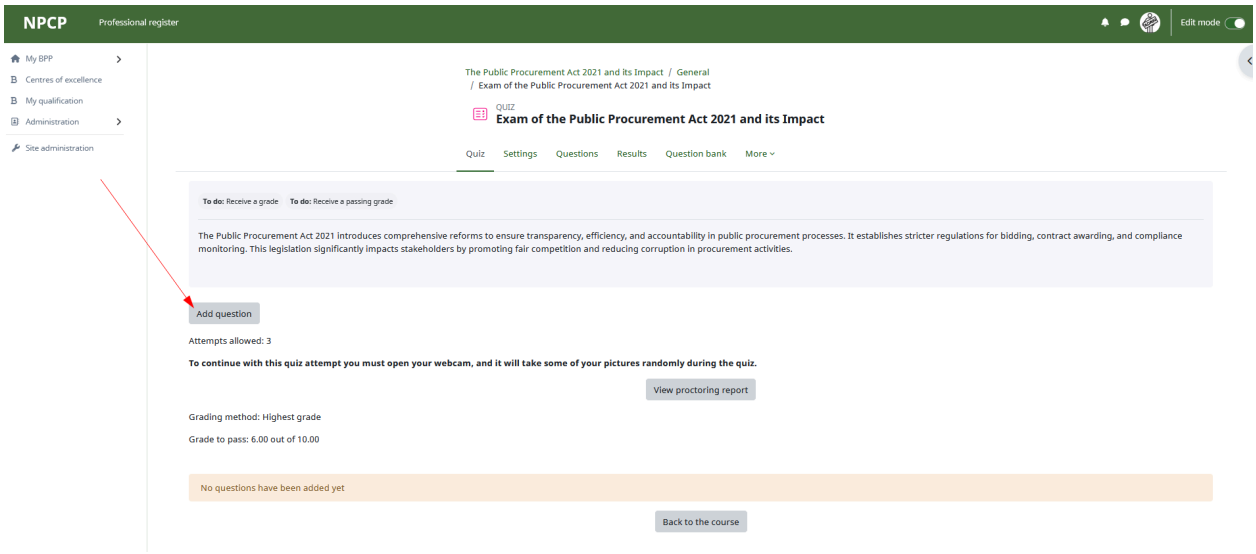


6.1.4.3. HOW TO ADD QUESTION TO THE QUIZ

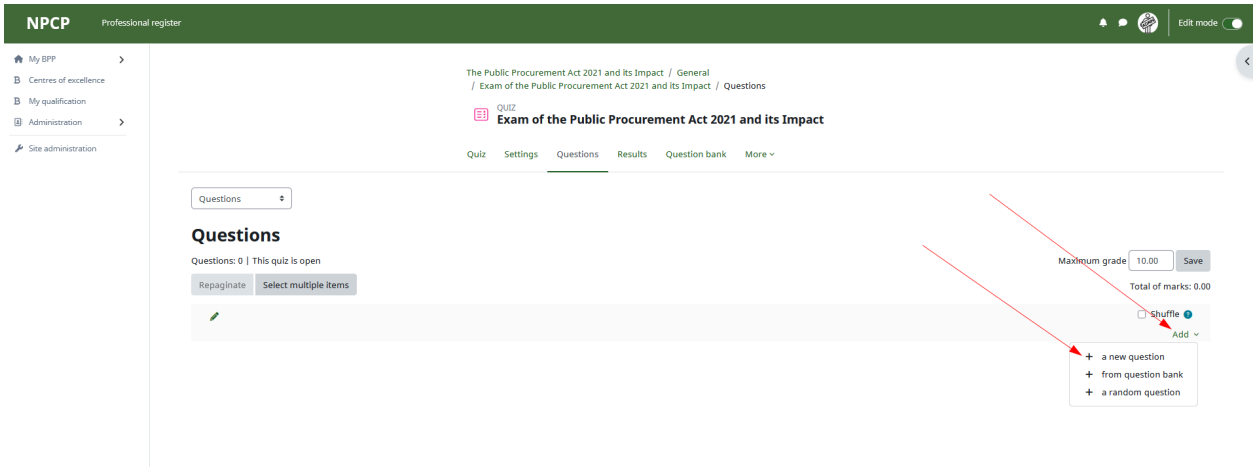
SIS allows adding questions to the quiz to make exams ready. Click on the Quiz



Observe the information on the form and click the button “Add question”



On the button “Add” select “a new question”



On the popup, “Choose a question type to add” select the type (f.x. – Multiple choice)

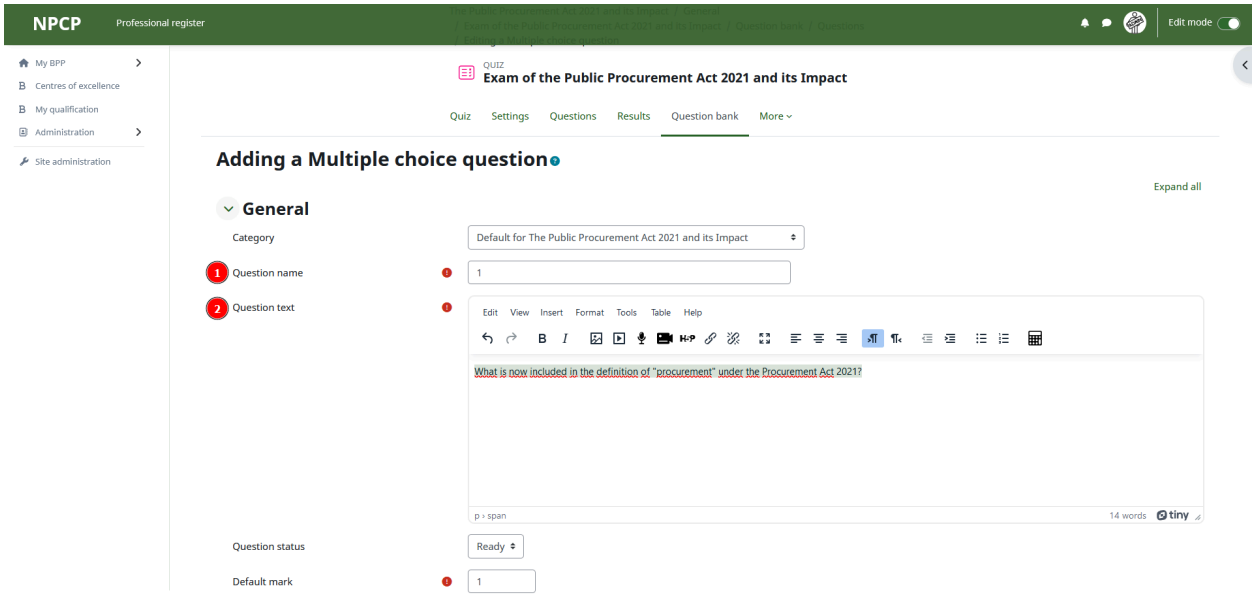
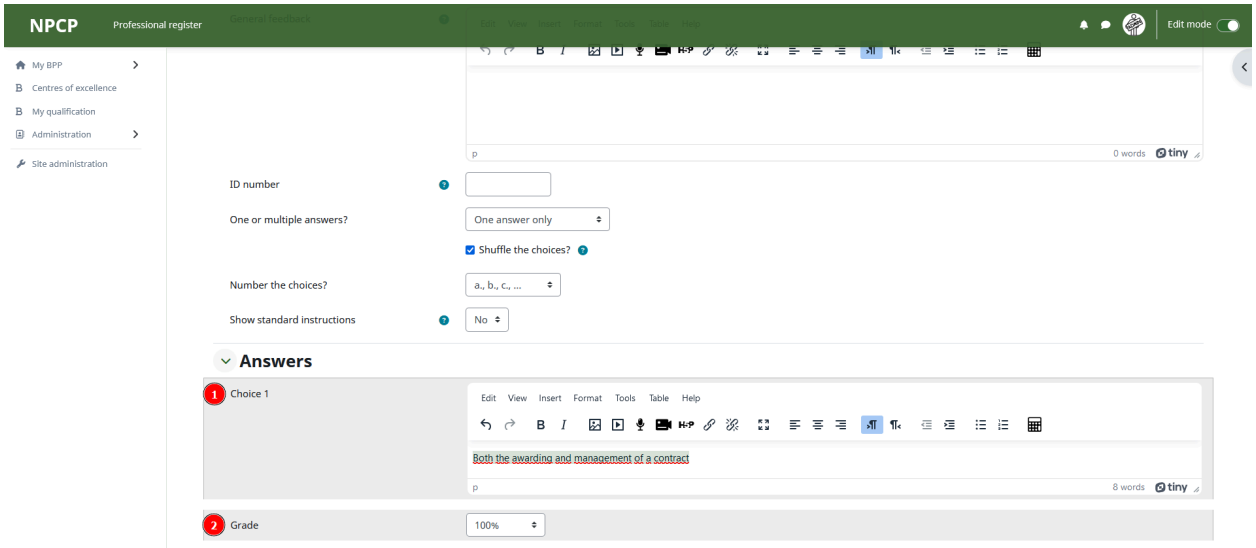
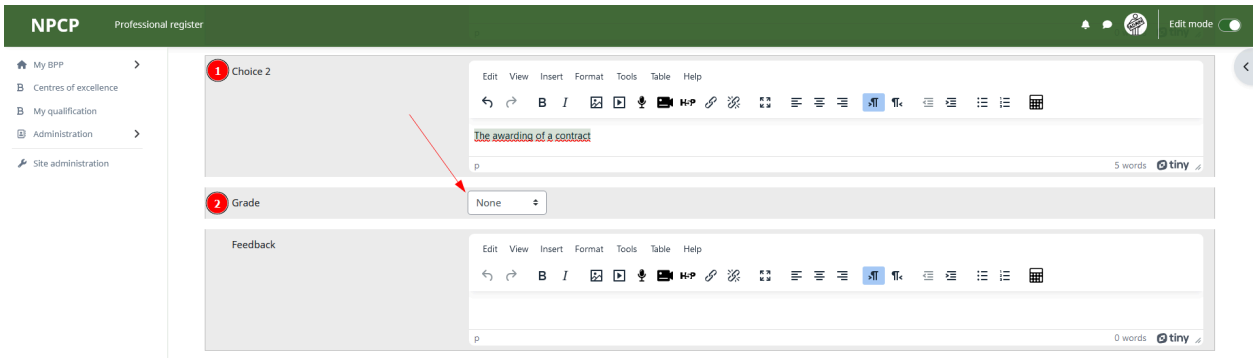
Enter the value on the block “General” Question name, Question text, and other options



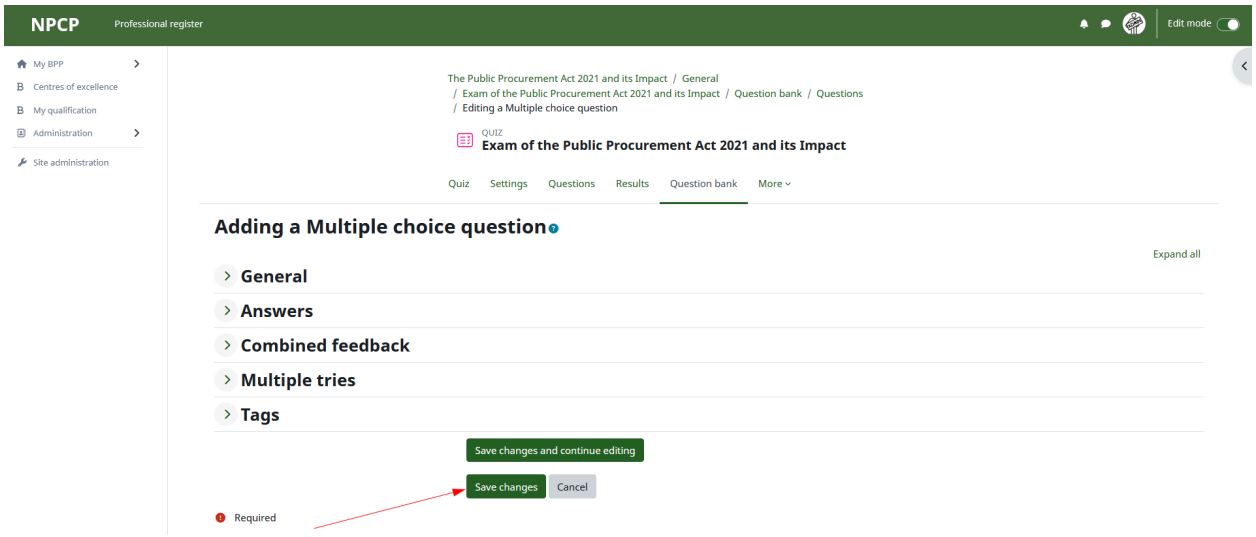
In the 'Answer' block, enter the first variety of answers in the 'Choice 1' field. Set the grade to '100%' if this answer is correct.



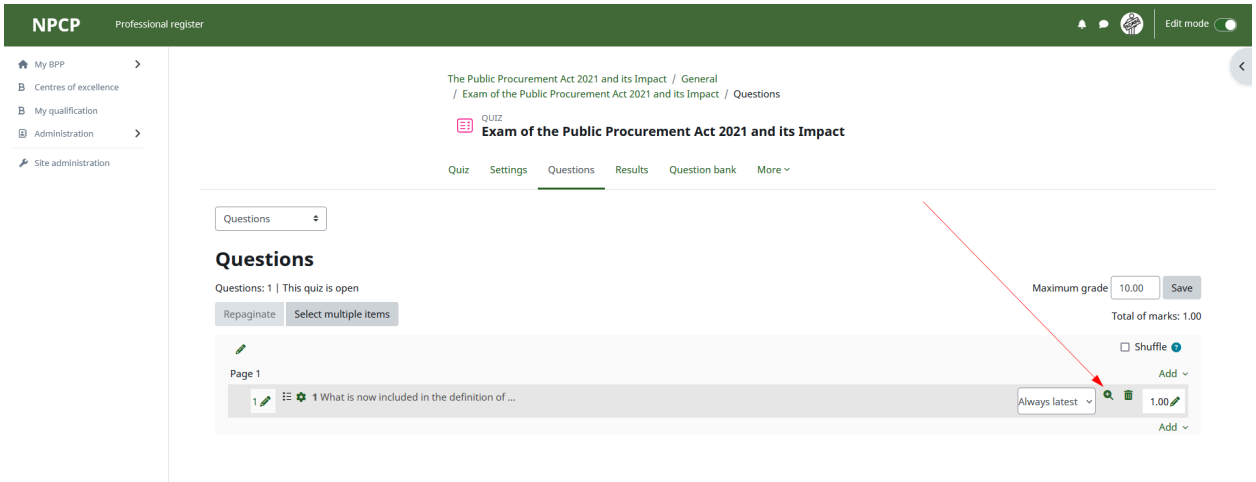
On the block **“Answer”** in the field “Choice 2” enter the second variety of answers; Set the grade “None” if the answer is not correct.

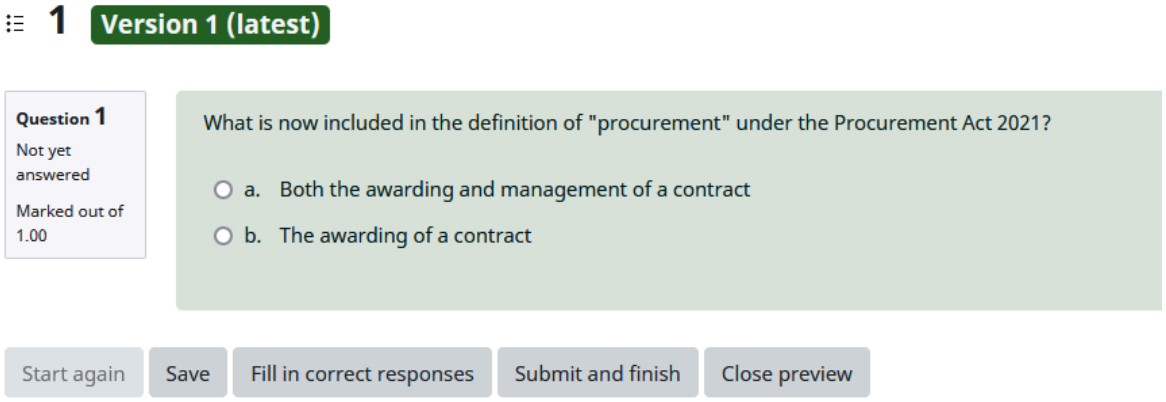


Click “Save changes”



Click on the button “Preview question” to observe the result.



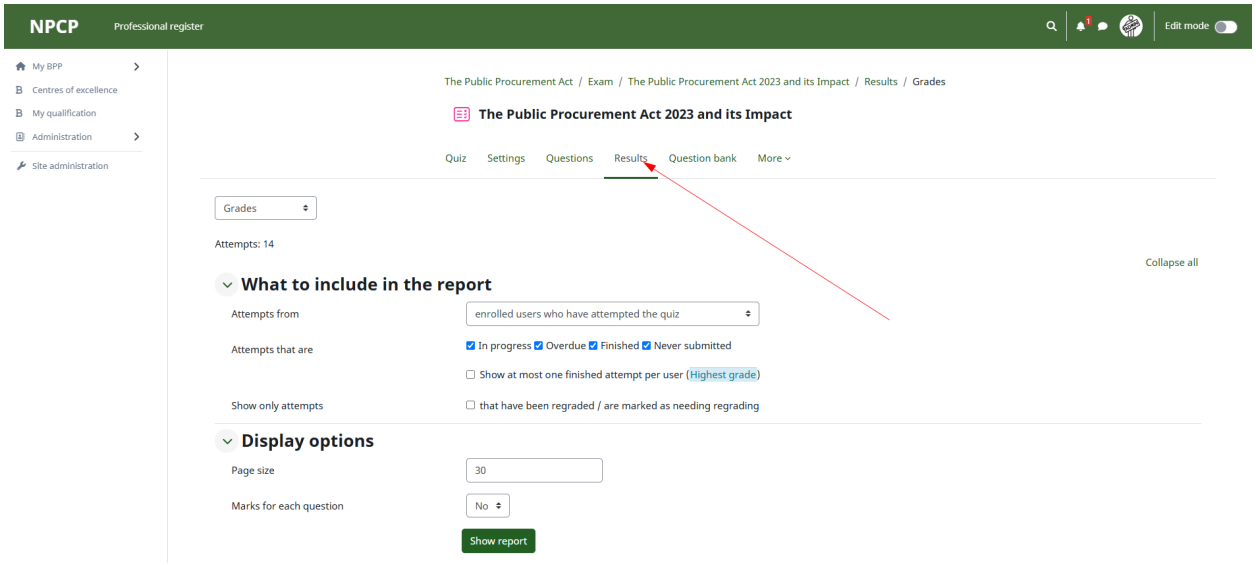


For more information, please refer to the link:
https://docs.moodle.org/404/en/Quiz_activity

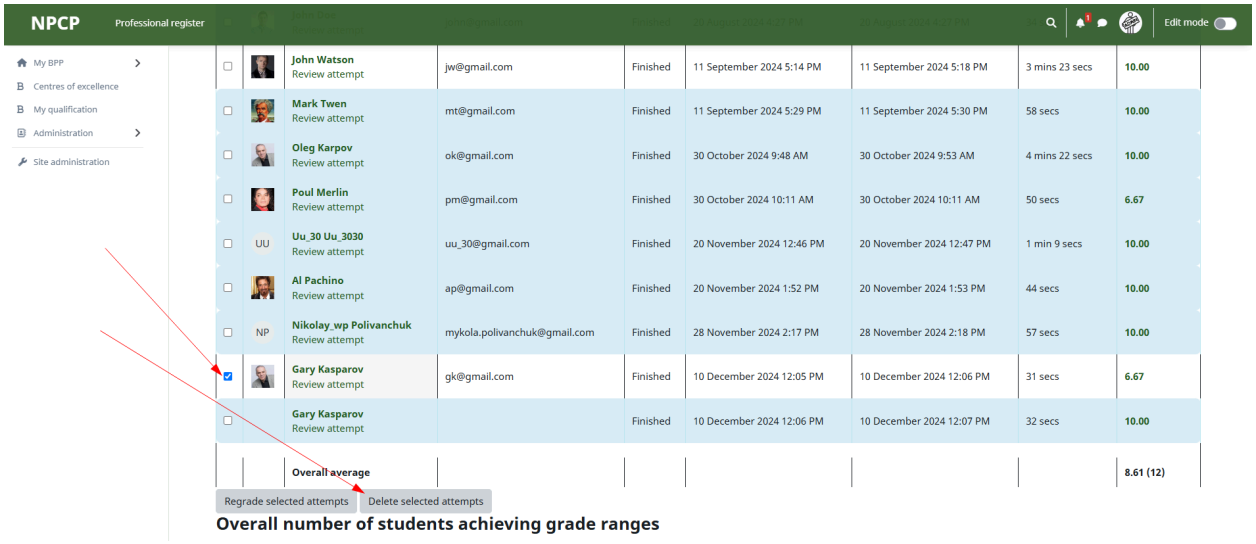
Also, for information about randomizing questions in a quiz, please refer to the following link:
https://docs.moodle.org/404/en/Building_Quiz#Adding_a_random_question

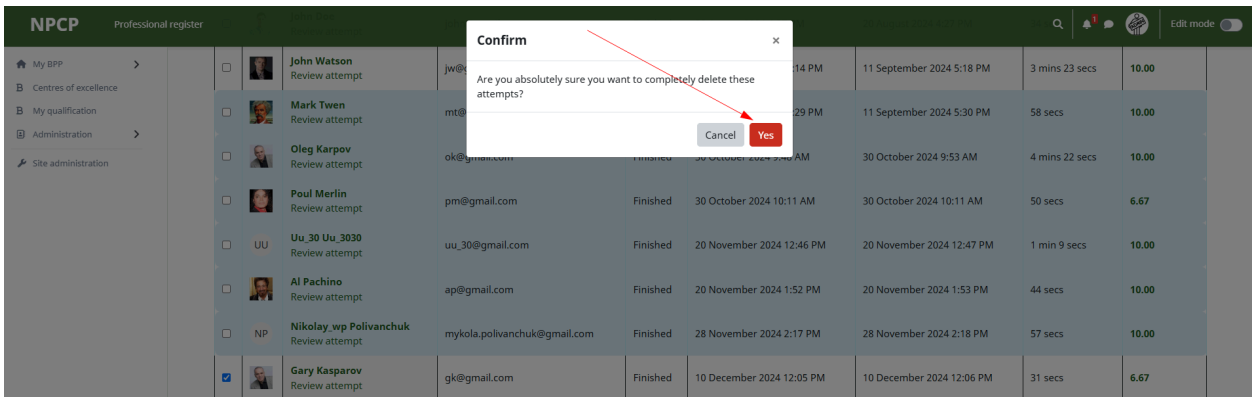
6.1.4.4. HOW TO DELETE SELECTED ATTEMPTS

SIS allows the site administrator to delete selected attempt results. Click on 'Quiz' and then navigate to the 'Results' tab.



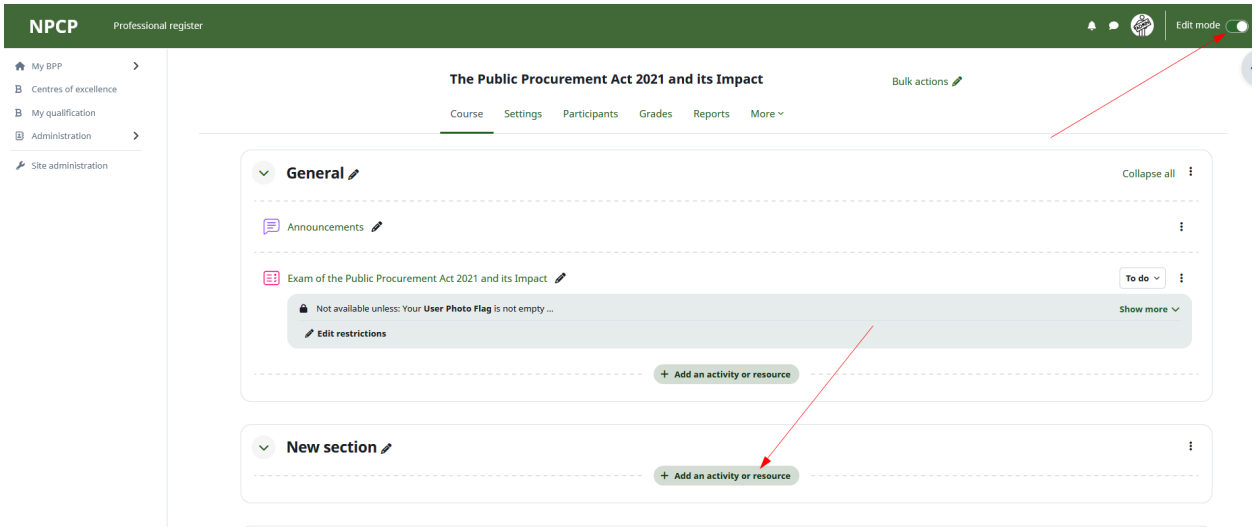
Select the required attempt, and click “Delete selected attempts”.



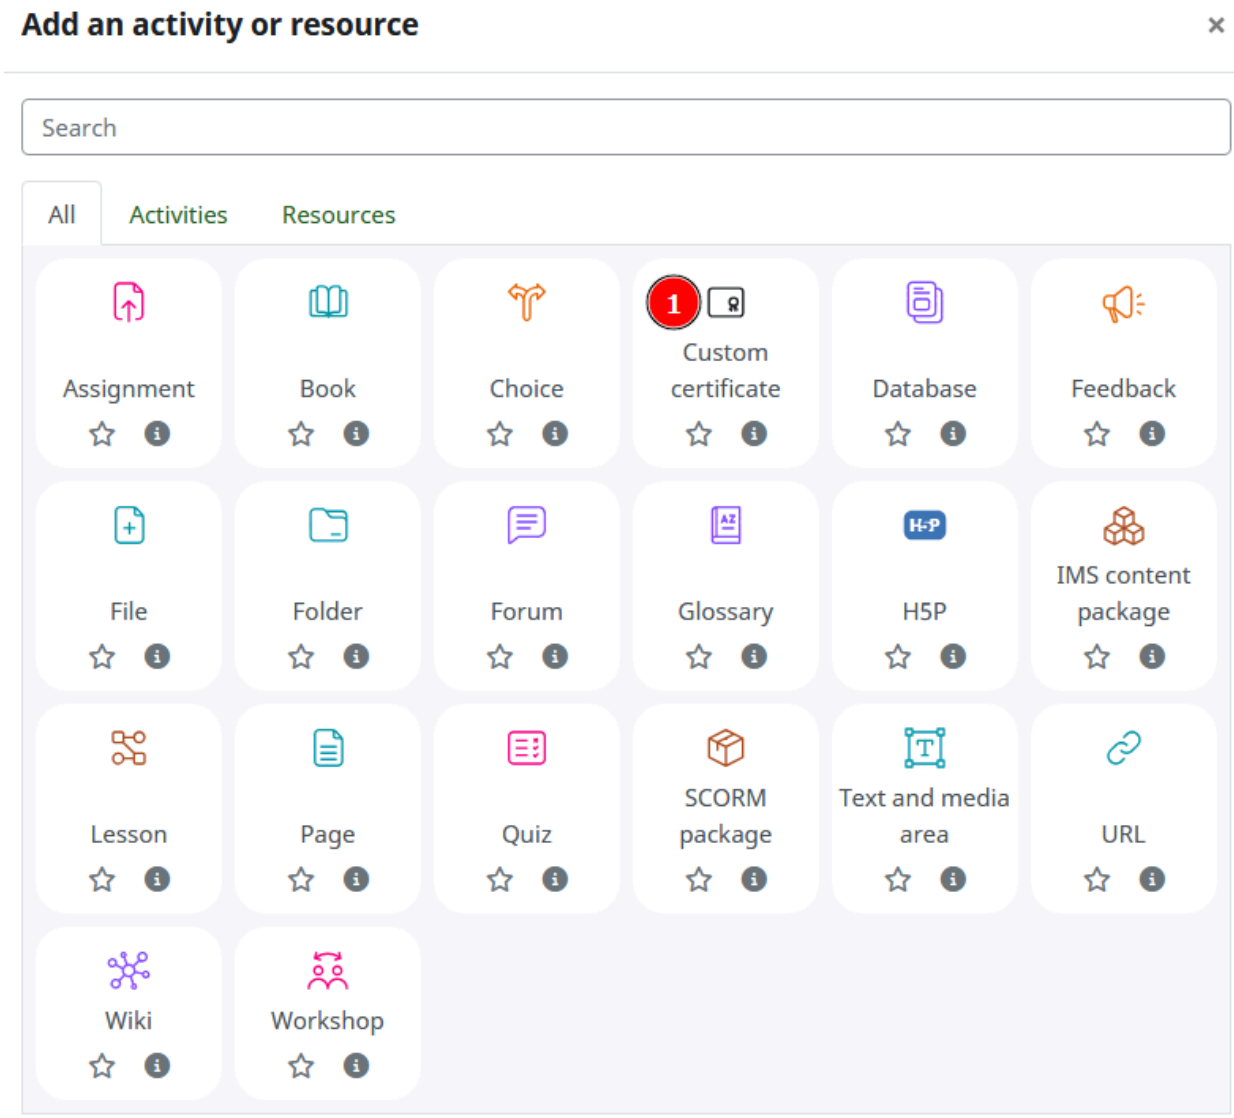


6.1.4.5. HOW TO ADD A CERTIFICATE

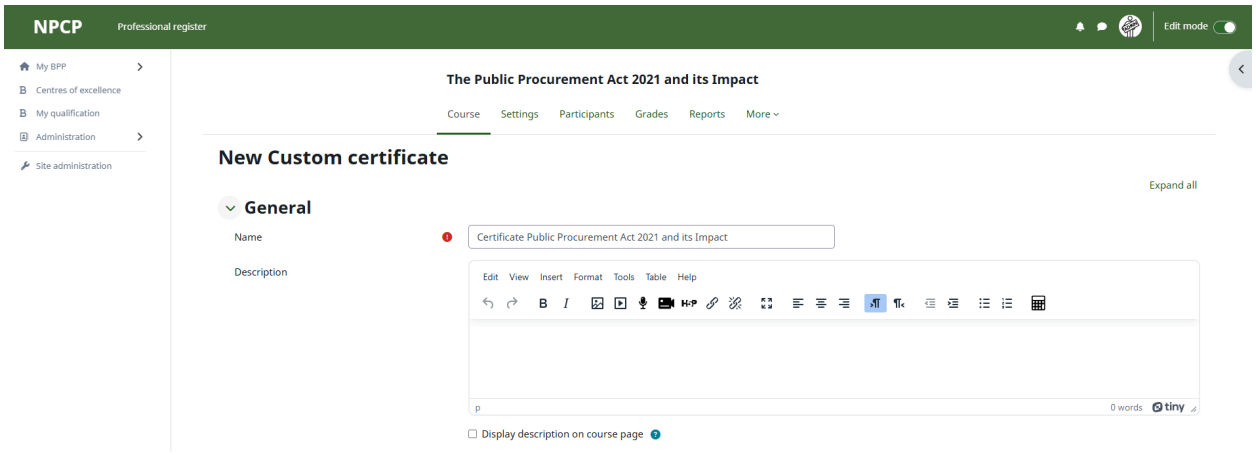
SIS allows you to add certificates to the course for students to earn upon passing exams. Open the desired course, click 'Edit mode,' and then select 'Add an activity or resource.



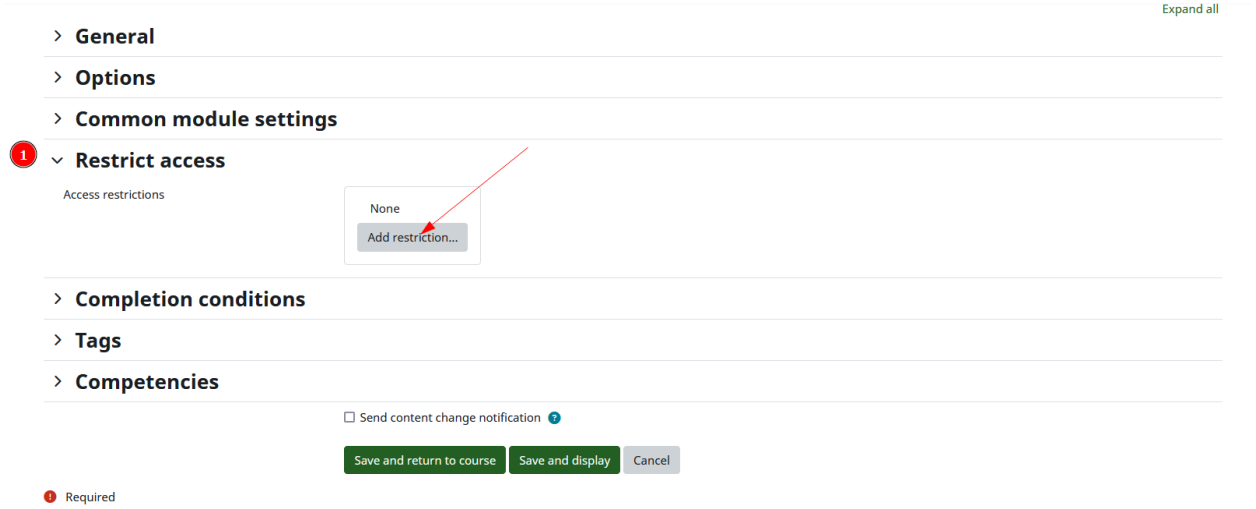
Select “Custom certificate”

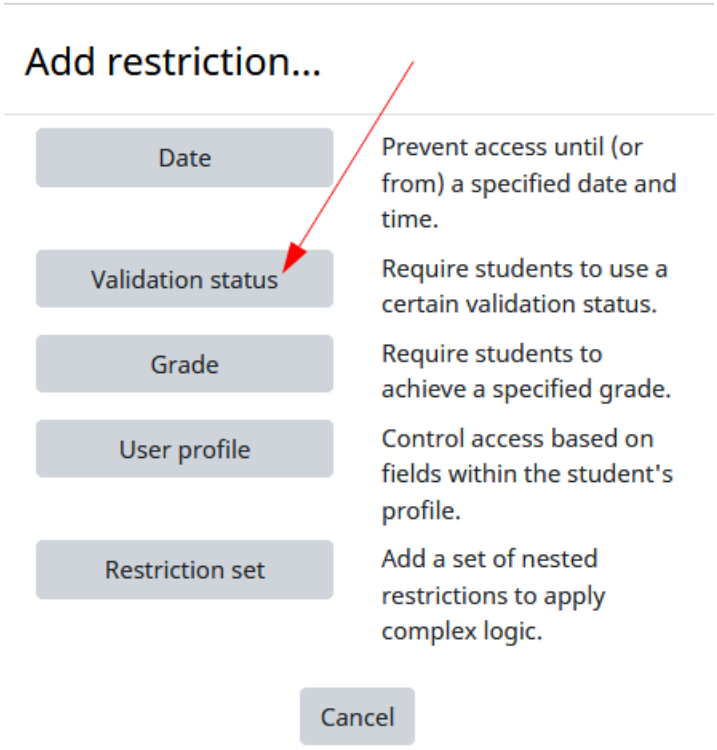


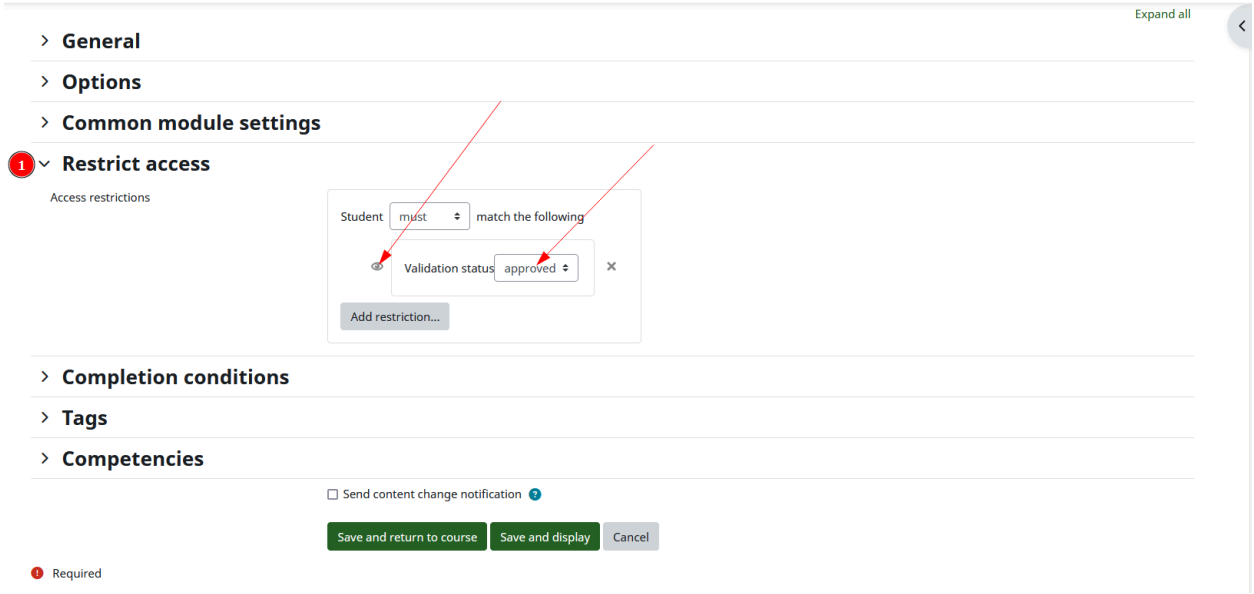
Fill in the block “General”



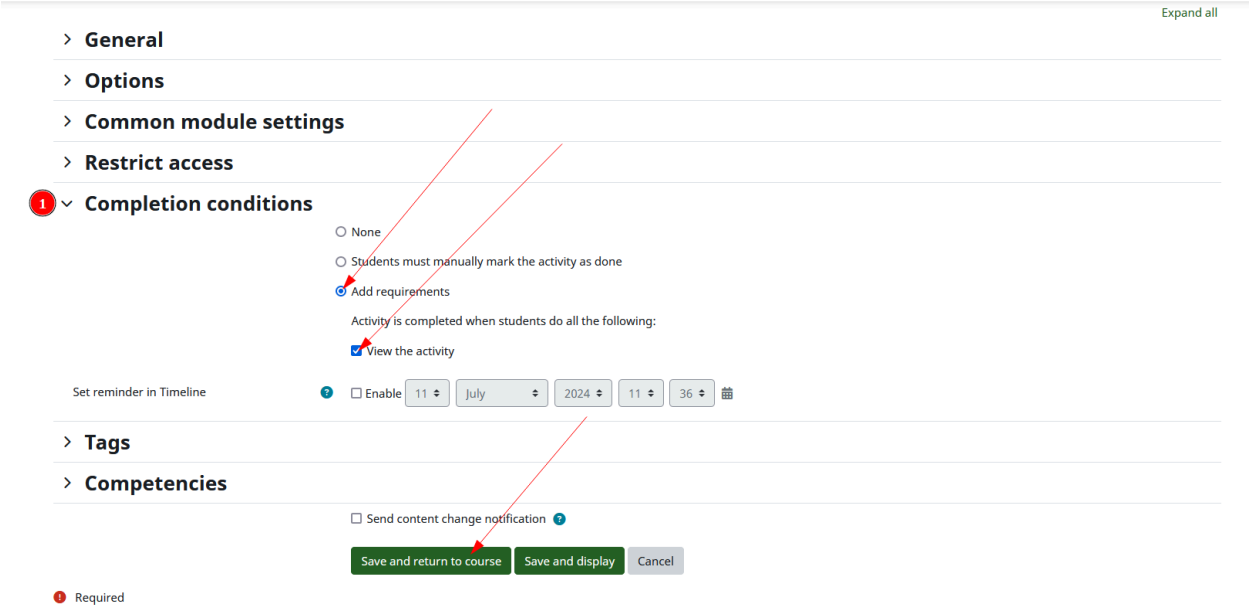
Set the block “Restrict access”



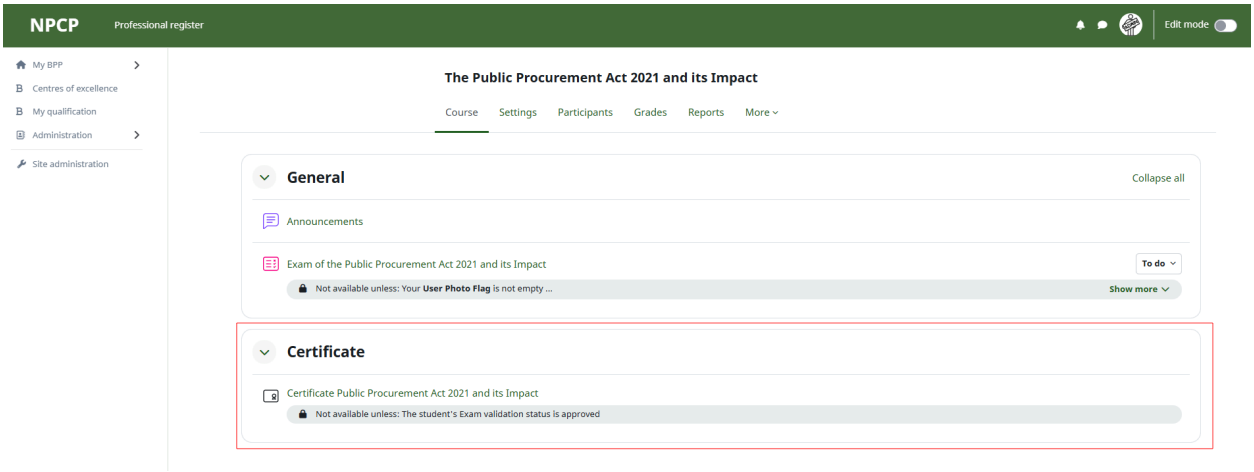




In the block “Completion condition” the radio button “Add requirements” – YES, radio button “View the activity” -YES.



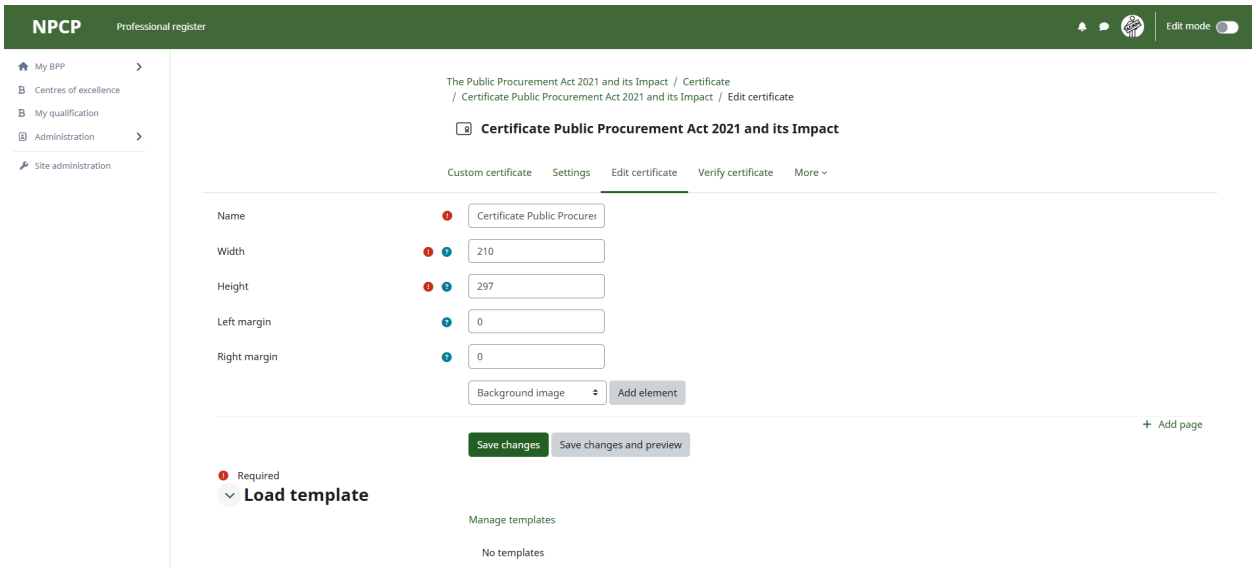
The certificate is added to the course.



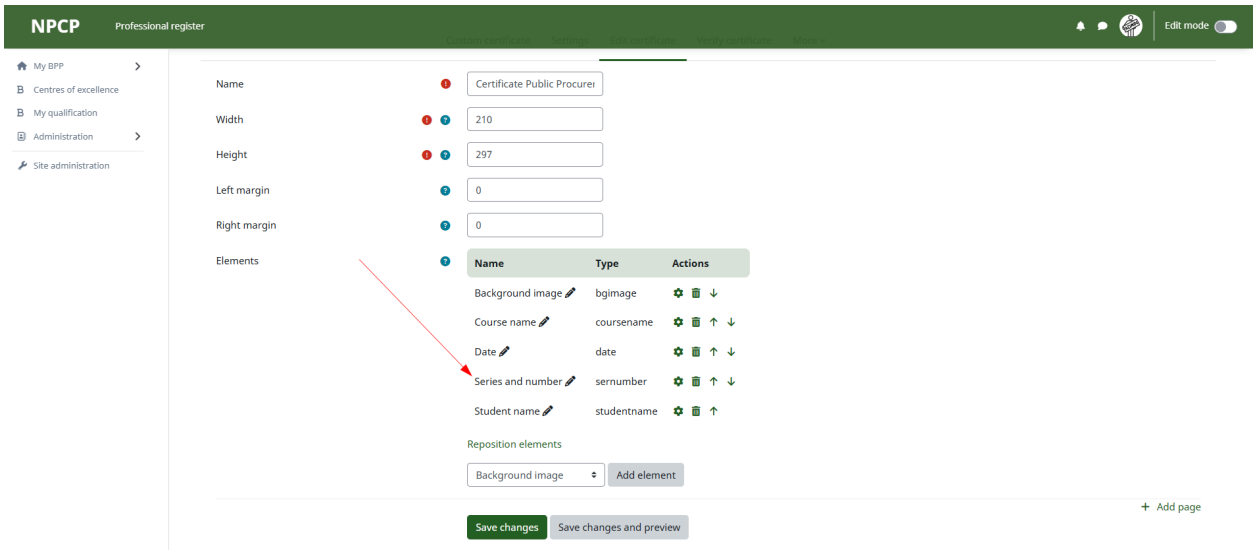
For more information forward to the link https://docs.moodle.org/403/en/Custom_certificate_module

6.1.4.5.1. HOW TO MANAGE BY ELEMENTS OF CERTIFICATE

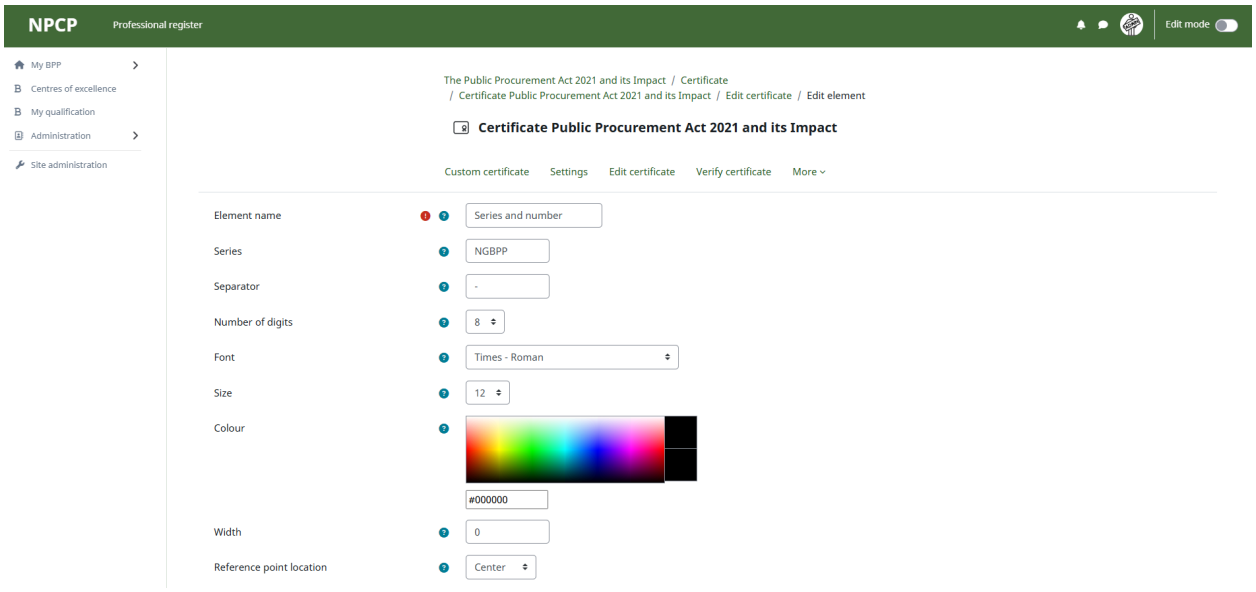
SIS allows the site admin to add and set up elements for certificates. Click on the certificate -> “Edit certificate”.



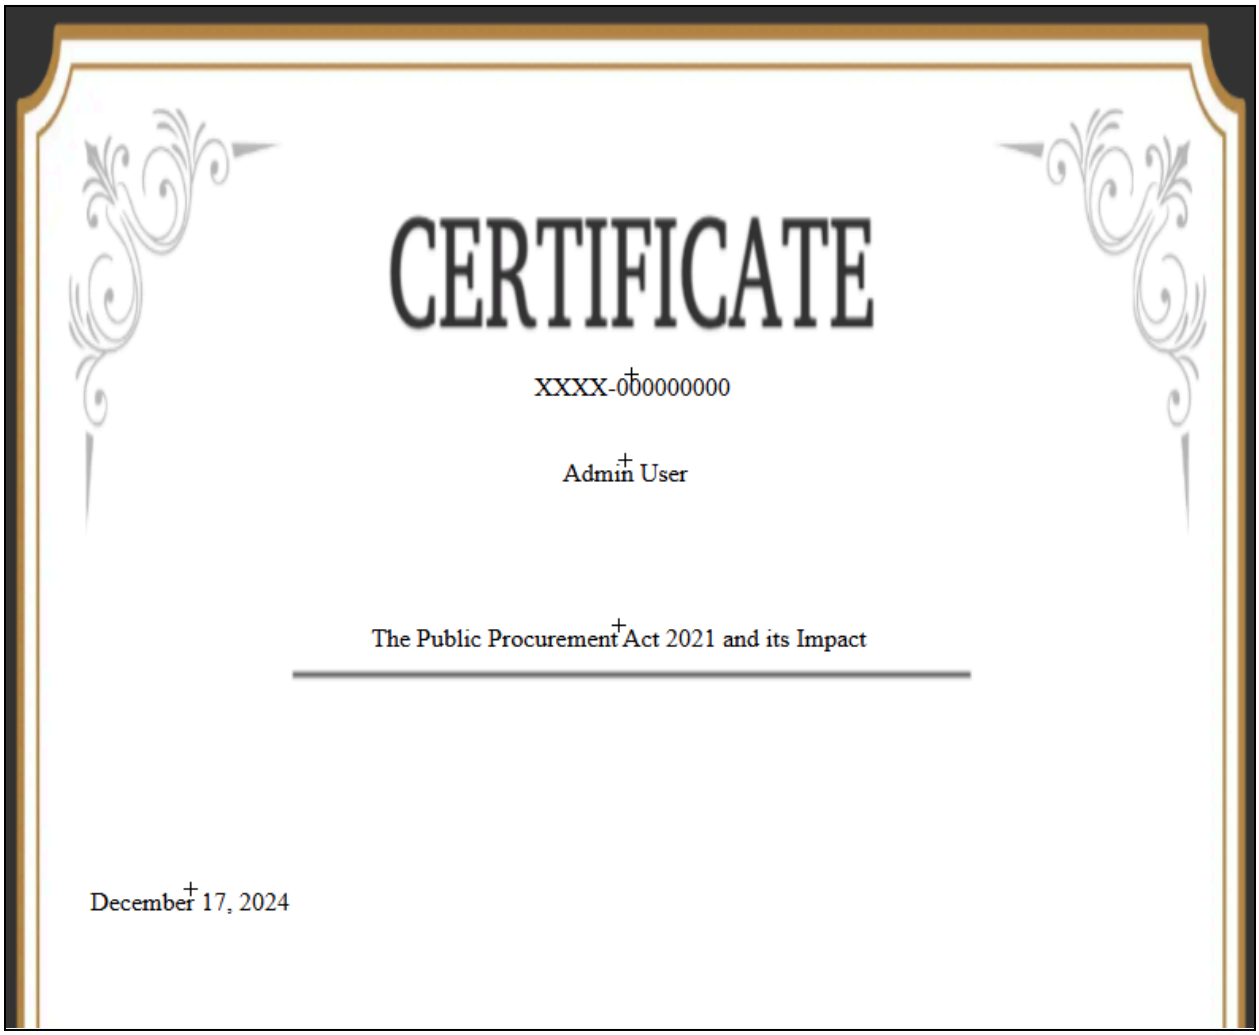
Click on the button “Add element”, and select element, f.x. – “Series and number”.



Make settings of “Series and number” and click on the button “Save changes”

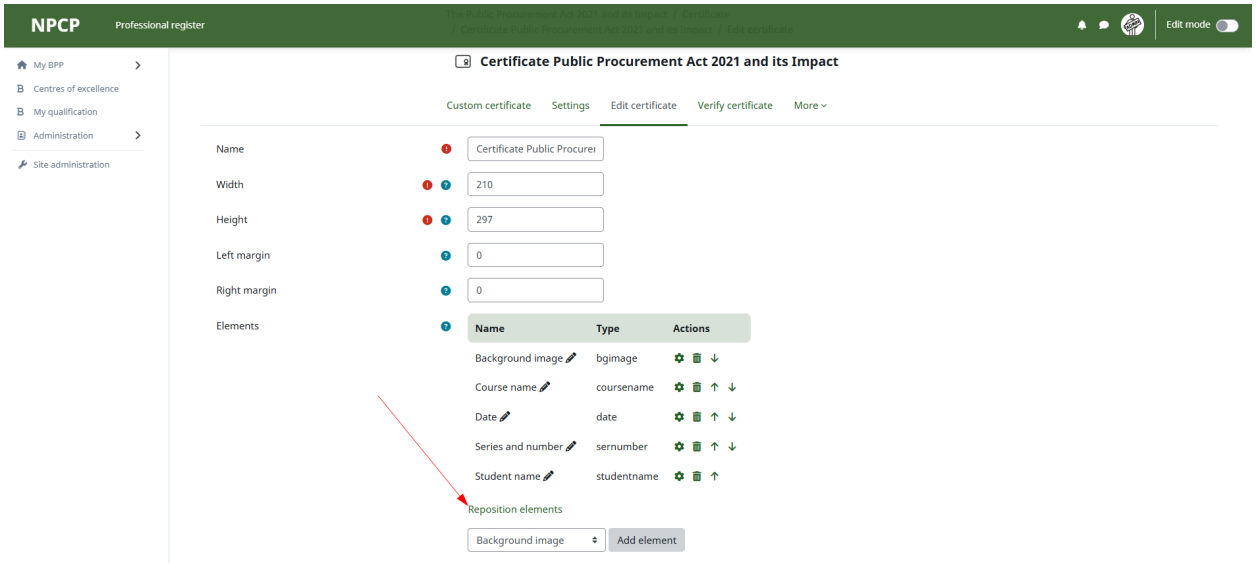


Click “Save changes and preview” to preview the certificate.

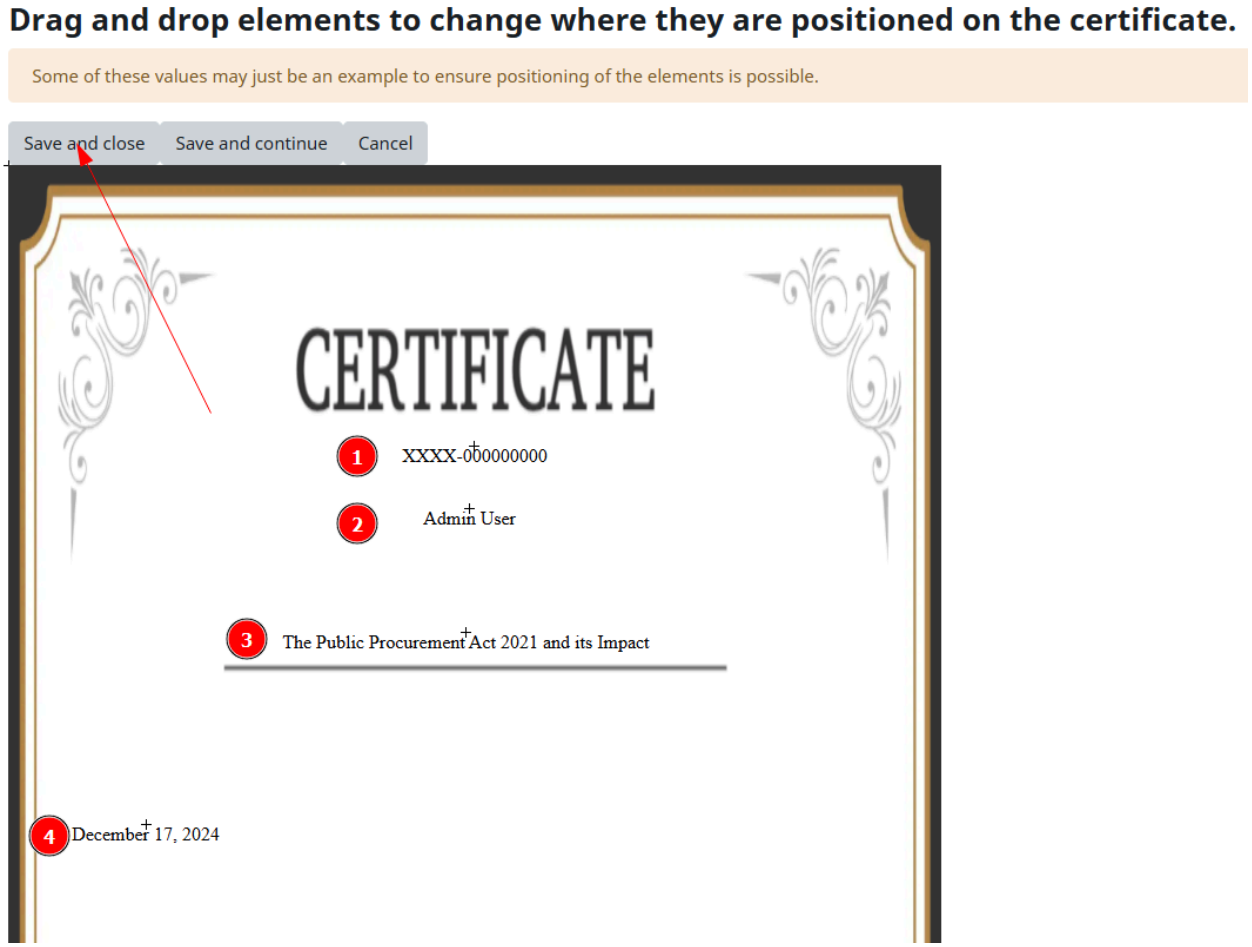


CERTIFICATE
XXXX-000000000
Admin User
The Public Procurement Act 2021 and its Impact
December 17, 2024

The system allows the repositioning of elements on certificates. Click on the button “Reposition elements”

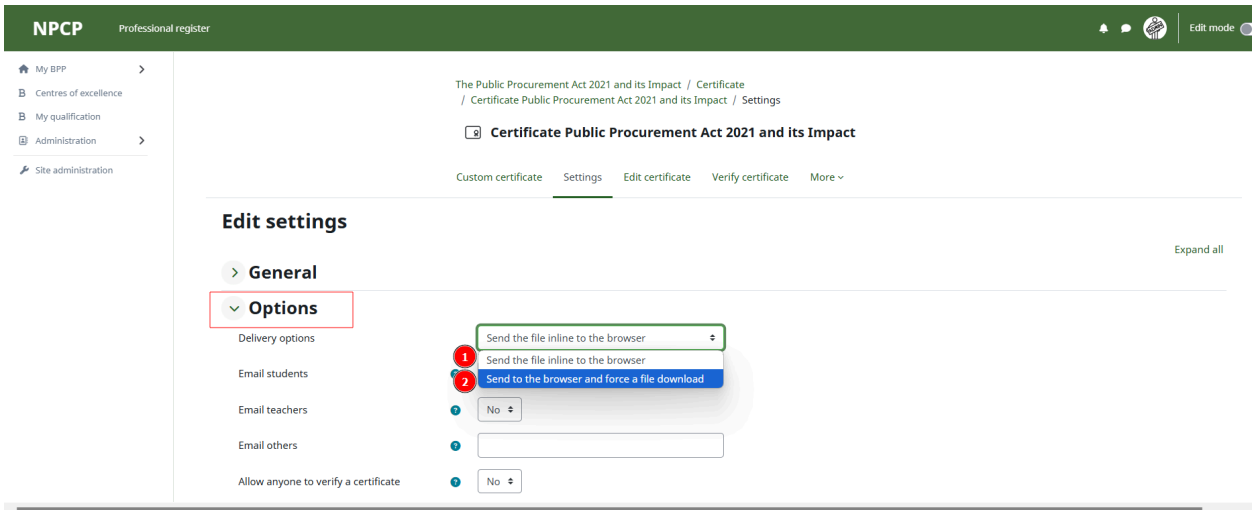


Move the element and save.



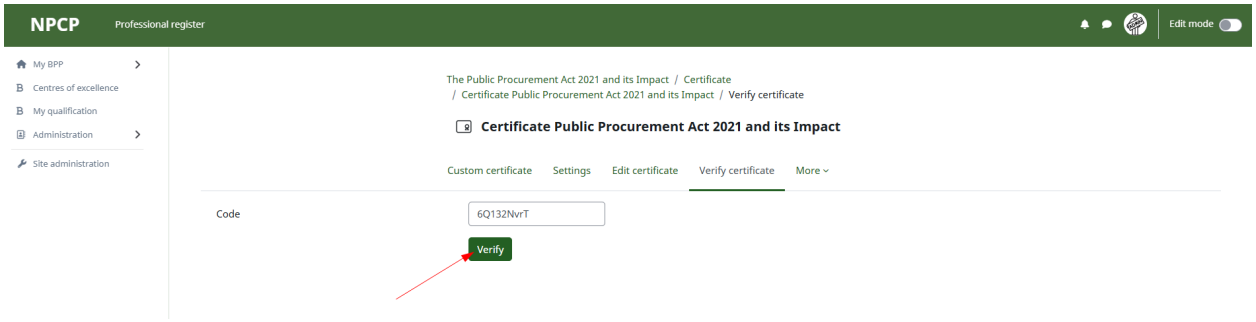
The system allows setting delivery options for certificates:

- Send the file inline to the browser
- Send to the browser and force file download



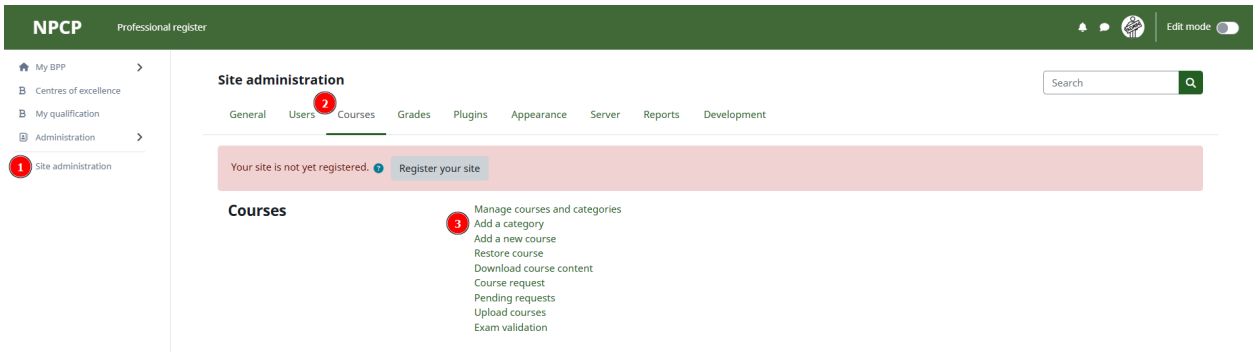
6.1.4.6. HOW TO VERIFY CERTIFICATE

LCMS allows the site admin to verify certificates. Click on certificate -> tab “Verify certificate” -> enter the code of certificate -> click “Verify”

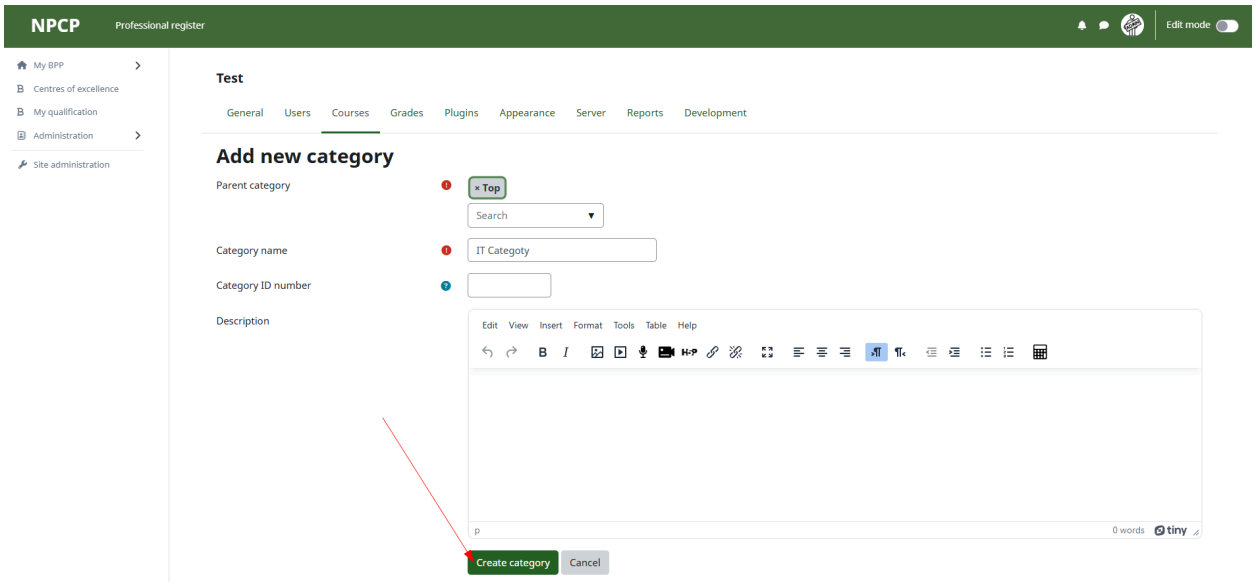


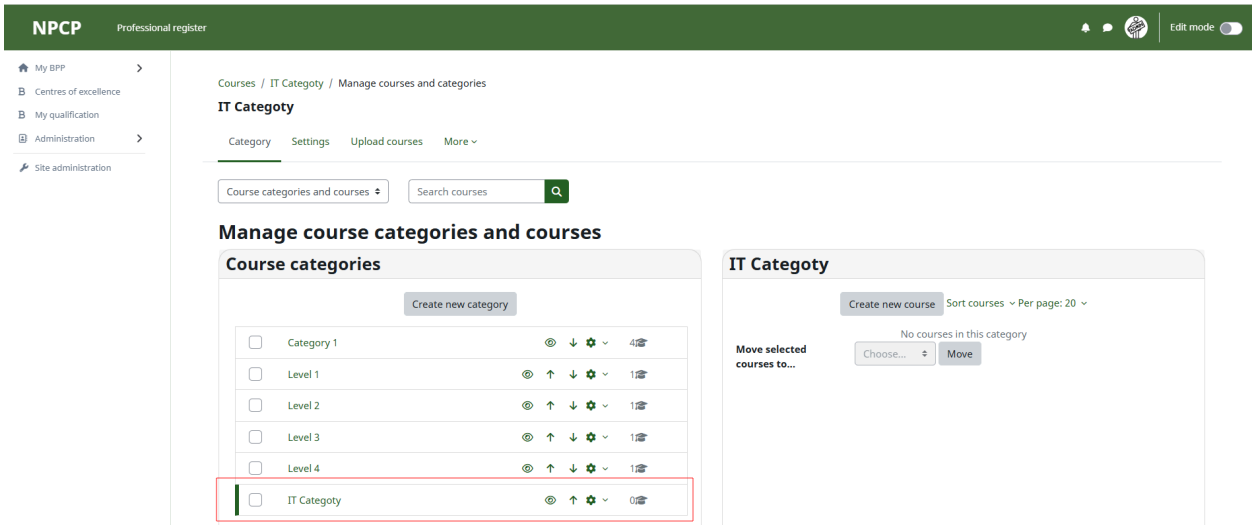
6.1.5 HOW TO MANAGE THE CATEGORY OF COURSES (EXAMS)

The system allows adding and managing categories of courses. To add a new category, click Site Administration -> Courses -> Add a category

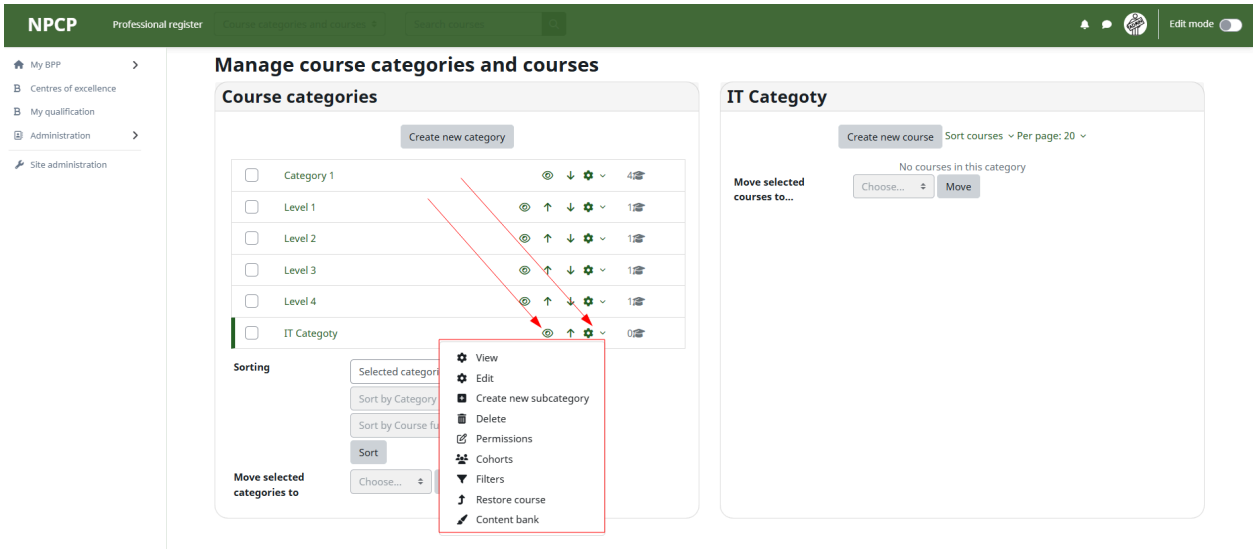


Fill in all fields and click “Create category”



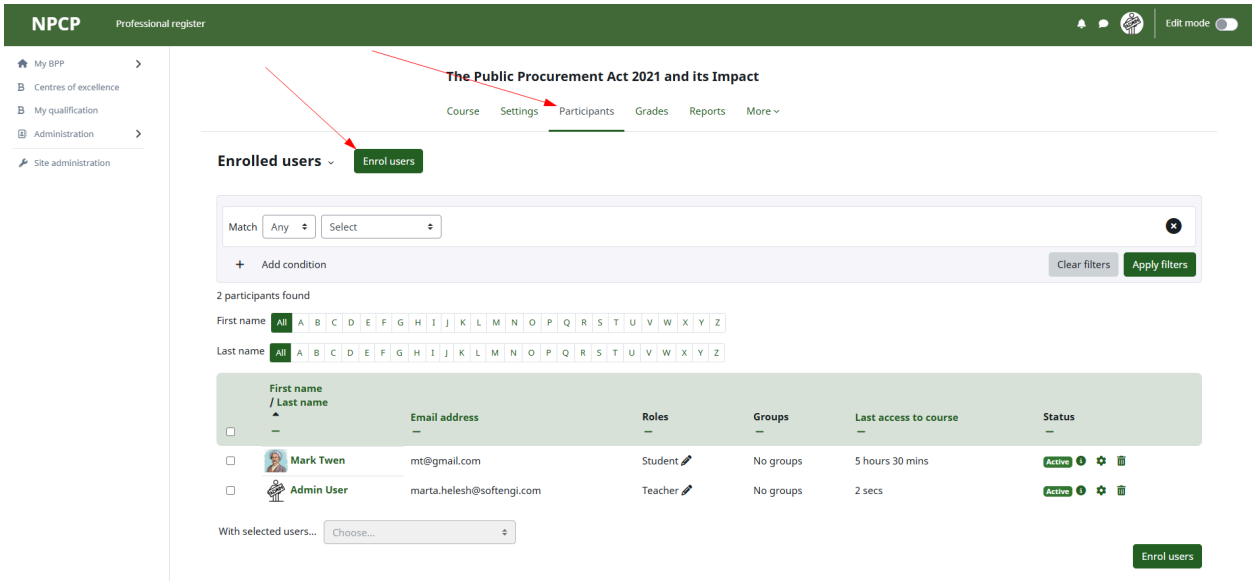


To manage the category, click on the menu Site Administration -> Manage course and categories. Click on the button: “hide”, “show”, “edit”, “view”, “delete” etc.

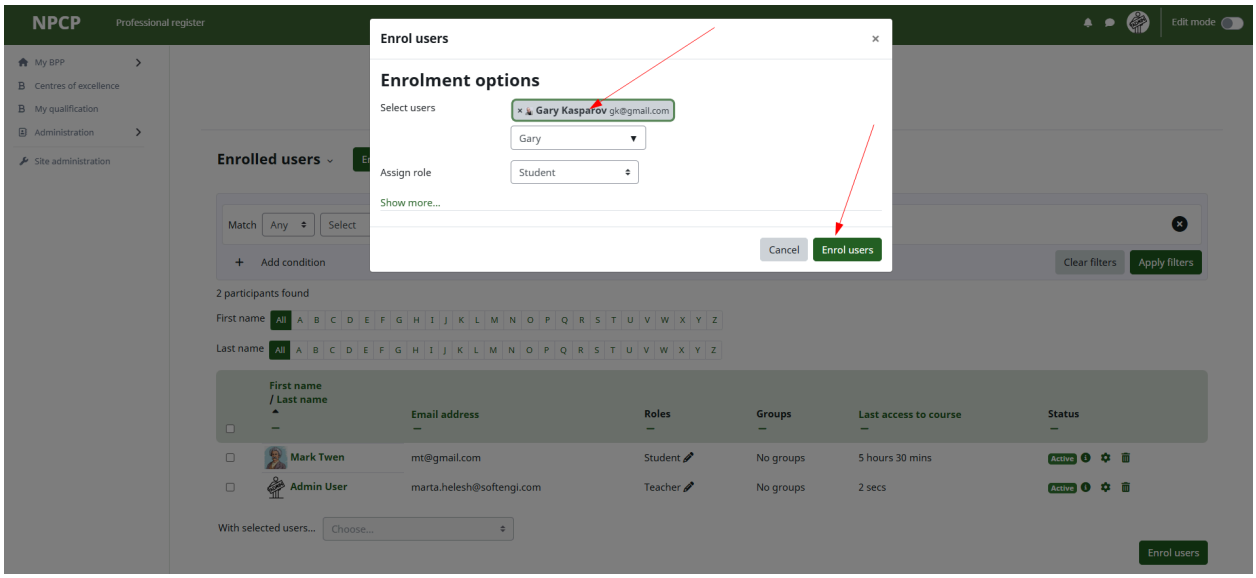


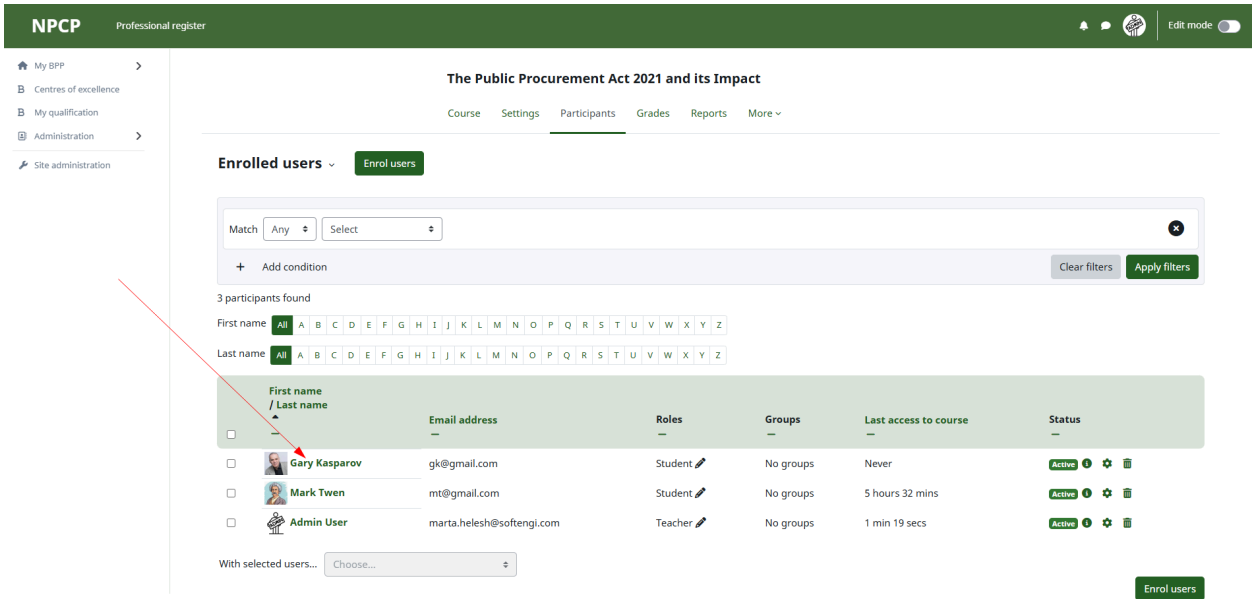
6.1.6 HOW TO ADD PARTICIPANT TO THE COURSE

SIS allows adding participants to the course. Click on the course, Tab “Participant”, and click on the button “Enroll user”



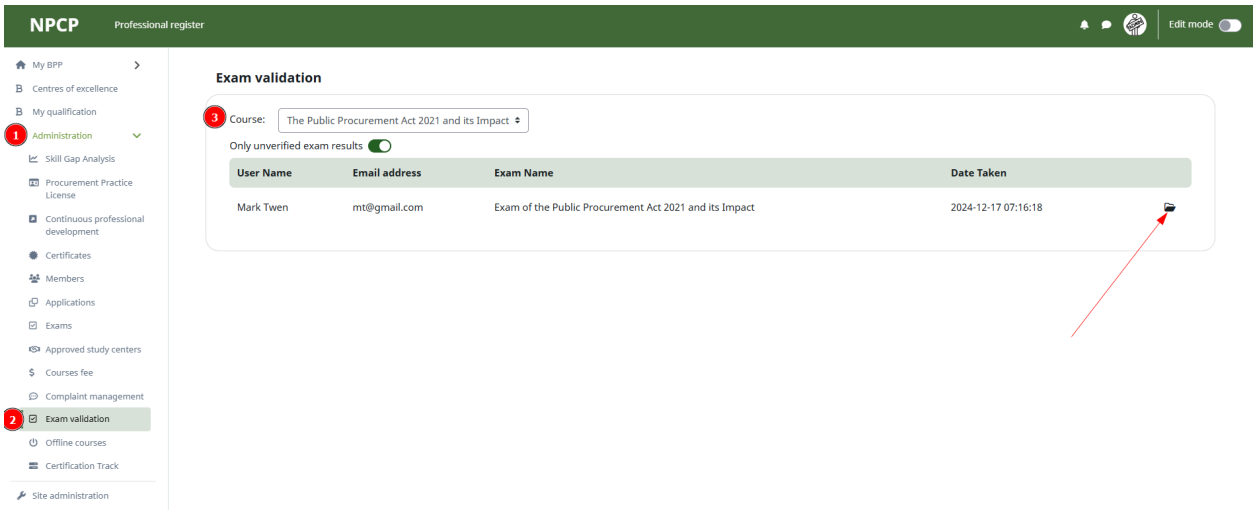
Select the user and confirm



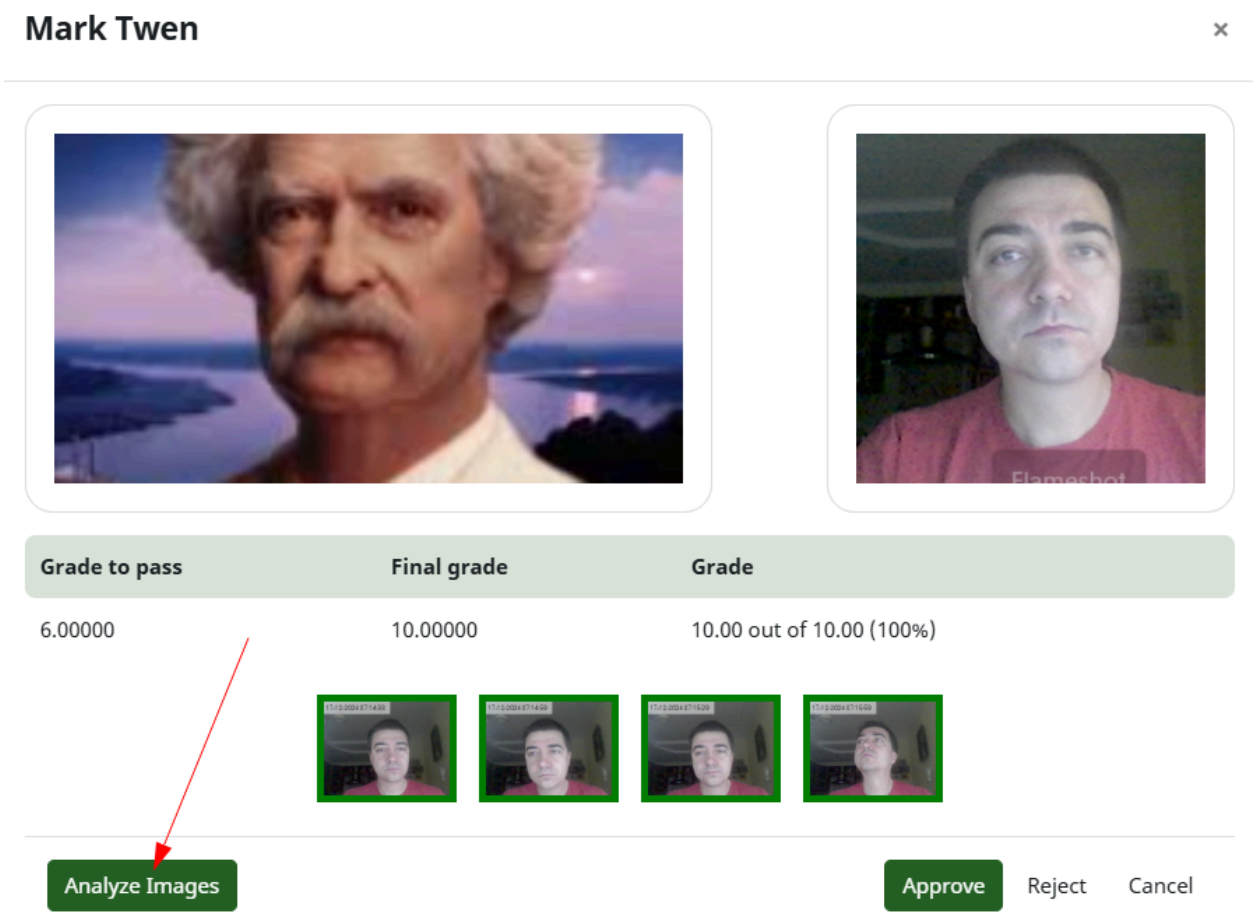


6.1.7. HOW TO VALIDATE EXAMS

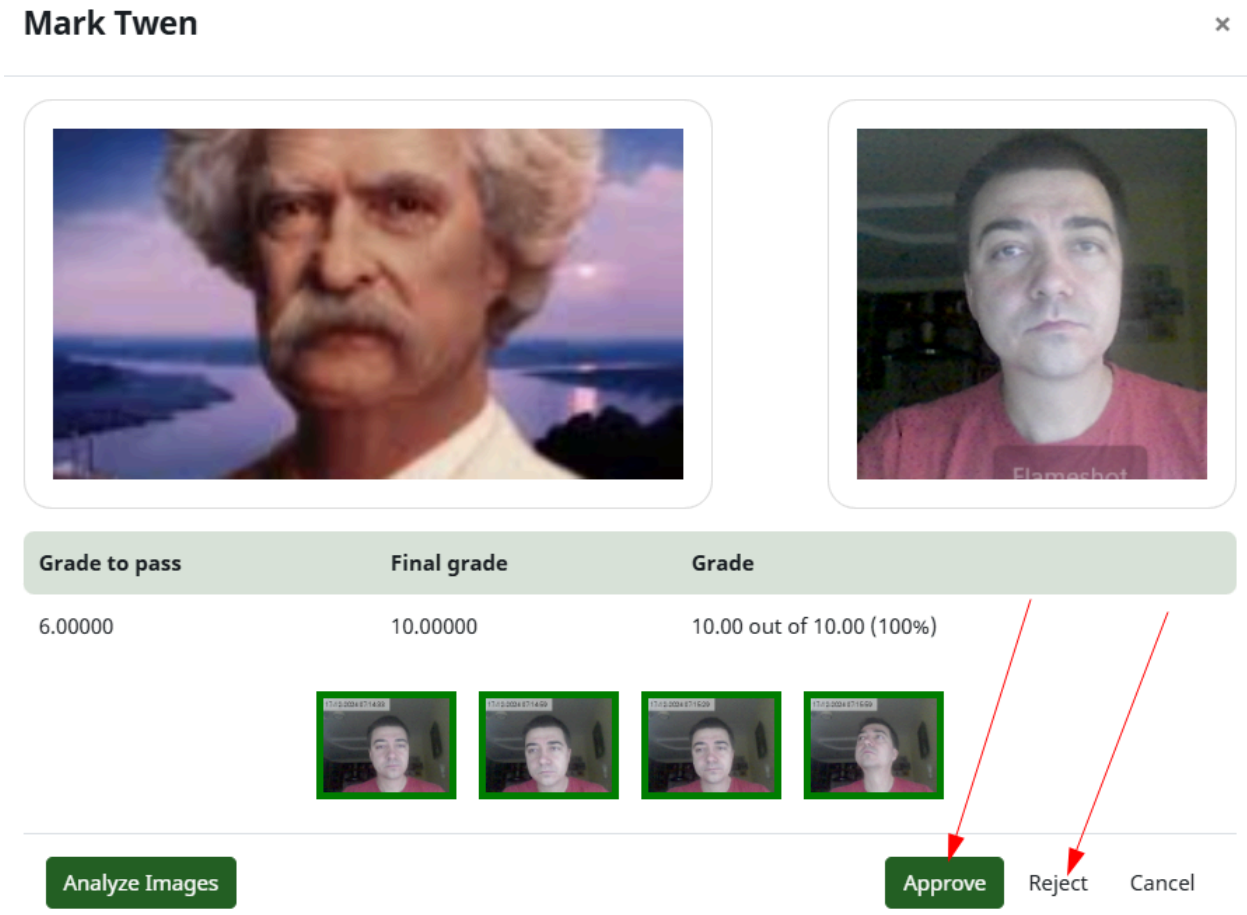
SIS allows students to validate the exam after the student has passed it. Click Administration -> Exam validation.



Click “Analyze image” to use module “Recognition face”

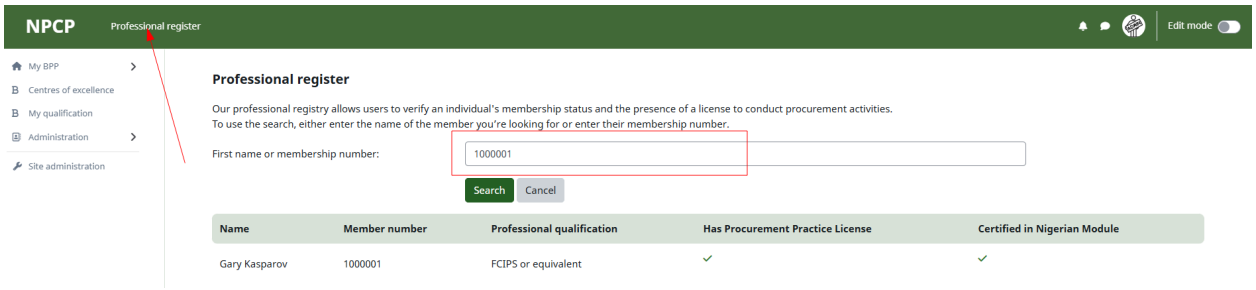


Click the button ‘Approve’ to approve the exam, or “Reject” to reject the result of exam.



6.1.8. HOW TO USE PROFESSIONAL REGISTRY

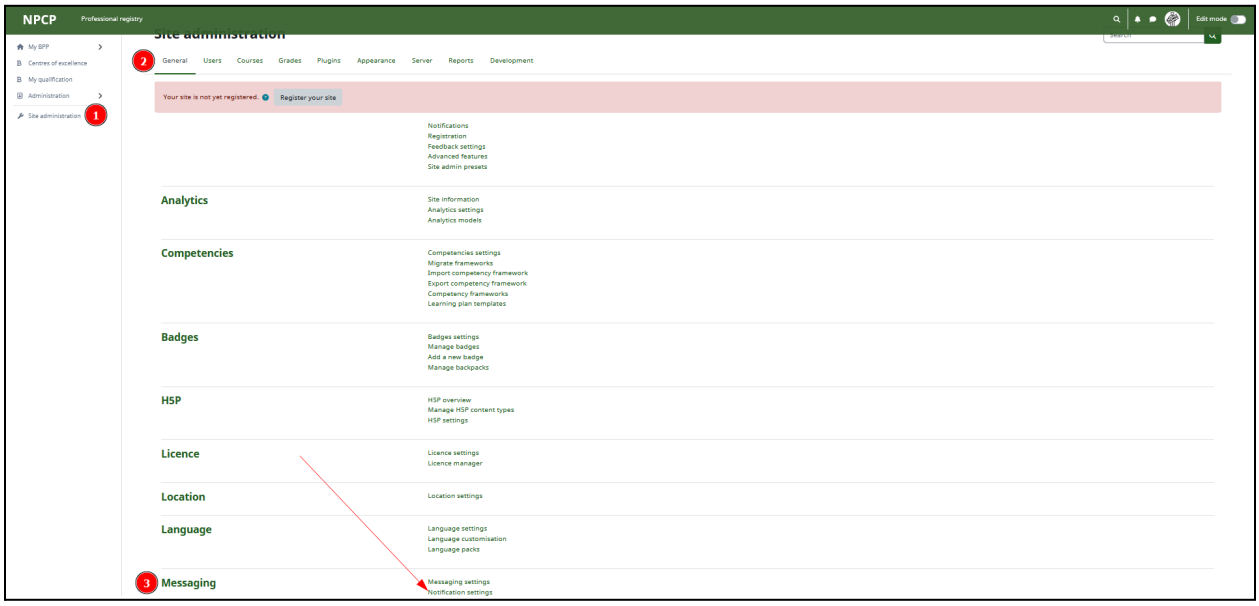
Our professional registry allows users to verify an individual's membership status and the presence of a license to conduct procurement activities.
To use the search, either enter the name of the member you’re looking for or enter their membership number.



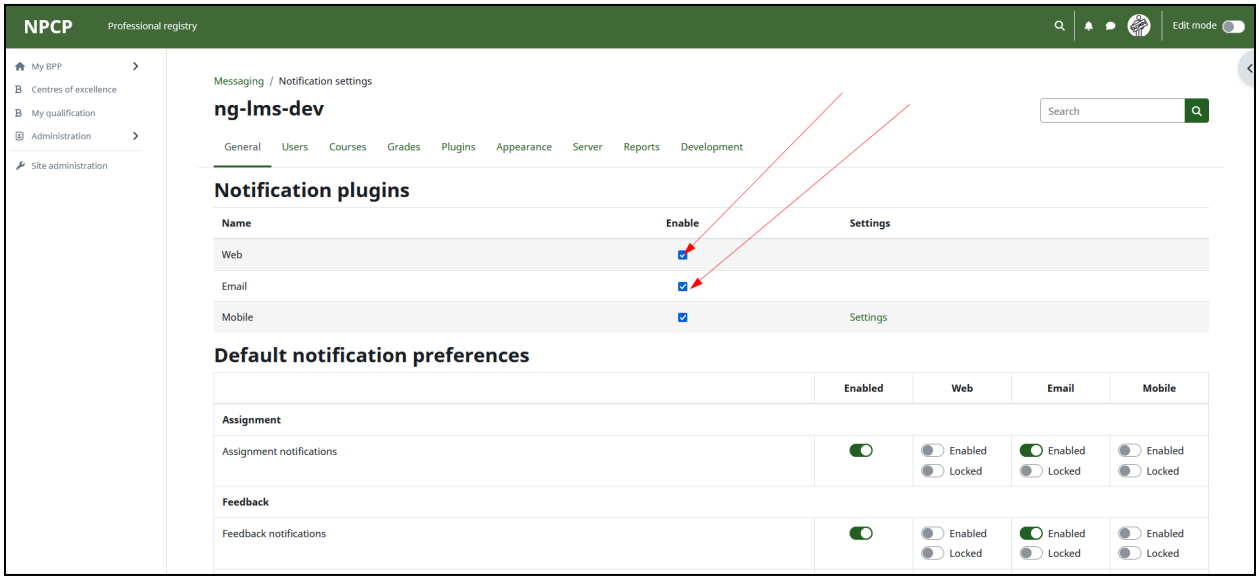
6.1.9. HOW TO SET UP EMAIL AND WEB NOTIFICATION

The system provides the functionality to configure notifications for users, which can be delivered via email or displayed on the web through their personal account.

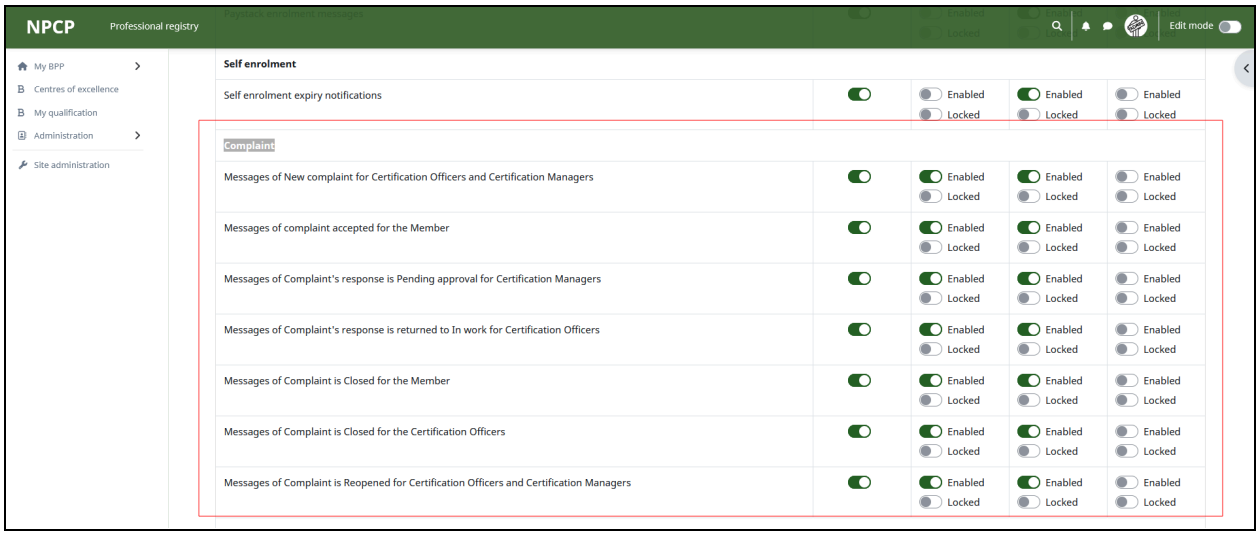
Log in as admin and click menu “Site admin” -> “General” -> “Messaging” -> “Notification settings”.



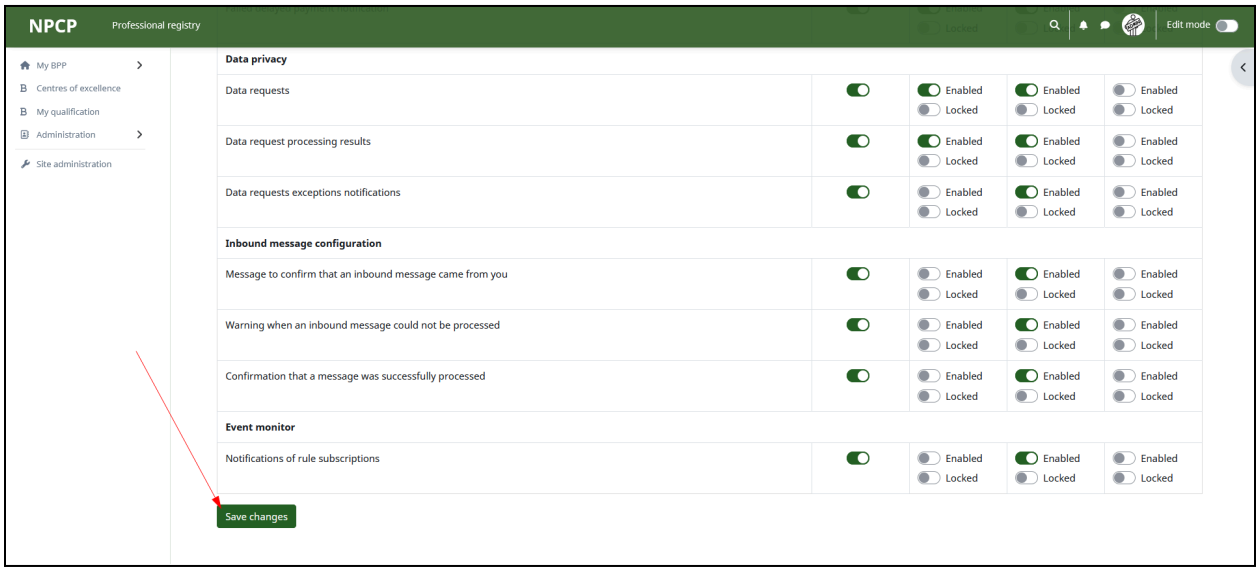
The notification plugin interface is displayed. Ensure that the checkboxes for "Web" and "Email" are set to "YES."



Next, select the "Complaint" block, for example, and configure the switcher to “YES” or “NO,” depending on the required functionality.



Scroll down and click “Save changes”



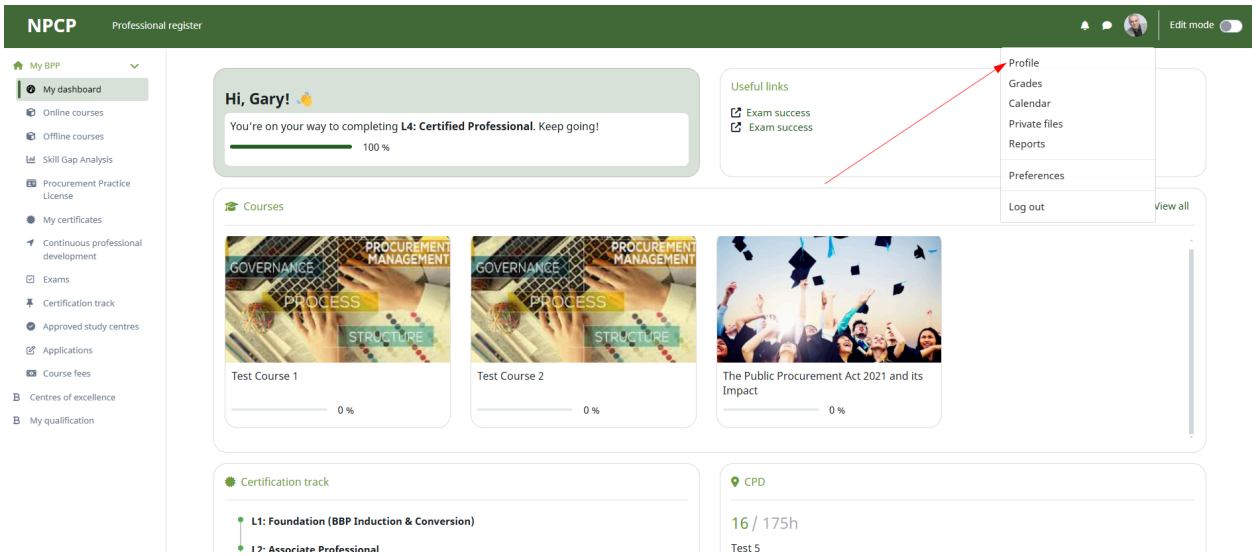
6.2 AUTHORIZED USER INTO

Authorized users in SIS are represented by roles:

- Student
- Certification manager
- Certification officer

6.2.1 HOW TO USE USER`S PROFILE

Log in to the SIS and click on the “Profile”

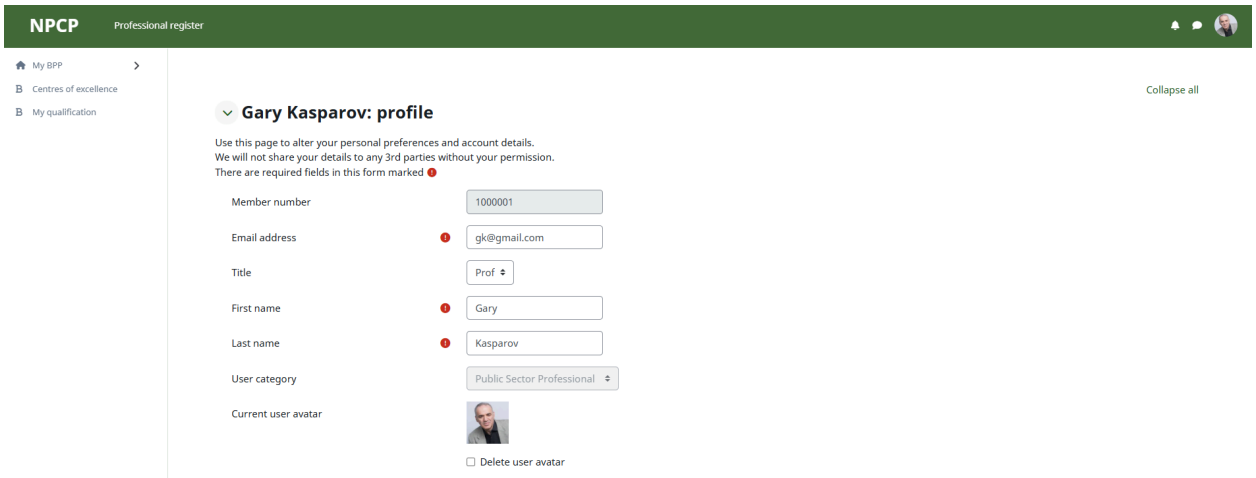


The profile includes such options:

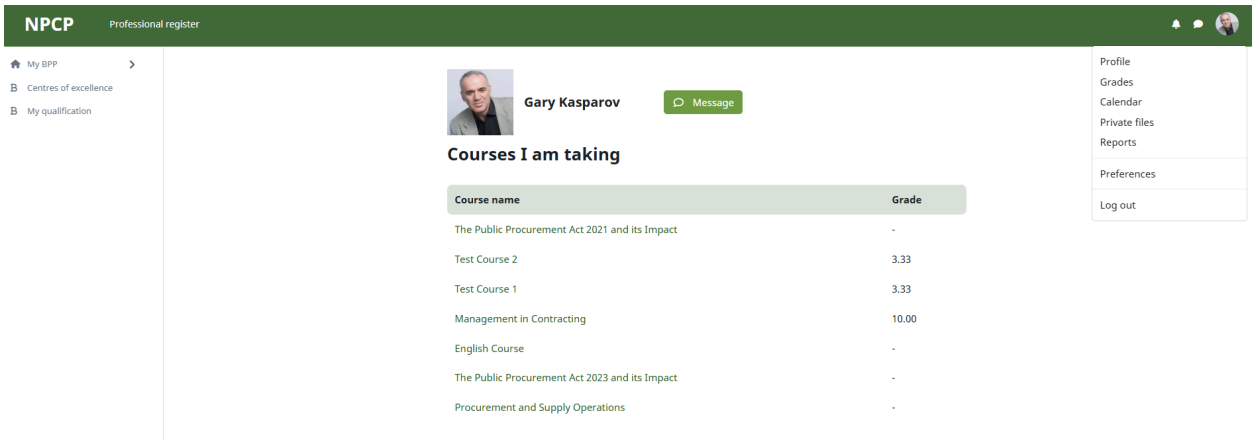
- Profile
- Grades
- Calendar
- Private files
- Reports
- Preferences
- Log out

In block “Profile” the user`s personal preferences and account details.

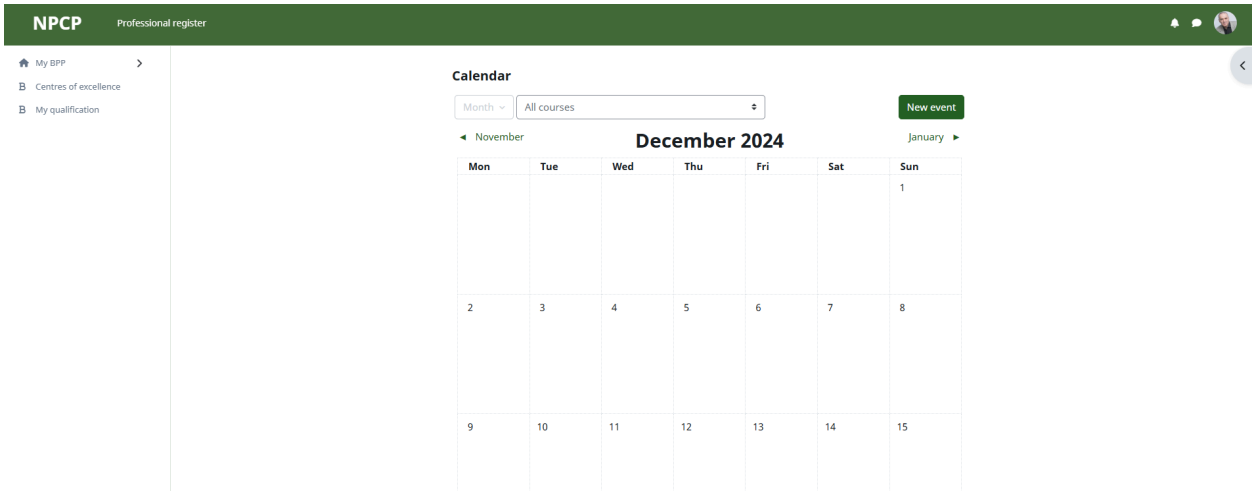
LCMS will not share your details with any 3rd parties without the user's permission. There are required fields in this form marked .



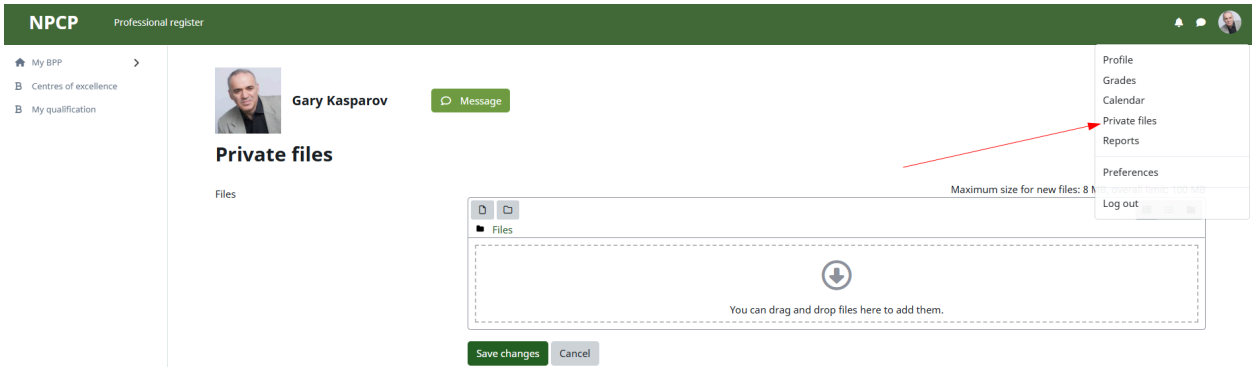
In block “Grade” is info about the user`s course is taking, grade, range, etc.



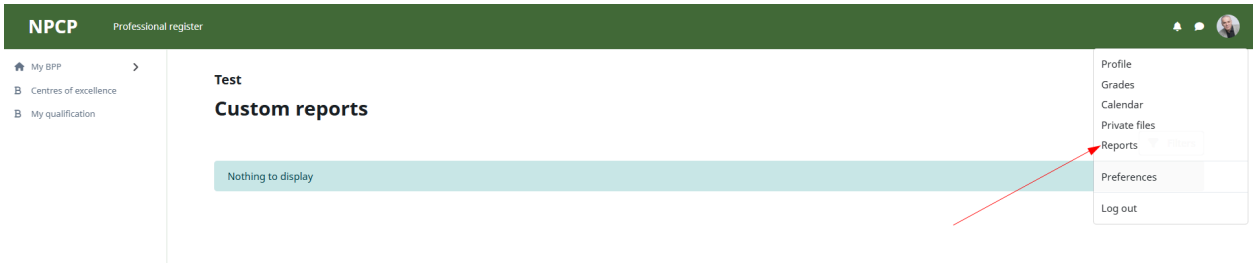
In block “Calendar” is info about the user`s event



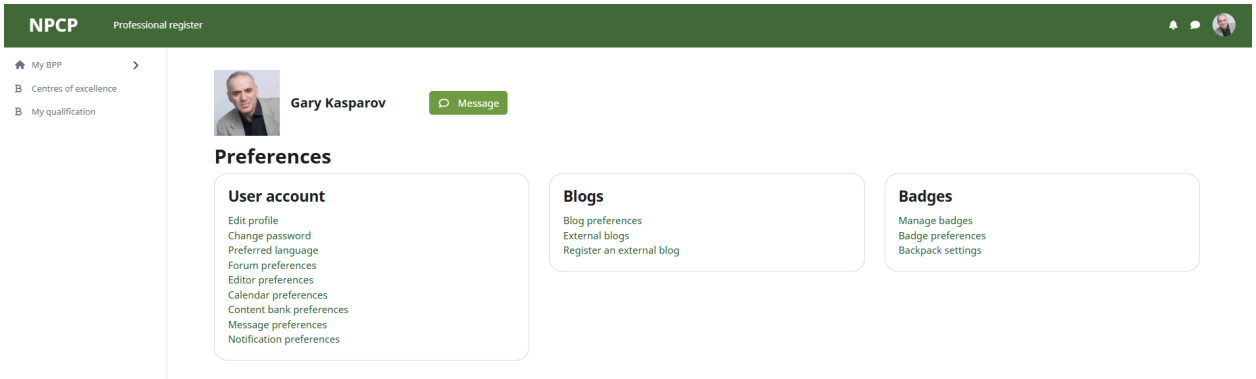
In the block “Private files” is info about the user`s private files.



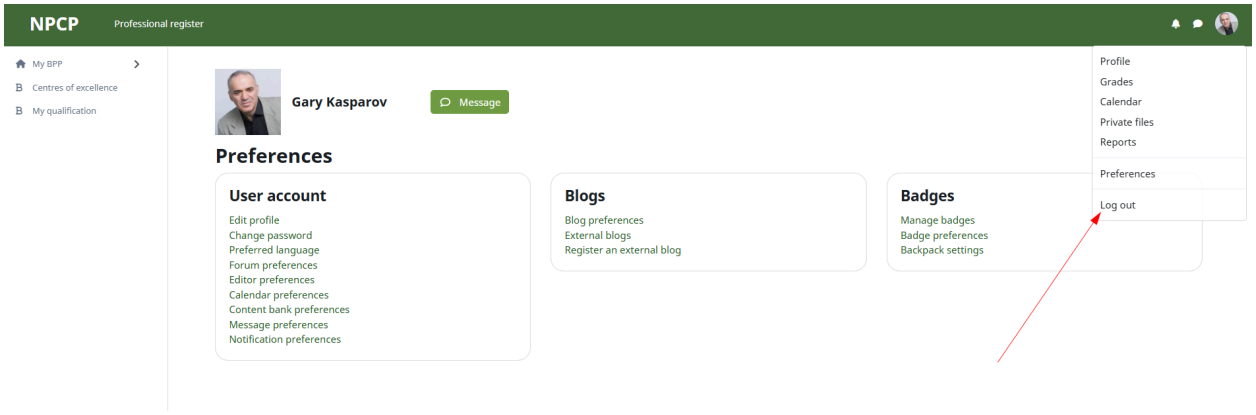
In block “Reports” is info about the user`s reports.



In the block “Preferences” is info user`s account, blogs, and badges.



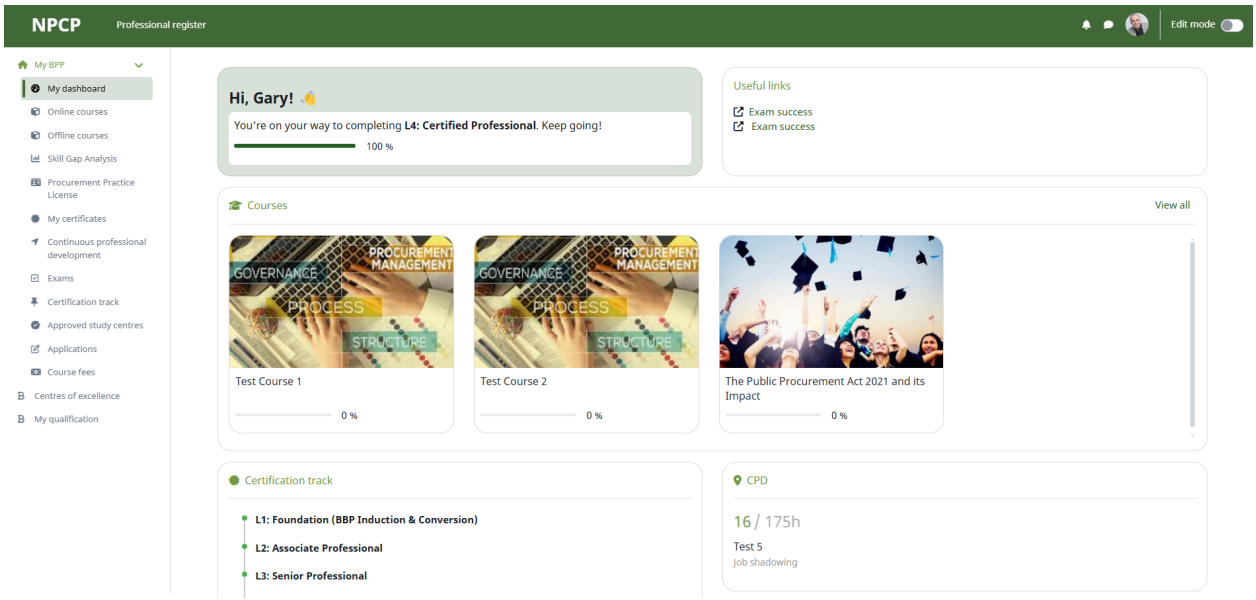
To log out of the profile – click “Log out”



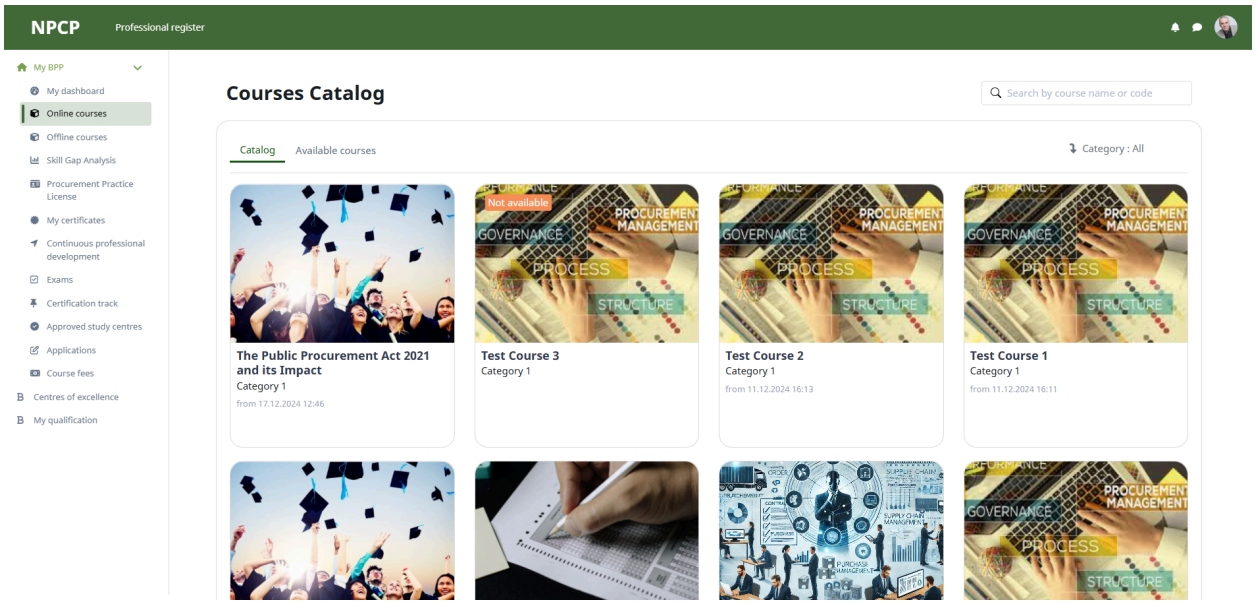
6.2.2 HOW TO USE USER`S MENU AND DASHBOARD

The first page after login into the SIS is represented by:

1. Main menu on the left side
2. Dashboard
3. Course

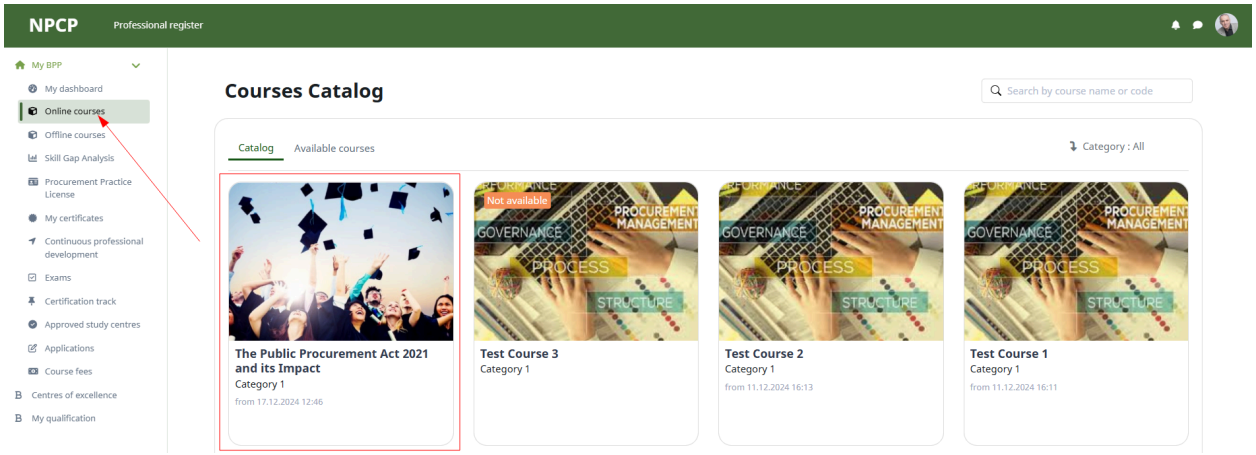


In the menu “Online courses” users can view the catalog of courses and available courses for users.



6.2.3 HOW TO PASS COURSES

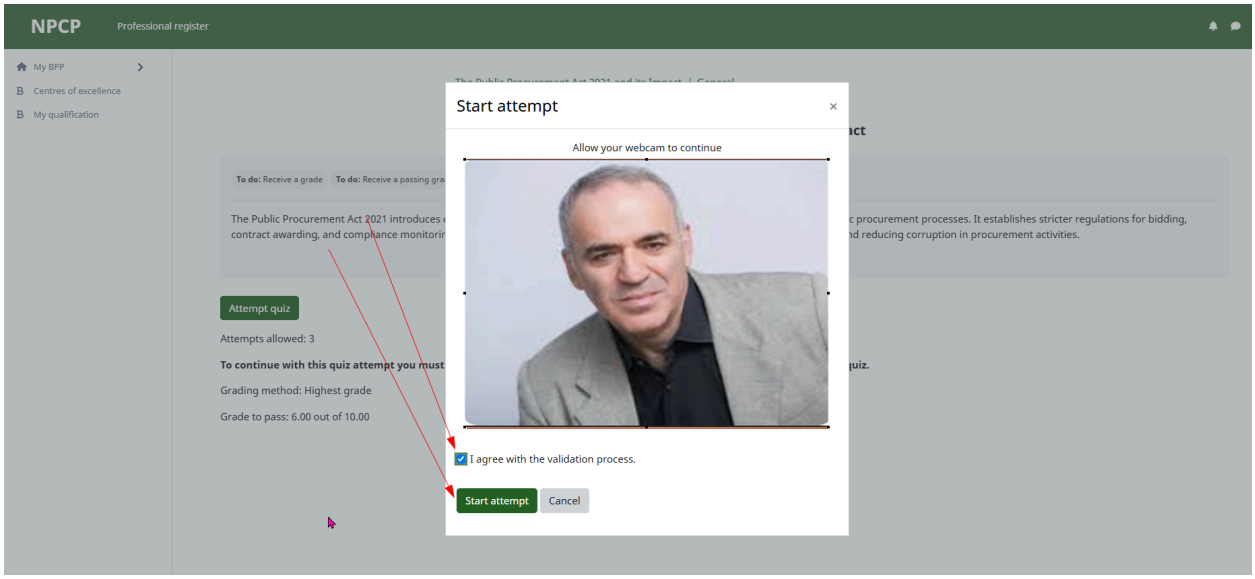
The examination Management and Proctoring System is designed for the automation of computer-based tests for certification. The online proctoring tool will support both home examinations and the accreditation of centers to deploy certification exams for proficiency in procurement.
The examination process includes completing a training course, taking a test, and obtaining a certificate.
Log in to SIS as a member. Select required courses.



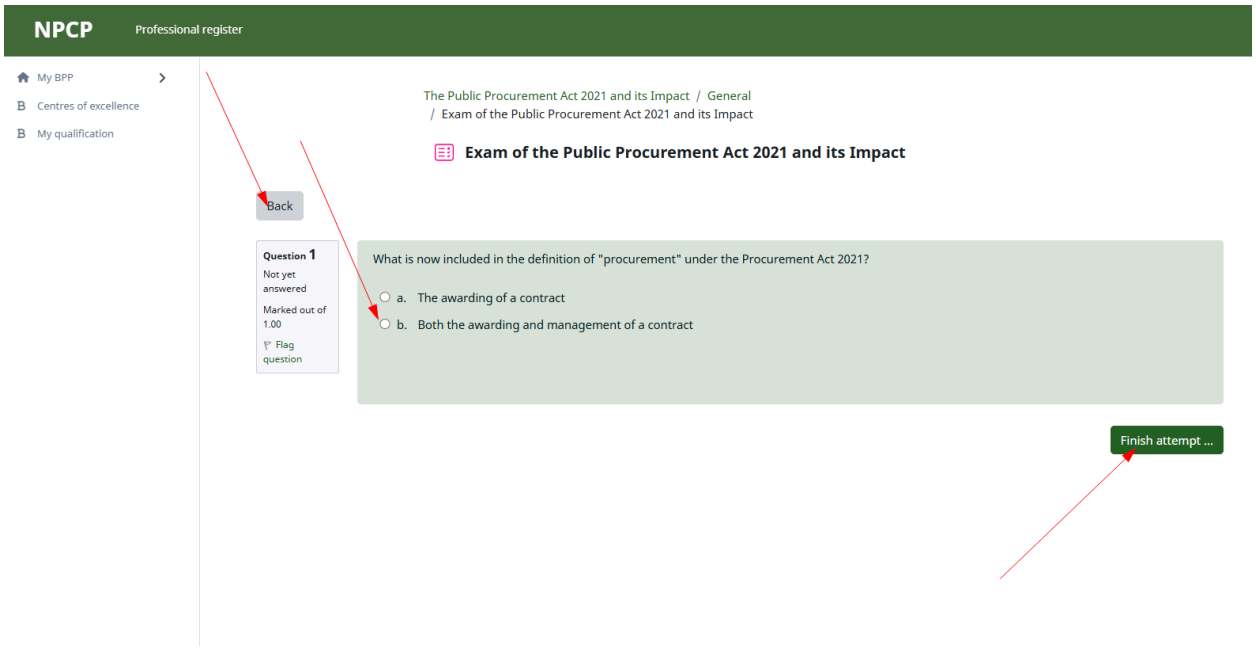
Get acquainted with the description, instructions, etc., and click the button “Begin”.

Get acquainted with the warning and click on Quiz

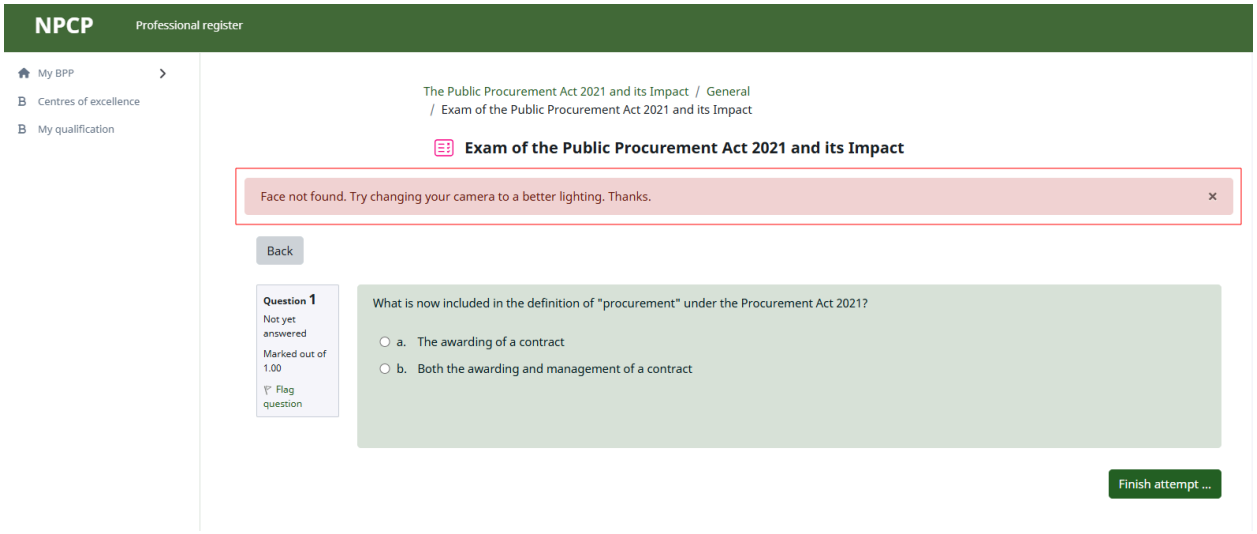
Get acquainted with the next information and
IMPORTANT: To proceed with this quiz attempt, you must enable your webcam. It will capture random pictures of you during the quiz.
This quiz utilizes a "face recognition" module.
Click the button “Attempt quiz”, and the checkbox “I agree with the validation process.” – YES, click the button “Start attempt”.



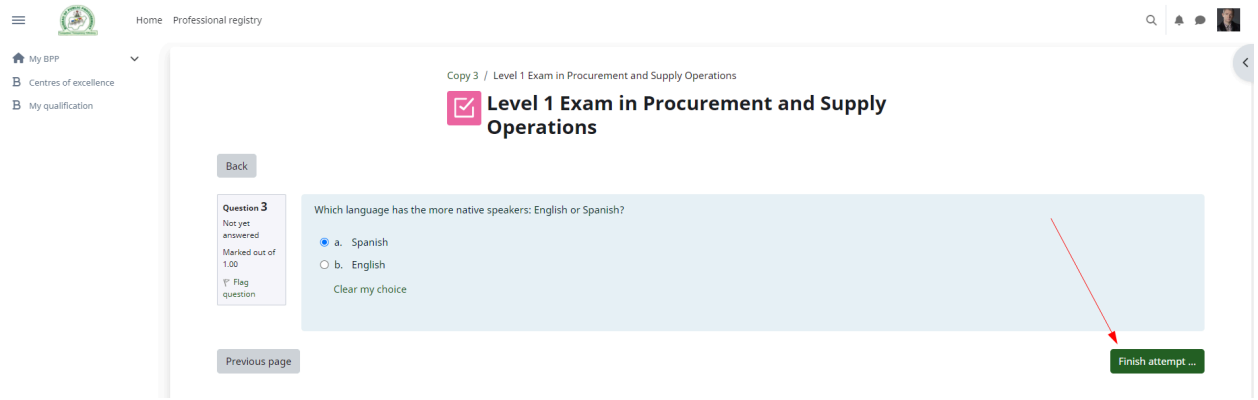
- Make a choice of the question and click the button “Next”;
- If necessary to cancel the choice, click the button “Clear my choice”;
- If necessary go back to the beginning – click the button “Back”



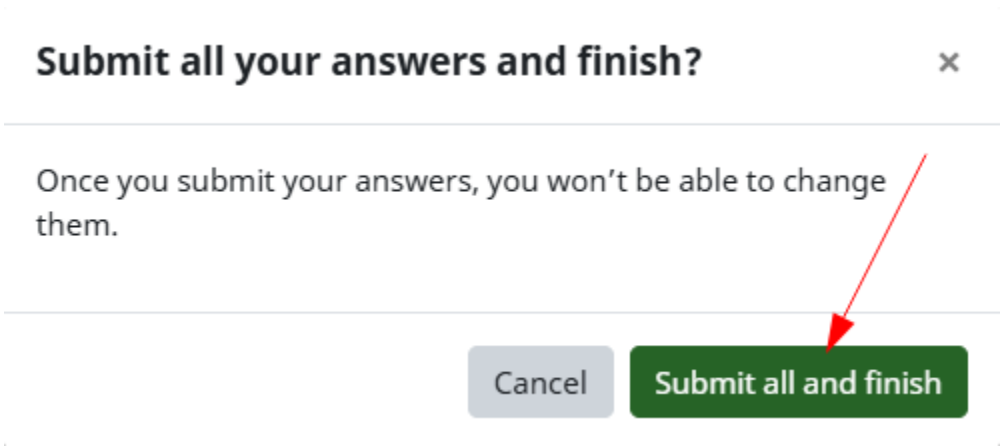
- Click the button “Previous page” to come back to the previous page
- The notification “Face not found. Try changing your camera to better lighting. Thanks” informs, that the camera cannot find my face.



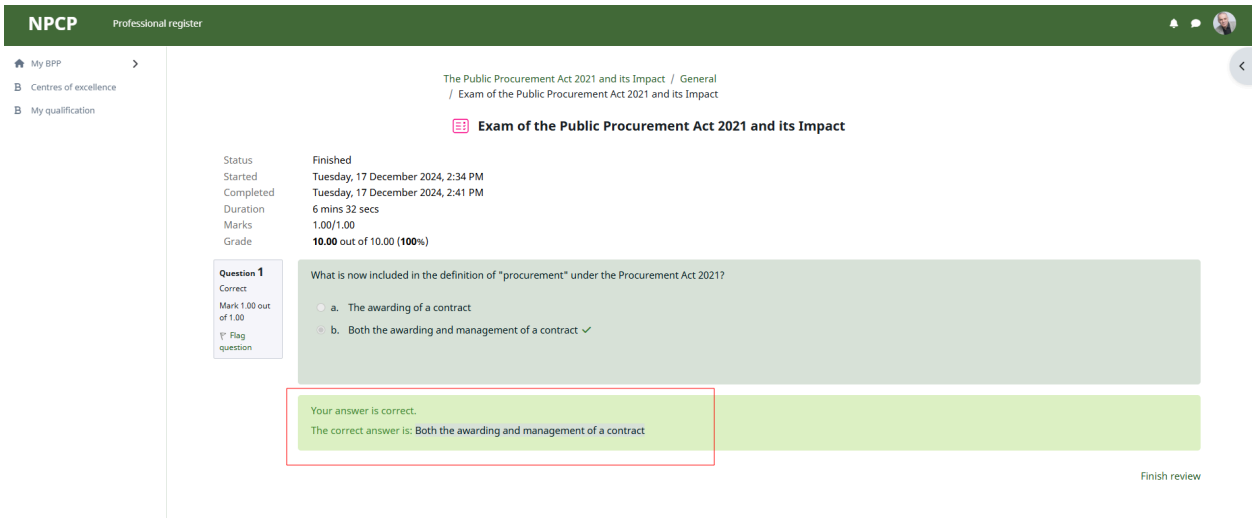
In the last question, choose a question and click “Finish attempt”.



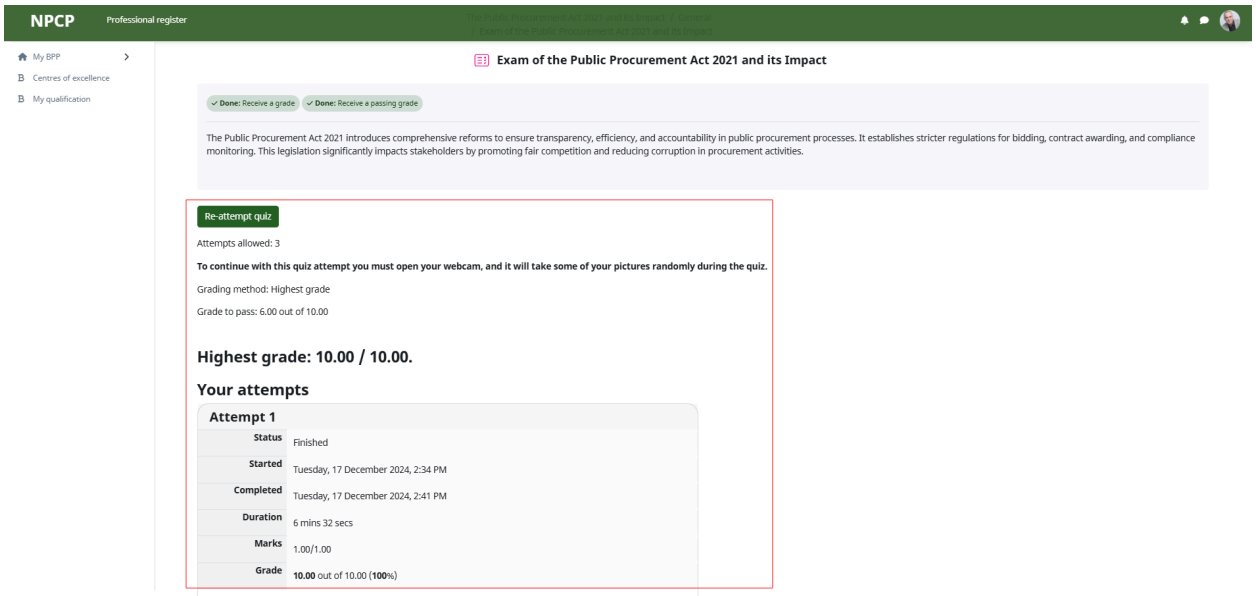
On the page “Summary of attempt” return to attempt or finish.



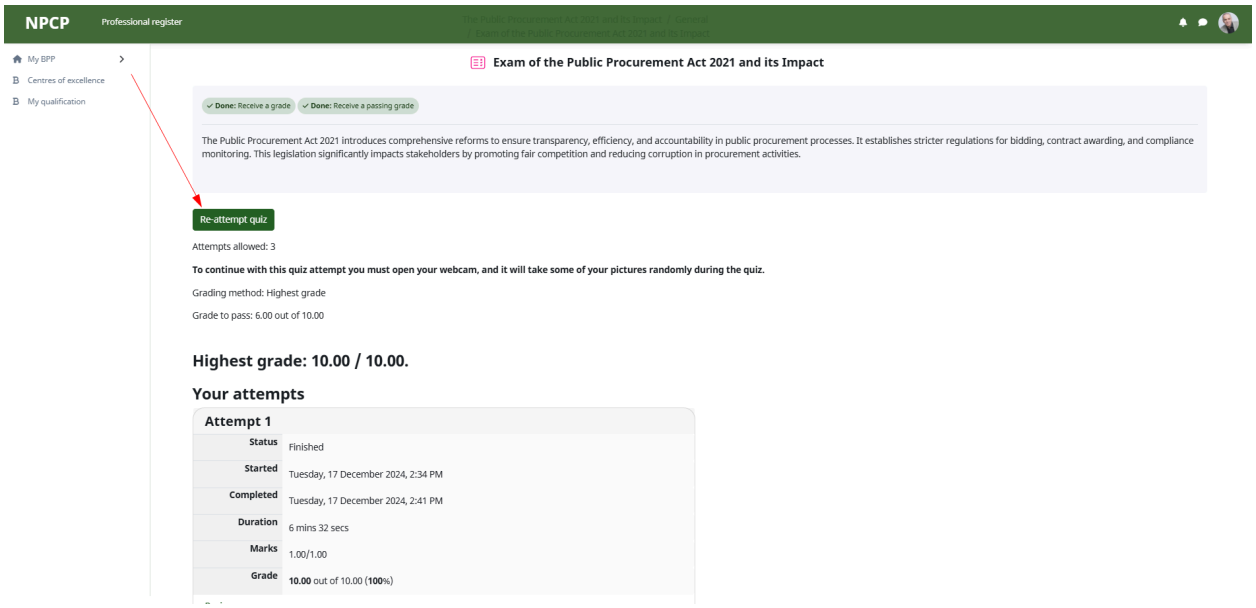
On the next page, it is possible to see the information about the quiz and the correctness of the answers. Click “Finish review”.



On “Summary of your previous attempts” it is possible to see the Grade. In this case, the grade is 10.00, and this is successful attempt.



Click on the button “Re-attempt quiz” to repeat one more time.



6.2.4 HOW TO GET A CERTIFICATE

After a successful attempt to pass the quiz, the admin manager must validate the exam. This is described in the "HOW TO VALIDATE EXAMS" chapter.

To get a certificate, member click on the Course. Click on the certificate, it is available.

Click on the button “View certificate” to get it in PDF.

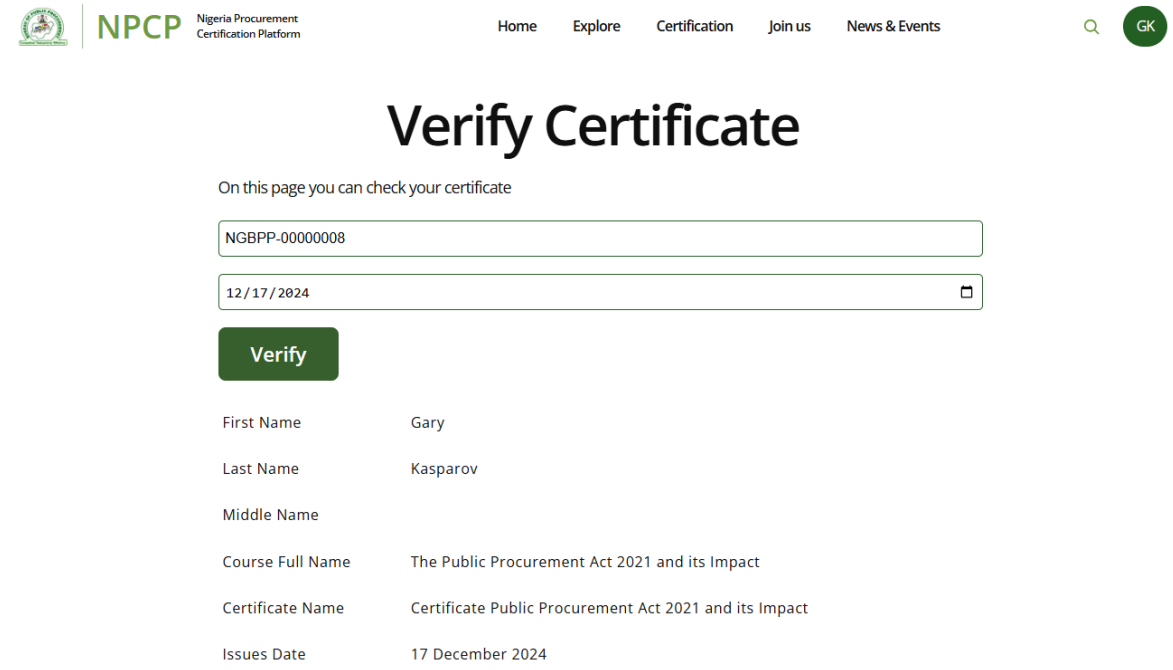
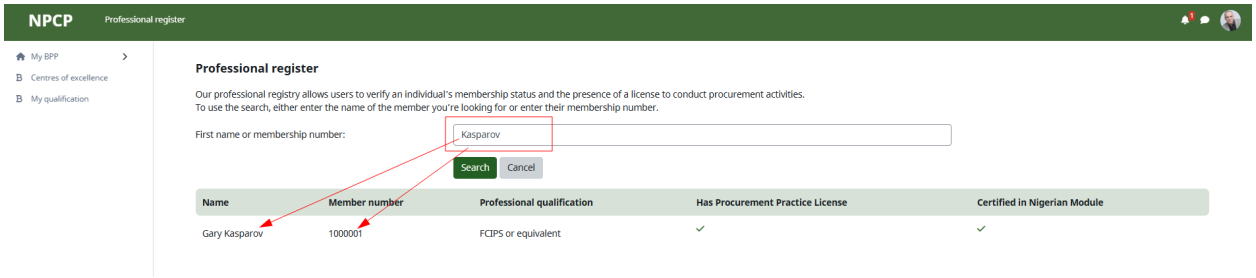
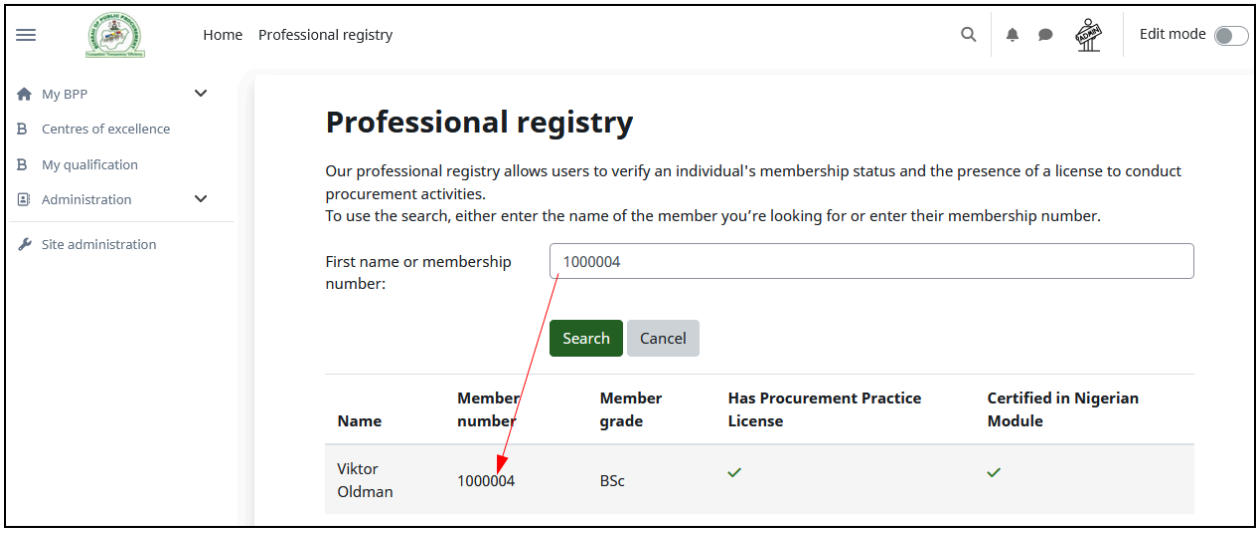
Scan the right QR code to verify the member's certificate on the Information Content Website. The member has to be logged in to Portal.



6.2.5 HOW TO USE PROFESSIONAL REGISTRY

Our professional registry allows users to verify an individual's membership status and the presence of a license to conduct procurement activities.
To use the search, either enter the name of the member you're looking for or enter their membership number.



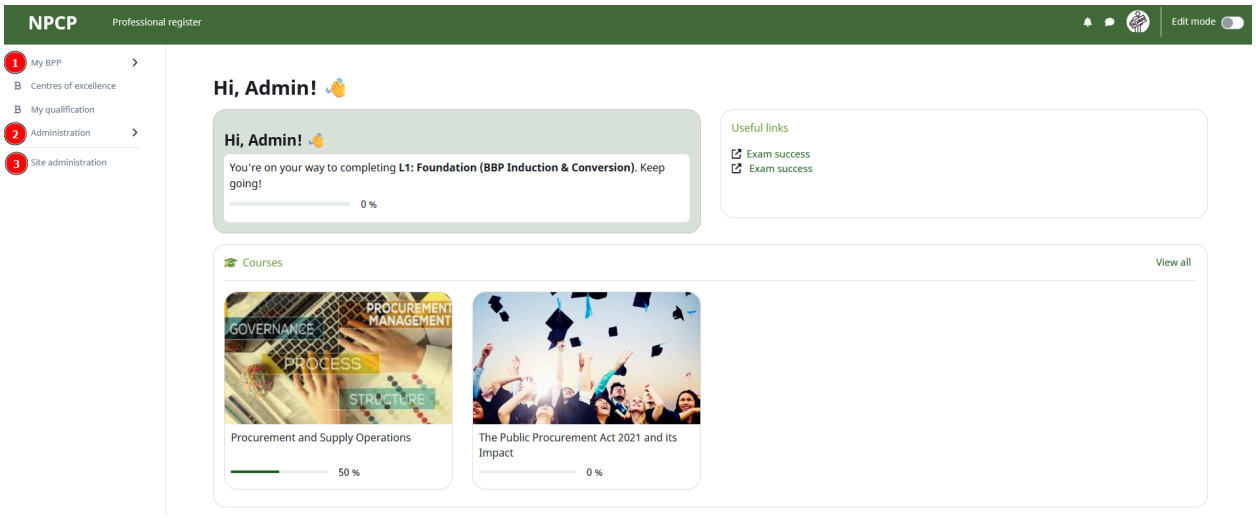


7. MENU AND DASHBOARDS

The SIS is a versatile and robust tool designed for the creation, management, and distribution of educational content in digital formats. It caters to educational institutions, corporations, and organizations seeking to streamline their academic workflows and improve learning outcomes.

The navigation menu is divided into three sections:

1. **User Section** - "My BPP"
2. **Administrator Section** - "Administration"
3. **Site Administration Section** - "Site Administration"

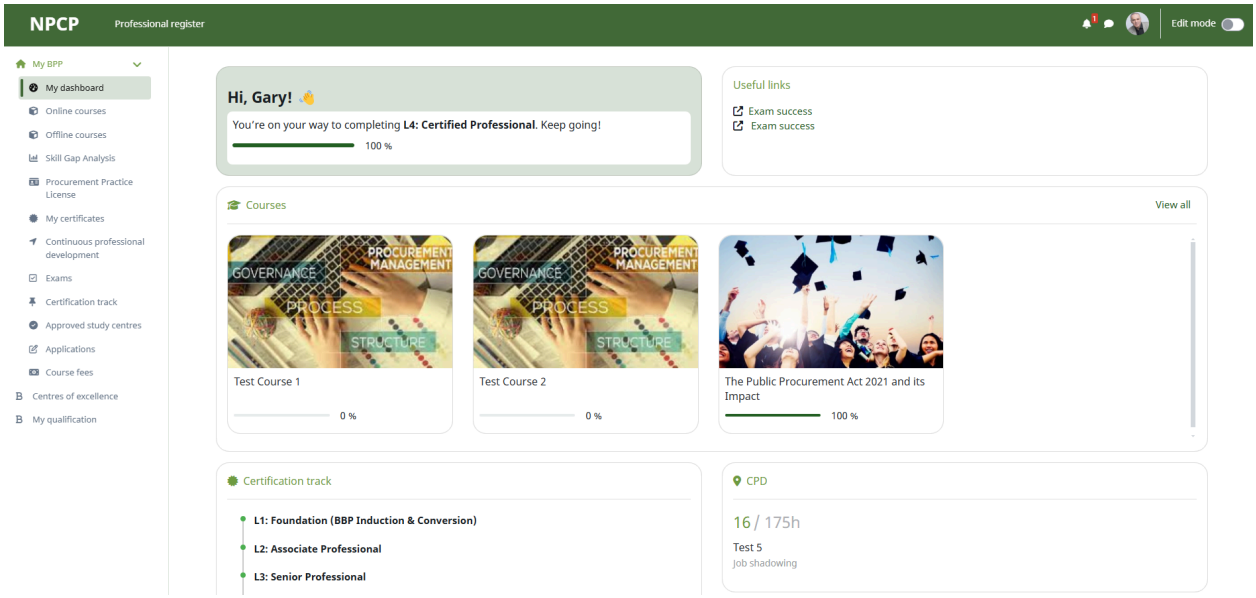


Each of them includes its submenus:

- My Dashboard
- Online courses
- Offline courses
- Skill Gap Analysis
- Procurement Practice License
- My Certificates
- Continued professional development
- Exams
- Certification track
- Approved study centers
- Application
- Courses fees
- Centers of excellence
- My qualification
- Complaint management
- Exam validation

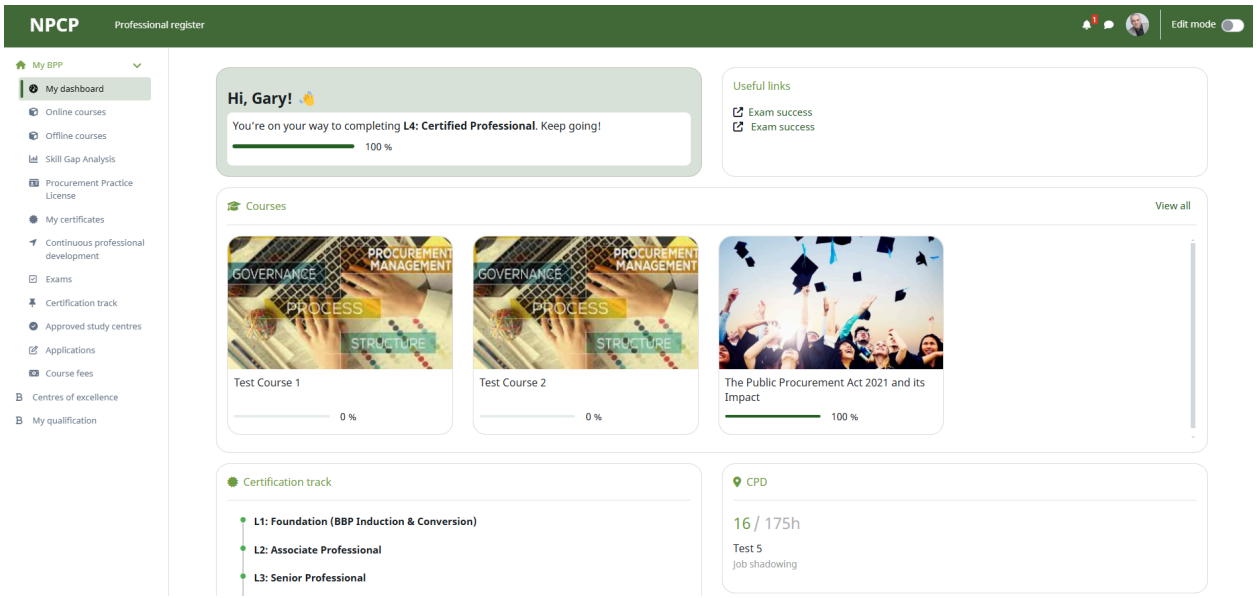
7.1 MENU FOR AUTHORIZED USER

An authorized user part



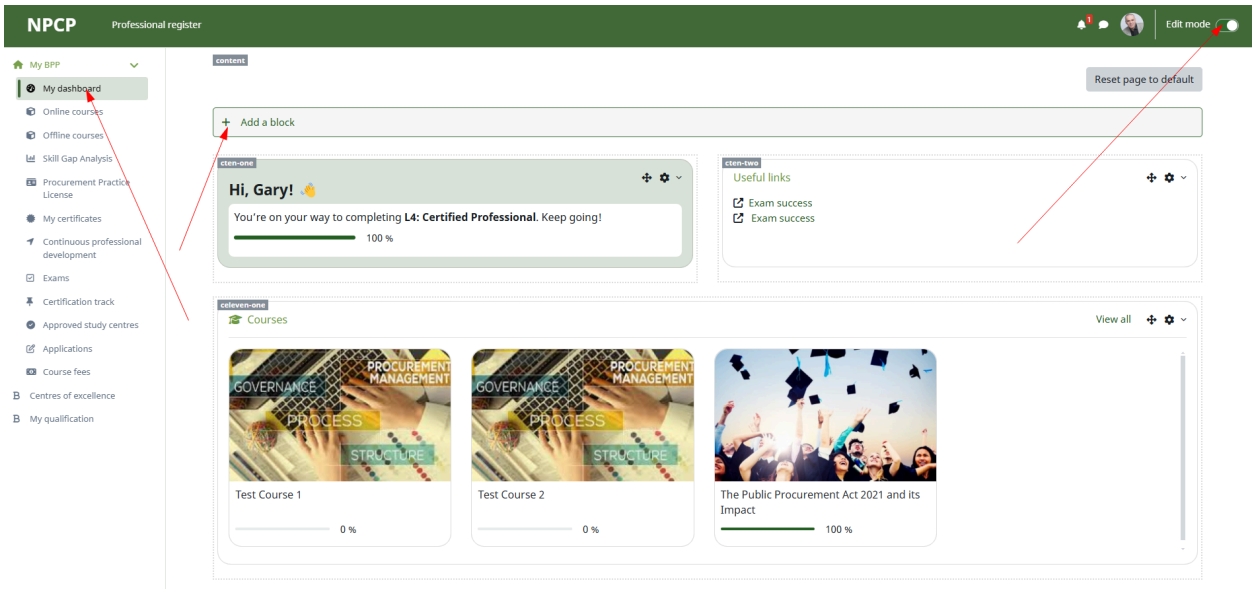
7.1.1 MENU “MY DASHBOARD”

The "My Dashboard" menu allows authorized users to customize their dashboard for convenient use. This functionality allows users to add new blocks, move them, configure settings, and hide, or delete blocks.

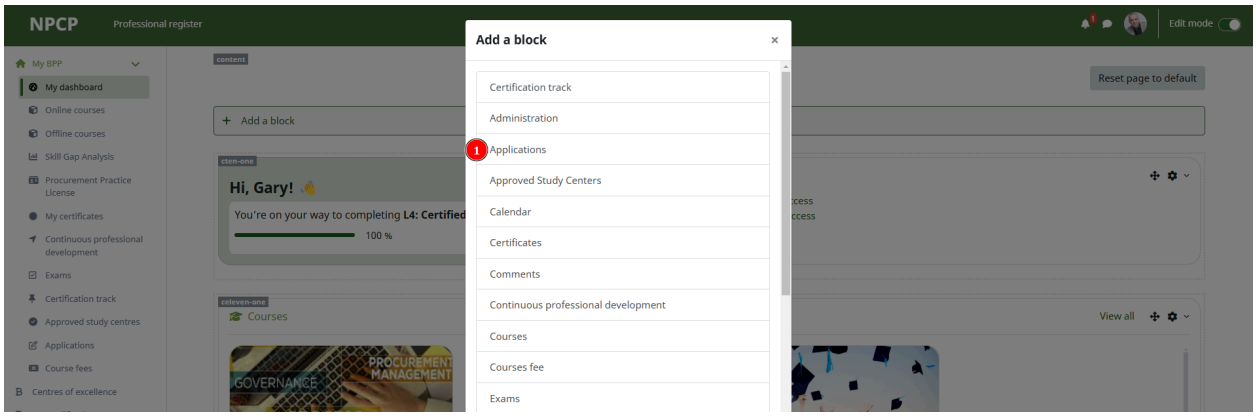


7.1.1.1 HOW TO MANAGE THE DASHBOARD

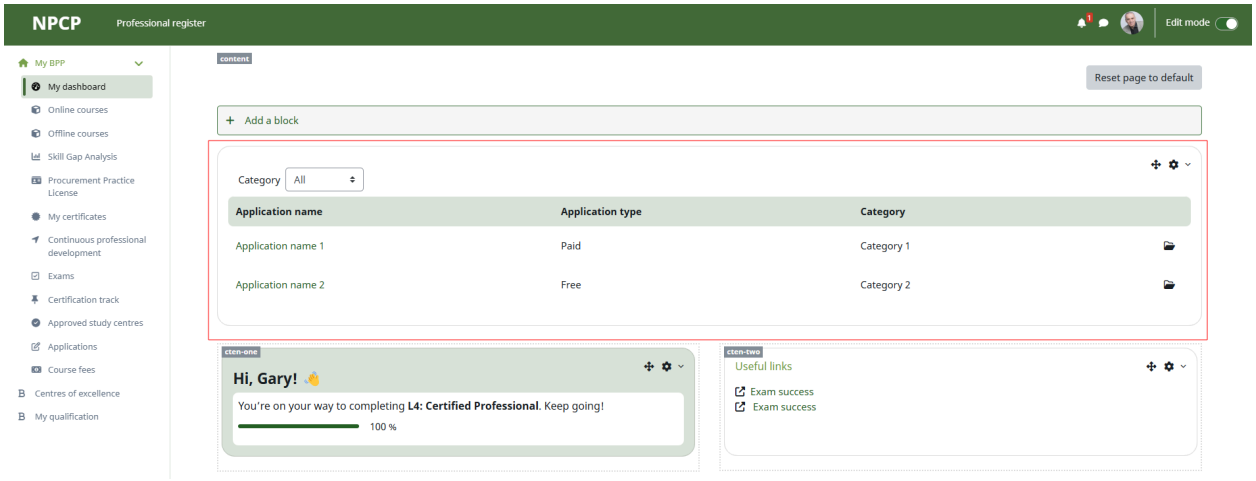
To add a new block, click on the menu “My dashboard” and set the toggle “Edit mode” -YES and click on the panel “+Add a block”



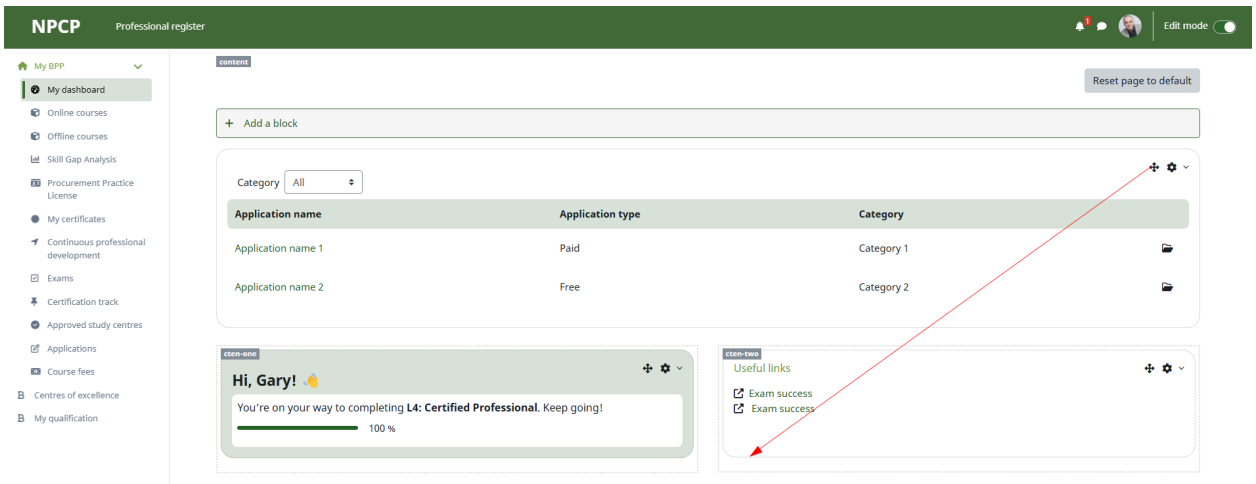
Select the required block - f.x. “Application” and click twice.

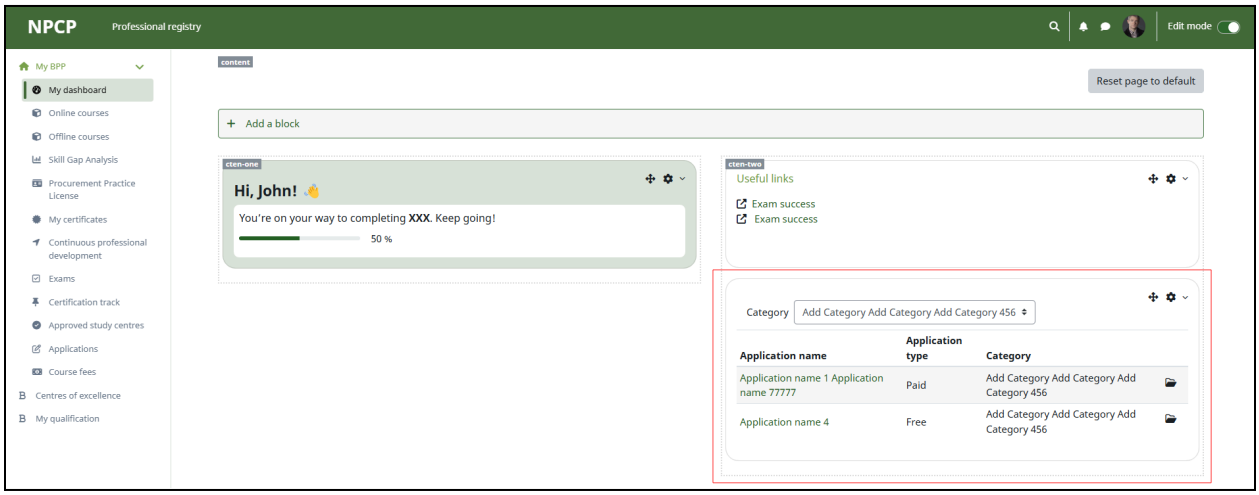


The block is added.

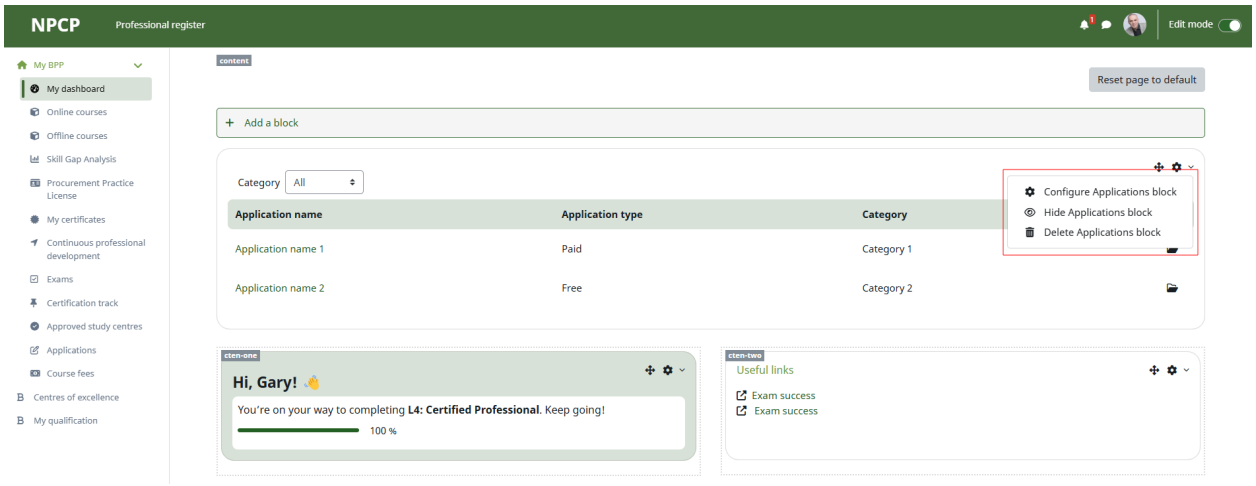


To move the block, click on the button “Cross” and drag and drop it to the required section.

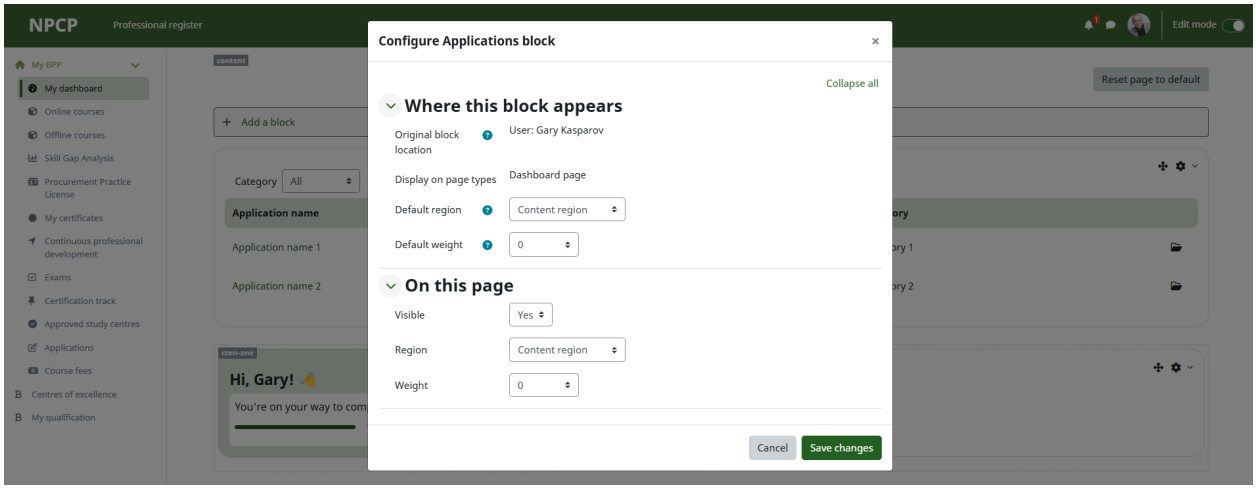




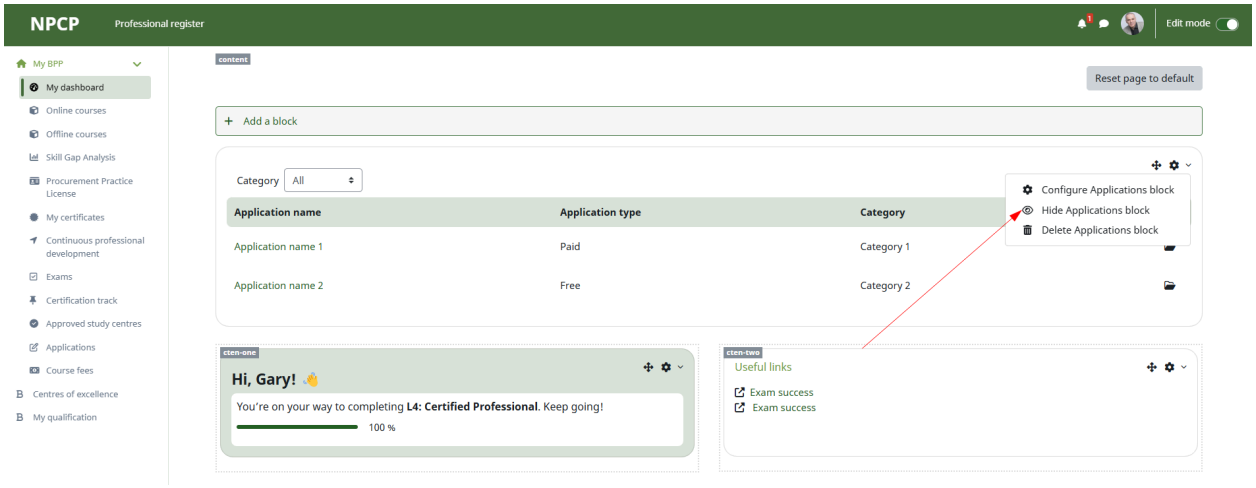
To configure the block, click on the button “Configure block”

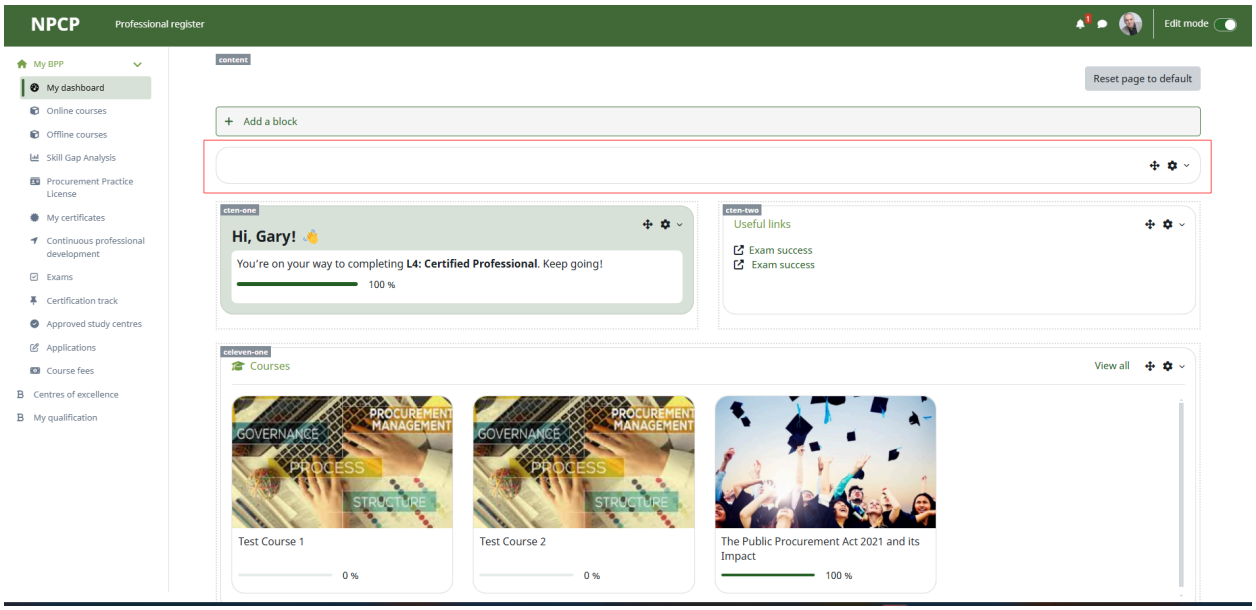


Set the required configuration and click “Save changes”

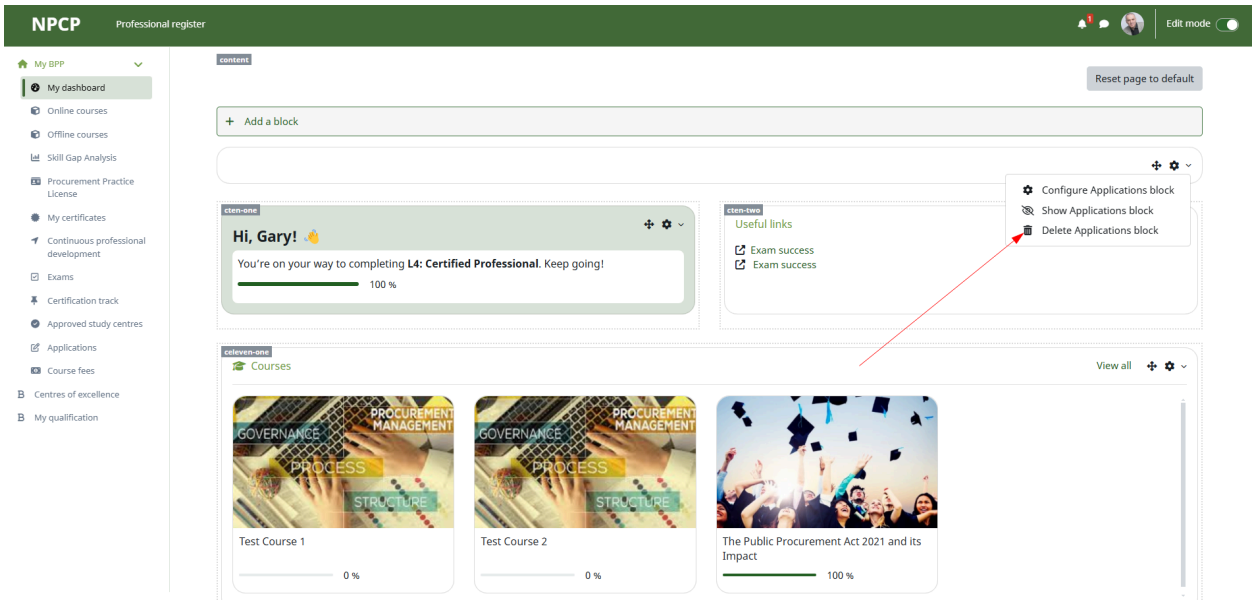


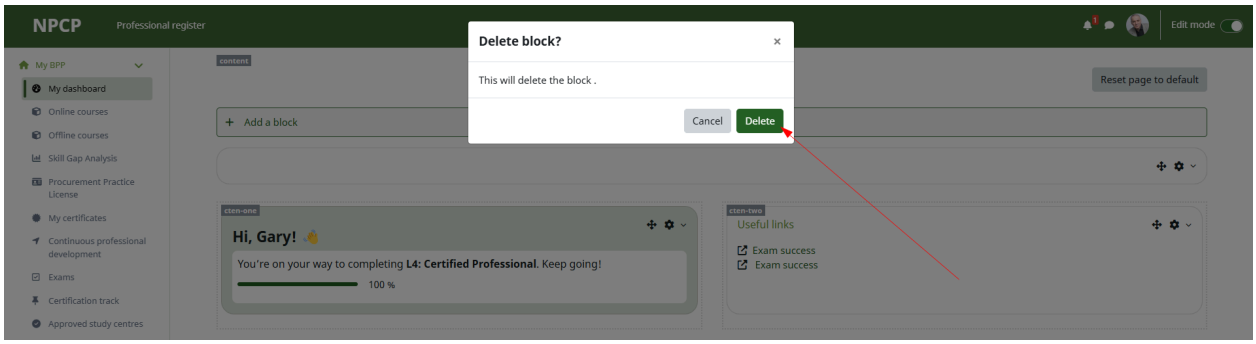
To hide the block, click the button “Hide block”



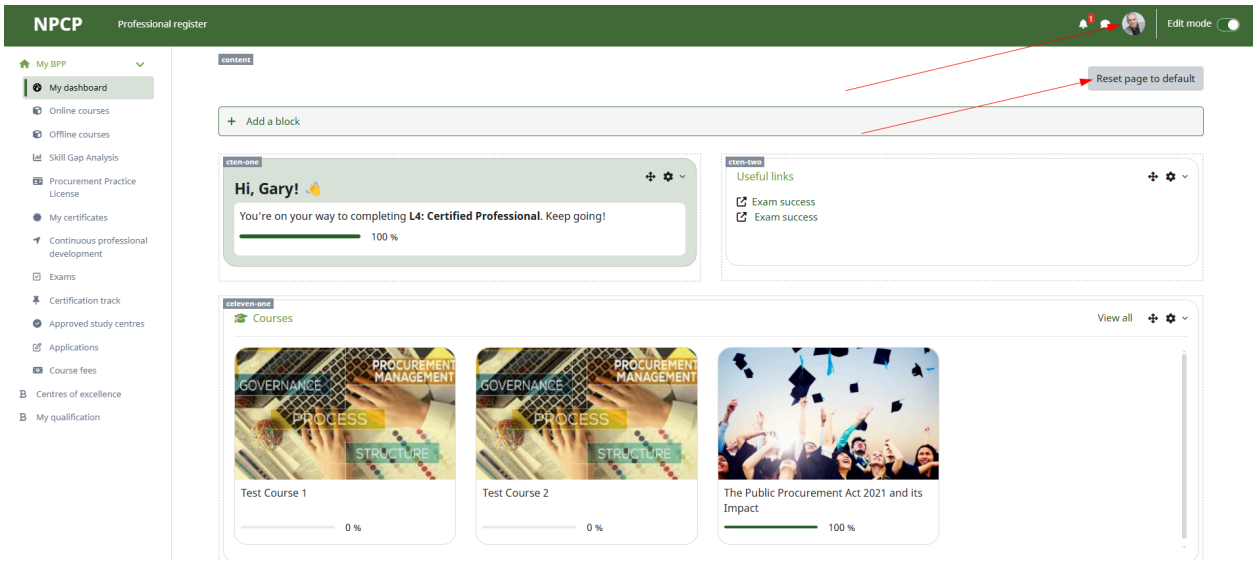


To delete the block, click the button “Delete” and confirm the action.





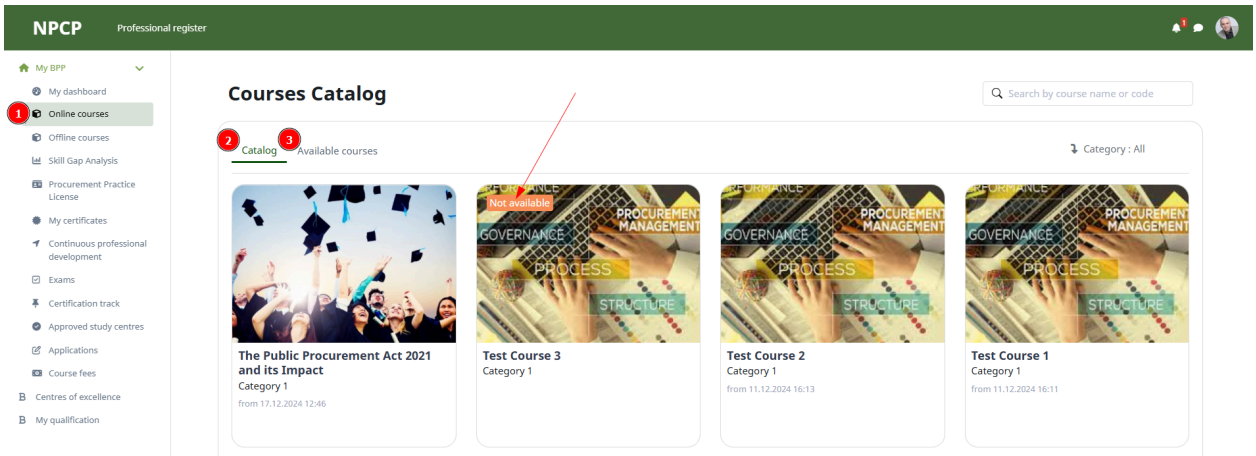
The system allows an authorized user to reset their own dashboard to the default dashboard. Switch “Edit mode” - YES, and click the button “Reset page to default”



IMPORTANT!!! REMEMBER TO SWITCH THE "EDIT MODE" TO "NO" AFTER COMPLETING YOUR EDITS.

7.1.2 MENU "ONLINE COURSES"

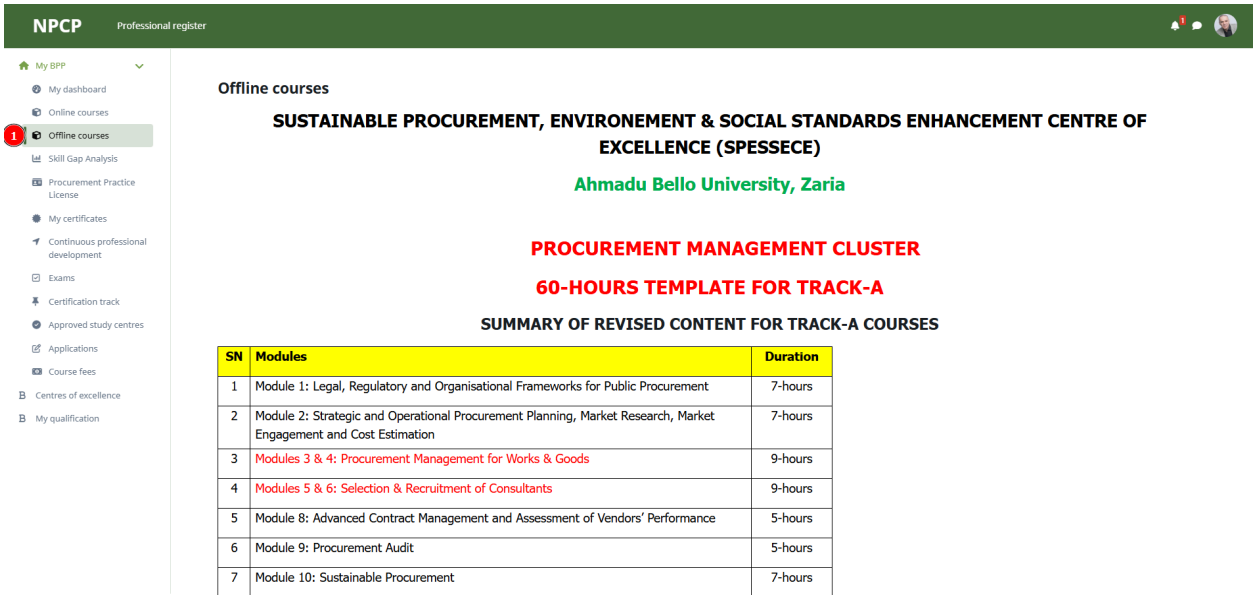
The "Online Courses" menu allows authorized users to access the course catalog, which includes a general catalog and available courses. If a course is not available, a mark is displayed on the course card.



The user has the ability to select a desired course and either start or continue studying and taking the exam. Click twice on desired course

7.1.3 MENU “OFFLINE COURSES”

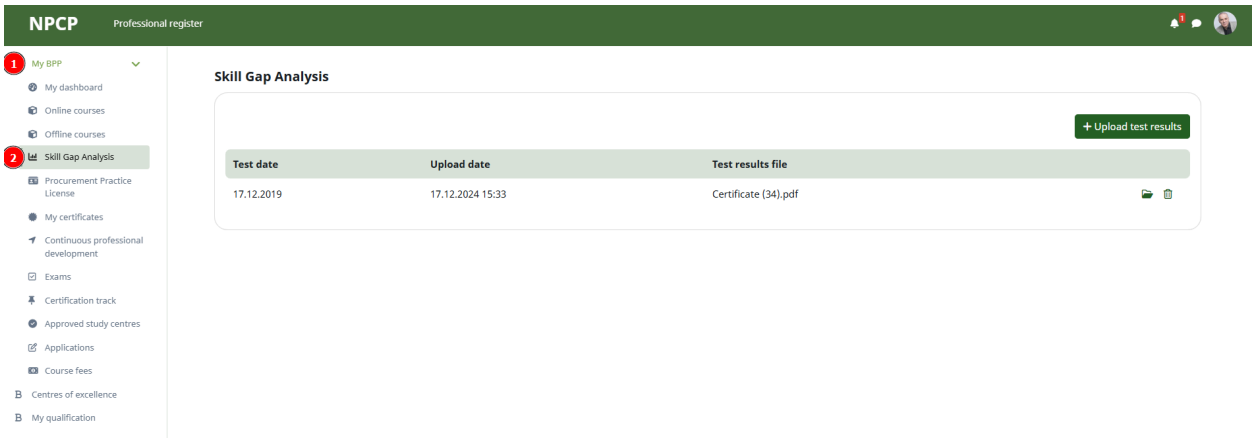
The "Offline Courses" menu provides information about courses available at external educational institutions. This option is read-only.



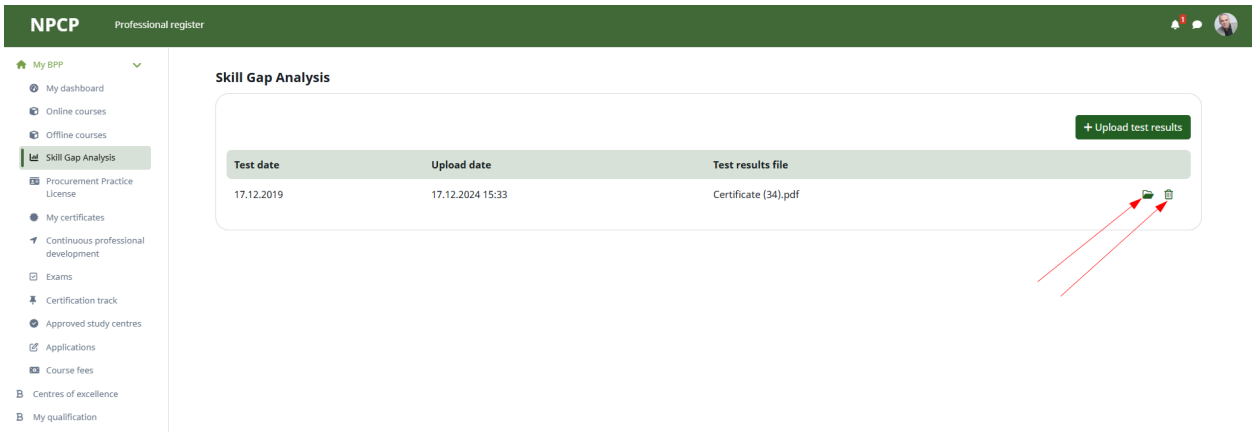
SN	Modules	Duration
1	Module 1: Legal, Regulatory and Organisational Frameworks for Public Procurement	7-hours
2	Module 2: Strategic and Operational Procurement Planning, Market Research, Market Engagement and Cost Estimation	7-hours
3	Modules 3 & 4: Procurement Management for Works & Goods	9-hours
4	Modules 5 & 6: Selection & Recruitment of Consultants	9-hours
5	Module 8: Advanced Contract Management and Assessment of Vendors' Performance	5-hours
6	Module 9: Procurement Audit	5-hours
7	Module 10: Sustainable Procurement	7-hours

7.1.4 MENU “SKILL GAP ANALYSIS”

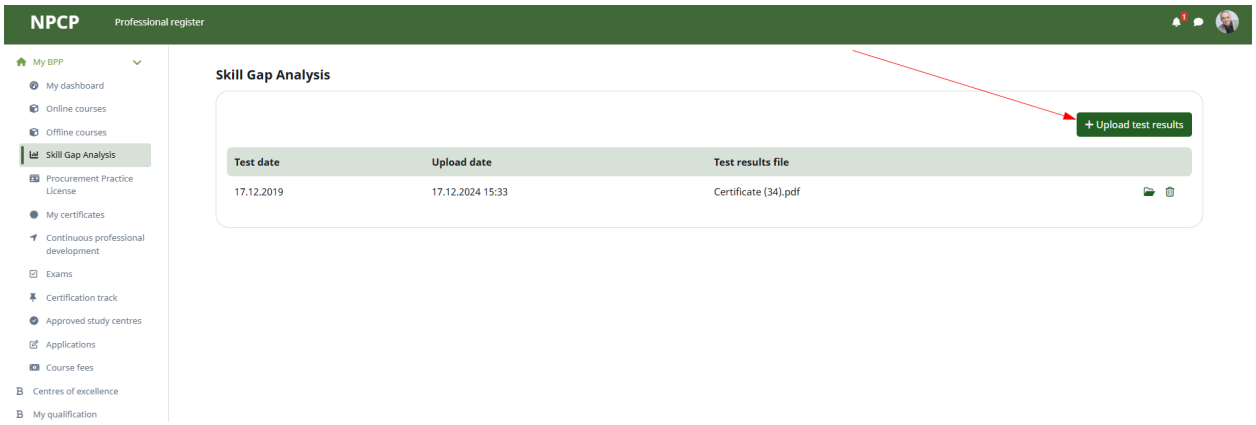
The "Skill GAP Analysis" menu allows users to add records of certifications they have already completed to the register. The register includes information about the test date, upload date, result file, and an option to view the certificate.
Click on the menu “My BPP” -> “Skill GAP Analysis”



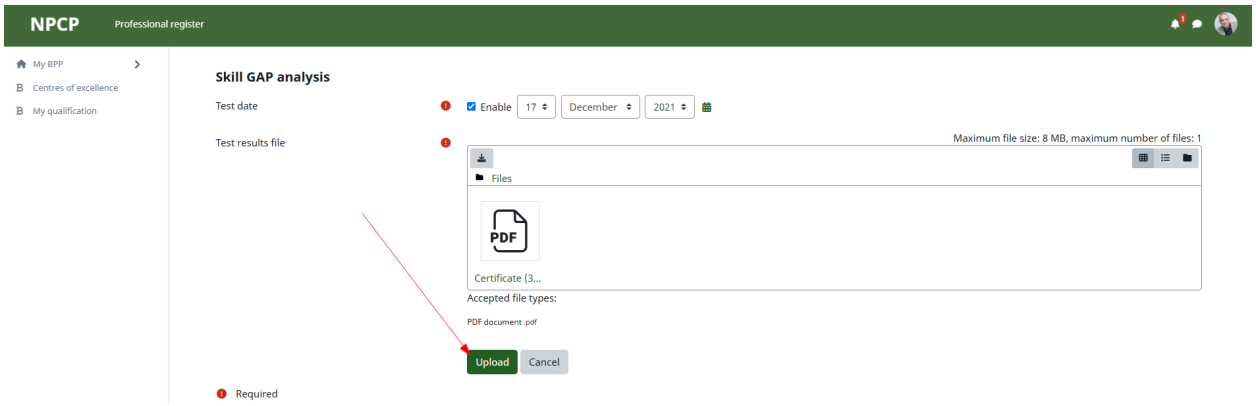
Click on the "View" button to view the certificate. And button “Delete” to delete the record.



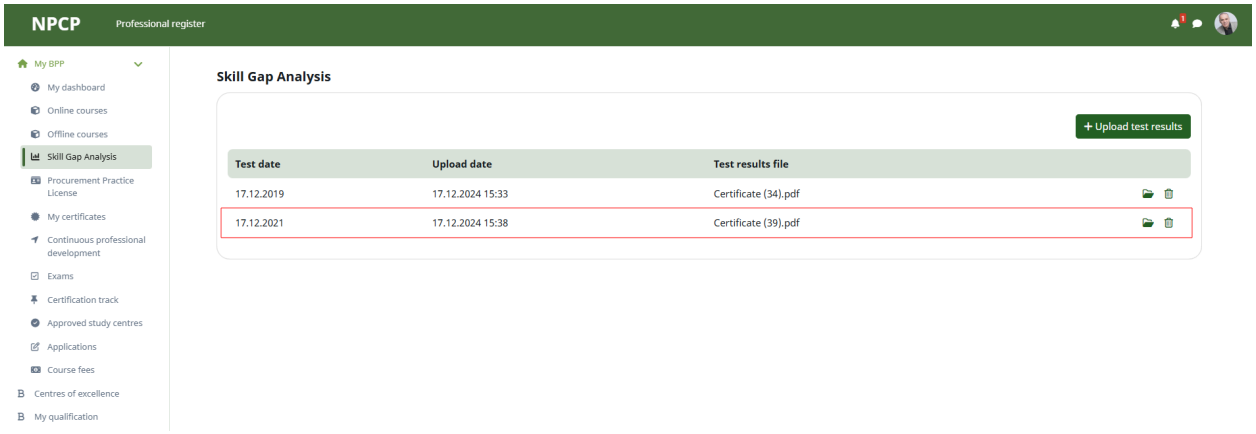
To upload the file, click “+Upload test result”



Select the test date, add the file with type “PDF” and click the “Upload” button.

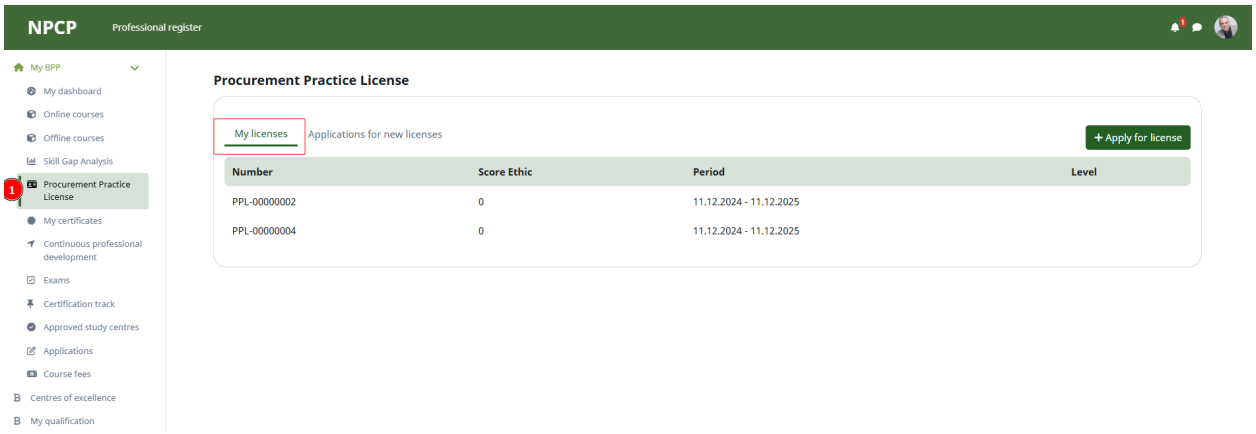


The test result is added, and the record is created successfully.

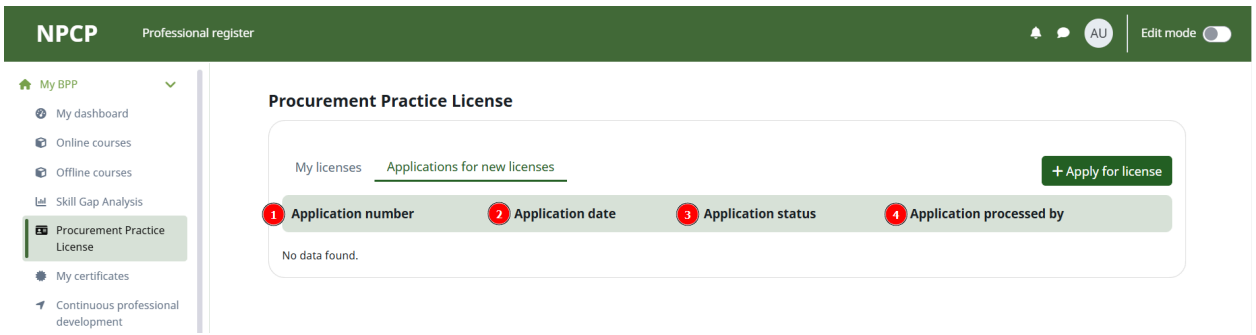


7.1.5 MENU “PROCUREMENT PRACTICE LICENSE”

A practice license confirms the candidate is approved to practice procurement for some period. Candidates must obtain this license using CIPS. The Bureau of Public Procurement (https://www.bpp.gov.ng/) acts as the issuer of the license.
The system allows members to view the list of “My licenses”.

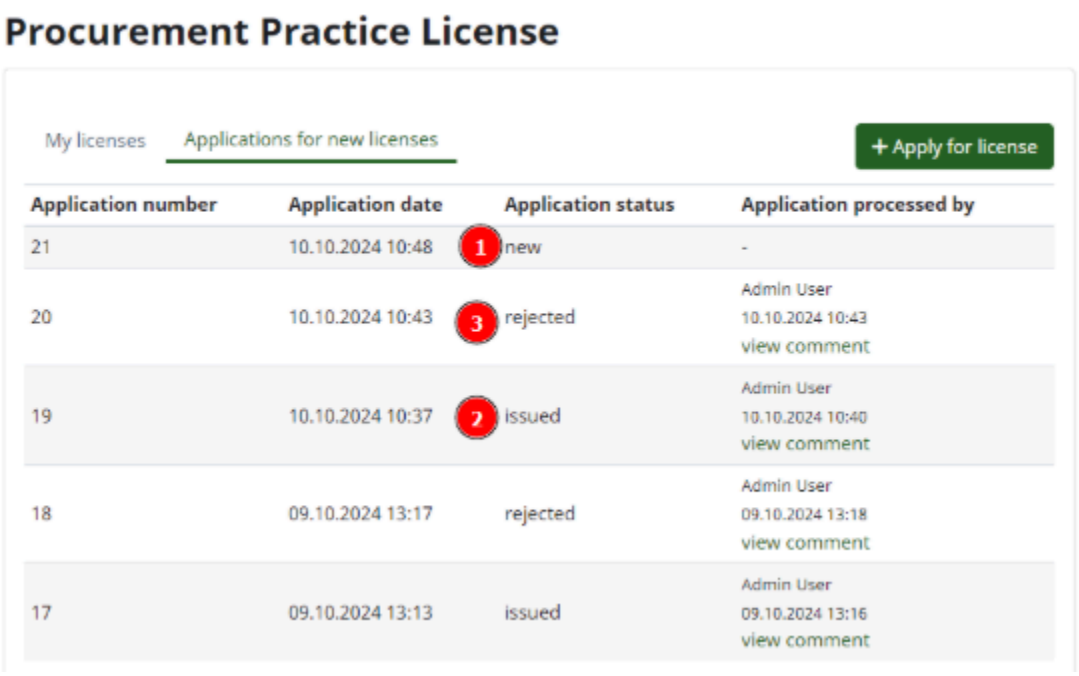


The system allows you to view the list of applications with number, date, status, and processed by



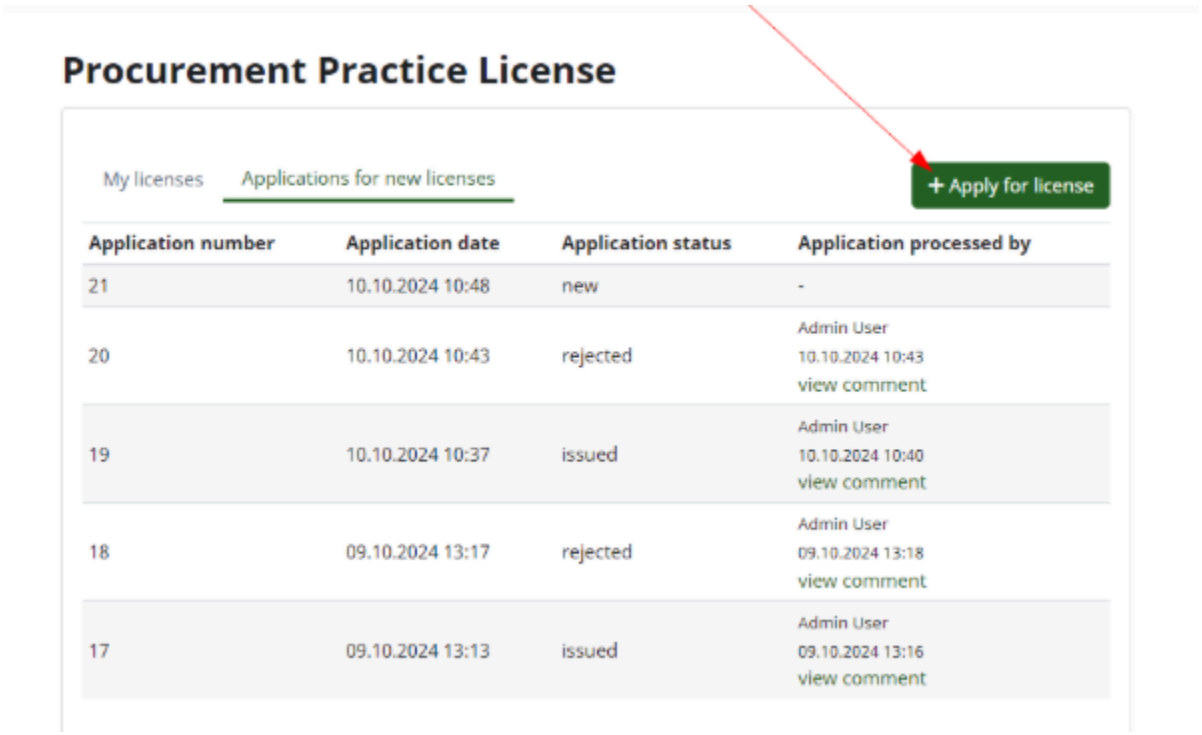
There are three statuses of application:

1. New
2. Issued
3. Rejected

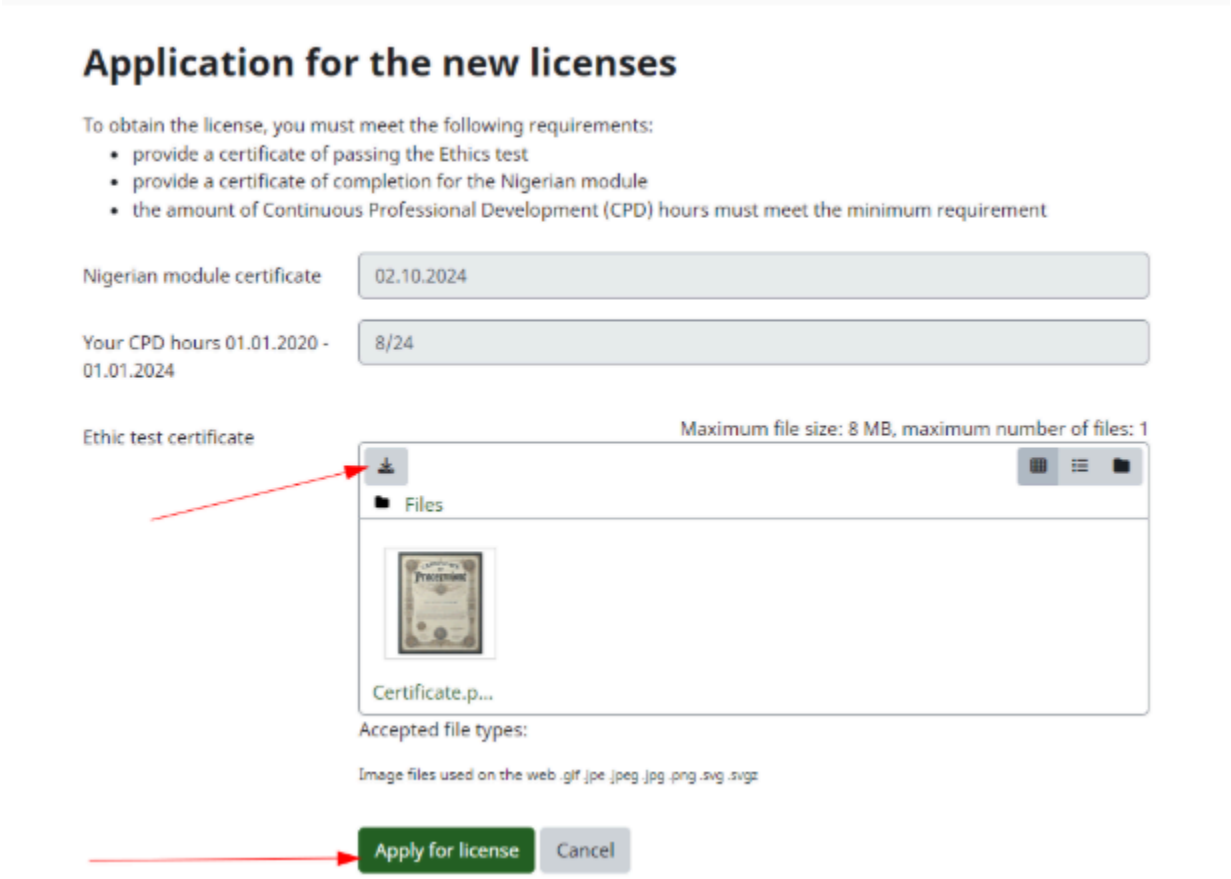


7.1.6 HOW TO CREATE APPLICATION FOR NEW LICENSE

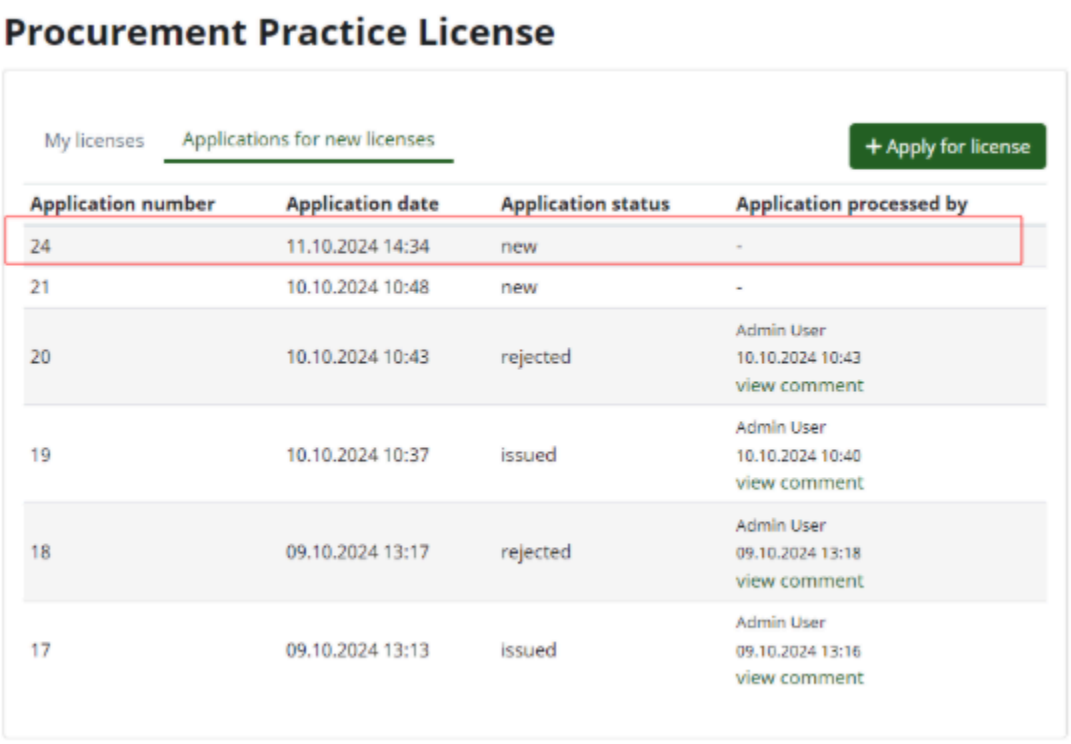
The system allows members to create applications for new licenses. Click on the button “+Apply for a license”.



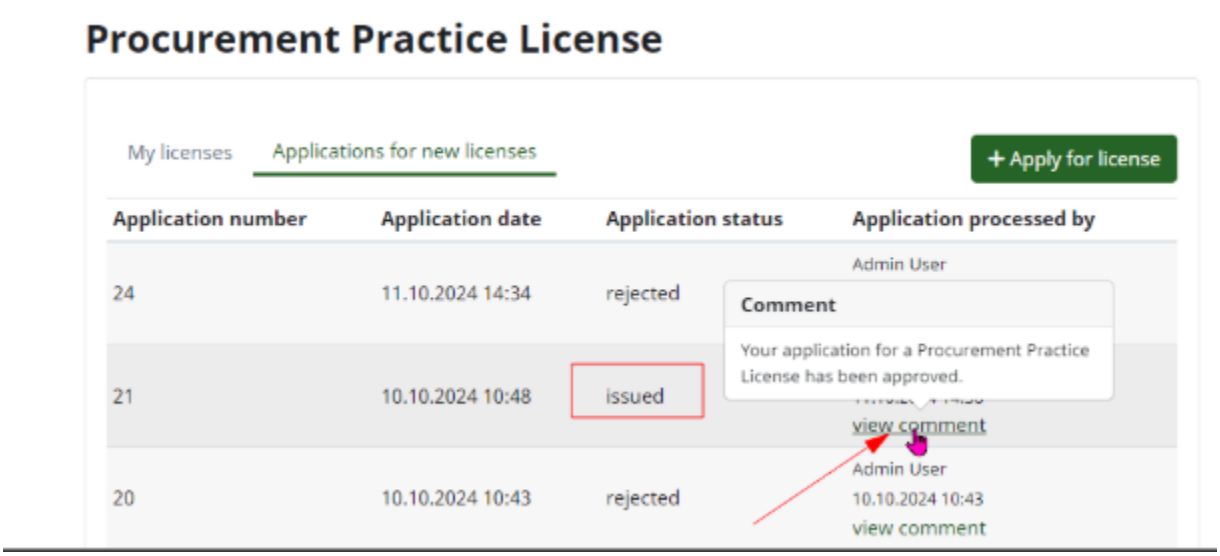
Add an ethnic test certificate (if it exists). Click the button “Apply for a license”.



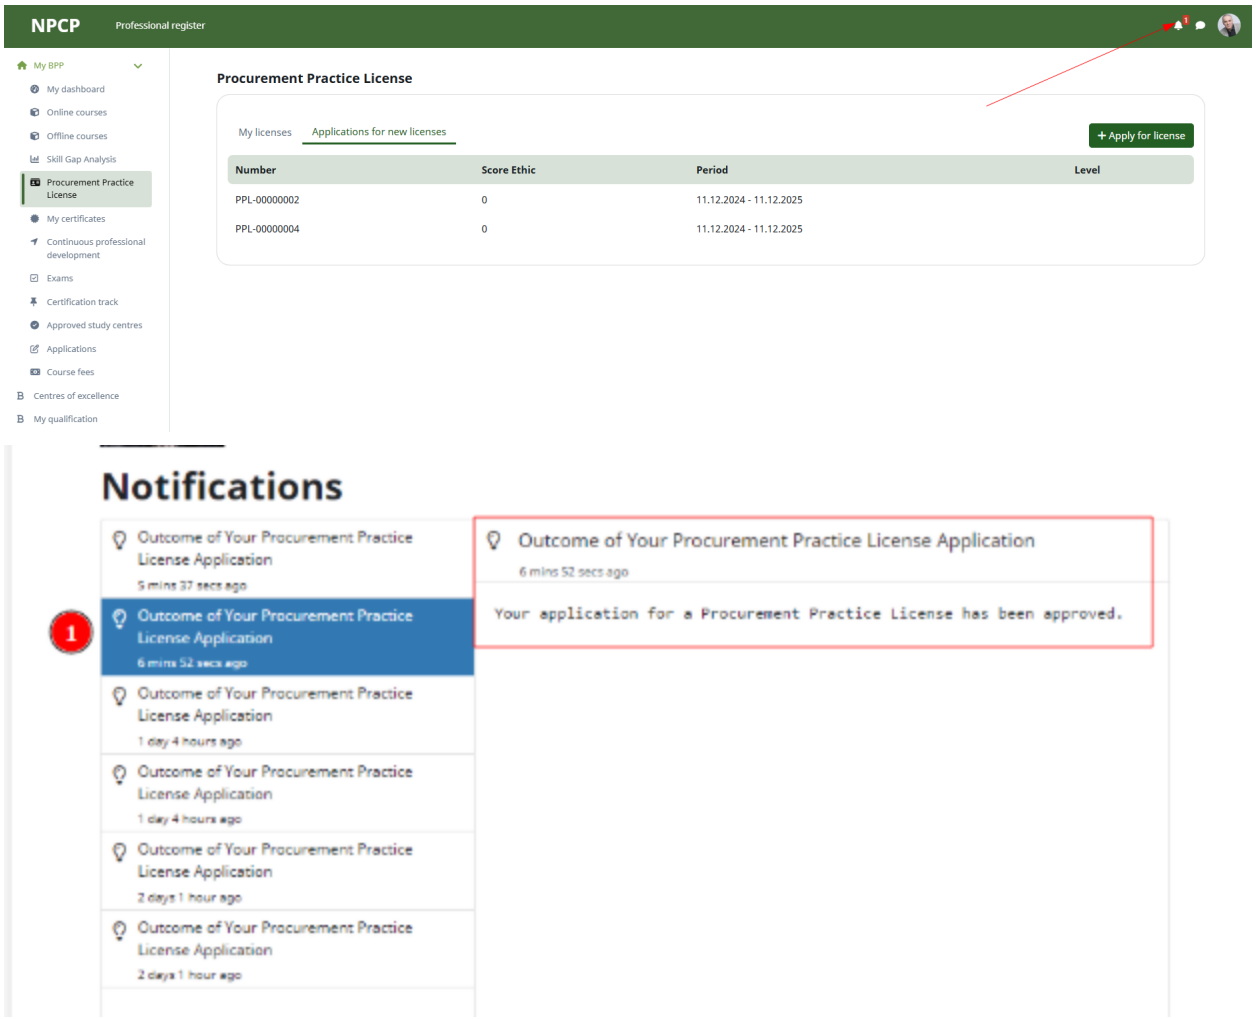
The record of the application is displayed on the tab “Application for new licenses” to pending review.



The member can view comments about approved and rejected applications.



The member can view the notification on the web about approved and rejected applications.
Click on the button “Toggle notifications menu”



The member can view the notification in their email about approved and rejected applications.

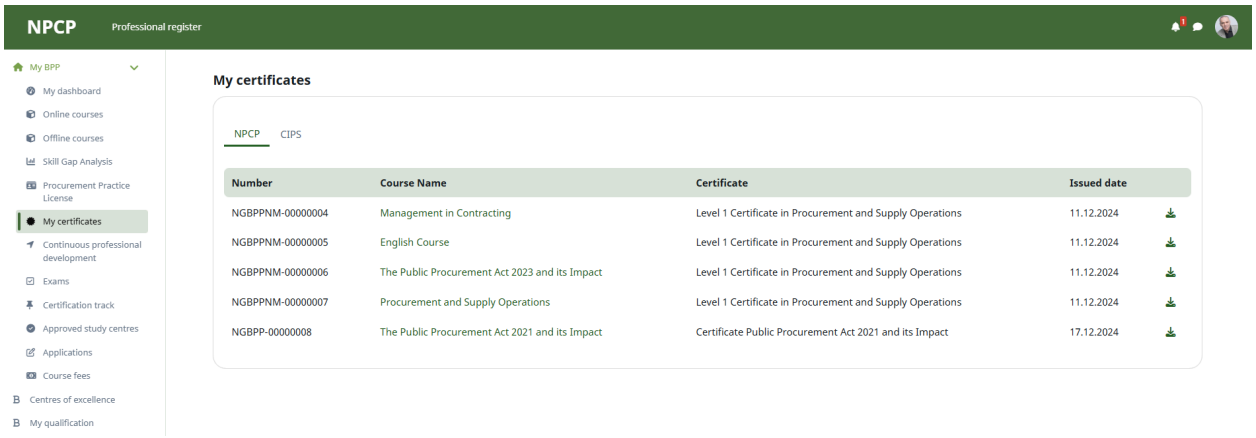
Dear John Watson,
Thank you for submitting your application for a Procurement Practice License. We are pleased to inform you that your application has been approved.
You can now access your license through the following link: https://ng-lms-dev.devsoftengi.space/local/multidashboard/index.php?page=002.
Congratulations, and we look forward to your continued contributions to the procurement profession.

Best regards,
NPCP Team
Admin User

Are you reading this in an email? Download the mobile app and receive notifications on your mobile device.

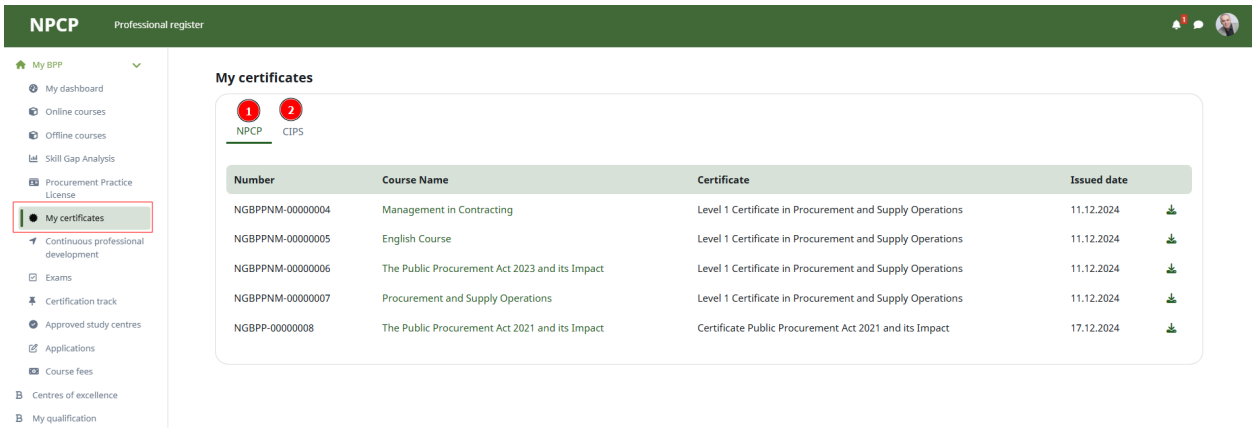
7.1.7 MENU "MY CERTIFICATES"

Module "My Certificates" provides access to personal certificates, active and expired. The system allows you to view/download/print certificates as PDFs, and view certification details: expiration date, name. The sources of certification are NPCP and CIPS.

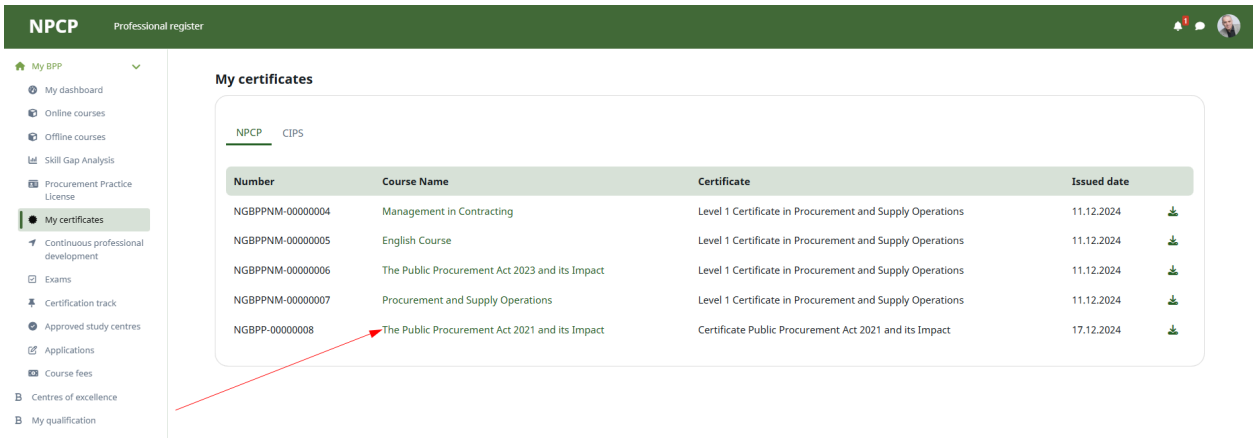


7.1.7.1 HOW TO VIEW CERTIFICATES

The system allows to view information about certificates as code, course name, certificate, and issued date. To view NPCP and CIPS certificates, click on the menu "BPP" -> "My certificates"

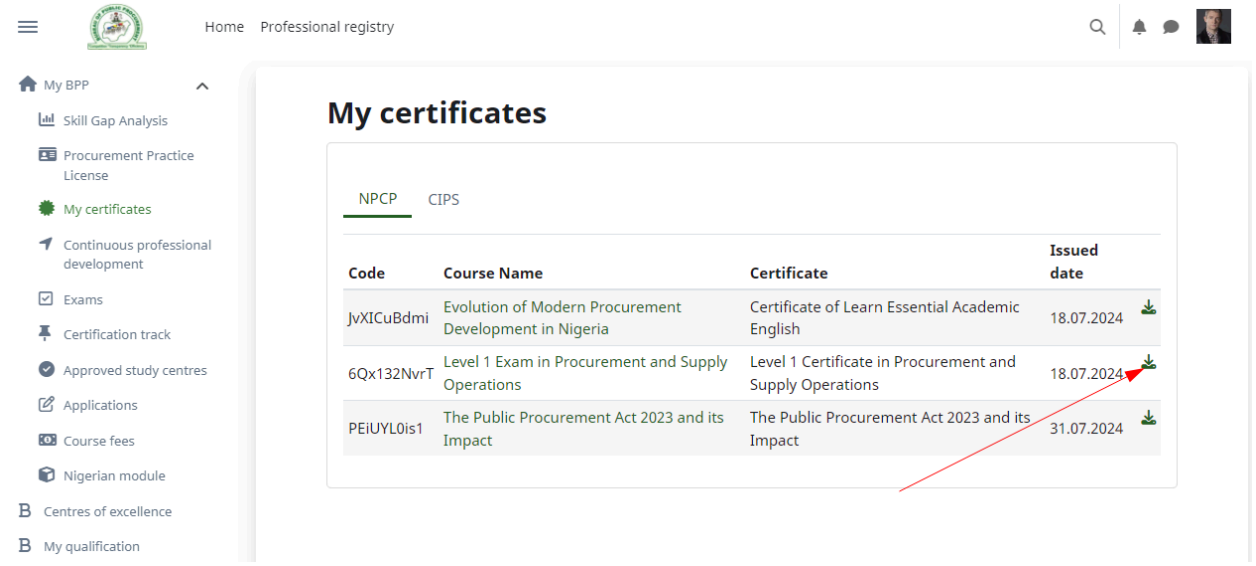


To view the course content, click on the course name.



7.1.7.2 HOW TO DOWNLOAD AND PRINT NPCP CERTIFICATE

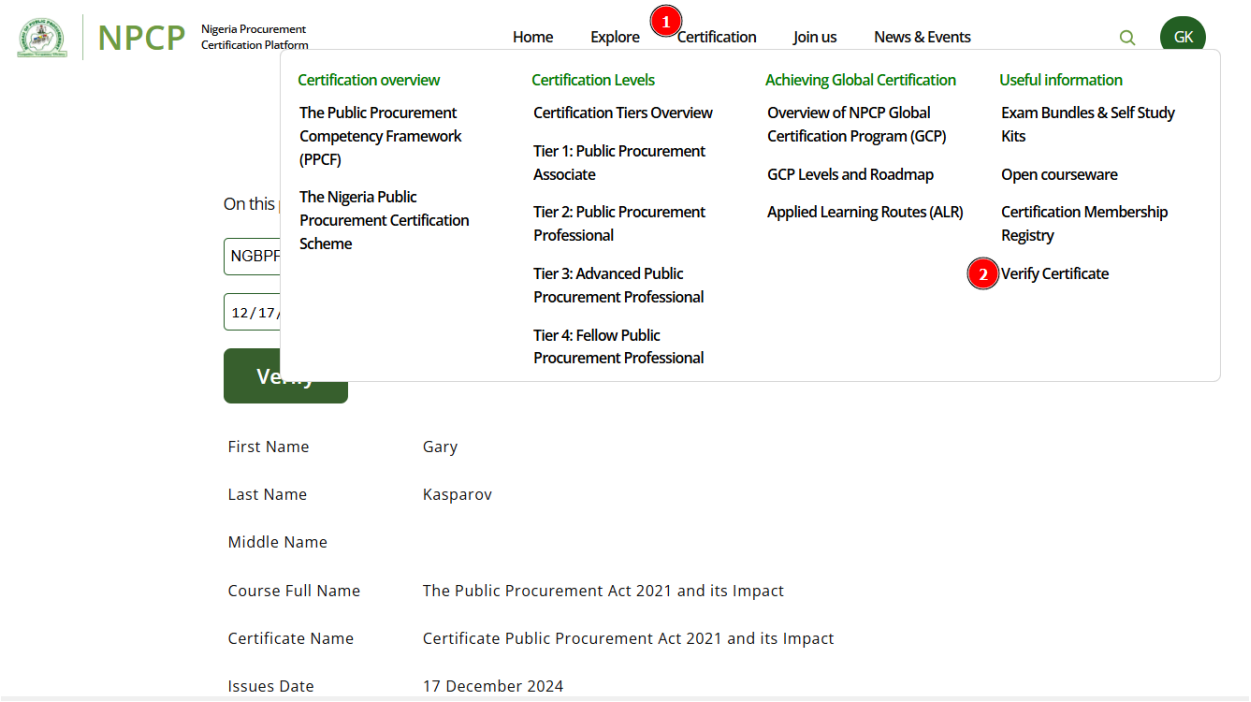
To download the certificate, click the button “Download” and open the file on your local PC



Click on the button “Print” to print the certificate.

7.1.7.3 HOW TO VERIFY CERTIFICATE BY QR CODE AND ON WEBSITE

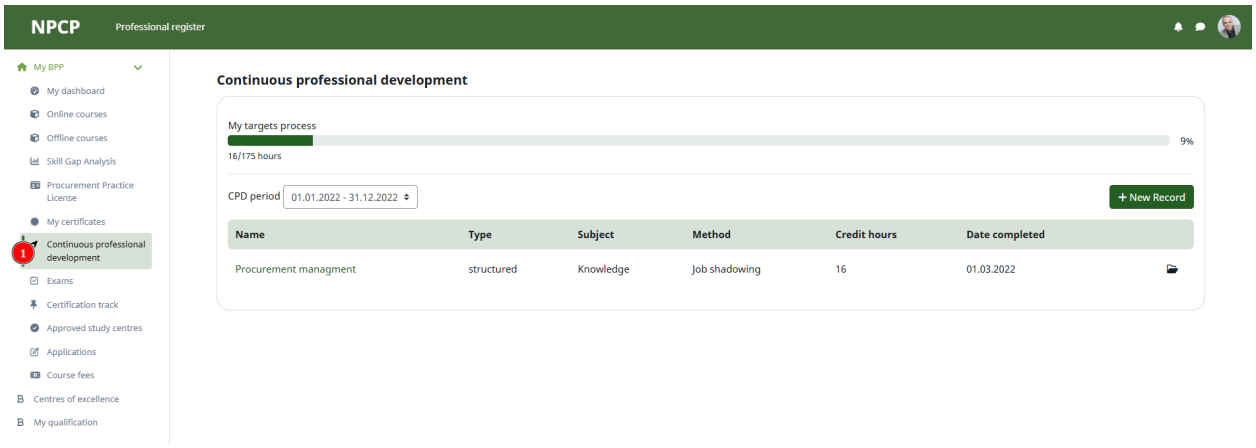
To verify a certificate by QR code, scan the QR code and follow by link.
To verify the certificate on the website, log in as an authorized user website, click on the menu “Certification” -> “Verify certificate”



Enter the number and date of the certificate, and click the button to verify.

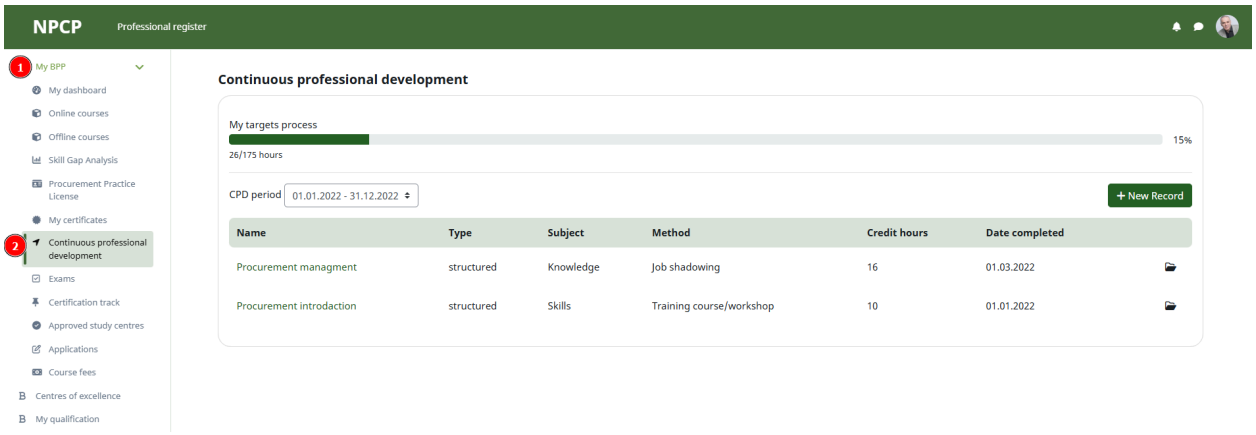
7.1.8 MENU “CONTINUOUS PROFESSIONAL DEVELOPMENT”

Module “Continuous professional development” is designed to keep records of all professional activities users participated at up-to-date. Users can fill out the form and indicate seminars, workshops, courses, meetings, and other activities they attended. It is required to provide evidence that this activity happened as a document or picture attached to the record.

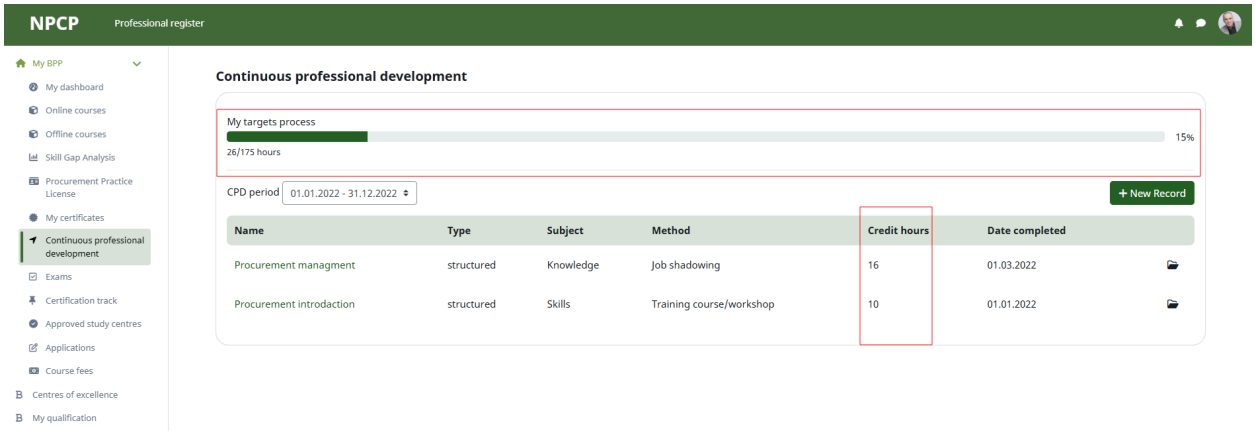


7.1.8.1 HOW TO VIEW AND CREATE NEW RECORD

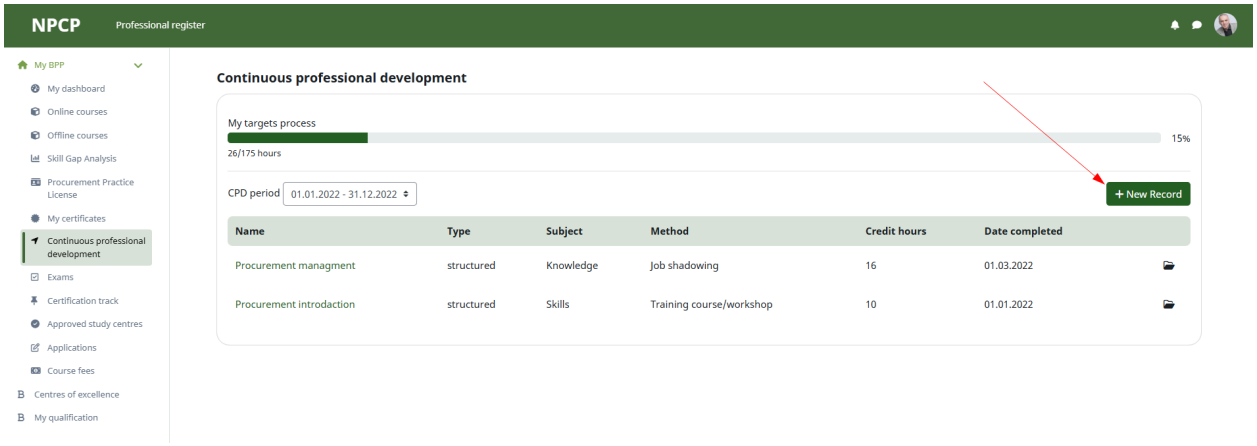
To view the new record, click on the menu “BPP” -> “Continuous professional development”. Select required period



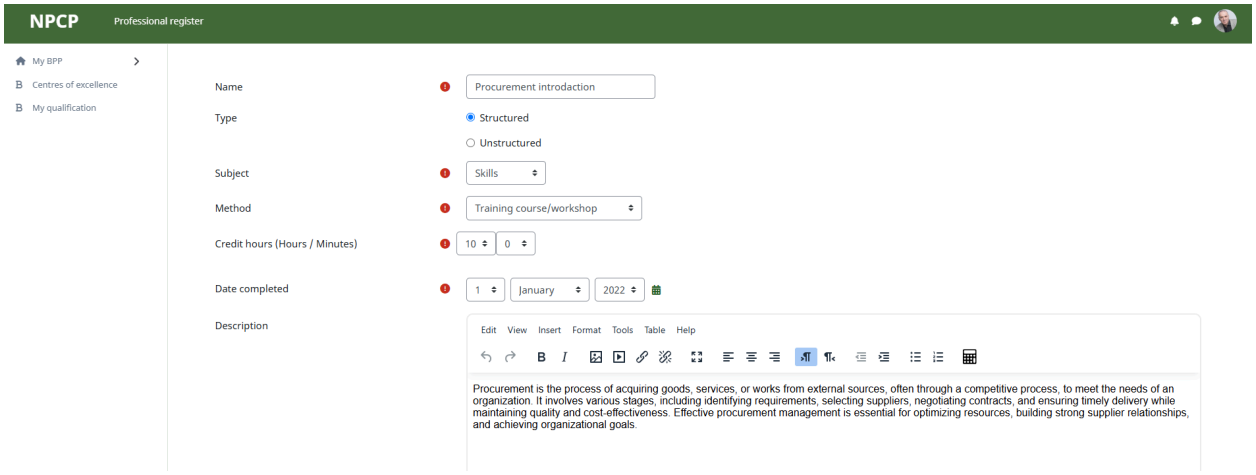
In the column, “Credit hours” is attended hours, and “My targets process” is execution progress.



To create a new record, click on the button “New record”

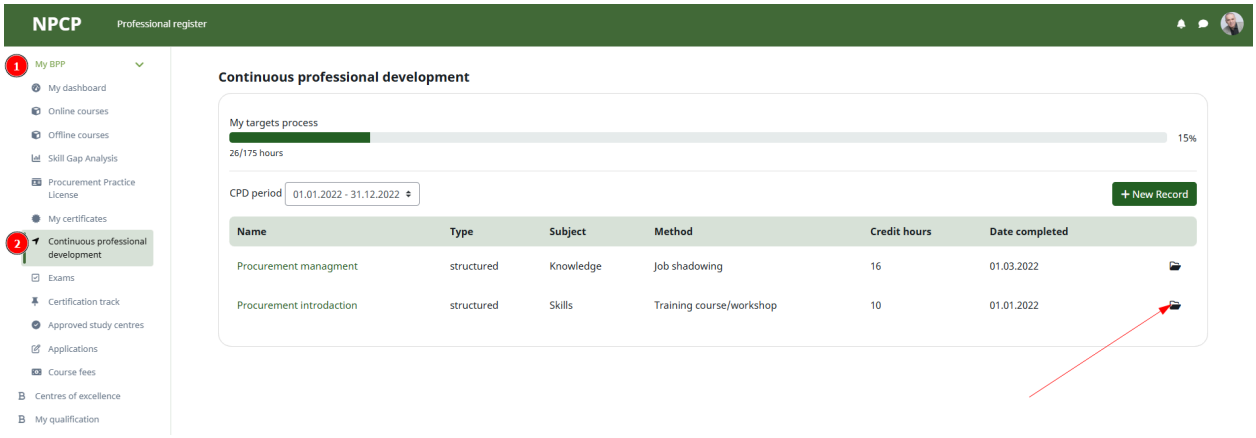


Fill in the fields and click “Save”

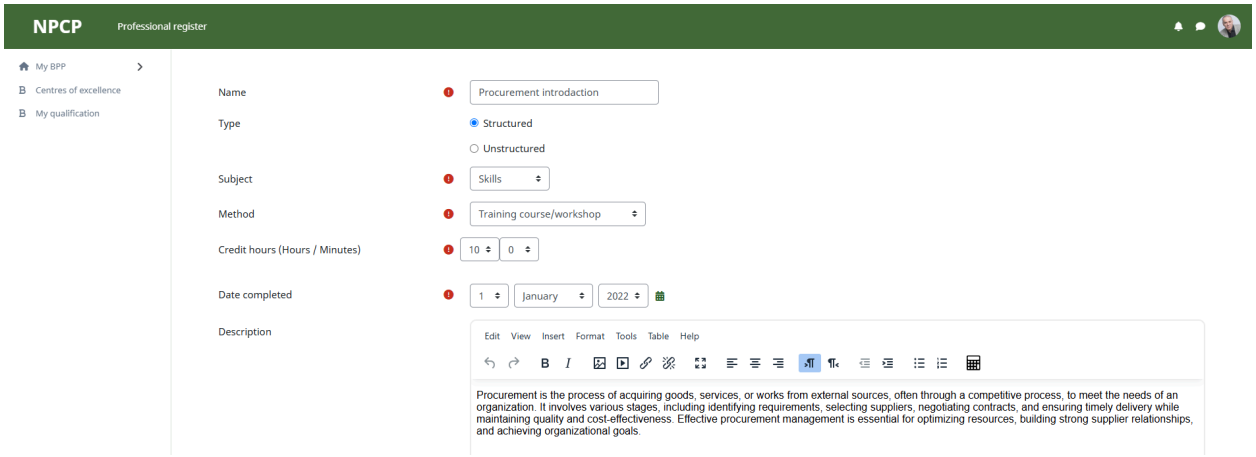


7.1.8.2 HOW TO EDIT THE RECORD “CONTINUOUS PROFESSIONAL DEVELOPMENT”

To edit the record of “CONTINUOUS PROFESSIONAL DEVELOPMENT” click on the menu “BPP” -> “CONTINUOUS PROFESSIONAL DEVELOPMENT” and click on the name of “CONTINUOUS PROFESSIONAL DEVELOPMENT” or the button “Folder”



Edit information and click “Save”

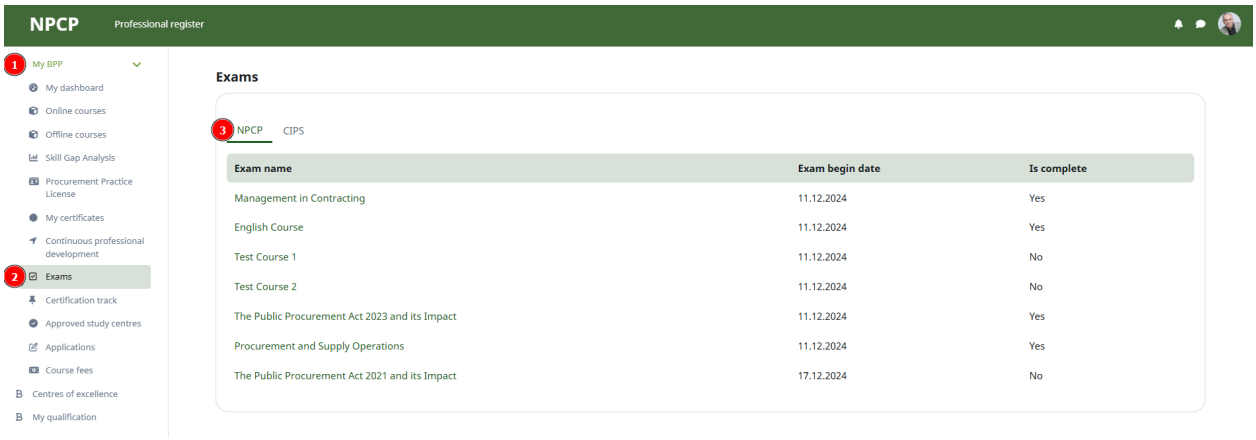


7.1.9 MENU “EXAMS”

The **"Exams"** module allows authorized users to access information about both past and upcoming examinations. Users can view detailed information such as the exam date, status, and results. For passed exams, users can also review detailed results. The module includes examinations from two sources: **NPCP** and **CIPS**, ensuring comprehensive exam tracking and result management.

To view the list of NPCP exams for students, click on the menu “BPP” -> “Exams” -> “NPCP”. There are:

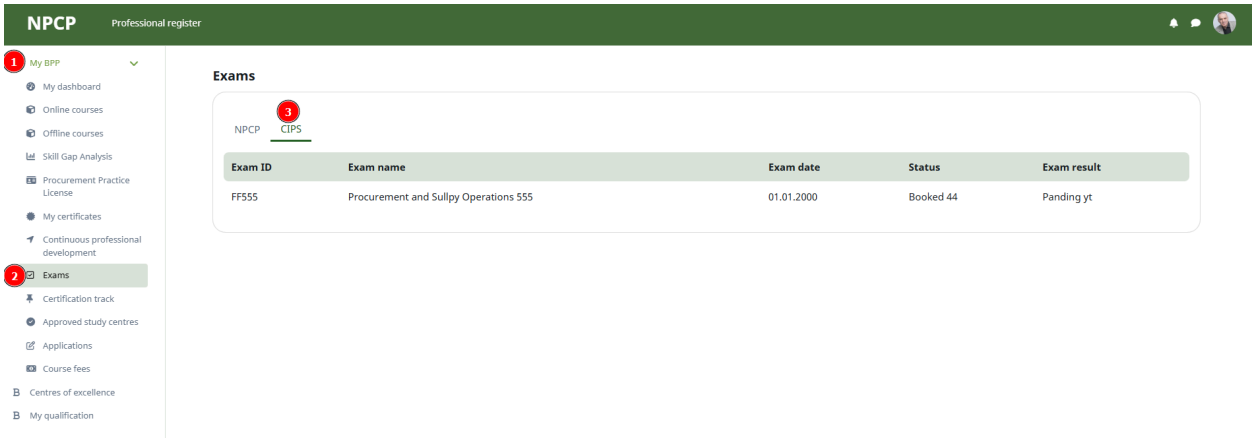
- Exams name
- Exam begin date
- Is complete



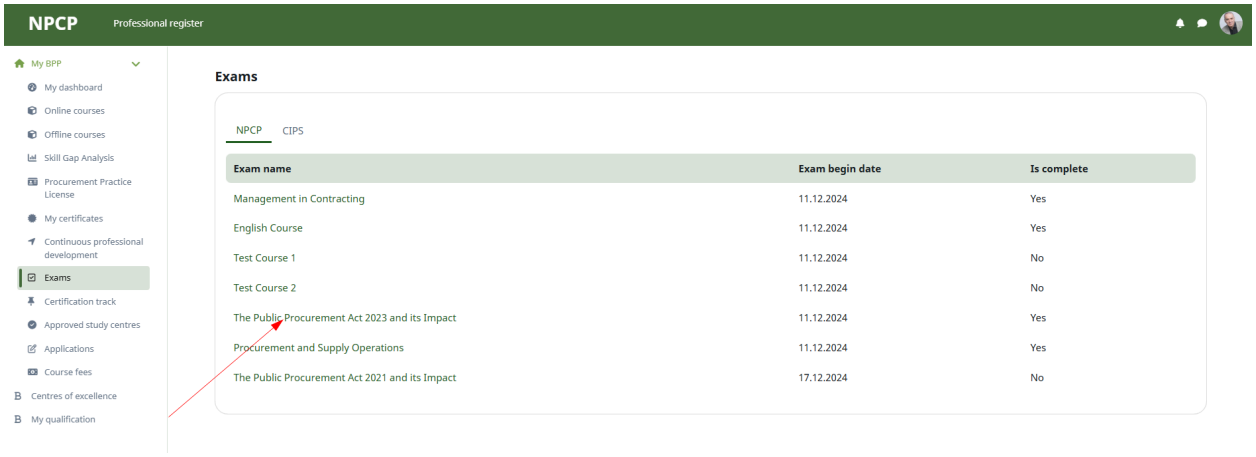
IMPORTANT!!! A course with the format “Exam” can be validated by the Certification Officer and displayed on the "NPCP Exams" list.

To view the list of CIPS exams for students, click on the menu “BPP” -> “Exams” -> “CIPS”. There are:

- Exam ID
- Exam name
- Exam date
- Status
- Exam result

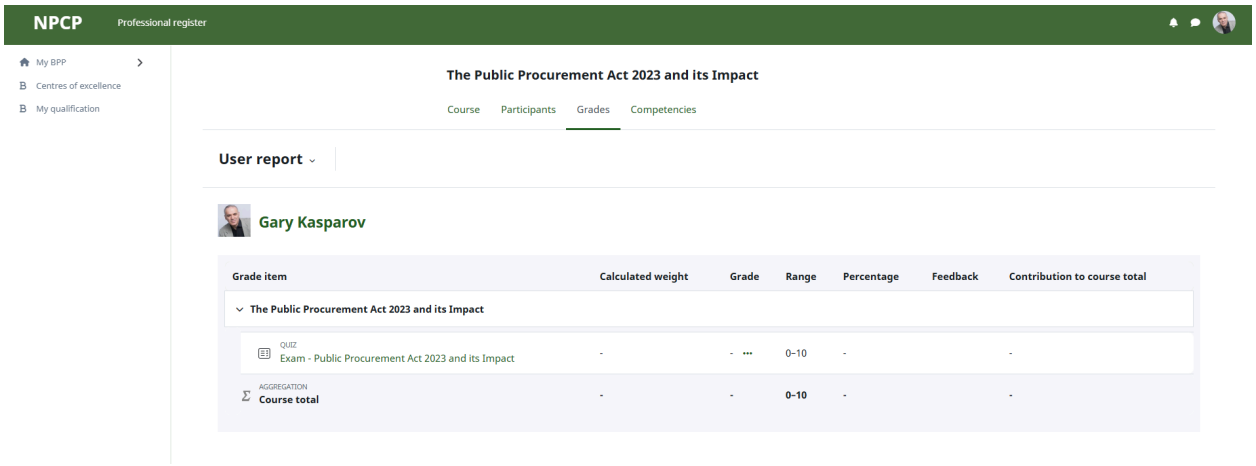


To view the information about the NPCP exam, click on the name and search required information.

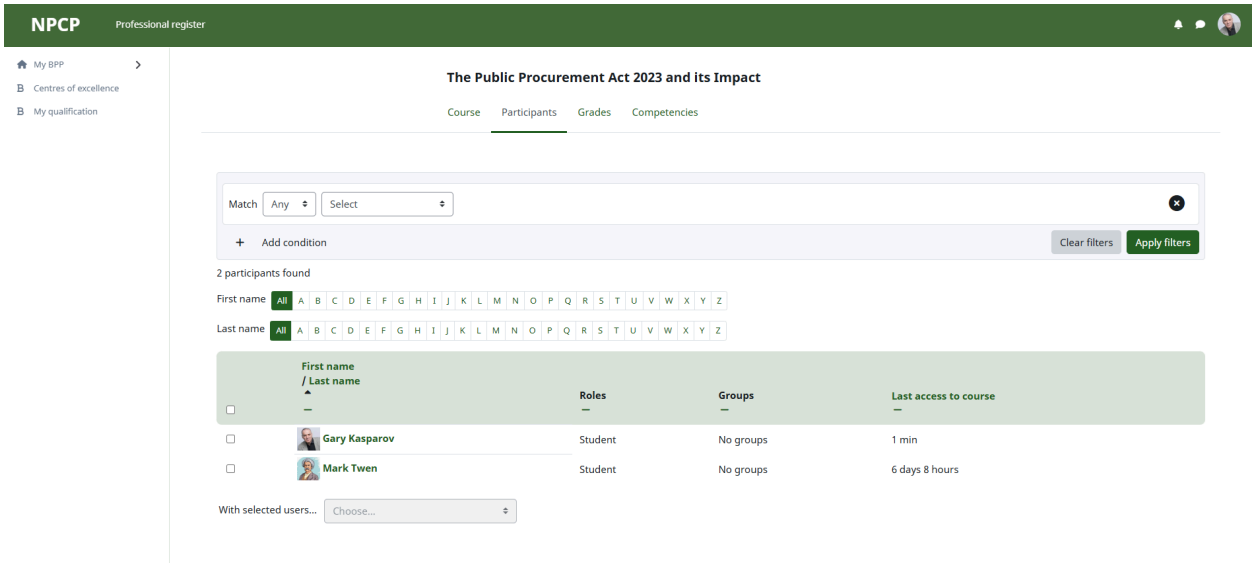


To start passing the exam for students click on the name of the exam and start the quiz.

To view grades (results of the exam) click on the tab “Grades”



To view the other participants of the exam, click the button “Participants”

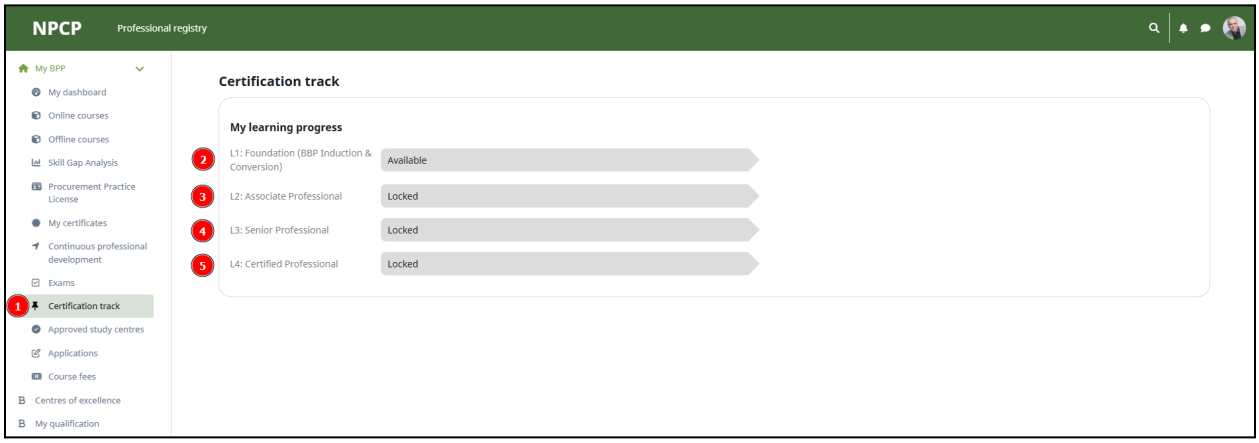


7.1.10 MENU “CERTIFICATION TRACK”

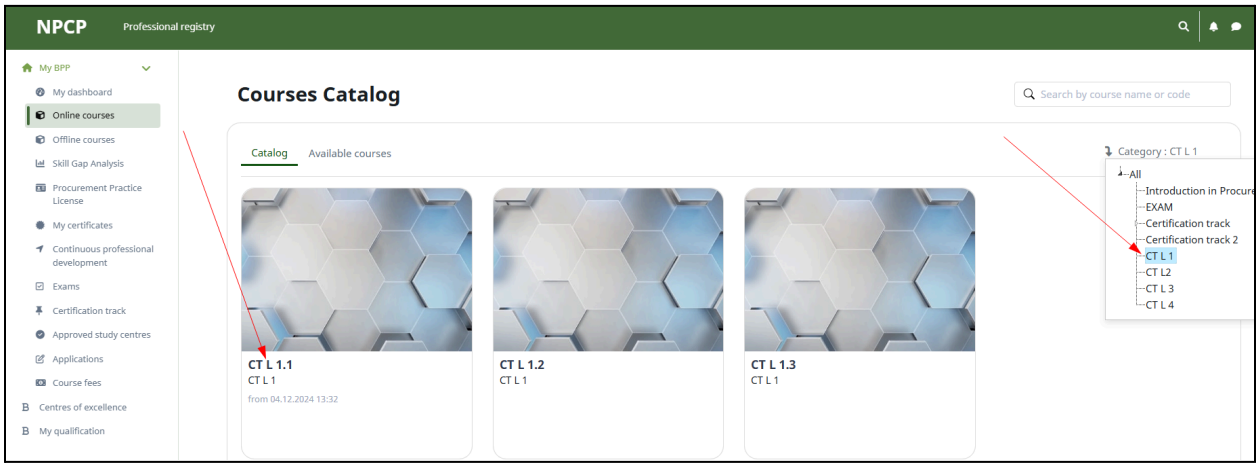
The "Certification Track" module serves as a user-friendly visual interface that delivers detailed information about current certification tier and outlines pathways for achieving higher certification levels and advancing professional development.

Click on the “My BPP” menu, then select “Certification Track” to view the member's learning progress. The track displays the tiers, their status, and the learning progress.

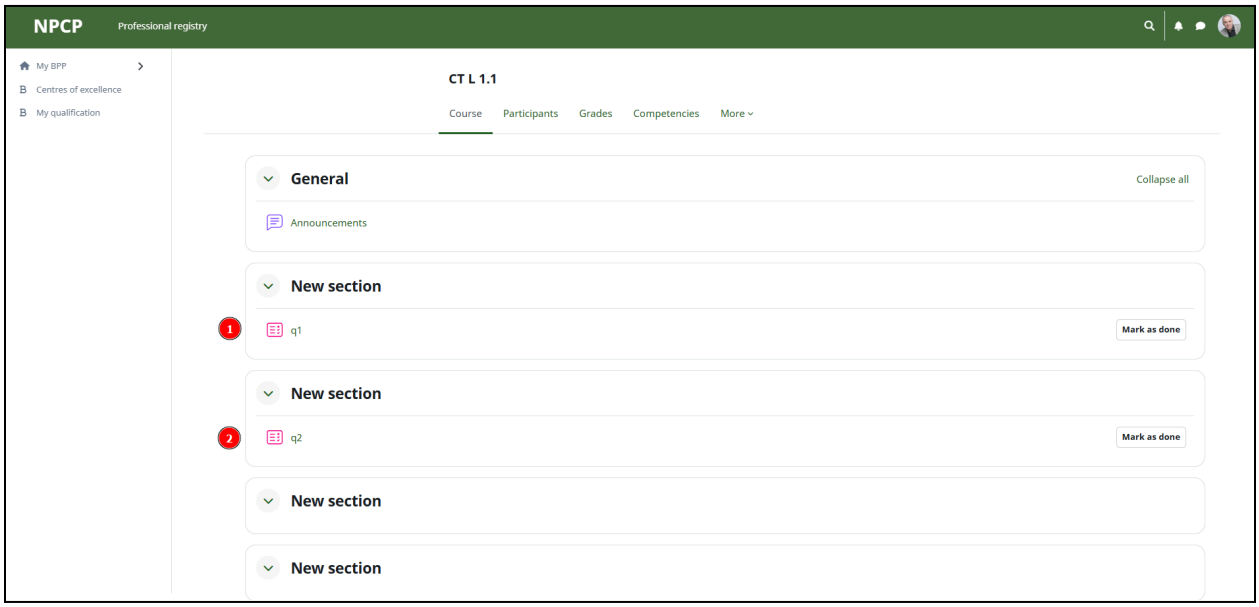
The first tier is always available with the status “Available”, while all subsequent tiers are locked. To unlock the next tier, the previous one must be completed.



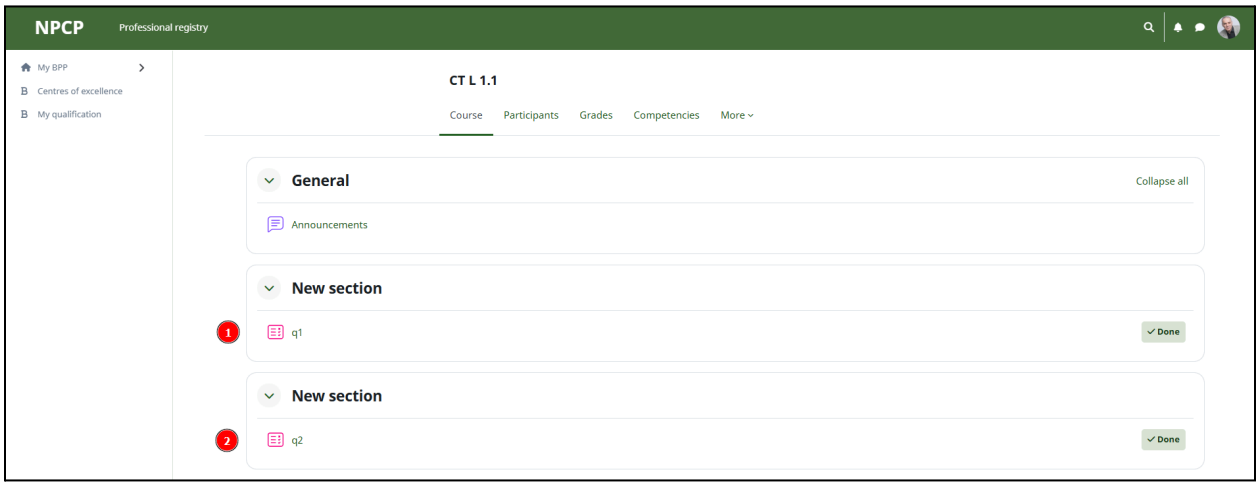
On the button “Category” select the category linked to first tier, and click on first course.



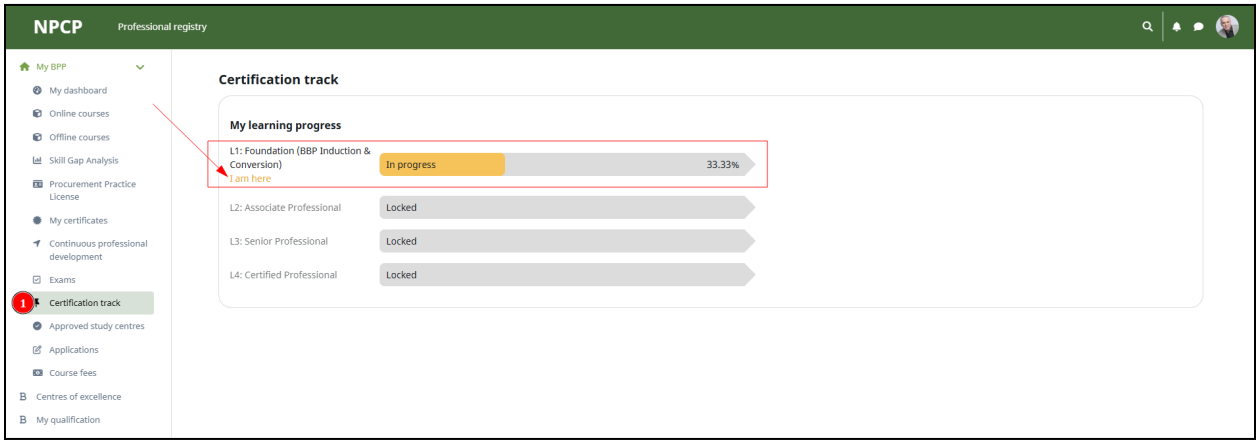
Click on the “Category” button, select the category linked to the first tier, and then click on the first course.



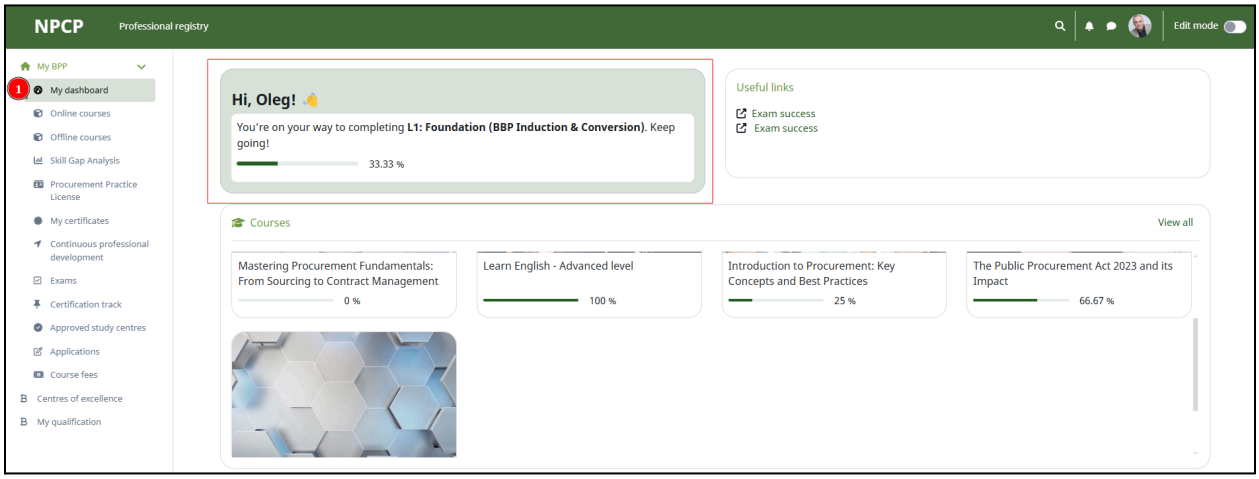
The current course includes two tasks that need to be completed. Fulfill each task according to the provided descriptions.



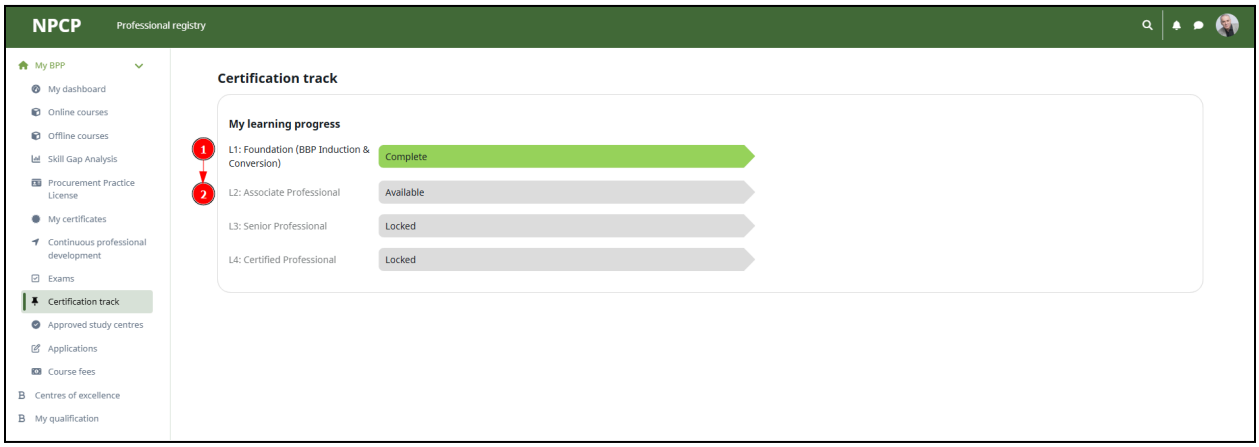
View the “Certification Track” menu to check your current progress. The label “I am here” marks the member's current tier.



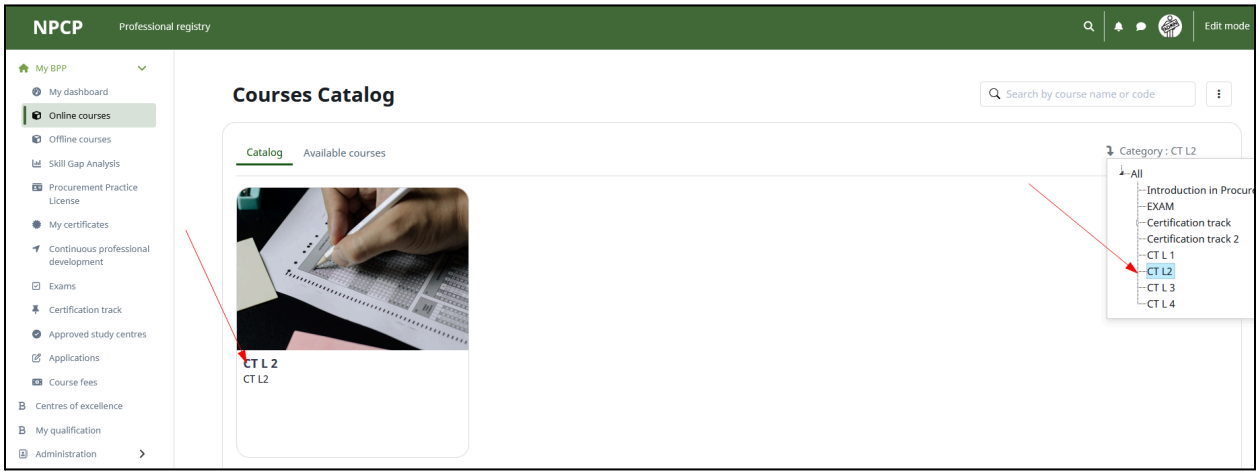
Members can also track their progress on their dashboard, within the **“Welcome”** block.

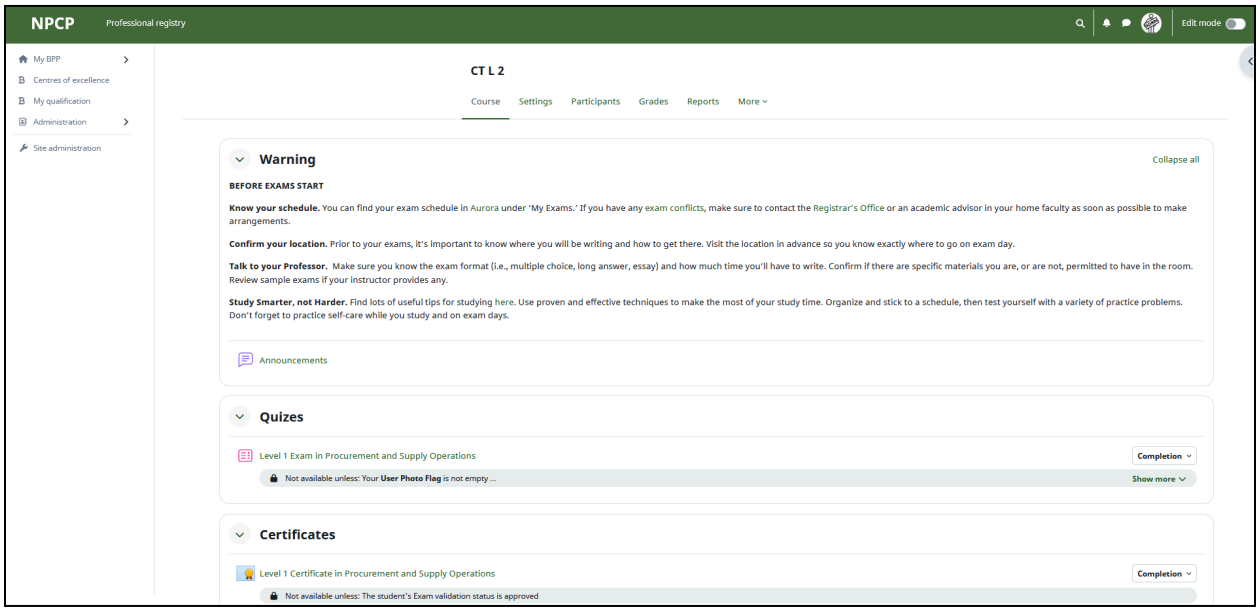


Once the courses from the first tier, “L1: Foundation (BBP Induction & Conversion)” are completed, the status changes to “Complete,” and the progress bar turns green. The status of the next tier, “L2: Associate Professional,” then updates to “Available.”

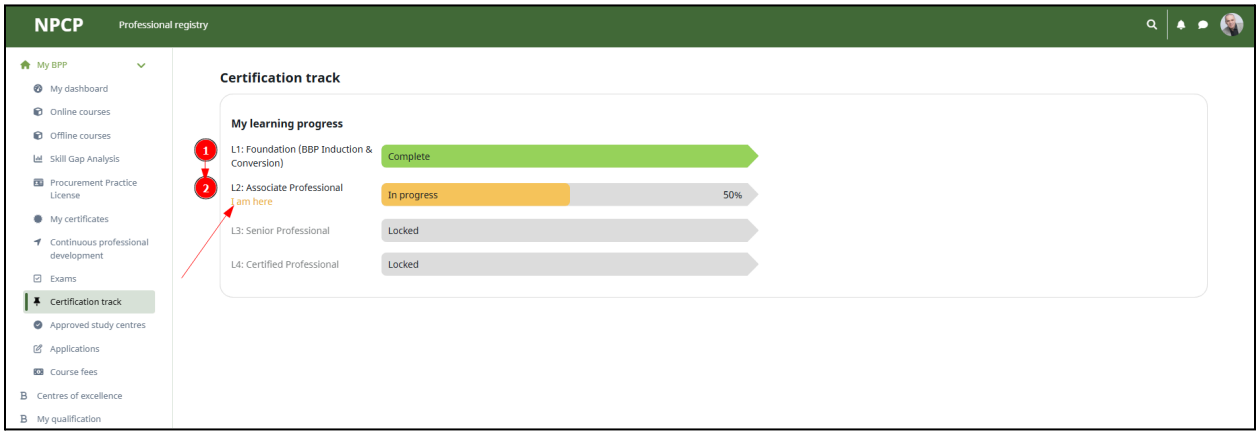


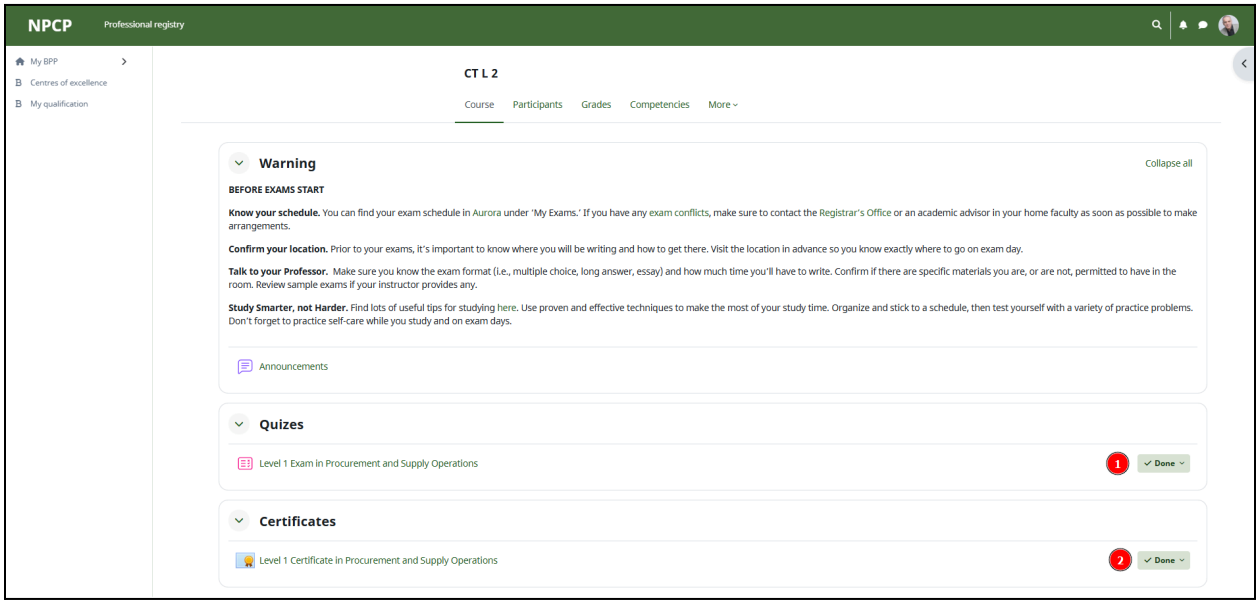
On the button “Category” select the next category linked to second tier, and click on first course.



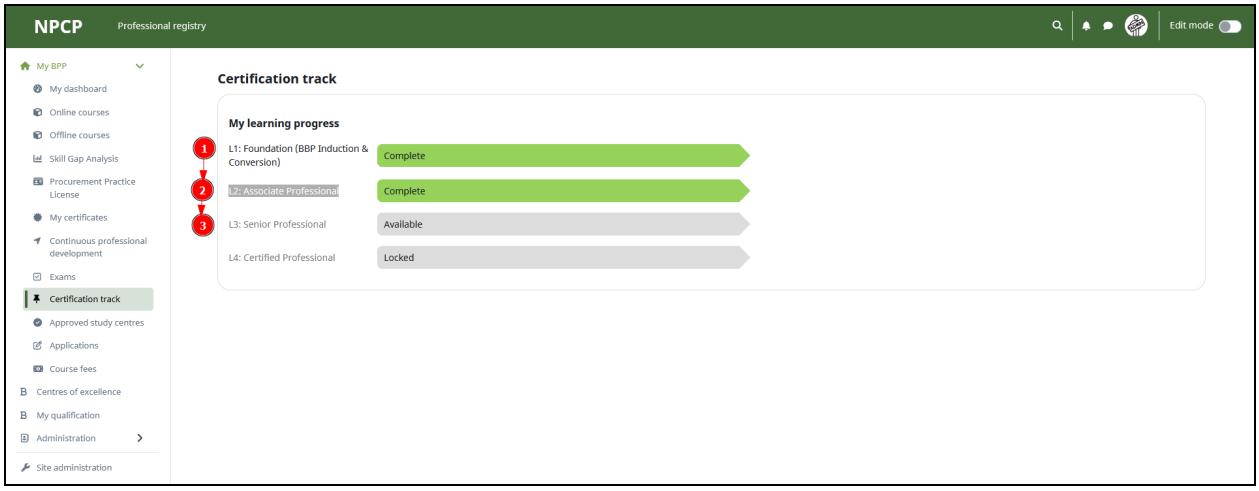


The current course includes two tasks that need to be completed. Fulfill each task according to the provided descriptions.

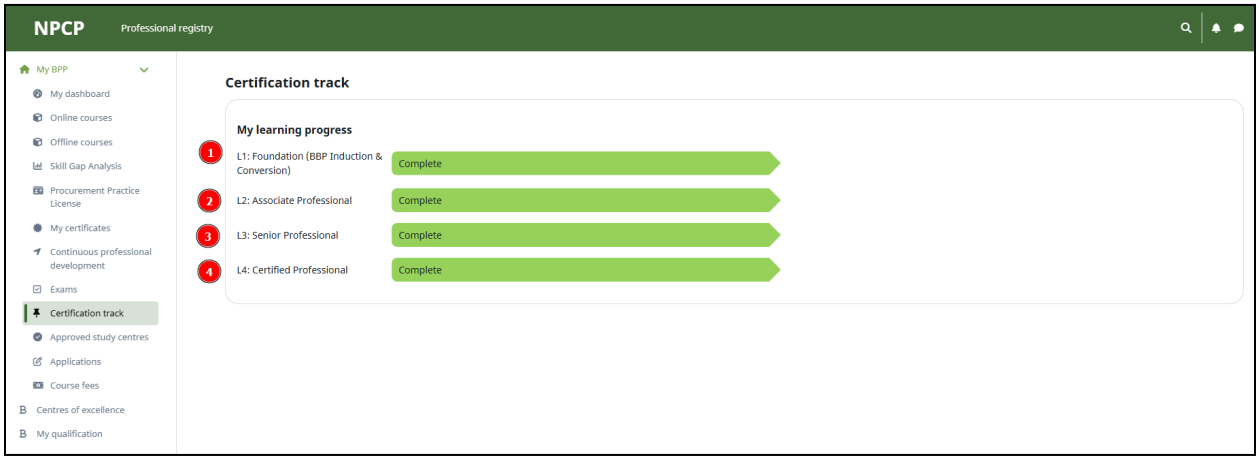




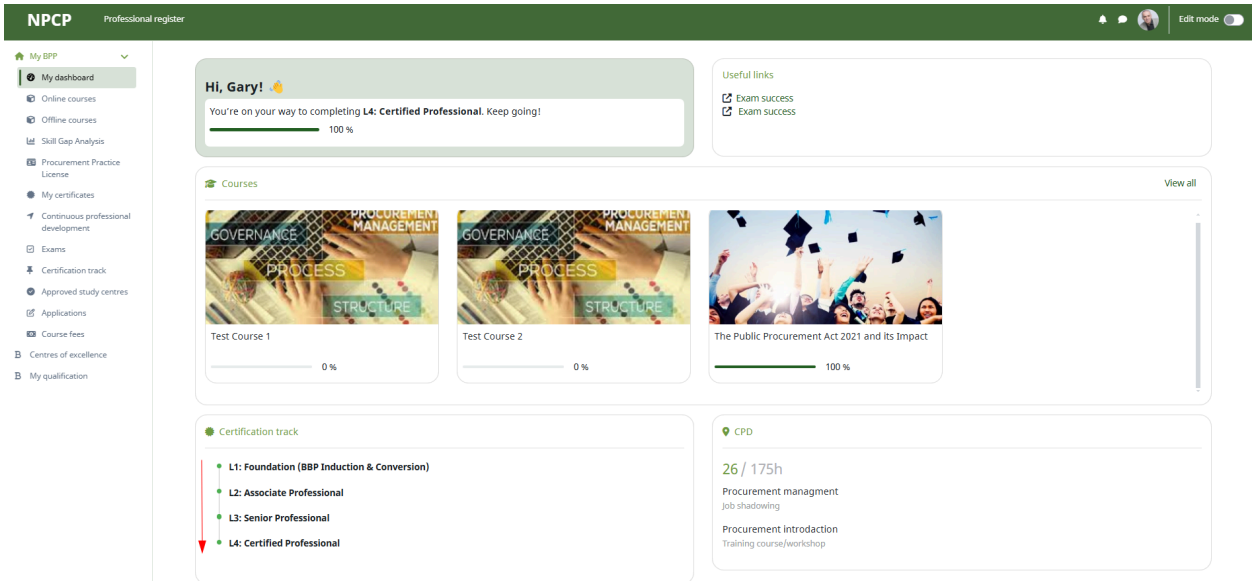
Once the courses from the second tier, “L2: Associate Professional” are completed, the status changes to “Complete,” and the progress bar turns green. The status of the next tier, “L3: Senior Professional” then updates to “Available.”



When all tiers are completed, their statuses change to “Complete,” and the progress bars turn green.

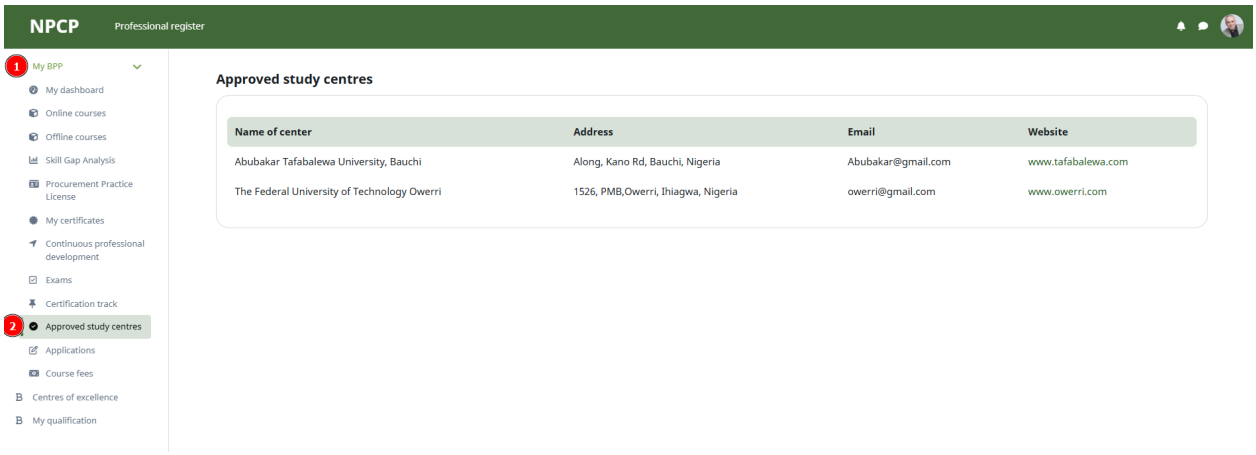


Members can also track their progress on their dashboard, within the "Certification track" block.

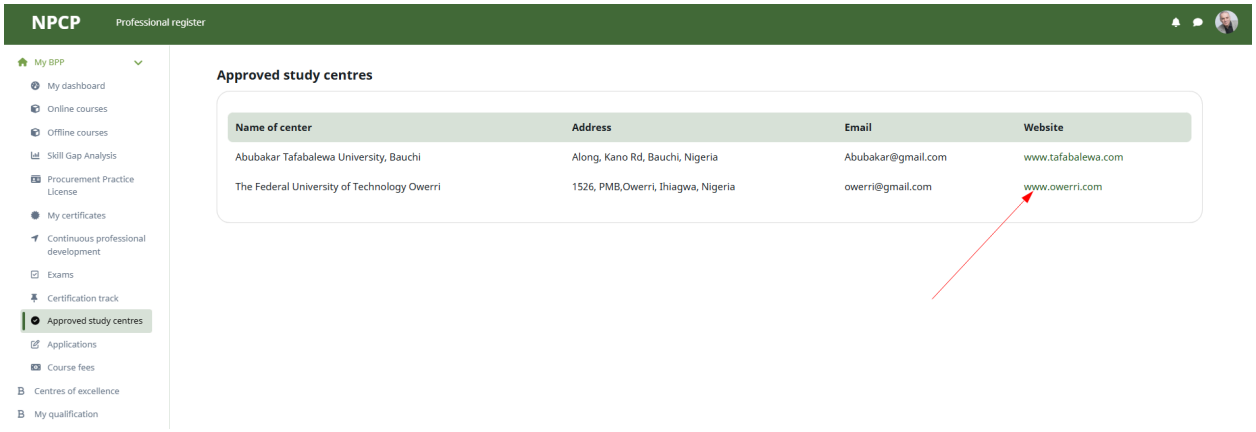


7.1.11 MENU "APPROVED STUDY CENTRES"

"Approved study centers" display a list of companies that meet certain standards and will be approved, and assessed to be competent to give lectures and where users are able to study. SIS should provide a brief description of the study center, contacts, and a link to the official website.

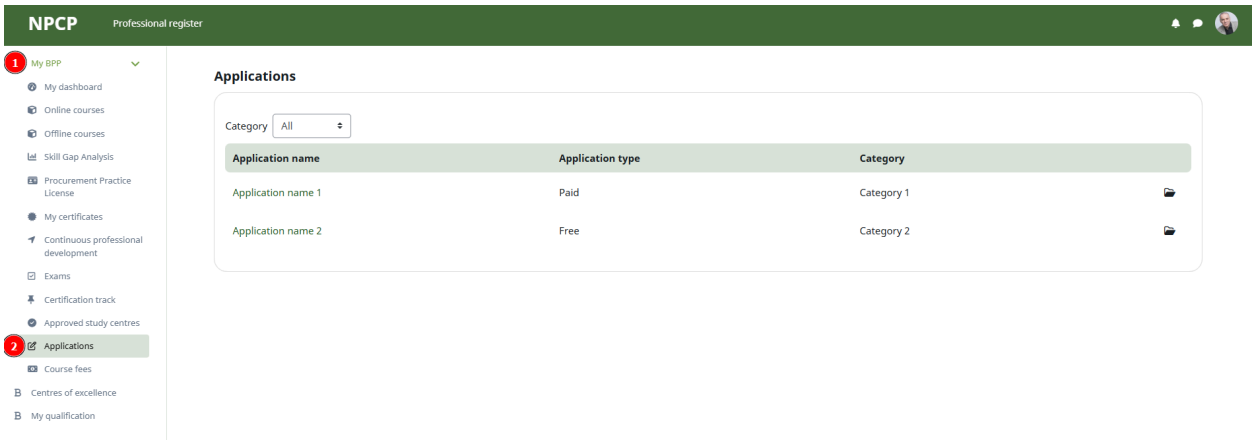


Click on the website to link to the site of the approved center.



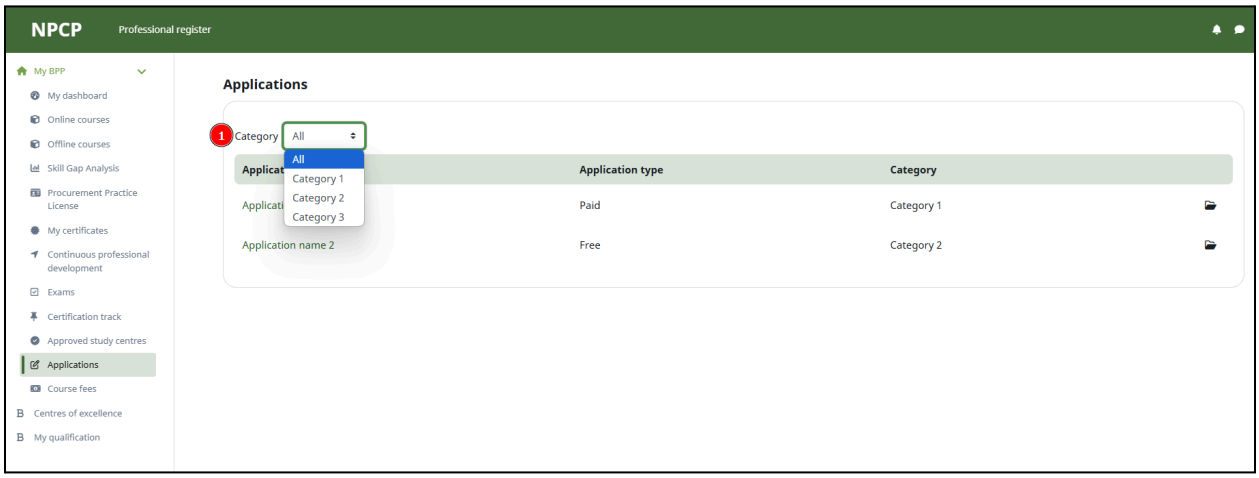
7.1.12 MENU “APPLICATIONS”

The "Applications" module provides members with detailed information about the types of applications they can submit outside the system. This module is purely informational and does not offer functionality for submitting applications, tracking their status, or similar features.

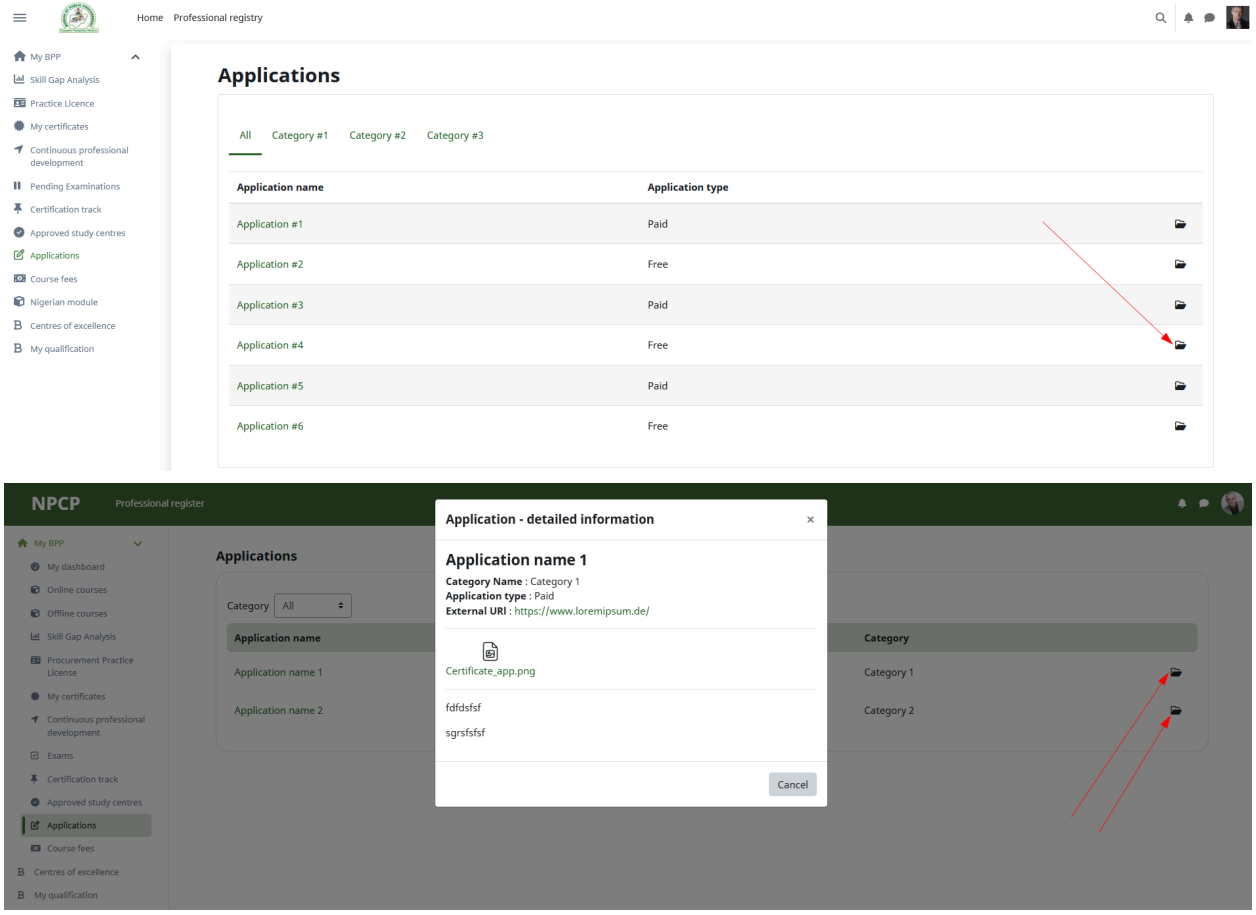


7.1.12.1 VIEW APPLICATIONS BY AUTHORIZED USER – MEMBER

The SIS system allows authorized users – member to view the list of applications. Click on the menu “BPP” -> “Applications”. Select all applications or required categories.

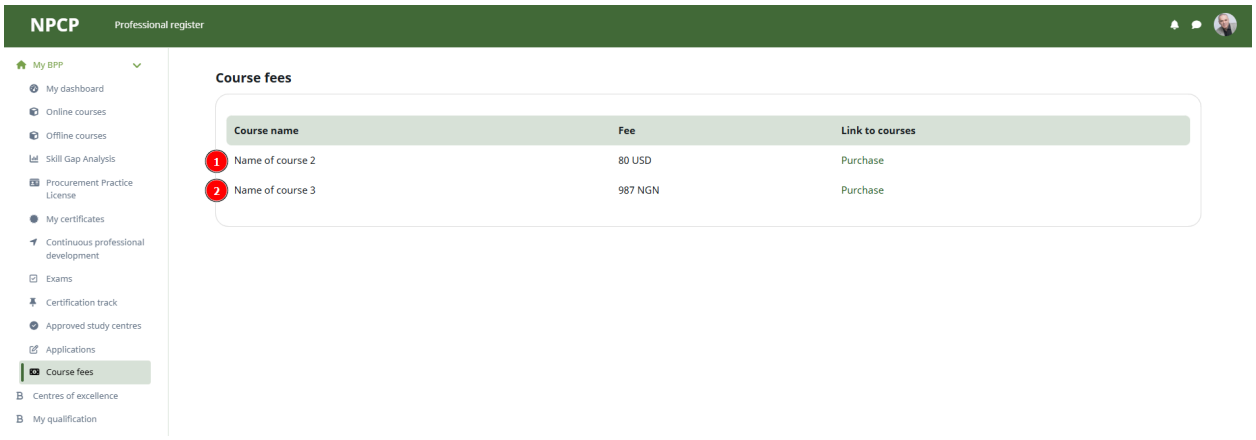


Click on the button “View” to see the card of the application.

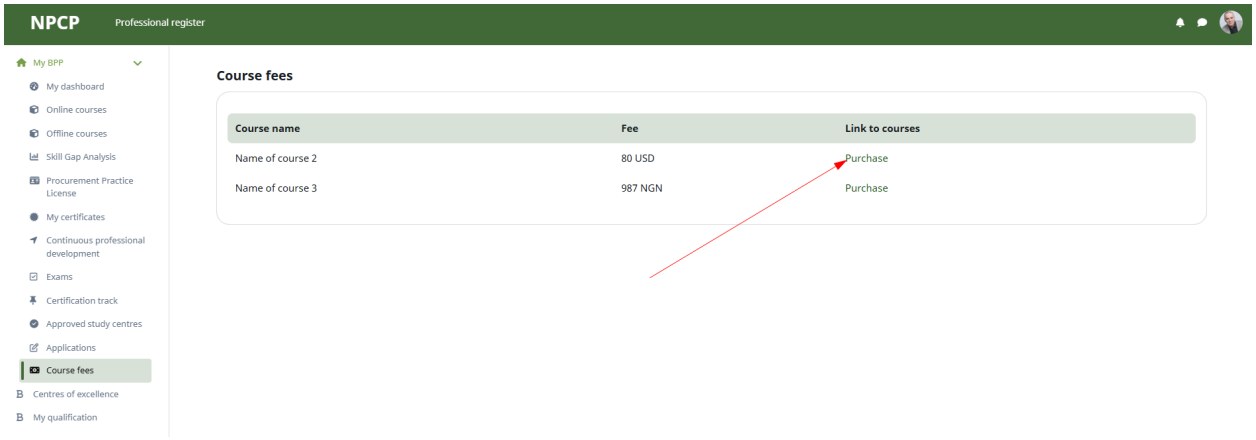


7.1.13 MENU “COURSE FEE”

The "Course Fees" module is designed to display a list of study centers, program names, and fees. Each record might include a link to the service provider's payment page where it is possible to purchase the program course.
Click on the menu “BPP” -> “Courses fee” to see the list of records.

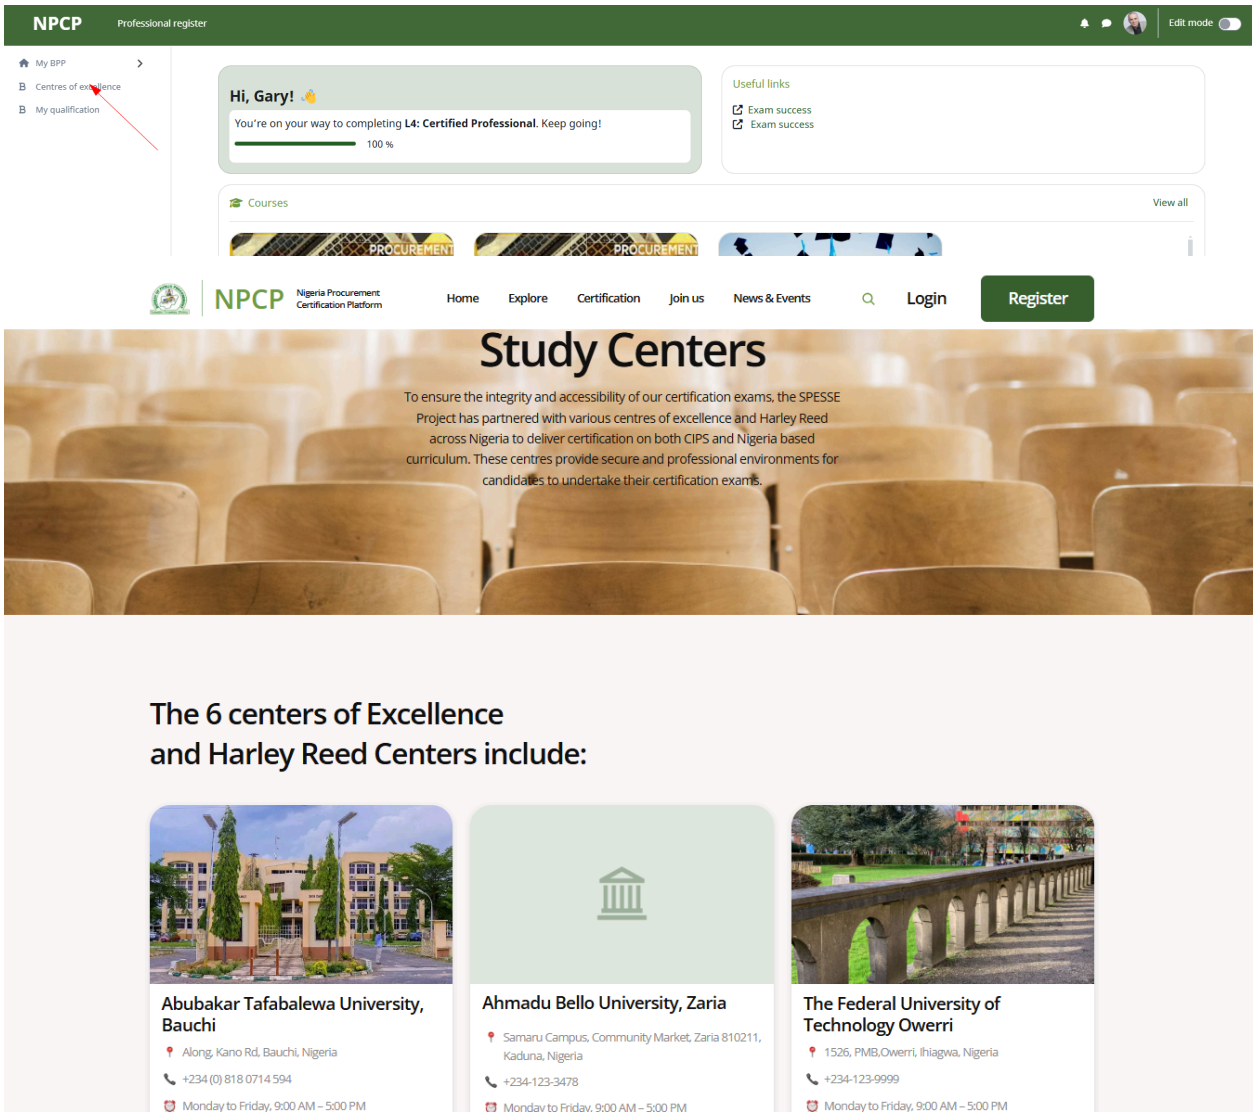


Click on the link “Purchase” to visit the web page of the course.



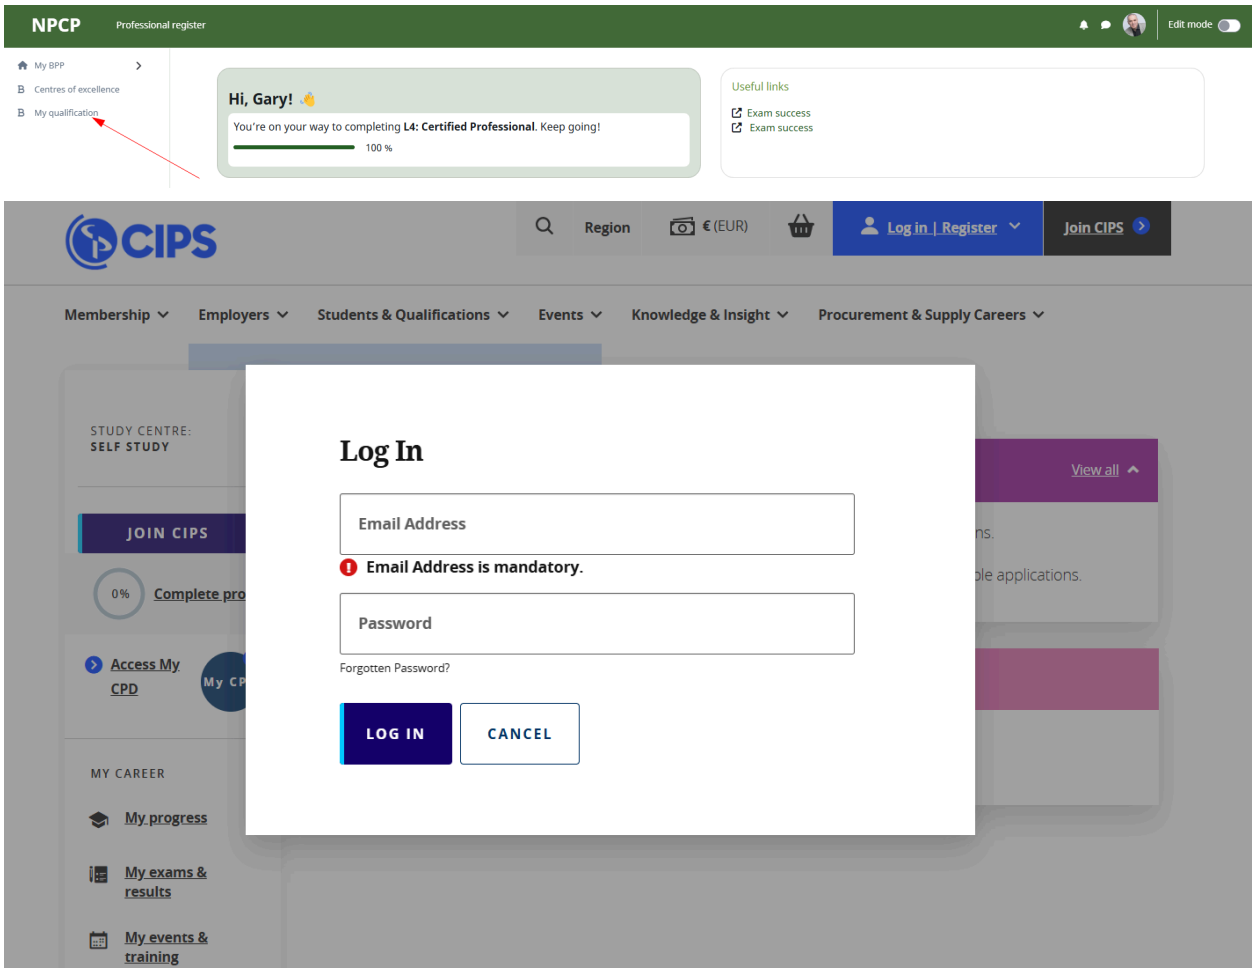
7.1.14 MENU “CENTERS OF EXCELLENCE”

This page is designed to display a list of study centers that have not yet been accredited but meet the requirements. However, students must be able to see these potential partner universities, including links to their home pages.
Click the menu “Centers of Excellence” and visit the web page with centers “https://ng-wp-dev.devsoftengi.space/category/study_centers/”



7.1.15 MENU “MY QUALIFICATION”

My Qualification" is a link that redirects the user to the CIPS dashboard using single sign-on. Click on the menu “My Qualification” and log in on the website CIPS https://www.cips.org/profile.



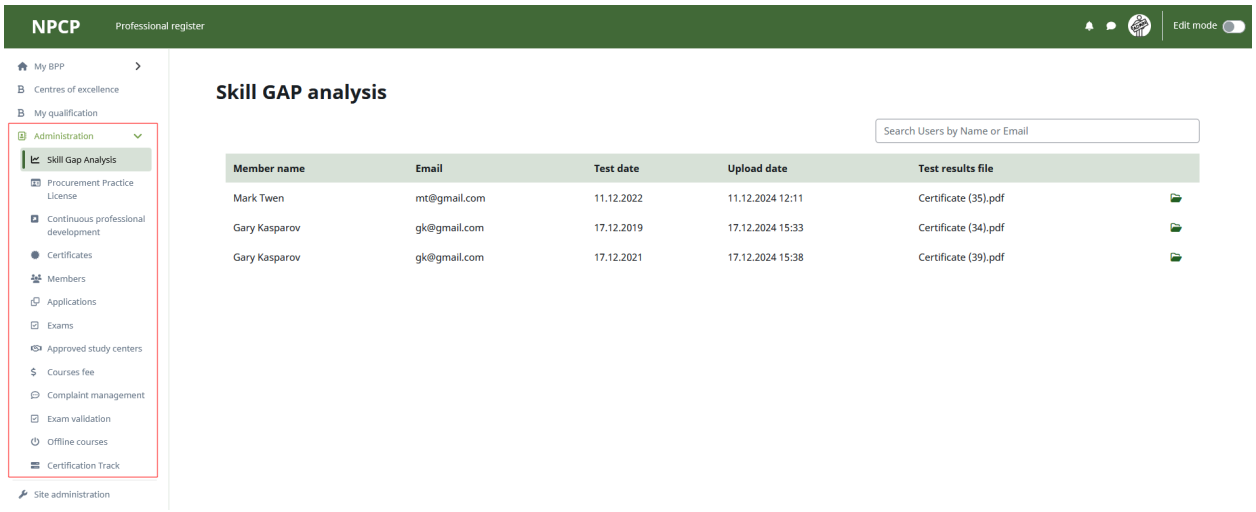
7.2 MENU FOR SITE ADMINISTRATOR

The navigating menu for site-admin include:

- My Dashboard
- Skill GAP Analysis
- Procurement Practice License
- Continued professional development
- Certificates
- Members
- Applications

- Exams
- Approved study centers
- Courses fee
- Complaint management
- Exam validation
- Offline courses
- Certification Track

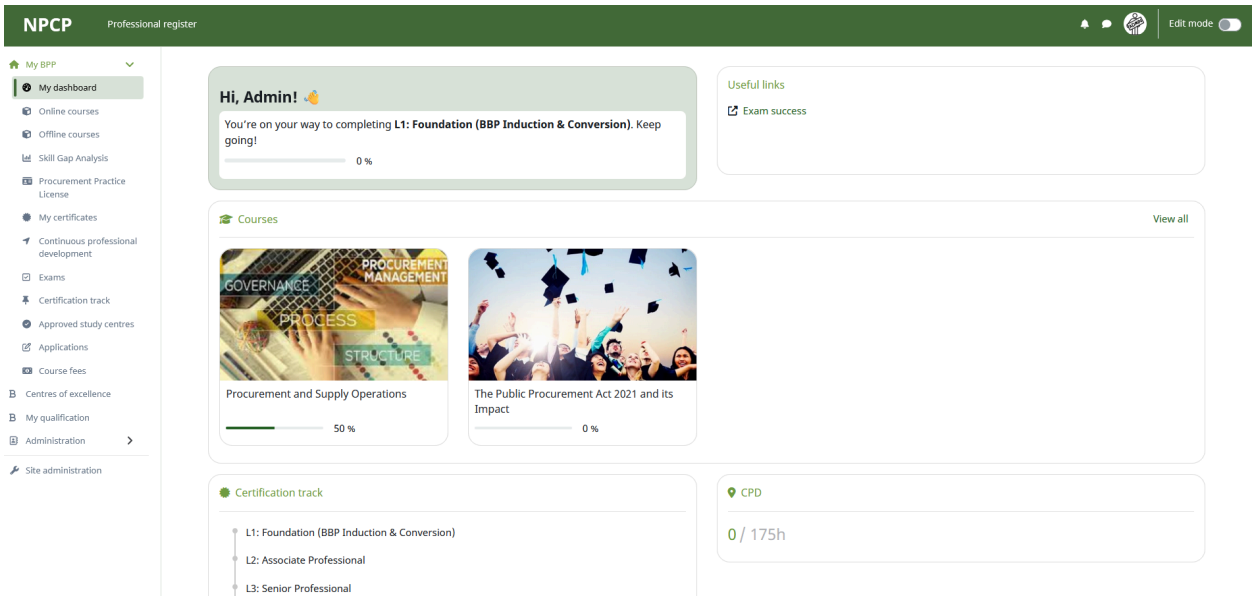
Administrative part menu.



7.2.1 MENU “MY DASHBOARD”

The "My Dashboard" menu enables site-admin users to customize their dashboard for convenient use. This functionality allows users to add new blocks, move them, configure settings, hide them, or delete blocks.

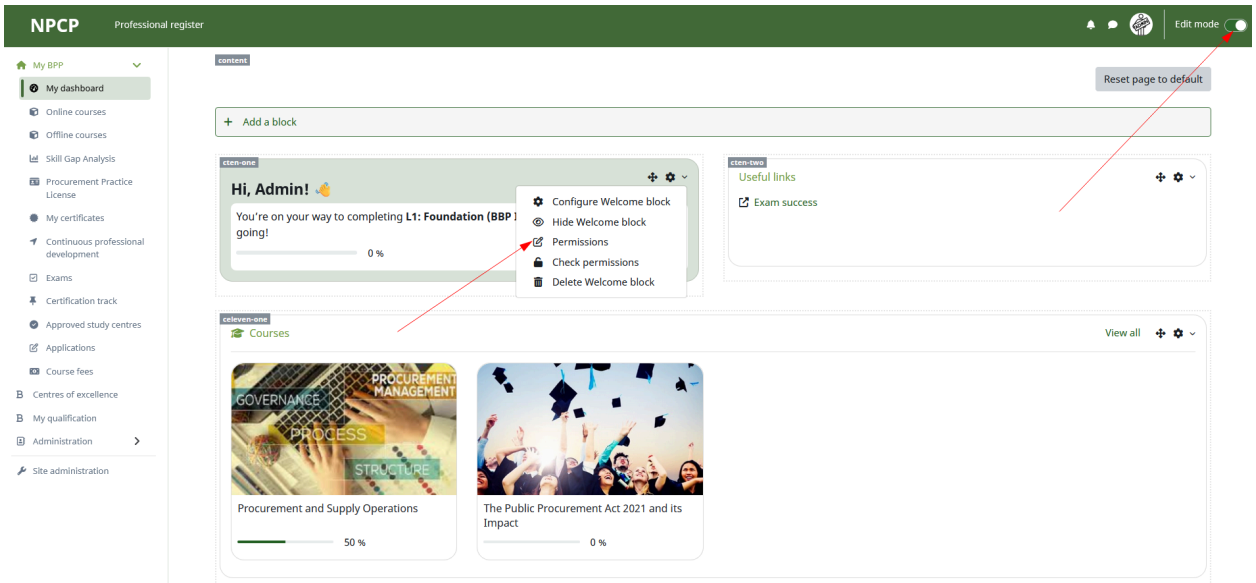
It functions the same way as it does for authorized users. Refer to chapter MENU “MY DASHBOARD”



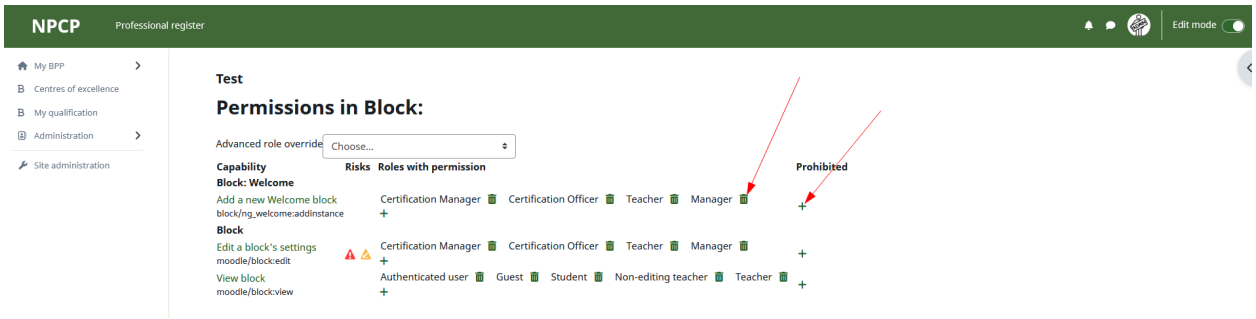
7.2.1.1 HOW TO SET PERMISSION FOR DASHBOARD BY SITE-ADMIN

As an advanced feature, the site admin has the ability to configure permissions for dashboard blocks.

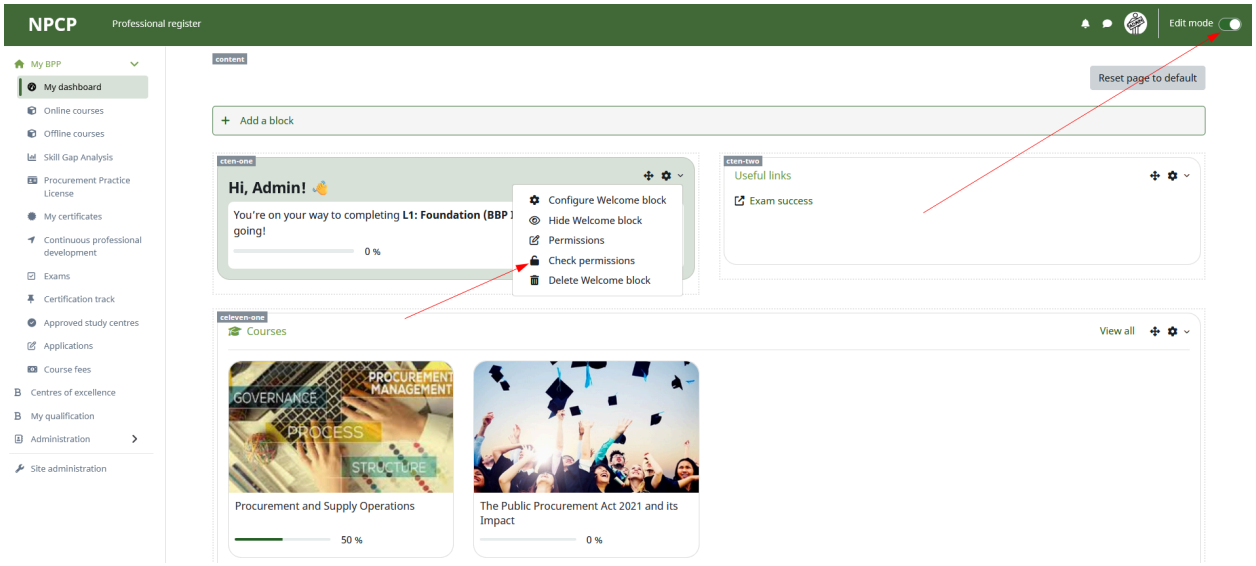
Switch the toggle “Edit mode” - YES, and click the button “Permission”



then click the “Permission” button and assign or unassign the required role.

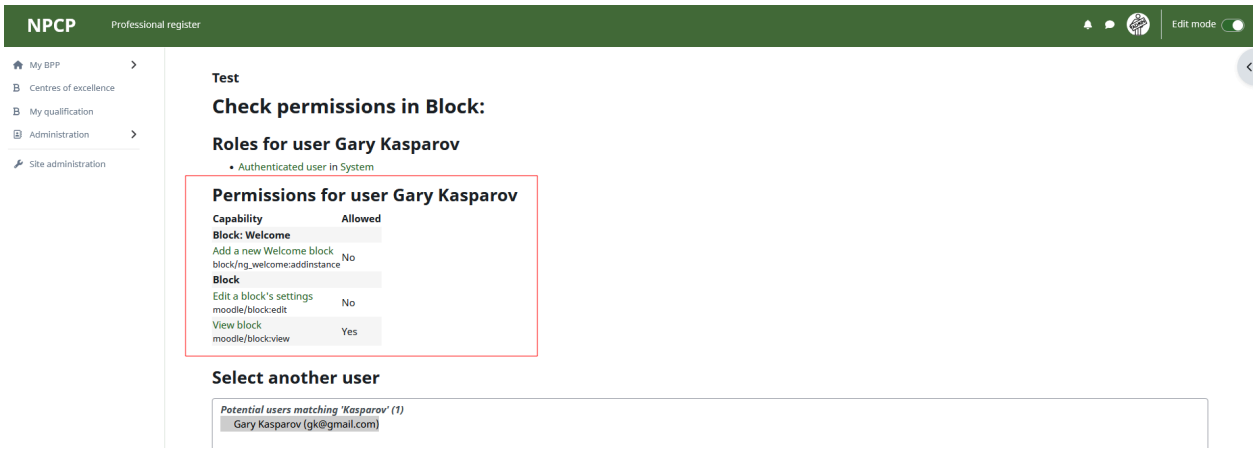


Switch the toggle “Edit mode” - YES, and click the button “Check Permission”

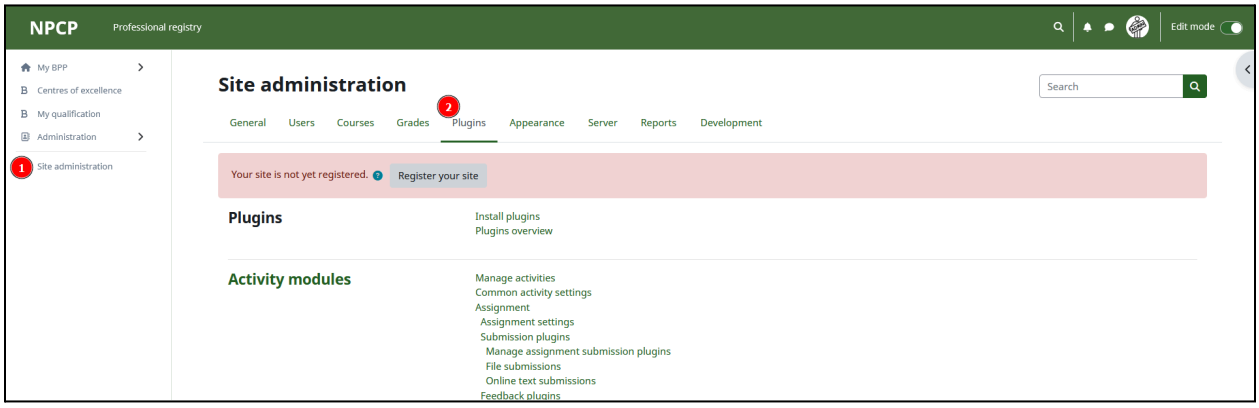


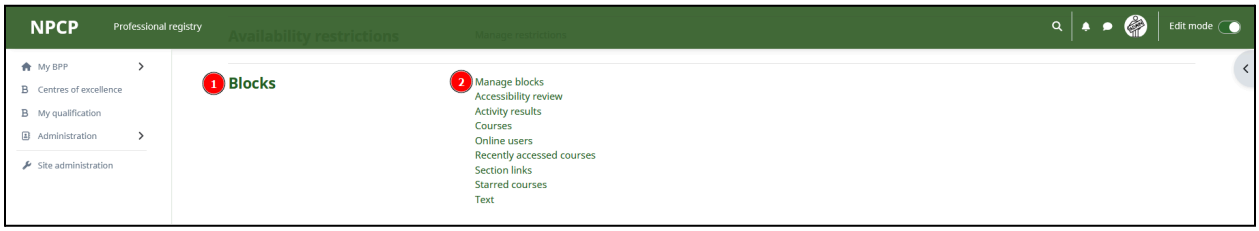
Find the required user and click the button “Show the use`s permissions”

Check the user`s permission

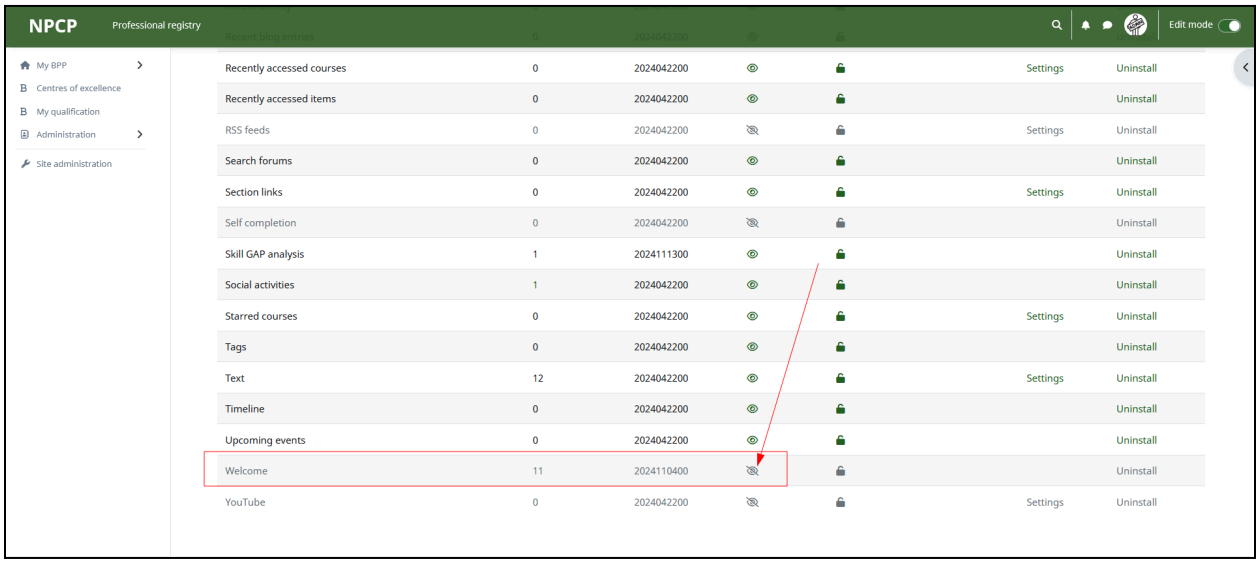


The system allows site-admin users to hide blocks from the list “+Add a block”.
Click on the menu “Site administration” -> “Plugins” -> “Block” -> “Manage block”





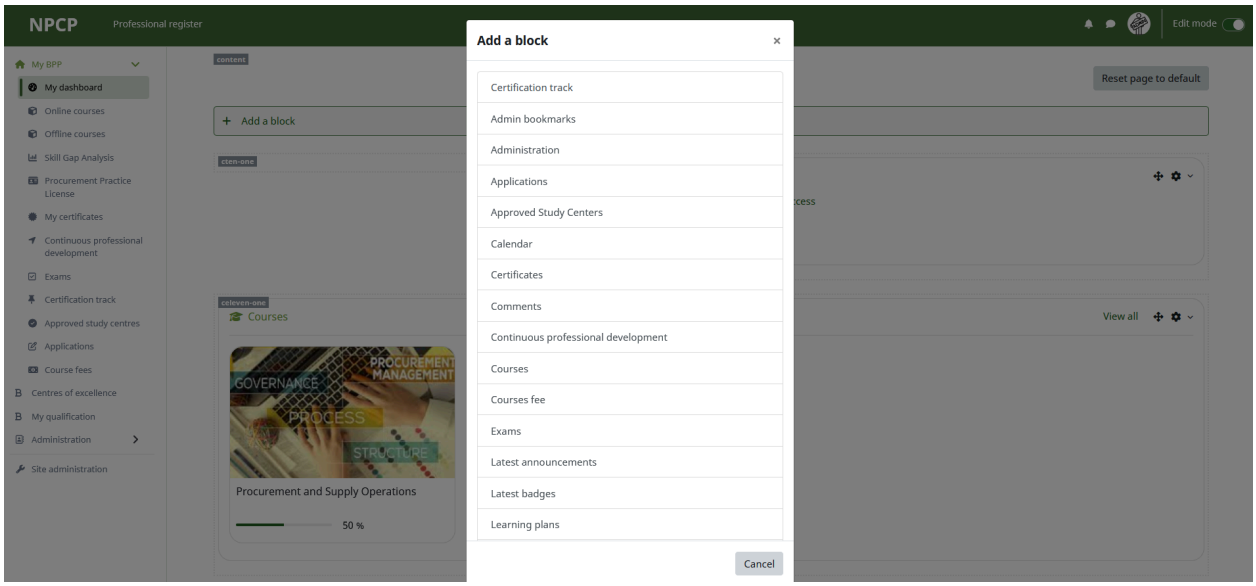
Select required block - f.x. “Welcome” and click the button “Hide” (eye)



***Note**: Blocks set to show will not be listed in the 'Add a block' menu in a course if they are specified in the theme setting 'Unneeded blocks'.*

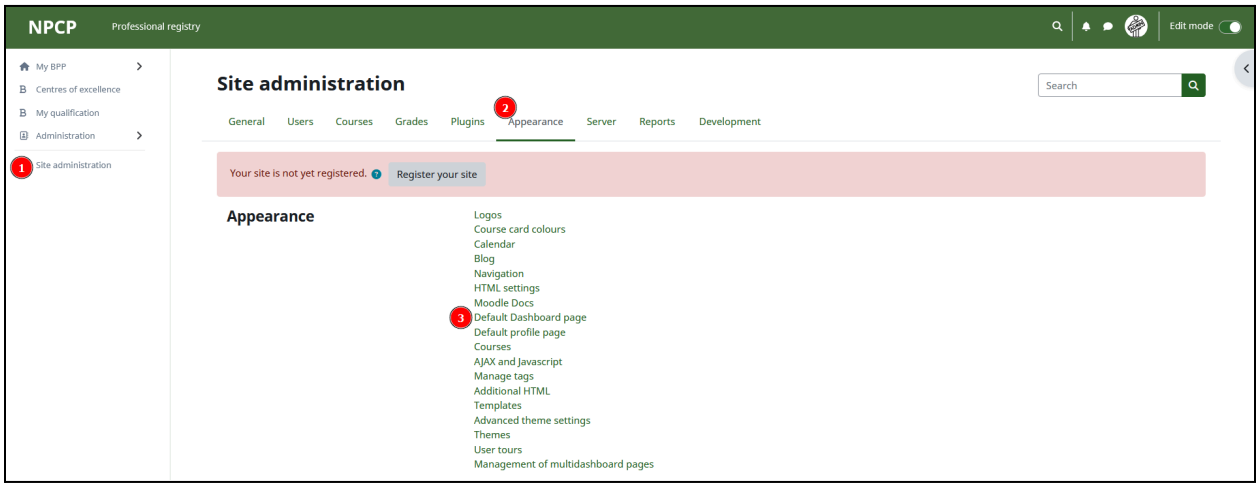
Click on the menu “My Dashboard” -> “Edit Mode” -> “+Add a Block.”

The "Welcome" block is not available in the list.

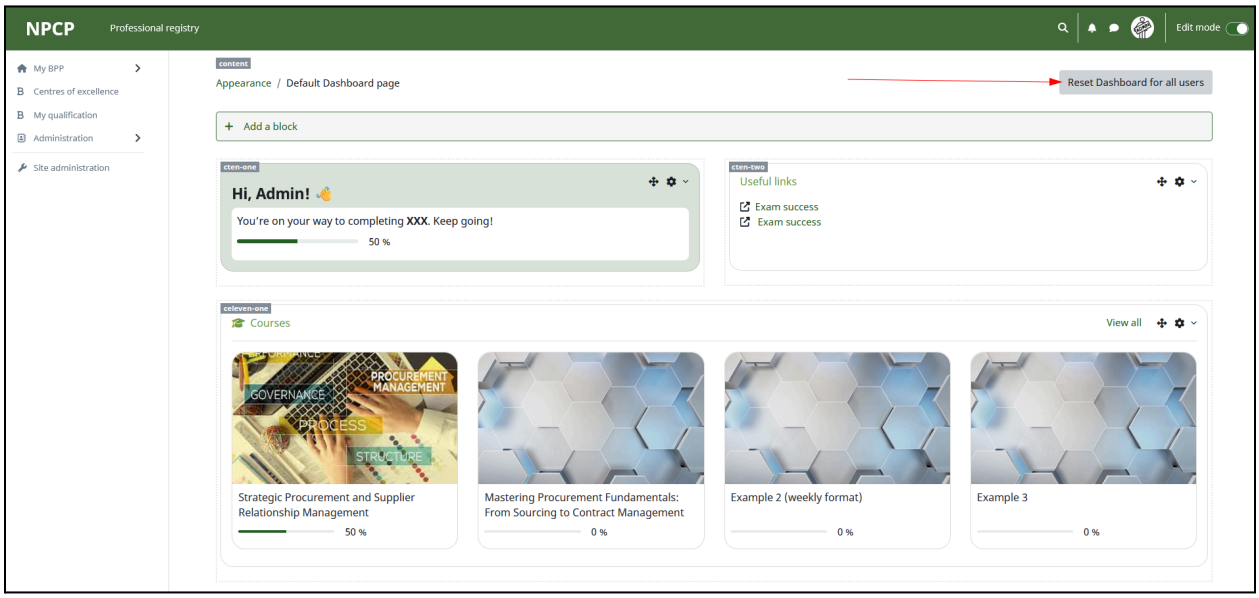


The system allows to resetting the dashboard for all users in the system.

Click the menu “Site administration” -> “Appearance” -> “Default Dashboard page”



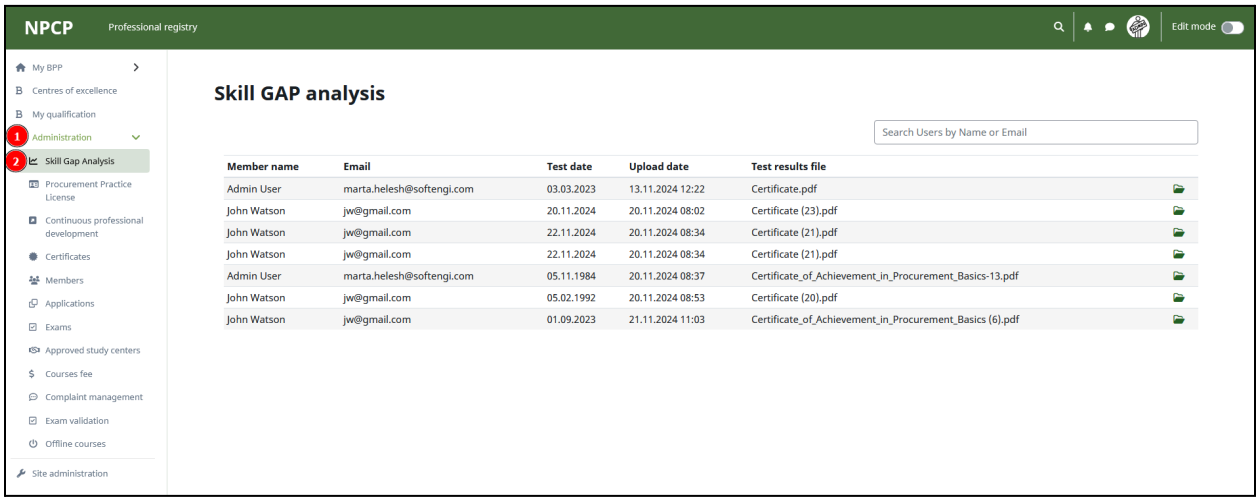
Click the “Reset Dashboard for All Users” button to set the default dashboard for all users in the system.



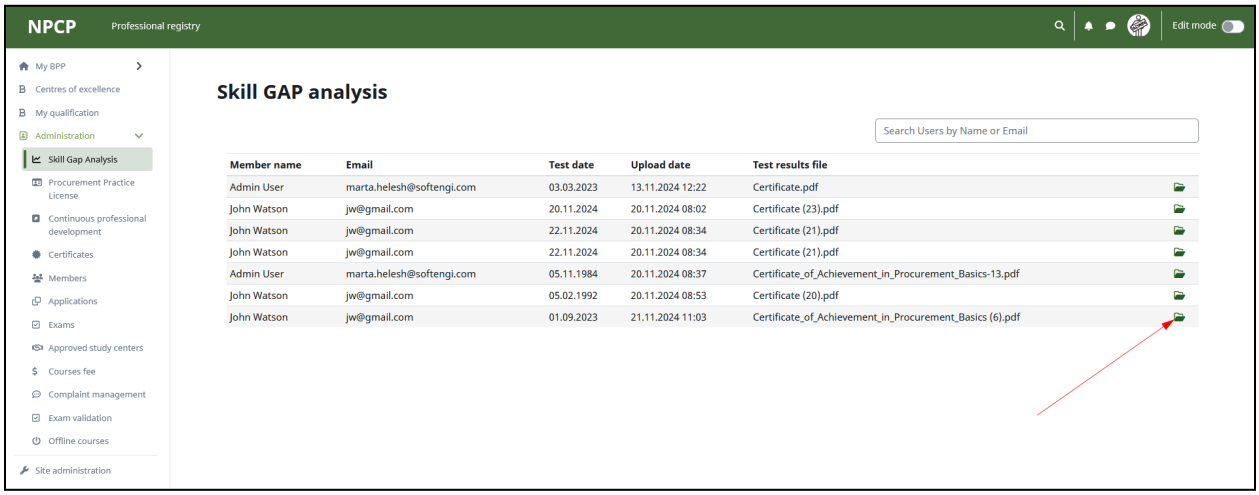
7.2.2. MENU “SKILL GAP ANALYSIS”

The "Skill GAP Analysis" menu allows the site-admin to view records of certifications that users have already completed and added to register. The register includes information about the member's name, email, test date, upload date, result file, and an option to view the certificate.

To access this, click on the menu “Administration” -> “Skill GAP Analysis.”

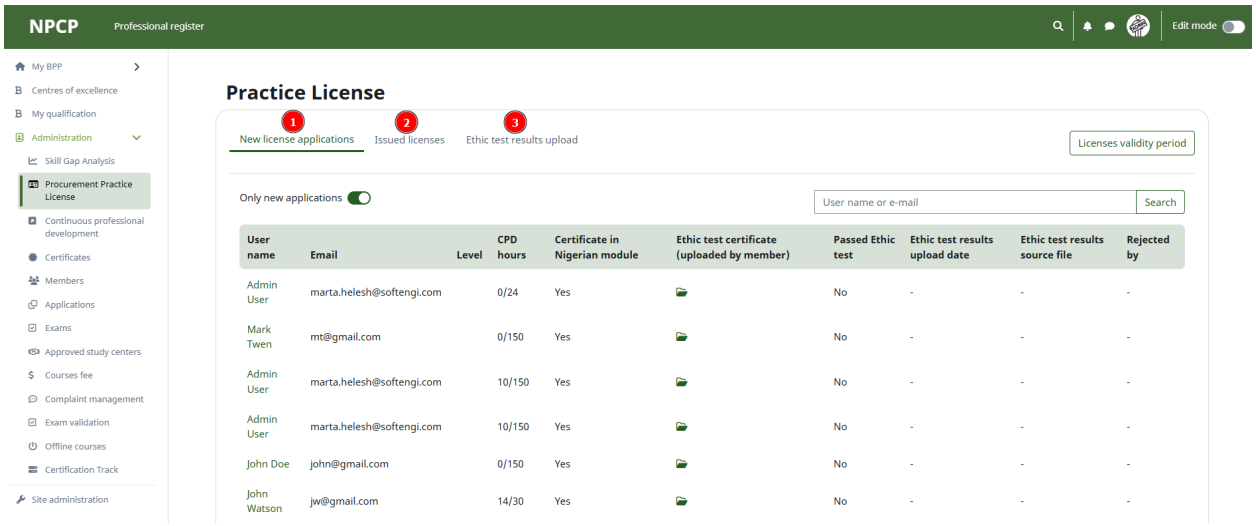


Click on the "View" button to view the certificate.



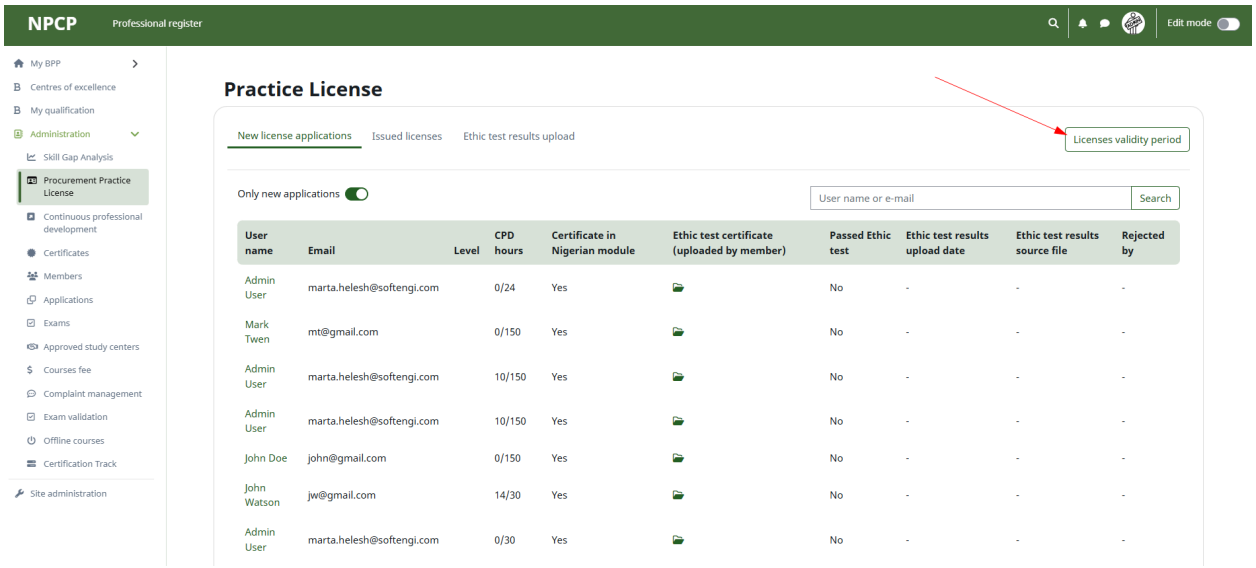
7.2.3. MENU “PROCUREMENT PRACTICE LICENSE”

A practice license confirms the candidate is approved to practice procurement for some period. Candidates must obtain this license using CIPS. The Bureau of Public Procurement (https://www.bpp.gov.ng/) acts as the issuer of the license.
The system allows site-admin to view the list of “New license application”, “Issued license”, “Ethic test results upload”
Click on the menu “Administration” -> “Procurement practical license”

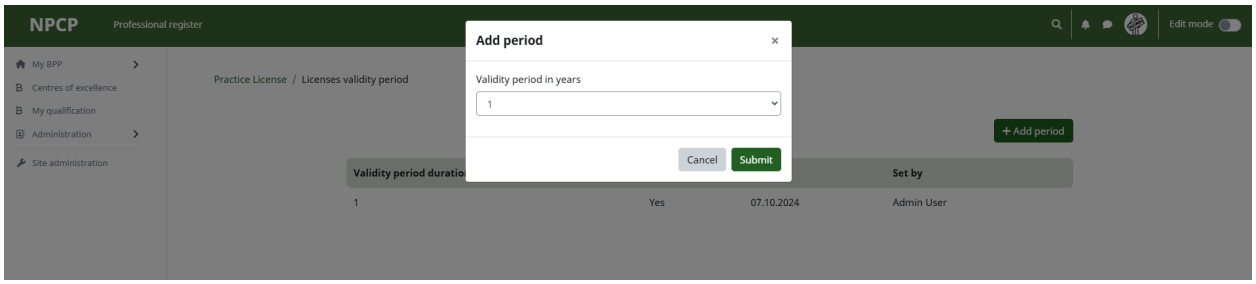


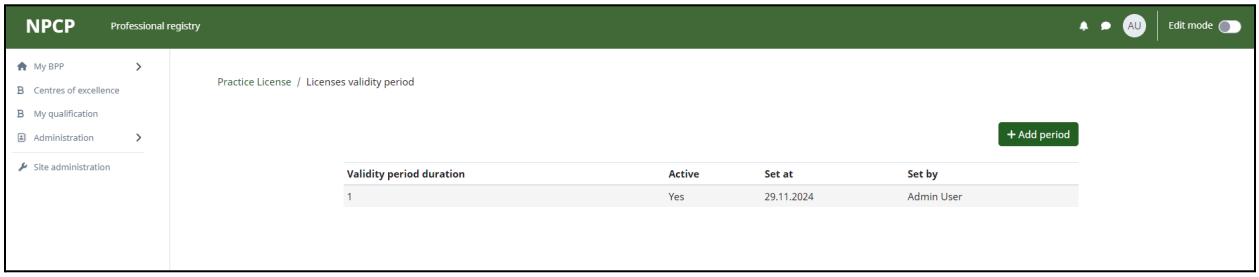
7.2.3.1 HOW TO WORK WITH “NEW LICENSE APPLICATION”

Firse of all required to set up the “Licenses validity period”. Click button “Licenses validity period”

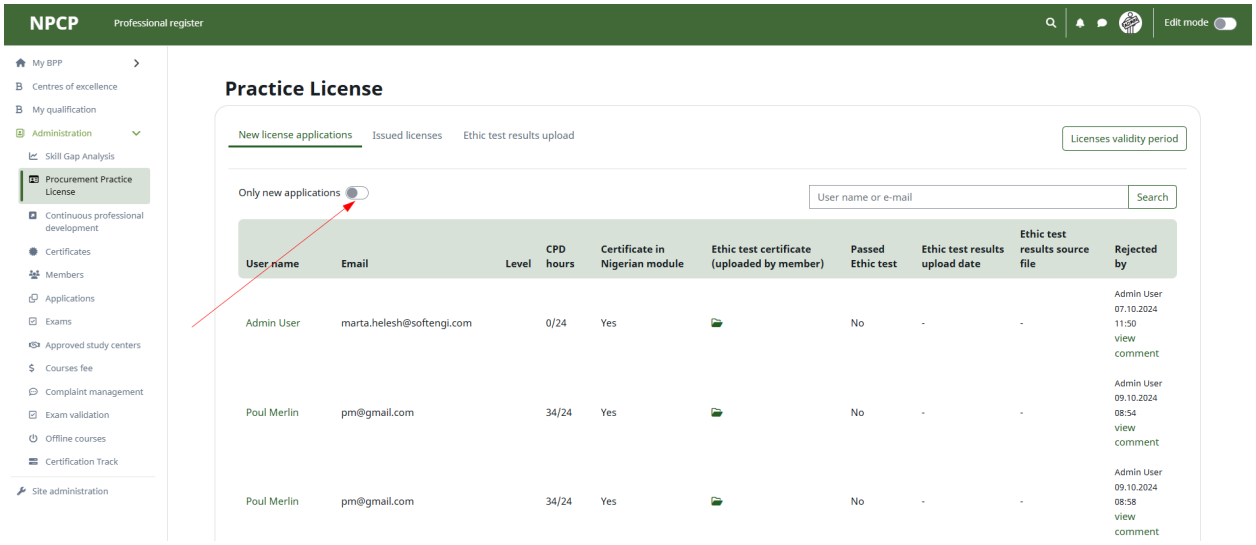


Click “Add period” and select period in years

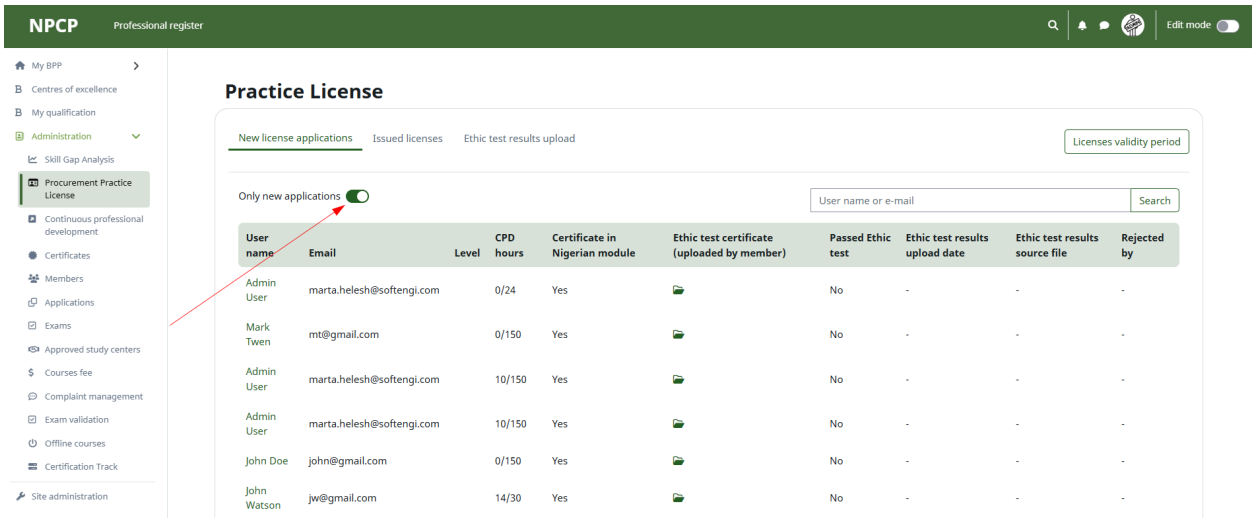




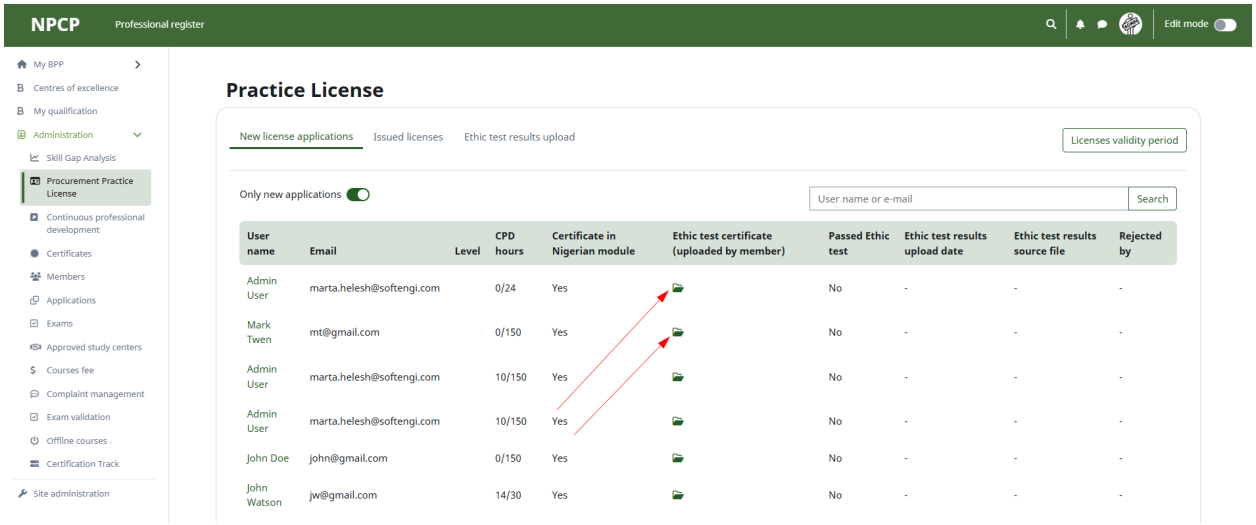
The 'NEW LICENSE APPLICATION' tab contains all applications for review, including those pending.



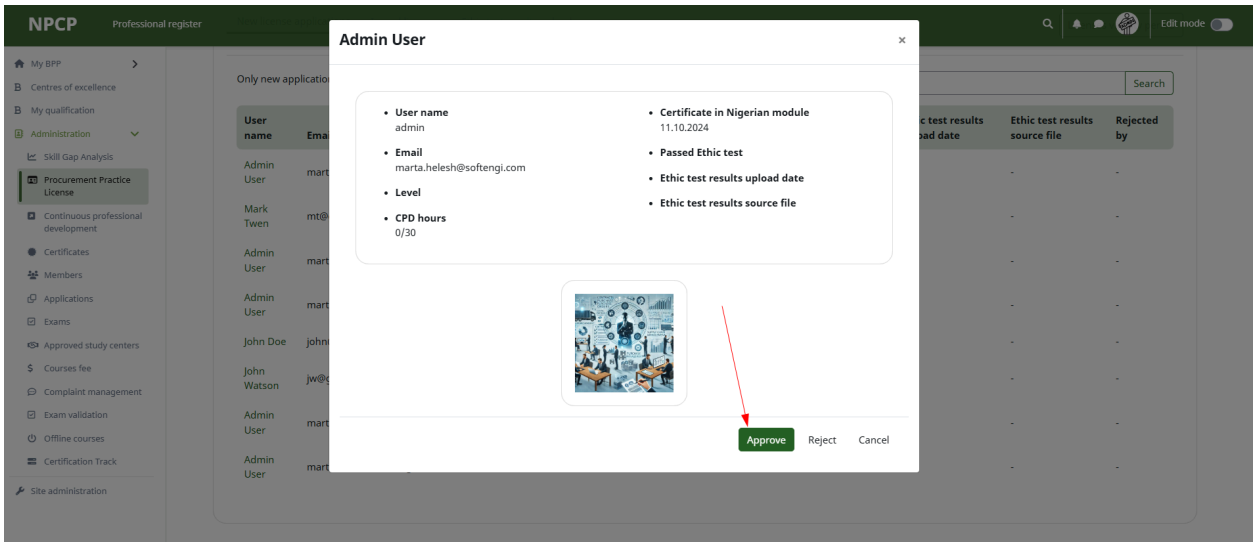
Click on the toggle “ON” to view the pending application.



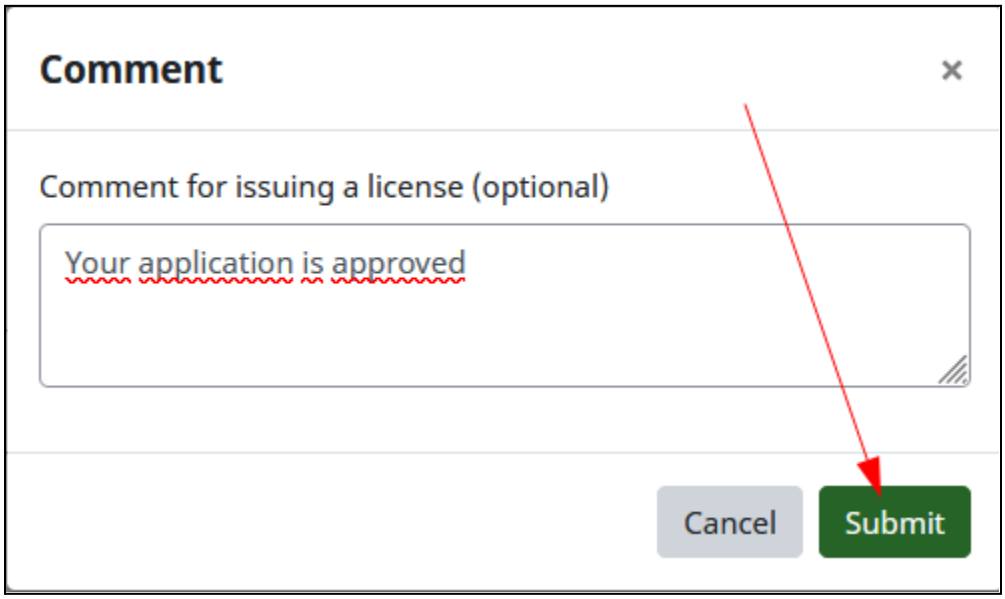
Click on the button “Folder” to “Approve” or “Reject”



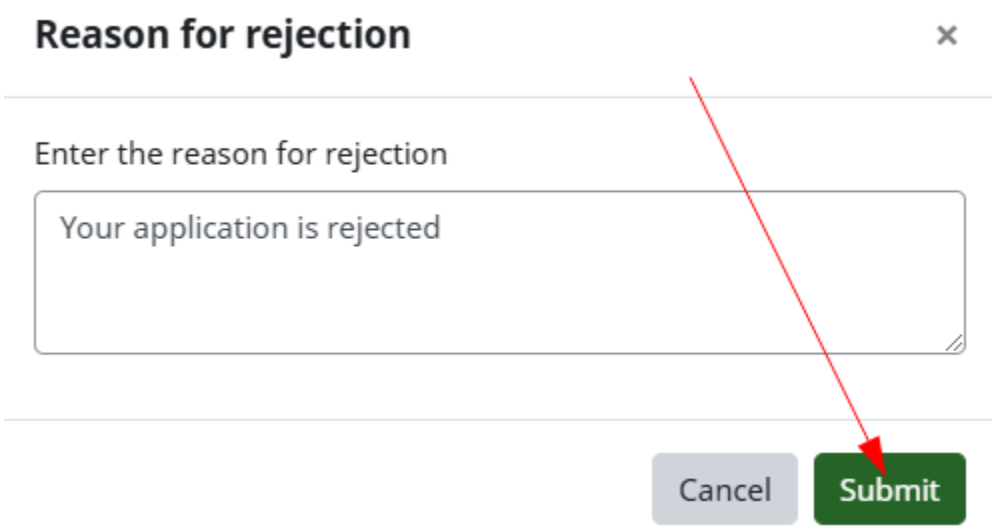
On the form click the button “Approve” to approve a new license application.



Enter the comment and click the button “Submit”

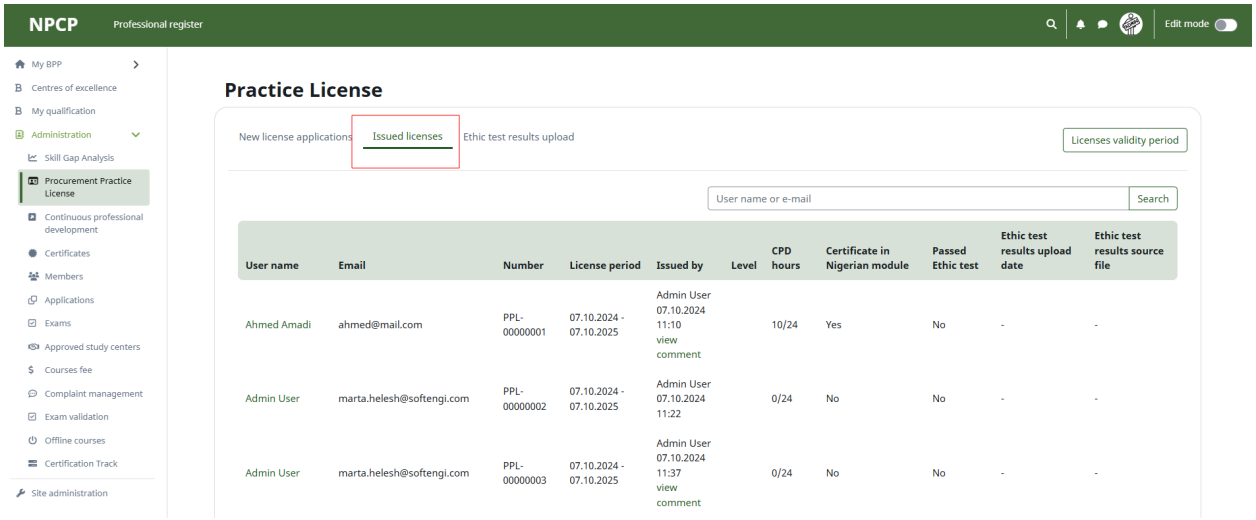


On the form click the button “Reject” to approve a new license application. Enter the reason and click the button “Submit”



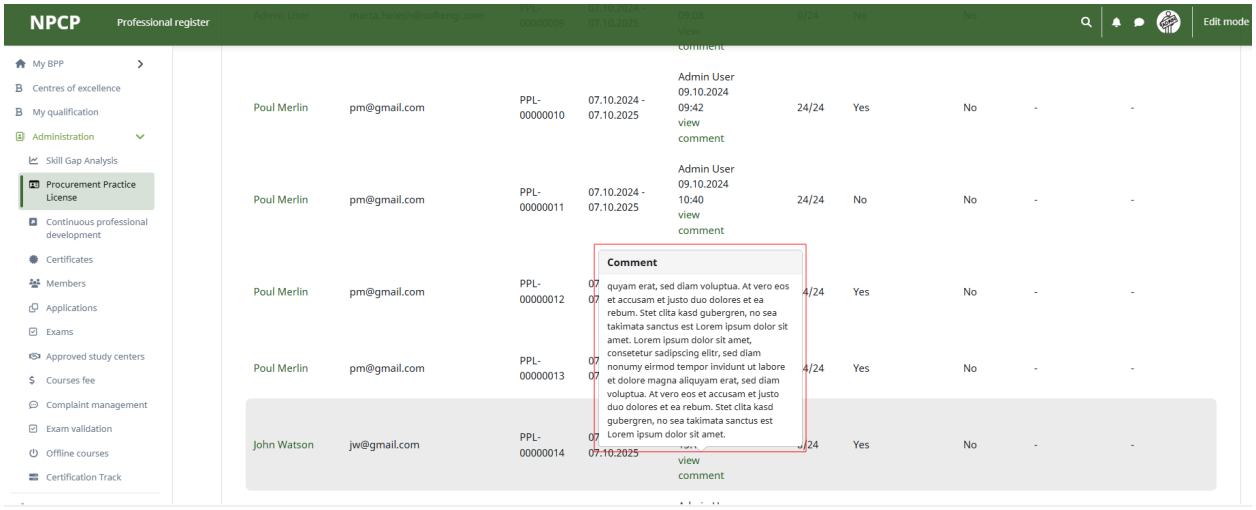
7.2.3.2 HOW TO WORK WITH TAB “ISSUED LICENSE”

The tab “Issued license” contains the list of approved application user names, emails, numbers, license periods, issued by, and other info.

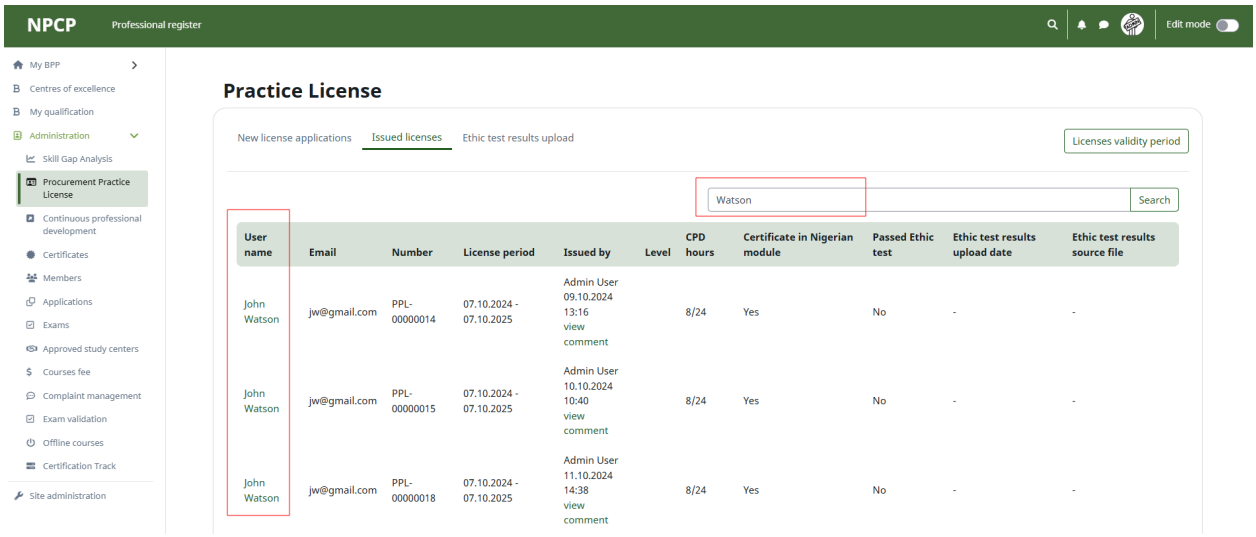


Click on the name to display the card of the member.

Click on the button “View comment” to see the comment about the application.

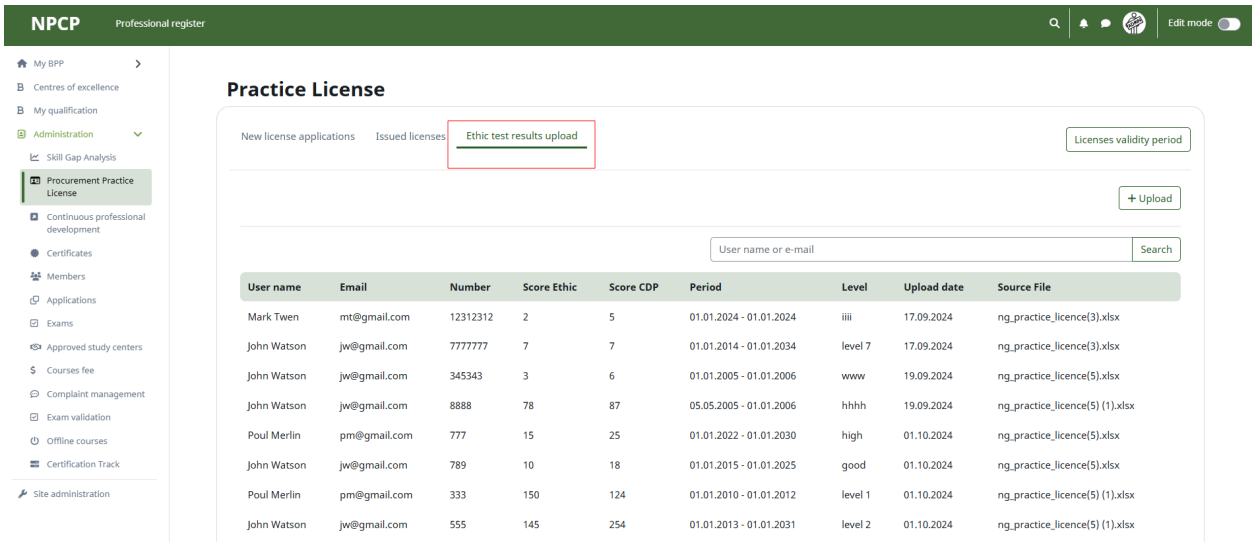


Enter the username or email in the search field and click Enter to find the record.

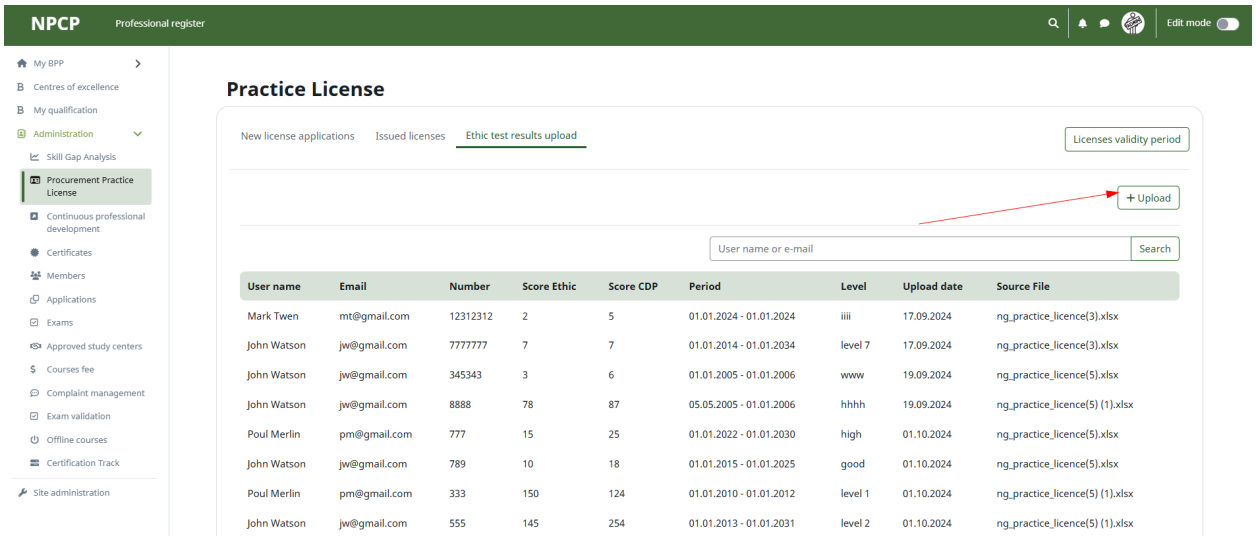


7.2.3.3 HOW TO WORK WITH TAB “ETHIC TEST RESULTS UPLOAD”

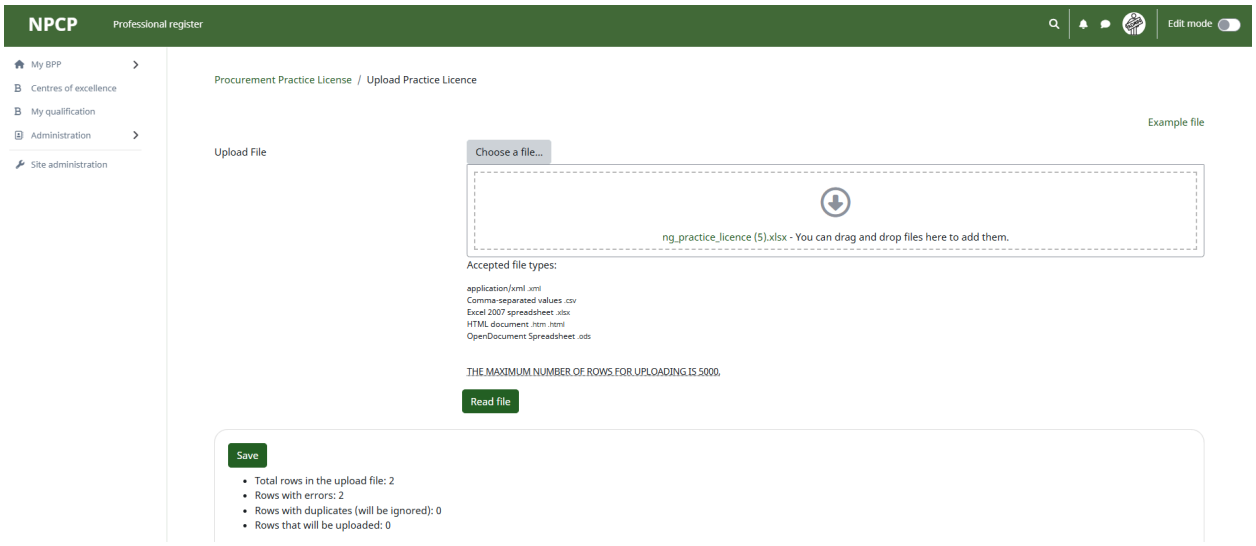
The tab “Ethic test result upload” contains uploaded test results with a user name, email, number, score ethic, score CDP, period, and other info.



Click the button “Upload”

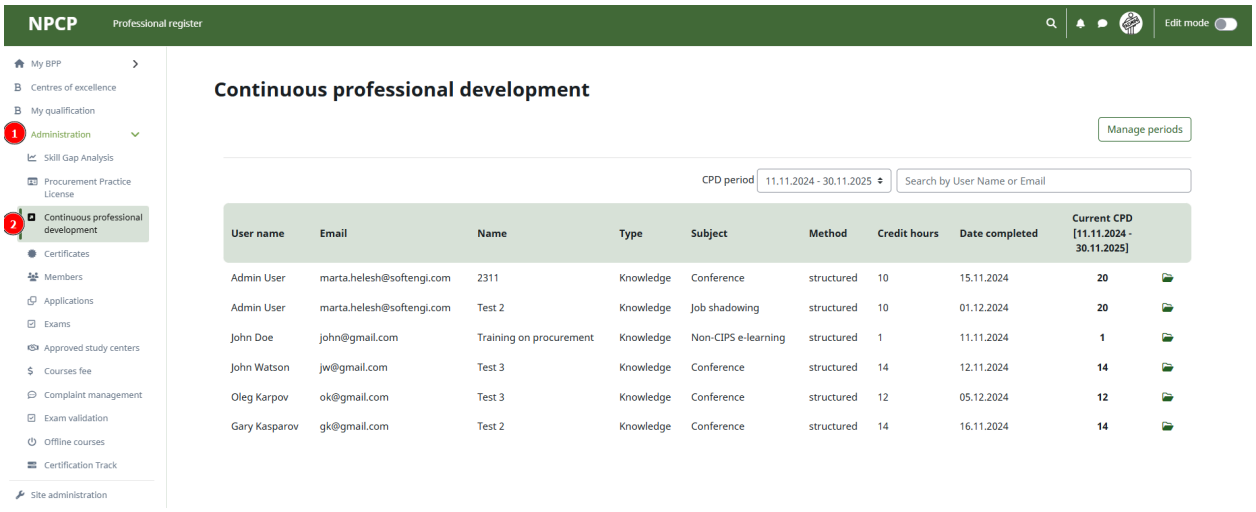


Add file and save



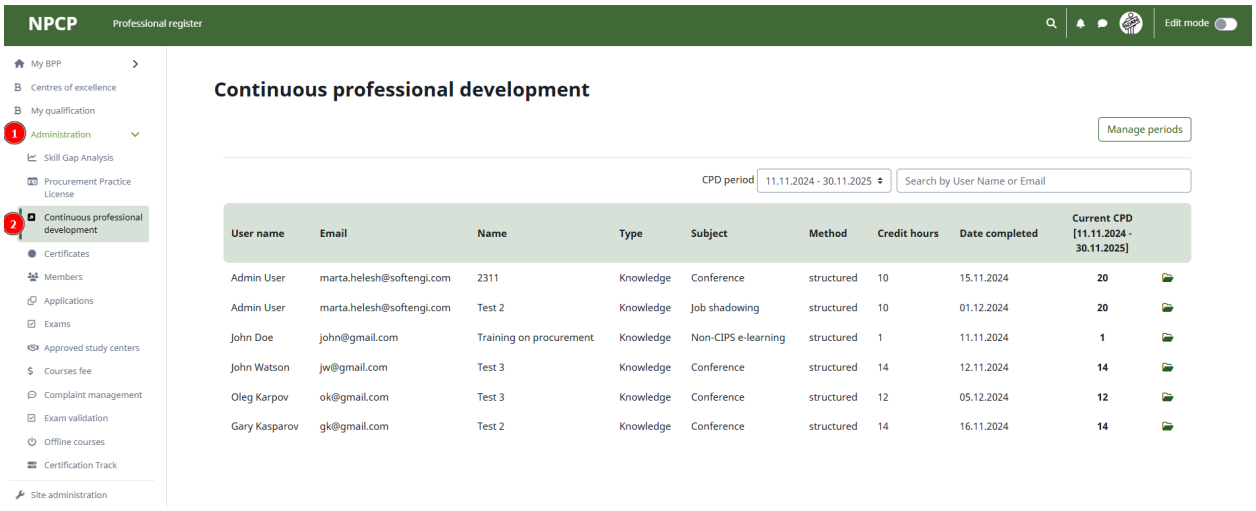
7.2.4. MENU “CONTINUOUS PROFESSIONAL DEVELOPMENT”

The "Continuous Professional Development" module is designed to manage and track all professional activities that users have participated in. The system allows users to complete a form to record seminars, workshops, courses, meetings, and other activities they have attended. The site admin uploads evidence of these activities, which is attached to the records. The system allows viewing, downloading, and managing these uploaded files, ensuring that all professional development activities are properly documented and up-to-date.

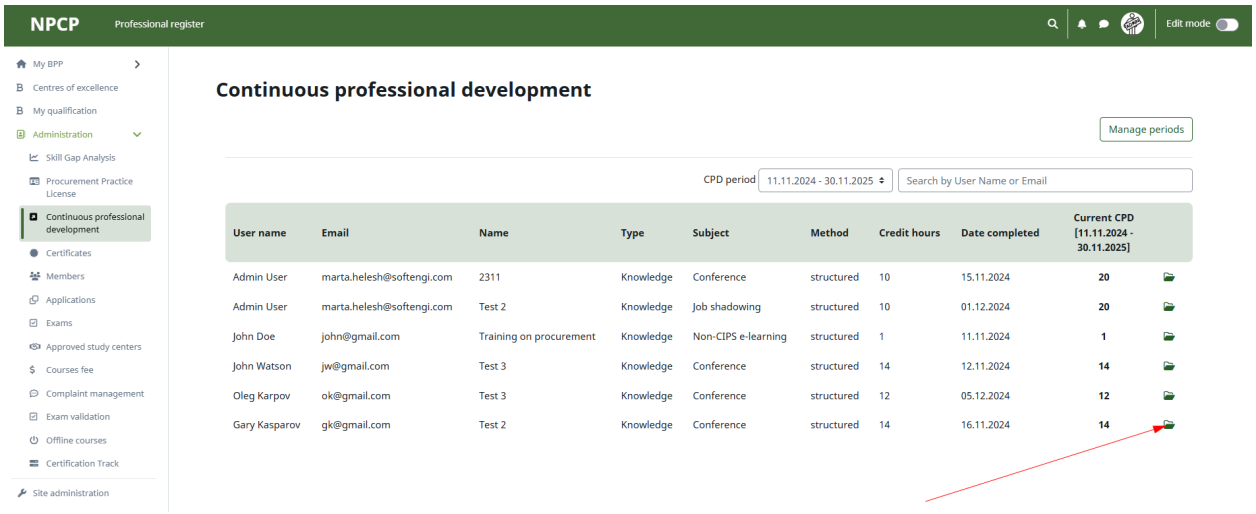


7.2.4.1 HOW TO VIEW THE RECORD OF “CONTINUOUS PROFESSIONAL DEVELOPMENT”

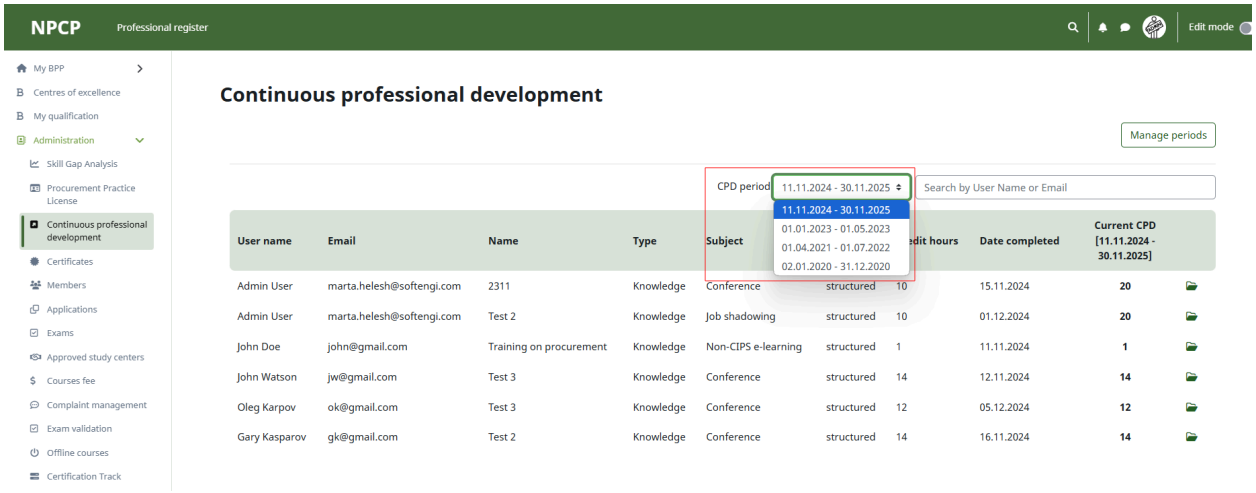
To view the list of “CONTINUOUS PROFESSIONAL DEVELOPMENT”, click on the menu “Administration” -> “CONTINUOUS PROFESSIONAL DEVELOPMENT”.



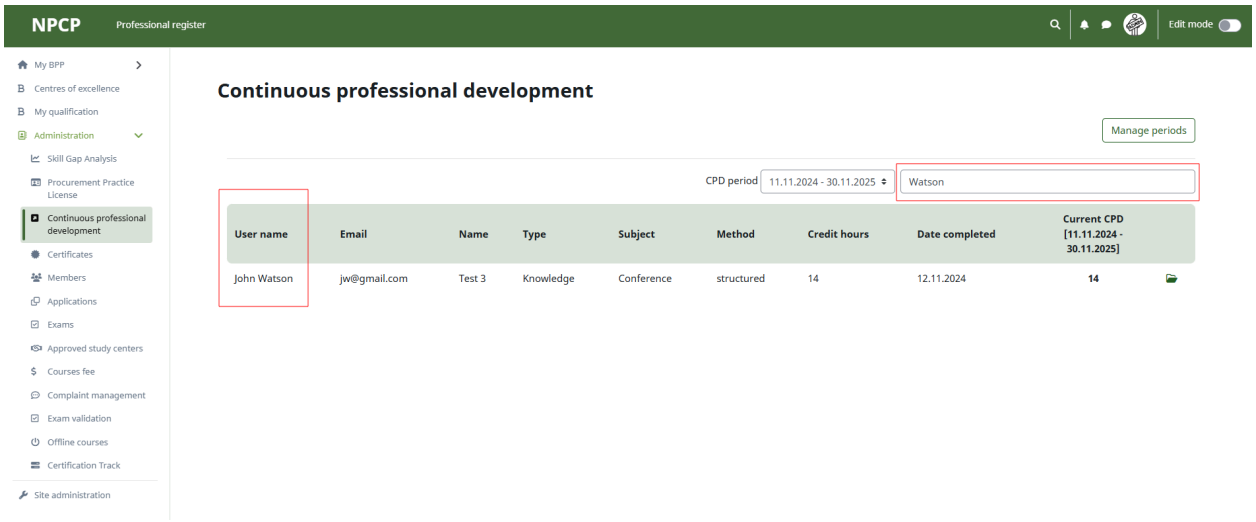
To view the evidence file of “CONTINUOUS PROFESSIONAL DEVELOPMENT”, click on the button “Folder”



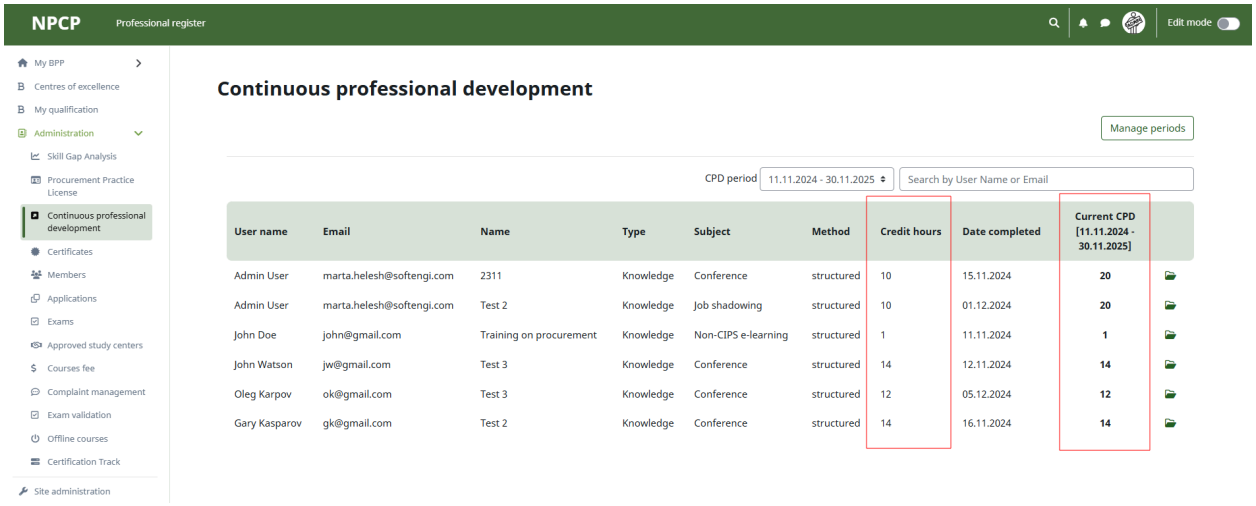
Select the required period in the field “CPD period”.



To search the required record of “CONTINUOUS PROFESSIONAL DEVELOPMENT”, enter the “Name” or “Email” into the search field.

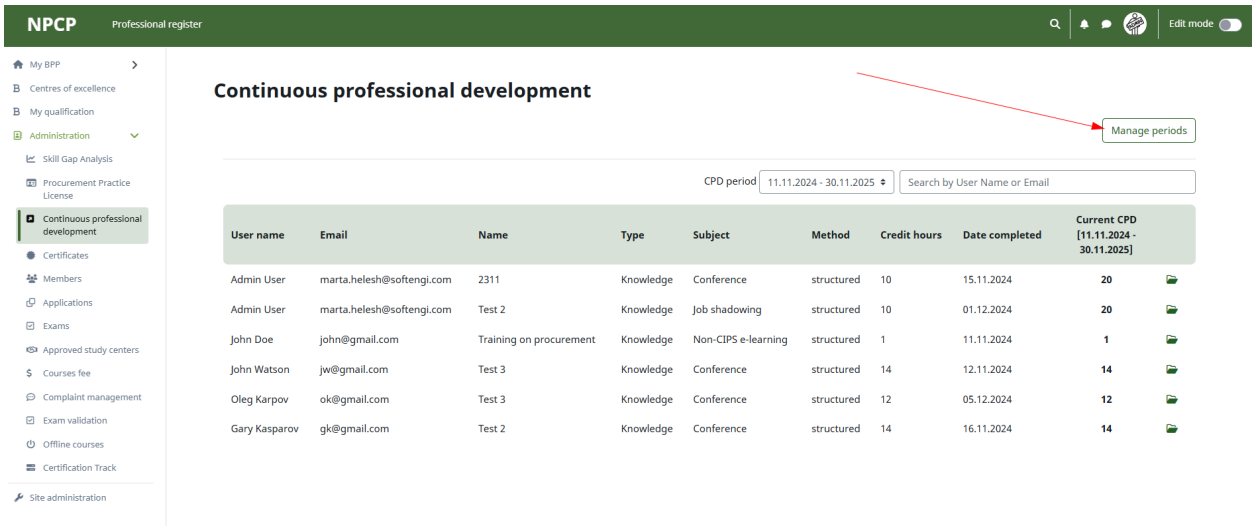


To track developmental progress within a period, compare credit hours to period hours.

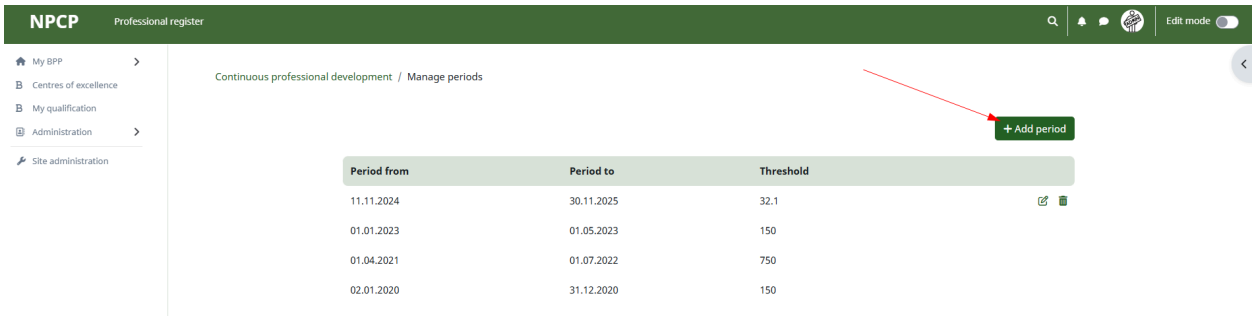


7.2.4.2 HOW TO CREATE THE PERIOD

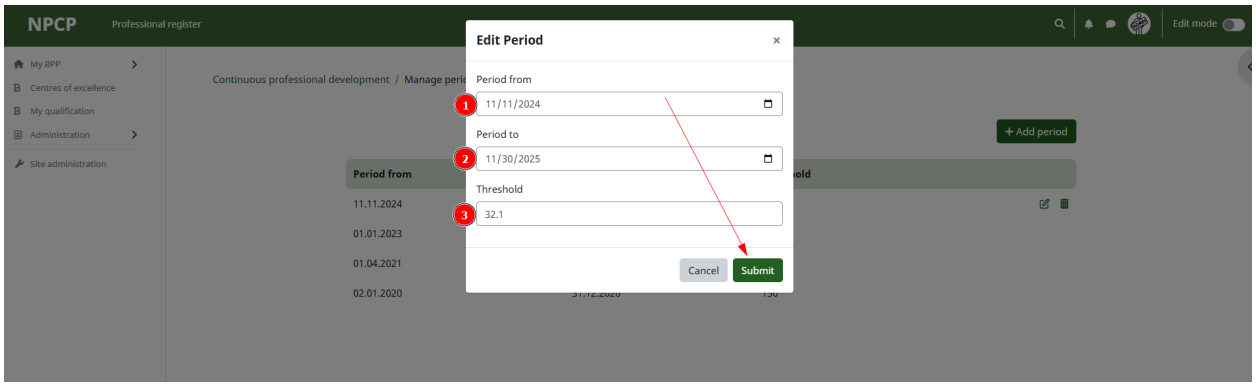
To create the period, click on the menu “Administration” -> “CONTINUOUS PROFESSIONAL DEVELOPMENT” and click the button “Manage period”

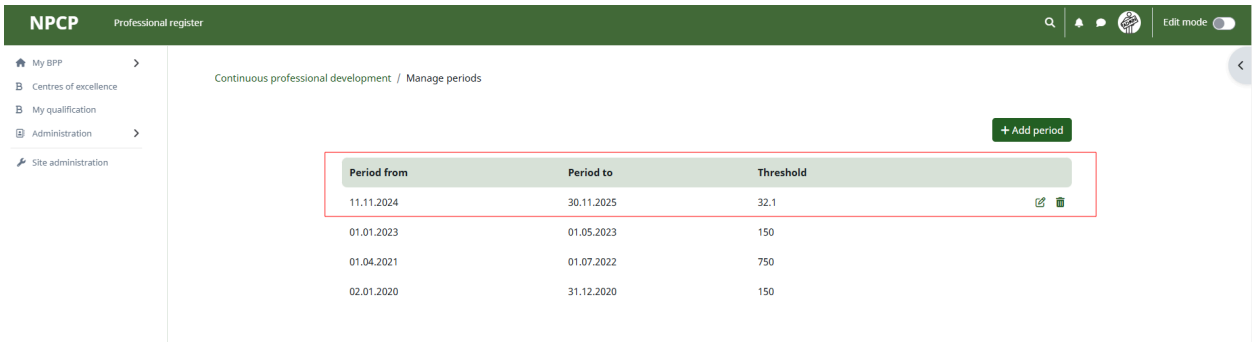


Click the button “Add period”



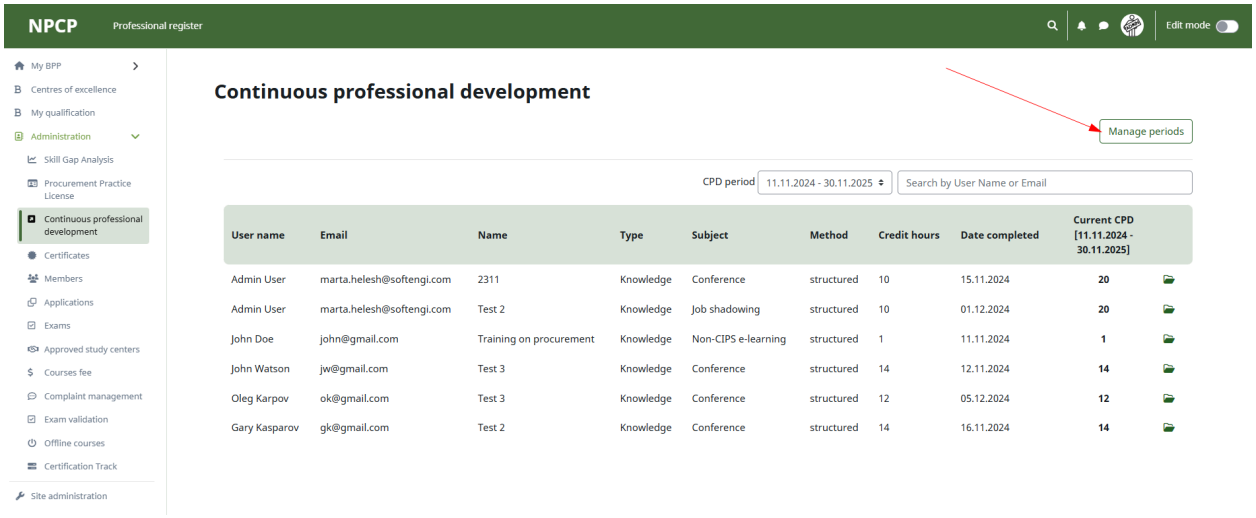
Fill in the field and click the button “Submit”



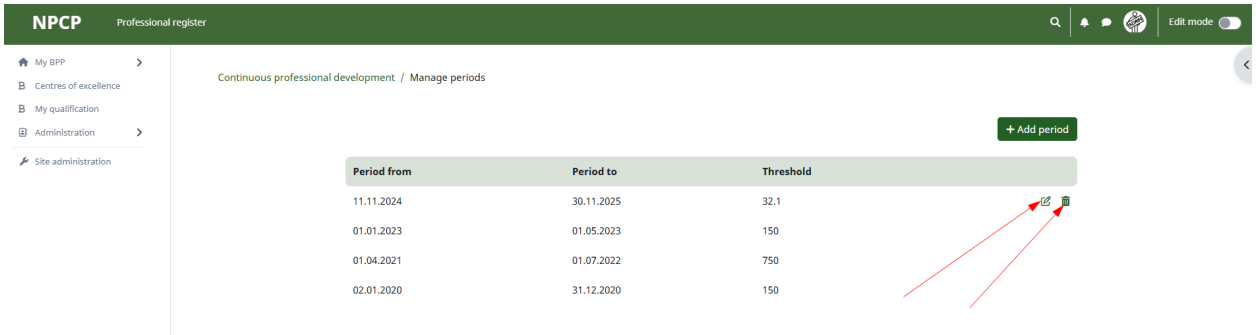


7.2.4.3 HOW TO EDIT AND DELETE THE PERIOD

To edit and delete the period, click the button “Manage period”



Click the 'Edit' or 'Delete' button. Only periods that have not expired can be edited or deleted.

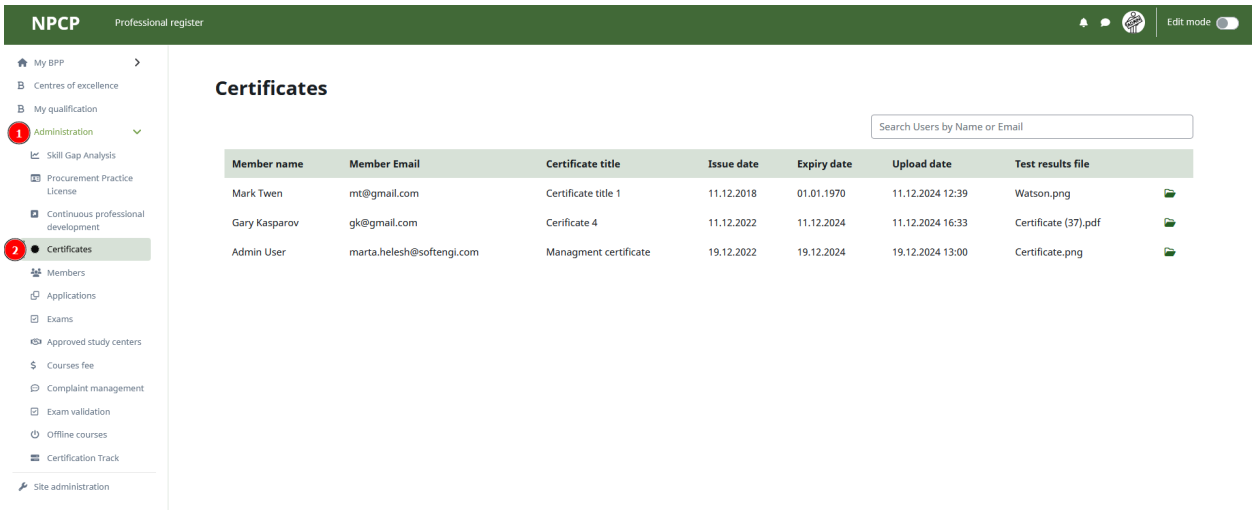


7.2.5. MENU “CERTIFICATES”

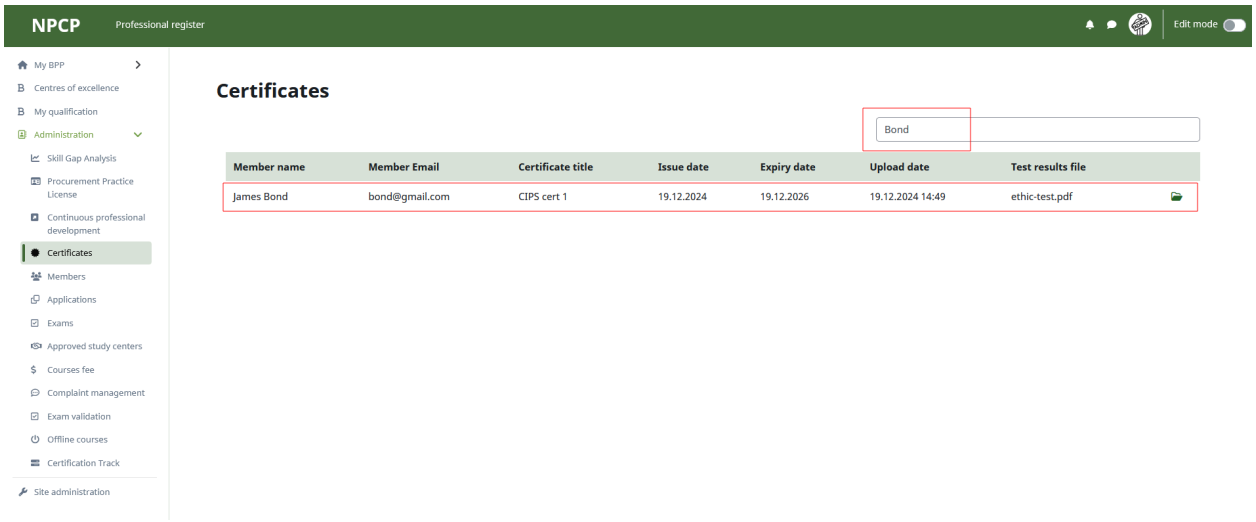
Module “My Certificates” provides access to personal certificates, active and expired. The system allows you to view/download/print certificates as PDFs, and view certification details: expiration date, name, etc. The sources of certification are NPCP and CIPS.

The system allows to view information about certificates such as user name, email, certificate, issued date, expiry date, upload date, and source file.

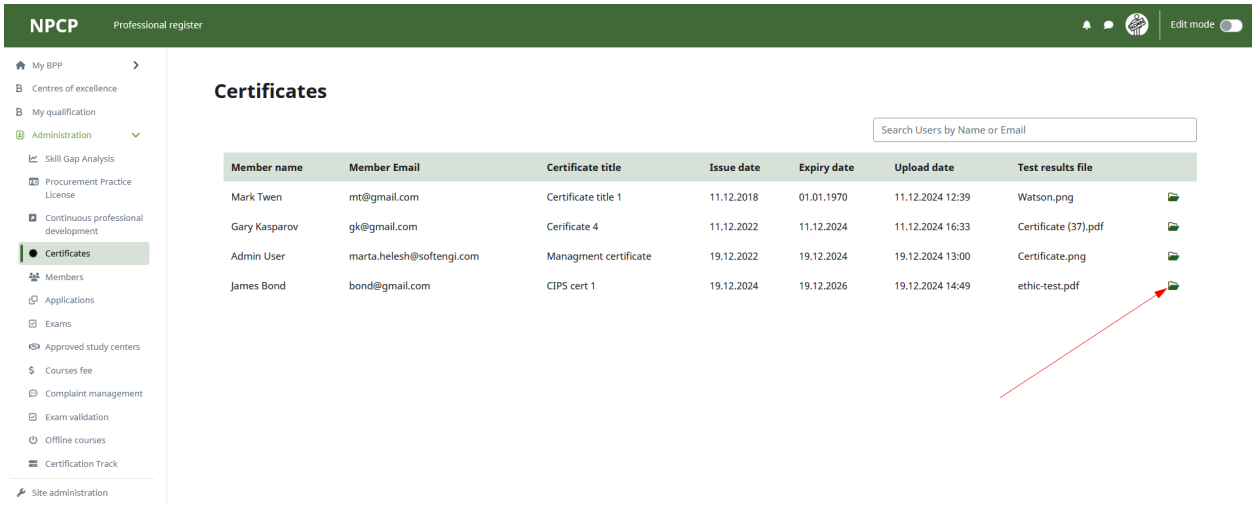
To view the list of certificates, click on the menu “Administration” -> “Certificates”



To search certificate by user name or email, enter your name or email into the search field and press Enter.



To view the certificate, click the button “View”.

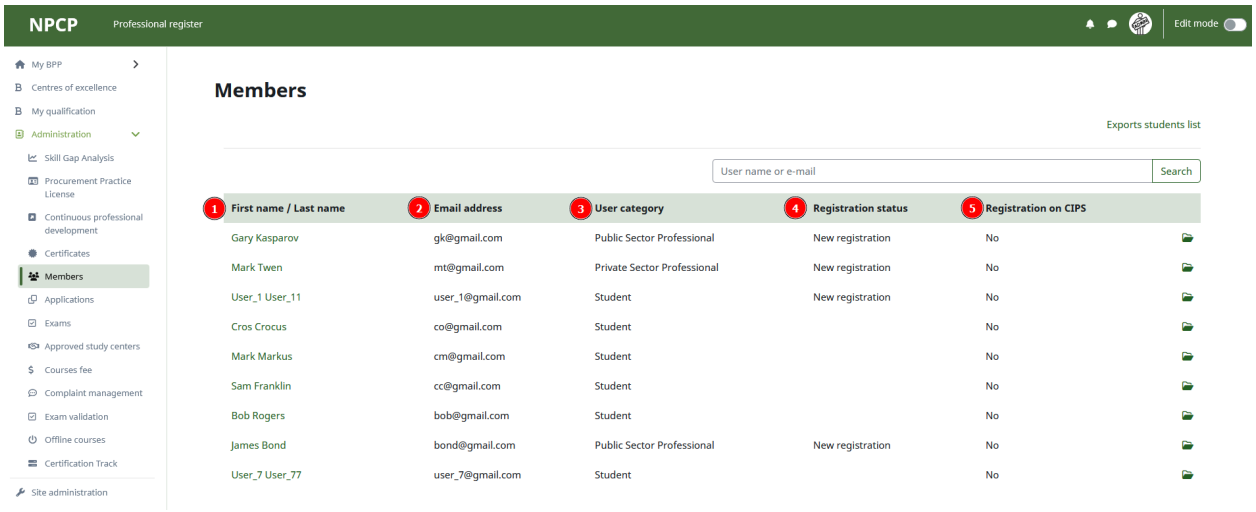


7.2.6. MENU “MEMBERS”

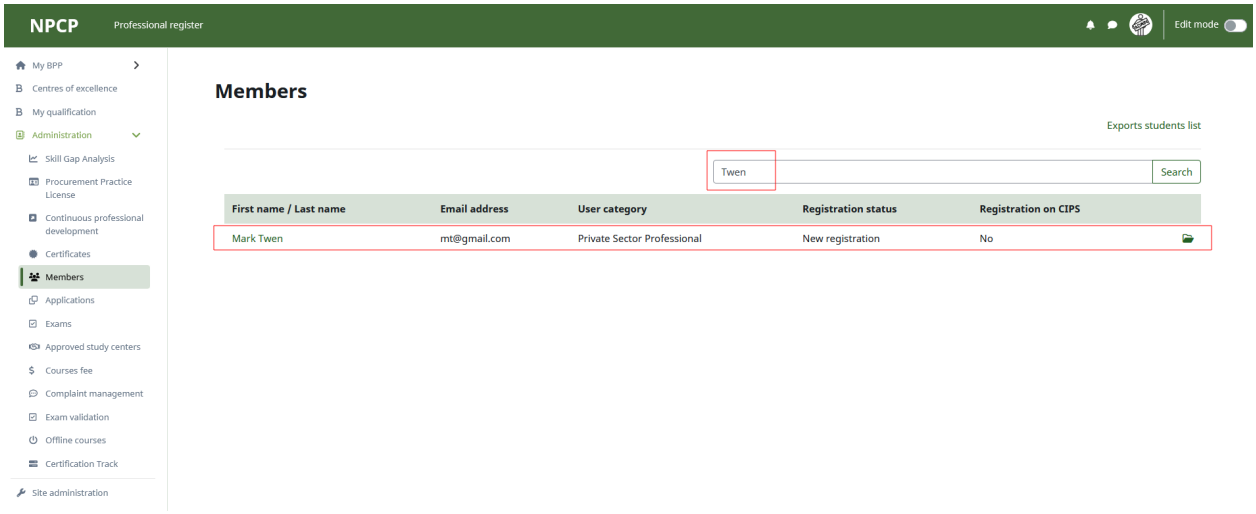
The "Members" module is designed to display a list of students and their data, accessible only to platform administrators.
To view the list of students, navigate to Administration -> Members in the menu.

The administrator can view:

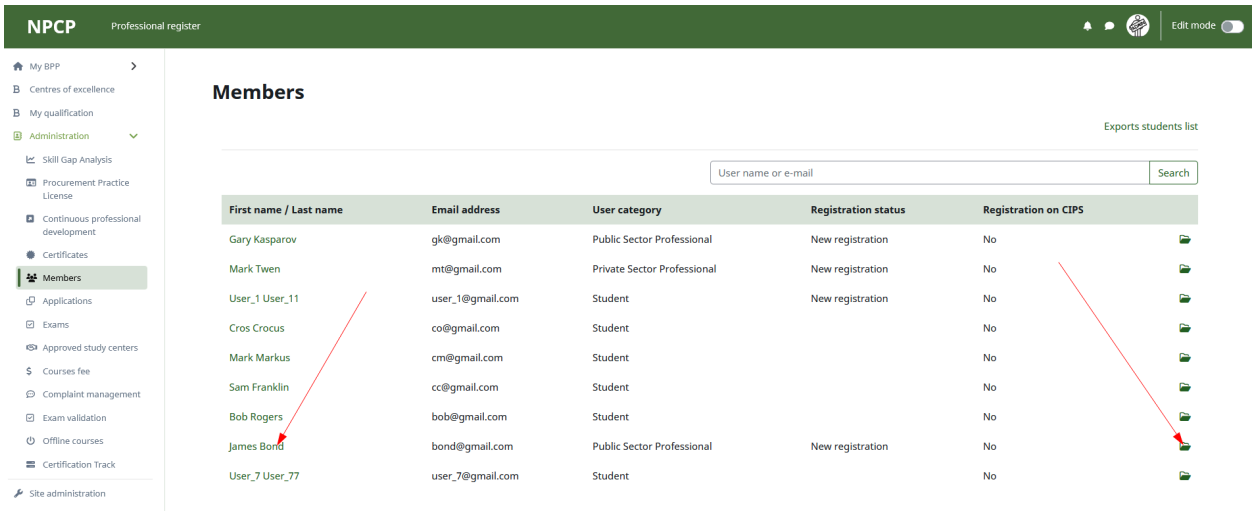
- First name/Last name
- Email address
- User category
- Registration status
- Registration on CIPS
- User's card

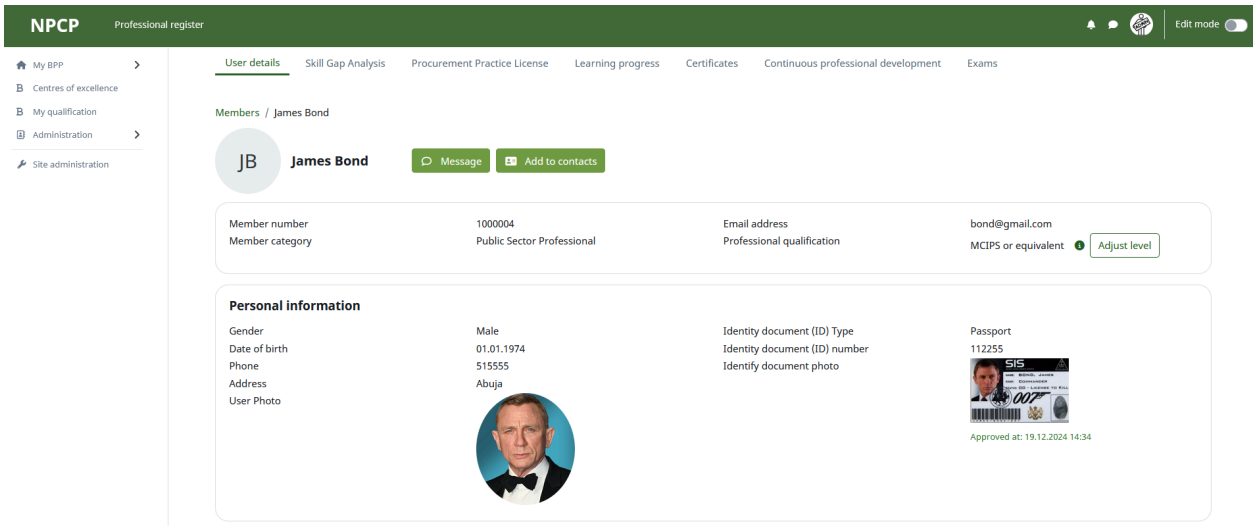


To search the member in the list, enter your name or e-mail into the search field, click the button “Search”

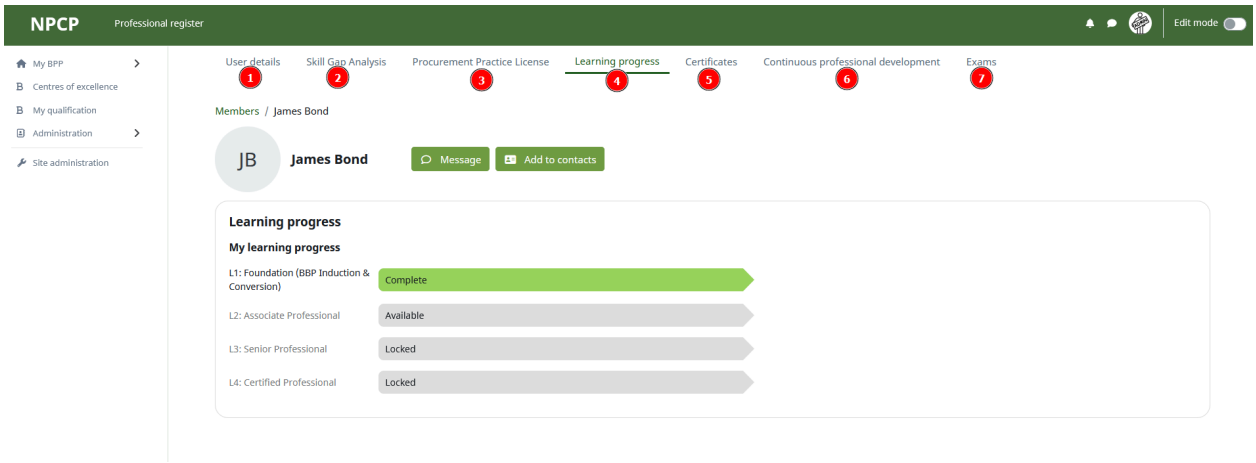


To display the user`s card, click on the name of the user or picture “Folder”

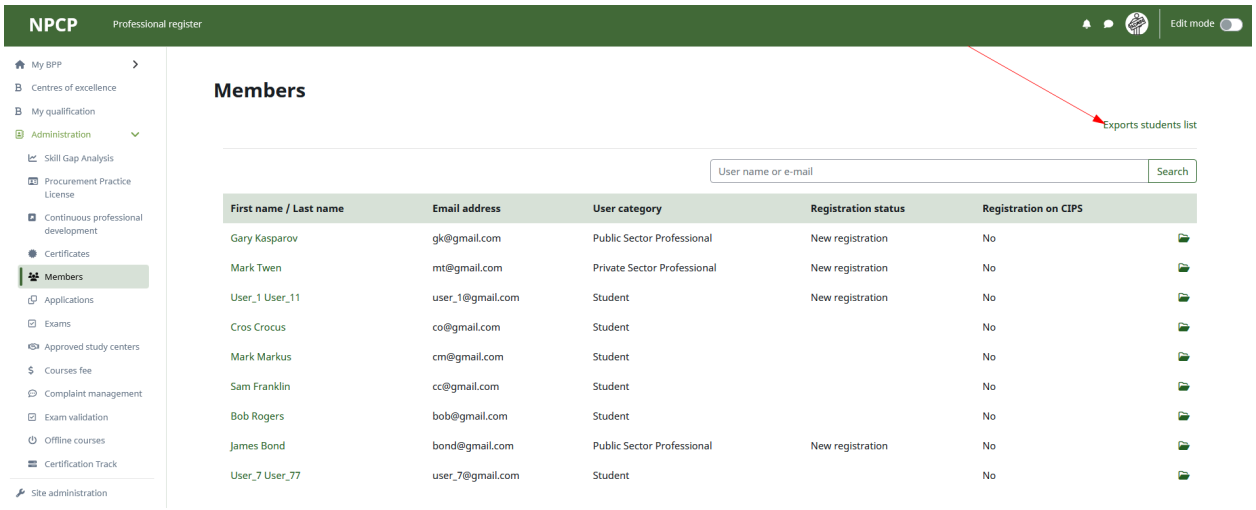




On the user's profile possible to view other individuals' information about the member



To export the members list to ".csv" format, click the button "Exports student list"



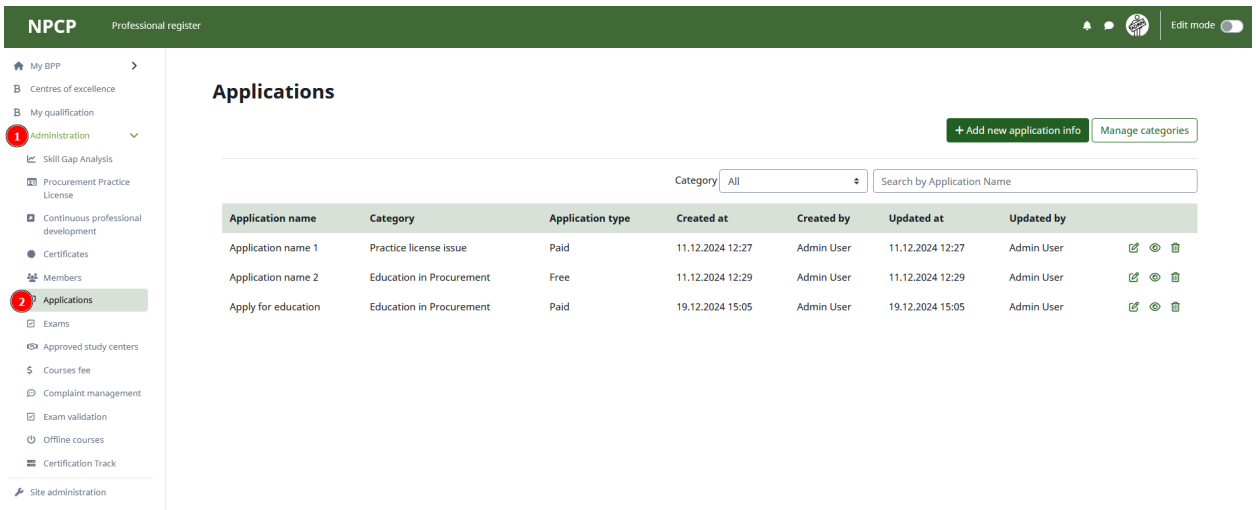
About National ID verification read the topic "Verification National ID of user"

7.2.7. MENU "APPLICATIONS"

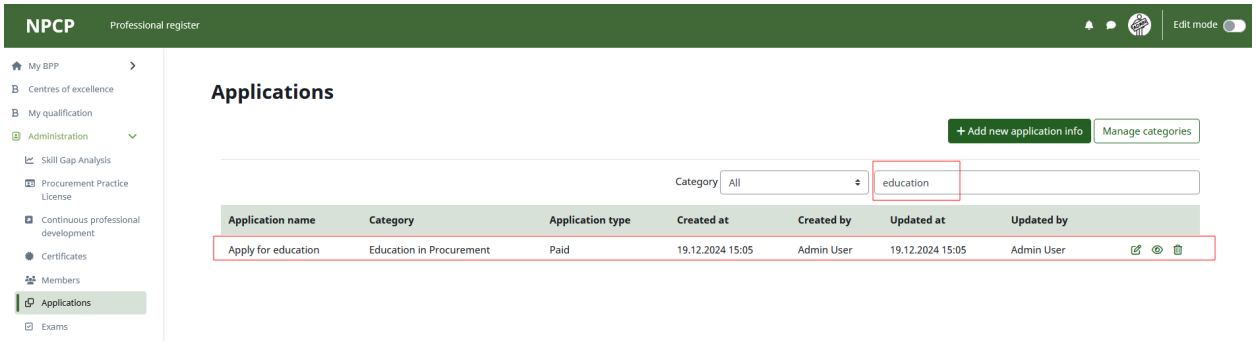
The module "Applications" serves as a vault for users' applications and requests. For authorized users - member, it provides the ability to track the status of their own applications, view application details, and view the application category. For site admin, it is possible to view submitted applications and provide responses.

7.2.7.1. MANAGE APPLICATIONS BY SITE-ADMIN ROLE

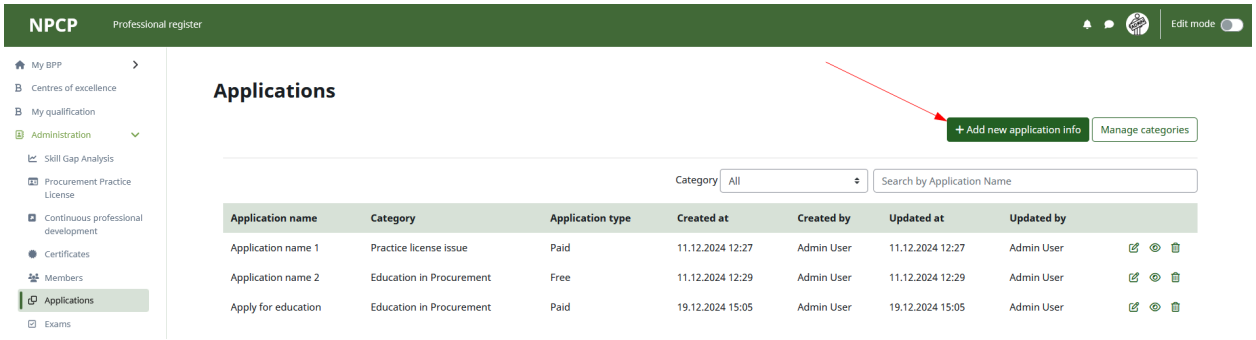
For users with the role of site admin, SIS allows users to view the list of applications. Click on the menu "Administration" -> "Applications"



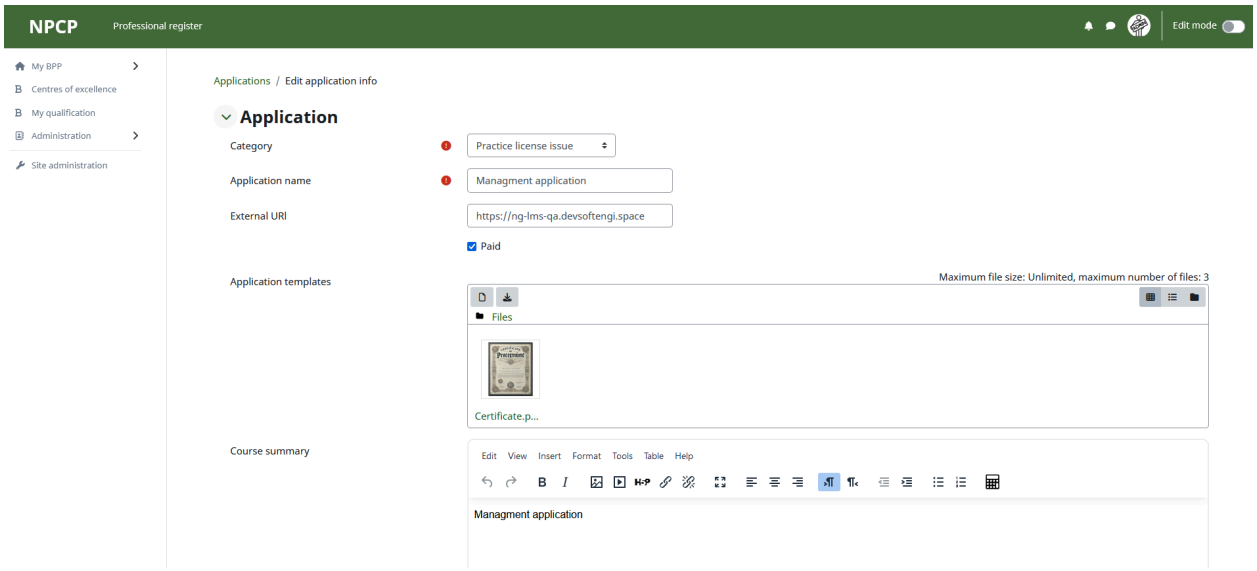
To search by application name, enter the application name in the field. Press “Enter”.



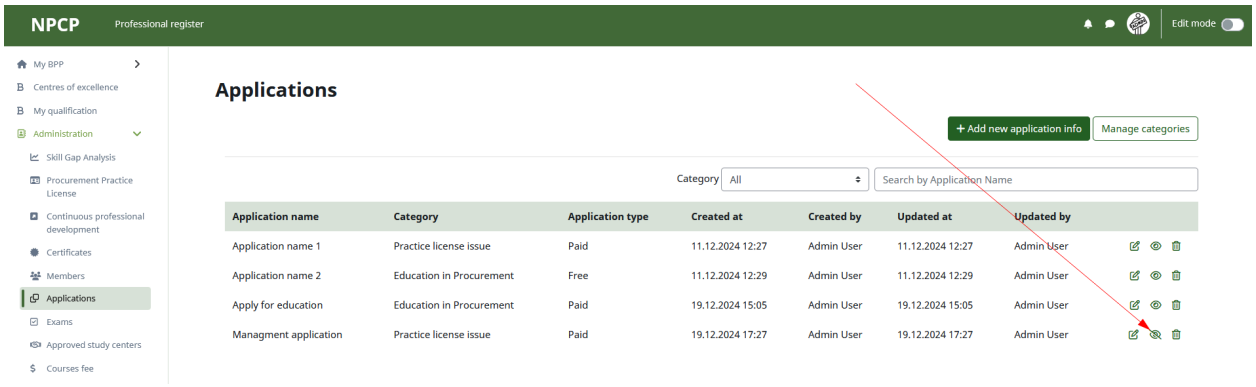
To add a new application, click on the button “Add new application info”



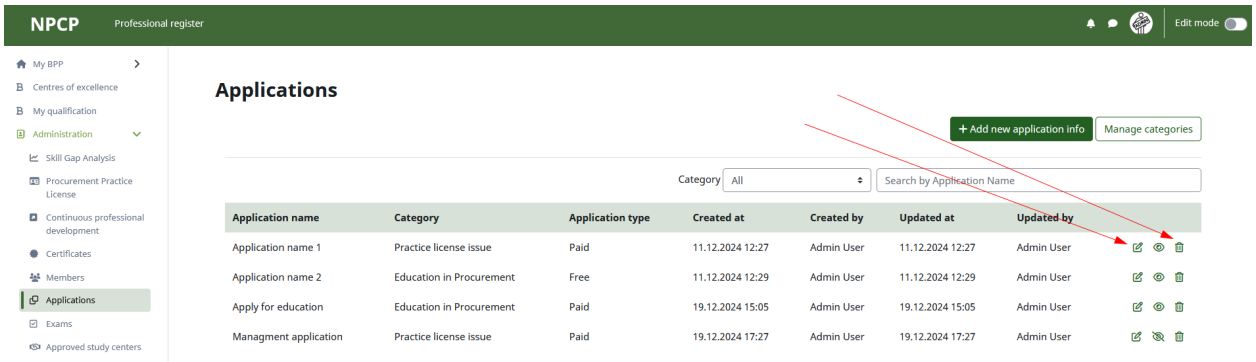
Select a category, enter the name and URL, add files (there can be up to 3 files), and course summary. Click “Save” changes.



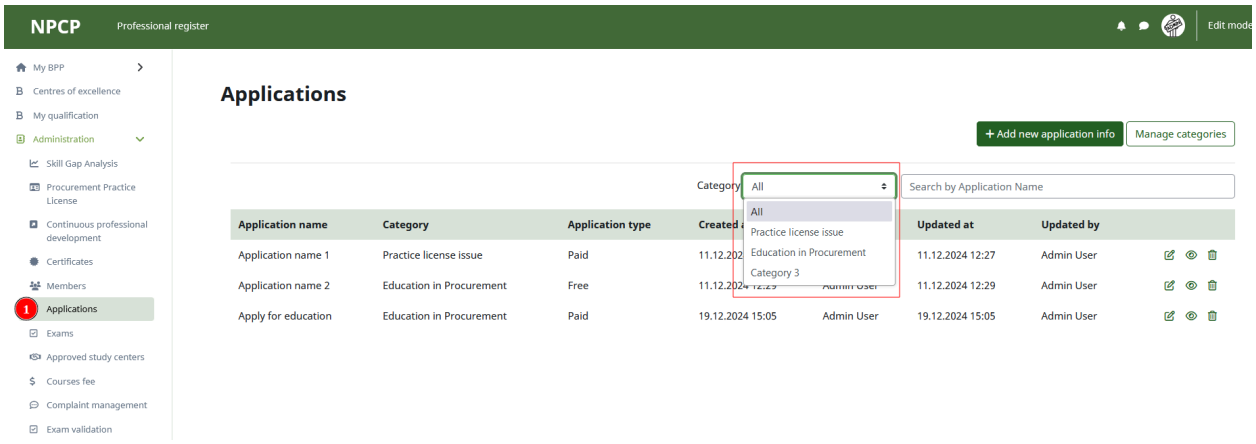
Newly created applications are initially hidden from students. To make an application visible to students, click on the "Eye" button.



To edit or delete the application, click the 'Edit' or 'Delete' button. Make the necessary changes and save.

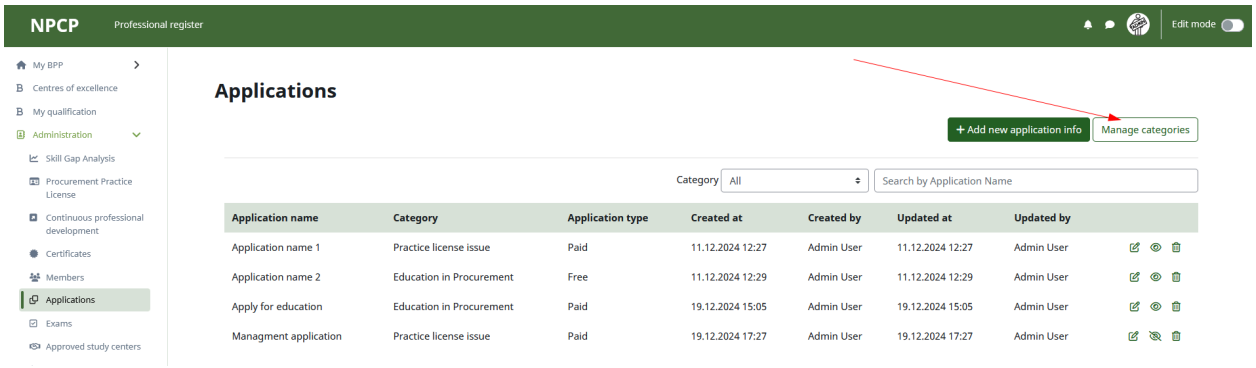


To filter by category, choose the appropriate category from the list.



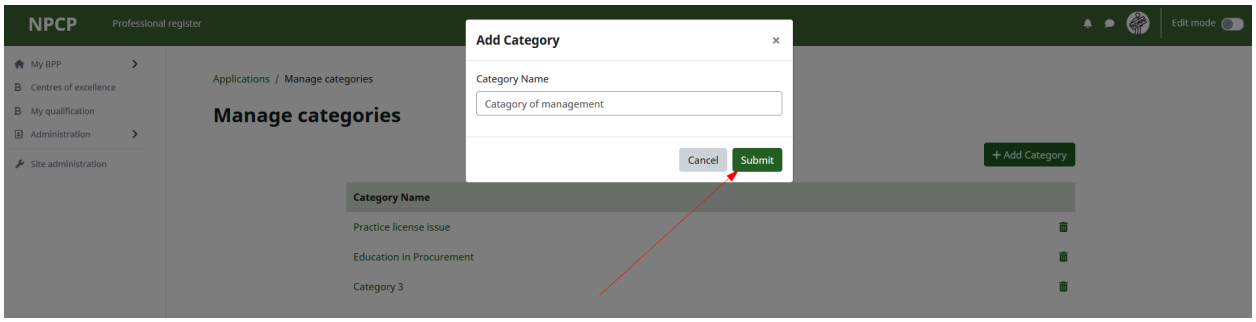
7.2.7.2. MANAGE APPLICATION`S CATEGORIES BY SITE-ADMIN ROLE

SIS enables site-admin users to manage categories. To create a new category, click the 'Manage Categories' button.

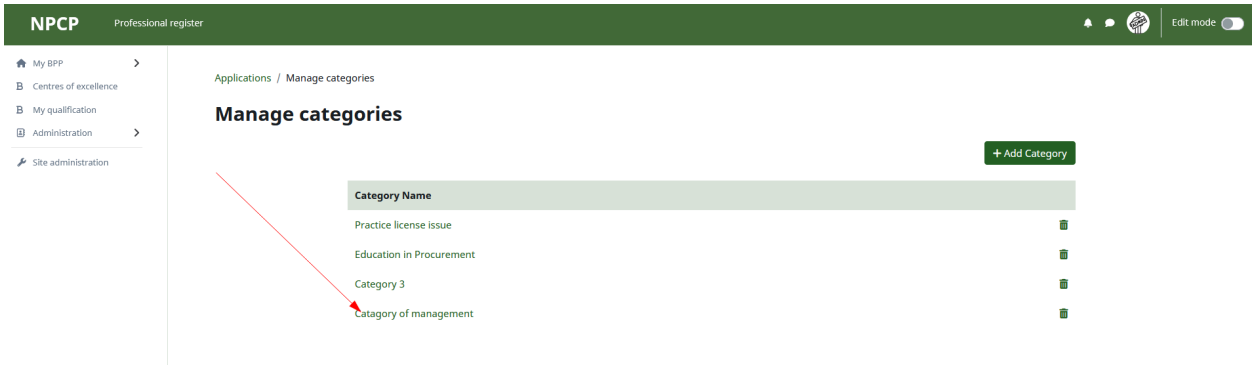


Click on the button “Add category”

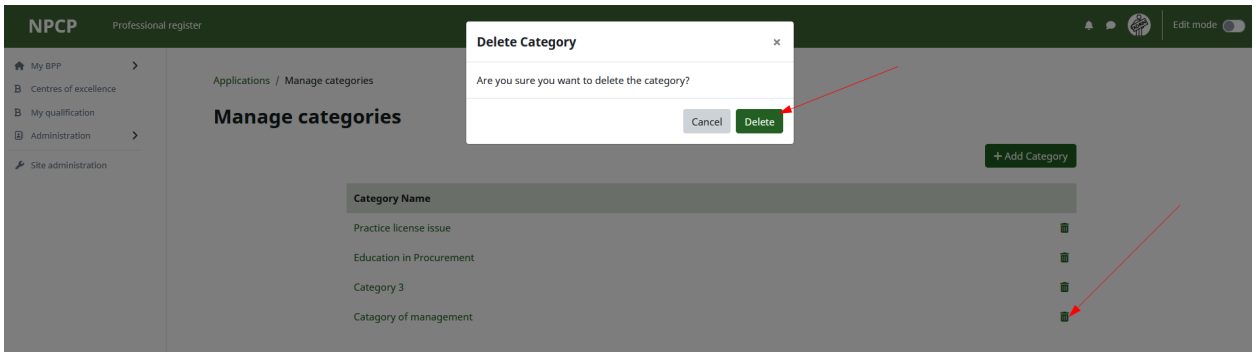
Enter the name and click “Submit”.



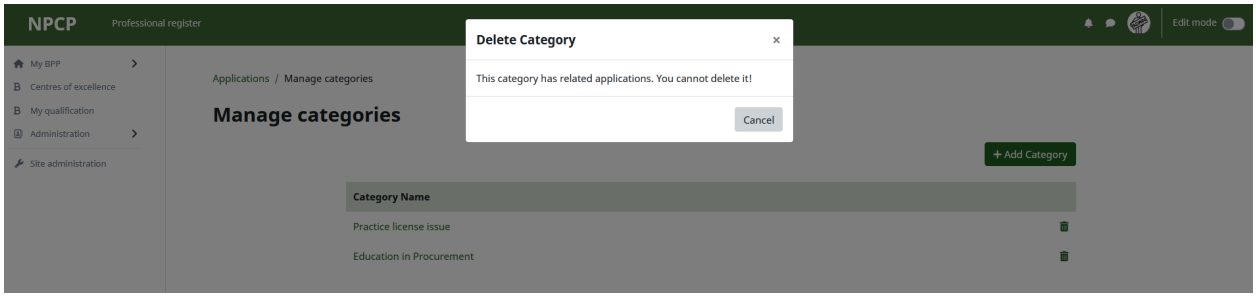
To edit a category, click on the record, update the information, and then click 'Submit'.



To delete the category, click the button “Delete”.



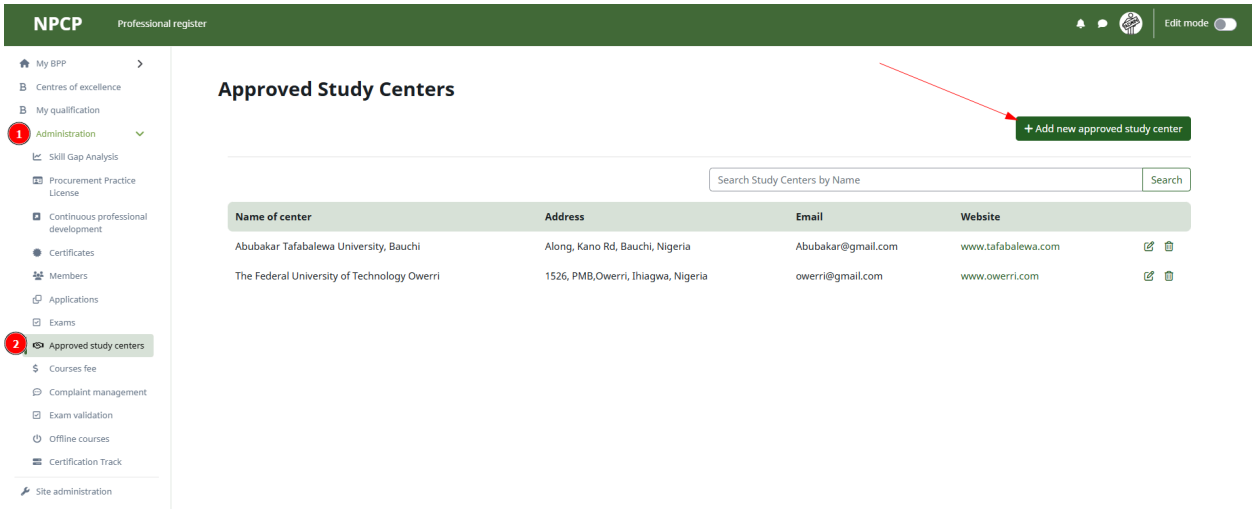
If a category has related applications, it cannot be deleted.



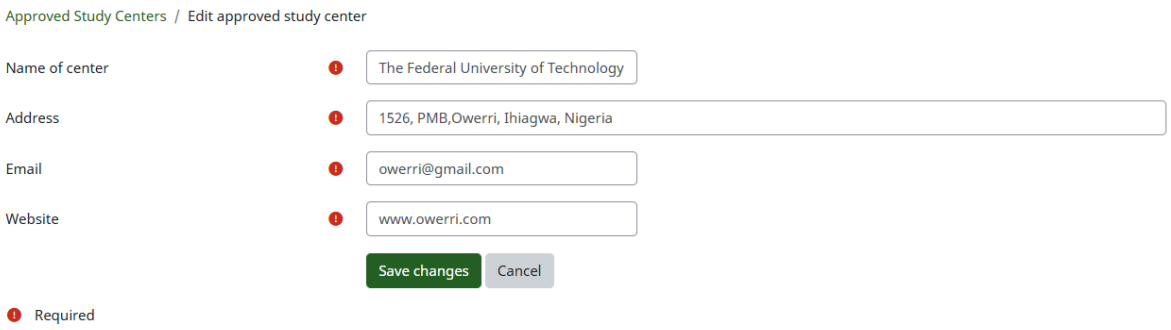
7.2.8. MENU “APPROVED STUDY CENTERS”

“Approved study centers” display a list of companies that meet certain standards and will be approved, and assessed to be competent to give lectures and where users are able to study. SIS should provide a brief description of the study center, contacts, and a link to the official website.

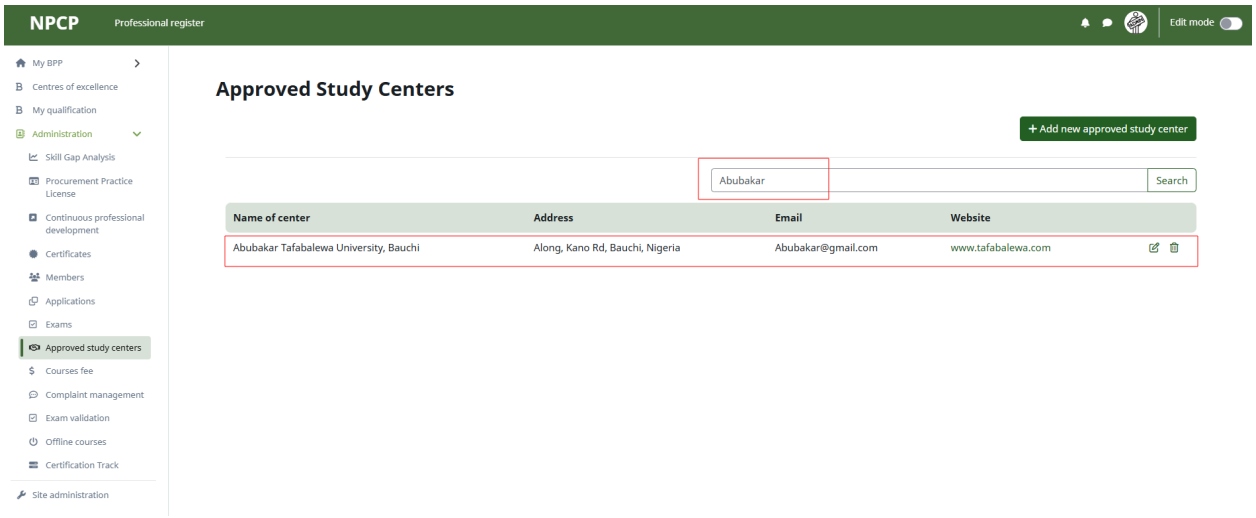
To add new approved study centers click the menu “Administration” -> “Approved study centers”. Click the button “Add new approved study center”



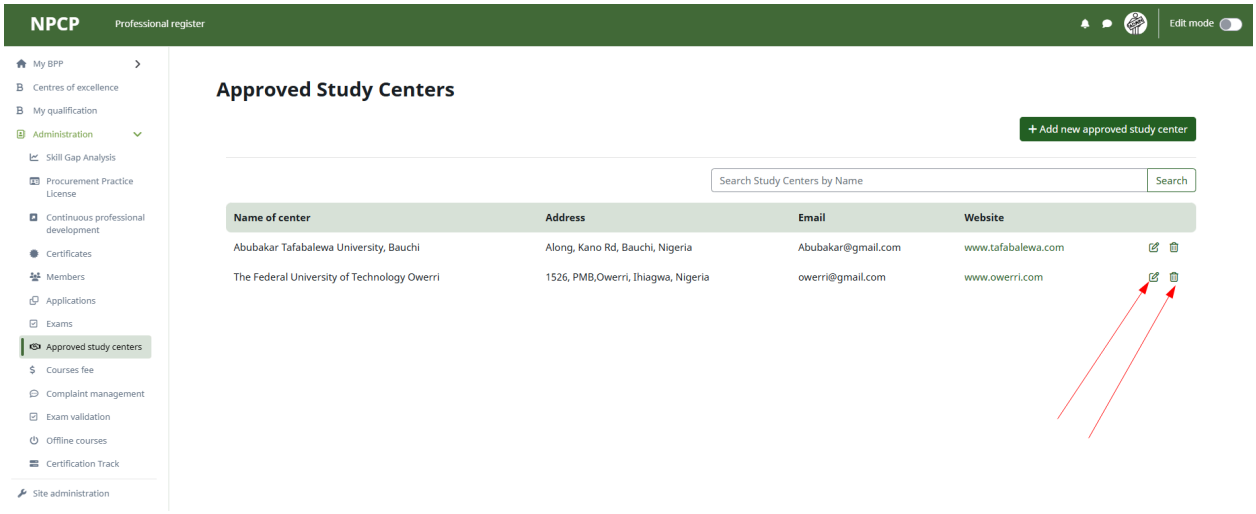
Fill out the form and click “Save changes”



To search the study center, enter the name in the search field, and click enter.

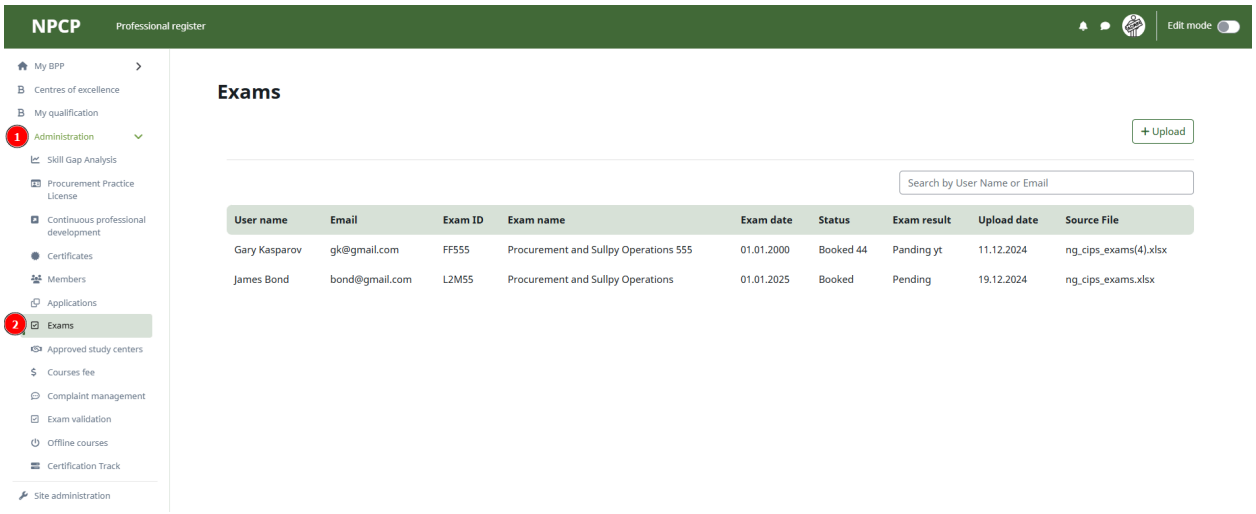


To edit and delete the approved study center, click on the button “Edit” or “Delete”. Confirm action.

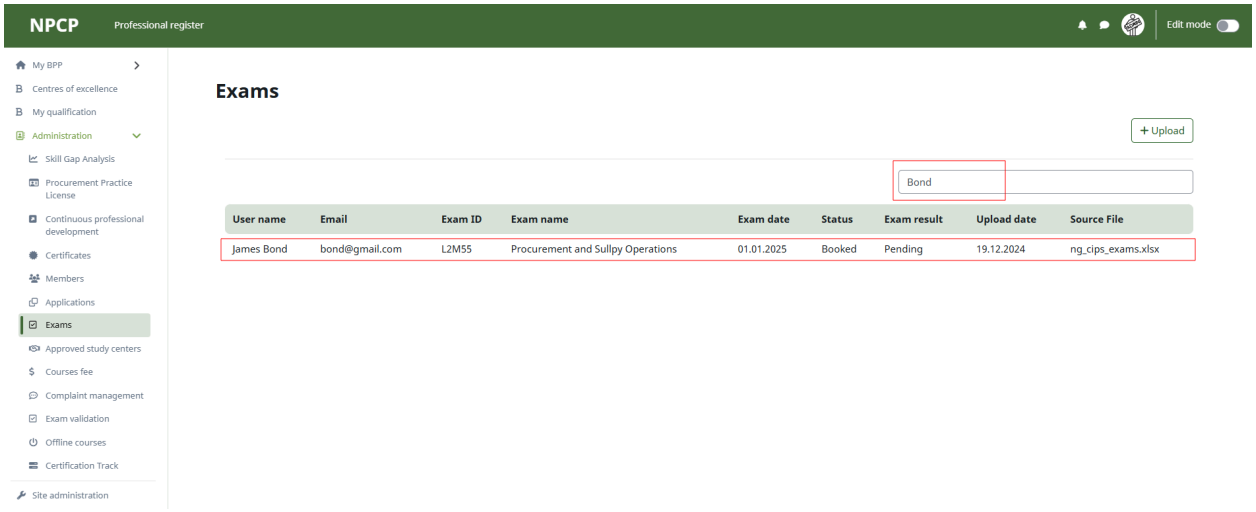


7.2.9. MENU “EXAM”

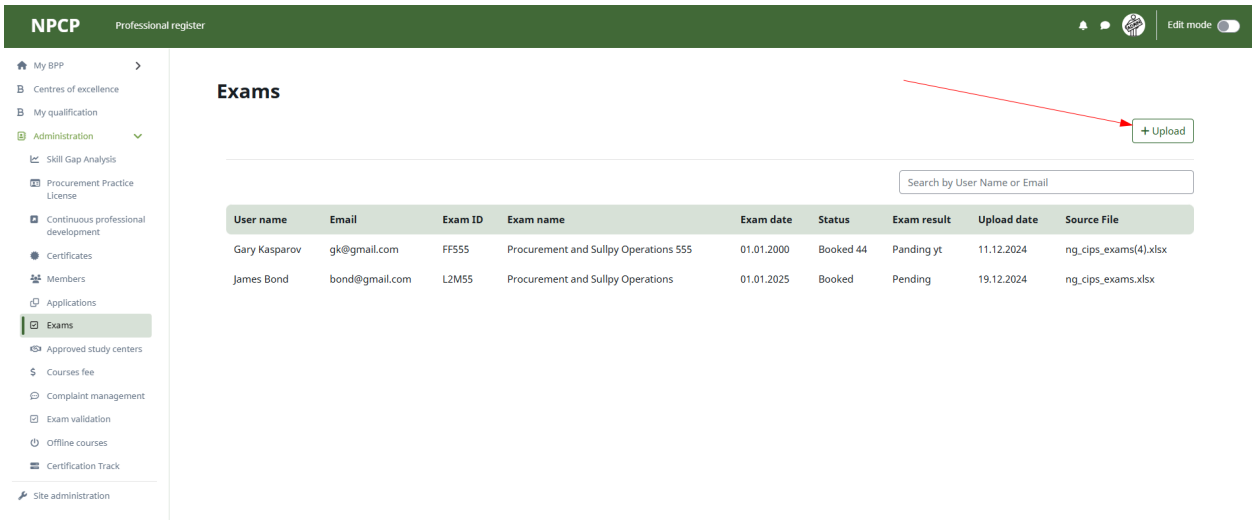
Module “Exams” provides access to the site-admin user to manage CIPS examinations. It is possible to view a list of users with information about exams. To view a list of users with CIPS exams, click on the menu “Administration” -> “Exams”.



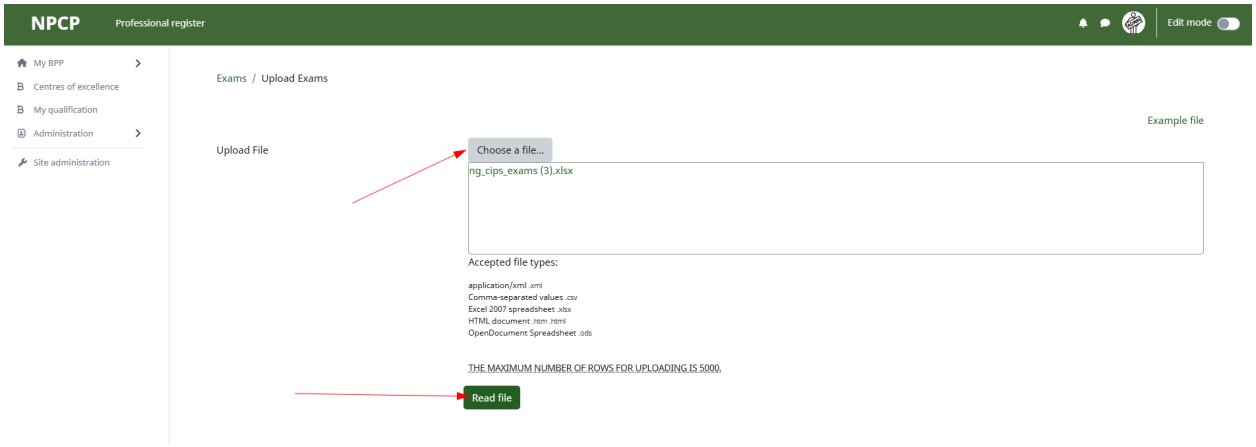
To search for the required user, enter the name or email in the search field.



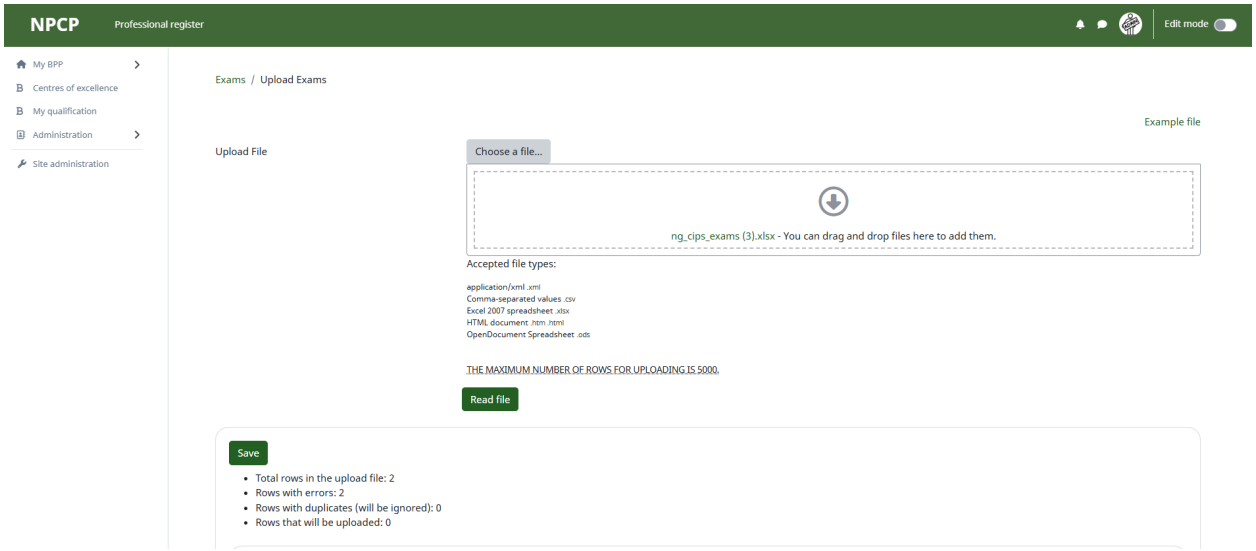
To upload the batch file with exams, click the button “+Upload”



Choose a file from the local PC, click the button “Read the file”



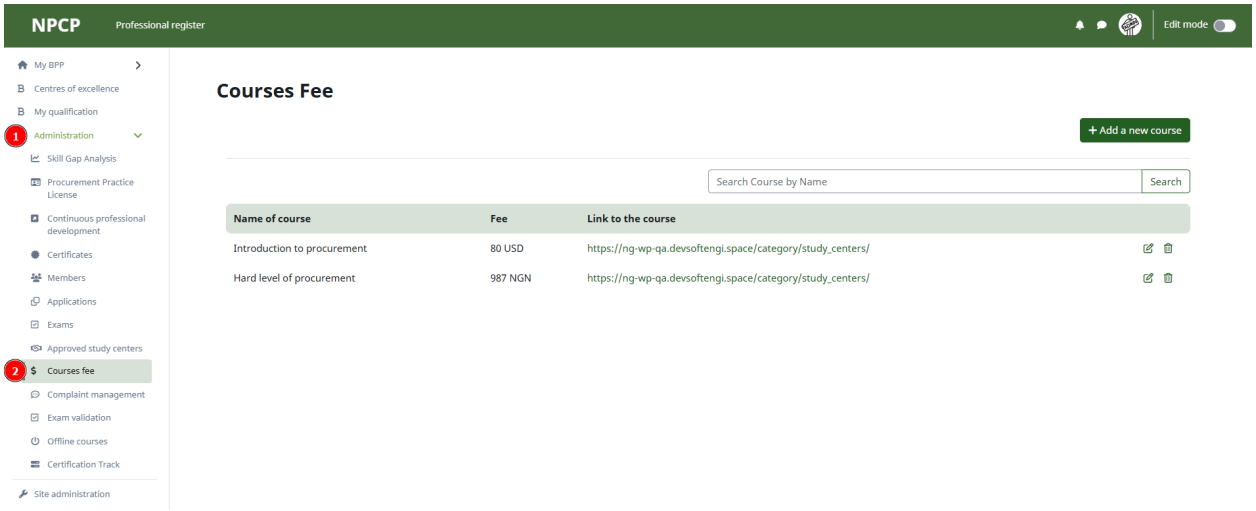
Click the button “Save”



7.2.10. MENU “COURSES FEE”

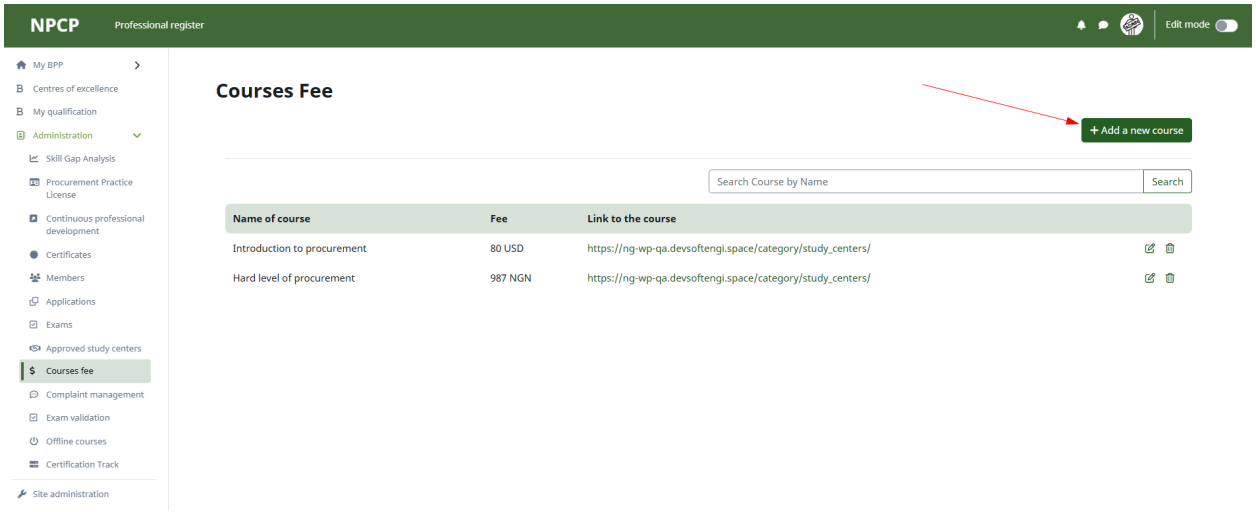
The “Course Fees” module is designed to display a list of program names and fees. Each record might include a link to the service provider payment page where it is possible to purchase the program course.

To view the list of courses fee, click on the menu “Administration” -> “Courses fee”. Click on the link to visit the web page of the course.

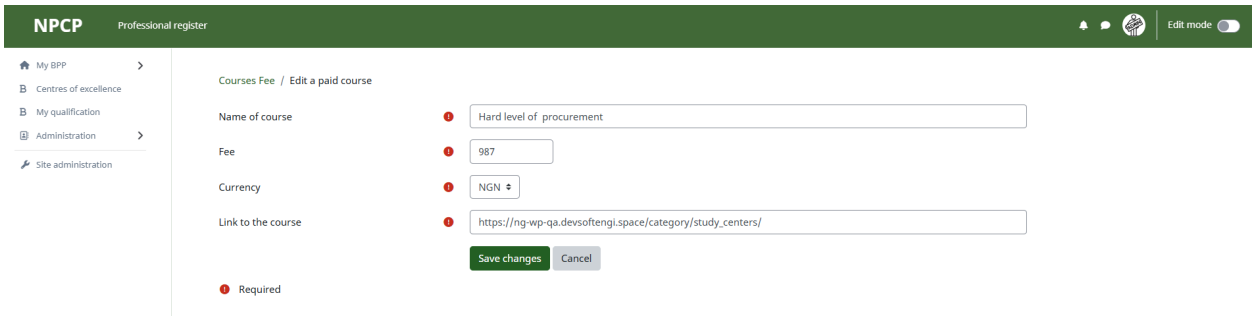


7.2.10.1. HOW TO ADD NEW RECORDS OF COURSE WITH A FEE

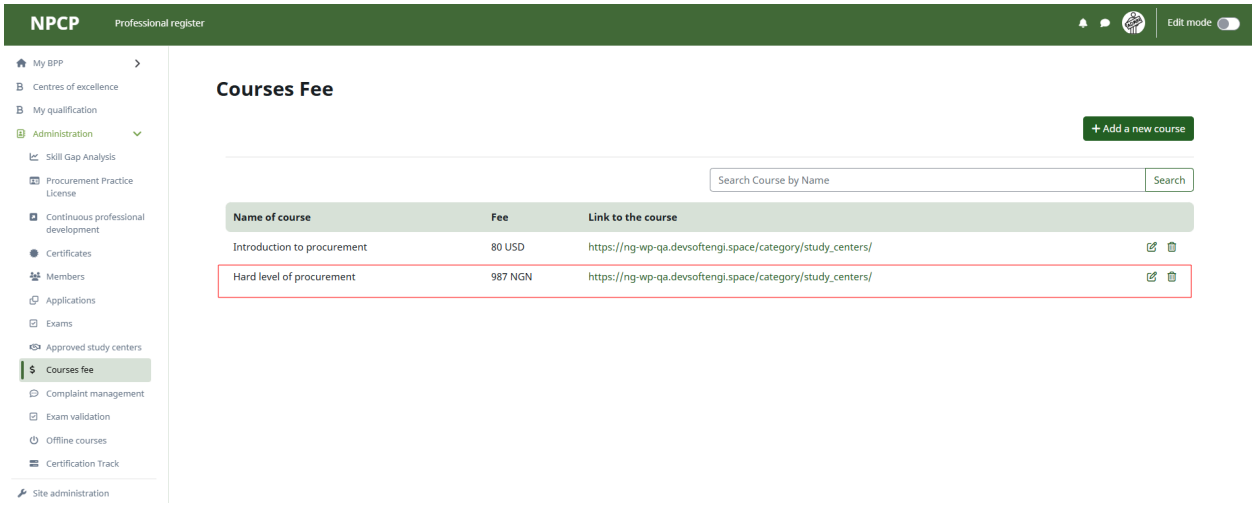
The system allows you to add a new record of courses with a fee. Click the menu “Administration” -> “Courses fee” and click the button “+ Add a new course”



Fill in the “Name of course”, “Fee”, “Currency”, and “Link to the course” and click the button “Save changes”

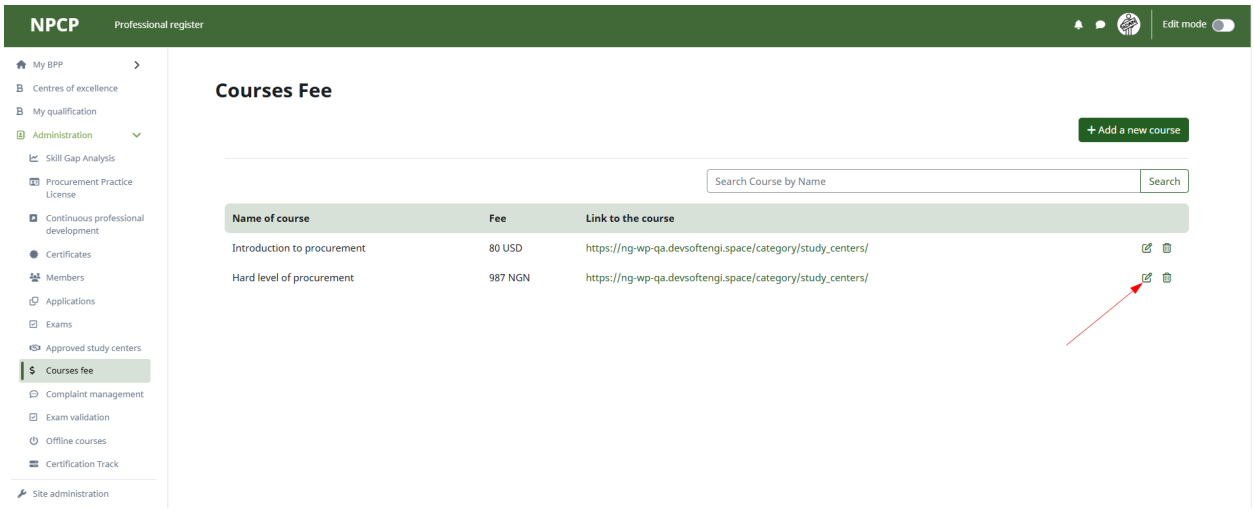


The record is added with the fee and link.



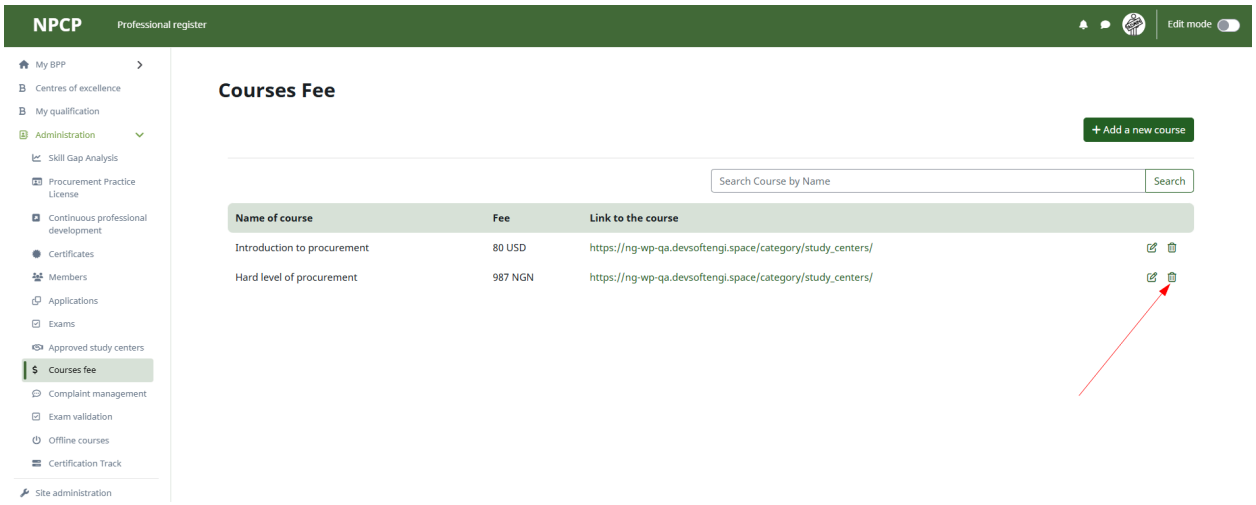
7.2.10.2. HOW TO EDIT THE RECORD OF COURSE WITH A FEE

The system allows editing the record. Click on the button “Edit”

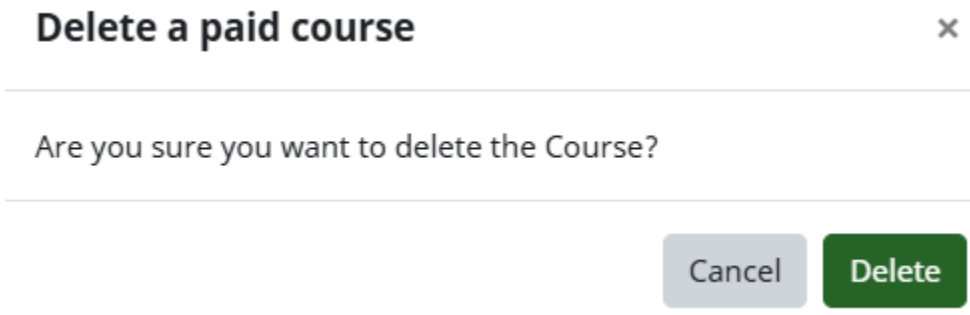


7.2.10.3. HOW TO DELETE THE RECORD OF COURSE

The system allows you to delete the record of course. Click on the button “Delete”

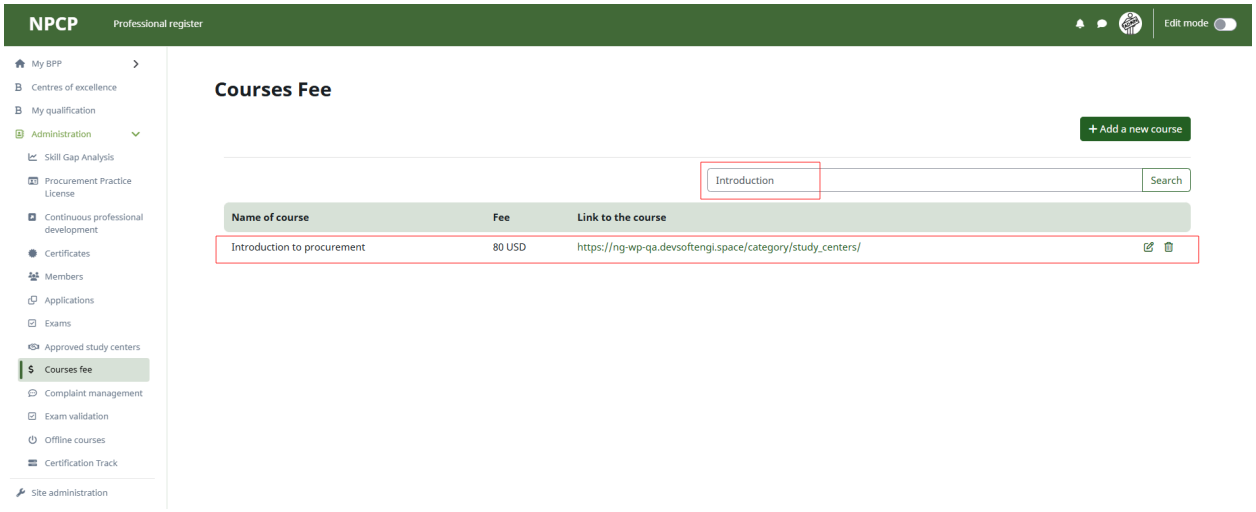


Confirm the action



HOW TO SEARCH THE RECORD OF COURSE BY NAME

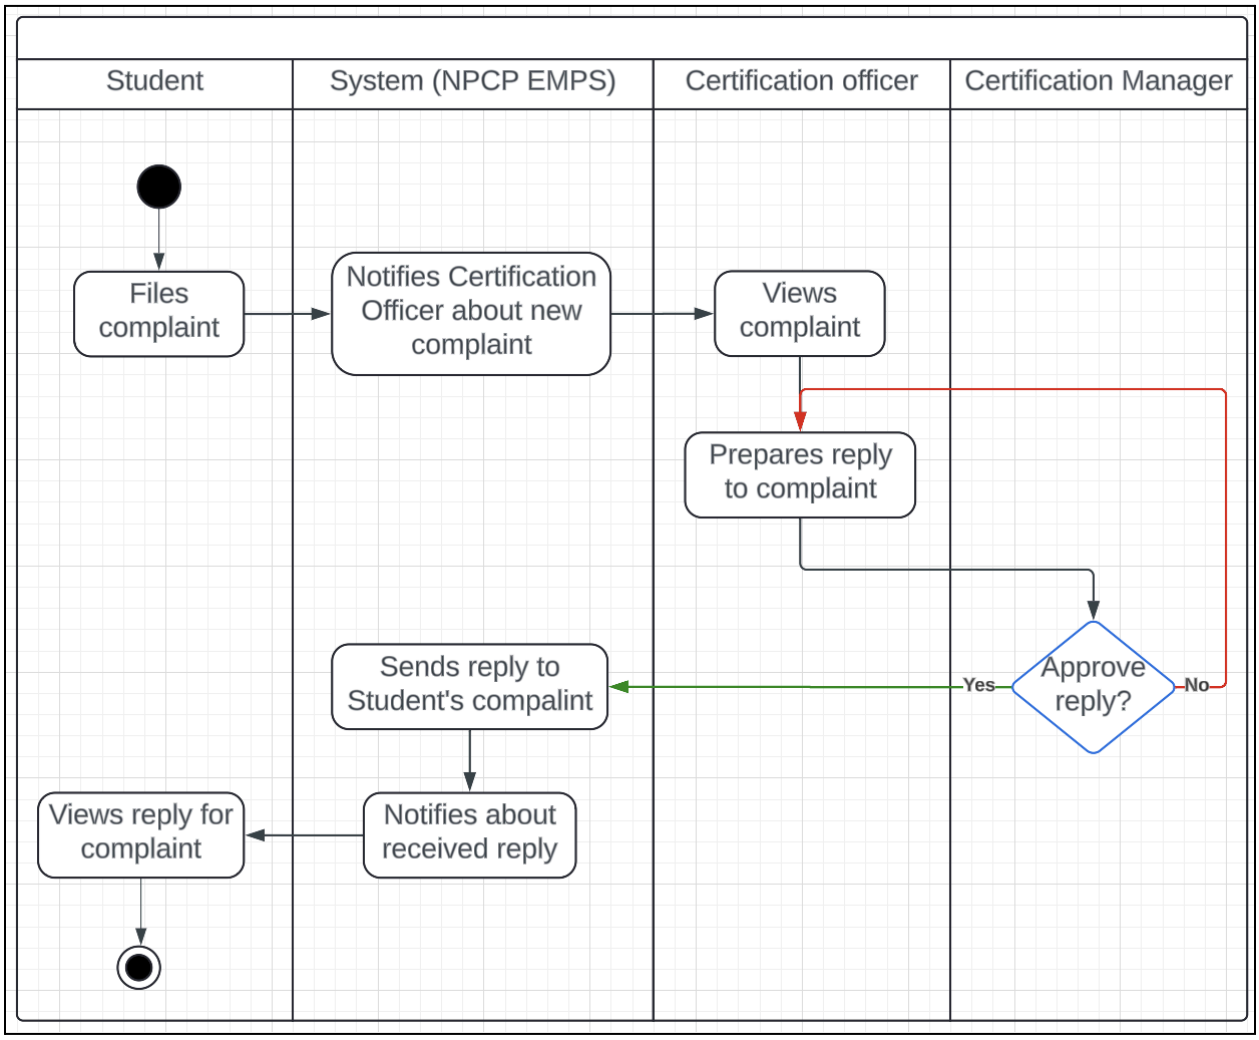
The system allows you to search the record by name. Enter the name of the record in the search field and click Enter.



7.3 COMPLAINT PROCESS

The system allows students to file complaints about certification refusals and enables managers to review received complaints and issue decisions on them. The diagram below captures the flow of how a student's complaint is handled in the NPCP Exam Management and Proctoring System (EMPS). The process starts with the student filing a complaint, which the system then alerts to the Lead Certification Officer. The officer takes a look at the complaint and drafts a response.

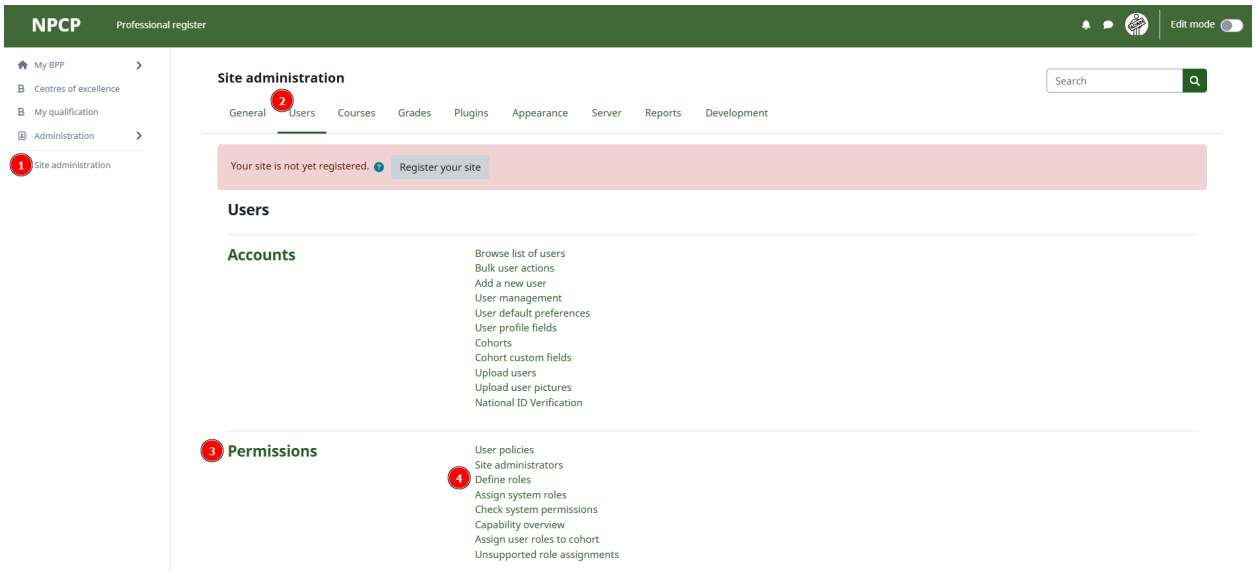
Before this response goes to the student, it needs to be approved by the Certification Manager. If the manager approves it, the system sends the reply back to the student and notifies everyone involved. If not, it’s back to the officer for more work. Finally, the student receives the reply, bringing the process full circle. The whole thing is about ensuring complaints are addressed systematically, with checks and approvals along the way.



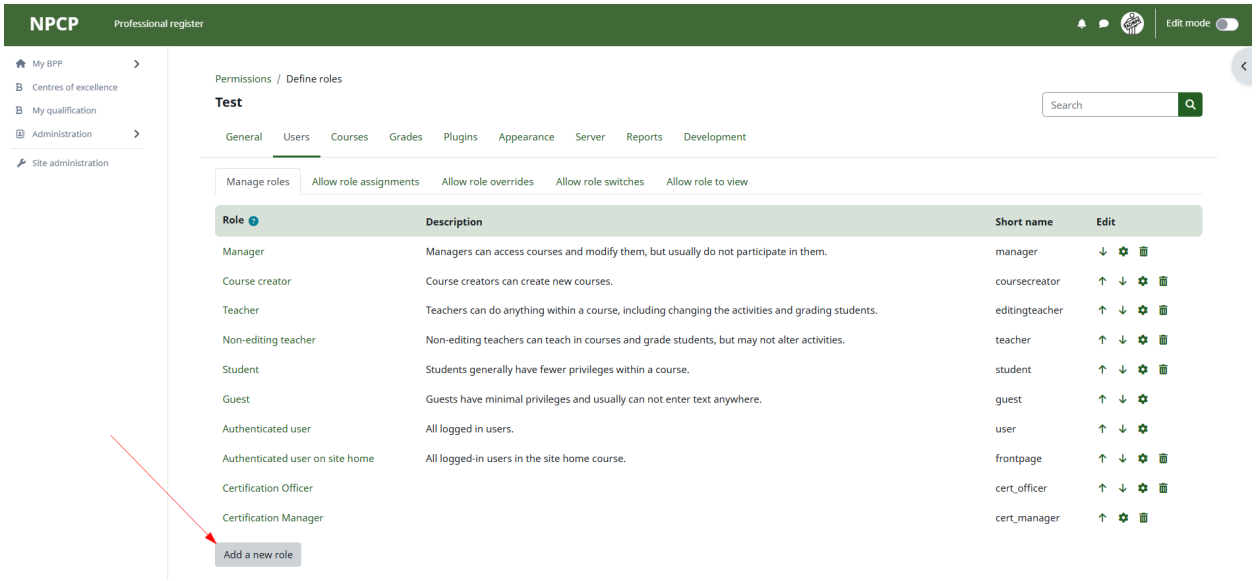
7.3.1 HOW TO CREATE SYSTEM ROLE

To demonstrate the complete process of a student filing a complaint, it is necessary to create system users and the roles of "certification officer" and "certification manager".

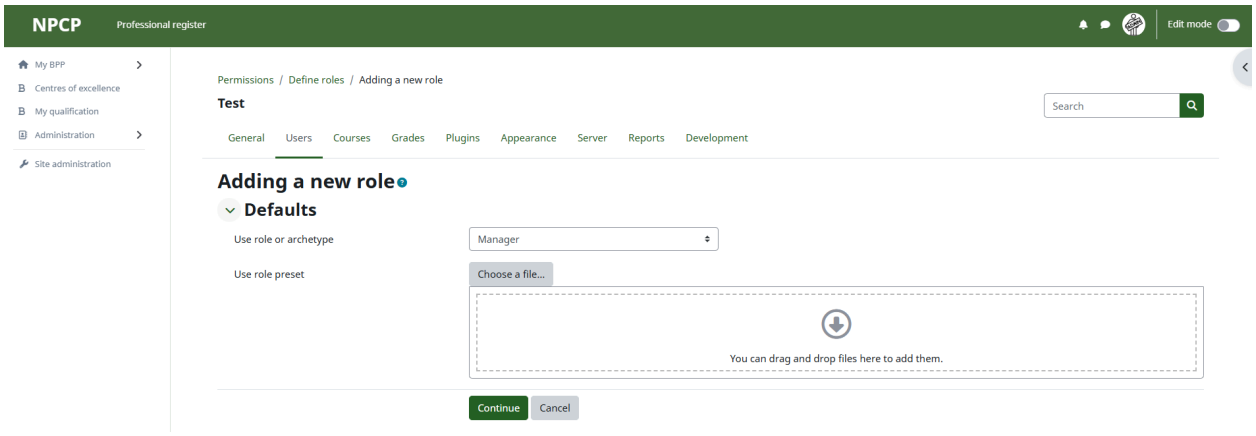
Log in to SIS as site admin. Click the menu “Site-admin” -> “User” -> “Permission” -> Define roles



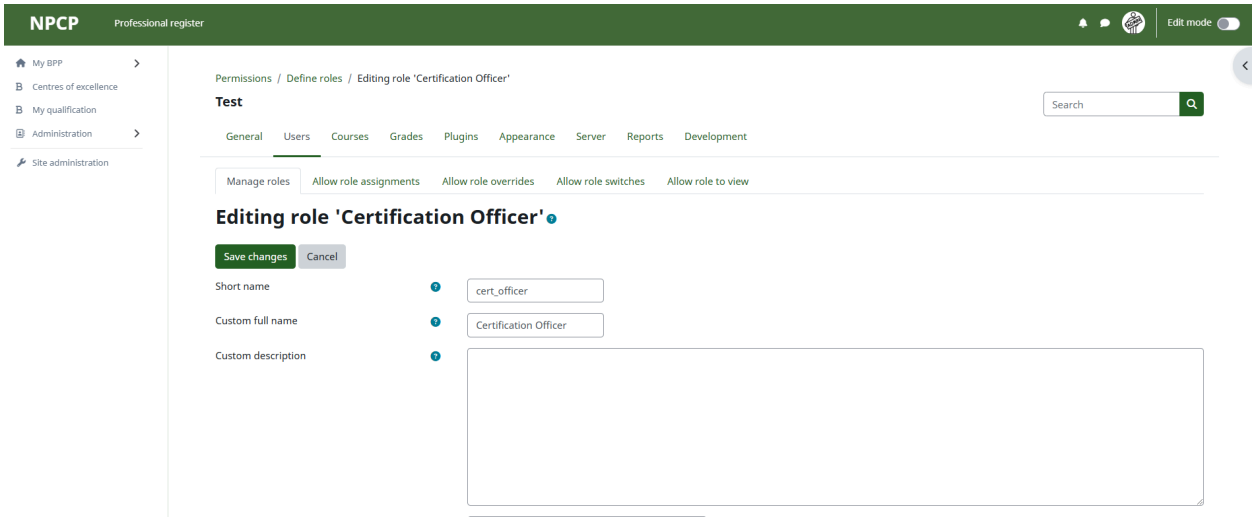
The roles "certification officer" and "certification manager" are created based on the main role of "Manager"
Click the button “Add new role”



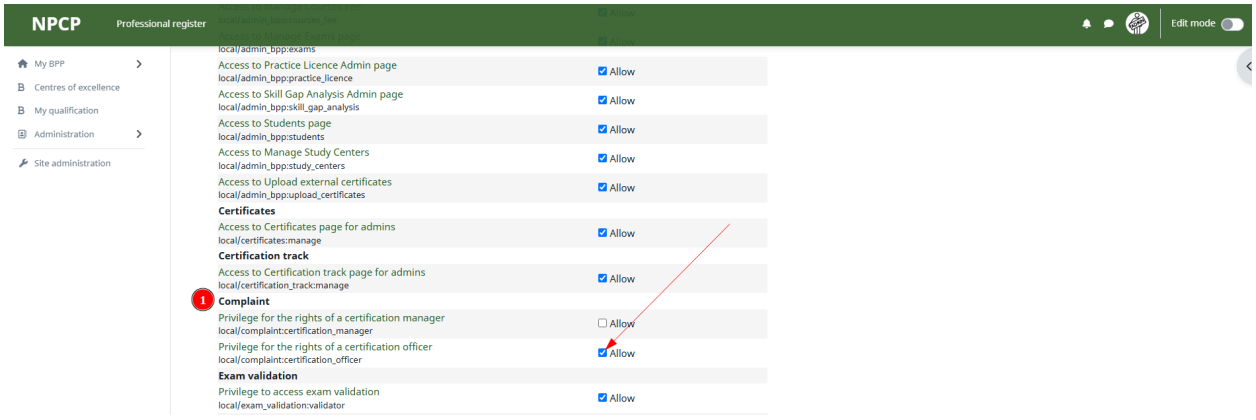
On the field “Use role or archetype” select “Manager” and click “Continue”



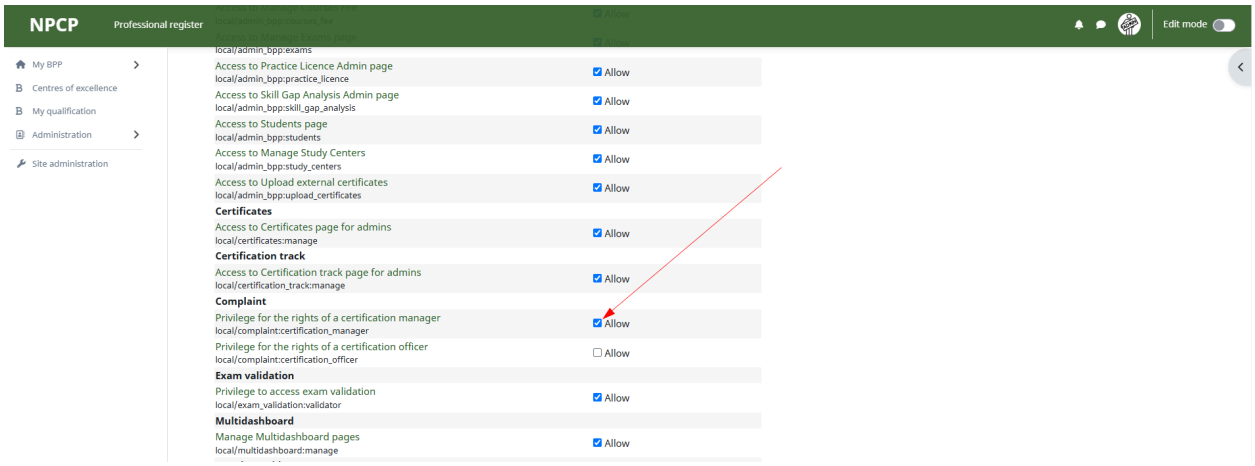
On the form enter “short name” and “custom full name”.



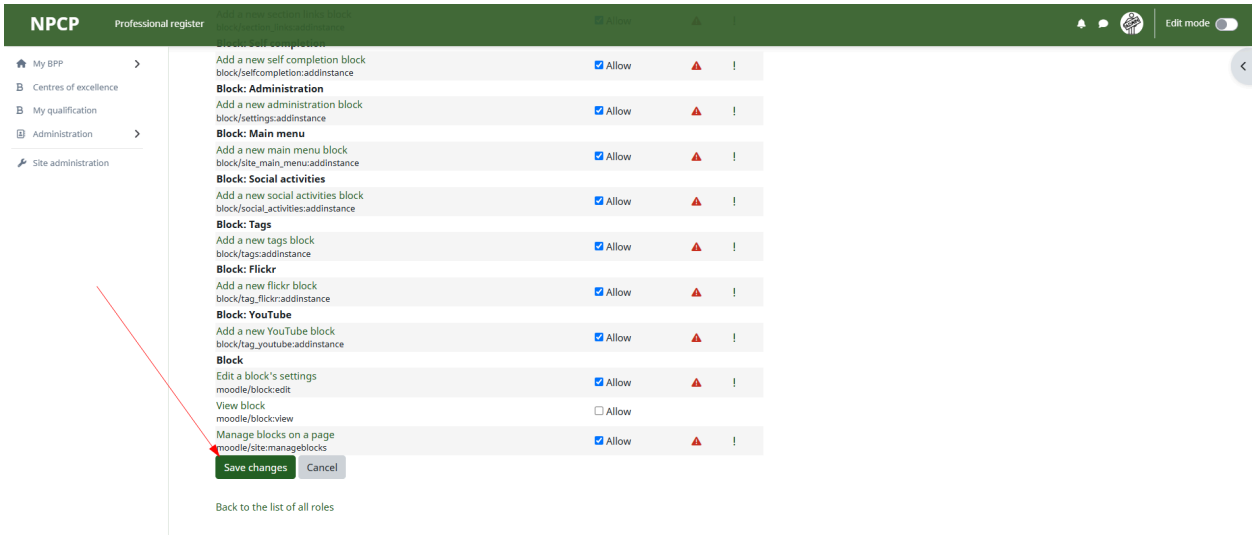
Scroll down to the 'Capability' list to locate 'Complaint' and block it. For the 'Certification Officer' role, set the value to 'Privilege for the Rights of a Certification Officer' and check the 'Allow' box as YES.



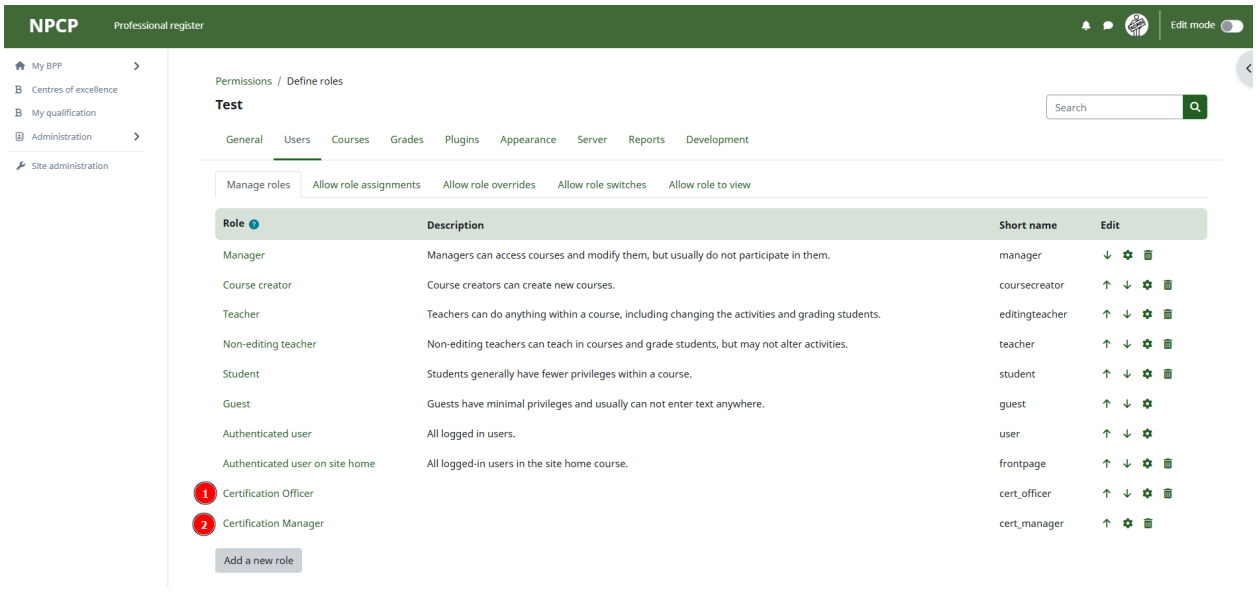
Scroll down to the 'Capability' list to locate 'Complaint' and block it. For the 'Certification Manager' role, set the value to 'Privilege for the Rights of a Certification Manager' and check the 'Allow' box as YES.



Click the button “Save changes” down on the screen.



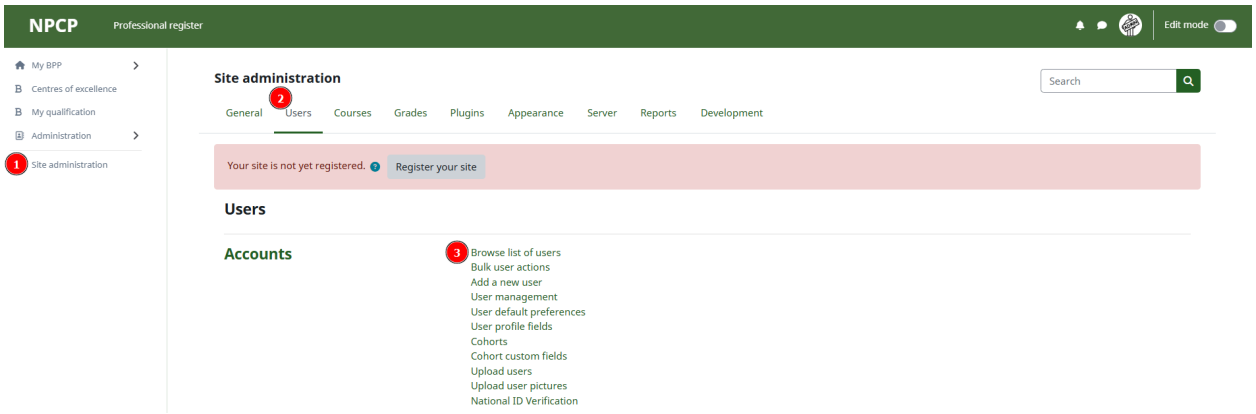
The roles “Certification Officer” and “Certification Manager” are created.



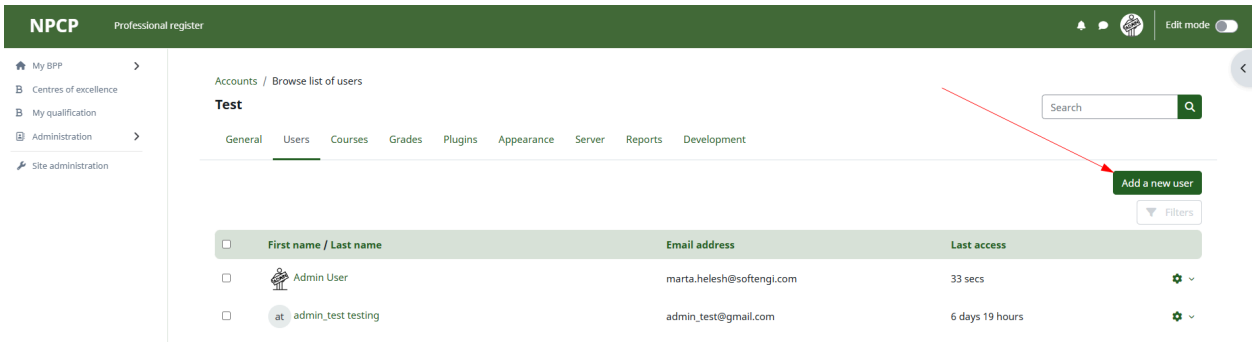
7.3.2 HOW TO CREATE SYSTEM USER

To demonstrate the complete process of a student filing a complaint, it is necessary to create the system users for the roles of "certification officer" and "certification manager".

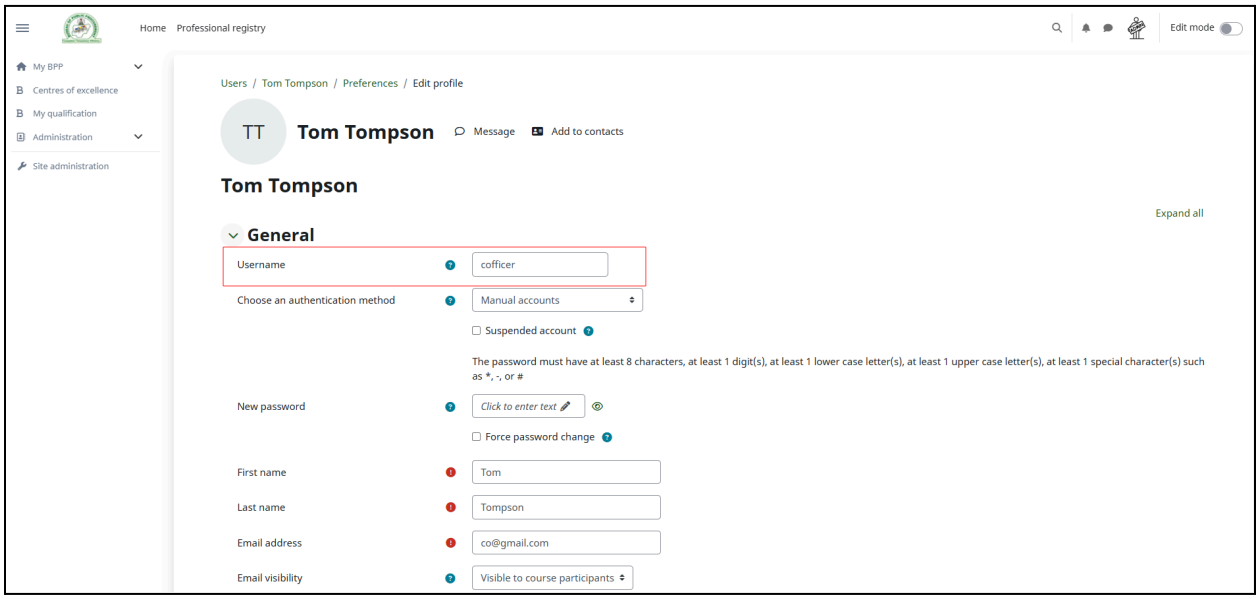
Log in to SIS as site admin. Click the menu “Site-admin” -> “User” -> “Browse the list of users”



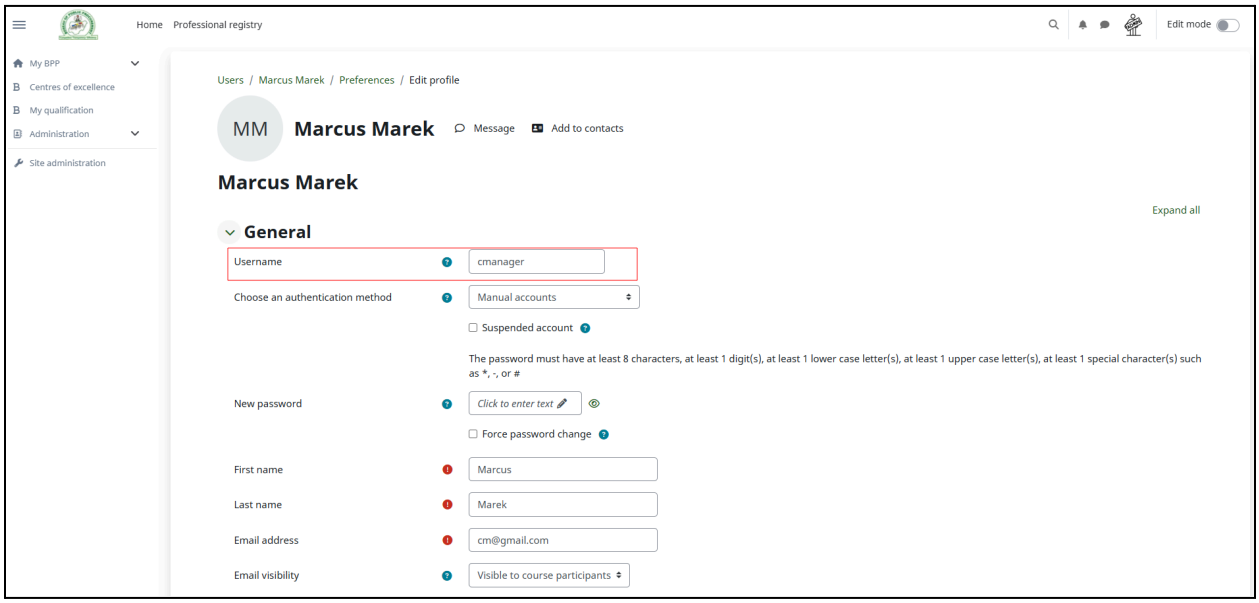
Click the button “Add a new user”



Enter the Username, authentication method, new password, first name, last name, email address, and other fields for the user “Certification officer”



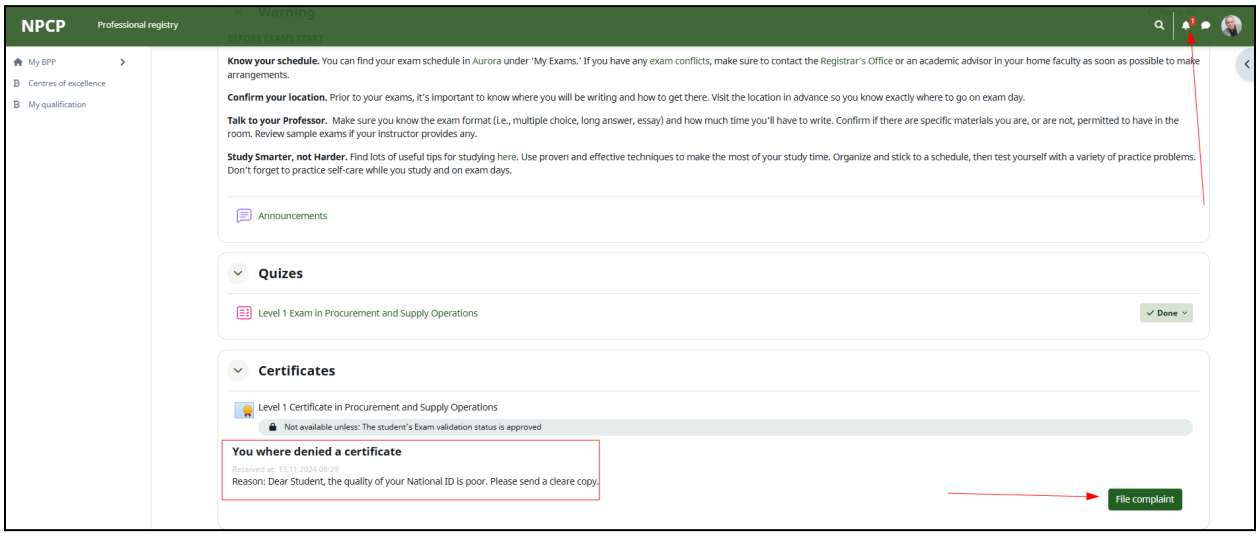
Enter the Username, authentication method, new password, first name, last name, email address, and other fields for the user “Certification Manager”

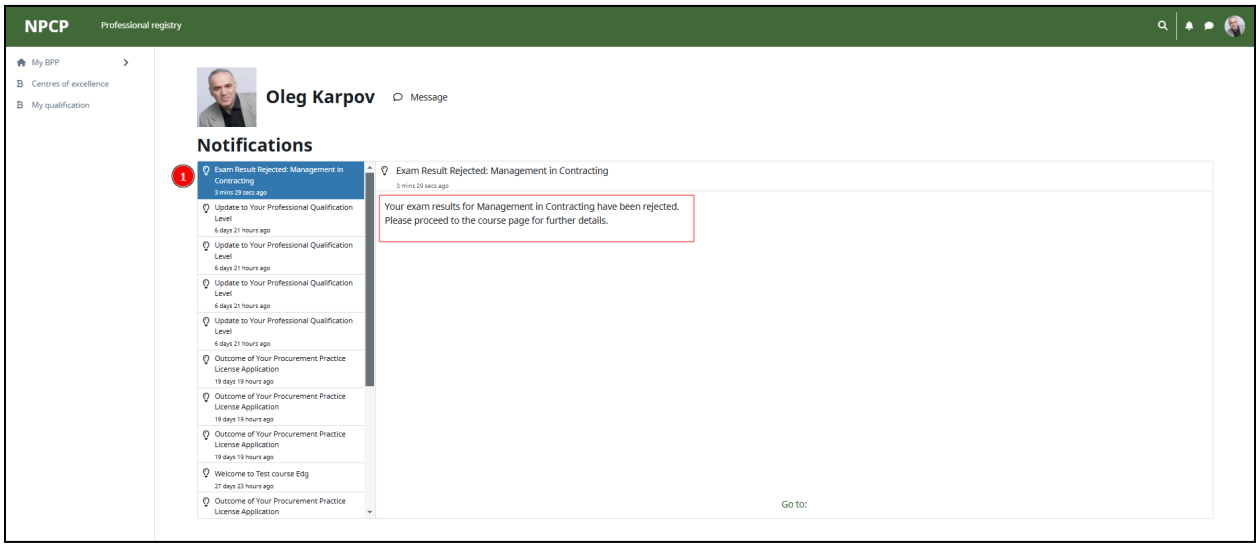


7.3.3 HOW TO SUBMIT A STUDENT COMPLAINT

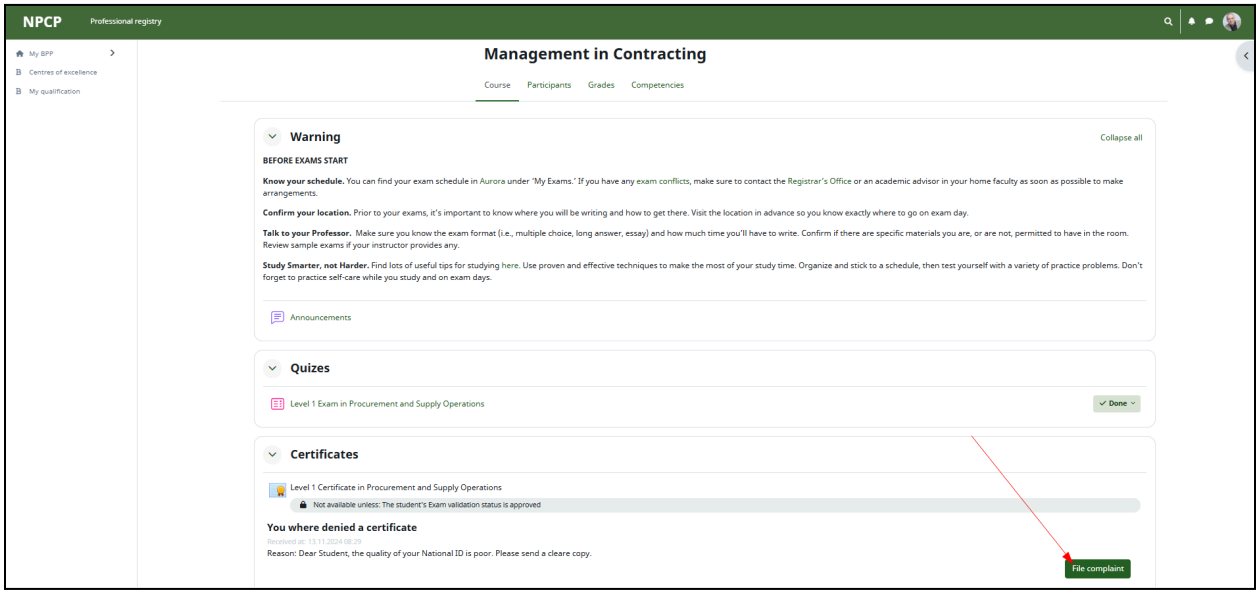
After a student receives an exam rejection, they are notified of the reason for the rejection and informed of their right to file a complaint.

Log in as a student, and open the required course. Observe the reason for rejection. Click the button “Toggle notification menu” to view the notification.

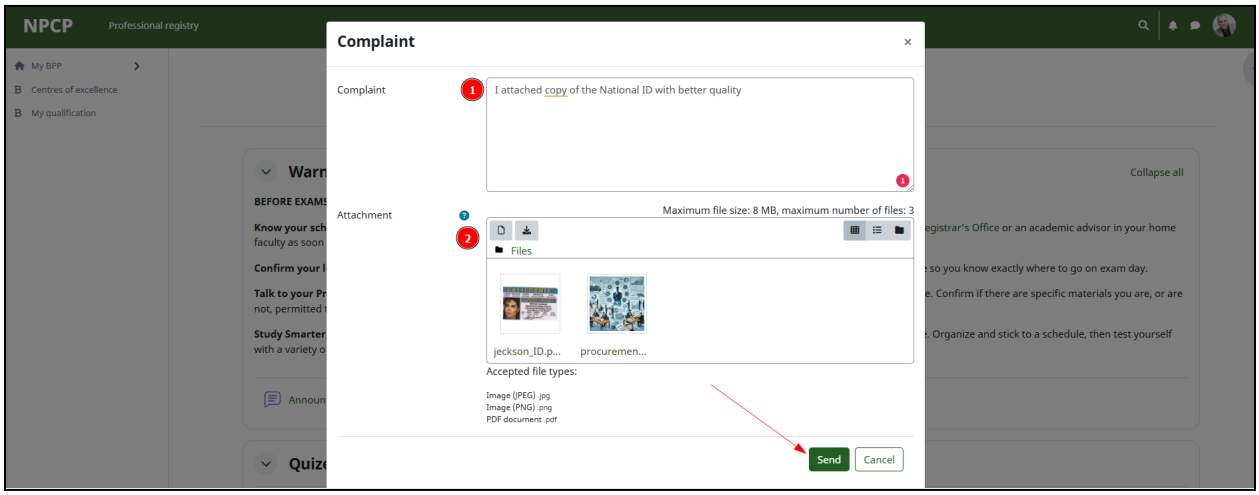




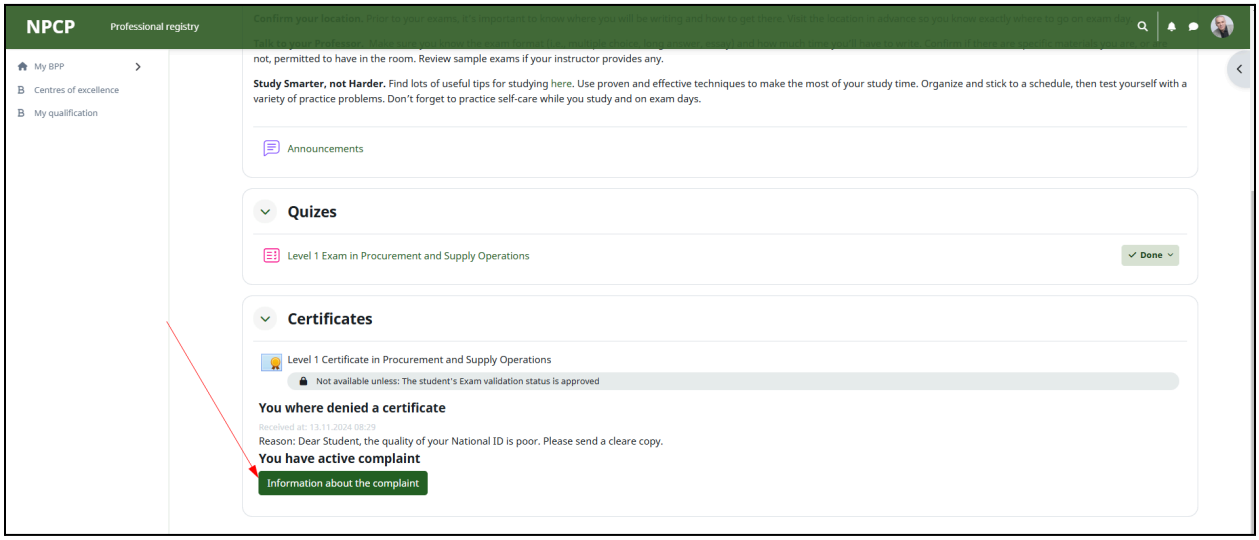
Click the button “File complaint”

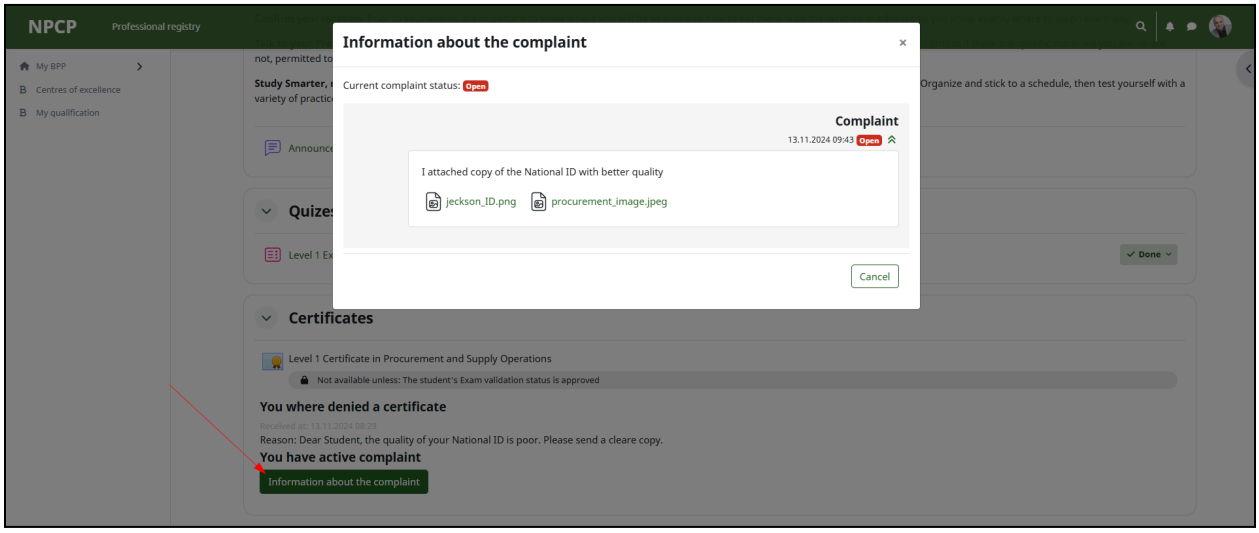


Fill in the complaint and add an attachment, click the button “Send”.



The complaint is sent to the officer, and students can view information about the complaint and status.

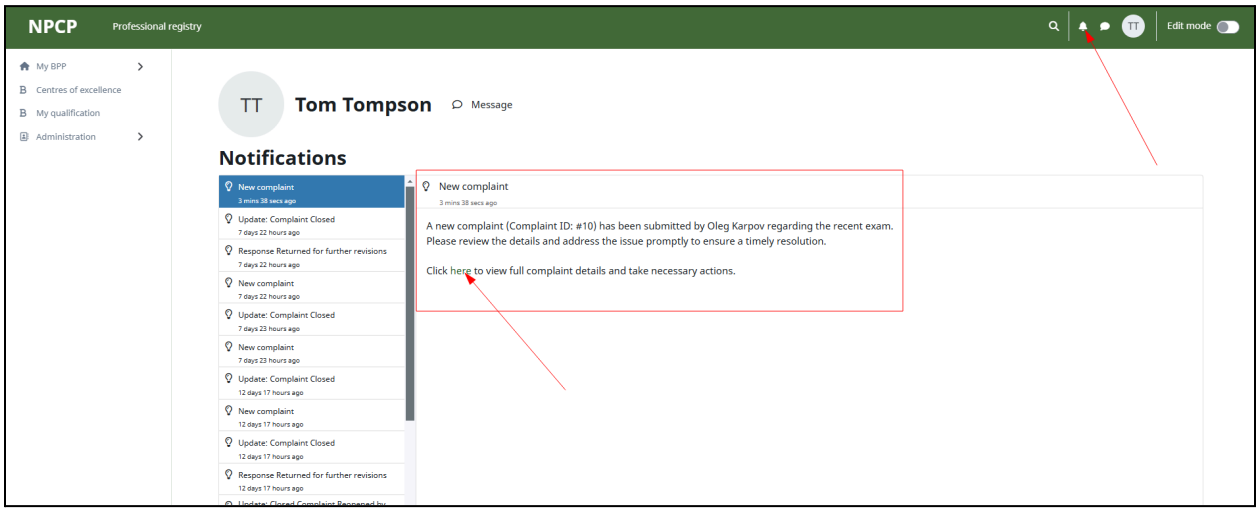




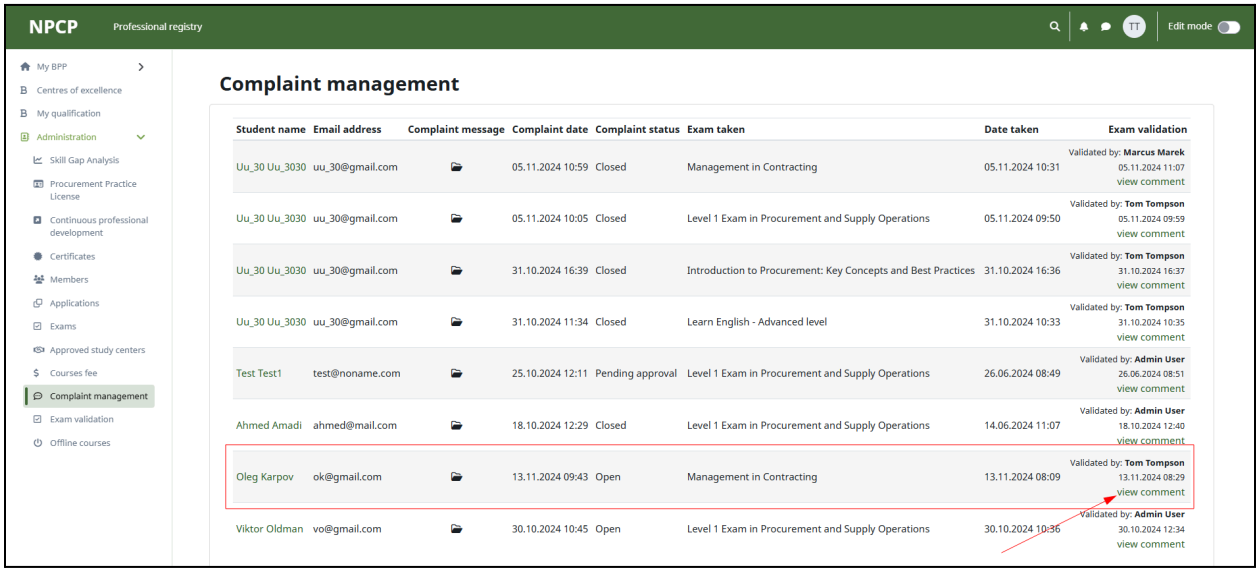
7.3.4. HOW TO WORK ON RESOLVING THE COMPLAINT

The filed student complaint is submitted to the certification officer. The certification officer receives a notification about the complaint, opens it, adds comments, and forwards it to the certification manager for processing.

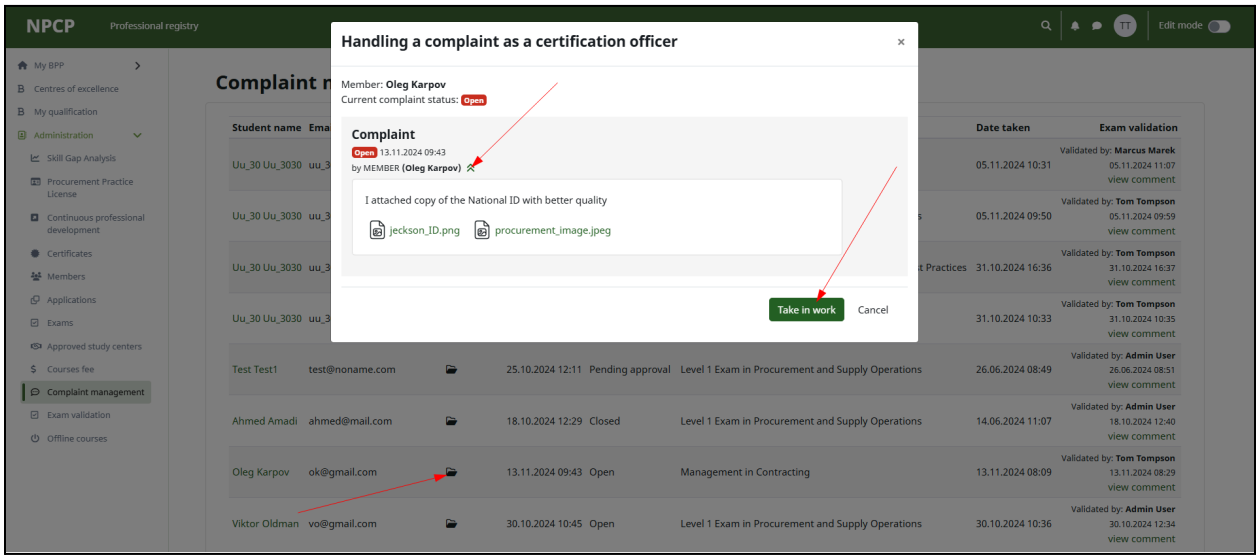
Log in as a Certification Officer and click on the button “Toggle notification menu”



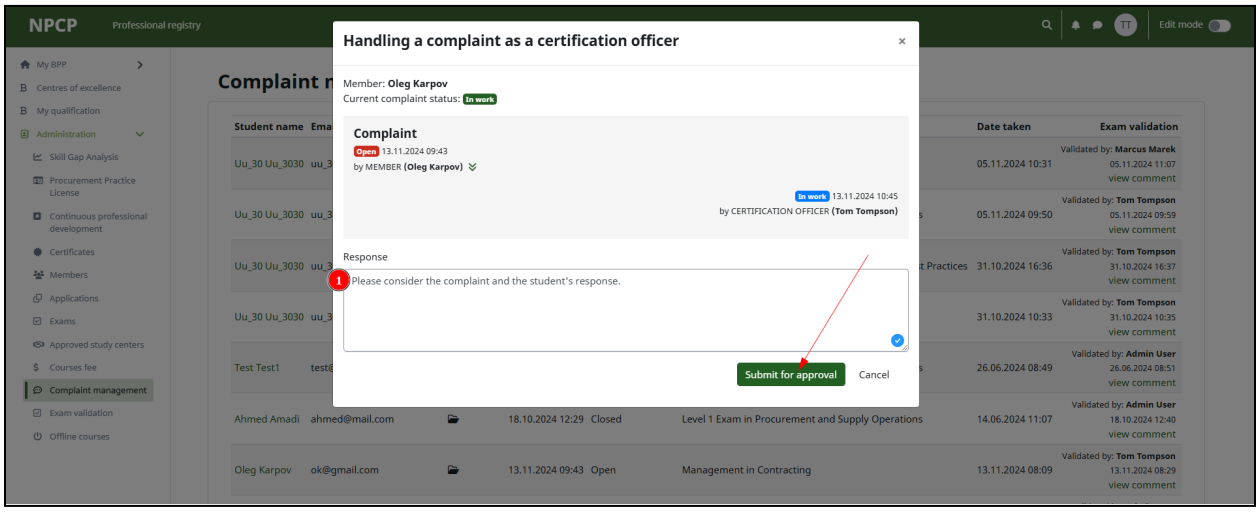
Navigate to the menu “Administration” -> “Complaint management” and select the required complaint. Click the button “view comment” to view the comment.



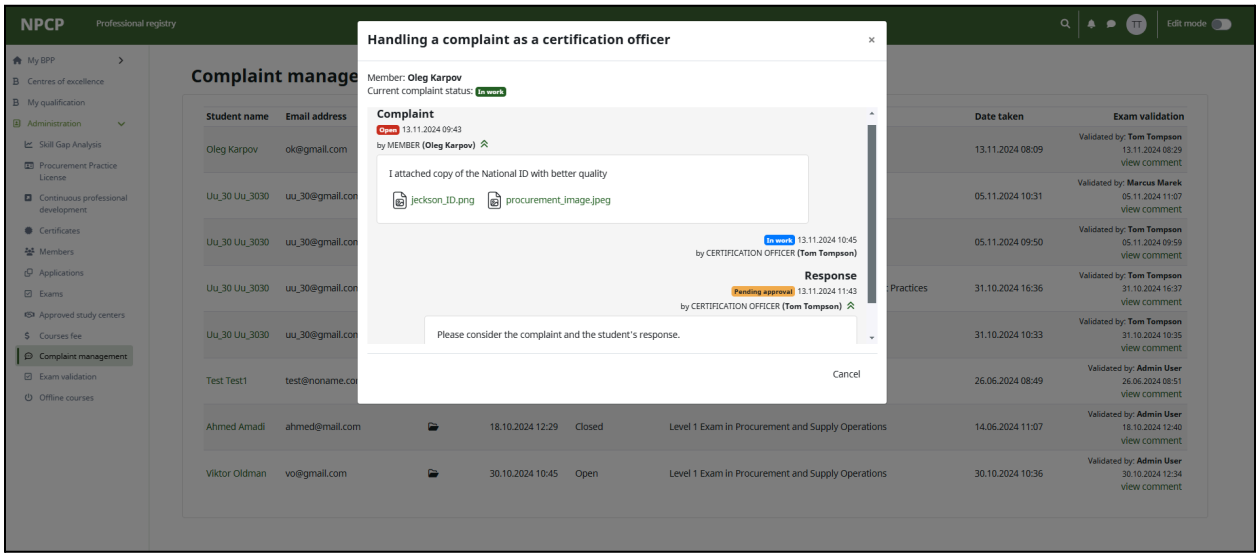
Click on the button “Complaint message”, click on the accordion to view the student`s complaint, and click the button “Take in work”.



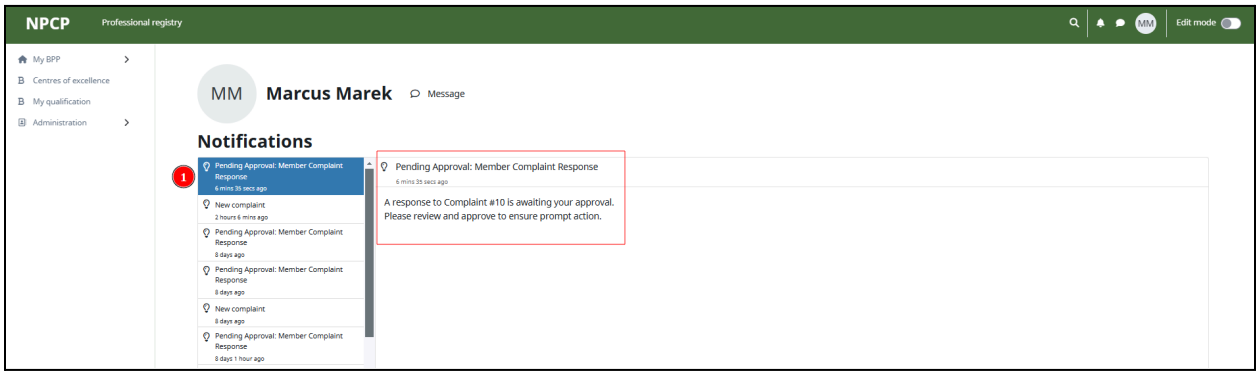
The Certification Officer enters the response for the Certification Manager and click the button “Submit for approval”



The complaint has been sent to the Certification Manager.

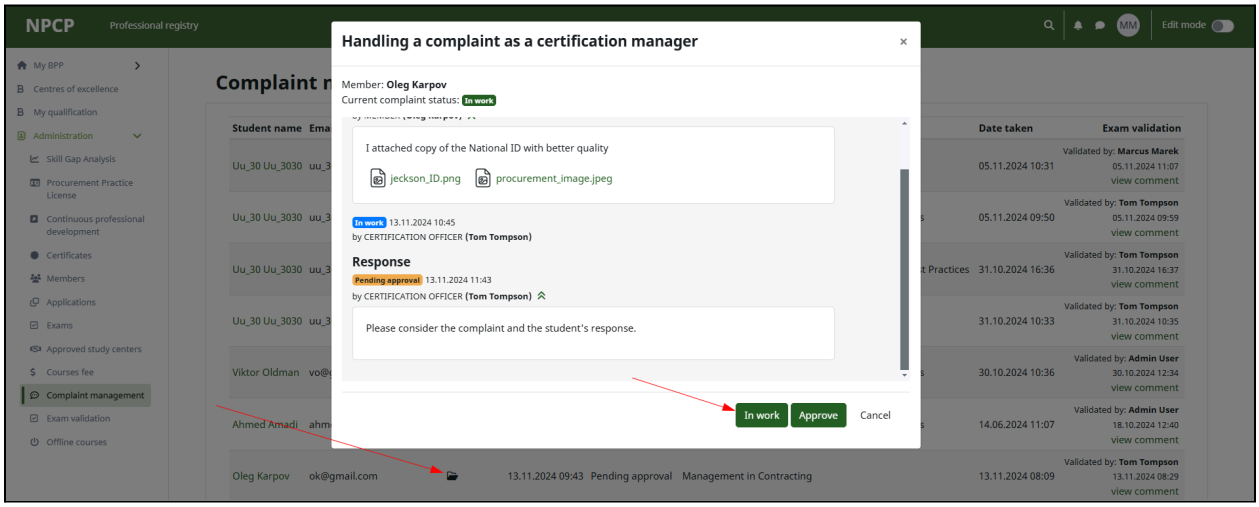


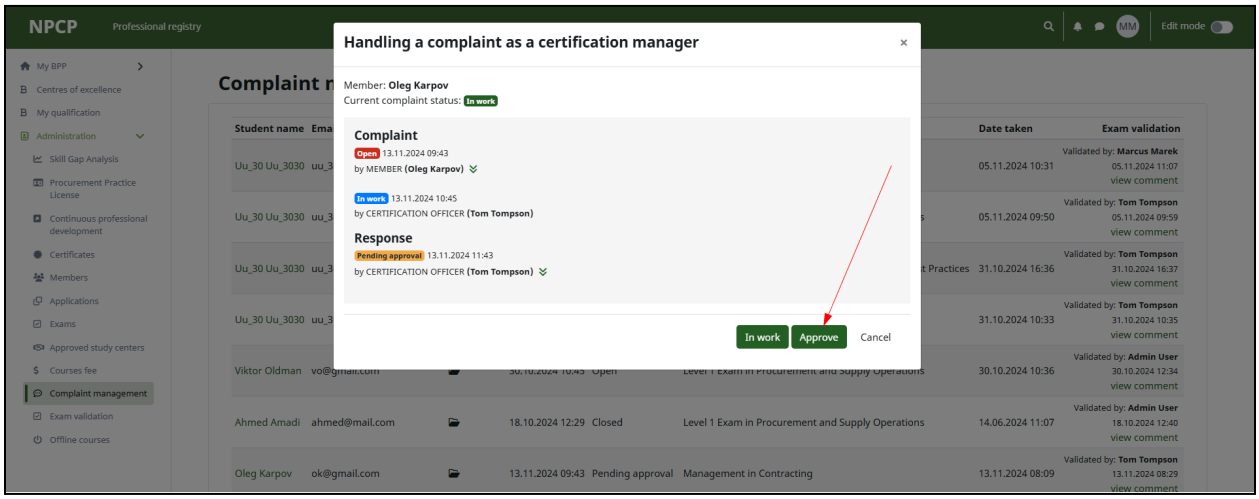
Log in as Certification Manager. Click on the button “Toggle notification menu” to view the notification

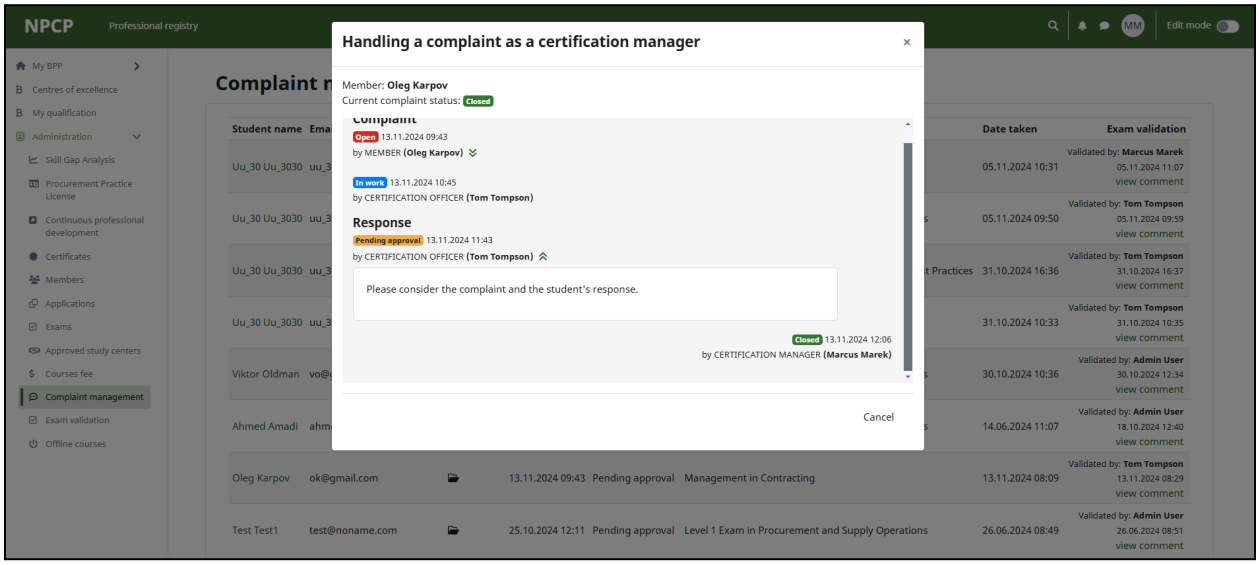


Navigate to the 'Administration' menu, then select 'Complaint Management.' Choose the required complaint and click the 'Complaint Message' button.

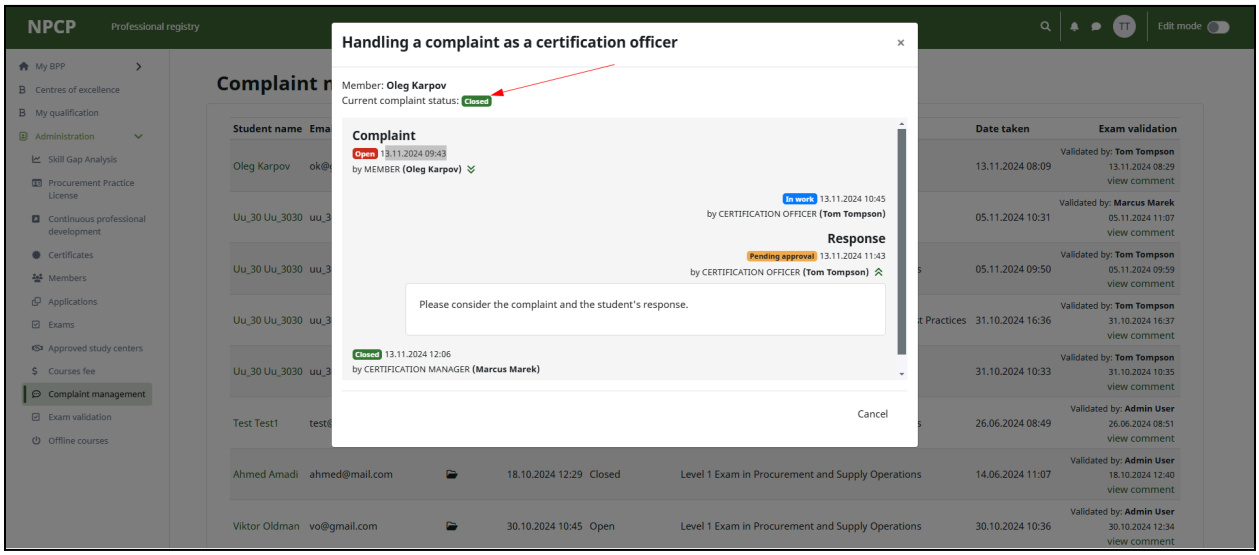
The Certification Manager reviews the reply to the complaint and can either request additional details by sending it back to the Certification Officer or approve the reply directly. To begin working on the complaint, click the **"In Work"** button. To approve the reply, click the **"Approve"** button.





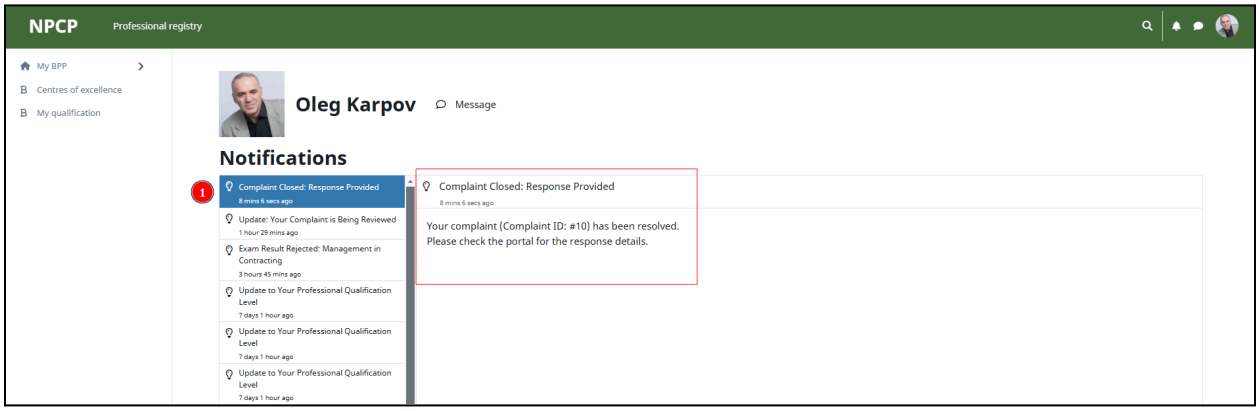


The status of the complaint became “Closed”.

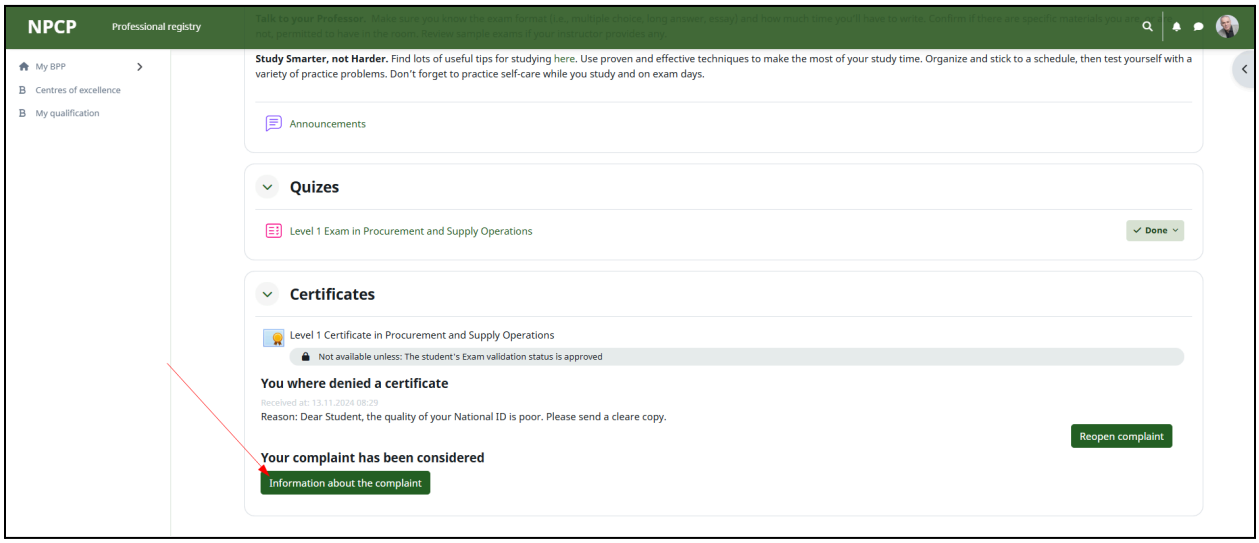


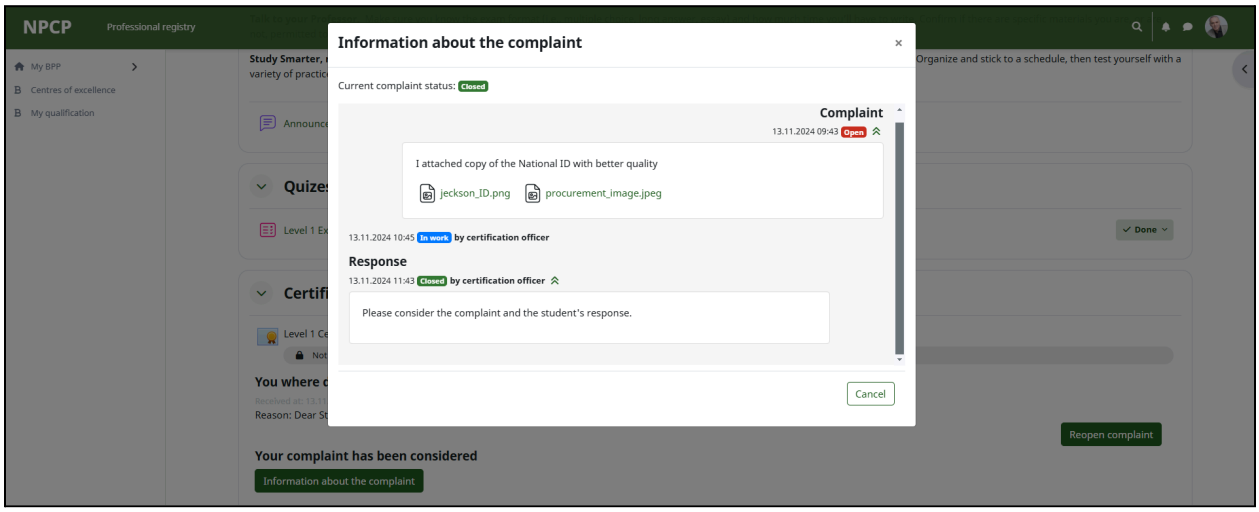
The student receives the notification about the approval complaint and can view it on the web.

Log in as a student. Click the button “Toggle notification menu”



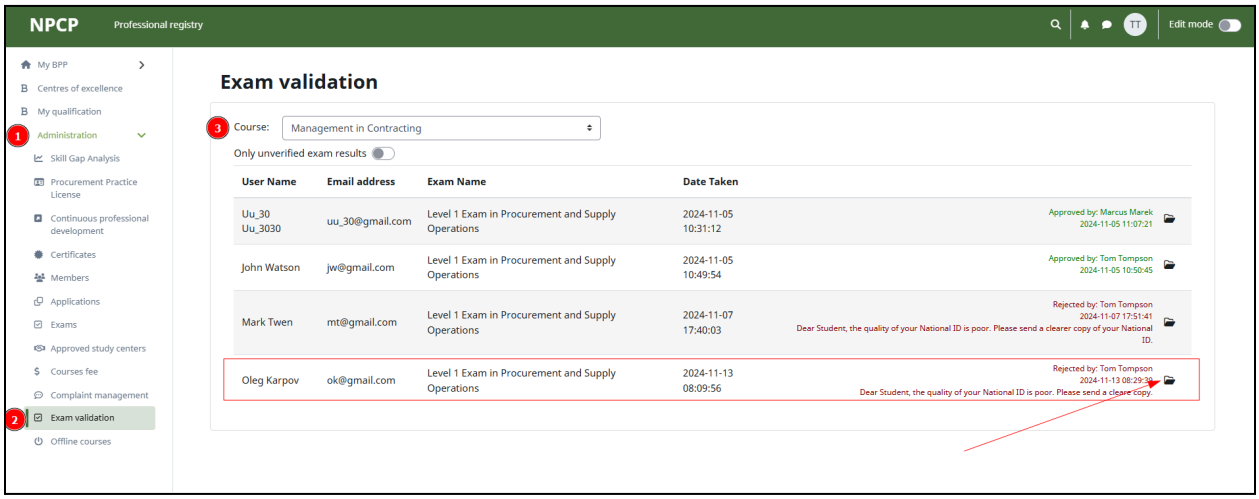
Select the required course to view the result and status of complaint.



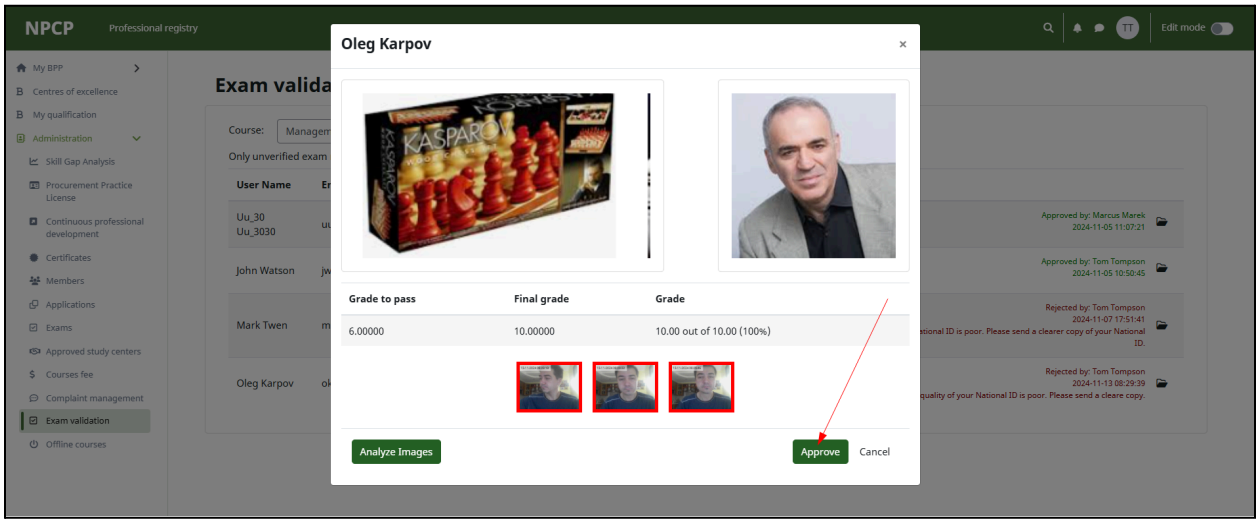


A positive response to a complaint does not automatically activate the certificate. The certification officer must verify the exam result to activate the certificate.

Log in as the Certification Officer, navigate the menu “Administration” -> “Exam validation” -> select the required course -> click the button



On the pop up click the button “Approve”



The result is approved.

Log in as the student, select the required course click on the certificate

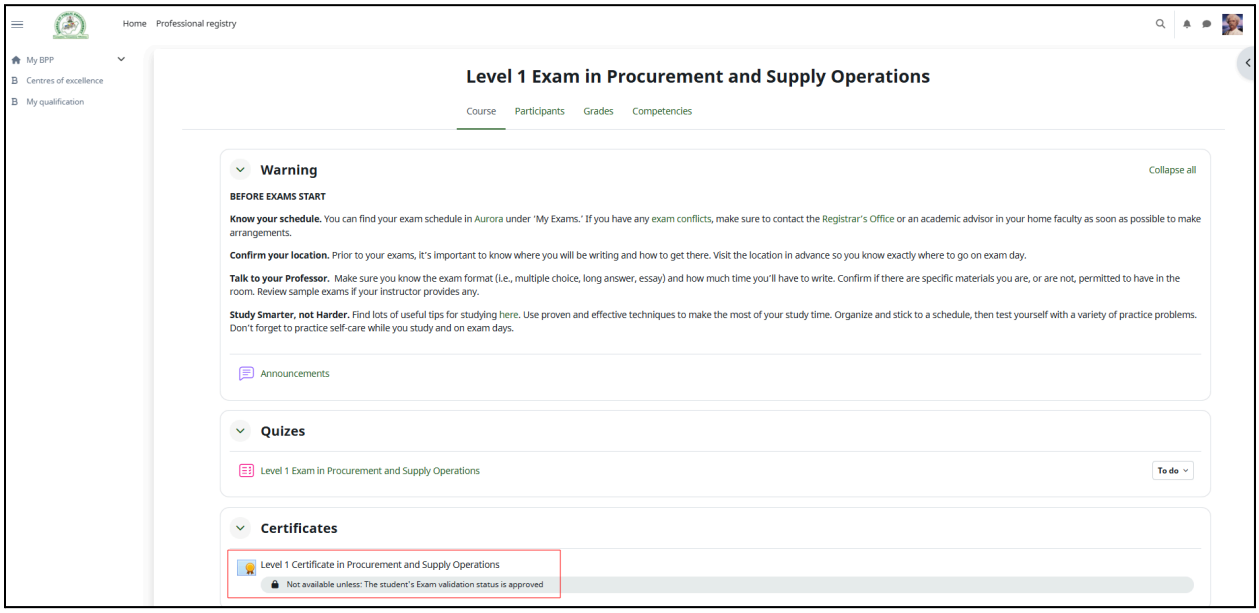
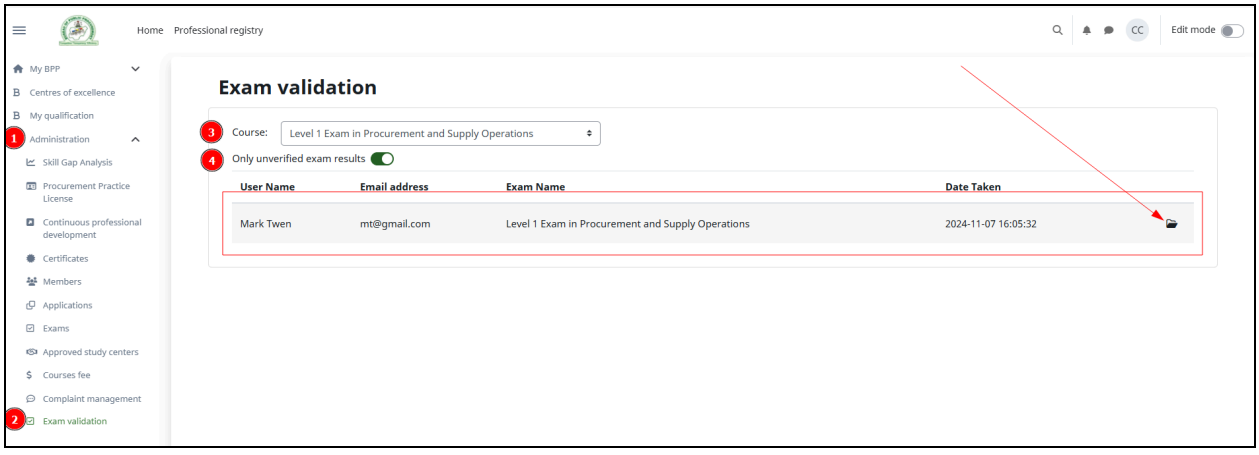
7.4. HOW TO VALIDATE EXAM

After successfully passing the exam, the student's certificate remains unavailable, and the result is sent for validation by the Certification Officer.



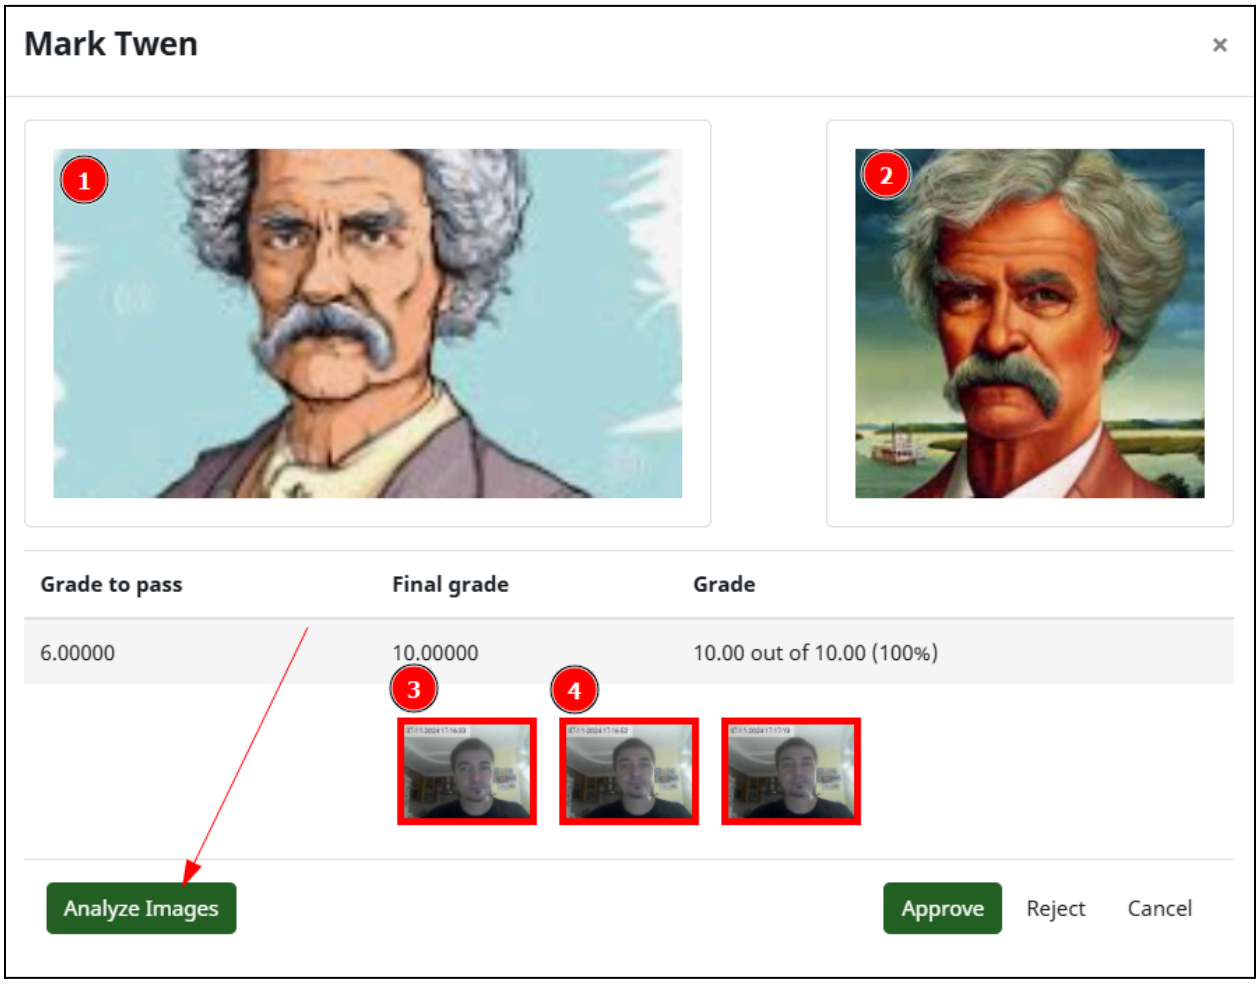
Log in as a Certification Officer. Navigate to the menu Administration -> Exam Validation. In the Course field, select the required course, and set the Only Unverified Exam Results toggle to YES.

In the grid, the user's name, email address, exam name, date taken, and a button to analyze results for approval or rejection are displayed.



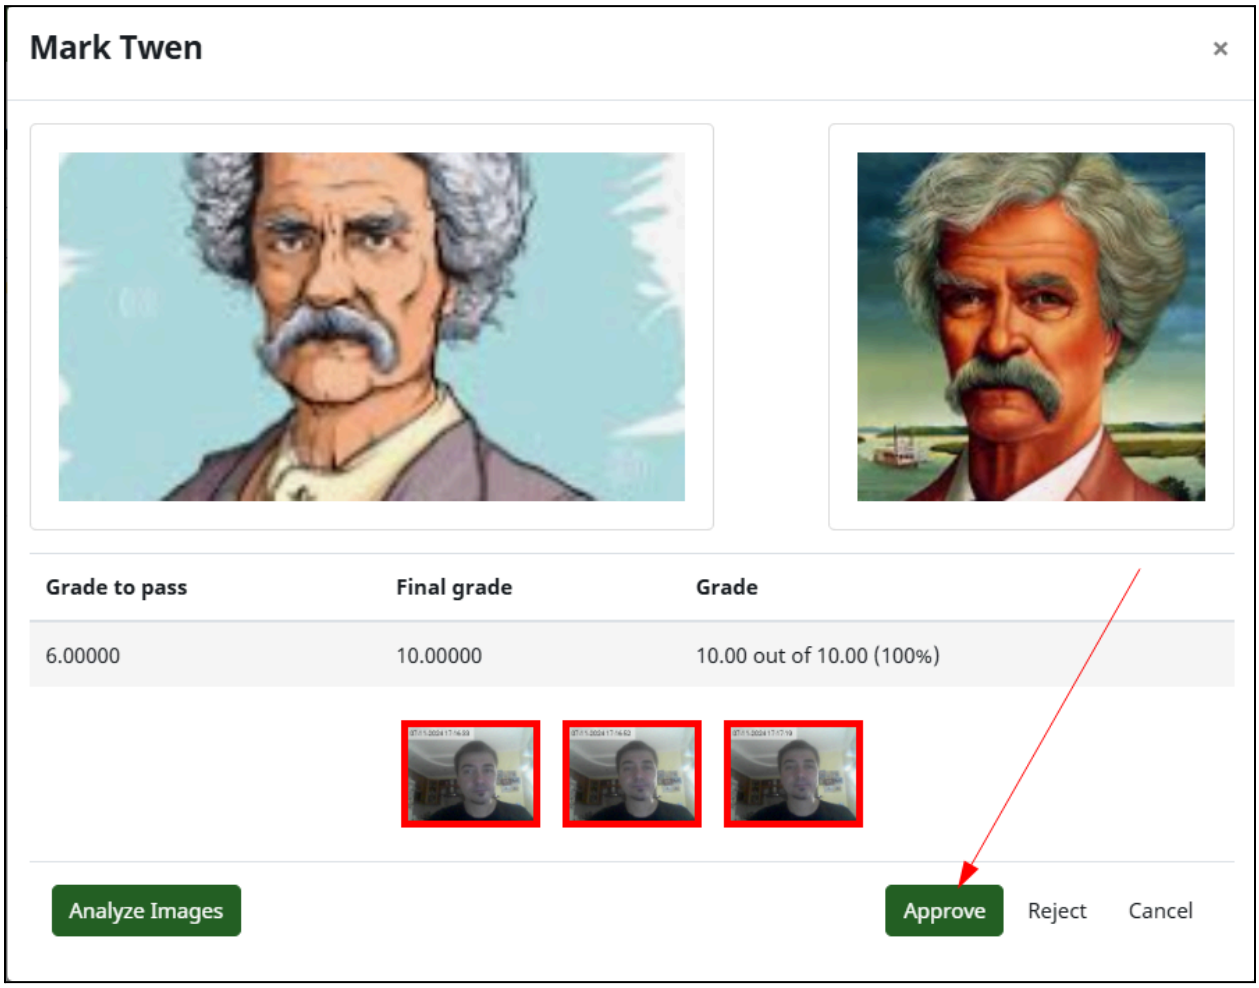
Click the Analyze Image button. The system allows you to compare the original photo with a national ID, and view the “Grade to pass”, “Final grade”, and “Grading”. When you click the Analyze Image button, the Facial Recognition module will compare the webcam photo with the student’s original photo.

A red border around the webcam photo indicates that the Facial Recognition module did not recognize a face, while a green border indicates successful recognition.

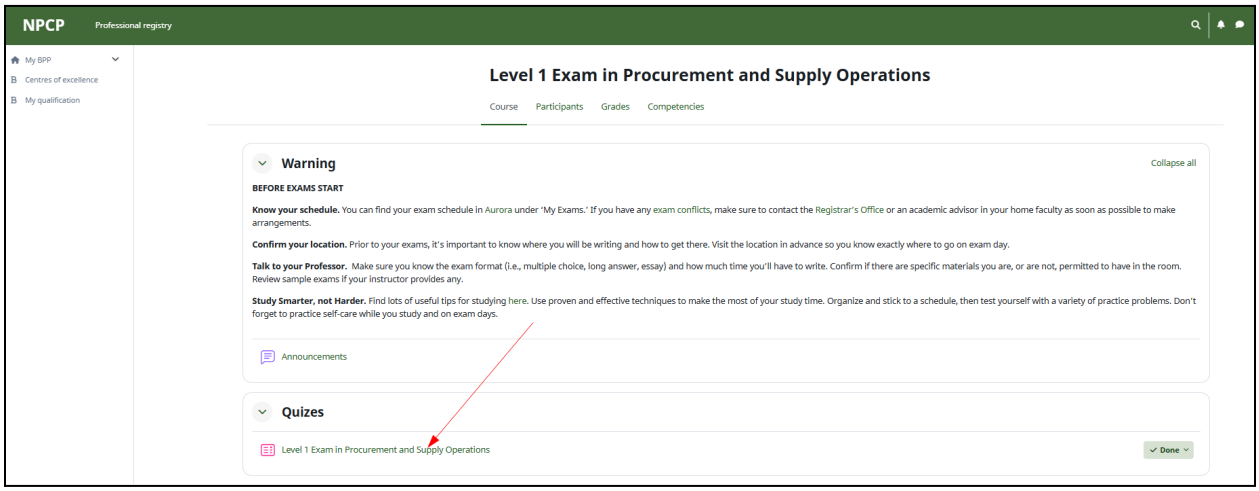


The system allows approval, rejects the results of exams, and cancels the action. If the certification officer evaluates all parameters positively, click the Approve

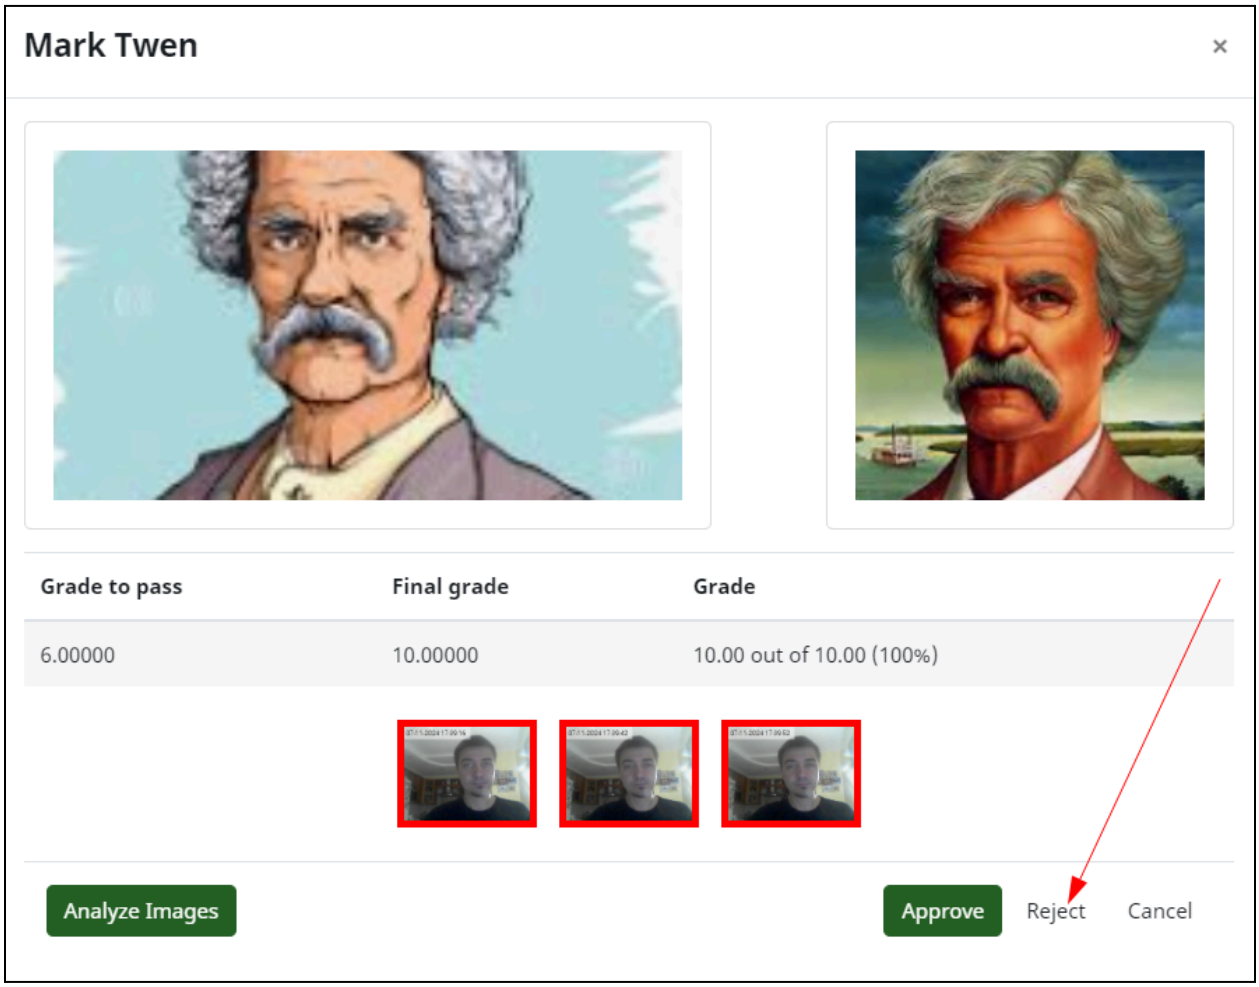
button.



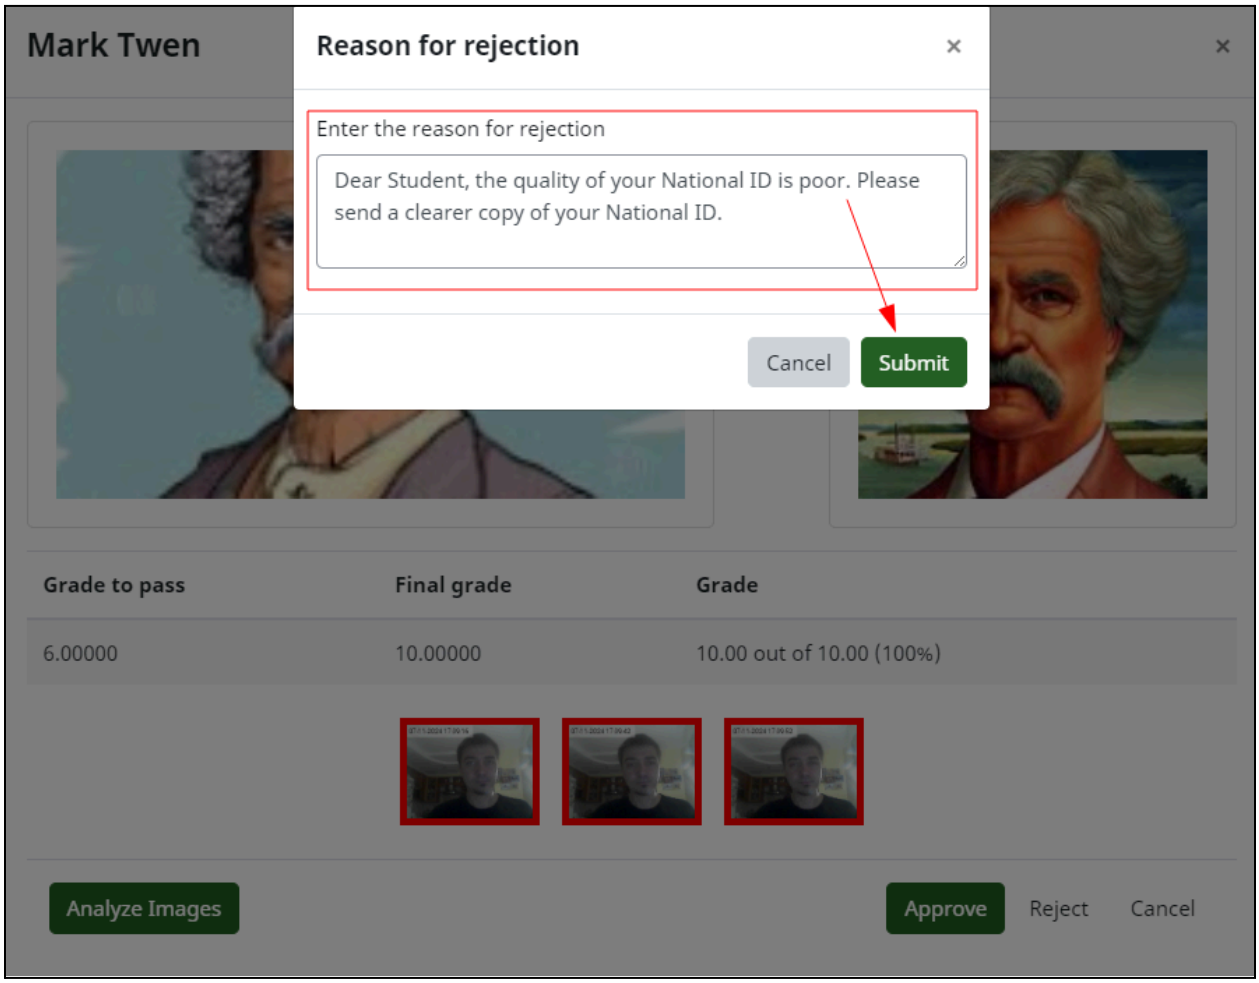
The student will receive notification of the exam results and the certificate will automatically become available.



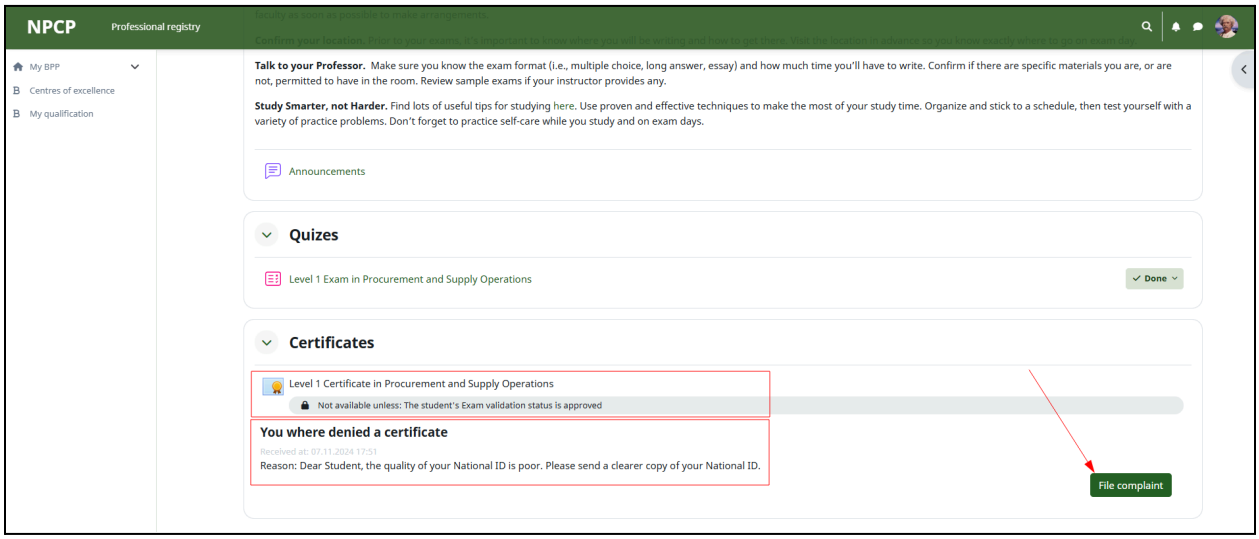
If the certification officer evaluates some parameters negatively, click the Reject button.



Enter the reason for rejection, and click the button “Submit”.



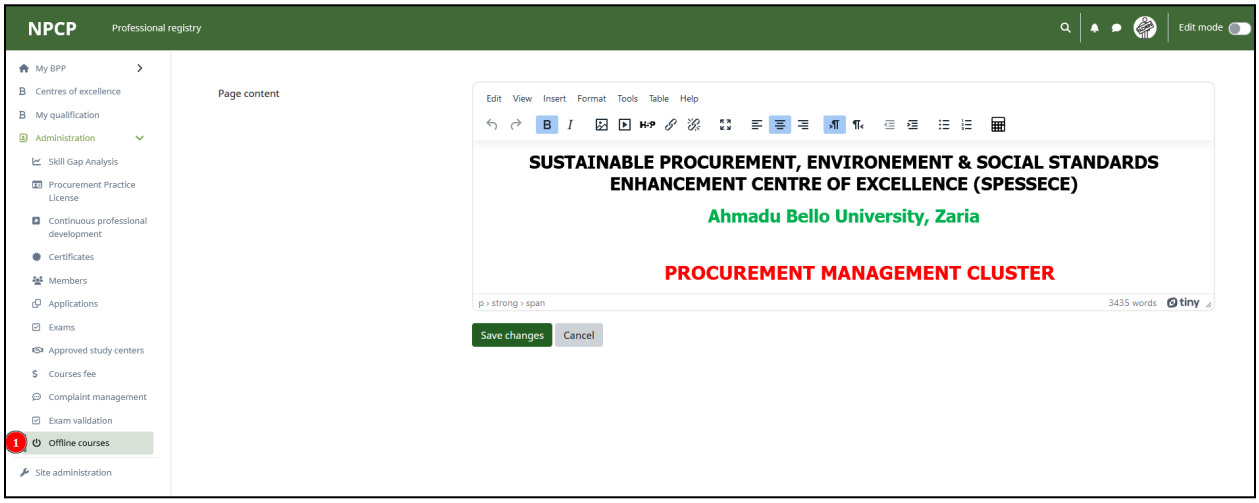
The student will be notified of the rejected exam results, and the certificate will not be active and issued. The student has the right to file a complaint.



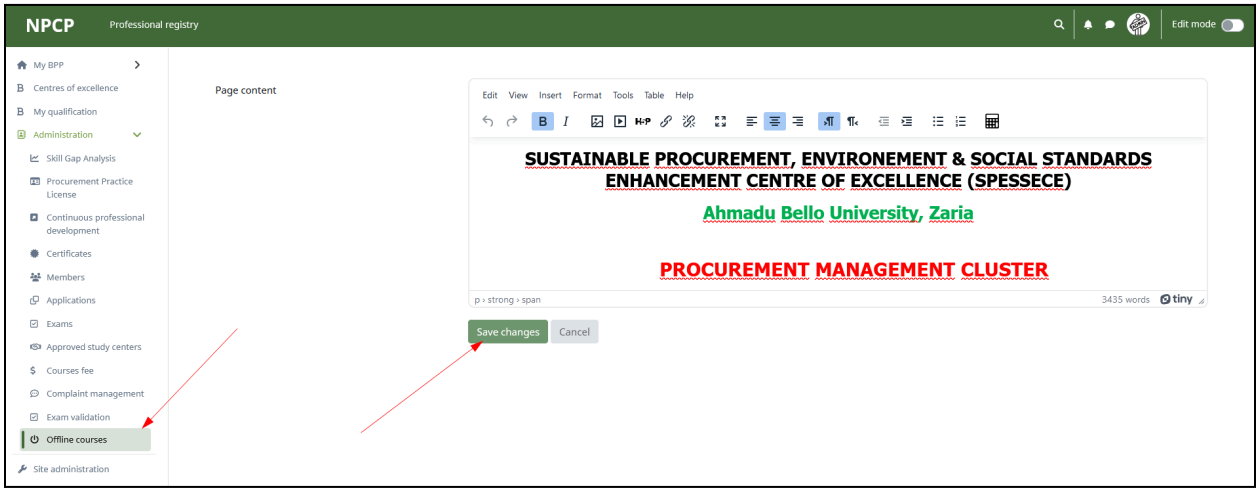
7.5. MENU “OFFLINE COURSES”

The "Offline Courses" menu provides information about courses available at external educational institutions. This option is read-only for authorized users, while the site admin has the ability to add and edit the content.

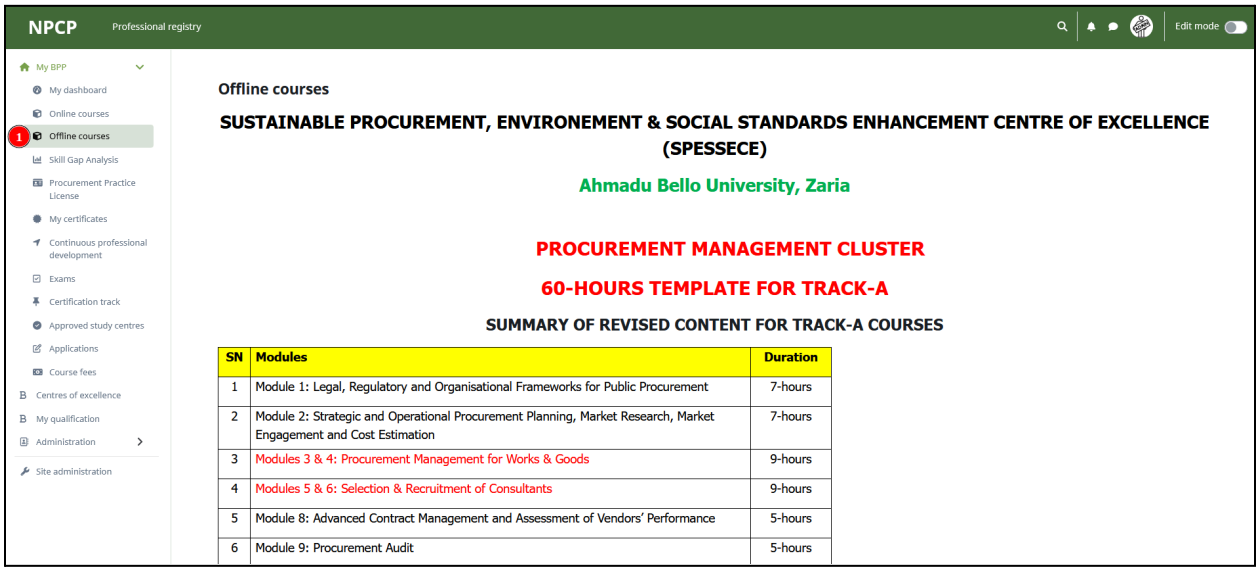
To manage offline courses, click on the menu “Administration” -> “Offline Courses.”



Enter the required content into the editor field and use the editor tools to format it as needed. Click the button “Save changes”



The content transferred to the “My BPP” -> “Offline courses” menu.



SN	Modules	Duration
1	Module 1: Legal, Regulatory and Organisational Frameworks for Public Procurement	7-hours
2	Module 2: Strategic and Operational Procurement Planning, Market Research, Market Engagement and Cost Estimation	7-hours
3	Modules 3 & 4: Procurement Management for Works & Goods	9-hours
4	Modules 5 & 6: Selection & Recruitment of Consultants	9-hours
5	Module 8: Advanced Contract Management and Assessment of Vendors' Performance	5-hours
6	Module 9: Procurement Audit	5-hours

7.6 MENU “CERTIFICATION TRACK”

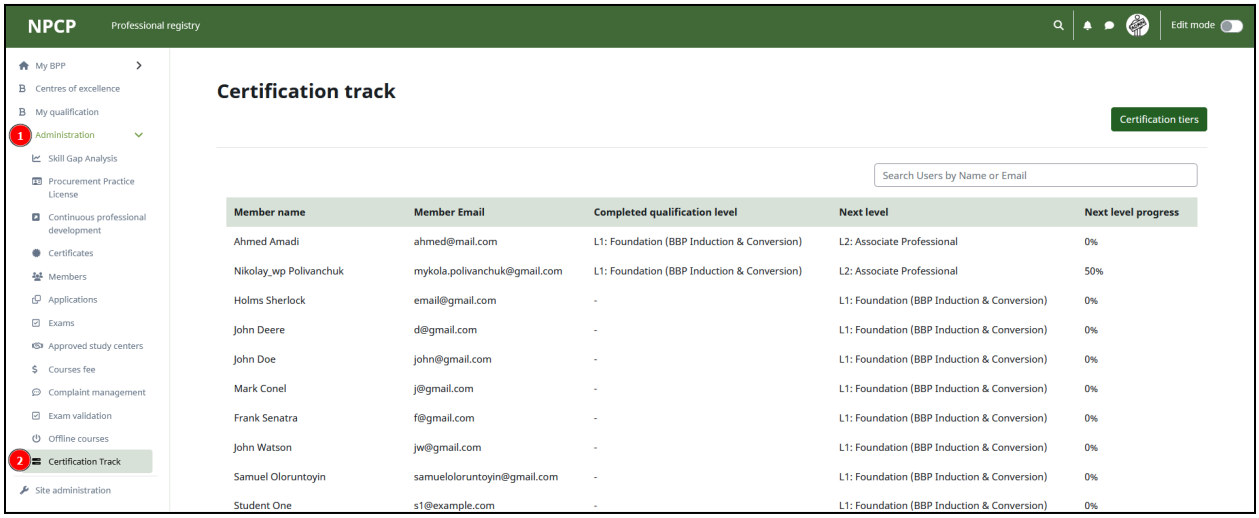
The "Certification Track" module serves as a user-friendly visual interface that delivers detailed information about current certification tier and outlines pathways for achieving higher certification levels and advancing professional development.

7.6.1 HOW TO WORK WITH CERTIFICATION TRACK AND TIERS.

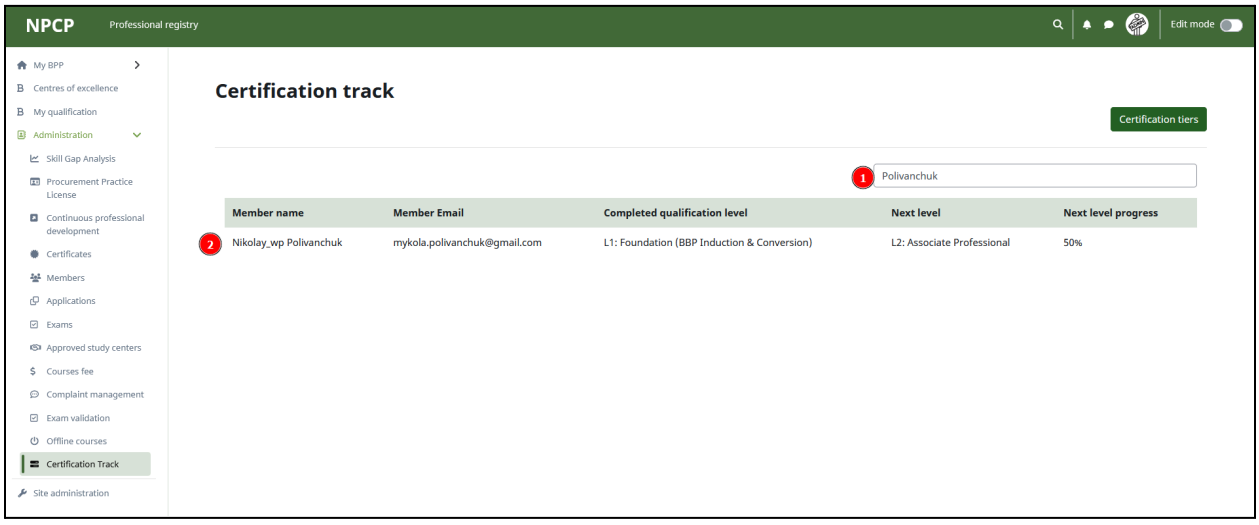
Click on the menu “Administration” -> “Certification Track”.

The system enables the site administrator to access the member registry, which includes the following details for each member:

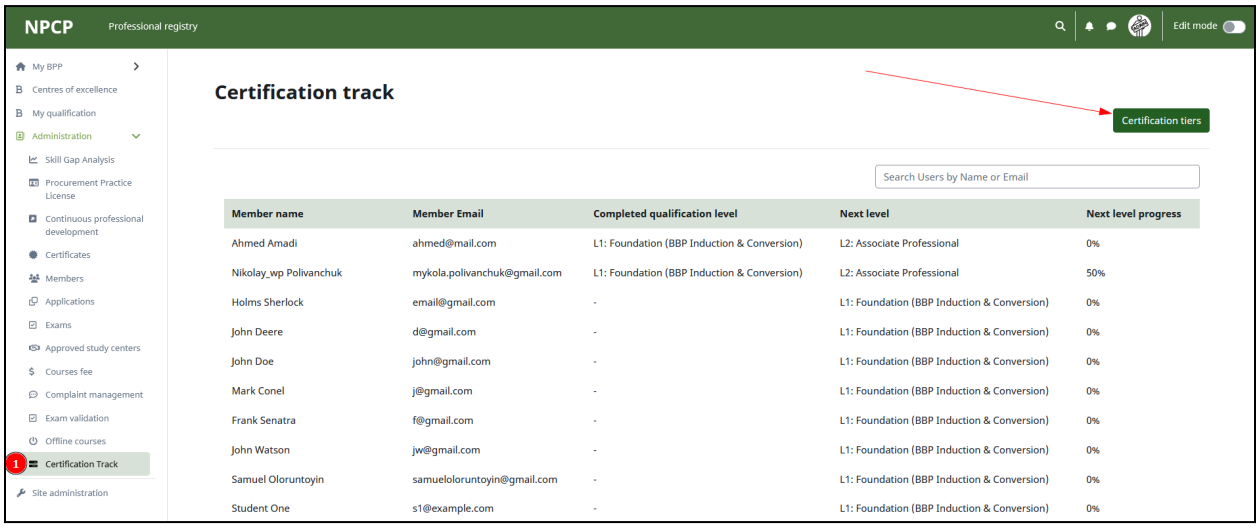
- Name
- Email
- Completed qualification level
- Next qualification level
- Progress towards the next level



Enter the name or email to search for a member in the registry.

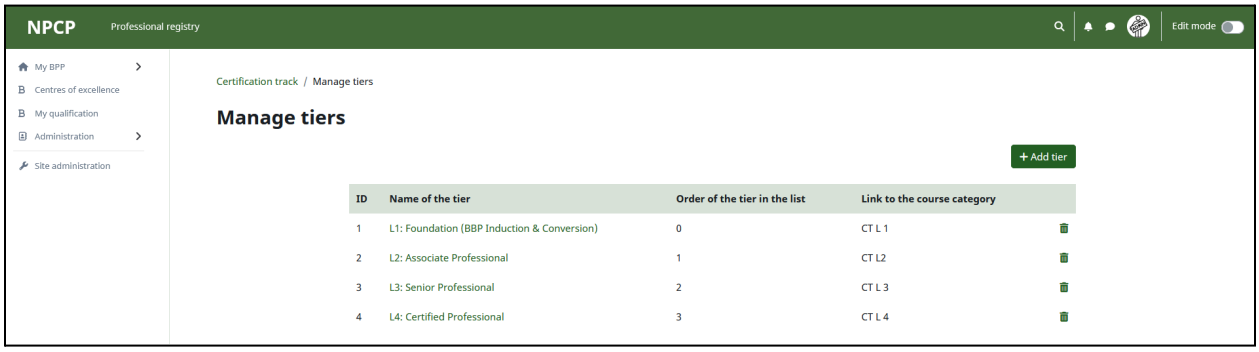


The system enables the site administrator to view the list of Certification tiers. Click the button “Crtification tiers”.



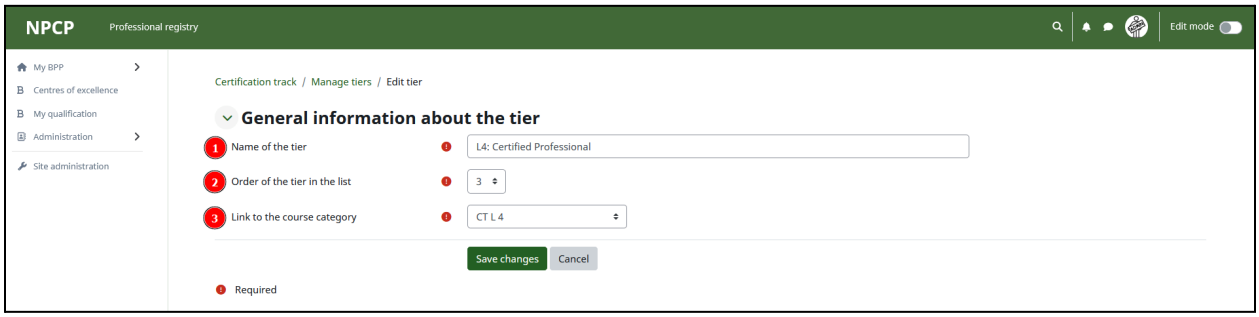
The registry of tiers includes the following details:

1. ID
2. Name og the tiers
    a. L1: Foundation (BBP Induction & Conversion)
    b. L2: Associate Professional
    c. L3: Senior Professional
    d. L4: Certified Professional
3. Order of the tiers in the list
4. Link to the course category



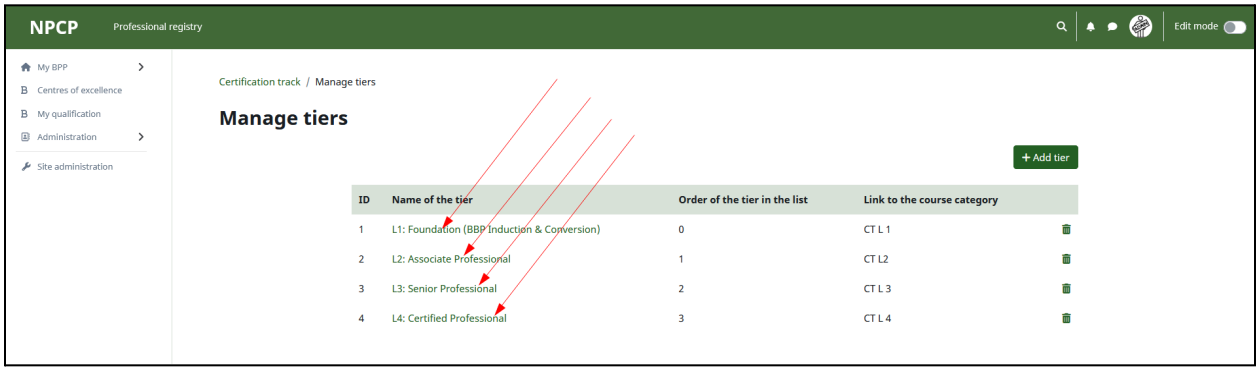
To add new record of tier, click the button “+Add tier”

Enter the name, order and link to category. Click “Save changes”.

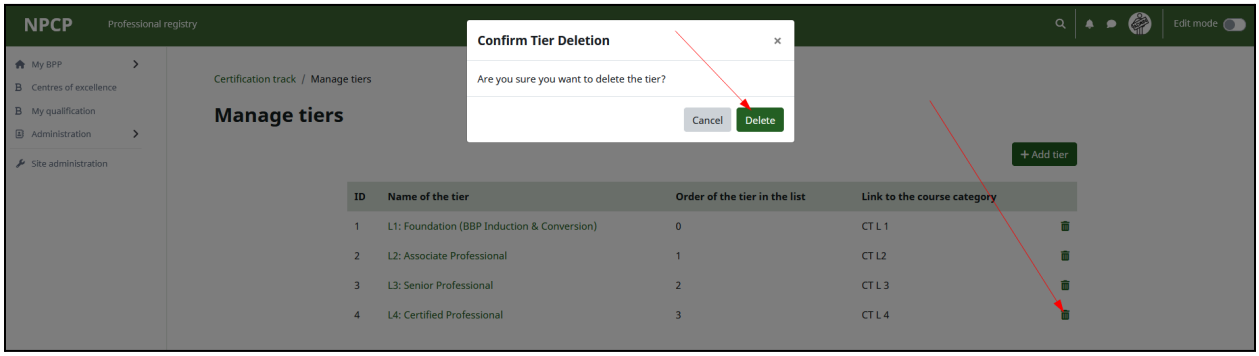


Important!!! Each unique tier can be associated with a single unique category.

To edit the record of tier, click on the name, edit the information, save changes.



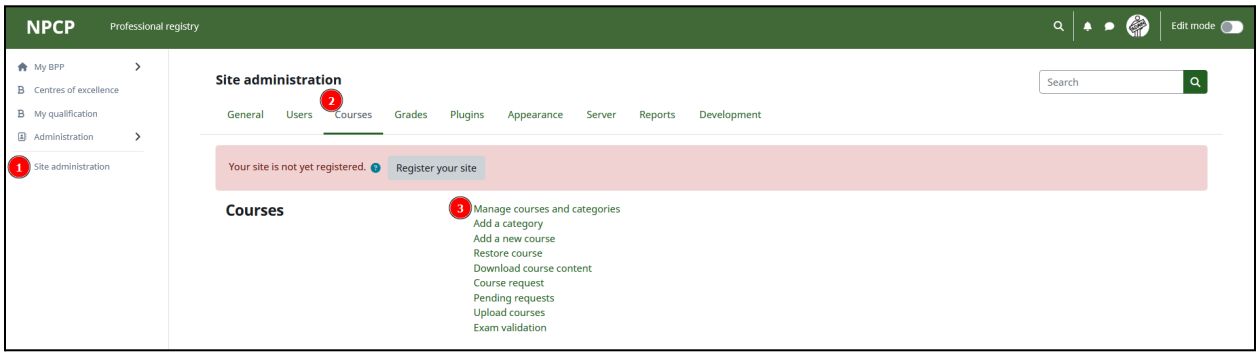
To delete the tier, click on the button “Delete” and confirm the action.



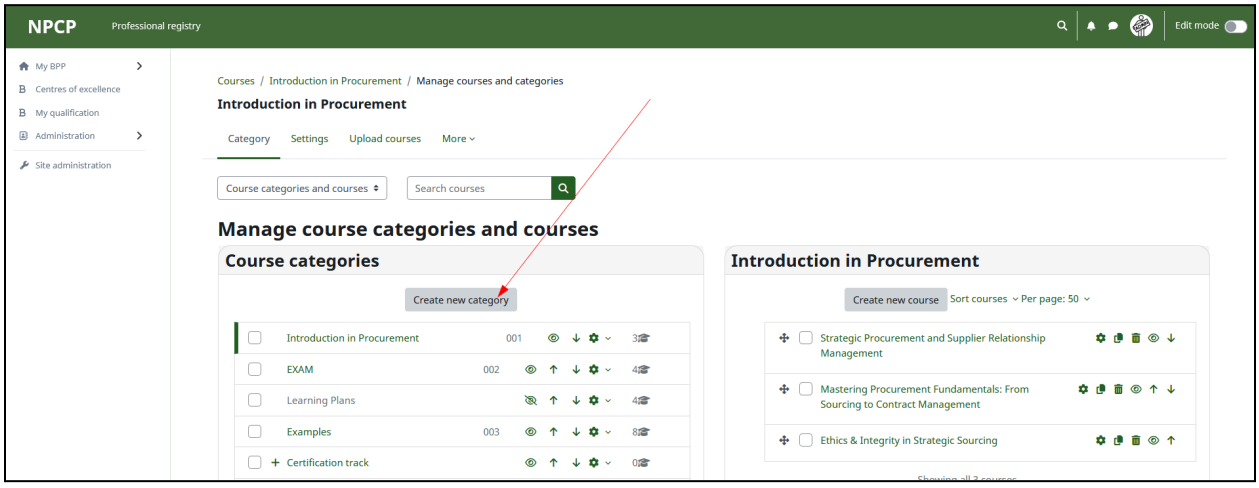
7.6.2 HOW TO CREATE CATEGORY AND SET UP THE COURSE

A key aspect of providing detailed information about the current certification tier is the creation of unique categories and their association with specific tiers. The certification track displays progress exclusively for courses assigned to these designated categories and tiers.

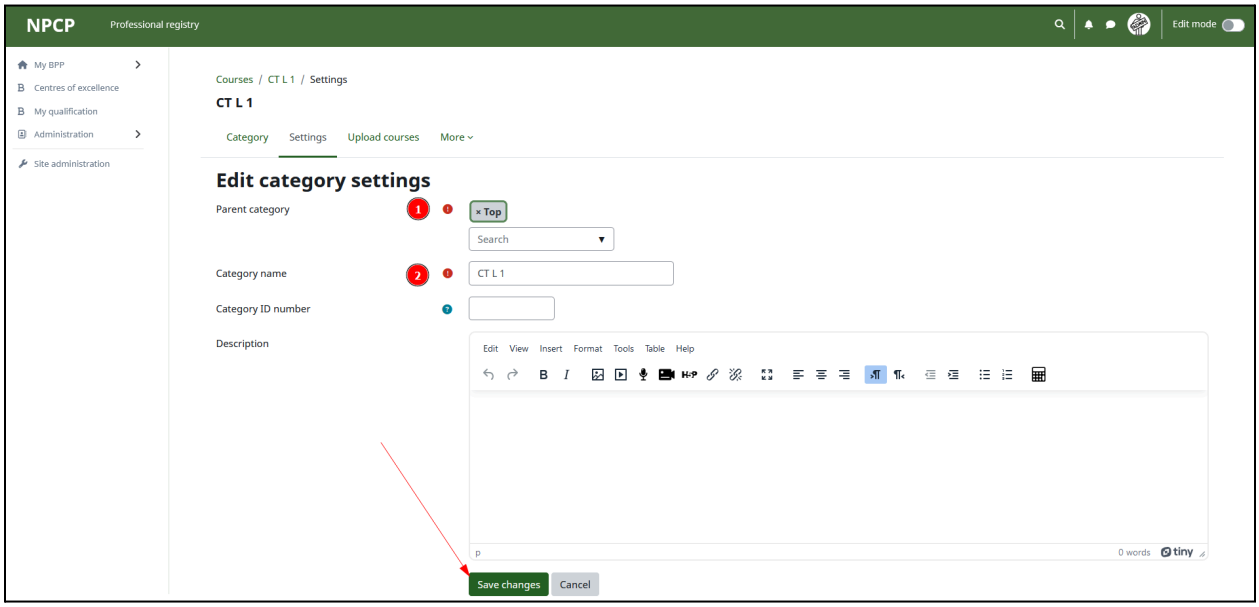
Click on the menu “Site administration” -> “Courses” -> “Manage courses and categories”

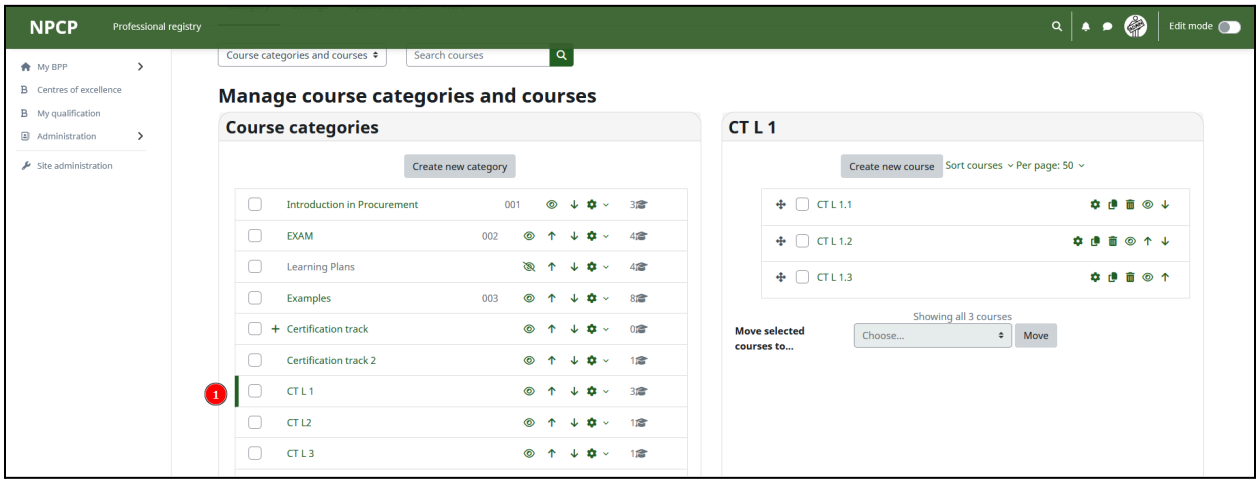


Click “Create new category” button

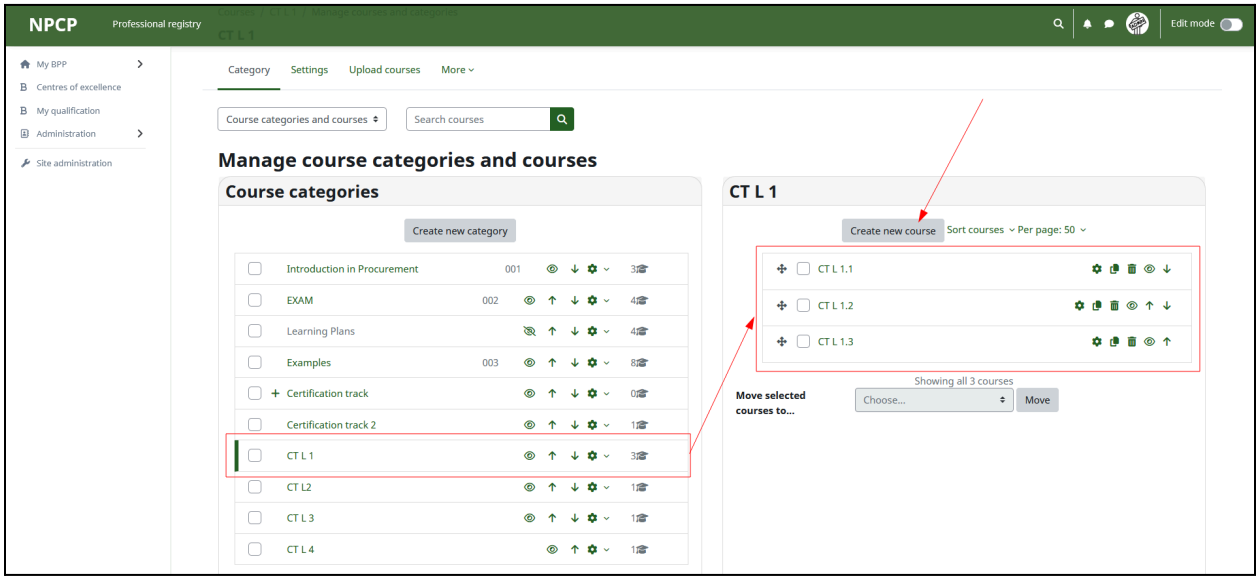


Fill in all required fields





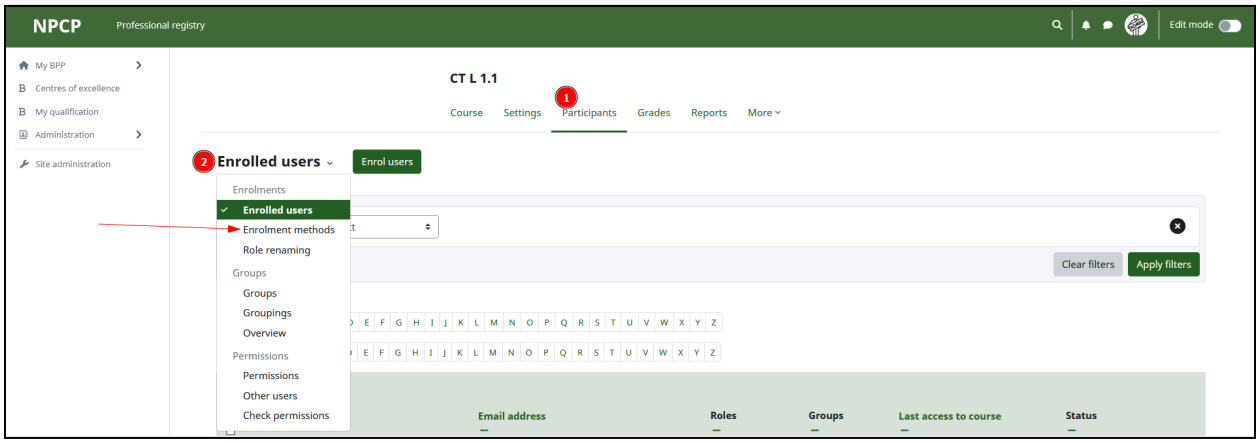
Create required courses and set up the category for courses.
How to create the courses see chapter "ADD NEW COURSE" and "EDIT COURSE"



Important!!! Each unique tier can be associated with a single unique category.

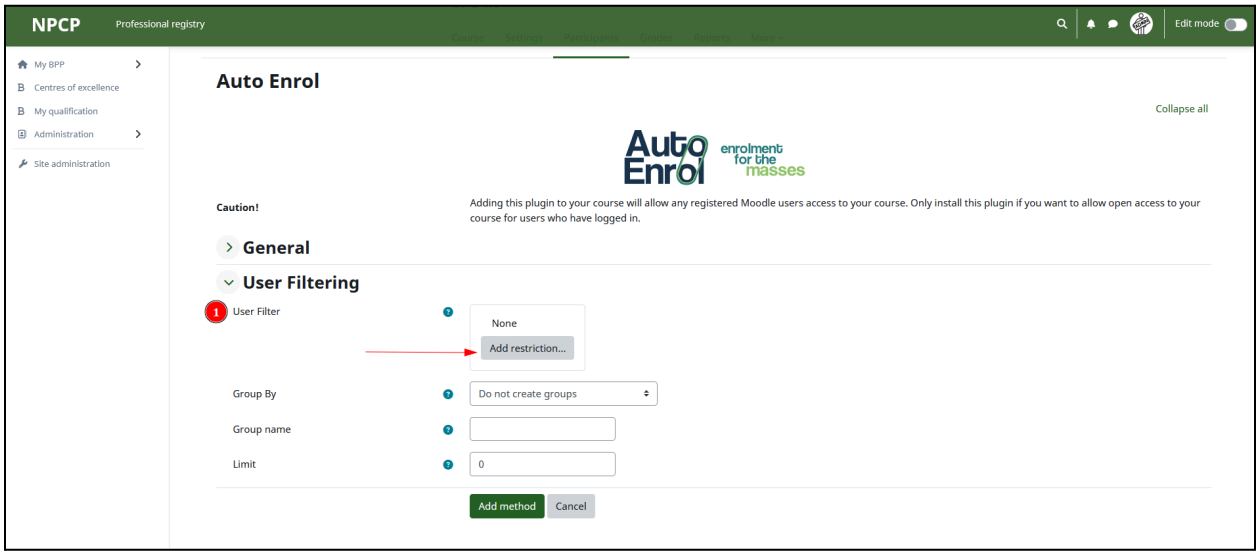
7.6.3 HOW TO SET UP THE RESTRICTIONS IN THE COURSE.

The Certification Track functionality operates on the principle that progression to the next tier is only possible after fully completing the courses in the previous tier. This is enforced through specific course restriction settings within the system. Click on the required course -> “Participants” -> dropdown “Enrolled users” -> “Enrollment method”.

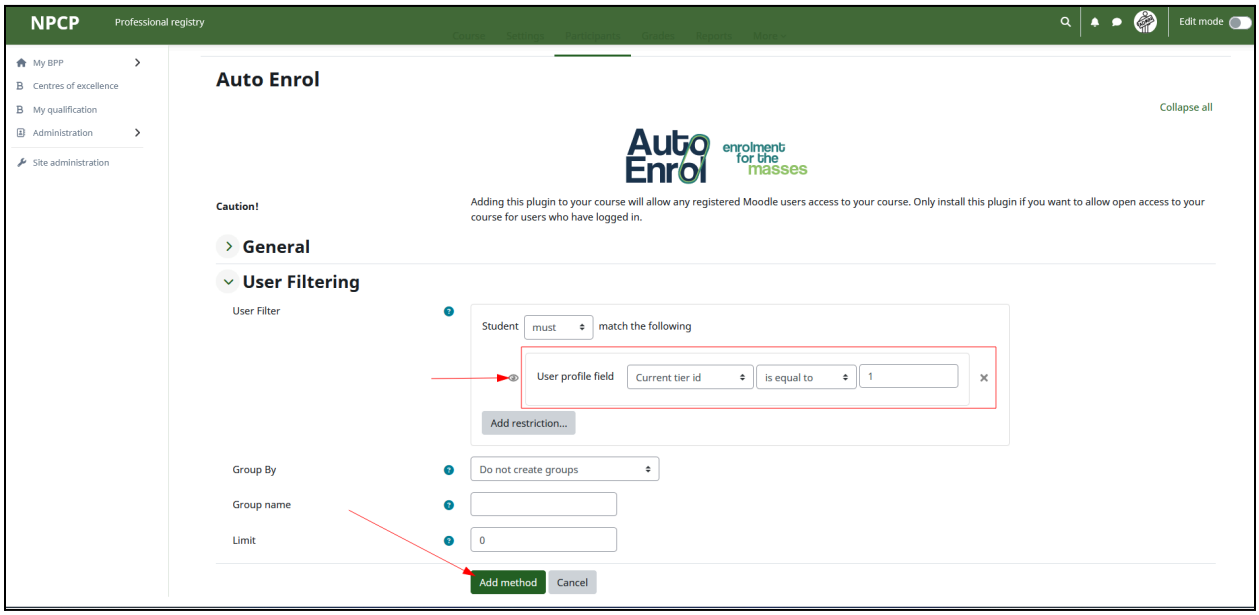


On the field “Add method” select “Auto enrol”

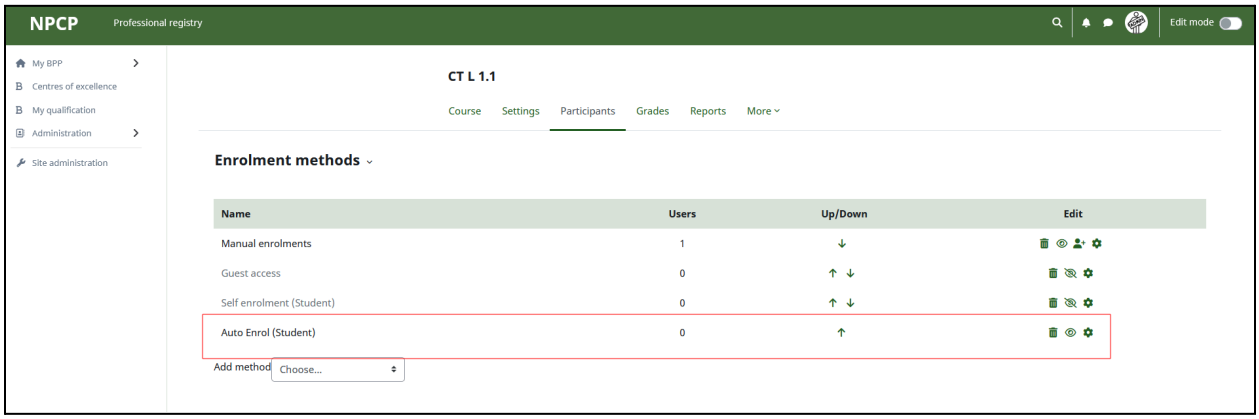
On the field “User Filtering” click “Add restriction” button.



Add restriction “User profile field” -> “Current tier id” -> “is equal” -> “1”. The “EYE” has to be active. Click “Add metod”.



Restriction is created.

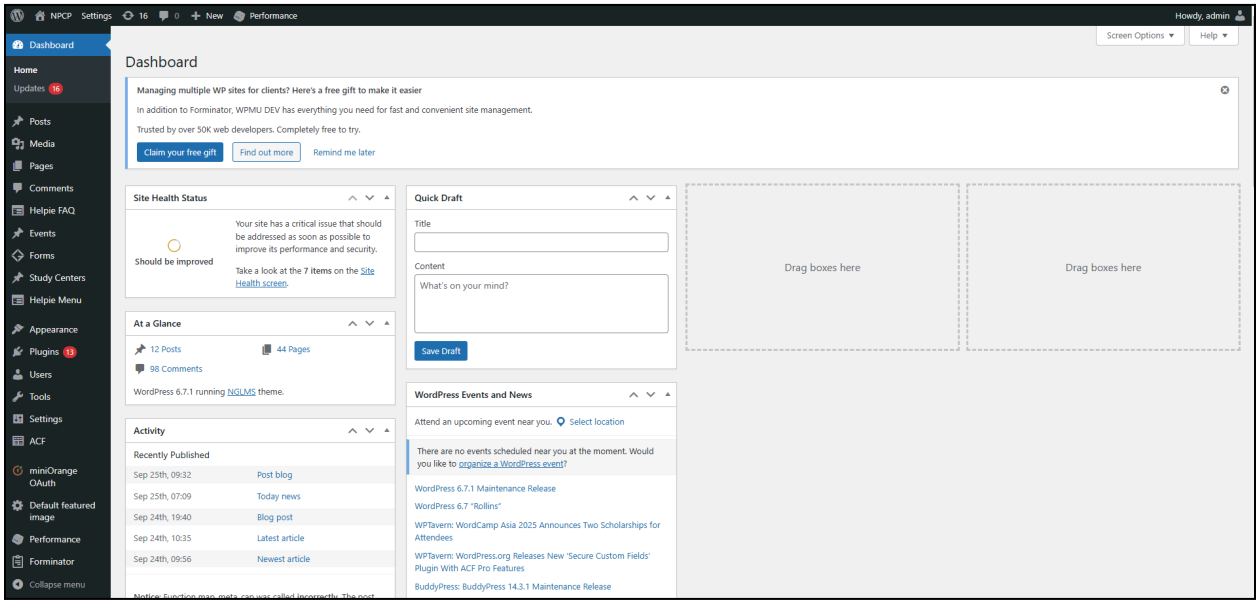


It is important to note that the first tier is automatically available to all members, meaning there are no restrictions for accessing it. Restrictions for all subsequent tiers are assigned starting from ID=1, as follows:

- **L2: Associate Professional** – ID = 1
- **L3: Senior Professional** – ID = 2
- **L4: Certified Professional** – ID = 3

8. MANAGE WORDPRESS

The SPESSE website will be developed using the WordPress content management system (CMS). WordPress (hereinafter referred to as WP) provides robust tools for creating and managing websites. WP offers a wide range of features, including managing dashboards, posts, pages, forms, and more.

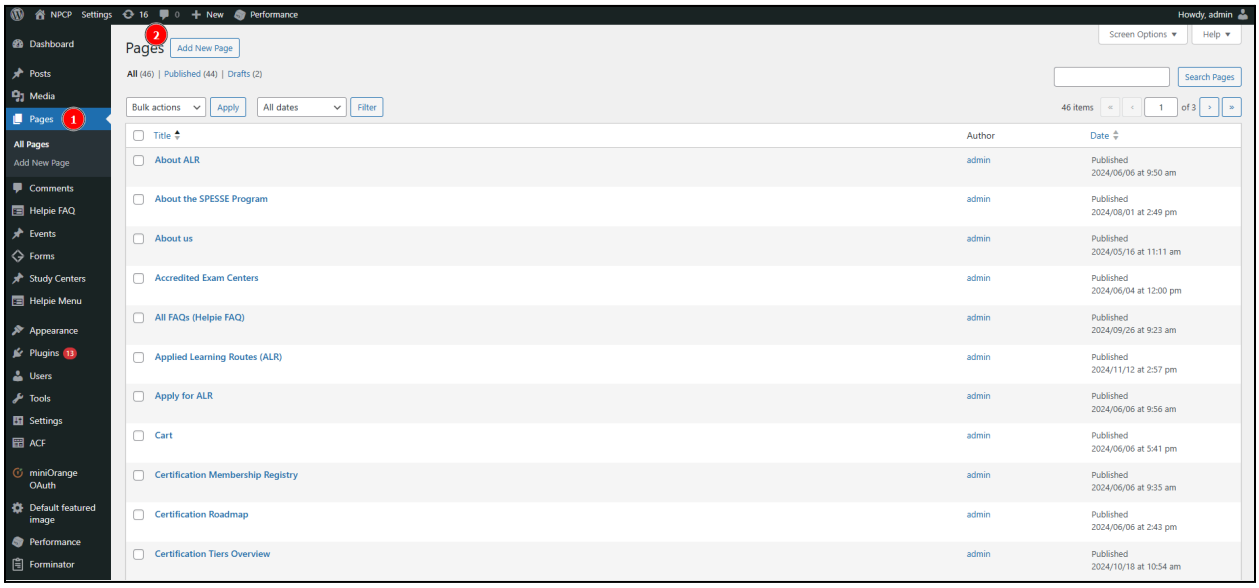


8.1 MANAGE PAGES

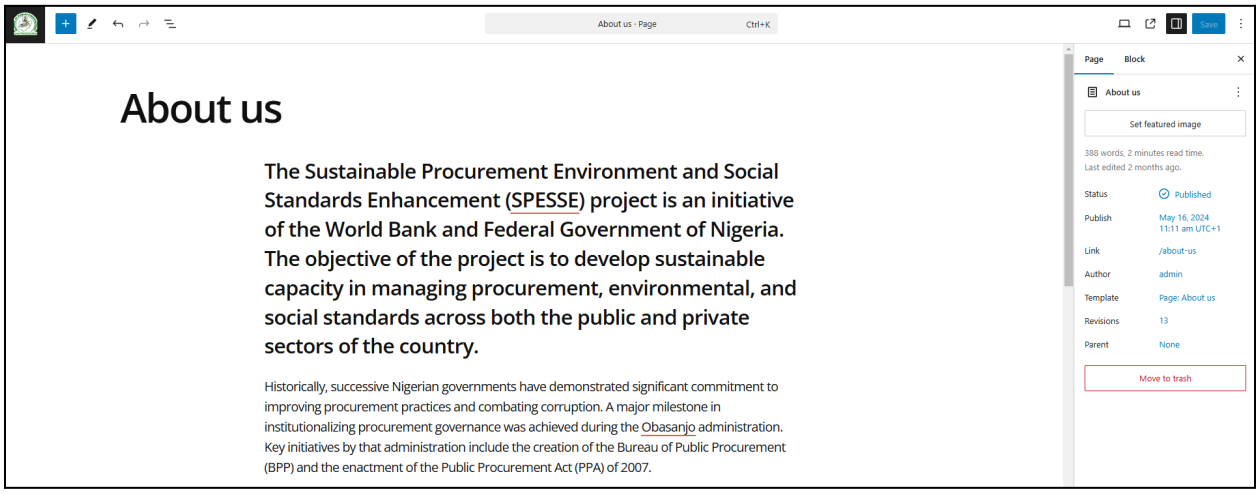
The Pages Screen provides the facility to manage all the Pages in a blog. Via this Screen, Pages can be edited, deleted, and viewed. Filtering, and searching, also make it easy to quickly find Pages matching certain criteria.

Several powerful features allow Pages to be edited in bulk (en masse) allowing fields such as Author, Parent, Template, Comments Allowed, Status, and Pings Allowed, to be changed for a whole batch of Pages. In addition, a Quick Edit feature provides an easy method to change a multitude of values, such as Title, Slug, Date, and Author, for a given Page.

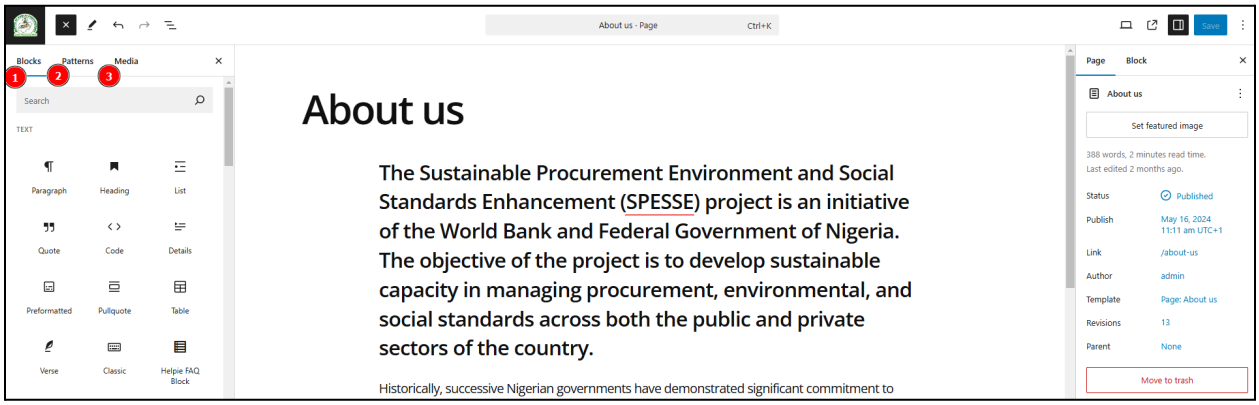
To create a new page, click “Pages” -> “Add new page”



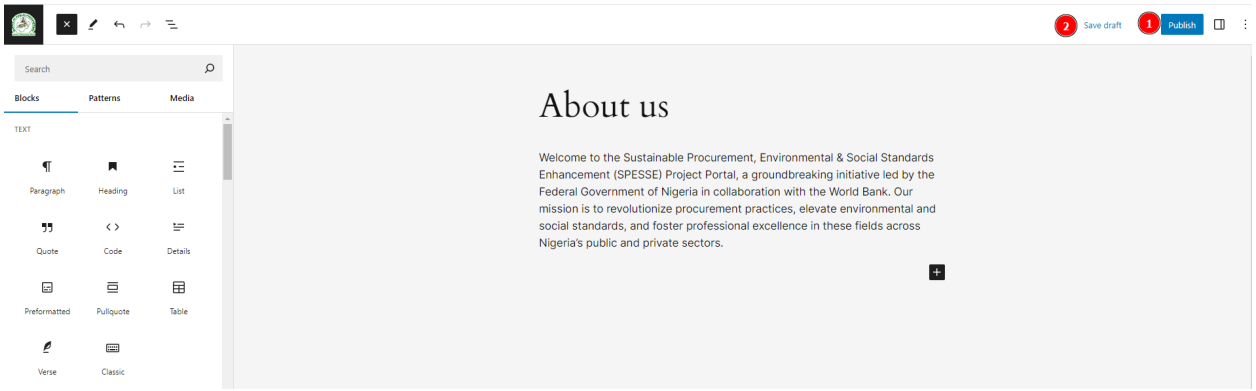
Enter the name of the page and content.



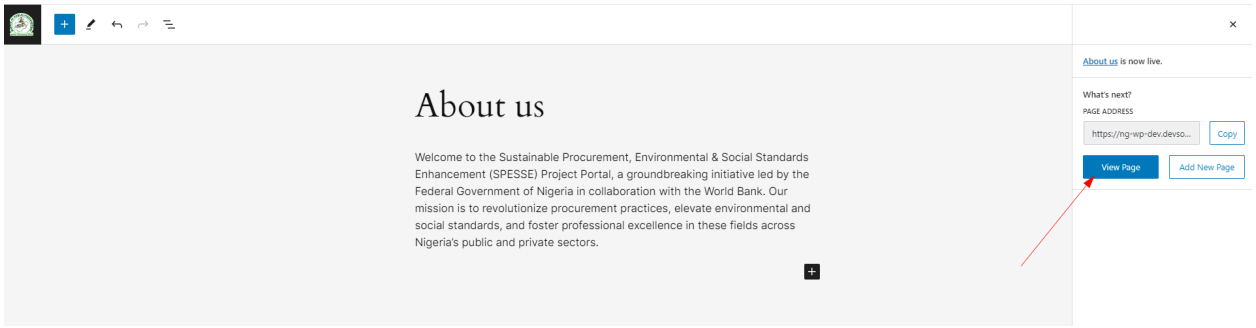
Add any “Blocks”, “Patterns”, “Or Media”



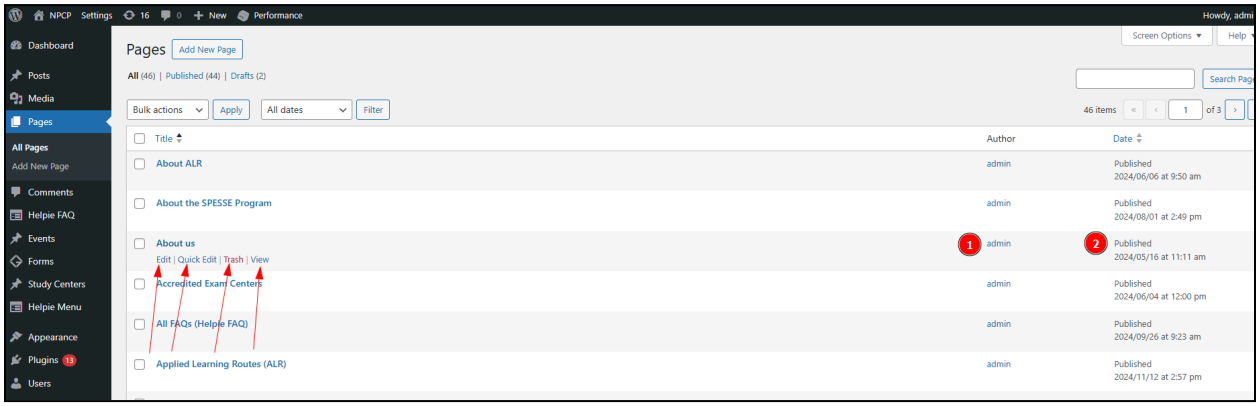
Click on the button “Publish” to publish the page, or “Save draft” to save it to draft.



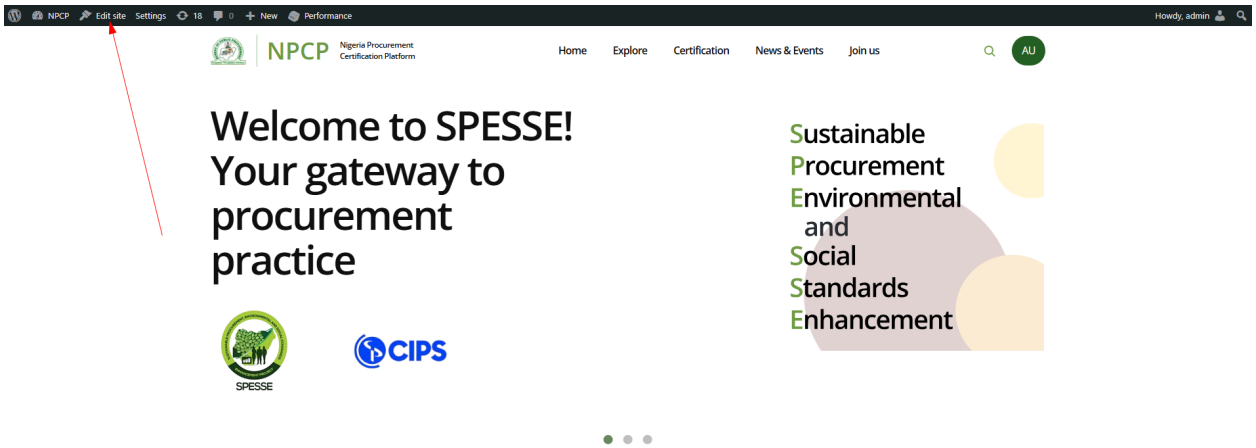
Click the button “View” to view the page.



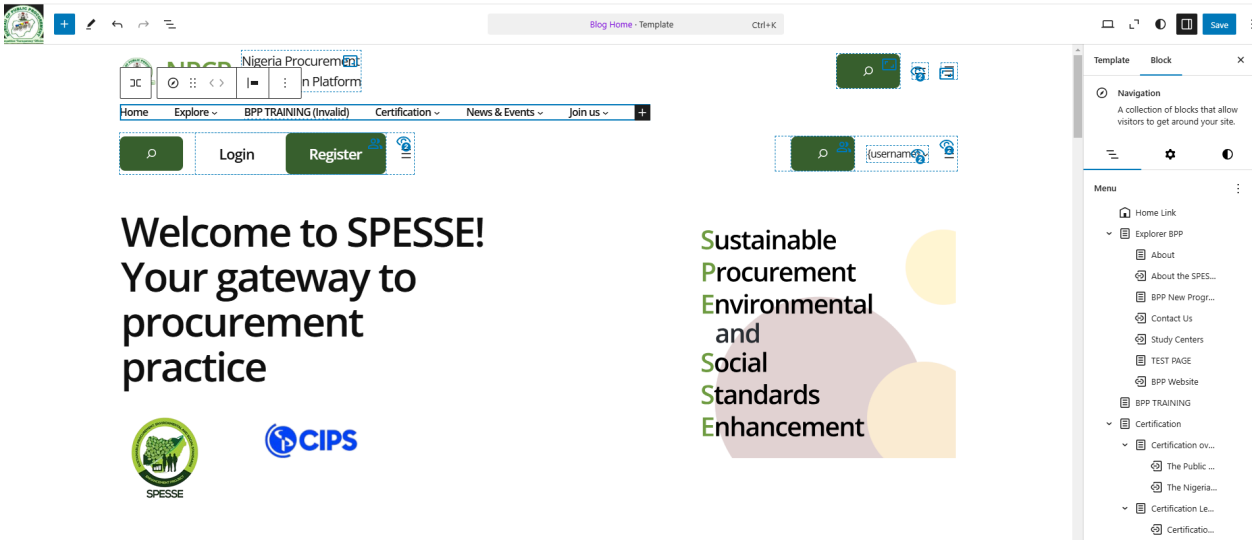
WP allows “Edit”, “Quick Edit”, “Trash” and “View”. To view the status of the page, author, date, and time of publishing.



To edit the page on website, click the button “Edit site”.



Edit the page

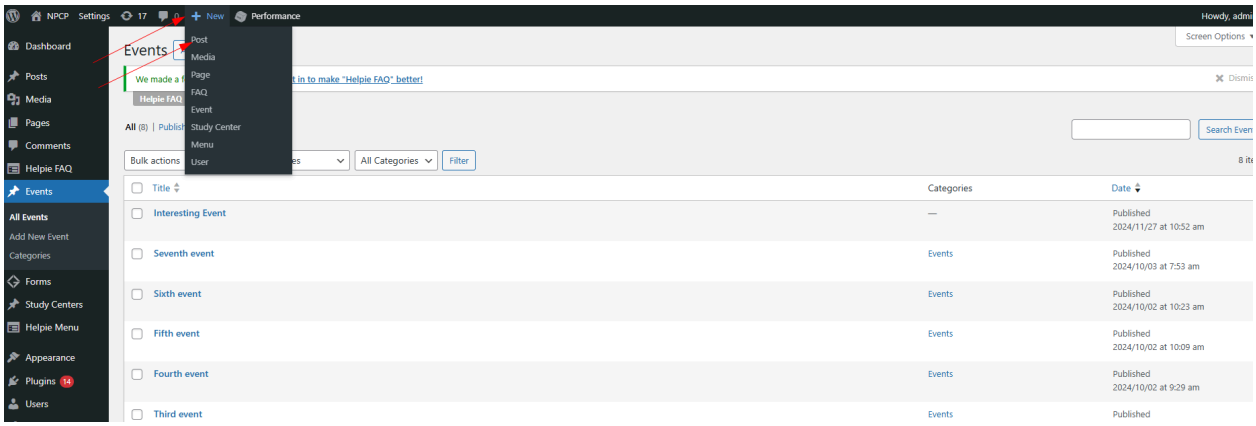


8.2 MANAGE NEWS AND BLOGS (POSTS)

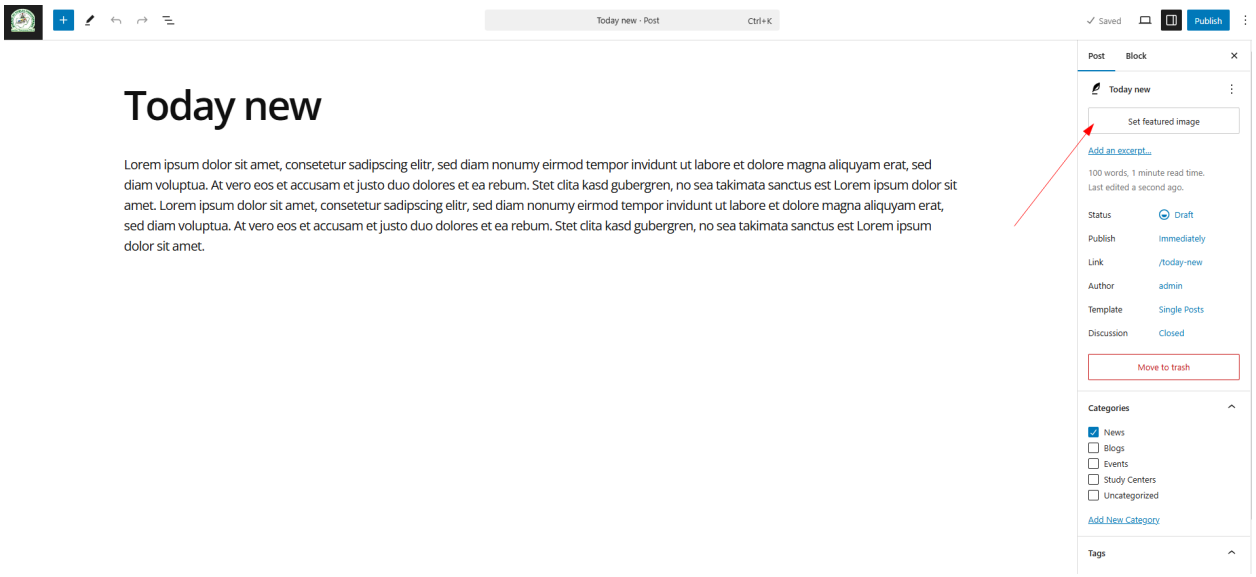
The Posts Screen provides the facility to manage all the Posts or News. Via this Screen, Posts can be edited, deleted, and viewed. Filtering, and searching, also make it easy to quickly find Posts matching certain criteria.

A powerful bulk edit feature allows Posts to be edited in bulk (en masse) allowing fields such as Author, Comments Allowed, Status, Pings Allowed, and Sticky to be changed for a whole batch of Posts. It is important to note that Categories and Tags can be added in bulk to a set of Posts, but it is not possible to change, or delete, a Category, or Tag, for those Posts. In addition, a Quick Edit feature

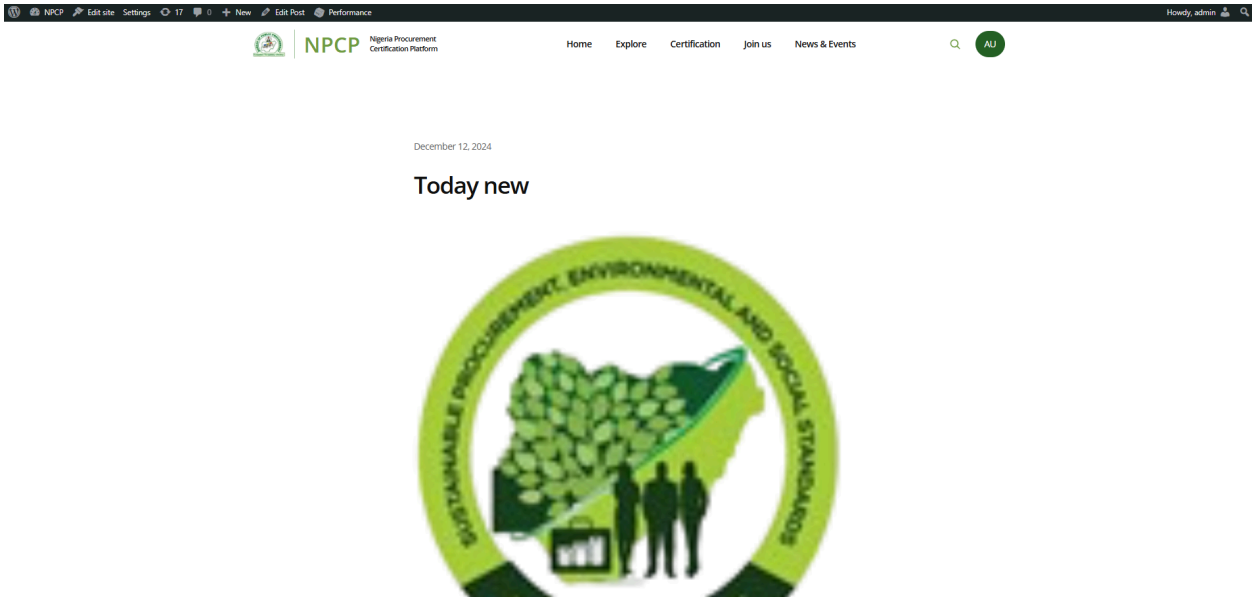
provides an easy method to change a multitude of values, such as Title, Slug, Date, and Category, for a given Post.
The process of adding, editing, deleting, and managing growth is similar to Page.



Enter the title and type. Select the category: Blogs or News, select an image, and click the button “Publish”
To add the image, click the button “Set featured image” and select the image

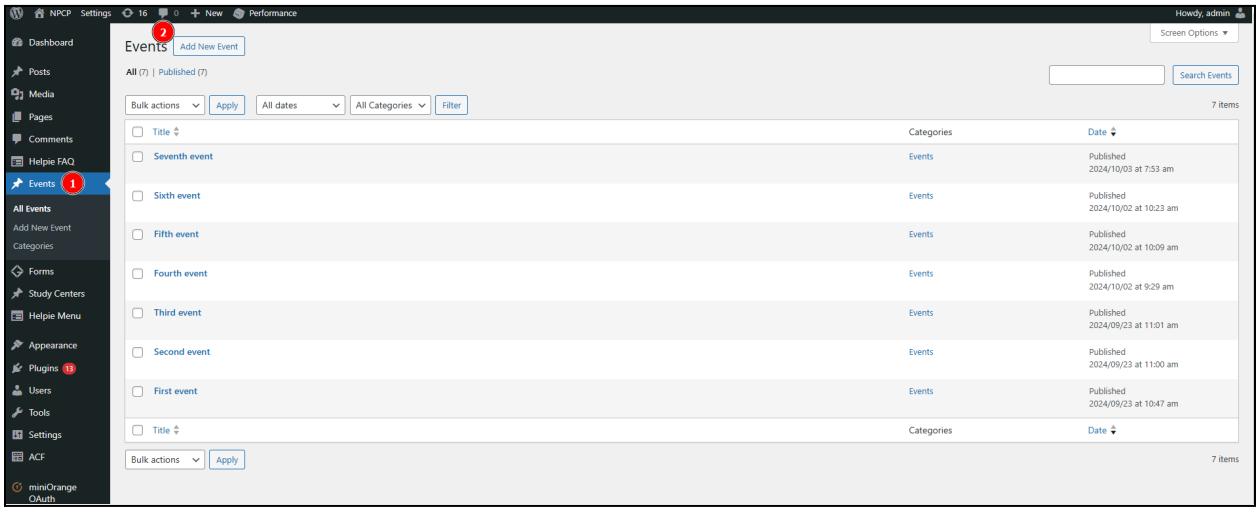


Click the button “View” to observe the news.

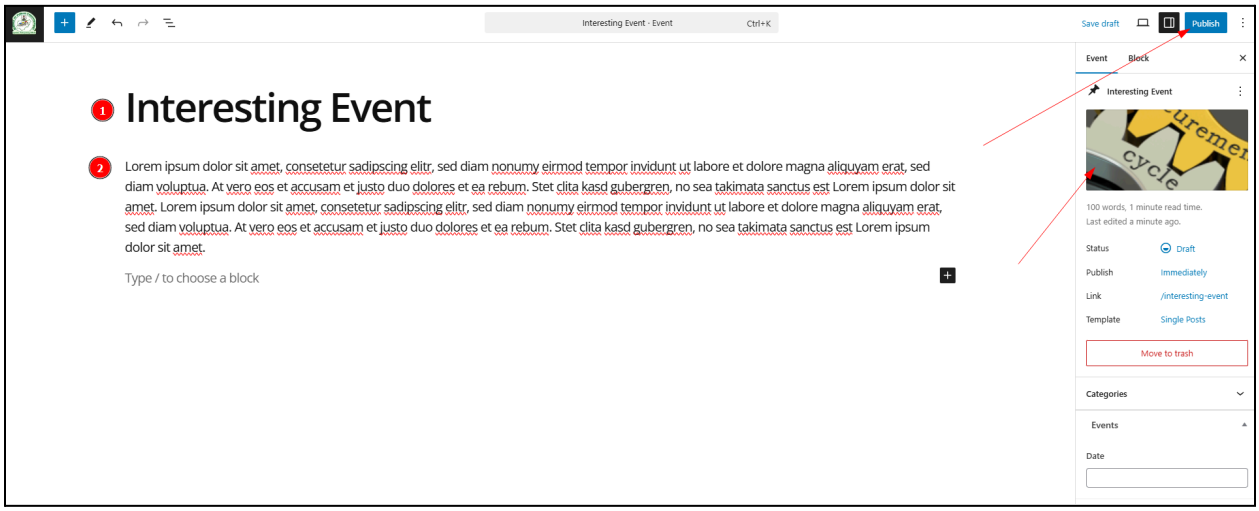


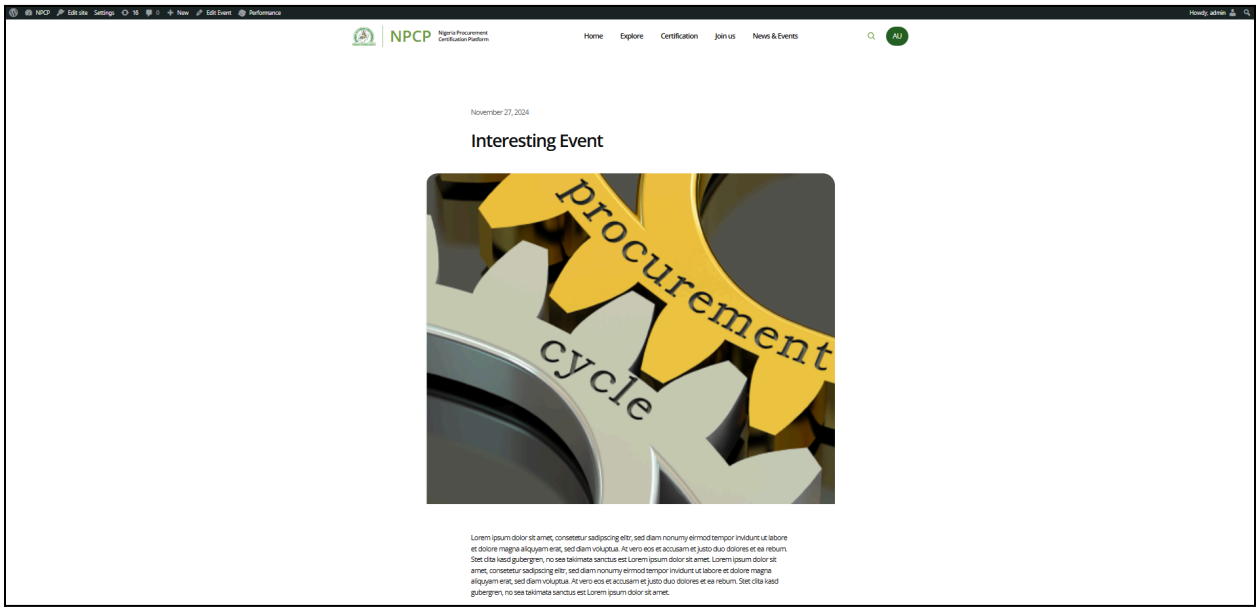
8.3 HOW TO MANAGE EVENTS

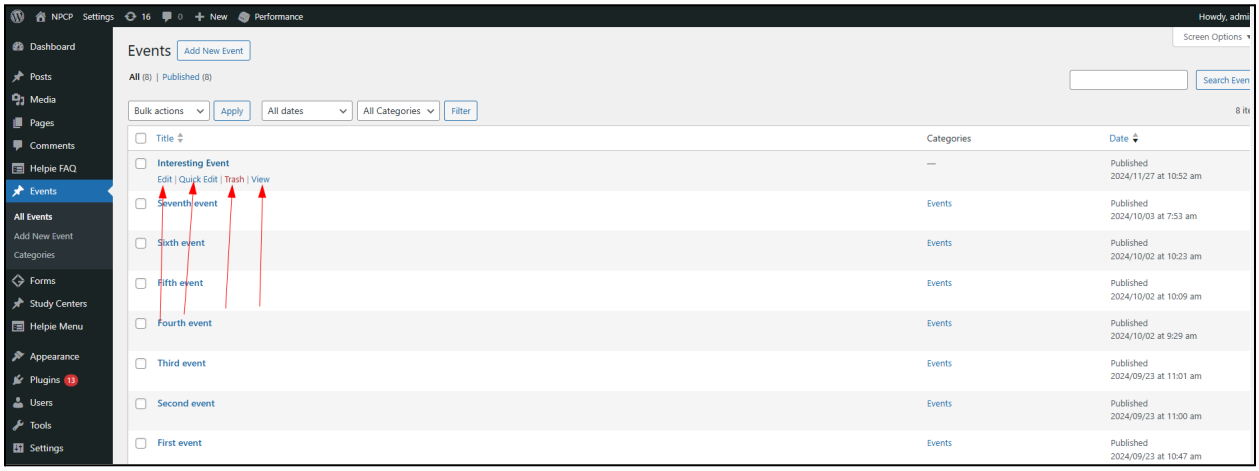
WordPress enables users to create, edit, and delete events on their website, following a process similar to managing posts. Click menu “Events” -> “Add New Event”.



Enter the content, image and publish

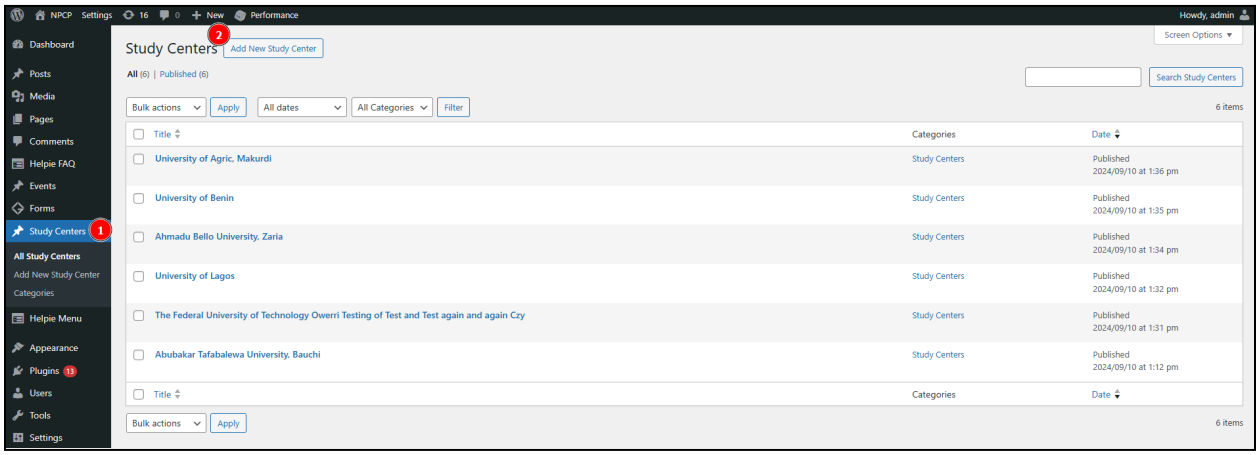




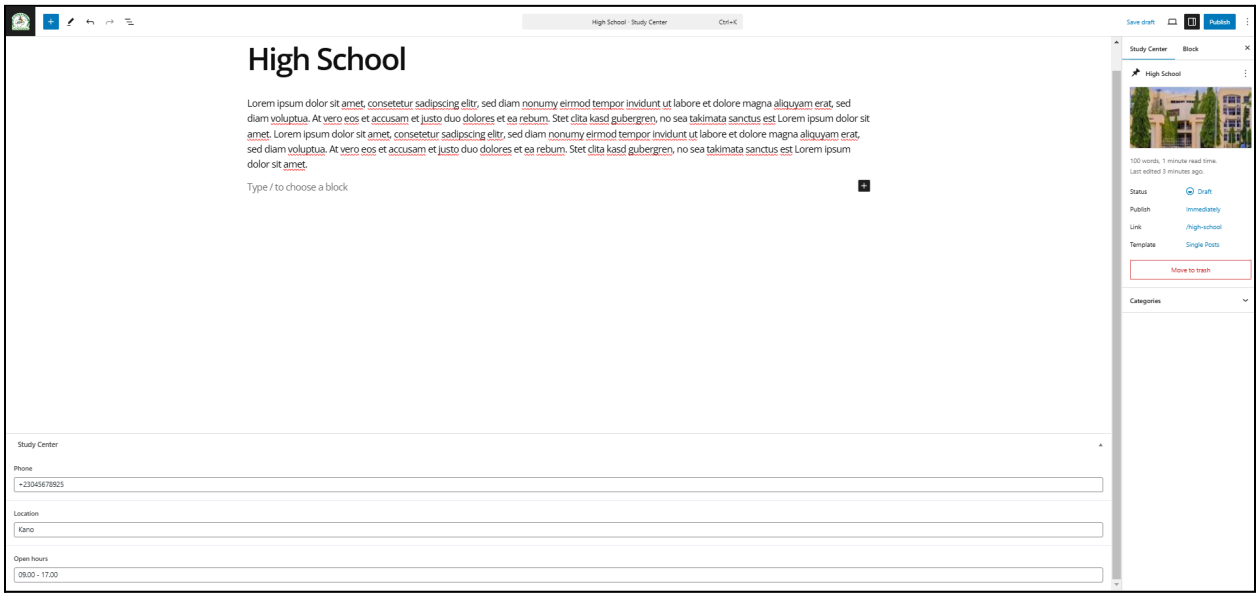


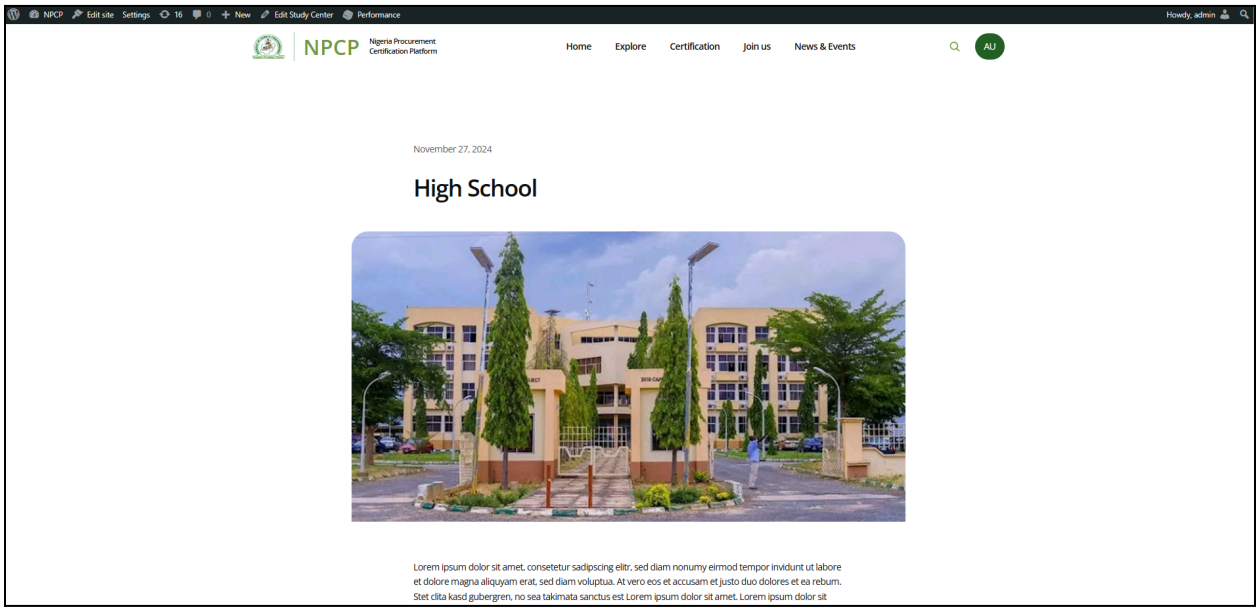
8.4 HOW TO MANAGE “STUDY CENTER”

WordPress enables users to create, edit, and delete Study centers on their website, following a process similar to managing posts. Click menu “Study centers” -> “Add New Study Centers”.



Enter the content, image and click “Publish”

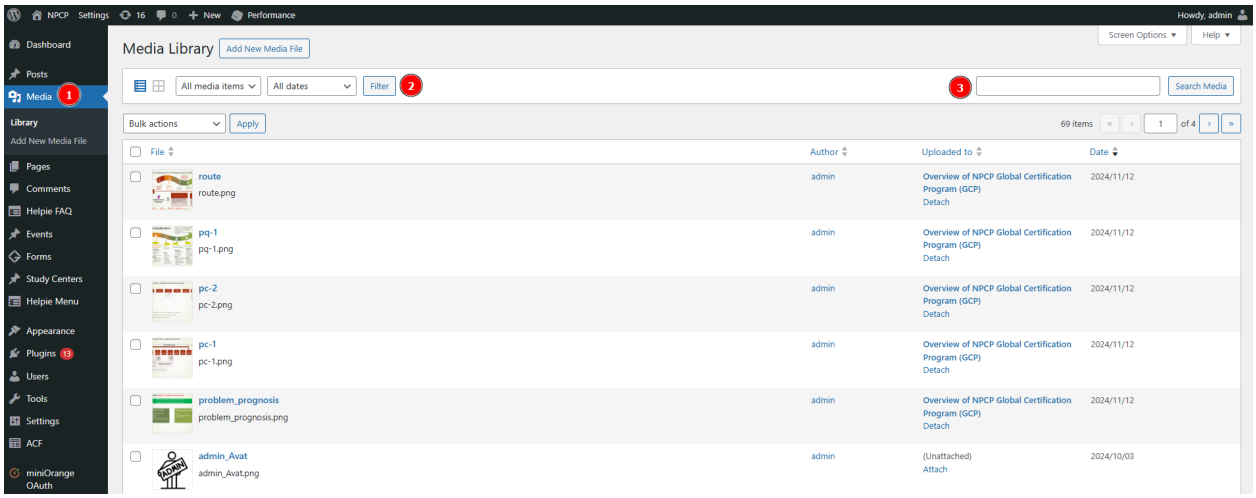




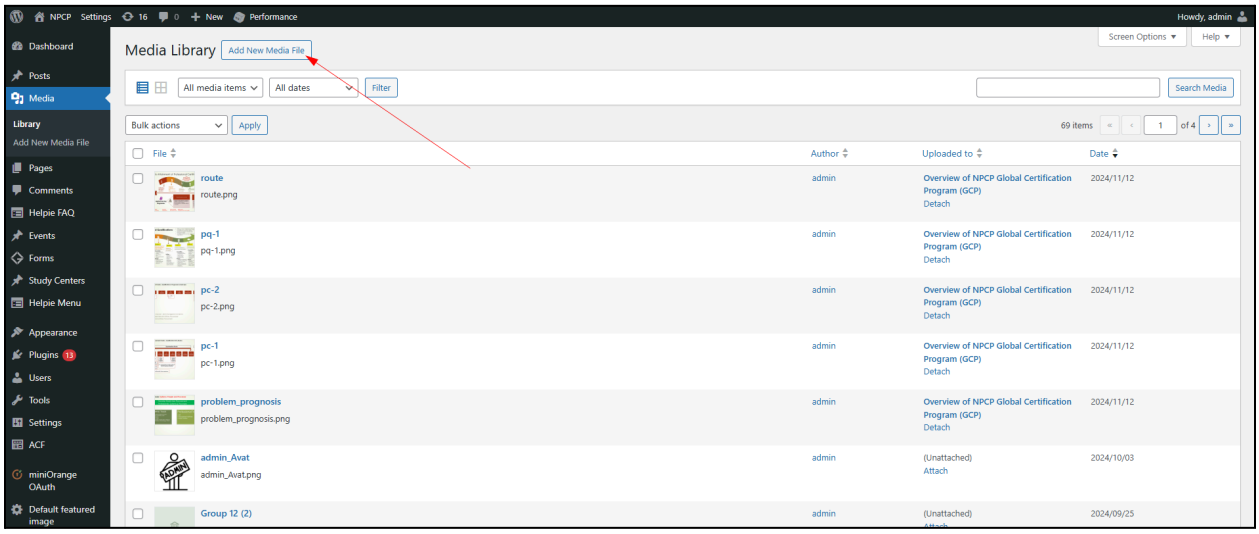
8.5 MANAGE MEDIA

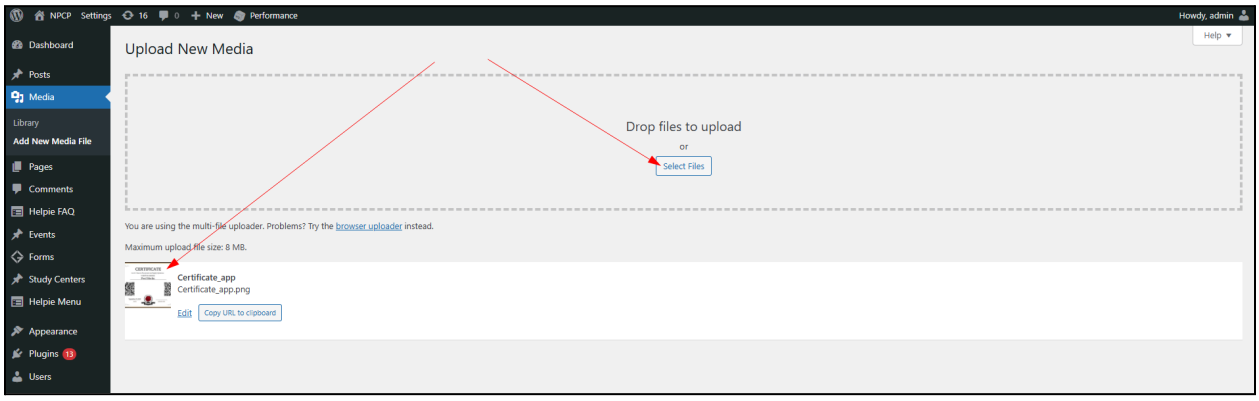
Media consists of the images, videos, recordings, and files that you upload and use in your blog. Media is typically uploaded and inserted into the content when writing a Post or writing a Page. Note that the Uploading Setting in the Settings Media Screen describes the location and structure of the upload directory (where your media files are stored). If you do need to upload Media, even if that Media is not related to a Post or Page, then you need to use the Media Add New Screen.

WP allows viewing, filtering, selecting, and searching the list of media. Click on the “Media”

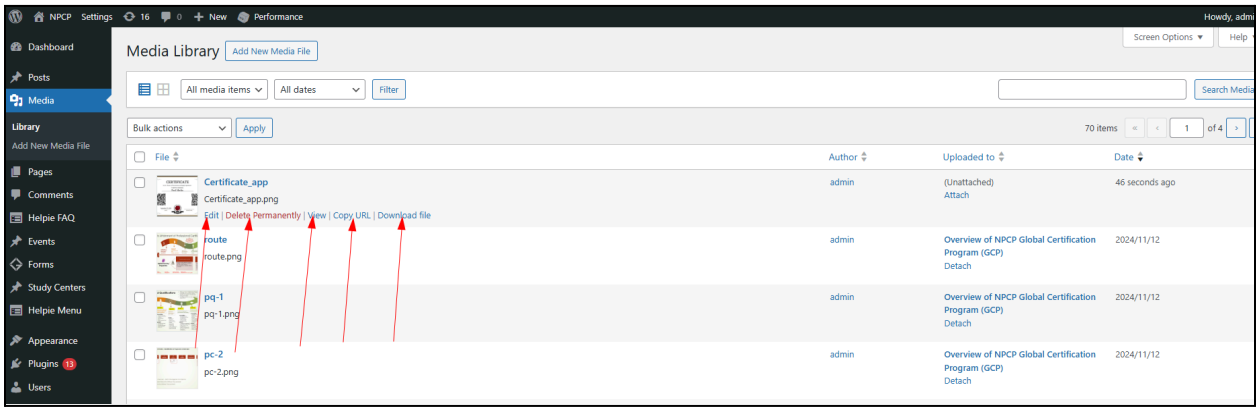


To add new media, click the button “Add new media file”





WP allows to “Edit”, “Delete”, “View”, “Copy URL”, “and Download file”

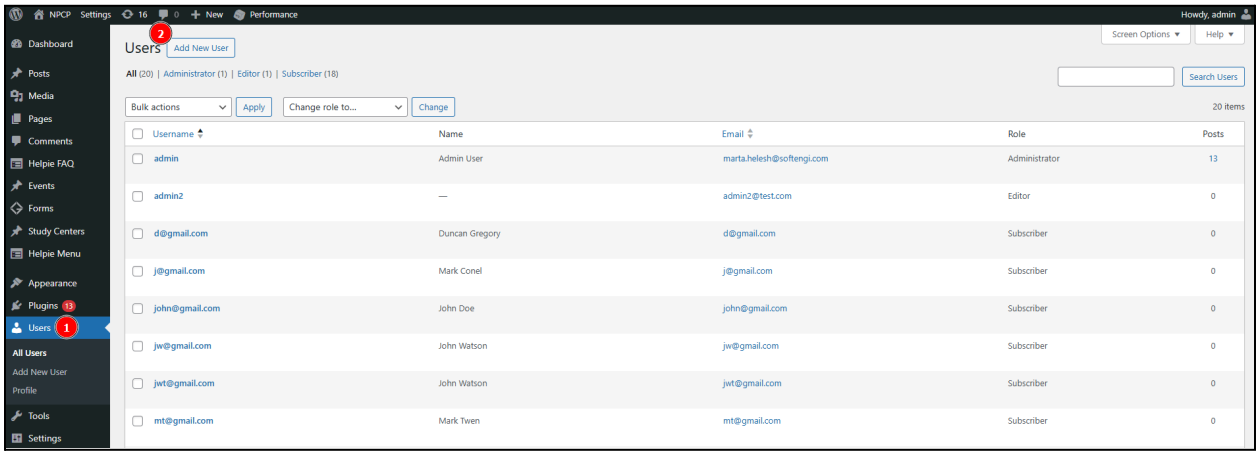


8.6 MANAGE USERS

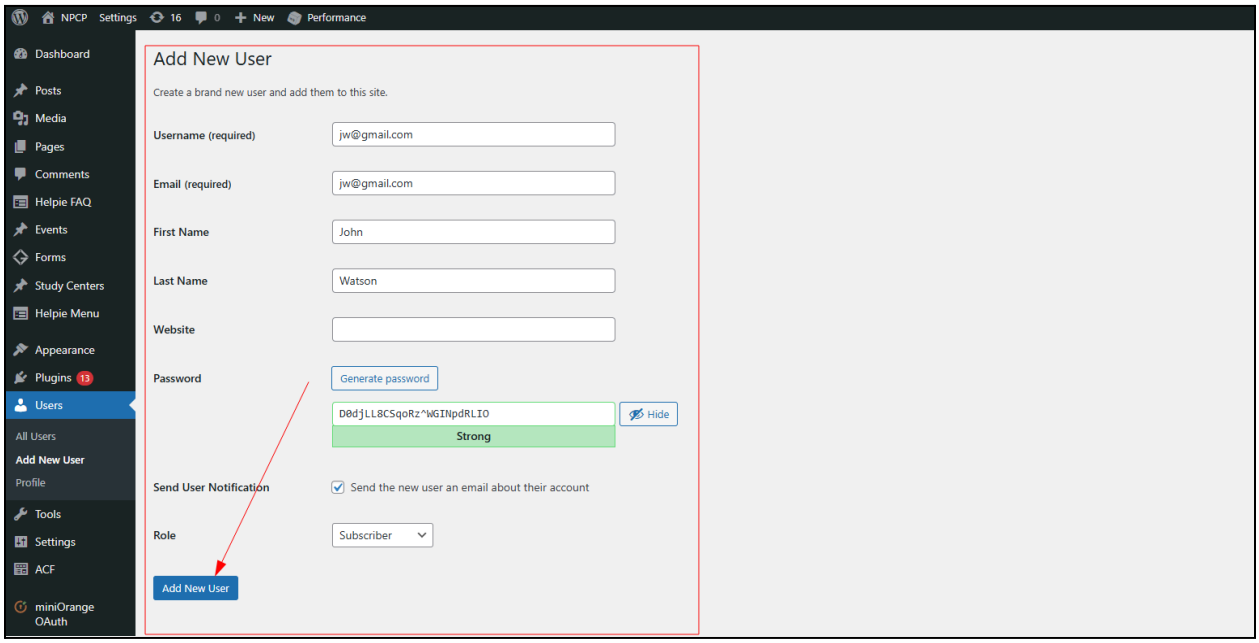
The **Users Screen** allows you to add, change, or delete your site's users. In addition, you can search for users and make bulk changes and deletions to a selected group of users.

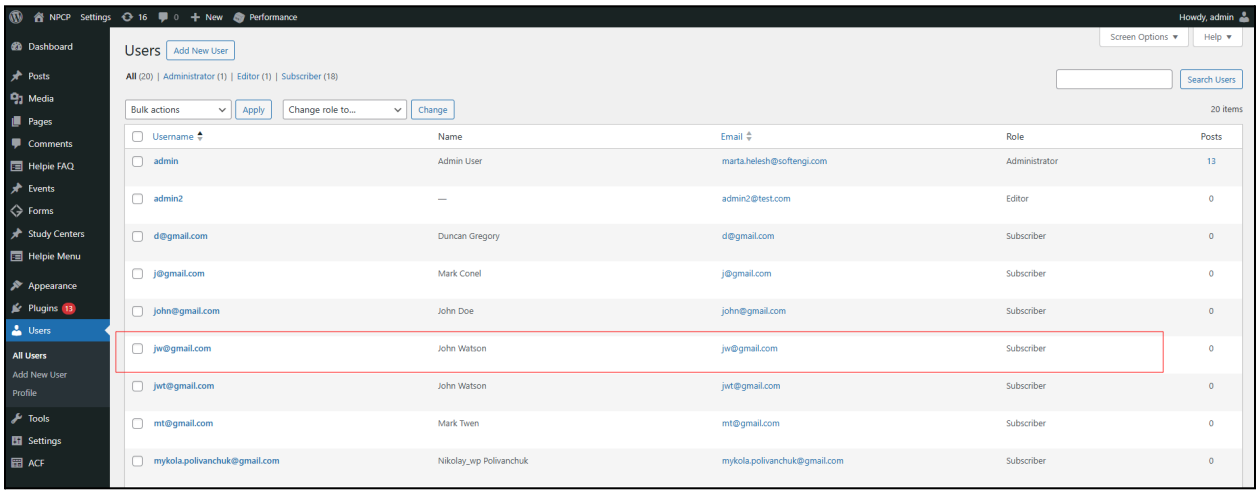
8.6.1 HOW TO CREATE NEW USER

To create a new user, click the menu "User" -> "Add new user"



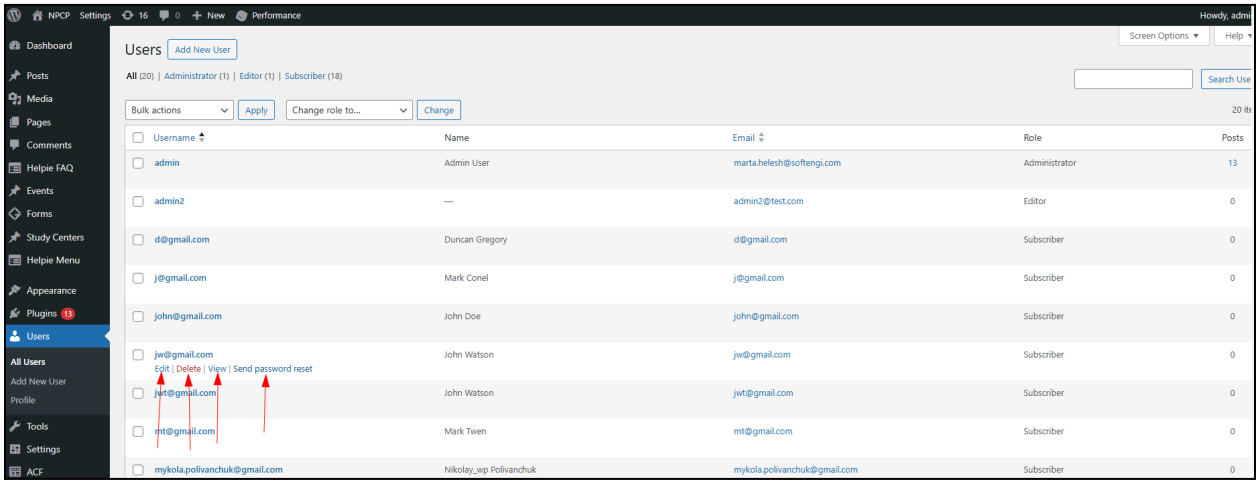
Enter the username, Email, First name, Last name, website, password, notification, and role (subscriber). Click "Add new user".





8.6.2 HOW TO EDIT, DELETE, VIEW USER

WP allows editing, deleting, and viewing users. Navigate the mouse on the username and click on the required button.



8.7 MANAGE FOMINATOR

Forminator form builder plugin to create interactive forms, polls, and quizzes. Users can then embed your forms, polls, or quizzes anywhere on your site using a shortcode, or click a button in your post editor and select the one(s) to add to your posts & pages.

8.7.1 HOW TO CREATE FORM

With dozens of available field types and an ever-expanding list of integrated third-party apps, there is almost no limit to the type of forms you can create with Forminator.
You can find detailed instructions at this link
https://wpmudev.com/docs/wpmu-dev-plugins/forminator/

8.7.2 HOW TO CREATE POLLS

The Polls tab is where polls are created and managed. It consists of an Overview panel and a list of all the polls that exist on a site, both draft and unpublished.
You can find detailed instructions at this link
https://wpmudev.com/docs/wpmu-dev-plugins/forminator/

8.7.3 HOW TO CREATE QUIZ

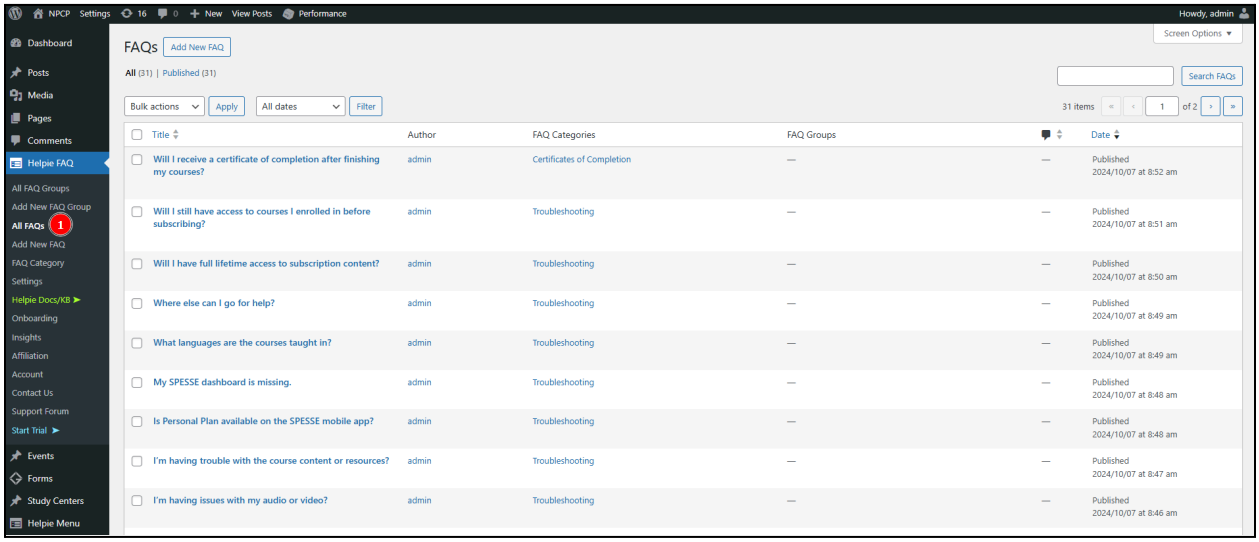
The Quiz tab is where polls are created and managed. It consists of an Overview panel and a list of all the polls that exist on a site, both draft and unpublished. You can find detailed instructions at this link
https://wpmudev.com/docs/wpmu-dev-plugins/forminator/

8.8 MANAGE FAQ

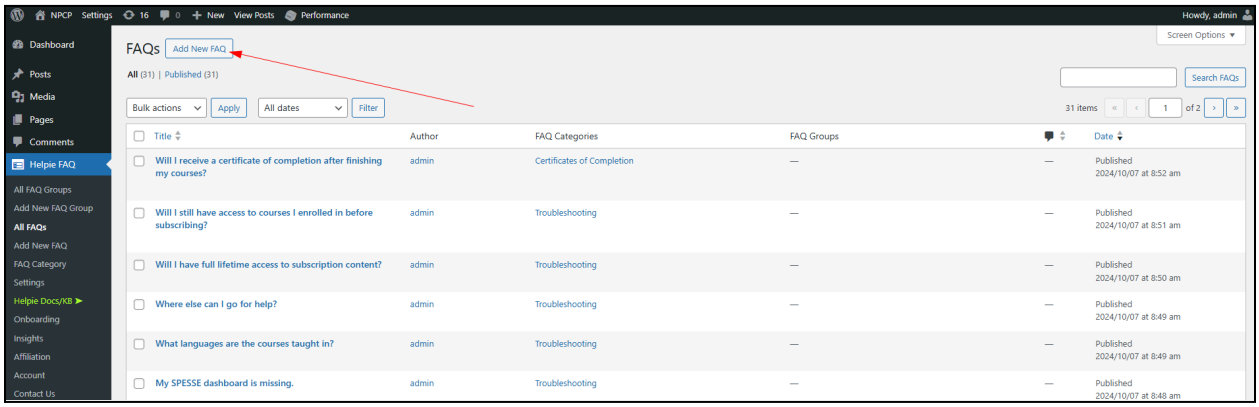
The FAQ plugin for WordPress allows you to create and manage a frequently asked questions section on your website. It provides a simple interface for adding, editing, and organizing questions and answers. Such plugins typically support the ability to categorize questions, enhancing organization and navigation. Many FAQ plugins also include features for animating collapsible answers and customizing the style of questions and answers. This makes the FAQ plugin an excellent tool for improving user convenience and reducing the workload on website support.

8.8.1 HOW TO ADD NEW FAQs

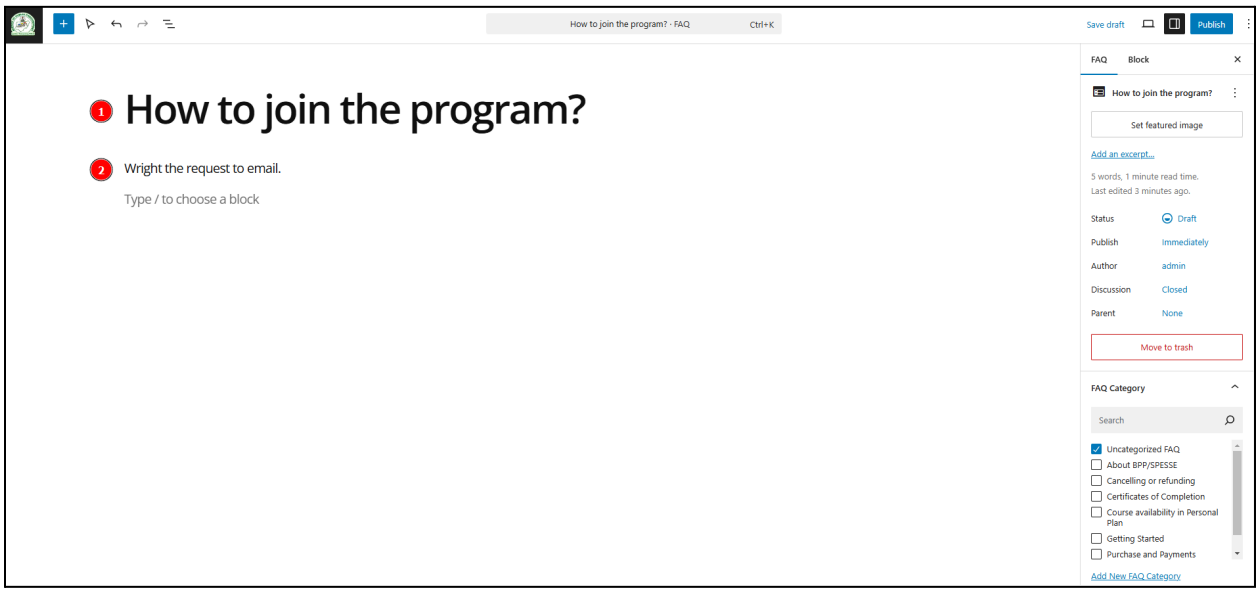
The WordPress system allows you to add new FAQs. Log in as admin, and click on the “All FAQs” to view all list of FAQ



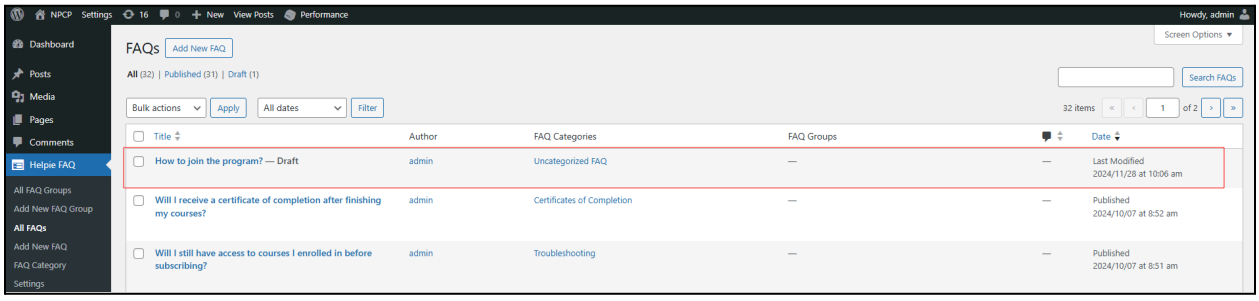
Click on the button “Add new FAQ”.



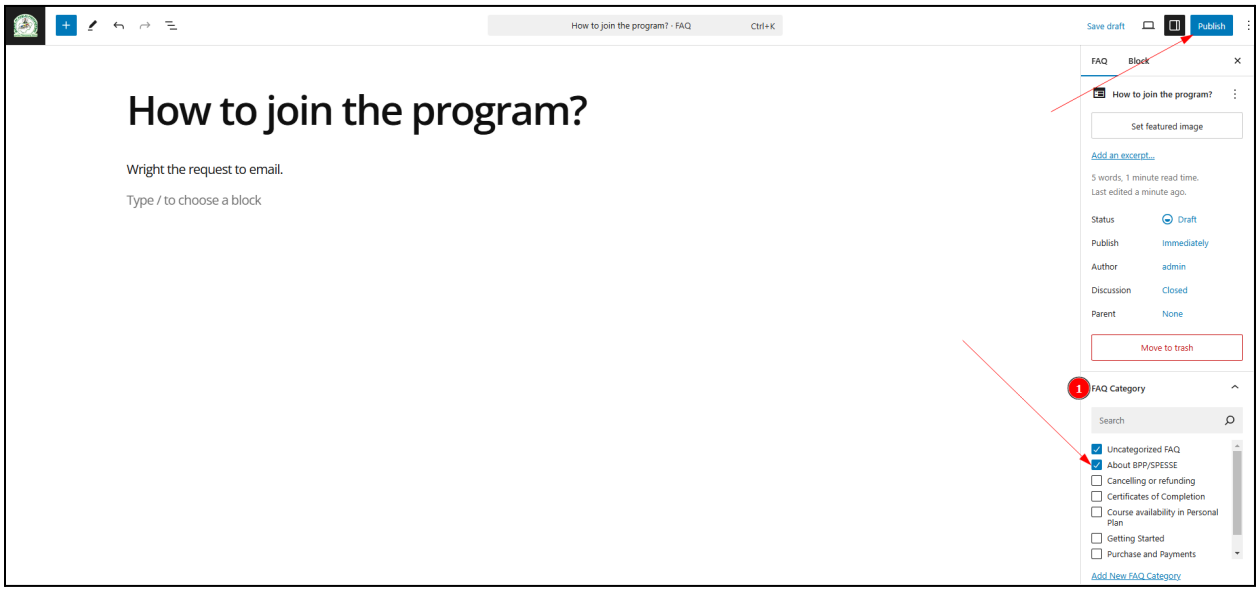
Enter the question and answer.



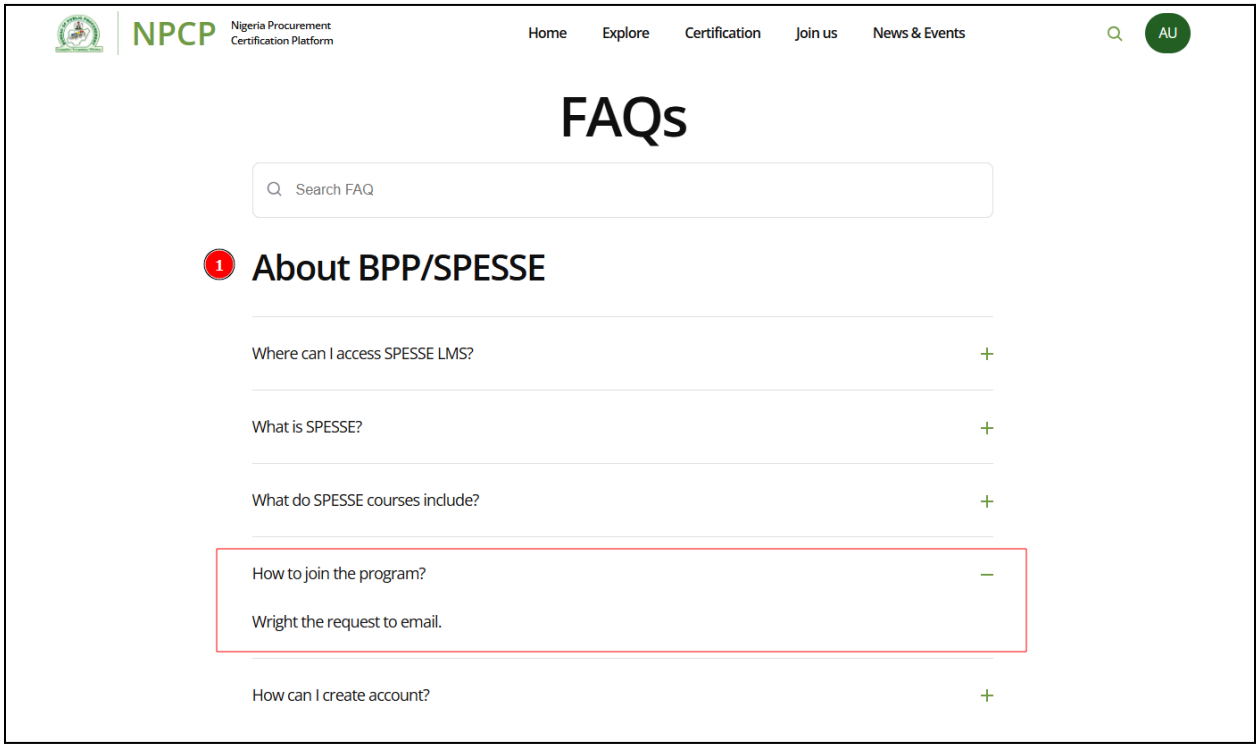
Go back to the list of FAQs to observe the page.



Click on the page -> select the category (f.x. two categories) -> click the button “Publish” and “Publish”

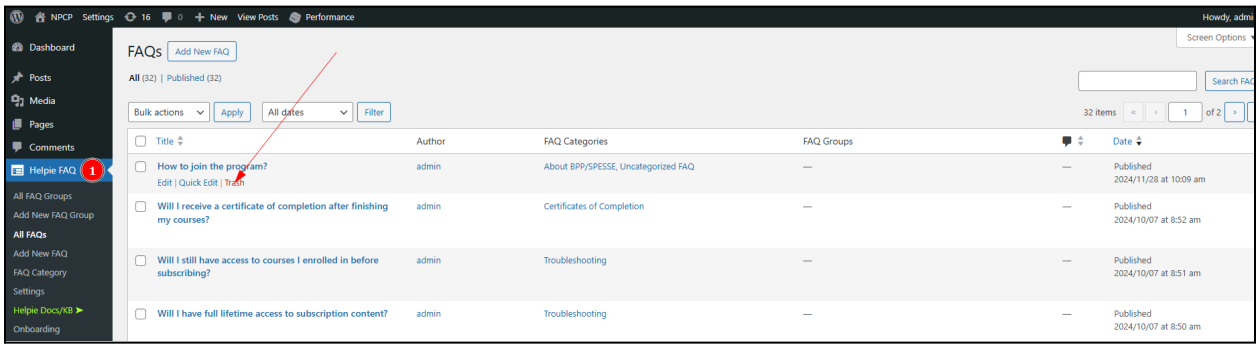


Open the menu “FAQ” on the public portal and observe the new FAQ.



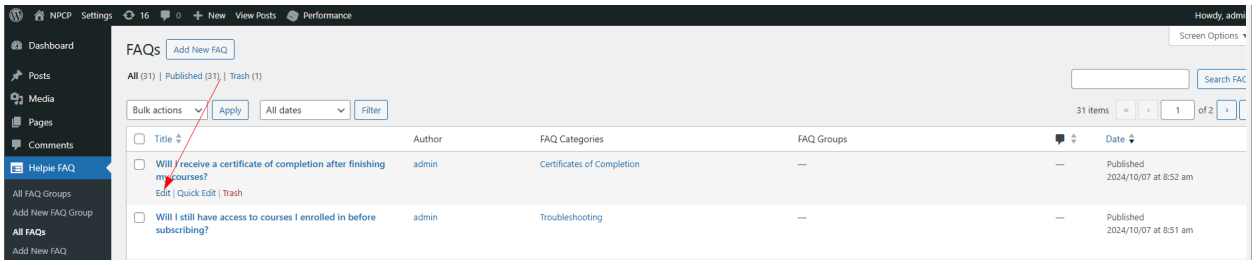
8.8.2 HOW MOVE TO TRASH FAQ

To delete FAQ from the public portal, log in to WordPress, click on the menu “All FAQs”, hover your mouse on the FAQ question, and click “Trash”

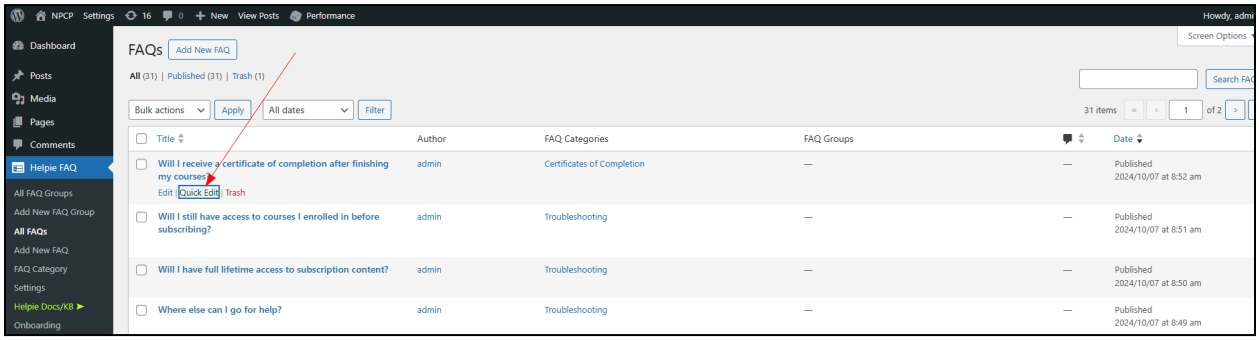


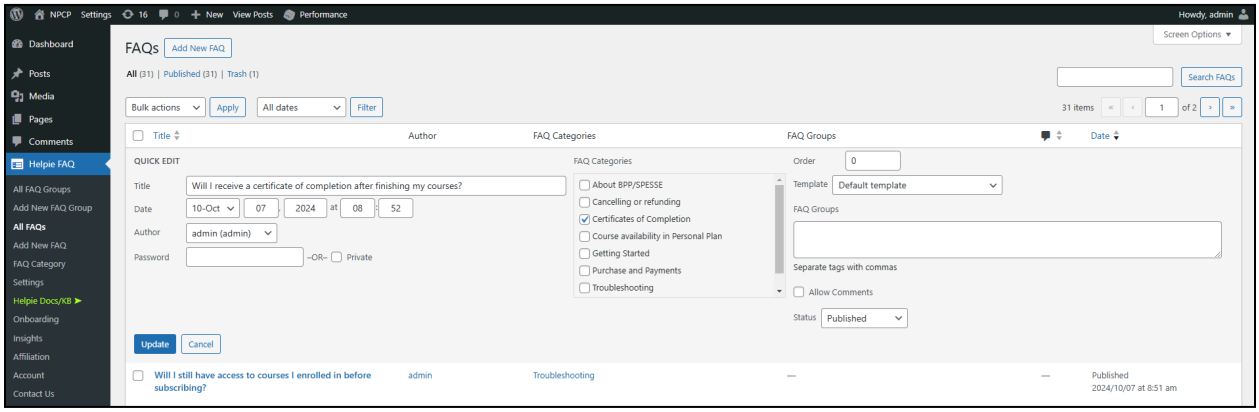
8.8.3 HOW TO EDIT THE FAQ PAGE

To edit the page of FAQ, click on the menu “All FAQs”, click on the button “Edit” and make an edit on the website.



Click on the button “Quick Edit” and make an edition on WordPress.

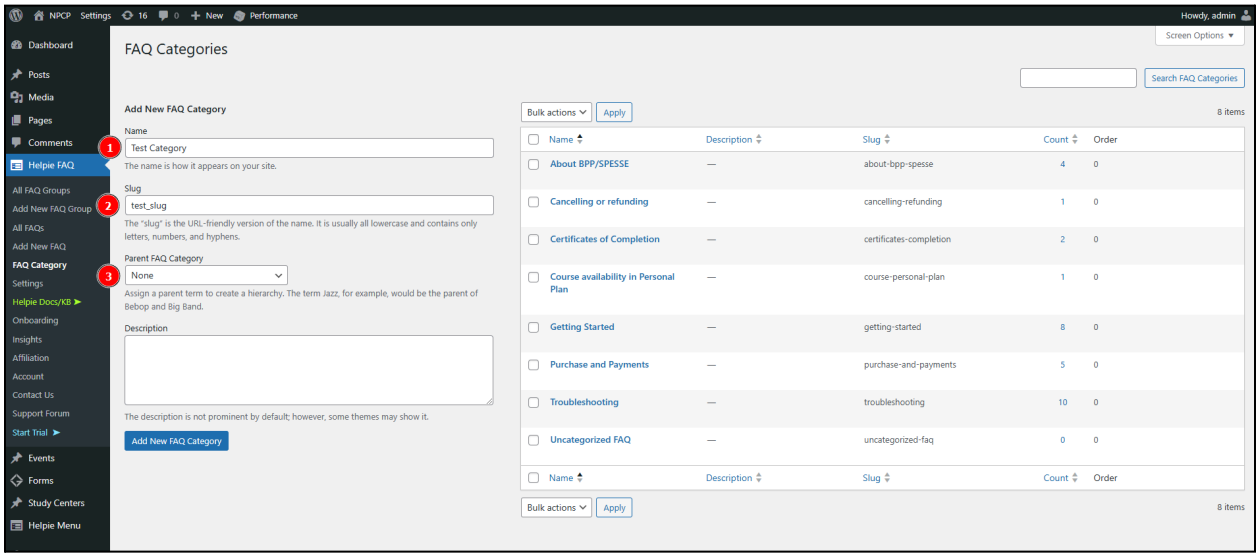




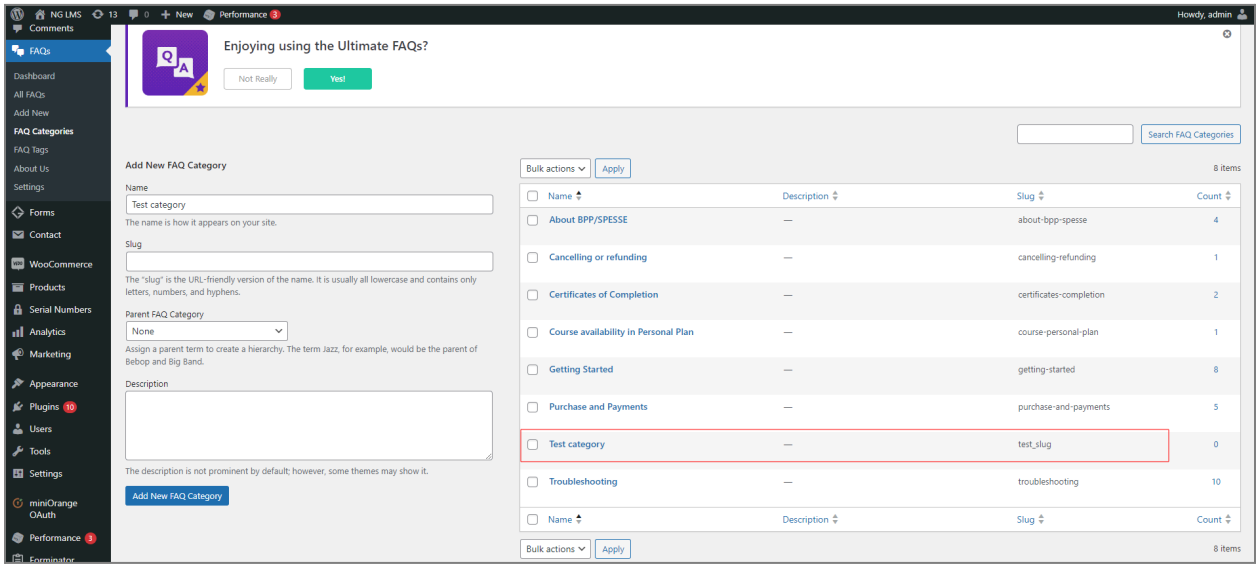
8.8.4 HOW TO CREATE CATEGORY

WordPress allows you to create new categories. Click on the menu “FAQs” -> “FAQ Categories”.

Enter the Name, Slug, and Parent FAQ Category and click the button “Add new FAQ Category”.



Observe the category on the list.



8.8.5 HOW TO MANAGE THE CATEGORY

WordPress allows editing, quick editing, deleting, and viewing categories. Hover the mouse on category and click on one of the buttons (f.x. “Delete”)
